FIVE (5) CENTS

WORKERS FACE CRUSHING WAR TAXES

Carlson Offers Socialist Program In Primaries

STATEMENT BY GRACE CARLSON

The following is the full statement issued this week by Grace Farmers Gov't

In November 1940 I was the candidate for U. S. Senator from Minnesota on the Trotskyist Anti-War ticket, the campaign name of the Socialist Work- this is the program on which ers Party. At that time I warned that the Roosevelt administration was dragging the United States into primary elections to be held here the Second World War against the interest and will on March 10.

The first plank of my 1940 platform stated: statement issued this week that "The imperialist government of the U. S. cannot fail resents continue to advocate the to drag this country into war. This will not be a war program of international social of defense, or a war for democracy or liberation; it eral prosecution of leaders of can only be a war for markets, foreign concessions, sources of raw materials and spheres of influence. last autumn. This is Wall Street's war and not ours."

Events since then have proved that this state- system than that of international ment was 100% correct. Today I stand more firmy than ever on this position.

This war is an imperialist war. Its character the workers will make the peace is not determined by who struck the first blow. It is not determined by the good or bad will of the heads of the belligerent powers. It is rendered inevitable by the rivalries inherent in the decaying cap- (Carlson. (See page 2). italist system.

I cannot and do not support this war and I in- ing scale of wages adjusted to tend to exercise my democratic right of presenting, now as before, the socialist alternative to capitalist take over the basic industries and slaughter and anarchy.

The employing class and the government are attempting to impose all the burdens of this war upon training under control of the trade the working masses. The workers must resist every move and measure aimed at lowering their standards Jim Crowism wherever it exists; to prevent Negroes from moving into the project, will be postof living and destroying the social gains achieved by defense of the Soviet Union, etc. years of struggle. Let the rich and profiteering PUBLIC REACTION monopolists pay for their own war!

I am unalterably opposed to fascism, either the foreign or domestic brand. But I do not believe that ed daily. Her candidacy is literthe workers should entrust the task of fighting fascism to Wall Street or its government. Fascism is a other candidates, campaigning as product of the decaying capitalist system which they

It is necessary to extend the hand of solidarity appeals. And the people of St. to the workers of Germany, Italy and Japan in order to arouse them against their oppressors. Only a Workers and Farmers Government in the United States can do this. Only a Workers and Farmers Government can show the way by calling for a joint struggle of the workers of all countries against capitalism.

Because I have opposed imperialist war and because I have put forth the socialist solution to the problems of war and fascism, I and 17 others have been convicted by the federal government.

I see no other way out of the bloody chaos of this capitalist system than that of international socialism. This is the only road to a world of peace, freedom and plenty for all.

I stand for international socialism; I am firmly pledged to the principles of Marx, Lenin and Trotsky.

The union of the workers will make the peace of the world. Workers of the world unite!

Morgenthau Asks Doubled Tax For Masses

Treasury Dept. Wants Heavy Increase for Low-Income Groups; Goes Light On Bosses

Crushing taxes on the workers are threatened in the new war tax program which Secretary of the Treasury Morgenthau proposed to the House Ways and Means Committee on Feb. 3.

The bulk of the \$9,610,000,000 federal taxes to run the war asked by Morgenthau is to be raised by doubling the present income taxes in the lower brackets — annual earnings ranging from \$750 to \$2500 — and by drastic increases in excise taxes on consumers goods.

Those who can least afford to pay will be forced to shell out twice as much in income taxes although the average over- his proposal this week because of all increase will be only 60 per known Congressional opposition. cent. Those in the million dollar

class will face the smallest rates

profits tax rates are proposed to cover less than one-third of the new tax bill. But even these slight increases may be evaded, as the plan contemplates retention of the present system of profits tax computation which plan to tighten the loop-holes, previously discussed by Morgenthau, was not even included in

Ford Local Aroused

The labor movement in Detroit has been thoroughly aroused by the violent attacks on the Negro people and their right to move into the Sojourner Truth homes.

The General Council of the owerful Ford Local 600 of the United Automobile Workers, CIO, has condemned the attacks and demanded that the Mayor and city administration take steps to help the Negro people move into their homes and to protect them from mob violence. The Council is composed of 325 delegates representing 90,000 Ford workers.

The labor movement is also demanding the removal of Charles Edgecombe, secretary of the Detroit Housing Commission who has lined up with the Jim Crow elements. The fact that Edgecombe is a forlabor leader cuts no ice with the trade unionists who are opposed to racial discrimination regardless of where it comes from.

British Fail To Win Aid Of **Burma Natives**

Oppressed Peoples Are Indifferent to Fate of Their Rulers

In Burma, as in Singapore and Malaya, the British have been unable to gain the support of the natives they have so long oppressed. From recent reports it appears the Burmese natives are now giving vent to their pent-up hatred for the Brit-

AMERICAN PILOT REPORTS

An American pilot in a Feb. 28 United Press dispatch from southwestern China relates that: "Natives in many districts have rebelled and are killing unarmed Britishers. . . All over Burma it is dangerous for foreigners to move around tinless they are armed, and in some districts the Burmese have even attacked armed Britishers.'

The pilot also asserts that "The Burmese are assisting the advaricing Japanese in every possible way. Some armed Burmest forces have joined the Japanese.'

MORE FAMILIAR WITH BRITISH OPPRESSION

Whether it is true or not that some Burmese are assisting the Japanese, it is unlikely that the Burmese people, who have so long demanded an end to oppression by Britain, now favor domination costs on the masses, with the attack on China that it too is war will have to be borne by colonial peoples. Perhaps the pian enemy of independence for the everyone. It will be borne will- lot's statement that the Burmese assisting the Japanese is based on a misinterpretation of the natives' efforts to free themselves from British rule before Japan takes over Burma.

But if it is true that some Burmese are aiding the Japanese. that is only because of their greater familiarity with British oppression and the fact that i has been closest to them. Undoubtedly, they will shortly react to their new masters as they have to their old.

At any rate it is a fact that for many years the most insistent demand of the Burmese people has been for national inde-

DEMANDED INDEPENDENCE

In 1940, the Burma House of Representatives - which has no real powers - passed a resolution protesting because the British had included Burma in the war with Germany "without the consent of the people of Burma and have further, in complete disregard of Burmese opinion. passed laws and adopted measires curtailing the powers and activities of the Burma Govern-

They demanded "that Burma hould be recognized as an independent nation entitled to frame ner own constitution.

In Nov., 1941, the Prime Minster of Burma, U Saw, went to England to demand "dominion status for Burma within the empire in accordance with the provisions of the Atlantic Charter."

U SAW IS "DETAINED" BY THE BRITISH

The British reply to this demand was to seize and "detain" Saw en route to Burma during January, 1942 on the charge that ne had been "in contact with Japanese authorities." British authorities have since refused to livulge anything about his fate or any details about their charges gainst him.

The lesson of Burma, as of Malaya, Singapore and India, is that only Workers and Farmer: Governments in the advanced capitalist countries which would proclaim national liberation of he colonial peoples can win the support of the colonial masses in the struggle against all forms of capitalist reaction.

Grace Carlson's Record Is A Record Of Militant Struggle

The daughter of an Irish railroad worker, Grace Holmes Carlson was born in St. Paul on Nov. 14, 1906. Through the experiences of her father who took part in the militant Shopmen's Strike of 1922, she learned early in life the meaning of the class struggle.

In 1934 she campaigned actively as a Farmer-Laborite for Floyd B. Olson and the radical "Cooperative Commonwealth" platform of the Farmer-Labor Party.

The contacts which she made with the Marxist leadership of the progressive labor movement while she was engaged in labor defense work during the strike wave of 1934-35 led her to a Marxist analysis of political problems.

In 1935 she took a position as a vocational rehabilitation counselor in the State Department of Education and became known as a militant fighter for the rights of the much exploited, physically - handicapped people.

As a state employee she became a charter member of Local 10, Minnesota State Employees Union, AFL. She served on the executive board of this local for two years; as a delegate to the St. Paul Trades and Labor Assembly for four years; as a member of the Assembly Education Committee for three years; as a delegate of her local to state conventions of the AFL for three years in succession. Grace Carlson's interest in

the cause of the oppressed early led her to support the struggle of the Negro people for social, political and economic equality. She is a member of the St. Paul branches of the National Association for the Advancement of Colored People and the National Urban League.

Active in labor defense work, she is now a member Board of the Workers Defense League.

She resigned from the State Department of Education on Sept. 1, 1940 and has since devoted her full time to the work of the Socialist Workers

As candidate of the "Trotskyist Anti-War Party" for United States Senator in 1940, she received 8,761 votes, more than the combined vote cast for the Socialist and Communist Parties.

In July, 1941, she was indicted together with 28 other members of the Socialist Workers Party and of Local 544-CIO of Minneapolis on charges of "seditious conspiracy" to overthrow the government by force and violence and of violating the 1940 Smith

On Dec. 1 the jury found all of the defendants not guilty of the charge of "seditious conspiracy" and 18 of the defendants, including Grace Carlson, guilty of the charge of violating the Smith Act.

A week later, on Dec. 8, at the same time President Roosevelt was reading his war declaration message to Congress, she was sentenced to 16 months in jail. The case is now being appealed to higher courts, and in the meantime she is out on bail.

On Feb. 17 she filed as a candidate for mayor of St. Paul; the City Clerk ruled that her name be placed on the ballot despite reactionary attempts to keep it off.

Pennsylvania Meetings for V. R. Dunne

After speaking in New York on Mar. 3, V. R. Dunne's tour will take him to Quakertown, Pa., on Mar. 7; Reading, Pa., on Mar.

He will then proceed to Baltimore, Md., Mar. 16-17; Pittsburgh, Pa., on Mar. 18-19; in St. Louis, Mo., on Mar. 21-22. The tour will be concluded in the Twin Cities, Minn.

The Socialist Workers Party asks the voters' support for its candidate, Grace Carlson, on the following platform:

The people of St. Paul together with the people of the U.S. and the entire world are today engulfed in the Second World War. In this period of terrible conflicts, mass misery and slaughter, the people of our city, as everywhere, are grappling with two great problems. 1.) They are striving to maintain the social gains and standards of living they have won over decades of struggle, through their trade unions and other organizations. 2.) At the same time they are anxiously seeking a solution to eliminate war, fascism and all the other evils which a decaying capitalist system inflicts upon them. These two problems are really one. The working masses can defend their welfare only by their own independent efforts directed towards the establishment of a Workers and Farmers Government and the institution of socialism.

The employing class is attempting to place the full burdens of the war upon the working masses. and to wipe out whatever advantage labor has been able to secure for itself in times of peace. They are attacking wage and hour laws, the right to strike, social security, unemployment relief, old age pensions, and child welfare. Prior to the outbreak of the war. Roosevelt and other government representatives promised the workers that their social gains would remain intact. It is now clear, however, that unless the workers offer organized and militant resistance to these reactionary moves and measures, they alone will be compelled to make all the sacrifices demanded in the prosecution of this war.

The steep, uninterrupted rise in the cost of living, increased taxes, the rationing of certain consumer goods and the stoppage of production of others - all these economic consequences of the war - strike most heavily at the workers and their families. Wage increases won in recent months have already been nullified by the far more rapid rise in the cost of living. The 20 per cent advance in the cost of living by this March has not only wiped out all 1941 wage gains but will inflict an additional ten per cent cut in real wages.

The monopolies and their owners are the sole beneficiaries of this war. While over 80% of all war contracts are awarded to about a dozen giant corporations, small business men are squeezed out of existence. While millions are drafted to fight and die on distant battlefronts or compelled to work long hours in the factories and fields, the monopolists pile up exorbitant profits and live in wasteful luxury.

Make the rich pay for their own war! We urge the passage of legislation necessary

to confiscate all war profits. We recommend to organized labor that the trade unions incorporate in all contracts provisions for a rising scale of wages adjusted to meet the rising cost of living.

II

The ruling capitalist class and its government attempt to justify their demands upon the workers with the pretext that these sacrifices are necessary for war production. The reports of the Truman and Tolan Congressional Investigafutable facts and figures that Big Business has deliberately refused to utilize its full productive capacity in order to safeguard profits and monopolistic positions.

Properly utilized, managed and controlled, American industry could provide even in wartime a high standard of living for the American people.

We therefore propose that the government take over the basic industries and operate them under workers' control.

According to official estimates, over 10,000,000 men will soon be serving in the armed forces. They are entering an institution where they will lose what democratic rights they have enjoyed in civil life: the right to express their ideas, to elect representatives of their own choice to petition for a redress of their grievances, etc. It is farcical even to talk about a war for democracy without democracy in the armed forces.

We are opposed to all discrimination against

Negroes in the armed forces as in industry, Down with Jim Crowism wherever it exists.

The militarized character of our times demands that every worker be given military training. We propose that the trade unions undertake to provide such training for their members under their own supervision and control. Worker-soldiers should be led by their own elected and trusted worker-officers.

We propose that the federal government appropriate the necessary funds for the establishment and equipment of camps for military training of workers under the control of the trade

The conviction of 18 men and women, leaders of the Socialist Workers Party and of Local 544-CIO in Minneapolis last December, has imperiled the civil liberties of all. These are the first convictions under the Smith "Gag" Act of 1940 which has been condemned by all leading labor and progressive organizations as the most vicious anti-labor and anti-free speech legislation in the statute books. The war-time Espionage Act is also a threat to free discussion.

We demand the observance of the Bill of Rights in war-time as well as in peace-time, guaranteeing freedom of speech, press, petition and

In the 1940 elections our candidate warned the St. Paul workers that the platform of the Labor-Progressive Association would be sabotaged by the Democratic politician, John McDonough, None of the progressive features of that platform have been put into effect during the 2 years of his administration. The progressive features of this year's platform will meet a similar fate.

Since we fight for full social, economic and political rights for the Negro people, we agree with the St. Paul Recorder in condemning the candidacy of Labor-Progressive John Mauer, who practices race segregation.

All the candidates for Mayor except Grace Carlson unite in support of the war and thereby take responsibility for its terrible consequences. This is equally true of the Councilmanic candidates including those of the Labor-Progressive Association and also of the Communist Party which claim to speak for the interests of the St. Paul

The war question dominates and overshadows all other issues. The support given the war by these so-called labor representatives renders them incapable of defending the interests of the St. Paul workers.

Not a single workers' vote should be cast for these false and treacherous politicians. VI

War and fascism are the foul products of the decaying capitalist order. To crush domestic and foreign fascism, to achieve peace and security. the workers must establish a Workers and Farmers Government in the United States.

The heroic resistance of the Soviet workers against Hitler's war machine has demonstrated that the masses will fight to the death under the banner of a workers' state for industries and land which have been taken away from the capitalists and landlords. We defend the Soviet Union unconditionally.

oppose the Stalinist bureaucracy because it has deprived the Russian masses of all their democratic rights and by its policies mortally endangered the Soviet Union. The Red Army would not have suffered such defeats in the first five months of the war had Stalin not murdered the political and military leaders who played such great roles in the success of the Russian Revolution.

Stalin sells out the world's workers and colonial peoples for the sake of temporary alliances, one time with Hitler, now with Churchill and Roosevelt. These betrayals have alienated the sympathies of millions of exploited people and dealt the heaviest blow of all to the Soviet Union

As the only party pledged to the principles of international socialism, which alone can bring a system of enduring peace, freedom and plenty, for all, we ask the support of the St. Paul voters for our candidate, Grace Carlson.

Vote Socialist. Your vote for Grace Carlson will signify your desire to build a Socialist United States of America and a Socialist World

President Gives Army Arbitrary Powers To Force Any Individual From His Home

The indiscriminate and brutal witch-hunt being conducted against non-citizens born in countries at war with the United States is now being directed at naturalized citizens and nativeborn Americans whose ancestry is Japanese, German and Ital-

The move, having the character of a racial pogrom, was initiated Feb. 20 by an executive order from President Roosevelt, giving the War Department and the Army the power to arbitrarily remove any person, citizen as well as alien, from his home and

the Army may designate as a military area. The immediate purpose of this

order is to permit the Army and the FBI to remove West Coast residents of Japanese descent --including 60,000 citizens and na-tive-born persons - into as yet undesignated camps and interior sections of the country.

exclude him from any area which

Through this order, the Army has been given the right to enter the home of any citizen, order him from his home and exclude him from any area of the country. Although the order does not constitute the establishment of martial law in the areas designated by the Army command martial law would abrogate the function of the civil courts and all civil rights - those citizens affected by an Army order will in effect have no recourse to civil justice.

RACIAL BASIS For the time being, as Attorney General Biddle hastened to assure the country, the intention s to "concentrate" on the Americans of Japanese descent. But this means that by a mere decree, a large group of citizens have been given a "second-class citizenship" status and are deprived of civil rights and liberties solely on a racial basis.

Tomorrow, the order can be directed against millions of Americans of other descent against any individual that the

Behind the Anti-Japanese Clamor In California

More than simon-pure patriotism is behind the campaign of racial terrorism against all persons of Japanese descent. The corporation farmers and business men on the West Coast - who have long coveted the land developed by Japanese settlers - have been raising the loudest voice for their evacua-

A California state senate committee on Feb. 27 urged immediate execution of plans for a mass evacuation because "California farm operators cannot plan their agricultural produc-

Surprisingly, the big corporation farm interests are not afraid of "enemy" aliens and Japanese-Americans as farm laborers — only as competitive farm owners. The Pacific League, Los Angeles business men's organization, proposes to "draft" the evacues into a forced labor agricultural army. (New York Times, Feb. 19).

Governor Clark of Idaho has generously asked that the evacues be "invited" to work in the Idaho sugar beet fields where "we can work them if we pay them a soldier's wage, or permit them to make private contracts." (New York Times, Feb. 19).

New Bill to Deprive Citizens Of Citizenship

A bill which would permit the government to terrorize and silence all naturalized Americans is being prepared in the Senate Immigration Committee as part of the current reactionary campaign against racial minorities and "enemy aliens".

The bill would permit the revocation of the citizenship of any naturalized citizen whose "utterances, writings, actions or course of conduct establishes that his political allegiance is to a foreign state or sovereignty."

Under this broad and vague terminology, virtually any naturalized American could be framed up as a "foreign agent" for expression of sympathy to the Soviet Union for holding internationalist ideas or indeed any ideas that the reactionaries might wish to tag as "foreign".

Millions could be placed in the category of "second-class citizens" under this bill, which is but one of a number aimed at destroying the civil rights of broad sections of the popula-

Army command or the Administration may wish to deprive of his civil rights.

Attorney-General Biddle attempted to justify the order on the grounds that it was necessary for the "safety" of all persons of Japanese descent on the West Coast. It is true that there has been some vigilante violence against American-Japanese, their homes have been invaded and they have been robbed by small groups of terrorists.

But instead of enforcing the law and protecting the rights of these citizens, the government is driving them from their homes, terrorizing them, and in actuality encouraging the racial discrimination that is being fanned on the West Coast.

Attorney-General Biddle stated at the time the order was issue that the civil courts would retain their function in the areas designated for evacuation by the Army, and that any one ordered to evacuate could legally go into a civil court and "get a writ". But, he added, "In my opinion, the court would say, 'This is a military decision, and we will not go behind the military author-

This can be construed only as hint to the civil courts not to protect the civil rights of evacuated citizens.

Roosevelt's order - issued as military precaution and ostensibly directed at but one special group of the population - establishes one of the most dangerous precedents for the usurpation of civil liberties the American people have ever faced.

Carlson Offers Socialist **Program In Primaries**

116 UNIVERSITY PLACE **NEW YORK**

PIONEER PUBLISHERS

Negro Struggle By Ernest Williams

When Roosevelt issued his famous Executive Order last year, A. Philip Randolph hailed it as a Second Emancipation Declaration. But the activities of the Committee on Fair Employment Practices set up by that same order show that Negroes are being Jim Crowed just about as much as ever. If the Negro people want to do away with job Jim Crow, they've got to organize and fight, not depend on executive orders that are toothless and full of

Last week the Alabama pardon parole board refused once again to pardon two of the five Scottsboro boys who have been in jail for almost 11 years now for a crime everyone knows they didn't commit. Some Negro Judases want the Negroes to forget about Jim Crowism for the duration of the war, but the Jim Crow ruling class and its agents won't let them forget about it.

It is reported that a committee of 9 Navy officials met recently to consider the future status of the Negro in the Navy, and that by a vote of 6 to 3 it was decided to recommend that the present status continue, that is, that Negroes serve only as mess stewards. Roosevelt has the recommendations on his desk, but it is reported that "due to pressure of other m 'tters" he has not had time to look at it.

Negro workers in St. Paul will find only one candidate for Mayor in the March 10 primary elections who has the slightest interest in defending the interests of the Negro people. That candidate is Grace Carlson, militant fighter for equal rights for the Negro people; advocate of equality for the Negro people in the army and out of it, in the war industries and the nonwar industries, in government bodies, in the labor movement and everywhere else; supporter of anti-lynch and antipoll tax legislation; opponent of Governor Stassen's lily-white Home Defense Guard; member of the National Association for the Advancement of Colored People and of the national executive board of the Workers Defense League; and one of the 18 members of the Socialist Workers Party and the CIO convicted in Minneapolis last December, of whom the St. Paul Recorder said, ". . . we do know that many of its leaders have repeatedly attacked the enemies of the colored people of this area. . . they have fought anti-Negro programs and racial bigotry wherever they found it."

Down in Trinidad, West Indies, at the United States military base, a soldier hailing from South Carolina fired his revolver into a crowded dance hall, killed one native and wounded another, and then was set free by a military court. Sounds just like it happened in the United States, doesn't it?

First Roosevelt said that he was opposed to the Farm Security Administration's practice of lending money to farmers which they could use among other things to pay their poll taxes. Then a couple of days later he said that he had misunderstood the question, that he supported the practice. Far more important than this was his statement that he had opposed poll taxes all his life and continued to oppose them. What does the record show? That in 1938 he expressed himself mildly against poll taxes; that he also once endorsed a constitutional amendment to abolish an Arkansas poll-tax. But neither in the 1932 Democratic convention, nor in the 1936 or 1940 Democratic conventions where he was pretty much boss, did he do a single thing to have his own party platform go on record against poll taxes. Being opposed in talk or on paper is one thing; doing something about it is entirely different. After all, it's his own party that benefits from the poll tax.

Incidentally, the FSA loans discussed above went to poor white farmers, but not to poor Negro farmers.

The NAACP announces that it has not yet fired William Pickens, staff member of the organization now on leave to sell defense bonds for the Treasury Department, for writing an article for the press which took a "position (on segregation in the armed forces) directly opposite to that maintained" by the NAACP. Pickens' article praised the Negro air unit at Tuskegee, and complained about the "belly-aching" against its Jim Crow set-up; in effect, his article opposed further struggle against segregation. Ralph Matthews of the Afro-American tries to defend him by saying, "In order to induce people to buy bonds, he has to gloss over some of the actual practices of the Federal Government", which may be logical, but is not much of a defense: Pickens will appear before the NAACP board of directors on April 13 to defend his position.

British Labor Party Leaders Betray Masses Of Both India And England

Oppose National Liberation for **People of India**

By ART PREIS

British imperialism's loyal handmaidens, the leaders of the British Labor Party, have declared themselves against national independence for India. What the British rulers mindful of the explosive situation in India — have as yet hesitated to state in definite terms, their labor lieutenants have stated for them

This latest lackey service for British imperialism is embodied in a report issued Feb. 27 by the Labor Party's Executive Council which is to be presented to the party's annual conference May

The British labor leaders' reacherous blow at the struggle for national liberation in India is cloaked, naturally, in the hypocritical assertion that the war constitutes the obstacle to immediate emancipation. The report states that "full settlement of the complex issues of Indian self-

ish reaction sound a pious and promises being projected by ing class in their desperate attempt to side-track the struggle for Indian national independence tial duty, will proclaim the unand to win the support of India's oppressed 400 millions for the

SOPS FOR INDIA

For the time being, the British abor leaders suggest a sop to the Indian masses. They offer a plea for the complete "Indianization of the British Viceroy of India's Executive Council, nine of whose 14 members are already Indian. As the British labor leaders well know, the Viceroy has the decisive power in India, and the addition of a few more hand-picked native agents of the British on in as complete subjugation as

This refers to an alleged irreconcilable Hindu-Moslem conflict in India, a conflict which the British rulers are attempting systematically to incite and provoke in accordance with their policy of "Divide and Rule."

Their instrument for these provocations, the reactionary Moslem League in India, actually contains less Moslems than the India Congress Party, and in the 1937 Provincial elections secured only 4.6 per cent of the total Moslem vote.

ECHO RULING CLASS LIES But the British labor leaders do not hesitate to use this hoary and fraudulent argument of British imperialism to justify their own traitorous stand.

In their statement on India. the British labor bureaucrats reveal once more their close ties to British imperialism and the cor-

WDL Pamphlet Has Article On Minneapolis Case

The Workers Defense League, which is supporting the defense of the 18 Minneapolis defendants, announced this week the publication of its pamphlet The Rights of Man are Worth Defending" by the League for Adult Education, Inc.

The pamphlet contains an article by Roger Baldwin, director of the American Civil Liberties Union, on the Minneapolis case, entitled "Peacetime Sedition."

Stating that "the case turned

exactly into what the Civil Liberties Union had prophesied it would, a heresy trial," Baldwin vigorously attacks the convictions in his article, exposes the role of Daniel Tobin in the case, and gives an analysis of the danger of this precedent to civil liberties.

The pamphlet also contains articles on civil rights by Zechariah Chafee Jr., A. Philip Randolph, Philip Murray, Joseph Schlossberg, and a dramatic account of the Odell Waller case by Pauli Murray and Murray Kempton. Copies may be ordered from the

ruption which the bribes of the Support Tories British rulers have bred among

No small portion of these bribes have been the crumbs dropped from the colonial tables of British imperialism, which has feasted in large measure on the bounty of India. It is for these crumbs that the British labor leaders are ish workers themselves.

the labor leaders help to alienate the masses of India from the English working class and to re inforce the rule of British capital ism over the British workers.

The Indian workers and peas ants can be the most powerful and loyal allies of the British workers in their fight against threat of fascism. But so long as the British capitalists remain in power, and so long as the British labor leaders bow before these oppressors of India, such an alliance cannot be realized.

TASK OF BRITISH WORKERS

The indispensable alliance of the British and Indian masses must be forged. It can be done only after the traitors are drummed from the leadership of the government must await the close British labor movement and after the English workers rid them-Thus, these labor tools of Brit- selves once and for all of the reactionary voke of the Church-'Amen!" to the various bargains ills and the British capitalist rulers, take political power in their the British government and rul- own name and establish the Workers Government of England.

Such a government, as an iniconditional national liberation of India. It will at once stretch out the hand of international workers' solidarity to the free masses of India. tween the different interests in Exploited Indian Masses Can Achieve Real Freedom Only Through Action Independent of Native Propertied Class

There is a lot of talk these days about solving the Indian problem by means of a few political concessions. The aim of all this high-sounding talk is to postpone and prevent a real solution of India's historical tasks and needs by the only ones capable of achieving such a solution, namely, the vast Indian masses themselves.

The overwhelming majority of Indians are peasants who live under feudal and semi-feudal conditions. It can be said without any fear of exaggeration that no other country in history was ever faced with the solution of the agrarian question on such a vast scale.

To maintain their rule over this enormous country the English imperialists have done everything in their power to preserve and perpetuate the feudal structure. In addition to cult, caste and tribal divisions, there are more than 700 feudatory states which bind the peasantry to conditions of indescribable poverty and degradation. The apparatus of British imperial rule reinforces this outworn feudal structure and aggravates the conditions of more than 280 million Indian

To the rural classes of India the struggle against British rule is synonymous with the struggle against their feudal bondage. National emancipation is for them indissolubly bound up with the agrarian revolution.

This is no secret to the bourgeois leaders of the Indian nationalist movement. Jawaharlal Nehru, the President of the Indian National Congress, wrote in his autobiography: "For all these rural classes nationalism or Swaraj means fundamental changes in the land system which would relieve or lessen their burdens and provide land for the landless."

Who Will Help the Peasants?

How will these fundamental changes be accomplished in such a country as India, the classic colonial country of world capitalism? Despite its overwhelming numerical strength the peasantry cannot achieve the agrarian revolution with its own forces. It needs a powerful ally in the

The Indian peasants have already learned much from more than two decades of experience with the hourgeois nationalist movement. They gave the National Congress its real strength. The Congress, in its turn, under Gandhi's leadership, revealed its complete bankruptcy. Millions of Indian peasants already know through experience that the bourgeois nationalist leaders are no less fearful of the consequences of the agrarian revolution than are the British imperialists and the native princes. Many millions more are beginning to understand just what Gandhi, Nehru and Co. stand for. Peasant delegations march W.D.L. at 112 E. 19 St., N. Y. C. | to the National Congress bearing placards, "Down

in this direction.

"It is absurd to say," explains Nehru, "that the leaders betray the masses because they do not try to upset the land system They never claimed to do so." For the Indian bourgeoisie, nationalism merely means a greater share of power and profits in the ruling block with two other classes, the British imperialists and the native feudal lords. Their dream is to become equal partners, they are ready to settle for much less. The experiences which lie immediately ahead will completely convince the Indian peasants that the native bourgeoisie is a mortal enemy of all those who seek to "upset the land system."

But the treachery of the native bourgeoisie does not at all doom the peasant movement to defeat. On the contrary, the Indian peasants have a far more powerful ally in the cities than the force represented by the weak and degenerated native capitalists. This great ally is the Indian working class numbering more than 5 million and employed predominantly in Englishowned industries. While composing a tiny minority of the population, the Indian working class in reality represents the most dynamic force in the country. It is the only reliable ally of the peasantry. It alone is capable of leading the struggle for India's independence and of carrying through the agrarian revolution.

The Lessons of China

With an infallible class instinct the Indian bourgeois nationalists deny that the Indian proletariat is either revolutionary or capable of leading the peasantry and the struggle for national independence. They hope to repeat on the Indian arena what was accomplished by the Chinese bourgeoisie under Chiang-Kai-shek, i.e., to crush the proletariat. The temporary success of Chiang and the Chinese bourgeoisie was due above al! to the treachery of the Communist International under Stalin who surrendered the Chinese proletariat bound hand and foot to the bourgeois

The lessons of the Chinese experience are of crucial importance for the development of the Indian struggle. The Chinese revolution suffered a grave defeat because the Chinese proletariat failed to build in the very heat of the struggle an independent political party based on the principles of Leninism; and because the Stalinist party surrendered the leadership of the national liberationist movement and of the agrarian

We have just received news from India of the formation of the All-India Bolshevik-Leninist Party. The program of this party represents a great conquest for the Indian proletariat. The growth of this party is the best guarantee for the triumph of the alliance between Indian peasants and

from the war, together with their leadership. This was manifested capitalist rulers who want and most sharply last December at the time of the vote on conscrip-The leaders of the Labor Party tion of all men and women in England for war or work.

> DIVISION AMONG THE DEPUTIES

In this discussion, the leader of the so-called left wing, Mr. Shinwell, stated in debate with

his own party leaders; "The male labor of the country and to a large extent the female labor of the country is conscripted. In effect, everything is conscripted with the sole exception always declared that if Labor The result of the Labor Party was conscripted there must be a quid pro quo (this for that?) Did they not abandon that principle when they went in?"

> Shinwell of course does not represent the real interests of the masses. He fights shy of giving a concrete socialist answer to the problem. He ambitiously hopes o capitalize on the growing opposition of the masses to the sellout policy of the Labor Party of ficials.

> But the important thing is that the masses are in increasing opposition to the policies of the leaders of the Labor Party. This opposition showed itself, in nowhere near its real strength, by the vote of 30 members of the Labor Party in Parliament against the official policy of the Labor Party on the question o

"conscription of wealth." Another sign of the veering away of the masses from the of ficial Labor Party is the increase in votes of the centrist Independent Labor Party in the recent bye-elections when they polled from 15% to 29% of the total vote. This vote was recorded in spite of the fact that the Com munist Party ardently supported the Tories in the elections.

The British Socialist Appeal organ of the Workers International League, a Trotskyist group. demands that the Labor Party end the coalition with the Tories and strive for power upon a pro gram of socialist demands.

STRIKES INCREASE

Just as the Labor Party agreed to a coalition with the Tories on the political field so did the trade union leaders agree with the employers to a "truce" on the economic field. Without consulting the masses, they adopted a nostrike compulsory arbitration policy that cripples the workers' efforts to better their conditions.

The standards of living of the workers are constantly falling as the effects of goods shortages and

more sharply. The workers' resentment is increased because at the same time, the bosses' profits are not being curtailed but are even rising. The British Economist points out that 2017 companies which had reported by Jan. 1, 1942, showed a total profit of 389 million pounds for 1941 over 375 million pounds for \1940.

As a result of these factors and in spite of the official policy of the trade union leaders, workers have struck in numerous

cases. For example: The aircraft workers in the Napiers Plant in Liverpool struck: a "token" walkout of ; half-hour took place in all the shipyards on the Clyde; 5000 men walked out in the Rolls Royce plant; several thousand Kentish coal miners struck and succeeded in raising their pay from 6 shillings, 9 pence a day to 15 shillings, 2½ pence a day. The United States Is For Free Trade In British Empire

Ottawa Agreement Is Set Aside

The United States has always been for its own unrestricted right to trade freely - inside the British Empire. This aim it has finally achieved, at least as a promise on England's part. The agreement just signed by Halifax for Great Britain and Welles for the United States sets aside the Ottawa agreement which was designed by England to shut this country out of the British imperial preserves.

The attempt on the part of the capitalist press to place a truly international significance on the new agreement hardly holds water. True the pact does the handsome thing, for the benefit of skeptics, by saying that similar arrangements are open for all nations "of like mind." It is to be doubted whether other nations, handicapped in their competition with American mass production, will prove very anxious to avail themselves of the opportunity to let down all bars to United States businessmen.

The eight points of the Joint Declaration of Intentions may be nicely sugar-coated for public consumption. But they are part of the hard bargain driven by the Yankees in return for their lease-lend aid to England. Churchill attempted slyly to evade paying this price in the first agreement, the Atlantic Charter, signed by Roosevelt and himself. There he had inserted in the section dealing with the letting down of trade barriers a little clause to the effect that commitments already in existence were to be excepted. This brought a loud outcry from the Yankees. The present Declaration pins Churchill down and does away with the loophole left in the Atlantic Charter. The Ottawa agreement is thus dead

Conflicting Interests of Two Nations

Halifax naturally makes use of the new agreement to show that after all the Americans were unduly suspicious of their English cousins. This is a bad business and must be corrected. He has no illusions concerning the difficulty of building up sufficient trust between the two nations, particularly in the post-war period. His words are worth quoting on this score: "But the difficult time comes when the physical danger is removed, and no one who remembers the period after the armistice of 1918 can help but wonder whether our two peoples will manage to work with each other better than they did a quarter of a century ago. It is an easy but insecure assumption that comradeship in war will, of its own momentum, carry over into peace."

The Ambassador is more than right. Particularly is this the case when the aims of the two countries in the war are far from being identical. The aims of two capitalist countries in a world war cannot possibly be the same, for each seeks its own best interests. The economic interests of England and America on a world scale are in conflict with each other.

The actual terms of the Declaration (probably contained in notes of interpretation exchanged between the foreign offices rather than directly in the printed document) are far less important than the basic assumption underlying the agreeit. These assumptions are Utopian to say the least. They assume that world economy can be brought back to a more or less even keel on the foundations that existed before 1939. Trade and commerce will be resumed where it was left off before the second world war. Only this time the Anglo-American bloc will see to it that its dominance over the entire world is maintained.

The assumption is an obvious fallacy. The inability of all the warring nations to repay their debts, both foreign and internal, is rightly taken for granted by everybody. The sudden swing that will be necessary from a war production such as the world has never before seen, involving from sixty to eighty per cent of the total production of every single big capitalist country, back to the production of civilian goods, will obviously bring an economic crisis. Those economists who talk hopefully of evading such a crisis by piling up mass purchasing power during the war which will be released for business stimulation the moment the war ends, shut their eyes to reality.

Real Barrier to World Economy

The tremendous sums of money being spent on the war represent the super-wasting of actual wealth. The machinery of civilian production is being allowed to run down while the nation devotes itself to total war. The reconstruction of the productive apparatus will require almost as much wealth as is now being squandered for war purposes. The amount of purchasing power "stored up" in the banks for the masses (even if we suppose a scheme such as that of Meynard Keynes is accepted) would not be a drop in the bucket so far as the real amount necessary for

setting the machines going again is concerned. The second world war is impoverishing the world at a breath-taking rate. The scorchedearth policy - where it is applied instead of just talked about - may be an "all out" war measure, but how will all of the wealth destroyed

The more realistic economists have warned that the standards of living of the masses will have to remain at the low level of wartime until what wealth remains to society has first gone into the effort to rebuild the forces of production. A world at a lower level of existence all around will hardly encourage trade and commerce.

The anarchic methods of capitalism cannot possibly bring real economic recovery after this war. Nor can any one country, even two countries like the United States and England, bring order out of chaos. That is the great fallacy that underlies the thinking of the reactionary capitalists who suppose that they can re-establish what has gone forever. The Declaration of Intentions merely declares this purpose. The Intentions cannot be labelled good ones, for they stand in the way of a better world. The barriers to world economy are not mere Ottawa agreements but the very system of capitalism itself.

'Militant' Endorses Carlson's Candidacy

THE MILITANT wholeheartedly endorses the candidacy of Grace Carlson for mayor of St. Paul, Minnesota. Our endorsement is accorded to her . as a banner-bearer of international socialism.

As the first candidate for public office to unfurl this banner since America's entry into the war, her campaign takes on national and international sig-

It is a token in action that Trotskyism, which Grace Carlson proclaims, continues to speak out amid capitalist reaction and war to rally the workers to that program of workers' emancipation which alone will bring lasting peace and security for the oppressed of the earth.

American capitalism tried to silence the voice of Trotskyism through the Minneapolis "seditious conspiracy" trial in which 18 Trotskyists and CIO members — including Grace Carlson — were convicted under the anti-labor Smith "Gag" Act.

All the more significant then is her campaign today, for it symbolizes to the workers of America, as well as of St. Paul and Minnesota, that Trotskyism lives and functions despite persecutions and repressions.

Grace Carlson carries on the heroic tradition of Eugene V. Debs. Debs, too, dared to voice the slogan of international workingclass solidarity during the last war. A million workers cast their vote for him while he was behind prison bars because of his courageous stand.

Like Debs, Grace. Carlson bears the brand of capitalist justice as a badge of honor. It marks her, and the movement for which she speaks, as uncompromising defenders of the workers'interests, who never surrender their principles even under the blows of the capitalist rulers. As the Trotskyists were, so they remain, the inheritors of Marx, Engels, Lenin and Trotsky, the standard-bearers of the socialist future of mankind.

It is with confidence that her program today will be the program of the entire working class tomorrow, that THE MILITANT urges the workers of St. Paul to vote for Grace Carlson and socialism in the coming city elections.

"Protecting" Labor, Negroes And Aliens

If an individual is assaulted on the streets by a gangster, it is customary to arrest and punish the gangster and assist his victim. Under the impact of the "war for democracy", however, this simple concept of justice is being reversed so far as the workers, Negroes and non-citizens are con-

Thus, when workers sent him protests about the bosses' war profiteering, Colonel Roy M. Jones, of the procurement division of the Army Air Corps, did nothing about the war profiteers, but sharply "warned" the workers about becoming

"tools of nazism." When a Ku-Klux-Klan incited mob in Detroit attacked a group of Negro families who were

moving into a government housing project built for Negro war workers, Mayor Jeffries "protected" these Negro workers and their families by ordering them to stay out of their new homes "until further notice." And when his police got through "protecting" them, of 38 persons sent to the hospital, 33 were Negroes, and of 104 persons arrested, 101 were Negroes.

When vigilante terror broke out against persons of Japanese descent on the West Coast, President Roosevelt issued an order empowering the Army arbitrarily to drive all persons of Japanese descent, citizens and non-citizens alike, from their homes and farms. Attorney-General Biddle, self-styled "guardian" of civil liberties, hastened to approve of it as a measure for the "safety" of the threatened victims of reactionary terrorism.

Hitler is a past master in applying this concept of "justice". Every time he undertakes a new invasion, or some other new blow at the masses, he explains that he does it "for their own good," to "protect" them.

Why German Soldiers Are Not Surrendering

According to official reports, the Red Army has surrounded a large number of German troops in the region of Staraya Russa. Almost 100,000 have been completely cut off; thousands have already been killed and the rest are reportedly on the verge of starvation. Yet Moscow itself does not even hint that these troops may surrender.

It is well known that very few German soldiers have surrendered. Stalin was compelled to admit this in his order of the day, issued in connection with the twenty-fourth anniversary of the Red-Army.

Are the German soldiers preferring death to surrender because they are fanatical Nazis? To say this is to identify the German people with Hitler's clique. According to Stalin, such an assumption is ridiculous. We agree. What then is the explanation?

Stalin, like Churchill and Roosevelt, offers the German soldiers only another Versailles Treaty. This is what they reject.

The German people were offered a "free Germany" and a "democratic peace" in the last war. The self-same promises on Stalin's lips sound no better today than they did on the lips of Wilson, Lloyd George and the British and French "socialists" in 1914-1918.

Hitler's talk of the threat of another Versailles is a terrible reality to the German people. This spectre is Hitler's best weapon.

The only guarantee against the threat of another Versailles is the program for the establishment of the Socialist United States of Europe. Let the Red Army issue such a call, and the German soldiers would not only surrender willingly but join side by side with the Red soldiers in the struggle for the Socialist emancipation of Europe and all mankind.

Henderson Advises Pulling In Of Belts

Price Administrator Leon Henderson, in a speech before the Overseas Press Club on Feb. 26, graphically described how heavily the Administration expects the burden of the war to fall on the American masses.

Henderson stated that such a high percentage of the nation's productive capacity is to be diverted to war purposes that "the level of living within a few short months will be not much above 1932, and that in 1943 we shall surely fall below 1932."

Henderson further explained that "you guests may not appreciate what it means to the American people to fall below the bottom of our great depression, but the people listening tonight will know what it means and understand that it is a warning to pull in their belts and pull hard."

But not /all "the people listening tonight" understood this as a "warning to pull in their belts . . .hard." If there were any capitalists listening to Henderson, they understood this "warning" to apply only to the workers, poor farmers and lower middle class.

The monopoly owners and finance capitalists expect to grow fatter each day of the war. They have already had to let out, not "pull in", their belts. Average corporation profits in 1941 were 30 per cent higher than in 1940, an exceptionally good year, and 100 per cent higher than in 1939. But why, while the bosses pile up more and

more profits, must the masses "pull in their belts"? This nation lacks neither the labor power nor productive facilities to maintain the flow of consumers goods even while war production is expand-

The scarcity of consumers goods is the direct consequence of the policies of the monopoly owners and theif agents who are running war pro-

They have deliberately restricted the expansion of production facilities in order to maintain their monopolies. They have forced whole industries to shut down because they refused to invest their huge idle capital in expansion and plant conversion.

Let the capitalists first "sacrifice" their billions in war profits before there is any more talk of the workers pulling in their already tight belts. Let the government take over and operate the basic industries under the control and management

Not until this is done will the masses feel any justification for speeches urging them to pull in

American Tells Of Indian Workers' Organizations

Met With Union Groups and Heard Workers' tices, very reminiscent of those in the U.S. The companies plant Views On War and National Independence spies in the union, set up rival

By WILLIAM ELLIS

(The following is the concluding section of an article by an American who returned from India shortly before the outbreak of

India is very largely a peasant country, although it has a tremendous potential for industrial development. This potential has not been realized because of British domination. The and their meetings and activities British rulers do not wish the growth of industries competitive are under continual surveillance. to Britain's home industries, preferring to drain the raw materials and resources of India and 9-

ment, and with it the growth of manager?" the industrial working class. Although the industrial workers represent as yet only a small that the managers act for the fraction of the population, they companies and are not to be are highly concentrated in certain trusted. I further told them that and the native capitalists key cities and industries. They from my observations of the have built up a tradition of mililitically far above the level of to win them better conditions. be much easier for us." the rest of the native population, They expressed agreement. and have a political and economic weight far out of proportion to their numbers.

exploit it as a market,

One of the things that surprised me as we went up the Hooghly River at the port of Calcutta, where I got my first glimpse of India, were the foundries and banks. Most of them looked like new, modern buildings, and from the signs on them I could tell they were very largely British- told me that they had to work owned. The present war has sti- a regular twelve-hour day, six mulated an industrial expansion

This expansion was evident in all the big cities and ports I vis- less work a day. All life means ited. In one city, where there to us now is work to exhaustion, is a growing steel industry, I had the opportunity to meet a group of iron and steel workers. They were in the process of forming a union, and represented sev eral plants in the area.

TRADE UNION PROBLEMS Unionism was a very new experience to them, and they were course. To them, the British auextremely interested in every phase of union activity and pro- and the same. They also told me cedure. Naturally, they were of some of the company pracforced to function under conditions of virtual illegality, as the vaunted British democracy has never been imported into India along with British imperialism.

Every time I had a chance to talk with Indian workers, I found them extremely anxious to learn about the organizational methods and experiences of the American workers. Yes, even into faroff India among the most exploited workers in the world, has come the knowledge of the great labor struggles and organizational strides of American labor in the past decade.

Observing that I was an American and sympathetic to the cause of the workers, the steel workers met asked me many questions about how the American workers go about winning better conditions. They told me of some of their problems, and solicited my advice.

"CAN WE TRUST THE MANAGER?"

One of them told me that in his particular plant, the union had gained sufficient strength to compel the management to deal with it. However, he explained, the manager was attending their meetings and negotiating for the company directly within their organization. The steel worker and his comrades expressed doubt as to the wisdom of having the company manager in their meetings, company unions, etc.

W. Mitchell, Negro member of the House of Representatives from Illinois, in the Congressional Record, Feb. 18: Mr. Mitchell: "Mr. Speaker.

a startling revelation in connection with the downfall of Singapore, made by responsible authority, is to the effect that the largest contributing factor to the defeat of the defending forces was Britain's refusal and failure to recognize and use the native soldiers. While Britain's treatment of her native soldiers was unjust and contributed to the failure of the British soldier himself, it is far better than the treatment which the American Negro soldier receives at the hands of a large portion of our civilian population and, I think, the War and Navy Departments

themselves. "A casual look at what is taking place in some parts of the country will convince one beyond all doubt that America's attitude toward Negro soldiers is worse and more abominable than the attitude of the British soldiers and the British Government toward the natives in and around Singapore. . ."

By good fortune, I was able to attend a meeting of dock workers in one city. Although they are a recognized and legal union, they are nevertheless constantly subjected to police intimidation, arrested on the slightest pretext,

It came as a surprise to me

ROLE OF STALINISM

But so deep is the workers' hatred for the British rulers, and so strong is their desire to fight for national independence, that the Stalinists - to prevent complete isolation from the masses - were proceeding along these lines slowly and in the most in-

They were, for example, trying to exploit the progressive sentiments of the workers for aid to Stalinist propaganda was trying to convince them that they should soften their struggle for national independence in the interests of helping the USSR, and its ally Britain. But at the time I was there they had not yet dared to come out openly among these workers and tell them to support

During the course of my, discussion with the dock workers. my opinion was asked about the Soviet Union. I told them that was for its unconditional defense, but, I added, it was necessary to differentiate between the workers state and the capitalist states, and that I thought the best way they could help the USSR was by continuing their own struggle for national freedom They nodded approvingly,

From my observations, Stalinism is one of the most dangerous forces operating against Indian independence, particularly because in the past the Stalinists have led the masses in many bitter struggles and their influence has penetrated deeply among many advanced sections of the Indian working class.

INDIAN TROTSKYISTS

I am happiest to be able to report that there is a growing Trotskyist movement in India. The Trotskyists I talked with were extremely optimistic about the future of the Fourth International in their country. They already have groups in a number of cities and are planning the consolidation of these groups into an All-India party as soon

I also learned that, contrary to reports circulated in the United States some time ago, they are and have from the beginning been in full agreement with the position of the Socialist Workers Party for defense of the Soviet

The Fourth Internationalists in India are composed mainly of workers and have been winning over more and more union militants. Of course, they are functioning under very difficult, illegal conditions. Some of the Indian comrades are in prison.

They are publishing a paper called "The Spark" - named after Lenin's paper, "Iskra". In the formation of their party, and as a guide for its organizational methods, they are trying to apply the teachings of Lenin's 'What Is to Be Done?"

Among the Indian masses there is no section that appears to be able to give correct and militant leadership other than the industrial proletariat. They impress one with their class outlook, militancy and political intelligence. It is the workers, I am certain, who will give the decisive leadership to the struggle for Indian emancipation. Conditions in India are so explosive today that with a correct proletarian revolutionary leadership, nothing will prevent the Indian people from successfully achieving their freedom from British rule and oppression.

A Side Show That Almost Stole The Show

Side-Show Struggle

It is not very often that a side-show overshadows the main attraction. Especially if the main attraction happens to be as breathtaking in scope as the fall of Singapore. Well, this almost happened. And small wonder, for look at the cast of characters: in the center of the stage is a virtuous, well-meaning First Lady. She's got in her embrace a pale, frail but very beautiful dancer. Around them a pack of howling wolves: congressmen, the press and all its Peglers, and radio commentators. Can anyone conceive of a more dramatic setting?

The suspense grew greater every minute. Everybody began to take sides, to lay bets of the outcome of the titanic struggle, when all of a sudden everything was brought to a quick halt. Somebody backstage pulled some wires and all the characters who looked so real revealed themselves as mere puppets and they were withdrawn from the stage.

Whoever pulled the wires back-stage, did it in the nick of time. If this side-show had been permitted to continue beyond the first act it would have revealed that the so-called national unity is merely a thin veneer covering some deep-going differences, even within the ruling group that is united on the question of foreign policy.

The conflict as it unfolded in the one and only act showed a difference over the character of the OCD. The outright reactionaries raised a howl against some of the social functions of the OCD. But even though the curtain was drawn on this act, the extent of the conflict can be judged somewhat by the bitter comment made after the event by the First Lady in her weekly broadcast on Sunday, Feb. 21:

She blamed the dispute on "what I hope is a small but vocal group of unenlightened men who are now able to renew, under the guise of patriotism and economy, the age-old fight for the privileged few against the good of the many."

Later on she almost assumes the role of a rabblerouser: "Perhaps we must all stand up now and be counted in this fight, the virtuous Westbrook Peglers on the one side, the boon-dogglers, so-called, on the other . . . " (New York Times, Feb. 22.)

A Question of Method

But despite the great heat and the sharp phraseology, the dispute is fundamentally over a question of method. How are the workers and farmers to be won over to a greater war effort? The "enlightened" First Lady says: You can attract more flies with honey than you can with vinegar. Answer the old timers of the tough, rough-and-ready school: These are not flies you are dealing with and the good old whip will work wonders.

Here is where the rub comes in. The "enlightened" might be willing to put their enlightenment aside for the duration. But aren't we supposed to be fighting for democracy the world over? Wouldn't it look too raw to adopt the methods of barbarous fascism and at the same time say you are fighting fascism?

The public as a whole is extremely cynical of mere sermons about democracy. The last war and the struggle to "make the world safe for democracy" is still fresh in the memory of the present generation. Has there been any attempt on the part of the ruling class, its spokesmen, or its flunkeys, both the liberals and the conservatives, to explain why World War I which brought victory to the "democracies" resulted in a political phenomenon unknown prior to the war - the emergence of Fascism and Nazism?

Questions the Masses Are Thinking About

The toiling masses want to know also why half the time that elapsed between one war and the other was spent in misery, deprivation and degrading unemployment. Why they had to sell apples on the street corners under Hoover, and why when WPA was established under the "New Deal," they were looked down on as boondogglers. Why there was a howl that WPA and the miserable relief pittance was bankrupting the country, while scores of billions of dollars are voted for the war without a murmur out of the same people.

They want to know why it is wrong for workers to fight for higher wages to offset the rising cost of living, while on the other hand the bosses are accumulating fabulous profits, despite occasional "investigations" which do nothing to curb profits.

The youth of the country wants to know why they have been the forgotten men of the generation with no chance for a job, a career - no chance to live a normal life. They want to know why it took a war to focus attention on them, and here too not as masters of their own destiny, but as victims - victims of a world not of their own making. They want to know who is responsible. They ask questions.

This is why the sideshow over the OCD, the First Lady, Mayris Chaney and Melvyn Douglas can become so prominent. There is no answer forthcoming, to the real questions, it would be too embarrassing, too enlightening. Instead there is a lot of fancy skating around the real issues, with an occasional outburst between the two methods of approach. One section of the ruling class prefers plain unceremonious brutal force; the other, and as yet more influential, would like to try further the method of camouflage and
