## Communist League of Austria (KBO)

Dear Comrades,

On the 4th of June you commemorate the first anniversary of the founding of the CPML of USA. To this anniversary we send our warmest revolutionary greetings and best wishes for the further struggle.

The founding of the CPML itself was a great step forward to unite the communists on the basis of the principles of Marxism-Leninism, and a Program, Constitution and a Political Report were adopted. With great joy we have heard of the great advances that the communist movement in your country has made in the last year.

We support your efforts to bring party-building even more forward and to strengthen the unity of all real Marxist-Leninists. This is mainly important in this situation, where the working class movement in the U.S. is in a new upswing. The building of a new vanguard party of the proletariat of the U.S. and a correct, revolutionary leadership of its struggle has also a special significance, because you are combating the heart of U.S. imperialism, one of the two superpowers, the present main enemies of all peoples. Therefore we are very content to see your firm struggle against revisionism, opportunism and white chauvinism.

Forward in the building of the international united front against the two superpowers!

Workers of all countries, unite!

Workers of all countries and oppressed peoples, unite and defeat imperialism!

Long live the ideas of Marx, Engels, Lenin, Stalin and Mao Tsetung!

Walter Lindner,  
Secretary of the  
Central Committee of the  
Communist League of Austria

## Pan-Africanist Congress of Azania (PAC)

Pac remarks by Comrade Henry Isaacs, former chief representative of the PAC in Australia, New Zealand and Oceania, currently serving as deputy representative of the PAC's Permanent Observer Mission to the United Nations (Excerpts).

Comrades,

Revolutionary greetings from the Pan-Africanist Congress of Azania as well as the fighting people of Azania. It is indeed a tremendous pleasure to be sharing with you your first anniversary here today. And in fact your founding brings back memories to us of the founding of the Pan-Africanist Congress.

Your Party was founded because of the betrayal of the working class by the CPUSA. We in Azania had to fight against the chauvinists of the so-called Communist Party of South Africa, who in supporting strikes by white workers adopted as their slogan, "Workers of the world unite to keep South Africa white." They have failed to divest themselves of this colonialist mentality and have instead gone on to continue to attempt to "lead" the liberation struggle. But in attempting to lead the liberation struggle what they in fact want to do is to deliver the people of Azania unto their Soviet masters. And this we shall never do.

The people of Azania are not going to struggle against Western imperialism for over three centuries only then to substitute masters, except that in this case, the masters cloak their imperialist intentions with socialist rhetoric.

In the same way we will not accept the simplistic formula offered to us by people like Andrew Young, who has the audacity to go to Johannesburg to address white capitalists and then offer solutions to the Black oppressed. He then had the gall to tell the Black oppressed there that they should adopt the tactics that were adopted by the civil rights movement here in the United States. That is, that they should march down the streets of Johannesburg singing, "We shall overcome..." and thereafter, boycott the white enterprises.

We in the Pan-Africanist Congress firmly believe that non-violent resistance ended in 1960 with the massacre of unarmed women and

---

children at Sharpeville. The only cure for the ills of colonialism and imperialism, we firmly believe, is the armed struggle, to which end we are mobilizing every man, woman and child in Azania.

But in speaking about our armed struggle, we wish to point out that white domination is simply the South African form of colonialism. But the white ruling class there who derive their authority firstly from British imperialism, which in turn obtained it from Dutch colonialism, are simply holding Azania in trust for international imperialism of the United States.

We do not want our status as slaves improved. Even if every single discriminatory law in South Africa were to be repealed tomorrow, it would make absolutely no difference to the lot of the majority of people in that country. Ours has to go beyond the stage of national liberation, it has to in fact go on to socialism and eventually to communism.

The message that I bring to this conference this afternoon is that the struggle in Azania is simply part of this wider international struggle and that without your support of our struggle, our struggle is in fact diminished. But similarly your struggle cannot be successful without the support of the people of Azania.

The freedom struggles are in fact indivisible and it is only when imperialism and capitalism have in fact been entirely eliminated from this globe that we will have accomplished that for which humanity has striven ever since time immemorial.

## **Marxist-Leninist Communist Party of Bangladesh**

To the Central Committee of the Communist Party (M-L)  
of the United States:

Dear Comrades,

On the occasion of the first anniversary of the founding of your Party, we are sending our heartiest revolutionary greetings to you. We hope that your Party, upholding the banner of Marxism-Leninism-Mao Tsetung Thought, will continually advance along the path of proletarian revolution and score new victories.

With revolutionary greetings,  
Central Committee of the Marxist-Leninist  
Communist Party of Bangladesh

## **Marxist-Leninist Communist Party of Belgium (PCMLB)**

To the Central Committee of the  
Communist Party (Marxist-Leninist)  
of the United States:

Dear Comrades:

We fraternally greet the Central Committee and the militants of the Communist Party (Marxist-Leninist) of the United States and all the friends participating at the commemoration of the first anniversary of the reconstruction of the revolutionary proletarian party of the United States.

It is clear that for the entire international communist movement, the founding of your party was an event of considerable importance. Your task is very important because you are a proletarian party struggling in one of the countries of the first world, which is the worst oppressor, the worst exploiter, the worst enemy of the peoples. You struggle without the slightest complacency, relentlessly against U.S. imperialism, but you

---

refuse with determination to play the game of Soviet social-imperialism, which is the principal source of war in the world. At the same time, your broad struggle against Soviet social-imperialism cannot play the game of U.S. imperialism, which is your direct enemy inside the United States. We see that you assume this complex task in a correct fashion, and we support you. We hope that in the near future, the Marxist-Leninists who are struggling under the tough conditions of Hitlerite terror prevailing in the Soviet Union can also reconstitute their revolutionary proletarian party.

The peoples of the U.S. and of the USSR are not our enemies, but our friends, and the blows which they are aiming at the imperialists in their own countries are a precious aid for all the peoples of the world. We salute the struggle of the workers and of all the minorities of the United States. In particular, we take the opportunity of your commemoration to recall publicly how highly we appreciated the long, heroic strike of the Appalachian miners and the solidarity which the workers and laboring farmers displayed towards this struggle.

Our Party, like yours, holds firmly to Marxism, Leninism, and Mao Tsetung Thought, whose universal principles we are striving to apply to the concrete conditions of our country. In particular, we have, like you, declared our total adherence to that prodigious enrichment of Marxism-Leninism, the theory of three worlds, elaborated by the greatest Marxist-Leninist of our times, Chairman Mao Tsetung. We stigmatize the odious campaign which certain people are waging against the theory of the three worlds, for encouraging all sorts of counter-revolutionary garbage, acting on the fascist line of the gang of four and thus rendering a big service to Soviet social-imperialism.

A revolutionary proletarian party in a country of the second world, the Marxist-Leninist Communist Party of Belgium, designates as the target of the revolutionary struggle in our country the bourgeoisie, more particularly its dominant fraction, the monopolist bourgeoisie. But the fight for socialist revolution cannot be isolated from the fight for national independence, which is an integral part of it. We are fighting to edify the biggest possible united front against the two superpowers, whose rivalry is growing steadily, Europe being its principal target. This rivalry is leading inevitably toward the war and we must be well aware of it.

Our struggle for the united front demands that we denounce with the greatest firmness the agents of Brezhnev's fifth column, who ravage our country; they are found especially in the revisionist communist party and

---

the various Trotskyist sects. We must also struggle decisively against the Munich ideology and the capitulationist tendencies existing within the Belgian bourgeoisie.

We declare that we favor, without any reservation, the closest possible unity of the countries and peoples of Western Europe in the political and economic domains and in defense, against the two superpowers, particularly against Soviet social-imperialism, which occupies nearly half of Europe and which is preparing against the remaining half a potential force for aggression without historic parallel.

We pronounce ourselves firmly for the most complete unity of the countries and peoples of Western Europe and with the countries and peoples of the third world, the decisive force in the struggle against the hegemonism of the two superpowers.

In closing our message, we would like to affirm our confidence in the international communist movement, whose power is enormous and whose unity is growing stronger in the course of the struggle between two lines and in the course of the revolutionary practice of all the Marxist-Leninist parties and organizations.

We refuse to establish the slightest hierarchy among these parties, be they large or small, be they experienced or just going through their birth-pains, in power or still in the first steps in the march to power; they are equal. This does not bar us, however, for reasons stemming from the circumstances of the worldwide class struggle, from declaring our attachment to two among them.

At the moment when an immense and violent slander campaign is being unfurled against Democratic Kampuchea, and when Kampuchea is the victim of a hateful aggression concocted by Soviet social-imperialism with the complicity of the Vietnamese leaders, it is our duty to proclaim loudly our total solidarity with the Communist Party of Kampuchea, headed by Comrade Pol Pot. Under his correct leadership, the Kampuchean people, relying on their own strength, will progress in the building of their fatherland and in the construction of socialism; they will annihilate the aggressor!

We also affirm our total solidarity with the great, glorious, and correct Chinese Communist Party, headed by Chairman Hua Kuo-feng, firm continuer of Chairman Mao. Under his leadership, the Chinese people have totally crushed the fascist gang of four and are going to make China a developed country, with an advanced economy, and modern agriculture and industry. Taking class struggle as the axis, persevering in the

---

revolution under the dictatorship of the proletariat, the Chinese people are accomplishing a great leap forward and we rejoice in it.

Comrades in the United States,

We wish you great successes at the service of the glorious American proletariat, at the service of the American people, at the service of the world proletariat, at the service of all the peoples of the world.

May the friendship between the Communist Party (Marxist-Leninist) of the United States and the Marxist-Leninist Communist Party of Belgium be further strengthened!

The Central Committee of the  
Marxist-Leninist Communist  
Party of Belgium,  
Fernand Lefebvre, First Secretary

## **Canadian Communist League (Marxist-Leninist) (CCLML)**

Dear Comrades,

It is with great joy and enthusiasm that the Canadian Communist League (Marxist-Leninist) greets the celebration of the first anniversary of the founding of the Communist Party (Marxist-Leninist) of the USA.

This anniversary is the anniversary of the rebirth of the revolutionary vanguard of the American working class, of a resounding victory over modern revisionism. The revisionist traitors succeeded in killing the Communist Party of the USA, in turning it into a bourgeois party and agent of the Soviet Union. But they were not able to destroy Marxism-Leninism nor prevent the rebirth of the communist party of the American proletariat. And today, your Party is in the front line of the struggles of all the exploited and oppressed in the USA. It is there, holding high the banner of socialist revolution, ceaselessly strengthening and growing in struggle.

Today, the American working class, the Afro-American nation, all oppressed nationalities and the entire American people have the correct leadership to lead them in their struggle against the imperialist American bourgeoisie. They have their Party leading the struggle for socialist

---

revolution, upholding the right of self-determination for the Afro-American nation, defending every day the democratic rights of the oppressed and exploited.

The creation of the CPML of the USA is an historic event not only for the people of the USA but also for the peoples of the world. For the Canadian working class and people, who face the U.S. superpower's oppression and interference daily, as for all peoples throughout the world heroically fighting these imperialist vultures, the existence of your Party is an immense encouragement. You are striking at the very heart of **the beast. Your blows unite with those inflicted by the oppressed peoples of the globe, and together we shall destroy it. In the present international situation, where the U.S. superpower and the Soviet social-imperialists represent the main enemy of the peoples of the world, your struggle is an essential contribution to the strengthening of the world united front against these two imperialist giants and to the march towards world socialist revolution.**

The Canadian and American people are not only neighbors but also friends and brothers. The close ties uniting the CPML of the USA and the CCL(ML) strengthen daily the unity of our two peoples. Whether in the struggle to free Gary Tyler, in the fightback against the shootings of our eight millworker brothers, or in the support of the heroic struggle of the Azanian people led by the PAC, our two organizations have supported each other in their respective struggles, fought side by side, and this solidarity will continue to grow and strengthen in the future.

The CPML of the USA and the CCL(ML) are united on the firm basis of the principles of Marxism-Leninism and Mao Tsetung Thought. Since its creation, your Party has ceaselessly defended Marxism-Leninism against attacks by revisionists and opportunists of all shades. You have consistently supported great socialist China, resolutely defended the brilliant theory of three worlds developed by Mao Tsetung, actively supported the struggles of the peoples of the third world, and always fought for the unity of the world communist movement on the correct basis of the eternal principles of Marxism-Leninism.

The American working class and people have a long and rich fighting tradition. The road to their liberation is long, but their future is radiant. You represent the revolutionary hopes of all exploited and oppressed in the USA, the desire of the immense majority to make the USA a socialist country. Under the leadership of the Communist Party (Marxist-Leninist) of the USA, this hope will be translated into great victories.

---

Long live the CPML of the USA!  
Long live Marxism-Leninism and Mao Tsetung Thought!  
Long live the unity between the CPML of the USA and the CCL(ML)!

(Signed)  
Central Committee of the  
Canadian Communist League

## **Third World Peoples' Anti-Imperialist Committee (CAPT), Canada**

Dear Comrades,

The Third World Peoples' Anti-imperialist Committee extends its anti-imperialist greetings on the historic occasion of the first anniversary of the formation of your party.

The great American working class had gone far too many years without a vanguard to lead its revolutionary struggle for socialism. The founding of your party last year and the initial successes you have achieved since represent not only a great victory for the American people but also for the people of the third world and the entire world.

By creatively applying the three world analysis formulated by Chairman Mao to your own concrete situation and in leading the struggle for socialism in the U.S., your party has once again raised high the banner of Marxism-Leninism-Mao Tsetung Thought as a beacon for the American working class.

Hail the first anniversary of the founding of the CPML!  
Long live the revolutionary struggle of the American people!  
Down with the two superpowers!  
Long live the great unity of the third world and American peoples!  
Long live proletarian internationalism!

With revolutionary  
anti-imperialist greetings,

## **Marxist-Leninist League of Colombia**

Comrades,  
Communist Party (Marxist-Leninist) of the United States,  
We extend our militant greetings.

We wish to express our most heartfelt congratulations on the First Anniversary of the founding of your Party on June 4.

There is no doubt that this date is especially significant for the communists of the United States, as well as the working class, the oppressed nationalities and all strata of the people of your country. With the founding of the CPML, the North American proletariat has acquired the fundamental tool to successfully carry out the socialist revolution and contribute greatly to the revolutionary struggle throughout the world.

This is a very significant date for the international proletariat and for the revolutionary peoples of the world, especially those of Latin America. The advance of the revolution in the United States, the main imperialist superpower which oppresses and exploits our nations and peoples, greatly serves to advance the worldwide revolution, especially the revolutionary struggles of our people.

To us, the founding of your Party was a day of joy, a great encouragement and a source of rich lessons for our struggle to build the vanguard detachment of the proletariat, which is the central task of all of the Marxist-Leninists in Colombia. In one year of life, your Party already has made important contributions to the revolutionary cause of the proletariat.

You have stood out in the struggle to grasp and defend Marxism-Leninism-Mao Tsetung Thought and to apply it to the concrete conditions of the U.S., and to battle firmly against all anti-Marxist forces.

You have taken a firm and honest position in defense of the scientific theory of the three worlds, which was personally developed by Chairman Mao Tsetung, and in facing up to your enemies without vacillation, particularly the revisionist party of the United States.

Likewise, you have done a meritorious job in uniting the working class with the oppressed nationalities of the United States, taking revolutionary ideas among them and organizing them to struggle. You have sought to unite their struggles for immediate demands to the struggle for proletarian power and socialism. For that reason, your work has won the

---

support of broad sectors of society.

You have carried out a leading internationalist role in defense of the peoples of the world, particularly of the third world, against the two superpowers, main enemies of all the peoples of the world. You have also stood out in the support you have given to the genuine Marxist-Leninist parties and organizations throughout the world who persist in defending the Marxism-Leninism of our time, Mao Tsetung Thought.

The Marxist-Leninists of Colombia have a lot to learn from your experiences.

We extend our warmest congratulations and a communist embrace on the first anniversary of the founding of the CPML to the Marxist-Leninists of the United States, to you, your Central Committee headed by Comrade Michael Klonsky, and to your cadres, as well as to the working class and oppressed nationalities of the U.S.

Fraternally,  
National Leadership  
Liga Marxista-Leninista  
de Colombia

## **Camillista Movement (Marxist-Leninist) of Colombia**

Dear Comrades,

On behalf of the Movimiento Camilista (Marxista-Leninista) of Colombia please accept a fraternal and revolutionary greeting on the first anniversary of the founding of the Communist Party (M-L) of the U.S.

The Communist Party (M-L) of the U.S. and the Movimiento Camilista (M-L) of Colombia have had good, friendly relations for some years . . .

The Movimiento Camilista (M-L) has much agreement with the political orientation of the CPML of the U.S., in the struggle against the two superpowers, Soviet social-imperialism and U.S. imperialism, common enemies of the people of the world.

The MC (M-L) considers the founding of the CPML a great step forward by the proletariat of the U.S. in its struggle for communism, one that overcomes the great betrayals and damages caused in the past by the revisionists . . .

---

The founding of the CPML is also the triumph of Marxism-Leninism Mao Tsetung Thought in the U.S., against opportunist and "super-revolutionary" currents which denigrate Mao Tsetung, the scientific theory of the three worlds and the glorious People's Republic of China.

We wish you complete success on the First Anniversary of the founding of the CPML of the U.S.

Fraternally,  
Central Committee  
Movimiento Camilista (M-L) of Colombia

## **Joint Message of Solidarity—Linea Roja Revolutionary Movement of June 14 and Proletarian Banner (Dominican Republic)**

To the Central Committee of the  
Communist Party (Marxist-Leninist)  
of the United States:

Dear Comrades:

On the occasion of the celebration of the first anniversary of the founding of the Communist Party (M-L) of the United States, we join together to send to you our most warm and fraternal greetings on this memorable event for the communists, the proletarians and the oppressed people; and nations of the United States.

The constitution, one year ago, of the CPML of the U.S., marked the first step in a long march of the U.S. Marxist-Leninists to give to the working class its general staff, its political vanguard, firmly adhering to Marxism-Leninism-Mao Tsetung Thought and to the principles of proletarian internationalism.

With the founding of the CPML in the very heart of one of the two superpowers, the U.S. Marxist-Leninists have contributed significantly

---

to the developing and strengthening of the unity of the international communist movement, to the unity of the proletariat and the oppressed peoples and nations, and to the triumph of the great cause of socialism and communism in the United States, and in the rest of the world.

Since its founding, the Communist Party (Marxist-Leninist) has grown stronger by integrating the universal truth of Marxism-Leninism-Mao Tsetung Thought with the concrete practice of the revolution in the U.S. The CPML has formulated a correct political, ideological and organizational line in the course of its struggle against the monopoly bourgeoisie, and revisionism, represented by the traitor clique of Gus Hall, and against opportunism, and has experienced significant advances in its work of education, organization and mobilization in the heart of the working class, the people and oppressed nationalities.

In the light of the correct teachings of Chairman Mao Tsetung of "practicing Marxism and not revisionism, working for unity and not for splits, and acting open and aboveboard and not intriguing and conspiring," the CPML has made very big efforts in behalf of the unification of the U.S. Marxist-Leninists in a single party, to which the most eloquent testimony is the recent Joint Declaration signed by the CPML, the August 29th Movement (M-L) and the I Wor Kuen.

The Dominican Marxist-Leninists fully support this joint initiative and consider it as powerful stimulus to our struggle to unify the Marxist-Leninists and to found the Dominican Workers Party (el PTD) in 1978.

In the international communist movement, the CPML has adhered firmly to the correct theory of the three worlds formulated by Chairman Mao Tsetung, has persisted in the great struggle to criticize and unmask revisionism—modern revisionism, with the Soviet revisionist clique as its center and has brought active and meaningful support to the cause of the revolution and socialist construction in China and other countries, and to the struggles of the proletariat and oppressed peoples and oppressed nations of the world, thus contributing to the formation of the broadest international united front against the policies of aggression and war and the hegemonistic plans of the two superpowers, the Soviet Union and the United States.

Comrades,

As we noted in our Joint Declaration, "As communists of the third world and one of the two superpowers, our unity is a great treasure which will be cherished in the years to come. No matter what difficulties may confront us, our unity is indestructible because it is based on the immortal principles of communism, the liberating ideology of the

---

international working class and of all the oppressed peoples."

On this first anniversary of the founding of the CPML of the United States we wish you new and bigger victories, and we restate our profound conviction in the definitive victory of your struggle against imperialism, colonialism, hegemonism, and for the socialist revolution and the establishment of the dictatorship of the proletariat in the USA.

Long live the First Anniversary of the CPML of the U.S.!

Long live the friendship and militant unity between  
the CPML and Linea Roja MI4J and Bandera Proletaria!

Long live the friendship between the Dominican people and  
the people of the U.S.!

Long live the correct theory of three worlds!

Long live proletarian internationalism and the unity of the  
international communist movement!

Long live Marxism-Leninism-Mao Tsetung Thought!

## World Wide Federation of Ethiopian Students

To the Communist Party (Marxist-Leninist)  
of the United States:

Comrades,

The World Wide Federation of Ethiopian Students sends its fraternal and revolutionary greetings to the First Anniversary of the Communist Party (Marxist-Leninist) . . .

The American working class has a glorious history of struggle against the bourgeoisie. It is a rich and militant tradition which has become a source of great inspiration to the international working class. The famous holidays of the workers such as the International Workers Day (May Day) and the International Working Women's Day were born out of the struggle of the multinational U.S. working class. And today in the face of mounting capitalist crisis and the attack of the bourgeoisie, American workers have shown their determination to fight back. The recent 180,000-strong coal miners' strike—unparalleled in the union's history—is a testimony to their fighting tradition.

Not only have the American people opposed exploitation and national oppression at home, but they have also struggled against imperialist policies of aggression and war and supported national liberation movements. A case in point is the support, both material and moral, given to our country when it was aggressed upon by fascist Italy in 1935. We cherish the memories of tens of thousands of American people, especially the Afro-American masses, who took to the streets from Harlem to the South Side of Chicago reverberating the call by the then-revolutionary CPUSA—HANDS OFF ETHIOPIA! It was a common struggle, as your respected member, Comrade Harry Haywood, points out in his book, *Black Bolshevik*, the struggle for the defense of Ethiopia against fascist invasion was "linked to the struggle against the enemy at home."

Today it seems like history is repeating itself. The Ethiopian and Eritrean people now face a ferocious enemy, which has poured in 1.5 billion dollars worth of armaments and 17,000 Cuban mercenaries. While revisionist scum like the "C" PUSA praise the criminal role of the new czars, genuine anti-imperialists and Marxist-Leninists such as the CPML have taken upon themselves the good traditions of the U.S. working class by exposing the role of the two superpowers, particularly that of

the Soviet Union. We are certain that this good tradition will continue.

Comrades and friends,

Ever since the "C" PUSA betrayed the working class of this country, genuine Marxist-Leninists have worked hard to create a vanguard party. The October League, which played the leading role in the formation of your party, made tremendous contributions to the anti-revisionist communist movement. And now the CPML, along with other Marxist-Leninist organizations, is making great efforts to unite all U.S. Marxist-Leninists into a strong and unified party of the new type.

The existence of the CPML in the heart of one of the two superpowers gives tremendous inspiration and courage not only to us but also to the people of the entire world who would rejoice at the defeat of the U.S. imperialist superpower. Comrades, you are faced with the monumental and honorable task of integrating the universal teachings of Marx, Engels, Lenin, Stalin and Chairman Mao to the concrete conditions of your country.

At present the struggle against the two superpowers has brought us together. In this struggle we believe, the unity and solidarity of the people of the U.S. and Ethiopia and all the forces who oppose the hegemonism of these two superpowers will be further strengthened.

Down with the Two Superpowers!

Long live the friendship between the  
Ethiopian and American people!

Secretary of Foreign Office, World Wide  
Federation of Ethiopian Students

## Communist Party of Germany (KPD)

Dear Comrades,

The Communist Party of Germany (KPD) sends its most militant and warm greetings to the Central Committee of the Communist Party (Marxist-Leninist) of the USA on the occasion of the first anniversary of its founding, and to all members and friends of the Party and today's mass meeting.

The 4th of June 1977 was an important day not only in the life of the Communist Party (Marxist-Leninist) of the USA, but also in the life of the American working class, the American people and the movement of the

---

oppressed nationalities in your country. As was laid down at the founding Party congress, your Party has undertaken the task of overthrowing U.S. imperialism, setting up the dictatorship of the proletariat, and building socialism; in the past year your Party has already made important progress in asserting the leading role of the working class in the revolutionary struggle, in forging the close alliance of the working class with the movement of the oppressed nationalities, in leading the struggle against the two superpowers, in unmasking the Soviet Union as a social-imperialist, social-fascist power and dangerous superpower, in opposing the war preparations of U.S. imperialism, and supporting the peoples and countries of the third world. In all this your Party has been guided by Comrade Mao Tsetung's theory of the division of the world into three worlds, for this is the class-line of the international proletariat.

We German communists, who are fighting for an independent, unified and socialist Germany in our country, greet with enthusiasm the fact that the bourgeoisie of the U.S. superpower is now confronted with a Marxist-Leninist Party which is doing everything to fight for the unity of the most progressive sections of the proletariat, and is successfully combining the universal truth of Marxism-Leninism with the concrete reality of the revolution in the USA, and successfully fighting modern revisionism.

We wish the Communist Party (Marxist-Leninist) of the USA future success in its revolutionary activities.

We hope that the friendly relations, the solidarity and the proletarian internationalism between the German and American working classes, between the German and American peoples and between our two parties will be further consolidated and expanded.

Long live Marxism, Leninism and Mao Tsetung Thought!

Central Committee of the  
Communist Party of Germany

## **Marxist-Leninist Communist Party of Greece (MLKKE)**

Dear Comrades,

In a few days, the CPML of the U.S. will celebrate the first anniversary of its founding. On this occasion, we wish to send you the warmest congratulations from our Party, from all the members and sympathizers of the Marxist-Leninist Communist Party of Greece.

The formation of the CPML of the U.S. was the fruit of the persevering and implacable struggle of the true communists for the defense of Marxism-Leninism, in the face of the attacks and alterations by the revisionists and opportunists of all types, and for the correct leadership of the struggle of the U.S. proletariat. With the formation of the CPML, the working class of the U.S., has gained its worthy and meaningful leader and will open bright perspectives for the struggle.

In the course of the year which has passed since its formation, the CPML has successfully followed a correct, proletarian revolutionary line. Linking the universal truth of Marxism-Leninism to the concrete revolutionary practice of its country, it has firmly led the struggles of the U.S. proletariat against the monopoly bourgeoisie internally, and against the two superpowers, U.S. imperialism and Soviet social-imperialism, internationally. On this basis, it has strengthened its ties with the laboring masses and has won some important victories in all fields. We are persuaded that in the future, the CPML of the U.S., persisting firmly in the application of its correct Marxist-Leninist line, will win new successes still more important for the progress of its strategic objective, the overthrow of U.S. imperialism and the establishment of the dictatorship of the proletariat in the USA, and will make a still greater contribution to the cause of liberation of all the oppressed and exploited peoples and nations and to the victory of the world proletarian revolution.

Today, the situation in the whole world is excellent. It is developing in a favorable manner for the peoples and an unfavorable manner for the enemies of the peoples: the united front against the two superpowers is becoming broader and broader. The peoples are becoming still more aware each day of the criminal nature of U.S. imperialism and Soviet social-imperialism, the newcomer imperialist superpower, hidden and

---

thus more dangerous. Everywhere in the world, the waves of the peoples' struggle are on the rise. The facts confirm the analysis made by Chairman Mao Tsetung concerning the present international situation and verify his prediction: countries want independence; the nations, their liberation; and the peoples, revolution; this is the irreversible current of our epoch. The great strategic thesis of Chairman Mao Tsetung on the three worlds has become an important leading weapon in the hands of all the true Marxist-Leninist parties and organizations in the world, and for their correct orientation in the present international situation and for the correct determination of their tasks.

In these conditions, the unity and the regroupment of the international communist movement acquires even greater importance on the basis of Marxism-Leninism-Mao Tsetung Thought and of proletarian internationalism. This is why the Marxist-Leninist parties and organizations of various countries are unceasingly strengthening their fight against modern revisionism with the Soviet leadership renegade clique at its center, as well as against opportunism of all sorts.

Dear Comrades,

In the great struggle which is unfolding today on the world level, our two peoples, the Greek and the American people, and our two parties, the MLKKE and the CPML of the U.S., find ourselves on the same side, and fighting against the same enemies and for the same goals.

Our people have been subjected to a number of interventions by U.S. imperialism and today, our struggle for national independence is linked to the struggle for the overthrow of the domination of U.S. imperialism. But, in relation to the peoples of the U.S., our people have deep sentiments of friendship because we know well how you too are the victims of U.S. imperialism. The workers of Greece and the workers of the USA are brothers. And the communists of Greece and the communists of the USA are brothers. And we feel a great joy and pride in seeing that our comrades inside one of the two biggest centers of imperialism in our epoch, the USA, have raised high and firmly preserved in their hands, the great red flag of Marx, Engels, Lenin, Stalin and Mao Tsetung.

Long live the Communist Party (Marxist-Leninist)  
of the United States!

Long live the unity and the solidarity between the  
Marxist-Leninist Communist Party of Greece and the

international communist movement!

Long live Marxism-Leninism-Mao Tsetung Thought

## **May 18 Haitian Revolutionary Organization—New Democracy**

To the Central Committee,  
Communist Party (M-L)  
of the U.S.A.

Dear Comrades,

Our Revolutionary Organization sends its warm and fraternal greetings to you and all members of the CPML on the occasion of its first anniversary. The June 4th Founding Congress of your Party represented a great step forward for the communist and workers movement in the U.S.A. Today when the crisis of imperialism is deepening and the rivalry between the USSR and the U.S.A., the two superpowers, is raging, thereby increasing the danger of a new world war for redivision and domination of the world, the existence of a Marxist-Leninist Party is indeed a fact to rejoice in. The CPML has strived and continues to strive for the application of the universal truth of Marxism-Leninism-Mao Tsetung Thought to the concrete practice of revolution in the U.S.A. It has widened its links with the workers movement and the oppressed nationalities, playing an active and leading role in their fightback

struggles, bringing them scientific socialism and the communist outlook. The CPML is also working hard for communist unity in establishing a single, powerful and unified vanguard Party of the U.S. proletariat.

Our Revolutionary Organization fully supports these efforts made by the CPML and wishes you full success. The relations between our two organizations, based on the principles of independence and mutual support, will undoubtedly develop in the common struggle against U.S. imperialism, which is the ruling class of your country and the dominant power and main enemy of the Haitian people and nation.

Our people's struggle, directed toward the overthrow of the U.S.-backed fascist dictatorship of Duvalier for a free, prosperous, sovereign and new democratic Haiti led by our M-L vanguard: Haitian Workers Party, is part and parcel of the third world peoples' struggle for liberation. It is part and parcel of the worldwide united front against imperialism and hegemonism.

The struggle of the working class and other toiling masses in the first and second world countries against monopoly capitalism, superpower hegemonism, for their democratic rights and for socialist revolution and the support they render to the third world is also part and parcel of that international united front. We support each other and we will triumph together.

May the friendship between our two organizations and people  
develop further!

Down with imperialism, social-imperialism and their running dogs!

Long live proletarian internationalism!

## Communist League of Union (M-L) of Iceland (EIKML)

Dear Comrades,

The Communist League of Union (Marxist-Leninist) of Iceland would like to extend its warm congratulations on the occasion of your first anniversary of the founding of the Communist Party.

The Communist Party (Marxist-Leninist) of the U.S. represents and defends the fundamental interests of the U.S. working class. We firmly support the struggle you are leading in your country. The founding of the CPML was a great step forward—the founding of the vanguard party of the working class, a new authentic Marxist-Leninist party.

The USA and Iceland are close neighbors. Iceland is a second world country while the U.S. is one of the two superpowers. But the proletariat and the peoples of our two countries are struggling side by side to overthrow the bourgeoisie by socialist revolution, and are struggling against imperialism and all reaction. Our peoples are united in their struggle against American imperialism, which is continually seeking to strengthen its domination, and against Soviet social-imperialism, the most aggressive and most threatening superpower, the most dangerous source of war in the world today.

There is no doubt we will be able to defeat imperialism and reaction by firmly basing ourselves on Marxism-Leninism and Mao Tsetung Thought and guided by the correct theory of three worlds developed by Chairman Mao.

Comrades, we wish you complete success and ever greater victories. Receive our revolutionary greetings.

Long live the Communist Party (Marxist-Leninist) of the U.S.!

Long live Marxism-Leninism, Mao Tsetung Thought!

Long live proletarian internationalism!

## **Communist Party of India (Marxist-Leninist)**

Dear Comrades,

We thank you for your letter of April 11, 1978, and are very pleased to know that your Party is celebrating the first anniversary of its founding.

On this occasion we extend to you, on behalf of the Communist Party of India (Marxist-Leninist), our warm and fraternal greetings.

For far too many years the working class in the U.S. had remained deprived of its vanguard—its political organization and leadership. The Khrushchevite treachery and disruption in the international communist movement reduced the old Communist Party of the U.S., like many parties around the world, to a collaborationist, revisionist organization. In the name of “peaceful transition” and “peaceful coexistence,” it abandoned, like its counterparts in other parts of the world, the working class struggles against the political rule of capital, and over some time became an unabashed agency of Soviet social-imperialism. As U.S. imperialism was unleashing naked terror around the world by waging wars of aggression against the genuine struggles for national liberation, for sovereignty, and for socialism, and as it was shifting more and more burdens on the American working people beside using them as cannon-fodder in its wars of aggression, the American working class had no political organization of its own to defend its interests, to wage class struggles against its oppressors, and to uphold proletarian internationalism on its behalf. The founding of the Communist Party (Marxist-Leninist) in the U.S. a year ago was thus a major turning point in the history of the American working class as well as a major event in the international communist movement.

Over the year we have watched with great interest the many advances your Party has made; these have been a source of unbounded joy and inspiration for us. We are confident that in the coming years your Party will make many more advances in the revolutionary struggles of your people...

India being an important country of the third world and thus a part of the main force against imperialism and superpower hegemonism, our Party is conscious of the immense responsibility that lies on us for the

---

worldwide proletarian revolution. We are aware of the serious threat to world peace and progress posed by the hegemonic designs and war preparations of the two superpowers, particularly of Soviet social-imperialism. We are determined to carry forward, ever more vigilantly and ever more forcefully, our struggles to free our people and our society from the clutches of feudalism, comprador and bureaucratic capitalism, U.S. imperialism and Soviet social-imperialism. In this we are together with the American people, and with the people of the whole world.

Please accept our warmest greetings for the commemoration of the first anniversary of your Party's founding. We wish you a very successful mass meeting in Chicago on this occasion, and we wish you continued successes in your revolutionary struggles.

Down with imperialism and superpower hegemonism!  
Long live third world unity against the two superpowers!  
Long live the unity of Indian and American people!  
Long live Marxism-Leninism-Mao Tsetung Thought!  
Long live CPI(M-L)!  
Long live CP(M-L) U.S.!  
Long live proletarian internationalism!

With communist greetings,

## Indian Peoples Association in North America (IPANA)

Dear Comrades:

On the occasion of the first anniversary of the founding of the CPML, USA, the Indian People's Association in North America (IPANA) along with its three publications, *New India Bulletin*, *Wangar* and *India Now*, wish to extend our warmest felicitations and best wishes. We would also like to take this opportunity to express our sincere appreciation for your support to our organization and above all for your continued support for the struggle of the people of India against feudalism and imperialism and for democracy and independence.

By upholding and applying Chairman Mao's theory of the three worlds, you have mobilized support of the American working class and people for the struggle of the entire third world against the two imperialist superpowers and for independence of their countries at a time when there have emerged openly, forces which are bent upon undermining the struggle for independence of the third world countries.

We are hopeful that you will make an even greater contribution in advancing the struggle of the American working class, of the Afro-American people and the racially discriminated national minorities and immigrants in America. We also hope that the relations between our two organizations will strengthen day after day.

With warmest greetings, IPANA

## Third World Unity Journal (India)

Dear Comrades:

It is with great joy and enthusiasm that we learned about the First Anniversary of the Communist Party (Marxist-Leninist) to be held in the second week of June. The role you have sincerely undertaken in uniting the U.S. proletariat to fight against imperialism and ensuring the socialist revolution in the United States will, no doubt, triumph under the vanguard party. This has already been acclaimed by the Marxist-Leninist revolutionaries, the progressive and democratic people all over the world, particularly in the third world countries.

---

While upholding the spirit and principle of proletarian internationalism by relying on the correct and just theory of three worlds by Comrade Mao Tsetung, the Communist Party (Marxist-Leninist) made significant contributions for the unity of the international communist movement, and rendered unconditional support to the anti-superpower, anti-expansionist, anti-hegemonic, anti-Zionist, and anti-fascist struggles of the oppressed peoples and nations of the third world. Your organs and publications, notably *The Call* and *Class Struggle*, are helping the revolutionaries the world over by disseminating the correct line of developing the broadest international united front against the aggressive and expansionist policies of war by the two superpowers, U.S. imperialism and Soviet social-imperialism.

We are confident that the fraternal friendship and solidarity forged between us will develop and strengthen constantly in the future.

With fraternal greetings and solidarity,

## The Marxist-Leninist Organization of Iran

The Central Committee of the  
Communist Party (Marxist-Leninist)  
of the U.S.

Dear Comrades,

On the occasion of the first anniversary of the founding of the Communist Party (Marxist-Leninist) of the U.S., we extend our warm and fraternal greetings to you and, through you, to all the members of the Party.

The founding of the Communist Party (Marxist-Leninist) of the U.S. was a momentous victory for the U.S. working class and oppressed nationalities.

Last year your Party, holding aloft the banner of Marxism-Leninism-Mao Tsetung Thought, resolutely opposed revisionism, imperialism and

---

superpower hegemonism, rallied masses of the American people in the struggle against U.S. monopoly and achieved important victories. We feel elated and inspired by this.

Your staunch defense of Mao Tsetung Thought, and especially his strategic concept of the three worlds, made an important contribution to the cause of isolating revisionism and opportunism.

Today, U.S. imperialism and Soviet social-imperialism are the biggest exploiters and oppressors in the world. Their contention for world hegemony is bound to lead to war someday. The Soviet Union which is a newcomer to the imperialist feast is the more aggressive of the two superpowers, and has become the main source of war and its main instigator. Its wild ambitions and its criminal acts in Africa have awakened more and more people to the true features of the Soviet Union—a fascist aggressor bent on world domination.

The peoples of the world are getting more and more united in their common struggle against imperialism and superpower hegemonism, and the international united front is gaining in strength.

We are convinced that the Communist Party (Marxist-Leninist) of the U.S., by adhering to the correct line and policy and persevering in struggle, will certainly surmount all difficulties on the road of advance and win greater victories in the years to come.

## Workers Party of Japan (Keishosha)

On the occasion of the glorious first anniversary of the founding of the Communist Party (Marxist-Leninist) of the U.S., the Central Committee of the Workers Party of Japan expresses, on behalf of all our Party members, our warmest congratulations to you and comrades of all your Party members through you.

Since the modern revisionists in the 1950s usurped the leadership of the Communist Party U.S.A., and degenerated it into a social-fascist organization, the revolutionary comrades of the U.S. have, under difficult conditions, persisted in the struggle against the ruthless oppression and exploitation by U.S. imperialism, persisted in the struggle against the revisionism and opportunism of various kinds and have finally won the founding of the Communist Party (Marxist-Leninist) of the U.S. in June last year. This is the great victory of Marxism-Leninism-Mao Tsetung Thought and is the great victory of the proletariat and people of the U.S. filled with the revolutionary tradition and revolutionary spirit.

In the past one year since its foundation, the Communist Party (Marxist-Leninist) of the U.S., aiming at the victory of the socialist revolution and the realization of the dictatorship of the proletariat has, in the United States, one of the two imperialist superpowers, persistently carried on the activity to oppose the contention for hegemony and preparation for war by two superpowers of U.S. and Soviet Union and strengthen the unity with the national liberation movements of the third world as well as the resolute struggle to oppose the class and national oppression by the imperialist bourgeoisie within the country by rallying the working class and broad masses of people. Through *The Call*, the organ of your Party, as well as through various publications of your Party, we have come to know your theoretical and practical activity and the situation of the revolutionary struggle of the workers and people of the U.S. and have been greatly encouraged.

The Workers Party of Japan is the vanguard detachment of the Japanese working class with Marxism-Leninism-Mao Tsetung Thought as its guiding ideology. Since its foundation in September 1973, our Party has, carrying the flag of the national liberation democratic revolution aloft, been persistently carrying on the struggle to resolutely oppose aggression, oppression and intervention by two superpowers of

---

Soviet Union and U.S. and win true national independence and to overthrow the rule of the reactionary class with the monopoly bourgeois class as the center and establish the political power of the people. To struggle against the war preparations by the two superpowers of Soviet Union and U.S. and for the strengthening of the revolutionary force, this is the present central task of our Party. To step up and enlarge, in the course of this struggle, the movement to oppose Soviet hegemonism and regain the northern territories of our country occupied illegally by them has, together with the winning of the conclusion of the Japan-China Peace and Amity Treaty through strengthening friendship of people of Japan and China, become the important struggle task. In cooperation with broad friends, we are now endeavoring to win great success of "National Rally for Return of Northern Territories," which is scheduled to be held on July 3 in Tokyo.

At present, the anti-hegemonism struggle with the third world as the main force has been developing powerfully and the contention for hegemony and the activity of war preparation by two superpowers of Soviet Union and U.S. have also been intensified the world over. Factors for both revolution and war are growing. Under this situation, it has never become so necessary as now to further strengthen the international united struggle against the common enemies by resolutely defending the great theory of Comrade Mao Tsetung on three worlds and in accordance with its strategic deployment.

Our Party resolutely supports the revolutionary stand of your Party and the struggle based on it and pledges to strive for strengthening the unity between your Party and our Party based on the principle of Marxism-Leninism and proletarian internationalism. There will be many twists and turns on the road ahead, but the future is full of light. We firmly believe that you will strengthen unity further advance victoriously the path of the great American revolution.

Workers Party of Japan

## Communist League of Luxemburg (KBL)

Dear Comrades:

On the first anniversary of the founding of your Party we send you and the whole U.S. working class our revolutionary greetings.

The founding, one year ago, of a genuine Marxist-Leninist Communist Party in the heart of one of the two superpowers is a big victory of the international communist movement. After one year of hard struggle and

big progress we can see that your Party has fulfilled the hopes which the world Marxist-Leninist movement had in you. We are sure that the CPML will continue in this way, fighting as the vanguard of the U.S. multinational working class, for the socialist revolution and for the constitution of the broadest possible united front against hegemonism.

## **Communist Unity Movement of the Netherlands (M-L) (KENML)**

To the Central Committee  
of the Communist Party  
(Marxist-Leninist) of the U.S.

Dear Comrades,

On behalf of our party, the Communist Unity Movement of the Netherlands (M-L) and its Central Committee, we send with revolutionary joy a message of greetings and international solidarity to your mass meeting on the occasion of the first anniversary of the CPML.

The foundation of the CPML last year gave back to the American working class its vanguard party after twenty years of struggle against revisionism. That was a great victory over opportunism and revisionism and a step of great historical significance. At that occasion we expressed to you our confidence that under the leadership of the CPML, the American working class and people of many nationalities will win great victories and will finally defeat American imperialism. In the year since the founding congress we have seen great victories won by you and we are even more confident that along this road, the defeat of American imperialism will finally be reached.

The founding of the Party was an important step in uniting the broad revolutionary forces and since then you made new steps forward. This is a great source of inspiration for us and for all genuine Marxist-Leninists in the world that are striving for communist unity.

---

Internationally, the unity trend among Marxist-Leninist parties and organizations has grown in the struggle against revisionism and opportunism. Today the factors for both war and revolution are growing. In the capitalist countries we are also confronted with a deepening of the general crisis of capitalism. These developments further strengthen the urgency of communist unity and party-building. The CPML has given a good example in this field, while holding firm to Marxism-Leninism-Mao Tsetung Thought and to the theory of three worlds, the class line of the international communist movement.

Long live CPML!

Long live the relations of solidarity between the American and the Dutch working classes!

(Signed)

Central Committee of the KENML

## **Marxist-Leninist Party of the Netherlands (MLPN)**

Dear Comrades!

On behalf of the Central Committee and all the members of our Party I send you our fraternal greetings for the commemoration of the first anniversary of your Party next June 4.

In the struggle against the two superpowers your Party is playing a very important role.

Inside your country you have to face American imperialism and capitalism in its cruelest form; outside your country you proved to be willing to fight that even more dangerous social-imperialism of the Soviet Union.

This means that your Party has to follow a total revolutionary line.

We know from your publications that you have chosen the right way, based on the three worlds theory of the great Chinese Chairman Mao Tsetung.

It is therefore that we are glad to know our two Parties have strong ties

---

in the proletarian international way.

Long Live the CPML of the U.S.!

Long live proletarian internationalism!

Long Live Marxism-Leninism-Mao Tsetung Thought!

## **Portuguese Communist Party (Marxist-Leninist) (PCMLP)**

Dear Comrades,

The Portuguese Communist Party fraternally greets the Central Committee and all the militants of the Communist Party (M-L) of the USA on the first anniversary of the founding of your Party, which will be on June 4.

This date has a great importance, not only for the multinational American people, but also for all the peoples of the world, especially at this time when the two superpowers, the USA and the USSR, are actively preparing the imperialist war which will inevitably break out. Indeed, the CPML of the USA, contrary to the social-chauvinists of the right and of the "left," is struggling intransigently against exploitation, capitalist oppression, in the road of the proletarian socialist revolution, and against the war preparations of the U.S. imperialist bourgeoisie, while firmly opposing the "detente" of Russian social-imperialism, raising the vigilance of the multinational American people and correctly denouncing the USSR as the most dangerous of the two superpowers on the international level.

Holding to Marxism, to Leninism and to Mao Tsetung Thought, the CPML of the USA defends and applies the theory of three worlds, elaborated by the greatest Marxist-Leninist of our times, Chairman Mao Tsetung, against all its detractors, both inside and outside the United States.

The American working class has a great tradition of struggle, as it has again demonstrated recently by the miners in their courageous and victorious struggle against the state and the sold-out trade union leaders.

The Communist Party (Marxist-Leninist) of the United States, em-

---

bodying the tradition of struggle of the American communists, is a guarantee of leading the working class and the multinational people of the U.S. towards socialism and of contributing effectively to the world proletarian revolution.

We wish that this new year of struggle will be a year rich in victories for the Marxist-Leninist forces, to the strengthening of their militant and fraternal ties all over the world, and most particularly, that our two Parties strengthen their militant ties based on the indestructible principles of Marxism, of Leninism, and of Mao Tsetung Thought.

Long live the Communist Party (Marxist-Leninist) of the USA!

Long live ever victorious Marxism, Leninism and Mao Tsetung Thought!

Long live the steel unity of the international communist movement!  
Socialism will be victorious!

of the PCMLP,

## **Communist Party of Portugal (Marxist-Leninist) (PCPML)**

Dear Comrades,

On the occasion of the first anniversary of the foundation of the Communist Party (Marxist-Leninist) of USA, the Central Committee of the Communist Party of Portugal (Marxist-Leninist) wishes to send you its warmest greetings, congratulating you for the successes achieved by your Party in its struggle for revolution.

As your Party does, PCP(M-L) also considers that the scientific thesis of the three worlds, personally elaborated by Comrade Mao Tsetung, is, in the present international situation, the compass that must guide the communists all over the world in drawing a correct strategy and tactics. In the past year we have witnessed the exposure and isolation of those who, though under a Marxist cloak, are nothing else but Trotskyites. In openly attacking Mao Tsetung Thought, they have revealed their true anti-Marxist face.

The Communist Party of Portugal (Marxist-Leninist) strives to

---

strengthen even further the ties which link us to the true communist parties all over the world. It is therefore with great pleasure that we note the reinforcement of the ties uniting the communist parties of Portugal and of the United States of America. Both parties give their firm support to the struggle waged by the peoples of the world against social-imperialism, the hegemony of the two superpowers, imperialism, neo-colonialism, racism and reaction. Both parties expose Russian social-imperialism as the main focus of a new world war. Both parties uphold the principles of Marx, Engels, Lenin, Stalin and Mao Tsetung.

We wish you, and we feel sure it will be so, that the coming years bring new and yet greater victories to the struggle of the true communists of the USA, organized in the Communist Party (Marxist-Leninist) of the USA.

Communist greetings,

## **Revolutionary Workers Organization (ORT) of Spain**

Dear Comrades,

We send our warmest congratulations on the first anniversary of the founding of the Communist Party (Marxist-Leninist) of the United States.

Today, with the sharpening of the contention between the two superpowers for hegemony and the rise in the struggle of the people in opposition to them, it is particularly important for communists to deepen their fraternal ties. The genuine communist parties throughout the world rely on the theory of the three worlds developed by Chairman Mao, which constitutes the international political line of the proletariat

---

The theory of the three worlds is a priceless weapon to alert the people of the world to the danger of a new world war, which will be unleashed by the two superpowers, particularly social-imperialism.

Our country is dominated by U.S. imperialism, which holds part of our national independence and sovereignty. The communists and people of Spain know that in our struggle to expel U.S. imperialism we count on the unconditional support of the Communist Party (Marxist-Leninist), as well as the working people of the U.S. Your struggle against our common enemy is a most valuable contribution.

Receive our fraternal communist greetings,

## Communist Party of Sweden (SKP)

To the Communist Party (Marxist-Leninist):

Dear Comrades,

On the occasion of the first anniversary of the founding of the Communist Party (Marxist-Leninist) of the U.S., we would like to extend to you our heartfelt revolutionary greetings.

To the world proletariat, the oppressed nations and all anti-imperialists of the world, the founding of a Communist Party in one of the two superpowers is an extremely important and significant event. A proletarian party with a correct understanding of the international situation and the class struggle inside the United States, a party with a thorough understanding of Marxism-Leninism-Mao Tsetung Thought and the ability to win the confidence and support of the working masses will definitely change the course of history.

Yours is the road of peace, freedom and social progress. You are placed in an important position in the battle front of mankind for liberation. It is an extremely great and important task that you have taken

---

upon you. We sincerely wish you success and continued progress on the arduous and difficult road ahead.

## Worker Peasant Party of Turkey (TIKP)

To the Central Committee of  
Communist Party (Marxist-Leninist)  
of the United States.

Dear Comrades,

On the first anniversary of the foundation of your Party, we greet you with feelings of proletarian internationalism, in the name of the Turkish people and the Turkish proletariat.

With the founding of your Party the U.S. working class attained a vanguard armed with the Marxism-Leninism-Mao Tsetung Thought. At the same time the lines of the international proletarian movement are strengthened in the struggle against revisionism. In our days, the rivalry between the two superpowers, the Soviet Union and the USA is intensifying and the risks of a new world war, with the source especially in the Soviet Union, is growing. The theory of the three worlds drawn up by the great leader and educator of the world proletariat, Comrade Mao Tsetung, is a unique weapon in the hands of the world proletariat and the oppressed people in their struggle against the two superpowers. The theory of the three worlds is clarifying the path of the world revolution and it is today the class line of the international proletarian movement. CPML of the U.S. has withstood those who attack the theory of the three worlds and who attack Mao Tsetung, and by doing this, CPML has strengthened the unity of the international proletarian movement.

We wish success to your Party and we also wish that the revolutionary solidarity and unity between our two Parties shall strengthen.

Central Committee, Worker Peasant Party of Turkey (TIKP)

## **Revolutionary Communist Party of Uruguay (PCRU)**

The Revolutionary Communist Party of Uruguay (PCRU) greets with revolutionary enthusiasm the first anniversary of the founding of the Communist Party (Marxist-Leninist) of the United States, to your working class and to your supporters who are gathering today in the city of Chicago to affirm and commemorate in force and with clarity how the struggle must be waged and the road to follow within the most open imperialist country.

The Marxist-Leninists of the world know that our revolutionary work must be concerned in the first place with the struggle against all imperialism, against all hegemonism and against all forms of oppression of our peoples.

The struggle against fascism has meant to our party to pay a high price in comrades assassinated, tortured, imprisoned, isolated in solitary, and persecuted. Four members of our Central Committee have been kidnapped by the repressive forces, including: Luis Gonzales Gonzales, in December 1974 in Montevideo, Nebio Melo and Winston Mazucchi, in February 1976 in Argentina. Since their disappearance we have been unable to learn any information on their whereabouts and we fear that they have been murdered. Four campaigns of annihilation have been launched against us on scores of fronts of our work and in various parts of the country, on the sole suspicion of belonging to the PCRU.

No doubt, not only has this not destroyed us, it has on the contrary made us stronger.

We are struggling to take the lead of the people in order to prepare and launch the peoples war which will liberate our country from imperialism and the oligarchy, destroying those who principally prop up the reactionary armed forces.

We want to deepen the ties with all genuine Marxist-Leninists and with the proletariat of all countries, and with the oppressed peoples and nations of the world guided by Marxism-Leninism-Mao Tsetung Thought, in order to destroy imperialism and Soviet social-imperialism and to eliminate the exploitation of man by man from the face of the earth.

For the friendship of the Communist Party (Marxist-Leninist) and  
the Revolutionary Communist Party of Uruguay.

For the unity of all the genuine Marxist-Leninists of the world.

Down with the fascist military dictatorship in Uruguay.

For the united struggle against imperialism and  
Soviet social-imperialism.

Following the example of our martyrs, Santiago Joaquin Oscar and Anselmo, and of our prisoners and kidnapped comrades in particular: Julio Arizaga, Luis Gonzales, Nebio Melo, Winston Mazucchi, Carlos Cabezudo.

Do everything for the Party, for the working class, and for the people!

Toward a congress of struggle, unity and victory!

Liberty or death.  
We will win.

## Albany Unity Collective

It seems but a short while ago that the founding of the Communist Party (M-L) was announced on the same day as the heroic rebellion of the Puerto Rican people in Humboldt Park, Chicago. But in reality a whole year has passed, filled with many victories which show us here in Albany that the CPML is indeed the vanguard party of the working class in the United States today.

We have recognized the leadership given by the CPML in staunchly upholding Chairman Mao's theory of the three worlds and supporting the current leaders of the Chinese people in their struggle against the "gang of four"—all in the face of attacks on all sides by revisionists and opportunists. We have seen the leadership of the CPML in the struggles here in the U.S.: in the fight for jobs culminating in the successful Jobs or Income Now march in Washington; in the fight against trade union misleaders, particularly in the heroic miners' strike; and in the fight against national oppression which has achieved great victories in freeing "Smitty," the two Filipina nurses, and in continuing the struggle to free Gary Tyler, and against Bakke. We have seen with great pride how *The Call/EI Clarin* has grown to a 20-page weekly, seriously taking up its task of being a tool for revolutionary education during the present period. And we recognize the leadership of the CPML in promoting communist unity by actively seeking to unite all Marxist-Leninists in one party.

We in Albany are small and just beginning to take up issues in our shops and community in a communist way. But we too have seen growth in the past year and so while we see a long hard struggle ahead, we are confident in ourselves and in the leadership of the CPML, and we are optimistic that we shall all be victorious in overthrowing the vicious system of capitalism and establishing socialism. We therefore join with workers and oppressed people in congratulating the CPML on its first anniversary.

Long live the Communist Party (Marxist-Leninist)!

In solidarity,

## Joint Message: August Twenty-Ninth Movement (M-L) I Wor Kuen

The August Twenty-Ninth Movement (Marxist-Leninist) and I Wor Kuen send warm greetings to the Communist Party (Marxist-Leninist) on the occasion of the first anniversary of your founding. In this, your first year, the CPML has made contributions to the struggle against the U.S. bourgeoisie, in the interests of the working class and oppressed peoples.

We join you today in celebration of your first anniversary and look forward to furthering the unity between our organizations. The sharpening contradictions in the world in the U.S. make communist unity an urgent and pressing task. It is clear that the danger of war between the two superpowers is growing daily. At the same time, the people of the world are getting more prepared and are intensifying their struggles. In the U.S. during the past year, the working class and oppressed peoples have waged a number of determined battles, including the unprecedented coal miners' strike and the anti-Bakke Decision campaign.

With such developments, the growing unity among our organizations and all genuine Marxist-Leninists in the U.S. is a very positive thing. We are confident that soon, the U.S. communist movement will be celebrating together unification of all genuine Marxist-Leninists into one single, unified communist party, which will lead the proletarian revolution to overthrow the U.S. monopoly capitalist class.

Warm greetings to the CPML on its first anniversary!  
Marxist-Leninists Unite!

Long live Marxism-Leninism-Mao Tsetung Thought!

## **Red Star Unity Collective Portland, Oregon**

Greetings Comrades:

We of Red Star Unity Collective offer warmest congratulations to the Communist Party (Marxist-Leninist) on the occasion of its first anniversary. The founding of the party has been a mighty blow in the American proletariat's struggle against its own bourgeoisie, and in favor of the revolutionary forces of the world in their fight against the last great enemy of the peoples of the world, imperialism and social-imperialism. The founding of the party has been a great setback to the forces of revisionism, especially the once-proud Communist Party USA. The CPML counterposes genuine working class leadership to their traitorous, reactionary activities.

The CPML is armed with Marxism-Leninism-Mao Tsetung Thought, the true science of the working class, to guide its work. The CPML has been uniting with other Marxist-Leninist parties of other countries of the world, especially the Chinese Communist Party. The CPML continues to forge unity with other Marxist-Leninist organizations within the United States. Such work is indispensable as the Party develops firm roots within the working class itself.

It is fitting that the CPML holds a celebration in honor of its first year of existence. Our collective shares your joy in this celebration.

Long live the Communist Party (Marxist-Leninist)!
