To All Locals

Dear Comrades,

The Chase-Meseke-Barzman-Sherrill document has been withdrawn as a counter-resolution, as the enclosed letter indicates. This action means that there is now one resolution on the antiwar question before the YSA for a vote, the National Executive Committee draft resolution on the antiwar movement. The proper procedure now is for the locals to vote for or against the general line of the NEC draft prior to electing delegates.

Comradely,

Lew Jones
National Chairman
