

SUPPORT THE CALL OF THE NATIONAL COMMITTEE OF THE
CENTRAL ORGANIZATION OF U.S. MARXIST-LENINISTS!

BUILD THE MARXIST-LENINIST PARTY WITHOUT THE SOCIAL-CHAUVINISTS
AND AGAINST THE SOCIAL-CHAUVINISTS!

The Denver Committee Against Social-Chauvinism enthusiastically supports the Call of the Central Organization of U.S. Marxist-Leninists to Build the Marxist-Leninist Party Without the Social-Chauvinists and Against the Social-Chauvinists. The founding and continuous building and consolidation of the Marxist-Leninist vanguard party of the proletariat is absolutely necessary to consolidate the victory of revolutionary Marxist-Leninists in the great struggle against open social-chauvinism and to prepare for the impending mass upsurge of the movement of the proletariat and oppressed masses in the U.S.

Ever since the party of the proletariat in the U.S. was liquidated and turned into a traitor capitalist party by Browderite and Kruschevite revisionism the first task of the revolutionary Marxist-Leninists has been to repudiate revisionism and reconstitute the party on the basis of Marxism-Leninism. The advanced elements who came out of the revolutionary movements of the 60's took up this task. But in the great struggle to reconstitute the Marxist-Leninist Party, the revolutionary Marxist-Leninists had to fight a rotten obstructionist trend of neo-revisionism which was promoted, inspired, financed and assisted in an all around way by the Chinese revisionists. While the neo-revisionists borrowed the sophistic methods of Chinese revisionism to sow confusion in the revolutionary ranks, the essence of their political line was the Browderite liberal labor politics. For ten years the neo-revisionists made it their mission to block the reconstitution of the Party. They created a whole cloud of confusion with their theories of "pre-party collectives", "advanced circles", "no center", 1001 paper "lines of demarcation" and the magic "party program" document as basis of unity, etc. The comrades who have formed the Denver Committee Against Social-Chauvinism have had long bitter experience with the neo-revisionists and their factionalization and disruption of the Marxist-Leninists and workers movements. Today the basis of this factionalization and disruption has been exposed. What was before a hidden alliance with the bourgeoisie is today open and disgusting. Today the neo-revisionists have gone bankrupt and have come out as open social-chauvinists. They are raving defenders of the U.S. neo-colonial empire. They are rabid supporters of U.S. imperialists war preparations, advising the American workers to give up revolution and direct their "main blow" at the "foreign threat". The bankrupt neo-revisionists are open anti-communist slanderers of socialist Albania, of the Party of Labor of Albania and its great and beloved leader, Comrade Enver Hoxha and of the International Marxist-Leninist Communist Movement.

The disgusting collapse of neo-revisionism into open social-chauvinism has given rise to a great movement among the Marxist-Leninists and revolutionary activists to repudiate social-chauvinism. This movement has been actively lead by the Central Organization of U.S. Marxist-Leninists which has inspired the movement with the spirit of irreconcilable hostility to social-chauvinism and its conciliators and which has exposed the roots of open social-chauvinism in the neo-revisionism which preceded it and the connection of American social-chauvinism with Chinese revisionism. The struggle against open social-chauvinism in the U.S. is part of the great struggle waged by the International Marxist-Leninist Communist Movement with the Party of Labor of Albania and Comrade Enver Hoxha in the lead against Chinese revisionism. Chinese revisionism has its ideological basis in "Mao Tse Tung Thought" and is today in open alliance with world imperialism, particularly U.S. imperialism. This historic battle against Chinese revisionism is purging the International Marxist-Leninist Communist Movement of opportunist elements, invigorating it and preparing the Marxist-Leninist parties and the proletariat for the new wave of revolutions in the storm and stress period ahead.

In the U.S., the movement against social-chauvinism is uniting all that is alive, honest and loyal to Marxism-Leninism and the proletariat, it is invigorating the movement with a powerful revolutionary spirit and leading to the reconstitution of the party. In this situation there are however certain bookkeepers of theory of paper lines of demarcation who are spending their days and nights trying to demarcate themselves from and throw mud at the Central Organization of U.S. Marxist-Leninists and the revolutionary Marxist-Lenists rather than fighting the social-chauvinists. These people do not have the interests of the proletariat at heart but in fact they prefer unity with the open social-chauvinists defenders of U.S. imperialism. Eventually they will find their way back to the open social-chauvinist swamp. But scream as they might these sects cannot prevent the reconstitution of the Party, without the social-chauvinists and against the social-chauvinists.

Today it is necessary to found the Marxist-Leninist Party of the U.S.A. to consolidate our victories against social-chauvinism and to prepare for the revolutionary upsurge of the 1980's. For this reason the Denver Committee Against Social-Chauvinism has organized itself under the leadership of C.O.U.S.M.L. to carry out the main tasks for founding and building of the Marxist-Leninist Party of the U.S.A., as outlined in the Call of the National Committee of the Central Organization of U.S. Marxist-Leninists:

- 1) Study the classic teachings of Marx, Engels, Lenin and Stalin. Defend the purity of Marxism-Leninism. Wage irreconcilable struggle against social-chauvinism, "three worlds-ism", neo-revisionism, and all of the main variants of modern revisionism including Soviet revisionism, Yugoslav revisionism, "Eurocommunism", and Chinese revisionism.
- 2) Study, discuss and widely distribute the important political documents for the founding of the Marxist-Leninist Party, The Workers' Advocate, and other literature of the COUSML.
- 3) Defend the People's Socialist Republic of Albania with the Party of Labor of Albania and its leader Comrade Enver Hoxha at the head. Mobilize support for Albania, the great inspiration and bright red bastion of the world revolution and socialism.
- 4) Denounce the social-chauvinist theories including: the theory of allying the American proletariat with U.S. imperialism to "direct the main blow against Soviet social-imperialism"; the "three worlds theory" and its support for neo-colonialism and opposition to socialism and revolution; etc.
Develop the struggle against the militarization, war preparation and aggression of U.S. imperialism and Soviet social-imperialism, of the other imperialists and all reactionaries. Oppose the aggressive, warmongering U.S.-China alliance. Use these struggles to expose the utter vileness of the social-chauvinist liberal-labor politics.
- 5) Participate actively in the revolutionary mass movements. Inspire the working class and masses with the spirit of the revolutionary overthrow of the bourgeoisie. Mobilize the advanced elements of the proletariat into the Party work. Work hard to expose and defeat the revisionists' sabotage of the revolutionary mass struggles.
