WLB Says Little Steel Formula Will Continue

Roosevelt's Agents Lay Down Anti-Labor Barrage to Scare Off AFL-CIO Officials from Conducting Fight for Wage Increases,

Roosevelt is now organizing his counter-offensive against the labor movement in a desperate attempt to preserve the wage-freeze. He fears that the WLB approval of the contract signed by Ickes with the United Mine Workers has opened wide the sluice gates to new demands for wage increases. He is striving to overcome his administration's definite loss of "face" on the labor front. The big windbag, William H. Davis, WLB chairman, became quite melodramatic about the "fall" of the WLB. The coal wage agreement, according to Davis had injured the board's strike policy. Then quoting Marc Anthony, Davis exclaimed: "Great Caesar fell. O, what a fall was there, my countrymen. Then I and you and all of us fell down." The quotation does not make it clear whether Davis or Roosevelt is the Caesar who fell. But one thing

is sure: Davis is smarting under the blow of the miners' vic-

In an attempt to scare off the Murrays and Greens from following in the miners' footsteps, the WLB proceeded to lay down an anti-labor barrage immediately after they were forced to approve the mine agreement.

WAGE FREEZE CONTINUES

On Nov. 10, Davis announced that the coal wage agreement "has not impaired the wage stabilization policy." Davis insisted that his Nov. 5 letter to Vice-President Wallace, where he implied that labor's wages had been frozen while prices had been rising was "widely misunderstood and misapplied."

"So far as I am concerned," he declaimed, "I have not begun to surrender and do not intend to surrender any part of the wage stabilization program."

The next day the WLB returned to the attack by accusing the UMW of "cynical and repeated violations of the no-strike policy." Three of the WLB public members then threatened the labor movement with a new union-busting campaign if they insisted on fighting for higher wage increases. "Legislative sanctions," they de-"more thoroughgoing than now exist may be required unless organized labor itself demonstrates from now on its determination to accept the bitter with the sweet and to comply with the orderly processes of govern-

Big Business proceeded to emit its own savage growl at the labor movement. Momentarily cornered, they were forced to go along with the Ickes-Lewis agreement. Their industry representatives on the WLB voted along with the "public" members to approve the agreement. But now they are trying to organize their minions more strongly than ever before to prevent the rest of organized labor from winning wage

Nazis Face Rising Tide Of Resistance

By Miriam Carter

Grimness was the keynote in the Nov. 8 Nazi celebration of the 20th anniversary of the Munich Beer Hall Putsch, in contrast to the swagger of previous demonstrations. Hitler in his speech made many threats against "German people who despair," 'cowards," "criminals," and others who are defeatists. No gay buntings were permitted to remind the masses that 20 years ago the Nazis made their first bid for power.

This year, the tenth of their unchallenged rule, the Nazis 'celebrate' amid rumblings from the German and European their hatred of an anger with the masses which presage doom for

Not one of these representatives of the capitalist class whose answers were printed suggested to the fifteen million workers that the way out of their dilemma was to seek and get organization.

Stark virtually admits that it is the lack of organization among these exploited white collar workers which is responsible for their present predicament. But that doesn't mean that he proposed to them that they go out and organize. On the contrary, he puts living on the wage increases gained by organized labor.

The facts adduced by Stark are a powerful, albeit unintentional, argument for the 15 million white collar workers to join up with organized labor.

The next day, Nov. 12, William Green, AFL president, protested against the labor baiting offensive of the WLB. In a letter to Davis, Green said: "Statements such as these made by the WLB labor to participate in the work of the WLB as now constituted and to maintain confidence in the board. . .

It is possible that the Murrays and Greens will be scared off by this heavy barrage of threats and make it increasingly difficult for dire warnings. If in the period before the Moscow agreement Stalin replied to Churchill's demands for a twopower alliance by organizing a 'Free Poland Committee" a "Free Germany Committee," and so on then in the weeks since the Hull-Molotov-Eden agreement Stalin's answer to Churchill comes in the form of flat territorial demands.

Reflected in the feverish moves and countermoves by Stalin and our epoch: the irreconcilable contradiction between the decayed system of capitalism, which Roosevelt and Churchill are fighting to perpetuate at all costs, and the new social order which the Soviet Union still represents despite its political degeneration under Stalin. This antagonism temporarily submerged is coming to the forefront by the titanic victories of the Red Army and the powerful revolutionary currents these victories generate on the continent of Europe.

It is by no means excluded that still another agreement, or even agreements may be reached by Stalin and his Allies. A Roosevelt-Stalin-Churchill pact may supplant that of Hull-Molotov-Eden. But the same forces - operating under the inexorable laws of the class struggle-which "out-dated" the Moscow agreement will in the end blow up any agreements with Berlin and forty other cities in the "democracies" which Stalin work for private owners. Europe's New War Problem

means of a constitutional amendment. Such a procedure would only drag on for years. The wardheeler politicians of the state legislatures of thirteen of the southern states could hold up the constitutional amendment for years and prevent its passage. The man who spouts about bringing the "four freedoms" to the people of the whole world has so far found not one word to say on behalf of the simple freedom of the right to vote. Like the Wall Street masters, he, too, has an alliance with the southern bourbons. He appoints their leading representatives to the Supreme Court bench, to his Cabinet and to the most important war agencies. His own assistant, Byrnes, who works right out of the White House, is a prominent poll tax poli-

In his many years in the White House, Roosevelt has demonstrated over and over again that he understands very well how to mobilize public pressure on Congress when he really wants a bill passed. His record on the poll tax issue proves beyond the shadow of a doubt that he does not intend to break his alliance with the poll taxers and that if they are insistent enough, he will again permit them to sabotage the bill. Roosevelt may make a perfunctory gesture here and there; he will never fight the poll tax.

The fight against the poll tax is far more than a fight for Negro rights. It represents one significant line of the whole battle-front against reaction. Abolition of the poll tax will be a great aid to the labor movement, not only of the south, but also of the north. The labor movement must press forward to defeat the poll tax.

The Poll Tax

The Senate is preparing to repeat, what has in recent times, become an annual farce. The Senate Judiciary Committee, by a vote of 12 to 6, has finally after weeks of delay reported out favorably the Poll Tax Repeal Bill. Immediately the reactionary poll-tax Senators sprang into action. They openly boasted that they would filibuster the polltax bill as they did a year ago. Senator Bilbo, who represents the State of Mississippi by virtue of the fact that over 90% of the Mississippi population is disenfranchised, served notice that he would start the filibuster. Eastland and McClellan, poll-tax senators of Mississippi and Arkansas, announced that they were preparing "several hundred" amend-

The poll-tax Congressmen are venal timeservers of the northern banks and corporations and the southern millionaire landlords and growers. This corrupt crew labors in Washington with the one purpose of keeping the Negro and white workers of the south in a subjugated and half-starved condition. The poll tax and its consequent disenfranchisement of the overwhelming majority of the southern population, makes it impossible for the labor unions to exert any pressure on these mercenary

But the southern bourbons and their Congressional agents could not preserve the poll-tax or for that matter, their oligarchic rule over the South, were it not for the generous assistance and support of northern Big Business, and its Congressional stooges. The octopus of Wall Street needs the southern bourbons not only to bleed the South and extract from its workers and sharecroppers untold profits. The southern bourbons are also the spearhead of every reactionary union-busting campaign. The alliance of northern Big Business and the southern bourbons is not only an alliance against the southern Negro and white workers; it is also an alliance against the labor movement of the

Last year the Senators refused to vote the cloture rule and thus permitted a few southern demagogues to talk the anti-poll tax bill to death. Now O'Mahoney, Democratic Senator from Wyoming and a supposed liberal to boot, is running interference for the poll-taxers. He is trying to bury the anti-

War Criminals

Roosevelt and Churchill pledged in the Moscow agreement that the war criminals "will be brought back to the scene of their crimes and judged on the spot by the peoples whom they have outraged." If this promise were sincere, King Victor Emmanuel, Badoglio and the rest of the King's generals would be turned over to tribunals of the Ethiopian, Libyan, Spanish, Albanian, Russian, Yugoslav and Greek peoples, and first of all to a tribunal of the Italian people themselves.

But Emmanuel and his generals have not been handed over to be judged and punished by the peoples whom they have so cruelly outraged. Instead Roosevelt and Churchill have welcomed these bloody fascist butchers into the Allied camp, clothed them with the status of co-belligerency. and by force of arms preserved their rule over

Now the Yugoslavs have branded as war criminals two members of Badoglio's cabinet, Generals Mario Roatto and Vittorio Ambrosio. Roatto was sent to Spain by Badoglio during the Civil War. He commanded the barbarous fascist forces that machinegunned helpless Spanish refugees on the road to Malaga in 1937. For two years before the Italian surrender, Roatto was chief executioner against the Croats and Slovenes in the Balkans. The workers of Turin remember Roatto as the man who ordered the troops to fire at the slightest provocation to prevent demonstrations. Ambrosio was responsible for bloody massacres in Yugoslavia and Greece.

The Yugoslav charges made Roatto too hot to hang on to, so he has just been dropped from the Badoglio cabinet. But he has not been turned over to the Partisans to be judged at the scene of his crimes. Ambrosio still remains in the Badoglio cabinet while his case is "under investigation" by General Eisenhower. Emmanuel and Badoglio, no less than Mussolini, were the real authors of the atrocities committed by Roatto and Ambrosio. Yet they remain in authority, propped up by Allied

The leniency of Roosevelt and Churchill toward their Italian puppets is a necessary part of their war program. For the fact is that really to indict war criminals is to indict the capitalist system itself. It is capitalism that is the arch war criminal. And capitalism is the breeder of fascism.

Roosevelt and Churchill are committed to preserving the capitalist system against the workers revolution in Europe. But European capitalism, in its utter decay, has spawned fascism. Who is there left to defend rotted capitalism in Europe except the fascists, the reactionary generals, the Vatican? How else can Roosevelt-Churchill save capitalism except by working with the fascist beasts, their natural allies against the revolutionary working class?

That is why Roosevelt and Churchill made a deal with Emmanuel and Badoglio instead of turning them over to the peoples they have outraged. That is why so many fascist laws are still being enforced in Allied-occupied Italy.

That is why Roosevelt and Churchill are preparing an attempt to put the hated monarchs of Greece and Yugoslavia back on the throne.

And that is why at the first opportunity the "democratic" Allies will make similar deals with fascists elsewhere in Europe and with Nazis in

to build a Socialist United States of Europe.

The capitalist press, radio and movies are filled with stories of the patriotism, ingenuity and initiative of the shipyard owners because of the number of ships which their yards are turning out for the U.S.

Very little is said by these capitalist publicity men about the enormous profits which the shipyard magnates are making in this war. Nothing at all is told of the price which the shipyard workers are paying for the speed-up in construction schedules. Numerous articles in medical journals, however, relate the grim story of the mounting number of casualties among the shipyard workers.

Dr. Phillip Drinker of the Harvard School of Public Health, recently published the results of a survey which he and Dr. John Roche made for the U. S. Navy and U. S. Maritime Commission in shipyards with government contracts.

Hundreds of cases of lead poisoning were found among shipyard welders. Dr. Drinker attributed this to the fact that now metal plates are often painted with red lead in the yards in order to keep fast construction schedules, whereas this painting job was formerly done after the plates were in their final position. Workers who weld these painted surfaces without special protection against the poisonous metal fumes suffered from lead poisoning. In one yard, it was reported that nearly every welder working on such painted surfaces was ill at one time or another with slight or major symptoms of lead poison-

Flash burns of the eyes of shipyard welders and others working near the welding operations are increasingly frequent. Very little safety equipment is provided to protect workers from the welding glare.

It is up to the workers themselves, organized in their trade unions, to fight for efficient protective equipment and safe working conditions.

Vinson Warns Masses Must Assume Heavier Tax Load

The Investment Bankers Association met in annual convention last week to consider how Big Business is faring in the war, and to plan further extension of the profits of the monopoly banks and corporations in the coming year. Roosevelt sent his personal appointee Fred M. Vinson, Director of Economic Stabilization, to assure the bankers that their interests are being fully protected by the Administration.

Did Roosevelt's man Friday tell the bankers that the money changers had to be driven out of the temple? No. Vinson proposed to the bankers a "courageous" program of taxation to be imposed on the millions of industrial and white collar workers and the ranks of the middle class.

"Four-fifths of the national income," Vinson asserted, "is held by individuals earning \$5,000 a year or less, and if purchasing power is to be siphoned off from those levels where inflationary pressures are greatest, it must be drawn from these income groups."

After ten years of Roosevelt's "battle" against Big Business and his phoney campaigning on behalf of the "forgotten man," Roosevelt winds up by granting the bankers and the billion-dollar corporations their largest profits in the history of American industry, and by imposing on the "forgotten man" the most outrageously high taxes since the founding of this coun-
