## Strikes Blow At China

#### Pressure of Hitler Forced Stalin to Sign It; Soviet Union Gains Nothing By It and Loses the Friendship of Great Masses of Workers

One thing about the neutrality pact that Stalin signed with Japan on April 13 is as clear as Opposition, Lehman daylight: Stalin, by means of the pact, has dealt a severe blow to the struggle of the Chinese people against Japanese imperialism.

Stalin's mouthpiece in the United States, the Daily Worker, can shamelessly assert that "our of the present Soviet-Japanese pact the Chinese people will gain." But the unalterable fact remains that in the midst of a life-and-death struggle on the part of the Chinese people to expel the Japanese invader, Stalin signs a pact with that same invader.

The Daily Worker does not attempt to explain just how the Chinese people will gain out of the pact. It makes that mere assertion and wan ts everybody to be satisfied with it. But not even dupes of Stalin can swallow that.

The pact does not in so many words say that the Soviet Union will cease to send arms to Albany, Monday, where some 200 China. This may be explicitly part of the secret clauses which undoubtedly are part of the leading representatives of the CIO pact. More important, the signing of the pact at this moment, in and of itself, constitutes a blow

Especially so because by promising, in a declaration connected with the pact, to respect the territorial integrity of Japan's puppet, Manchukuo, the right of Japan to that part of China is virtually recognized.

And if the Chinese people have been dealt a blow by Stalin, it stands to reason that the Soviet Union has also suffered. Because tens of millions of Chinese and the masses of the Far East generally will be alienated before any move is made and from the Soviet Union by this serious blow dealt to the Chinese | would like to obtain something by Stalin. Thereby Stalin has weakened the only real defense in return for his passivity. of the Soviet Union—the support of the masses. SOVIET UNION IN DANGER

What does Stalin gain by the pact? Japan promises to remain neutral if the Soviet Union finds itself at war with a third power. What third power could the Soviet Union possibly be at war with at this time? It can only be Hitler Germany. If Japan remains neutral in case Hitler attacks the Soviet Union it can left for him to maneuver in. So only be because Japan will be occupied with its own problems in the south Pacific. Japan is in no position at the present time march, so long must Stalin take to attack the Soviet Union. And if it should be in a position to do so, the pact is not worth the paper it is written on.

The idea that Stalin is now free to turn to the west and deal with Hitler has little plausibility. Stalin fears Hitler and so long tion where Hitler, who doesn't as Hitler is gaining victories Stalin will leave Hitler alone. It fear war, has the upper hand. will be Hitler and not Stalin who will decide whether it is war or peace-between the two unless a sharp turn takes place in the fortunes of war.

Hitler's spectacular military success in the Balkans was undoubtedly a factor in making up Stalin's mind to sign the pact. Hitler had long wanted this pact as a means to scare the United States into remaining aloof in the west by the threat of Japan's southward expansion in the Pac-

#### HITLER DICTATED IT

Since the Soviet Union gained pact is recognized by all as a victory for the Axis, it can be truthfully said that Stalin signed the pact because Hitler exerted pressure on him. Hitler's Balkan victory was a warning to Stalin that he must sign.

Coming on the heel of a series of moves which suggested that Stalin is drawing away from Hitler's embrace, the pact, Stal- State Department that he still inists will claim, shows what a neutral and independent role the him to get more supplies from Soviet Union is playing. ## Workers Bill Is Signed

## Despite National CIO Insists On Signing

Governor Lehman signed Tuesday the infamous LaGuardia sponsored Wicks Anti-Transport Workers Union Bill, despite CIO protests at a public hearing in denounced the measure as a union-busting move against the 27,-000 New York City subway workers, members of the TWU-CIO.

Mayor LaGuardia discovered at he hearing that in pressing his strikebreaking plans he is confronting not merely the TWU but the entire national CIO.

John Brophy, speaking as the personal representative of Philip However, with Hitler's further Murray, CIO head, denounced the victories, Stalin's ability to debill as an invitation to labor's mand things is constantly being enemies throughout the country restricted. There isn't much room to wage "their own brand of Blitzkrieg against the working long as Hitler continues his

The bill, put forward as an "anorders. Stalin's basic policy of ti-sabotage" measure, may be intrying to avoid a major conflict terpreted by the courts as virtuinevitably drives him into a posially barring strikes on public or privately owned street railways. ous lines or subways. However, they devoted a great portion of their pacts and devious diplomacy to talk to white-washing LaGuardia as a "friend of labor." Gustave his use of the Comintern as a Strebel, Hillmanite head of the state CIO Council, and Jack Altpacts, the advanced workers of- man, of the United Retail and fer the really realistic program: Wholesale Employes, a renegade proletarian revolution, the only "socialist," took the lead in bootway to save the Soviet Union. | licking LaGuardia.

A Moscow-Tokyo pact "would constitute a symmetric supplement to the pact between Moscow and Berlin," Trotsky predicted in an article published in LIBERTY magazine, January 27, 1940. Trotsky said:

"So long as Germany is occupied on the western front, the Soviet Union feels much more free in the Far East. This doesn't mean that offensive operations will be launched there. It is true that the Japanese oligarchy is even less capable of waging war than the one in Moscow. However, compelled to face the west, Moscow cannot have the slightest motive for expanding in Asia. Japan, for her part, must consider that she could expect a serious and even annihilating resistance from the USSR. Under these conditions Tokyo must prefer the program of her army-an offensive not to the west but to the south, toward the Philippines,

would constitute a symmetric supplement to the pact between Moscow and Berlin."

## Stalin's Pact With Japan Anti-Subway Million Union Men Win Steel, Coal Wage Raises

### When Ford Met The Union

A cheering throng of Ford strikers, prominently displaying their United Automobile Workers (CIO) buttons and union over-seas caps, greets the news that the Ford Motor Company for the first time in 38 years has been forced to me et with a union committee.

## Ford Backs Down And Settles With UAW-CIO

#### Successful Strike Tie-Up Forces Ford To Deal With Union; But Compromise Settlement Doesn't Reflect Militancy Of Picket Line

DETROIT. April 14-85,000 Ford Workers fought their way to a smashing victory on the picket lines at the River Rouge plant and held Ford by the throat—only to have their self-ap- SWOC. pointed negotiating committee, composed of top UAW and CIO officials, give away 50% of the victory at the conference table.

But that roar of angry protest, which swept Thursday night over the huge Coliseum meet ing upon the announcement of the settlement terms, augurs well for the future of the Ford On the picket line self confident strikers won a victory with a decisiveness and finality as

had no arrow left in his quiver

trated that it can shut down the

It is ironical justice that Ford,

GOVERNMENT AIDS FORD

great as that of any conquering army in history. At the conference table, the union leaders—perspiring and bewildered middle-aged gentle-

men—were desperately fishing around for a face-saving formula to call off the strike.

The Ford strike demonstrates again that a strike can be won m the picket line and can be given away at the negotiating table. THIS IS LESSON NO. 1 FOR THE FORD STRIKERS. In spite of everything, the Ford strike was a magnificent

victory, because it revealed the power of the union, because it exploded the myth of Ford's invincibility, and because all this was demonstrated in such dramatic fashion that it bit into the consciousness of every Ford worker and of the whole labor move-

From the very first day of the strike when the barricades went up on every road leading to the Rouge plant, until the strike was over, the union was in undisputed control of the territory around the River Rouge plant.

Ford's first line of defense was his private army of 5,000 'Service Men" armed to the teeth, organized for ten years for just this emergency. For the ten days of the strike they stood round the River Rouge plant were 'dashed out of his hands. He helpless and cowed. They did not

One by one Ford's weapons strike on the picket line makes

doubly fantastic the story of the negotiations of the strike (described in full on page 3 of this issue). Every Ford striker will recognize the fact that the final strike settlement although it constitutes a big victory, bears no resemblance to the victory that was won at the plant gates.

STRIKERS GIVEN NO VOICE How was such a violation of the men's wishes possible? Because the strike was run and because strike policy was decided by a self-appointed leadership composed of the top CIO figures. Most of these middle-aged gents -Haywood, Murray, Widman, old wheelhorses of the Lewis mine workers machine - have little the workers. The union demons- understanding and less sympathy with the aspirations and the aims of the mass production workers.

That is how it happened that the men on the picket line were fighting for one set of demands while their leaders at the negotiating table had already agreed to drop these demands.

WORKERS MUST DECIDE The Ford workers must now organize themselves so that they can run their own affairs and decide their own policy.

The Ford workers in their coming battles must elect broad rank and file strike committees composed of the most trusted and miitant fighters out of each building who will constitute the high- the union in many of its key est authority of any strike, who plants in flare-ups during the will sit in continuous session and set strike policy from day to day and from hour to hour.

## Raises Are Result Of Strike Wave

### Ford And Bethlehem Strike Victories Back of Wage 'Grant'

A ten cents an hour increase for the steel industry came Monday, a day before expiration of the strike deadline of the Steel Workers Organizing Committee (CIO) against the United States Steel Corpora-

Bethlehem Steel, which has felt the union's power in three sugcessful strikes at its Lackawanna, Bethlehem (Pa.) and Johnstown plants and which had been served notice of union wage demands, was the first formally to announce the raise, covering some 90,000 workers.

Shortly afterward came the announcement that U.S. Steel signed a new contract with the SWOC, covering its major unit, Carnegie-Illinois Steel, and four other subsidiaries, providing the same ten cent hourly raise, a week's vacation and other new concessions. When all U. S. Steel subsidiaries sign, some 250,000 workers will get the benefits of the union's gains.

Republic Steel, employing 50,000, Youngstown Sheet and Tube, with 25,000, and others folowed with the same wage raise Some 603,000 workers are employed in steel, all of whom will get the wage raises won by the

These, plus the 300,000 Northern and Western striking bituminous miners who are already assured of a \$1 per day raise-Southern miners being offered 60c a day raise-makes almost a million union men whose united strength has won substantial vage increases.

The raise in coal, from \$6 to \$7 per day, is an increase of over 16 per cent. In steel, the raise averages 12% increase for the industry; for those getting the previous Northern minimum (621/2 cents) it is a 16% increase, for those in the South (previous minimum 45 cents) it is a 22 per cent increase. For the steel industry as a whole, the total additional wages are estimated at 108 millions of dollars.

The raises are also certain to reach into the steel fabricating plants, in many of which the SWOC has agreements, and bring fatter pay envelopes to several hundred thousand workers. Demand for a contract has been served on the key fabricator, American Rolling Mills Company, by the SWOC.

The raises also strengthen the hand of the United Auto Workers (CIO) in its negotiations with General Motors for wage raises.

Ostensibly the raises in steel came "peacefully," for no strikes were going on-at the moment.

STRIKES DID IT! In reality, however, the spec-

tres of the militant pickets of the recent Bethlehem and Ford strikes stood behind the union negotiators and lent weight where mere persuasion would not have sufficed. In addition U.S. Steel has felt the heavy hand of last months.

A million workers got pay raises this week. But that's only the beginning. Labor is on

## ON THE WAR FRONTS Signature of the Moscow-| movement, the masses were

of Chiang Kai-shek's Shanghai coup d'etat.

Veterans of the Chinese workers' struggle, scattered on anti-Japanese fighting fronts or silently holding to their positions within the occupied zone, have not forgotten the events of April 12. Stalin's new deal with Tokyo, which cannot fail to affect the war in China, must have given particular sharpness to those memories.

On April 12, 1927 Chiang Kai-shek, the "reliable ally" of Joseph Stalin, turned with unimaginable ferocity upon the Chinese mass movement and upon the working class of Shanghai, its foremost vanguard. In the slaughter that began that dawn in Shanghai's streets and continued through months and years, scores of thousands of workers and peasants in Chinese cities and in the countryside, went down before the Kuomintang terror.

Taught by Stalin's Comintern to look upon Chiang as the trusted leader of the revolutionary

Tokyo "neutrality" pact followed | caught totally unprepared for the by a day an anniversary that is blow. A movement which had little-remembered: the annivers- swept the country in three years, ary of April 12, 1927, the date climaxing in a victorious proletarian insurrection which had conquered Shanghai, was "splattered into froth." The balance of power in Asia abruptly swung sharply again to the side of the imperialists. China was left open to Japan's invasion, which began only four years later.

Stalin, seeking Chinese allies against the imperialists, preferred to rely upon Chiang Kai-shek and the bourgeoisie rather than on the proletarian revolution. Stalin did that again in 1936. Now the cycle has run another course. Stalin has come to terms with the Japanese invaders and what new traps this pact sets for the Chinese struggle we shall soon enough know. The cycle was paralleled in Germany where under Stalin's leadership the powerful Communist Party in 1933 opened the road to Hitler and accepted defeat for the German proletariat. Six years later came the Hitler-Stalin pact ... and the new imperialist Trotsky Said Stalin-Japan Pact Would "Supplement" Nazi Pact

WORKER-SOLDIER

WE'RE RESTING AFTER THE BIG STORM

The end of the two-month sub scription campaign, conducted by the party with a gusto that was almost violent in some places, has left us feeling a little like the lull after a storm.

The big job of computing the distribution of the subscriptions sent in has resulted in the following tabulation:

> 50c Specials-572 \$3 Combinations-123 1-year Militant-57 1/2-year Militant-145 1-year F.I .- 23 1/2-year F.I .- 27 Miscellaneous-8

#### WHERE DO WE GO FROM HERE?

The question which now naturally follows is this: Will we fall back into our old habit of nonattention to subscriptions or will this fine experience serve to inspire us with a durable enthusiasm?

Several cities have volunteered answers-Chicago, Boston, Detroit, our Minnesota cities. They, who made the finest showings in the campaign, are convinced that their performance could have been still better if they had earlier realized the potentialities of the drive. They are anxious to builds a movement.

continue getting subscriptions in an organized manner.

The great march of labor is still keeping us moving in the printing and circulation of the MILITANT. As an indication of how our members keep a sharp eye open for possibilities of penetration into the working class mass, we have the following communication from Boston:

"With the Bethlehem Steel issue we hit the Bethlehem plant at Fore River, Quincy, Massachusetts on Monday at the 11 P.M. night shift, disposing of many hundreds of MILITANTS. The workers took the paper and stuffed it in their pockets or bags. One worker was reading it outside a cafe across the street from the main gate; he had it open full length looking inside at the story of the Bethlehem Pennsylvania strike. The paper was very well received.

"The workers coming out Monday night were mainly young workers. 22,000 work at this plant and there must have been two or three thousand workers coming out on the

shift we hit." This is the kind of work that

PHILADELPHIA, April 13. -Despite continued police intimida tion and the attempts of the bosses to operate with scab labor the 400 militant young workers of the Progress Manufacturing Company here are standing their ground with courageous determination in the third week of their strike for higher wages and union conditions. The company manufactures lighting equipment.

The fighting spirit of these strikers, continues high, union meetings are jammed and discussion is lively, and everyone is Johnny-on-the-spot when it comes to taking his or her shift on the picket line.

The strike was called by Local 0, Metal Polishers union (AFL) after the company refused to grant wage increases over the miserable 30 cents an hour minimum which it has been paying. Warren Benhas been directing the strike.

#### NEGROES PICKET

The Negro workers on strike are demonstrating exceptional miof them expressed their feelings, "They did it in Bethlehem and we can do it here."

These devoted Negro union members are particularly incensed by the attempts of the company to disrupt the solidarity of the white and Negro union members through the use of Negro strikebreakers. This is an old employ ers' trick, and the white strikers are putting the responsibility for this dirty practice squarely on the starved tools.

story in the April 5th MILITANT exposing the frameup arrests of breakers arrested for carrying rewere released. A MILITANT representative was arrested after distributing the paper to the strikers on the picket line.

When the patrol wagon drew up and he was taken to the station house, the strikers expressed their anger at the arrest. They knew the reason for this persecution was because THE MILL TANT is the only paper which has been defending their strike.

After being grilled by six cops and detectives for several hours, the MILITANT representative was released. The cops also dropped all charges against the ar

## N.Y.C. Local Will Hold Own May Day Rally

NEW YORK CITY, April 12 .-Local New York of the Socialist Workers Party will celebrate May evening at Irving Plaza.

Plans for possible participation in the May Day parade are being worked out. Whether the SWP will march with the "United May Day Parade," which is being organized by various Stalinist figures of the local labor movement. hinges on the decision of the Committee they have set up as to whether or not political parties of the working class will be invited to participate.

The following letter was sent to the "United May Day" Commit-

"In order to complete our preparations for the commemoration of May Day, we should like to know as soon as possible whether you have decided to invite political parties of the working class-to participate in the 'United May PROPOSED SLOGANS-Day Parade.'

"It seems to us that the imminence of United States entry into mittee we note that slogans essenthe Second World War makes im- tial to successful working class perative a special invitation to all opposition to war have been omitpolitical parties of the workers to ted. We therefore ask you to injoin in a militant and impressive clude in the official list of slodemonstration of the working gans to be carried on the banners class on May Day. Despite the in the parade the following: sharp differences among the various political parties, their appearance in the parade with their banners would constitute a powerful demonstration of the burning need for unity in the working class in the struggle against imperialist war, and the urgency of carrying forward this struggle

Fun On The Picket Line

A bit of humor on the picket line. A picket walks the line in a suit of armor made entirely of union buttons. What's more important is that tens of thousands of Ford workers, as a result of their magnificent strike, are today proudly wearing just one

### litancy and determination. As one of them expressed their feelings From France

(The following description of conditions in France's concentration camps was written by a German Trotskyist, who is still in France, in mortal danger of being turned over to the Nazis. Funds to aid him and his German, Spanish, Polish, and Italian comrades are urgently needed. They should be sent co THE MILITANT, 116 University Place, New York City.)

Even before the French bourgeoisie under the protection of the German occupation army prohibited all labor organizations, shoulders of the white boss and at a time when they still called themselves "Republique Frannot on his wretched and half caise" and were ruled by Daladier, Reynaud, asd Blum, they began cleaning up the remnants of "democratic liberties" where The cops took revenge for the they had to expect the least opposition; with the foreigners.

stitute for anti-Semitism and served exactly the same purpose. strikers by the police, while strike. Many thousands of foreign workers who, in the boom times, had the stream of refugees fleeing be-

volvers and other deadly arms slaves in the large industrial centers, were brutally expelled in the years 1938 and 1939, together with their families and all their cant possessions.

> The outbreak of the war, then, served as a welcome pretext for still further oppression of these layers of the population (it was bies, seventeen-year-old adolesc a question of about three million, ents and octogenarians, invalids mostly proletarians); the fairy-tale of the "Fifth Column" was invented and thousands upon thousands wooden hovels, exposed to rain of these workers locked up in and cold, guarded like criminals concentration camps.

### GRACE CARLSON ENDS 3-MONTHS NATIONAL TOUR

#### Twin Cities Party **Branches Welcome** Her With Banquet

MINNEAPOLIS, Minn., April 3. - Almost 100 people attended into the guardhouse. the banquet given here last night at party headquarters in honor of Grace Carlson, who has just returned home after her threemonths national tour.

Speaking on the American work ers' fight against war. Comrade Carlson reported on the growth of the Socialist Workers Party, coast-to-coast, as the most important part of that fight.

"Our movement in this country s very, very definitely gaining the attention of workers. Following the dictum of our Old Man to 'Go forward!' workers everywhere are beginning to think that the Socialist Workers Party will lead "them in their struggle." Comrade Carlson told of several

of her meetings throughout the country. Everywhere she was received well, earnestly and sincerely by workers approaching the SWP as the only solution to this Union is running an effective ad world of unemployment, insecur- in the Akron labor paper, listity, poverty and starvation.

Memphis, she said, was the "outstanding spot in the tour." In a place where it is against the law to have a mixed whiteand-colored meeting, where in the railroad station there is a "Colored Waiting Room" where Negroes are herded to stand like cattle separate from their brother whites, where always the color line is drawn until spirits are broken and it takes tremendous courage for a Negro even to be seen in the company of a white man-in this place, a very successful meeting was organized in a Negro home.

"It was heartbreaking, how calling them human beings," Comade Carlson said.

Describing the Rochester, N. Y. by armed troopers. The adminisits penal system, it cannot be sur- grams (about eight ounces) of employers that they should pay wage differential because of sex bread and one single plate of thin. a living wage, and then 'violent' strikes won't come? What bothers me is that you pious people worry nies are now under union contract. Scurvy as a consequence of about the man on the picket line but only the following bear the who gets clunked on the head and armingly on the increase. Vermin the boss who is kept out of his Grand, Kool, Spud, Viceroy, Avaplant, and not about this rotten lon, Yankee Girl, Wings, and fectious diseases. The hygienic system of unemployment, poverty Spud Imperial. Reynolds is the conditions in the camps are utterand starvation that causes it all."

In Detroit and Flint, comrade Carlson said, "You could feel that the workers were restless, dissatisfied." The SWP is the only party distributing papers at factory censorship and invariably suffers gates there.

Poverty-striken, dispossessed far mers, 118 in all, came out to the meeting in Plentywood, Montana. "It's the day-to-day work of comrades throughout the country that's gaining begemony over the workers," Comrade Carlson concluded. "We have the program, the leadership, the devoted cadres...that will establish a society of peace and plenty."

A new feature of this banquet was singing of workers' songs by the recently-organized Twin City

## How The Ford Negotiations Were Conducted

## There Was An Awful Gap Between Militant Picket Line And UAW-CIO Negotiators

DETROIT, April 14-On Wednesday, April 2nd, 12:15 A.M., the UAW-ClO authorized a strike of all workers at River Rouge, after a sit-down strike had halted all production in the plant. When the whistles blew for the Wednesday morning shift, it was obvious to everybody that the strike was 100% effective. The union announced the following demands as the objec-

tives of the strike: "Immediate reinstatement of

all workers discharged because of union affiliation:

"A wage increase of 10c an hour to bring the wage rates of Ford workers up to the standard of those paid by General Motors and Chrysler;

"Establishment of seniority to govern lay-offs and rehir-

"Establishment of a shop steward system to speedily and justly handle grievances as they arise;

"Abolition of the Ford spy system and its infamous Service Department;

"And other elements of a contractual, agreement which will make possible operation of the River Rouge plant on a basis of equity for the workers."

The union's statement concluded by promising that "the strike will be fought through to vic-

#### FORD'S FIRST TACTIC

Ford adopted the old Judge Gary formula of sitting tight. He refused to meet with the union committee, he refused to conduct any negotiations on the union demands and sent only minor company officials and Ford Service men to confer with Governor Van Wagoner and Federal conciliator James F. Dewey.

Late afternoon Thursday, I. A. Capizzi, Ford Company attorney, obtained a sweeping temporary injunction writ from Federal Judge Arthur J. Tuttle which sharply restricted picketing in the strike. The company also demanded a million dollar damages from the union. Harry Bennett charged the strike was a "red plot" and requested Roosevelt to send in Federal troops. His only reply to union demands was "we are not going to put the eight men who caused this trouble back to work. They can negotiate fective strike in the world Plants setting 45 days as the till Christmas."

But the stiff-necked stand of open shop without even the Ford management did not phase the strikers. On Thursday they revealed for the whole world

sky, with no explanation, the top union committee withdrew its original demands and offered a new "basis for settlement":

STRIKE DEMANDS CHANGED 1. Recognition of the union for its members in the Rouge

2. "An agreement by the Ford Motor Co. and the UAW-CIO representing its members in the River Rouge plant, that the company is to establish in the plant standards of wages and provisions for seniority, handling of grievances, etc., which are part of the union's current agreement with General Motors and Chrysler Corporation, the details of such an agreement to be worked out in joint conferences which are to be completed within a

3. "Upon acceptance of above points operations in the plant to be resumed with reinstatement of all strikers and all workers discharged because of union activity or affiliation, to their customary employment."

#### CONTRAST WITH 1937

These new proposals represented a watering down of the union

"I request that both parties in the interest of the public welfare will accept, without further delay, this proposal."

#### FORD WANTS MORE

· The union leaders hastened to accept the Governor's "peace plan." But the Ford officials decided to try to whittle down the union gains one more notch before giving in. The Ford Motor Co. agreed to accept the Governor's peace plan with the reservation that cases pending before the NLRB, hearings on which were due to open on Monday, April 14th in Detroit, be postponed until after the NLRB election at the Rouge plant.

These hearings constitute an important union propaganda weapon for the coming NLRB election. The UAW has aided the Board and has spent thousands of dollars in assembling sensational testimony that exposes the vici-Ford Service Dept.

This brazen attempt on the part of the Ford Motor Co. to openly set aside the law in favor of Ford was too much even for Frank Bowen, head of the Detroit NLRB, to stomach. He refused to post pone the hearing.

But the top CIO officials, bombarded for days by constant telepoint peace plan" which embo phone calls from a dozen differdied the original agreement reach- ent governmental agencies in would not even back up the local NLRB director on this important 1. ## The Government's Anti-Strike 'Formula'

By DON DORE

The similar settlements of the Ford and Bethlehem Steel won and embodied in contracts. strikes have inspired the Roosevelt administration to begin projecting a universal "formula" for ending strikes.

A Washington dispatch in the New York Times, April 11, affirms this "line" of the administration, as follows:

'High government officials stated that the formula presented to the principals in the Ford case ... was virtually identical with that submitted by the OPM in the strike at the Lackawanna plant of the Bethlehem Steel Corporation.

"Officials were asserting tonight that this formula might be a method of preventing 'finish fights' between unions and employers during the defense program."

What is this cure-all "formula?" The management agrees to re-employ all strikers and negotiate with the union committee on the a union contract, to the settlegrievances of its members. The ments won by the General Momanagement further agrees to an tors and Chrysler workers in 1937. NLRB election to determine sole The immediate issues in these stricollective bargaining rights. The kes were identical with those in of a general government policy workers return to their jobs with the recent battles. The GM and against wage increases. out a contract.

otic fellows and go back and work

This sort of "settlement" doesn't put one more bean into the work er's pot. It doesn't at all prevent "finish fights" between the workers and bosses. It merely rescues the employer from a tough fight in which he has been getting the heavy end of the slugging.

CONTRAST THESE

"SETTLEMENTS" WITH 1937 Compare the "settlements" in the Ford and Bethlehem Steel strikes, which merely tend to postpone the ultimate showdown over | TAKE STAND AGAINST Chrysler workers wanted collec-This "formula" is simply a tive bargaining rights and union method of maneuvering labor into recognition. It is no 'settlement' for the government to step in after the plants have been shut down by the workers and belatedly "persuade" the Fords and Graces to obey the miployers is no substitute for a signed contract covering better wages,

Workers do not strike for the occasional "privilege" of being able to sit around the same table with their employers. They strike strike insurance Grace and Ford for more of the necessities and may "grant" some temporary wage comforts of life.

#### GOVERNMENT MAY OPENLY WAGE INCREASES

Obstructing the winning of wage increases, the government's "formula" may well become part

That this is the tendency of the government's "formula" is borne out by the statement of Leon Henderson, newly-appointed Federal Price Administrator, reported in the New York Times. April 13, as follows:

"On the labor unions whose demands might cause increased prices of important commodities. Mr. Henderson in effect served notice that he would throw his influence as a pricefixer against what he regarded as 'unwarranted' wage rises.

"'We will watch wages as a

prime cost factor,' he said in response to questions. 'If unwarranted wage rises are in prospect, we will have a decid-Workers who have won only

employer who is on the defensive shorter hours and improved work- an opportunity to reorganize his anti-union forces for a later and more desperate "finish fight." This does not discount the pos-

> sibility that as a measure of increases without further immediate strikes. But they will, in all likelihood, balk like angry mules at signing a union contract which will guarantee to the workers that any increases will not be withdrawn just as soon as the corporations think they can get away with it.

#### WHAT THIS FORMULA ENABLES A BOSS TO DO

The Ford workers may shortly tlements. he clearly understood the meaning of this formula when he made these open-shop die-hards stantial wage increases to meet

"If the NLRB orders an election, of course we will hold

these farcical elections, and we will bargain with it because the law says so. WE WILL

FREEZES OVER BUT THEY WON'T GET ANYTHING." Harry Bennett may not care to repeat these words, out loud, but

All this is not intended to belittle the gains made by the Ford and Bethlehem strikers. Their militant actions have given the auto and steel workers a new sense of confidence and organized power. Their strikes have revealed

the basic weakness and rotten-

ness of the once impregnable-

seeming walls of the open-shop

industrial fortresses.

But these are far from ultimate victories. They are merely success- hard words. They are words on ful beginnings. Truth to tell, the which this new "formula" will Bethlehem workers now realize, break its teeth. They are words as the Ford workers no doubt which sound a bugle call rallying strongly suspect, that they have the bosses to that "finish fight" been persuaded to exchange mil- which the Roosevelt administralion dellar strikes for two-bit set- tion claims it seeks to avert. learn the full meaning of this have settled for was signed con- avail. just shoved out in the cold.

entire program against war.

general session

By ART PREIS

"They talked a lot at this American Peace Mobilization convention about fighting to win democracy here at home first before sending an army to fight for democracy in Europe. Well, after sitting through this so-called convention for two days, I think the fight for democracy ought to begin right inside the American Peace Mobilization outfit."

That is how Ernest Mazey, vice-president of Detroit local 29, State, County and Municipal Workers of America (CIO) and his union's delegate to the two-day American Peoples Meeting of the American Peace Mobilization held April 6-7 here in and told him to give it to the New York, summed up the APM convention to this MILITANT

"Fight for democracy at home? A rank-and-file delegate would have needed a whole Army division to get to the 'mike' in that 'Peoples' Meeting. I ought to know, because I tried it for two

days," said Mazey. Mazey has the distinction of be ing the sole delegate, of the "4,- STALINIST GAG RULE 225 delegates and 748 official observers" whom the APM claims attended the convention, who gram against war which I believe even had the temerity to ask for is in the interests of the workers. the floor during the general sessions of the convention. In fact, disagreed with any resolution. I his insistence on being permitted to discuss the main resolution of the convention, after its presentation to the general session Sunday afternoon, created almost a full-blown panic amongst the sundry top officials who ran this "peace" travesty with an iron

#### A STALINIST FRAUD

hand.

The story of Mazey's attempt to exercise his right as a delegate to speak at this "Peoples" convention demonstrates the fraudulent character of the APM as a genuine peoples movement against the

"The delegates never had a chance to discuss any of the resolutions or the program! The whole first day, Saturday, was spent in getting the delegates straightened around, registering them, and so forth. In the afternoon, they trotted us out in the rain to Randall Island stadium and after we soaked around there for about half an hour, they trotted us back.

"We didn't get down to business until Saturday evening," Mazey went on. "Then we found that there were no general sessions for that day at all. We could merely sit in on one of a dozen or so discussion 'panels' and com- Program committee - which the ed into six different sections alone. Imagine trying to have a voice on the resolutions or trying to discuss before all the delegates in that kind of set-up.

"These 'panels' were a joke. The chairman, 'keynoters' and secretaries of these 'panels' were all hand-picked in advance. We didn't have a chance even to vote on them. They came in with the complete drafts of all resolutions and programs prepared in advance. These resolutions were shoved through on greased skids.

a serious question that he had to ask for the floor in writing the conventions would have been stopped right then. I've seen and heard about a lot of bureaucratic practices, but nothing to come close to this.

"Alright, I wrote my request for the floor on a slip of paper and gave it to one of the ushers chairman. He went up and gave it to the chairman. The chairman read it and passed it on to Rev Thompson, who was the general chairman of the whole convention

"Then I saw Thompson leave the platform immediately with the request note in his hand.

'I waited quite a while, maybe an hour, to see if they'd give me the floor, Meanwhile, the resolu on honestly, and fight for the protions and program were being presented and adopted. Every single one was simply read off and put to a voice vote without any dis scussion. There were plenty of things on which I am sure many not more than 15 feet from the of the delegates disagreed, but a chairman, at the Sunday afterlot of them must have seen what happened to me when I tried to discuss, and so they just kept their mouths shut. The chairman

which began about four in the af- didn't even call for discussion. "By this time, I was getting plenty sore. I moved up to the very first row of seats on the platdocument of the convention and form where the chairman couldn't say he couldn't see me or hear

> "Then I went up to the chairman again, just a couple of feet from the loud-speaker, and again loudly asked for the floor. Somebody else hastily grabbed the 'mike.' The chairman began to argue with me and deliberately lied about not having received my written request for the floor. Then he said there were too many 'regular' speakers for the delegates

to be given a chance to speak. "By this time, I was burned up. I pulled out my credential, wrote out another request on the spot; and personally handed it to the chairman, who then handed it again to the Rev. Thompson, who. "Right after the chairman had in turn, went into immediate pri-

#### executive secretary. JUST A CIRCUS

"Some 'peoples' convention! We stooge, Corlias Lamont, tell all about how the Soviet Union was not in Hitler's camp and 'makes didn't hear one authentic voice from people, the real people, the workers like me who had come hundreds of miles thinking we

the loud-speaker. I was startled to hear a high-pitched voice frantically calling all over the hall, 'Will Ernest Mazey please contact Frederic Fields on the stage immediately!' Wasn't that a hot one, and me standing within ten feet of Fields all the time.

"Fields began by asking me why I wanted to speak. 'What do you want to say? What do you want to discuss?'

"I answered plenty sharply, 'I don't have to tell you what I want to discuss. I'm a bonefide delegate and I want the floor thrown open for free discussion. What I have to say, I want to say to the delegates. That's my elementary right as a convention delegate. Do I have to submit to a censorship before I can get the floor?'

#### THEN COME THREATS!

too tough for Fields to handle to he then called over a fellow named De Lacy, who had been the chairman in the morning session and who is president of the Washngton Commonwealth Federation

"De Lacy got pretty ugly, 'I'm 1 politician,' he started out. 'And I don't think you should get the floor. If you should get the floor by any chance. I'm warn ing you now, you'll be attacked! Attacked? Why, that fellow didn't even know what I was going to say! He went on, 'I'm a politician. and if you speak, I'll get up and denounce you as, a disrupter.'

"Then this De Lacy took Fields a little aside and said in an ugly one, loud enough for me to hear Maybe I'd better get in touch with the public relations committee.'

"Well, he didn't have to hit me over the head for me to know what he was probably talking about. I'd seen Homer Martin's 'public relations committees' in action against progressive unionists in the auto workers union in Detroit. Only we called them 'goon squads'.

"I stopped trying to get the floor then. And peace once more reigned over the American Peace Mobilization. But not for long I'm going back to Michigan - 1 told those birds this - and I'm going to spread the word as far as I can among the 500,000 CIC vate conference with Field, the members there about what kind of fake convention this was."

Mazey also gave some of his. impressions about the composition of the convention, its progran

#### MAINLY BOURGEOIS PACIFISTS

like that. Anybody could come in pacts with both sides.' But we It was top-heavy with middle class and professional people. Of the 4,200 delegates, only 1700 were claimed from trade unions, and the biggest single groups of these the first real pressure.

#### A PHONEY PROGRAM

"I'm not saying there were not lot of good union elements here, who did represent a genuine wide conference representative of following. But these workers surely dian't come out of this merrygo-round affair with any program that they could honestly offer to the workers as a program which

"The only thing they added to the ideas that were in the Call they issued before the convention, was the slogan, "The Yanks Are Still Not Coming.' That had about as much sense as the old slogan which the Stalinists used to sling around the unions, 'The Yanks Are Not Coming.'

"If any worker wanted to understand what causes wars, and how wars are an inevitable product of the economic and social system, and how you have to change the system to stop wars, he didn't get a chance to learn it at this con-

"As for this being a 'peoples' meeting, that's plain hooey. You workers, any union say, where the mention of the name of a book up a big ovation, Well, when one of the speakers referred to the

#### British 'Democracy' In Operation

After securing the arrest of six leading strikers, British Labor Minister Ernest Bevin on April 4th broke a strike of 6,000 engineers apprentices in the Manchester district, England, with a threat of imprisonment, according to a London dispatch in the New York TIMES, April 5.

The dispatch further states: Several times since the outbreak of war, persons have been arrested for absenting themselves from war work. but until now Labor Minister Ernest Bevin has avoided arresting actual strikers."

#### LAGUARDIA

#### RETREATED BEFORE

LaGuardia used similar threats just a little over a year ago when he was preparing to complete unification of the subway and elevated systems under municipal. ownership. He then tried to abrogate the closed shop agreements which the TWU had won from the private utilities.

But the stern stand of the TWII n March 1940, backed by a decisive strike vote, forced LaGuardia to retreat then. He had to agree o assume the existing contracts pending court decisions invalidatng any given section. A decision of the state Court of Appeals at hat time upheld the CIO's closed hop agreement on the BMT subvay lines desp'te the city's conention that it had an interest in

#### HE SERVES BANKERS

In his present union-busting moves, LaGuardia is serving the would be denied collective bargain | name bankers at whose behest he ook over the subways.

The financiers were anxious for he city to salvage their loans and holdings in the bankrupted 'ransit corporations which they had looted for many decades. La-Guardia guaranteed the bankers 'he colossal sum of \$362,000,000 in payment for these dilapidated and bankrupted transit systems.

He added the additional service of attempting to smash the powerful TWU. His intent was - and 's -to reduce wages and employment on the transit systems and thus assure bigger and more regular payments to the bankers.

The termination of the TWU subway contracts on June 30 has provided LaGuardia with the opportunity for opening the throttle wide in his union-smashing campaign. He calculates that he is now in a better position to sucressfully accomplish what he failed to do during the last two years. For two years LaGuardia has

been sponsoring bills before the state legislature calculated to strangle the union rights of the transit workers with a legal noose. He was behind the Wicks Civil Service bill of 1939 which placed the employes on the cityowned transit lines under a civil service status interpreted by La-Guardia to rule out unions.

#### MAY BOOMERANG

But LaGuardia's efforts may well prove a boomerang. In his desperation, he has become so openly vicious and anti-labor that even the most conservative labor bodies may be forced out of selfprotection, to come out in opposition to him. In addition, La-Guardia is receiving such, eager and unrestrained support from the most reactionary papers, including the yellow Hearst press, and from the arch-reactionary financial and business groups, that his motives are becoming increasingly suspect among the millions of New York City's working class

It is these workers who can determine the final outcome of the impending subway strike. The immediate problem of the TWU is to transform the present passive sympathy of these workers into active and direct material support.

#### UNION PAPER NEEDED The TWU faces a severe handi-

rap in that it is denied any genuine voice in the boss-controlled daily press and is rigidly restricted in the use of the radio. The only practical way in which the union can overcome this handicap is to publish and circulate its now public daily paper before and during a strike.

The need for such a paper, which can reach and arouse the broad strata of workers and give an immediate reply to the daily slanders of LaGuardia and the boss press, is more urgent than ever.' LaGuardia's drive has already reached a furious tempo. The showdown is approaching with extreme rapidity. The TWU must use every possible means in bilize mass sentiment behind its momentous struggle.

#### rom him. Then he told me to put were going to discuss and draw were from office, professional and "Well, I've been to a lot of up a program which would be big union conventions, but if really effective in the fight candidate as Commissioner. ### No Longer Backing Any Colored Man For City Commission Race; Back Machines

By GEORGE BREITMAN

(Socialist Workers Party Candidate for City Commission)

Every colored worker acquainted with what goes on in | CIO ENDORSES HIS BILLS Newark's City Hall knows that he has no friends there. That is why every time elections come around, there is a rumbling among the masses, and the beginning of organization to oppose he City Hall machines and to elect an independent colored

It is always at this point that the so-called colored "leaders" ump into the picture and try to head off or break up an inde-

candidacy. The different colored organizations began to stress the necessity of fighting for the election of a colored Commissioner. Talk began to spread about uniting the different groups behind one candidate by hoding a city-(he felt he couldn't win anyway, so why run?).

Then the lawyers and doctors and wardheelers stepped in. Holding one or two conferences

the organizations.

representative only of themselves. and supported by the colored press they decided to push the candidacy of Rev. William P. Hayes, a safe and sane conservative whose only role in political life has been to oppose the \$21,000,000 relief referendum of 1929 at a time when defeat of the measure would have meant starvation for

Haves, said these leaders, would antagonize no one, and so everyof the colored press, which claims one would get behind him. None oppose him (because he wouldn't and which a month ago printed ward heelers could support him curing colored representation on at the same time they supported the Commission, now filling its columns with article after article their individual factions. The fact that Hayes did not stand for any on the lily-white politicians and particular program, they said. printing virtually nothing on the colored candidates, even when

something significant occurs on And so all the other colored candidates, and all the working their campaign. class candidates were ignored and The two outstanding colored their campaigns played down. candidates are William E. Bohanwhile Hayes' was built up by the nan and Dr. Andrew V. Morris. Bohannan is a trade unionist

This went on until about two and member of the CIO, endorsed weeks ago when Hayes left them by some unions and running on the candidacy of Franklin, head the limited time left to fully moholding the bag by declaring that the working class slogan of "Make of the department which bars Soviet Power,' which I know the he was too busy in the church Newark a 100% Union Town." His them.

illustrates that a colored candidate can get support of white workers if he presents a platform in their interests as well as in the interests of the colored work-

campaign is important because it

As an example of this, one can point not only to endorsement of Bohannan by unions of white and colored workers, but also to the action by the Greater Newark In dustrial Union Council, central CIO body, just last week when this powerful body of white and colored workers voted to endorse the two "Bohannan Equal Rights Bills" to punish discrimination against Negroes in employment by companies dealing with the city and by proprietors of public

A few examples from the press will illustrate the hopelessness of expecting any independent leader ship from them in this campaign: In February, Editor Clark of

the Gwardian assailed Vincent Murphy, at present Commissioner, for not doing anything for the colored people who had supported him as "labor's choice" four years ago, and warning him he need not expect their support in this campaign, even if he had just hired a second colored employee. In March, Murphy bought some space in the Guardian. Early in April there was an account of a meet ing on behalf of Murphy and list ed among the speakers was none other than Editor Clark!

The Herald News fully support ed the move to draft Hayes because of the terrible conditions among the Negroes these last four rears. Yet it supports the candidacy of Ellenstein, Franklin and Murphy who constituted a major ity of the Commission in office these last four years!

The Afro-American has long demanded the admission of colored doctors and nurses to the City Hospital. Yet it today supports

## The "LABOR WITH A WHITE SKIN CANNOT EMANCIPATE ITSBLE WHERE LABOR WITH A BLACK SKIN IS BRANDED" — KARL Negro Struggle

The biggest thing about the Ford strike was the miserable failure of Ford, Bennett and Mar-

race riot between the Negro and white workers. The fact stands out, big and proud, that the overwhelming majority of the 12,000 Negro workers in the plant, in spite of a barrage of antiunion, pro-Ford threats and promises, went with their class.

shall to preserve the open shop by provoking a

Ford found that he could not use the Negro workers to break the strike, for a good 80% or more of them saw through his trick, resisted the pressure of many of their "leaders" and went out with the union.

In order to preserve the remnants of this vicious plan, that would have put back the cause of the Negro workers for many years, Ford and his assistants had to depend on a comparatively small number of Negroes who were brought into the plant during the last month from the South.

These Negroes, not at all acquainted with what was going on, never having had the opportunity to hear the arguments of the union, in no way familiar with Ford's anti-union, anti-Negro scheme, were all he had to depend on when the strike actually began.

The other Negroes, the workers who have suffered under the Ford speed-up, spy system and low wage rate for many years-the real Ford Negro workers-knew where their best interests lay: with the union.

So although Ford did have a small group of Negroes to use for his scheme, and he certainly did use them in every way he could, he could not break the strike, nor arouse a spirit of white chauvinism in the union members. Everyone involved in the situation could see that the great bulk of the Negro workers were fighting with the union, not against it.

Incidentally, those Negroes who fell for and helped to spread the pro-Ford propaganda before the strike, must have felt pretty cheap to see how Ford and the boss press consciously directed so much of their publicity toward making it appear that the strike was a race conflict, rather than a struggle of workers of all races for improved working conditions.

The Negro Ford workers did their full share in saving the day for the union at Ford's. It is up to the white workers in the labor movement now to recognize that they need the full support of the Negroes in the coming struggles and to raise high on their banners the demand for full equality for their colored brothers.

#### The Crummiest Speech

The distinction of having made the worst speech of the year this far belongs to the president of Tuskegee Institute, F. D. Patterson, who declared before the National Congress of Colored Parents and Teachers:

"We are asking for a lot of things that are not of immediate importance though they aim at noteworthy ideals. One that is of apparent import to a lot of people is that we should be integrated in companies and regiments with white soldiers, claiming that the discrimination of the nation's soldiers on the grounds of color and race is a breach of democratic procedure.

'All that is admirable, but what we should be concerned with at the moment is an opportunity to serve in any capacity ...

"We should stop fretting too much about discrimination, and focus our attention on getting an opportunity on a basis of equality."

He isn't aroused about the Negro soldiers being placed in separate regiments where they can be more easily used as suicide squads and as labor battalions.

That's what he's doing-serving "in any capacity." Nothing too low or foul for Patterson.

#### Discrimination Legislation Recently two bills pertaining to discrimina-

tion against Negroes in employment were passed. One, in New York, amends the civil rights law and penal law to "make it unlawful for any person, firm, or corporation engaged to any extent whatsoever in the production, manufacture or distribution of military or naval material, equipment or supplies for the state of New York or for the federal government to refuse to employ any person in any capacity on account of the race, color or creed of such persons." This measure is now awaiting the signature of the

The other bill, already signed by the governor and now a law, was passed by the Kansas Legislature. It prohibits any labor union in the state from being certified as a bargaining agency if it "discriminates against, bars or excludes from its membership any person because of race or

It is not hard to make predictions about these bills. The New York bill will be signed and made a law too. But it won't mean a thing so far as getting jobs for the Negroes. The employers will just stop saying they refuse to hire Negroes; they will just not hire them. And the Negro people will still have to continue their struggle to force open the doors of industry.

The Kansas law also will not help the Negroes. It will not change the attitude of those reactionary AFL union leaders who now bar them from admission to unions. All it will do is enable the employers, who are really responsible for the lily-white ideas of their labor agents, to divert attention from their refusal to hire Negroes. And it will offer a handle to employers to attack and break up unions.

#### Help Publish Our Pamphlets

The two pamphlets we have prepared on the struggle of the Negroes to get equal rights in the army and jobs in the war industries are still awaiting publication. The only hitch is the money necessary. We urge readers who would like to see their publication to send a contribution, no matter how large or how small to us, co Albert Parker, 116 University Pl., New York, N. Y.

## GPU Buys Mexican "Justice"

## Court Releases Harte Murderer

By WALTER ROURKE

MEXICO CITY—The organizer and chief of the May 24. 1940 unsuccessful attack on Trotsky's life is free on bail. Yes, the leader of the band of Stalin's professional murderers which kidnapped Trotsky's secretary-guard, Robert Sheldon Harte, fired two shots through his brain and hid his lime-covered body in a shallow grave, is "cleared" of the murder charge because of 'lack of evidence." David Alfaro Siqueiros, GPU agent with a murderous record of international service to the Borgia of the Kremlin, is free to continue his terrorist work against Stalin's enemies.

On Wednesday, March 26, two judges out of three voted in favor of dropping the murder charge because no "concrete" evidence could be shown that he pulled the fatal trigger. This decision followed a refusal by the prosecution to oppose the petition of Sigueiros' counsel.

mong the Stalinists - who explains Siqueiros' liberation by mything except bribery. The press is either hostile and ironical about the decision or, at best, non-committal and "impartial"

As Natalia Trotsky observes, in spite of the "lack of concrete evidence" there remain the bullet there remains the corpse of Sheldon Harte, Siqueiros' victim.

There remains the recorded tesand paid by Siqueiros to report Coyoacan; they worked their way in various ways prevented inter- lish: "Harte was killed by Trotference with the attack on the sky; Trotsky was killed by one night of May 24th.

Preserved in the court records s the testimony of captured parpolice uniforms and arms for heir assignment.

#### SIQUEIROS' ADMISSIONS

The fact persists that Siqueiros' wife, Angelica Arenal, and Antonio Pujol bought the cot which was to be Harte's death-bed and then delivered it personally to the lonely but where Harte, after being kidnapped, was killed. Likewise remains the fact that Siqueiros, according to his own admission paid the "caretaker" of this

In defense, Siqueiros pretends to have given orders "not to kill anyone." Thus by his own admisorders to kidnap Harte and later

o kill him? The purpose of the attack? To discover documents, says Siqueiros. The fact that there was a neither Siqueiros nor the judges.

ackers passed thru this room. of his band? "Psychological" reasons says the judges - more cynically than Sigueiros himself.

Upon leaving prison, Siqueiros very much indebted to the newspapers EL POPULAR and EL NA-CIONAL for helping me in a case law." This report was published son. in EL POPULAR itself!

#### LIE UPON LIE

True to Stalin's technique, not only do his gunmen murder but they also slander. Aided by their allies in LA VOZ DE MEXICO (official C. P. organ) and their agents in EL POPULAR (Toledano-controlled organ), they first developed the theory of "self assault." "Trotsky organized the assault himself in order to discredit Mexico and help the reactionaries,," they lied.

Defeated in this attempt when Trotsky demonstrated its absurdity, they retreated to the theory of Harte's complicity. "Trotsky's own guard betrayed him," they declared hypocritically, "Harte opened the door and then disappeared." Then Harte's body was found

and belied this falsification. And still they slander, each time more fantastically, believing with Hit'er that the more absurd the lie, the more likely are people to accept it. Federico Sodi, Si queiros's lawyer, made a statement congratulating the prosecuting attorney for his "civic virtue" when he refused to oppose the dropping of the murder charge. He offered three "hypotheses" on the murder of Harte: 1. Harte was killed by

In Mexico City there is scarcely a person to be found—even thieves who wanted to rob him; 2. Harte was an accomplice and was killed because of fear he would talk: 3. Harte was killed in vengeance by order of Trotsky who organized a Fifth Column to find and murder him.

The first "hypothesis" can only ridden bedroom and beds: there be brushed aside as too ridiculremains the record of Trotsky's ous to bother discussing. The sec wounded grandson; above all ond and third "hypotheses" constitute what is left of the original "self-assault" theory. They are the latest attempt to slander Harte imony of the women spies hired and Trotsky. When seen in relation to the latest inventions of on the life in Trotsky's house in Jacson — the murderer of Trotsky - one understands the story into confidence of the police and that the GPU would like to estabof his secretaries!"

Jacson stated last Friday that he was a secretary to Trotsky! ticipants in the attack, proving Just how he hopes to establish that Siqueiros supplied them with such a fantastic tale remains to be seen. When he was first questioned, in the weeks after he assassinated Trotsky on Agust 20, 1940, he pretended to be a disillusioned sympathizer whom Trotsky had asked to kill Stalin. In the subsequent questioning conducted by Trotsky's attorney, Albert Goldman, Jacson was shown to be an inconsistent liar and an agent of Stalin.

## Connection Between Siqueiros and Jacson

By NATALIA SEDOV TROTSKY

The unsuccessful attempt of the terrorist Siqueiros against he life of Leon Trotsky on May 24, 1940 was connected directly with and led to the bloody crime committed by the terrorist "[acson" on August 20, 1940, Both crimes were perpetrated by one and the same organization called the GPU which is international in its character and which has at its disposal a mighty apparatus and unlimited resources. Both of the terrorists mentioned above are agents of this organization of Stalin's.

This is clear—and nobody in the whole world doubts it. Everything to the contrary which is stated in this connection, is said in order not to say that which really is, in other words, a lie, and a very deliberate lie. The infamous speech delivered by the

tribunal called upon to judge, i.e., to analyze the crime impartially and to render its highly competent verdict on the basis of a thorough investigation of all the evidence - this speech rings like vicious mockery of the investigation, of the court, of the blindfolded judges and of public opi- WAS JACSON THE

The connection between the two rimes is incontestable. The court did not take this connection into tion in Coyoacan of the captured account. "Jacson" succeeded in members of the gang, the defen accomplishing what his predeces- dants testified to the presence sor Sigueiros failed to do - fail- among them of a foreigner who

#### JACSON'S FIRST ROLE: TO OPEN THE GATES

"Jacson" also participated in the first attack: he devoted three to four months prior to the attack of May 24 to studying our gates and the methods of our defense when the gates were opened. He would ride up to the gates in an automobile, ring the bell, ask questions of this or that comrade, call him out, engage him in conversation on the street in front of the locked gates or transmit something, for example, an assembly kit of a toy plane for our grandson, etc., and then would leave immediately.

This was repeated systematical ly. The fact is that he did not once request an interview with L. D. and made no attempt what ever to enter the patio. He confined himself to the gates. At this stage of the joint plan with Siqueiros this was entirely sufficient for him. Nothing else interested him. He needed the gates. His role in this bloody conspiracy came down to this: open the gates Jacson is trying to eliminate at the necessary moment. The all this revealing testimony by role, it will be observed, was small saying that these questionings but nevertheless central: to open

sion he was in command of the quid" injected by order of the pol- to open the gates for him; the ang. And who, then, gave the ice. This liquid, he says, prevent guards knew him as the husband ed him from knowing what he of Sylvia who was a member of the plan of our house was found our organization, and considered What is the GPU's plan to free him a sympathizer of our organ-Jacson? attorney of Siqueiros before the been relieved by another guard

and remained at his post only accidentally because the comrade scheduled to relieve him was late. The gang captured Bob Sheldon Harte like it captured the police guard outside and felt it self the masters of the situation.

#### UNIDENTIFIED "FRENCHMAN"?

During the original examina ed owing to a fortunate accident. spoke with a French accent. Un fortunately the identity of this invidual was not established by the investigation nor was he ap. prehended. The defendants gave the same testimony during a subsequent examination. But not enough attention was paid to this detail. The defendants testified that they had not seen this "Frenchman" prior to the attack and they did not know him.

In this there is nothing strange According to the plan of the conspiracy they were not intended to know him. The more respon sible the task of a member of terrorist organization, the less must he be known to the rank and-file associates. This could have been - this was "Jacson. This supposition is confirmed further also by "Jacson's" subse quent conduct.

Siqueiros in his testimony lies and seeks to confuse. But his military actions on the terrain of our premises are quite clear and logical. In his book "The Comintern and the GPU, the victim of the attempt wrote the following: "The preparation and the execution are remarkable in their He thus accustomed our guards the layout of the premises and

scope, thorough planning and painstaking care. The terrorists were perfectly acquainted with the internal life. (When "Jacson" according to the duped Sylvia Ageloff, it was made for Siquei ceeded completely in tying up the police guard outside; they para they penetrated into the victim's impunity for a period of three to bombs and left the arena of attack without leaving a trace behind Such an undertaking is beyond the resources of a private group Observable here is tradition, train ing, great resources, a careful sel ection of executors. This is the work of the GPU." (Leon Trotsky. "The Comintern and the GPU.")

#### SIQUEIROS' TESTIMONY ALONE DAMNS HIM

lie. He declared that he issued to his gang an instruction: "Not to kill." At the same time he says that he had nothing in common with the gang and was not the commander of the gang; that he did not enter the patio and that the detachment of twenty men was not an organized one.

Siqueiros seeks to confuse and

But if he was not the comman der he could not have issued or ders, he could not have issued an instruction "not to kill" to an un organized mob. Whether he was present in the patio or not is unimportant; far more decisive is the circumstance that he commanded, issued instructions to his subordinates and consequently hears wholly and completely the responsibility for the actions of the entire undertaking up to and including the kidnapping and murder of Bob Sheldon Harte. This is clear to everybody.

Siqueiros issues an order "not to kill" but what was the gang he organized supposed to do at night in a strange house? Was it perhaps to look for a mysterious package containing documents of the conspiracy of Trotsky against Mexico? The agent of the

GPU keeps silent on this point and not without reason because inanimate objects which do not lie and which it is impossible to circumvent, testify against him.

I shall not dwell on the fact

that doors, windows, walls, in all the rooms through which the criminals passed, were riddled with bullets. In the door leading to our bedroom sixty bullet holes were left. The door to the bedroom was literally left a sieve. The angle at which the shots were fired proves incontestably that eight bullets which left traces in the wall at the head of the two beds, and which penetrated both mattresses in four places, and lodged themselves in the door under the beds, could have been fired only inside the bedroom itself.

There is also the testimony of he cartridge shells found on the loor, the two traces in the blantets with singed bindings and also the wounded foot of our grandson. No speech of the cleverest attorney, no lies and pretexts of the criminal can refute the mute, inanimate evidence of the gaping bullet holes left behind by the political murderers. The court of Coyoacan saw all this, when it visited our house and conducted its investigation carefully and thoroughly. But this was not taken into account by the Corte Penal Primero. (The court to which the case was transferred). And in this circumstance is hidden the malice and the premeditation of the decision which freed he terrorist on bail.

#### MEXICAN PUBLIC OPINION KNOWS WHAT HAPPENED

The public opinion of Mexico nas been aroused by the court's order. The entire press speaks ronically of the conditional freeing of the criminal and terrorist, enumerating all his crimes. The ie already meets with no credence. And history will take everyhing into account, will disclose everything, will deepen all the ircumstances relating to the case, ill the details, cast light on its political side sween away the falsifications and once again reveal he impeccable political activity of the victim of these two indisolubly connected crimes of the

Only by the turn of our epoch towards black reaction permits as the GPU and the Gestapo. Hit-'er and Stalin personify this black reaction. The Hitler-Stalin alliance crowns the obscurantism of the Middle Ages raised to the n-th power. Stalin has destroyed the entire generation of the October revolution and he has gone even urther. Here is what Ignace Reiss had to say in this connection in note on Slutsky, an important unctionary of the GPU:

"In May 1937, Slutsky under he influence of some fresh impressions became frank and bitterly complained that the Leningrad Komsomols who faced the firing squads went to their death with the cry: Long Live Trotsky."

Among them might have been our grandchildren. "Long Live Trotsky!" This is the fundamental reason for the crimes of Stalin. Mexico City, D. F.

## Baltimore And The Battle Of The Atlantic

By JOAD HAWKINS

BALTIMORE, Md .- Each time the German blockade sinks a British freighter, another trainload of goods bound for the war piles up at the rail and steamship terminals here. Range up and down the 127 miles of our waterfront and see for yourselves, first hand, the effects of the Battle of the Atlantic - docks and warehouses groaning under a staggering load of finished and semifinished products shipped in by rail.

Most of it comes from the steel and industrial centers of western Pennsylvania and the Middle West. Formerly, when warehouses and wharves were crowded, box cars were shunted onto sidings to be unloaded when the ships came in. But now fewer and fewer ships come in and the box cars are sorely needed elsewhere.

Motor trucks built in Michigan for the French Government before it collapsed are piled up threedeep on the docks - all crated up and no place to go. It won't be long before this moist climate begins to coat all these precious war materials with rust. Someone is going to lose a lot of money unless the local congestion is broken up by the breaking of the German blockade. It's enough to wring the heart of Baltimore's shippers and munitions makers -- enough to wring out of their mouths a long pealing war cry.

Last month 50 ships from England, including some of those the British Government swiped from Belgium, Holland, Norway and Greece, steamed into Baltimore Harbor - far too few to carry away much of the piles of war materials on our docks. Before the month is over several of those ships will be sent plunging below the waves by German submarines and bombers. It's dollars to doughnuts that 50 ships from England won't steam up the Patapsco River next month. Foreign trade, reports the Baltimore Sun, for the period of January through March of this year, amounted to \$61,728,201 - a drop from \$74,743,681 for the same period last year. Exports dropped 36%. This great port is faced with strangulation and the blight of stagnation!

#### Baltimore's Bosses Need War

Before this war started Baltimore civic associations could boast that the city had grown to the status of a world port - second in the nation, sixth in the world - surpassing Osaka, Antwerp, Hamburg, Philadelphia, San Francisco and a dozen other more widely known port cities. The funny thing about it is that the local publicity hounds were right. You may be sure from this that the local big shots will set up a terrific holler for war in order to clear up the mess in Baltimore Harbor.

To incoming industrialists and shippers the city fathers point as inducements to Baltimore's open-shop conditions, low wages and fine industrial and shipping facilities. To business men they talk in a Yankee accent; but to the working class population of the city they talk in a Southern accent - encouraging that indigenous feeling that Baltimore is, after all, just a grown-up Southern town where everyone knows everyone else.

The result has been that the workers of the city have only now begun to feel their way toward class consciousness. Confronted with an unorganized, disoriented working population, the stingy city fathers and industrialists haven't had to shell out much money for civic improvements. decent wages and housing, adequate unemployment relief or WPA.

#### It's War Or Groaning Docks

"But," says a New York comrade to me recently, "I thought Baltimore was a suburb of Washington, D. C." The reverse, comrade, is true; certainly as far as Baltimore shippers and manufacturers are concerned. They can hot foot it forty miles down to the nation's capital faster than any one to demand that American ships start sailing for England under convoy of the American Navy. The Baltimore Sun, formerly a bit stupid as far as understanding the precise needs of American imperialism, now transmits the groaning of the docks and the hollering of the imperialists:

"Port interests see the opening of the Red Sea to American-flag ships as a major step to ease the burden on British shipping. They also favor the turning over of ten Coast Guard cutters for escort duty."

Coast Guard cutters today, tomorrow battlewagons. These port interests aren't a bit concerned about saving British shipping or American "democracy." What they are worried about is all that stuff piling up on the docks along the Patapsco River.

In his usual terse manner, Samuel I. Brooks of the Pittsburgh Courier sums up the Ethiopian situation in three sentences:

"Native revolt against Italy is spreading in Ethiopia. Armed by the once indifferent British, the warriors of Haile Selassie are smiting the Italians hip and thigh. This will be good practice for running out the British when Mussolini's men abandon the territory."

A columnist in the Evansville Argus recently asked an appropriate question of Wendell Willkie. He wanted to know why Willkie didn't go on a tour of the Negro quarters in our American cities and go back to Congress and make a report on that. Willkie may answer the remarks that the Nazi leaders make about him, but we're quite sure that he won't answer this one.

Subscriptions: \$2.00 per year; \$1.00 for six months. Fereign: \$2.00 per year, \$1.50 for six months. Bundle orders: 3 cents per copy in the United States; 4 cents per copy in all foreign countries. Single copies: 5 cents.

"Reentered as second class matter February 13, 1941 at the post office at New York, N. Y., under the Act of March 3, 1879."

#### PROGRAM FOR TODAY'S FIGHT

- 1. No union fig-leaves for government strikebreaking. Demand that trade union officials resign from all posts in the government, including the OPM and the National Mediation Board.
- 2. Organize the picket lines for allout militant defense against the thuggery of company hoodlums and government
- 3. Organize Union Defense Guards to protect the picket lines and union halls against 'law and order committees,' and all other anti-labor bands.
- 4. Call an immediate halt to all acts of hostility between the AFL and CIO which serve the bosses' strikebreaking.
- 5. Demand the unification of the AFL and CIO on the basis of preserving and extending the industrial form of organization.
- 6. Independent working class political action. Build an Independent Labor
- 7. Expropriate the war industries and operate them under workers' control.

### Labor On The March

The strike wave appears to be receding. But not because of boss and government threats! The strikes, above all the strikes against Bethlehem and Ford, have brought in their wake "peaceful" gains for many workers. The raises in the steel industry are the most outstanding, but not the only example, of this process: having seen that the workers are ready to battle, the bosses are making some concessions. The main strike now on, in the bituminous coal industry, is certain to be settled for the Northern and Western mines with a victory for the union, limiting the arena of further conflict to part of the Southern mines. This is certain to be followed by a similar settlement for the anthracite miners. The wage raises in steel and coal give the union the whip hand in the negotiations with General Motors and, since the UAW leadership is more than anxious to settle for partial concessions, they will bring heavy pressure to settle without a strike.

Thus the strike wave of the last month is about over. At the same time, however, the demand for wage increases is becoming more and more widespread. The bourgeois commentators already concede that the steel raises pave the way for raises in steel fabricating plants. A hike in wages in General Motors sets the stage for the negotiations with Ford, later with Chrysler. We see by the papers that even one of Hillman's locals, Local 169 of the Amalgamated Clothing Workers, is demanding a 25 per cent wage increase from New York manufacturers of boy's clothes! It is a foregone conclusion that all crafts in the shipyards will seek substantial wage raises in the forthcoming "stabilization" meetings arranged by Hillman. These raises will inspire workers everywhere to do likewise. We confidently predict in advance that the bosses will resist the general demands for wage increases and out of the conflict will come a new strike wave. For labor is on the march.

In the coming months the workers will find inspiration in the victories they have chalked up in the past strike wave. The most sketchy balance sheet shows how considerable these victories have been. The workers have demonstrated that the biggest plant of all, Ford's, can be closed down by militant picket lines; some 100,000 auto workers have thereby been added to the ranks of unionism. Rising union strength in steel is now an unquestionable fact: most of the Bethlehem Steel workers can now be listed as union men, veterans of the Johnstown, Bethlehem and Lackawanna strikes; and the SWOC lodges in the U.S. Steel plants are far more powerful today than they were even a few months ago. Less dramatically, but no less surely, the CIO unions in the shipyards, electrical manufacturing, and other fields have grown substan-

Perhaps most important of all, is the training in struggle which great masses of rank and file workers have experienced in these battles. There is no substitute for the school of the picket line. There the workers learn what their united strength concretely means. There they learn the limits of the bosses' power. There they learn that glib negotiators get nowhere except as the picket line gets results. There, too, they learn that much that they win on the picket line may be given away in negotiations by union officials who, ignoring or failing to understand the power of the workers behind them, crack under boss pressure. A body of union wisdom is gathered on the picket lines and strikers' meetings, which is not set down in books but is, nevertheless indelibly printed on the minds of the workers, for use and extension in the next period of struggle.

Out of all these successes arise the impetus for the coming battles. The workers of this country have a renewed confidence today, thanks to the victories won in struggle during the last weeks.

One of the most important conclusions to be drawn from these struggles is that they have demonstrated again, as 1937 did, the great power of industrial unionism. The major gains have been made by the CIO unions. The right wing of the AFL Executive Council has been chiefly in the limelight as a strikebreaking agency (Ford, International Harvester, Allis-Chalmers). The AFL "Weekly News Service" has few gains to record; its space is devoted to such typical heads: "Green Opposes Defense Strikes." Matthew Woll attempts to smear the CIO's victories with Hitler's brush: "Mr. Woll recalled the fact that Hitler in 'Mein Kampf' said he would nullify America's war efforts by inciting strikes." ("Weekly News Service," April 8.) More than ever, the CIO stands out as the basic trade union movement of the American

By comparison with Woll and Green, the CIO leadership-shines—but only by that comparison. The main differences between the two is that the one is based on the old craft unions, most of them encased in a bureaucratic shell, and the other is based on the great new industrial unions on which no bureaucracy has yet been able to encrust itself permanently. Murray can't get away with what Green still gets away with—that's about the size of the difference.

The CIO workers fought these strikes with little assistance from the top union officials. The picket lines were left to shift for themselves; the officials had their eyes on Washington and were busy "around the conference table." Much that was won on the picket line was given away at that table. While the picket lines remained calm against "national defense" pressure and the rest of the patriotic ballyhoo, the officials shook with every gust from Washington and the boss press. The union officials served in many cases more as mediators between the strikers and the bosses, rather than as leaders of the workers. These are the facts. Every worker in Ford, Bethlehem, U. S. Steel, knows they are the facts.

With so little assistance from their officials, the workers, nevertheless, have made the gains we have recorded. It would be pleasant to conclude that they can go right on making gains under the same conditions. Unfortunately that isn't true. The employers and the government have also learned from the recent struggles, and will adopt more effective tactics against the coming strikes.

These tactics can be circumvented by the workers-with a class-struggle program and with appropriate leadership. Above this editorial appears our proposed program for the present stage of the struggle; we submit it to the consideration of the workers. It is no panacea. It is but the first step in what the workers must do. And it requires for its execution militants out of the mills and plants, men of the same spirit as the fighting pickets. But without such a program and without such new leadership, the gains made by the workers will not continue indefinitely. In congratulating the workers for their great struggles and advances, we must at the same time record this unvarnished truth.

#### Business As Usual

While the workers of England and Germany are being urged to a war of annihilation upon each other, British and Nazi capitalists have continued to maintain friendly arrangements of mutual

Both the British and German governments are permitting corporations in enemy countries to continue maintaining their patent rights.

Before the war an arrangement existed whereby British corporations could patent in Germany their inventions, chemical and technical processes and trade marks. German corporations had the same privileges in Great Britain. And this now goes right on!

It is largely through the control of essential patents that the German trusts were able to control the world market in a number of vital chemicals necessary for medicine, industry and war. Corporations on both sides of the war front are continuing to collect profits on war materials produced in enemy countries.

In reporting the fact of this patent arrangement, the New York Times, April 12, stated:

"Presumably with the connivance of censors in both countries, Great Britain and Germany are permitting enemy inventors to conduct their international patent business as usual through patent agents whose correspondence goes through Spain."

Change the word "inventors" to "corporations," and you get the essential picture. It's "business as usual" during the war wherever the interests of the capitalists are concerned.

The workers of the warring nations can learn. a lesson from this. They too can carry on "business as usual" during the war, by continuing the class' struggle against their own bosses.

NORMAN THOMASITES CONFESS

"The labor movement today is full of 'Socialists' who have been so fearful of losing their influence or their jobs in the labor movement that they have ceased to have any socialist influence whatever."-Norman Thomas' CALL, April 12.

But the CALL delicately refrains from naming names. No wonder-the list would include all its white-haired boys of yesterday and today: Walter Reuther, William Beedie, Jack Altman, Paul Porter, David Lasser, David Dubinsky, Zaritsky, Joseph Schlossberg, Julius Hochman, etc. etc. etc.

## War Orders Mirror Who **Controls This Country**

tions, according to a survey pubnomic Outlook.

## Where We Stand

By Albert Goldman

#### The Stalinist "Peace" Movement

If there is anything that is more difficult to struggle against than confusion it is consciously-created confusion. To argue with a person who says that peace is something attainable by men of good will is a task requiring the utmost patience, at times leading to complete nervous exhaustion. But to argue with people who consciously confuse issues in order to conceal their real designs and to confuse the innocent is well-nigh impossible.

And conscious confusion constitutes the essence of the program for peace promulgated by the Stalinist-led American Peace Mobilization.

The Stalinists are far from being pacifists but they understand that many in the ranks of those who are anti-war are pacifists and they are perfectly willing to give a pacifist tinge to their anti-war program in order to gain support from innocent pacifists.

The A.P.M. program has a strong isolationist tinge. The people who drafted that program are not isolationists but they know that much of the antiwar sentiment is based on isolationism and they do not hesitate to give an isolationist color to their antiwar program. Nowhere and at no time has a movement based itself on so much deceit as the Stalinist movement.

It must be understood that we are not talking about the thousands of sincere people who believe in the program of the A.P.M., but of those who consciously pull the strings and are the prime movers in the formulation of the program. Sincere pacifists could write a program which would be nothing but confusion; the same is true of sincere isolationists. But only Stalinist bureaucrats are capable of writing an anti-war program designed to confuse.

"We must secure a foreign policy freed from imperialist aims" is part of the A.P.M. "plan to get out of the war." Is there any indication as to what kind of a government will follow a policy freed from imperialist aims or how such a government can be secured? That is a matter left to the imagination of the reader.

It is only those who have read Lenin's pamphlet on Imperialism who understand that imperialism is not a policy followed by a government composed of bad people. It is a stage in the development of capitalism and every government of an imperialist country necessarily follows an imperialist policy.

For a government to follow a non-imperialist policy, it must be a government placed in power by the working masses for the purpose of destroying the capitalist system which is the basis of imperial-

It is only those who have read and follow Lenin and those who are interested in telling the truth to workers who would make clear the necessity of destroying the capitalist system in order "to secure a foreign policy freed from imperialist aims."

#### Ignores the Nature of Capitalist War

What is true of this particular aspect of the APM program is true of the whole program. There is not a single suggestion in it that the war now raging is a product of the capitalist system and that to fight against the war it is necessary to mobilize the working masses for the purpose of destroying that system. The program is pacifist, that is, it is not based on the concept of carrying on a revolutionary struggle

In and by themselves the proposals advanced in the program may be perfectly acceptable. To get out and stay out of the world war; to defend and improve the American standard of living; to regain and strengthen our constitutional liberties etc., are not objectionable demands. But the program definitely creates the impression that all that is necessary for the American people to do is to ignore the war that is going on, stick to our own country and everything will turn out for the best. A strictly isolationist position with a pacifist tinge. Surely Norman Thomas should be invited to become president of the organization. But Norman Thomas is a pacifist who knows that the Stalinists are not pacifists. He is not an innocent, and the Stalinists must have real innocents who, because they are fooled, thereby are in a better position to fool others. The Rev. John Thompson, national chairman of the A.P.M. is a better person to head the organization than Norman Thomas.

### Not A Word About Fascism!

In the program itself, as printed in the Daily Worker of April 7, there is nothing to indicate that fascism exists in the world and constitutes a danger to the workers everywhere. Is that because the Stalinists are still following the policy of the early period of the war when they left Hitler alone and concentrated their attacks on British imperialism? That cannot be because in their press and manifestoes the Stalinists now openly attack both imperialist camps, indicating thereby Stalin's fear of Hitler and the possibility of a shift to the democratic imperialist camp.

The real reason seems to be that the Stalinists are at the present moment, because Stalin is not yet ready to throw in his lot with the democratic imperialist, unable to give a proper answer to the problem raised by every thinking worker as to how to fight the danger represented by Hitler. There are only two ways of fighting Hitler. Either one accepts the idea of fighting him under the leadership of Churchill and Roosevelt representing the imperialist interests of the capitalist class, or of turning the war into a real struggle against fascism by the workers taking power. The Stalinists are not yet ready to accept the leadership of the democratic imperialists and they are certainly fearful of a revolutionary solution to the problem of the struggle against Hitler.

Thus does the Peoples Front continue to sow confusion in the ranks of the workers. For it must be remembered that the Peoples Front still exists. It has simply changed its policies. Whereas before Stalin's pact with Hitler it advocated the policy of uniting the democracies with the Soviet Union for war against Hitler, it now advocates a policy of uniting with the Soviet Union for a "people's peace." Stalin is anxious for peace. If Hitler will not give it to him we shall witness another change of policy on the part of the Peoples Front.

## MAY DAY MEETINGS

May Day 1941 sees America's Sixty Families plunging the United States into World War II.

Hear how the workers can end this second imperialist slaughter for profits!

Hear the program of Trotskyism, the revolutionary road to a socialist society!

.....mmmmmm
