QUOTATIONS

FROM KARL MARX:

...the positivist school, especially the Eng. Eng., makes such a fuss  
about the method of Hegel, as if he had invented it. The Encyclopedic touch, the synthesis. By  
the way, Hegel was compared with Hegel! Altho Comte as a professional mathematician &  
algebraist was incomparably superior in matters of detail, even here Hegel  
was incomparably superior. This positivist rot appeared in 1832!

I am sorry to observe that this is a Party man. I have a thoroughly hostile attitude  
to all forms of positivism. I have a very poor opinion of it, but I regard  
positivism as a useful corrective to the Eng. Eng., who deals with the turning points (ex 1832)  
in history in a most superficial manner. I think it is the last refuge of the庸人 (yōng rén).

RC, ON DENEGATION Freud on dream-thoughts in images  
ON SYMPTOMATIC reading analogous to psychoanalysts's relation to the  
ON FETISH uterances of patient. p.12, in FETISHISMS, for ex.  
THERE IS A DENEGATION OF THE FEMALE'S absence of a penis."

Freudian designation in VERNEINUNG to point out unconscious denial masked by  
conscious acceptance. ALT APPLIES BY ANALOGY TO  
THE PLACE OF IDEOLOGY IN THE SOCIAL FORMATION."

PROBLEMATYC. A word or concept cannot be considered in isolation; it only  
in the theor ideological framework in which it is used  
...it is centred on the absence of problems & concepts within the problematic  
their presence; it can therefore only be reached by symptomatic reading  
on the model of the FREUDIAN ANALYST's READING OF HIS PATIENT's utterances.  
the UNCONSCIOUSNESS of the text.

CAP., I., p.367, ftn.: "The weak points in abstract mat. of natural  
science, a science that EXCLUDES HISTORY & ITS PROCESS, are once  
evident from the abstract & IDEOLOGICAL conceptions  
of its spokesmen, whenever they venture beyond the bounds of their specialty."
