# British Trotskyists Will Go On Trial This Month Workers Angered

Labor Unions Denounce Arrests As Workers Rally to Support Broad Defense Committee Roosevelt Order Paves Way For Forced Labor

Arrested early in April on charges that they "did conspire, combine, confederate and agree together to act in furtherance of a strike declared by the Trade Disputes and Trade Unions Act of 1927 to be illegal," four members of the Revolutionary Communist Party, British section of the Fourth International, were brought before the City Police Court in the northeast England town of Newcastle on April 28 and ordered held for trial at the June assizes, according to reports of the case in the Socialist Appeal, official organ of the RCP.

The arrested Trotskvists are Jock Haston, general secretary British war production by inciting of the RCP; Roy Tearse, national secretary of the Militant Workers' Federation; Ann

JOCK HASTON

Keen, northeast (London) district secretary of the party; and Heaton Lee, former mine organizer of South Africa who the defense of the arrested four. joined the Trotskyist movement | Pressed by the ranks, Labor Party in 1937.

Defying all precedents of British court procedure, the defendants were held in prison without bail or public court hearing from the time of their arrest until May 9, when ready joined the national defense Haston and Tearse were admitted to bail of 400 pounds (about \$1600) each on condition that both live in London until called for trial. As far is known, Ann Keen and Heaton Lee continue to be held without bail.

The arrests were preceded, accompanied by, and followed up Davies, M.P; S. Silverman, M.P; with a rabid campaign against Rev. Sorenson, M.P; W. G. Cove, the British Trotskyists in Chur- M.P; Fenner Brockway, Indechill's Tory newspapers and in the Stalinist press, in which the Padler, Independent Labor Party; defendants were depicted as V. Sastry, Federation of Indian sinister underground conspira- Associations; Don McGregor, tors, sustained by "foreign funds" and engaged in plots to sabotage

workers to strike.

This wild lynch campaign was

riticized in the House of Comnons by Angurin Bevan, leftwing Labor M.P., who declared: These poor people had none of he benefits of any democratic code, and at the moment when they were in prison, before they and been tried, the newspapers vere permitted, without any acion being taken against them at all, to commit contempt of court to an extent which had never before been seen in Great Britain. They piled up public hatred, they ented indignation and they slandered and abused these people at the very moment when they were committed for trial. No action was taken by this venal overnment to protect them in any way. The whole thing is disgraceful. . ."

#### LYNCH CAMPAIGN

The remarks of Aneurin Bevan were directed, in particular, at 'Laborite" Ernest Bevin, His Majesty's Minister of Labor, and 'Laborite" Herbert Morrison, His Majesty's Minister of Home Security, who initiated the camaign of persecution against the Protskyists in a frantic effort to head off the growing militancy of the British workers by depriving them of the fighting leadership of the Trotskyists.

The British workers, correctly interpreting the attack on the Trotskyists as the spearhead of an offensive against the entire labor movement, are springing to and Independent Labor Party leaders have joined in a broad national defense committee, and the formation of local committees throughout the country is well under way. Those who have al-

## **NEW AUTO-LITE UNION HEADS** PROVE NO BETTER THAN OLD

By M. Ingersoll

the workers of the Auto-Lite steadily getting worse; they Plant to review the status of found it impossible to settle any their union organization at the grievances; the workers were dispresent time, in view of the armed in the face of company fact that the Executive Committee is now once more going through the motions of obtain-

ing a new union contract. The Auto-Lite workers laid the foundation for the UAW in the great 1934 strike. At that time under a militant leadership, the Auto-Lite workers heroically battled the company and the Ohio National Guard. They broke the "open shop," laid the foundation for unionism in Toledo, and improved conditions throughout the Auto-Lite plants. Auto-Lite workers should bear in mind the events of 1934 and their leadership of those days, as they review the record of their present leader-

Prior to the last UAW convention, the Auto-Lite Unit was dominated by leaders who belonged Lite Unit. Gosser's hand-picked

to the Addes-Frankensteen caucus. Under this leadership, the TOLEDO, O .- It is well for workers found their conditions. provocations.

> The fact that the Addes-Frankensteen group was in control of this unit of Local 12, was a thorn in the side of the Reuther faction which controlled the local. Prior to the last convention, the Gosser machine started a "smear' campaign against the Auto-Lite committee. It was not difficult for Gosser to discredit the already discredited committee. He brought out all of the essential facts: that the committee was in collusion with the company; that the committee did nothing about the grievances of the workers; and that the members of the committee sold their votes to Addes at the last UAW convention for \$200

In the last election of the Auto

Having failed to gain legislative sanction for labor conscription, the Roosevelt administration has resorted to administrative decree, to freeze workers to their jobs at wages frozen under the Little Steel formula. Orders have been issued by the War Manpower Commission, to be put into effect by July 1, placing all male workers over the age of 17 under the control of the Government's United States Em-

Under the McNutt plan workers would be obligated to apply at the USES for employment and would then be referred to jobs according to a "priority" scheme which involves shifting workers from "non-essential"to "essential" industries and from one area to another. Asked what would happen if workers refused to take jobs to which they have been referred, McNutt replied that the answer was "apparent in the fact that State laws provided that such persons might be deprived of unemployment

ployment Service.

ployment." (N. Y. Times-June 3).

With control of employment concentrated in the hands of the USES a worker can be deprived of livelihood by being placed on a USES blacklist for refusing to take a job paying less wages in his own or another area. By refusing to issue certificates of availability workers can be kept frozen to their jobs and in the event of a strike workers who refused to accept jobs as strikebreakers would be subject to the sanctions inherent in the McNutt plan. In commenting on the plan, Representative William J. Miller of Connecticut, said: "No wonder Mr. Mc-Nutt refused to ask for passage of a national service act. He does not need such a law if he can get away with present practices." James L. McDevitt, president of the Pennsylvania State Federation of Labor (AFL) added: "The new program had everything that a labor draft cal'ed for."

Quick to recognize the union busting implications of the McNutt plan, the Pennsylvania State Federation of Labor voiced a vigorous protest against the new WMC order and announced that it would demand that the union hiring halls continue to serve as employment centers for union workers. The plan is part of the current drive of Big Business for the return of the open shop. Placing full control over labor employment in the hands of the USES would mean driving a wedge into the closed shop by undermining union control over hiring where c'osed shop contracts exist. That has been one of the primary aims of the labor draft proposals -an aim which the administration now hopes to achieve by administrative edict thus by-passing the obstacles confronting the adoption of a forced labor law. Small wonder then to find Senator Austin, coauthor of the vicious Austin-Wadsworth national

#### Champions of 'Free Enterprise' at Work

#### Seaman Nails **Bridges**

You will probably be in terested in the reaction of the longshoremen to the latest Bridges war and post-war nostrike policy. We were in the ship's mess hall drinking coffee with some longshoremen and talking waterfront unionism with them. One fellow volunteered: "You know, I have gone down the line with Harry (Bridges) 'up until now, but this is too much. I can't see where we are going to get anything from the bosses without fighting for it like we always have." The other four fellows had apparently reached the same conclusions before this, and nodded their heads in agreement. Not one of the five even tried to defend Bridges' policy.

It looks as if Bridges has some rough sailing ahead. A Seaman San Francisco

chairman and five of his endorsed candidates were elected. The rest of the committee pledged their 100 percent cooperation to the newly elected chairman. Thus today, we have not an Addes-Frankensteen committee but a Gosser-Reuther committee, though majority of the fifteen commiteemen are the vote-sellers against whom Gosser tilted so heroically before the last election.

As the time for the Convention draws nearer, there are indications that there may be a division of the committee along the old lines. This will not mean that either faction is interested in doing anything for the Auto-Lite workers. It will not mean that they want to go to the conven-

## **Bridges And The Stalinists** -- Permanent Strikebreakers

By Harvey Brown

A number of prominent officials of the CIO have taken issue with the position taken by Harry Bridges, notorious Stalinist stooge, that "the strike weapon is overboard not only for the duration but after the war." The Bridges statement, part of a double-barrel blast against the labor movement, stigmatized workers on strike as guilty of "treason against the Nation." Attacking the Bridges assertion as "ridiculous" R. J. Thomas, president of the powerful United Auto Workers Union, said: "The idea that labor should

featist proposal. The labor movemost effective weapon." In contra-distinction to Bridges, Thomas advocates that labor throw away "its most effective weapon" only "for the duration"—a period which no one yet has clearly de-

In commenting on the Bridges statement, Milton Murray, presiremarked: "I would like to assure ufacturers and the U.S. Chamber of Commerce that Harry Bridges does not speak for American labor nor any significant fraction of it." George Baldanzi, executive vice-president of the Textile bor movement and any one who also presupposes that the industrialists in this country, including Sewell Avery, are now going to welcome unions with open armswhich is, of course, crazy."

Samuel Wolchok, head of the union which led the Montgomery Ward strike, asserted: "I can

## **Against Roosevelt Arbitration Set-up** WLB Is Graveyard

of Labor Grievances

By C. Thomas

An examination of the strike statistics released last month by the government's Bureau of Labor Statistics reveals that the number of strikes has increased each year since Pearl Harbor. Covering the first three months of each of the three war years, the study shows that the number of new strikes has been progressively greater for each period. The number of new strikes occurring in the first quarter of 1942 was 571, for the same period in 1943 it was 643 and 1,020 or almost equal to the total of the two previous years, for 1944. The figures show a similar progression in the number of workers involved in new strikes. In the first three months of 1942 there were 154,343 workers involved in new strikes: in the first quarter of 1943 there were 203,-998, and for the first three months of 1944 the figure given is 340,000.

Computing the number strikes for the first three months Bureau of Labor Statistics show RESOLVED: That we appeal to that there were 330 new strikes in the President of the United both January and February and States to grant unconditional 360 in March, compared with the pardon and immediate release to 1943 figure of 195 in January, 200 the 18 Minneapolis prisoners, and in February and 248 in March. While no statistics are yet available for the months of April and indicate that the figure for each of the first two months of the second quarter of 1944 will top those of the preceding peak of 360 reported for March. The curve of the strike movement. continuing as it does, its upward swing on the eve of the invasion. is indicative of the increasing discontent of the workers and their growing disillusionment with the compulsory arbitration machinery of the Roosevelt administra-

The company refused to extend that policy. WLB directed Sewell Avery to we see, the dollar patriots are extend the contract pending a not at all deceived by the spurious tharp swing to reaction after representation by the NLRB. Montgomery Ward. Avery refused to comply, refused to bargain with the union, ignored the grievance machinery, and continued to victimize known

The WLB whined and complained about Avery's "attitude" and the imposition of the Roosevelt. ployer, until the workers were forced to take independent action to defend the existence of their union. It wasn't until the union called the strike, which gained the sympathy and support of decisive sections of the labor movement and gave every indication of being successful, that Roosevelt dashed in - to break the strike. The plant was "seized," the workers herded back to their jobs, an NLRB election was held and the plant was returned to the company even before the results of the election were known. In a recent hearing before the WLB the president of the union bitterly complained that now that the strike was broken, the government agencies are "marking time beautifully," while · Avery proceeds to cut the union to

> ILLUSIONS DISPELLED It is true that the union offi-

cials and many of the workers originally hailed the Montgomery labor's "friend" in the White Ward "seizure" as a victory for House and his elaborate labor rethe union. Their iMusions were lations machinery brings only quickly dispelled. In their appearance before the WLB, the union officials, voicing the attitude of their membership, said that if Avery remained adamant in his refusal to grant the union a contract, "we will not be responsible for another strike. This time we will not return. We have a way of handling Montgomery Ward." The lesson of the Montgomery Ward the cumulative lessons of years dispute has not been lost on the

As an aftermath of the Montgomery Ward strike the NLRB now proposes to grant all employers the same privilege given Avery to challenge the collective bargaining rights of the union upon the expiration of a union contract. The NLRB seeks to vie with the WLB and Roosevelt's farcical seizures, as a strikebreak ing agency in the service of the employers. The recent strike involving over 3000 formen in the Detroit area developed after the WLB had kicked the demands of

#### **OBJECT LESSON**

The strike of the chemical workers at the Parke-Davis plant threatened to impose drastic observance of Labor's no-strike pledge! According to Davis: a union succeeds in getting over Act—there is the no-strike pledge to keep the workers under the thumb of the boss.

As the strikebreaking role of the government becomes more apparent the resistance of the workers increases. The strike of the Woodworkers in the Pacific Northwest is indicative of this months and which resulted in a mands of the workers. It was a agents on the WLB who enforce

An interesting sidelight is provided by the lumber barons, war profits, pleading with Roose-

DETROIT AREA

While the recent strike wave has manifested itself in all parts of the country, the center of unrest has been in the highly industrialized Detroit area. The arrogance of the auto tycoons has grown in direct proportion to the capitulatory policy of the union bureaucrats. The resistance of the union militants to the deliberate provocation of the corporations has resulted in a series of "unauthorized" strikes in which the union bureaucrats have invoked the unconditional no-strike pledge as a pretext to join the corporations in crushing the resistance of the workers. A number of powerful UAW locals, having witnessed the progressive deterioration of union conditions in the industry, have gone on record demanding the revocation of the no-strike pledge. This demand has been met with increasing repressions against those members and locals who resist the union busting drive of the corporations.

The discontent of the workers, as recorded in the strike statistics released by the Bureau of Labor Statistics, gives rise to a growing conflict with the employers, the government and the union bureaucrats. The workers are learning that dependence on frustration, victimization and de-

They are groping toward the road of independent action on the economic and political fields. Disoriented by the policies of the servile labor lackeys the workers are learning the hard way-but they are learning. Behind the bare strike statistics are of deception, treachery and betrayal. The numerical increase in the number of strikes presages a qualitative change in the mood of the workers. The next major labor crisis will undoubtedly reveal features characteristic of the advancing stage of the developing class consciousness of the American working class.

# Brewster "Sit-In" Gave Warning To American Workers That They Must Prepare To Resist Mass Unemployment

American labor was dramatically aroused last week by the militant sit-in demonstration of the Brewster Aeronautical Corporation workers, who refused for two days to vacate the company's plants at Long Island City, N. Y., and Johnsville, Pa., when the Navy Department abruptly terminated its contract and forced the mass lay-off on three days' notice of the bulk of 13,500 Brewster employes.

reactionary elements in the UAW leadership and a member of the Addes-Stalinist clique, had intervened in the situation during the militant policies of the Brewster local and its leadership, and had opposed their previous strike actions in defense of their contract, he undoubtedly considered the lay-off issue 'safe" and a chance to refurbish his tarnished reputation among

the auto and aircraft workers. One of his chief purposes was to get the sit-in ended quickly without any embarrassment to Roosevelt. While putting out statements against what he termed the "Wall Street Navy" -a correct estimate in itselfhe sought to absolve the Roosevelt administration as a whole ministration's contract termination policy and anti-labor attitude" which led to the Brewster situaprogram put into motion by the monopoly "grab-all" plan, which Frankensteen supports.

#### SHARES RESPONSIBILITY

Moreover, Frankensteen shares esponsibility, along with the entire UAW top leadership, for the fact that a union-busting attack has been centered on Brewster Local 365. Under his leadership and servile policies, the rest of the aircraft locals have been forced to accept lower wages and worse working conditions than at Brewster. Had a fighting policy been pursued everywhere and conditions raised to the level of Brewster, Local 365 would not have stood out as the special target for Wall Street and the government.

The past 3 year history of the Brewster conflict gives the real clue to why the Navy Department struck its blow as it did. Four years ago the company signed the only union shop contract in the industry, and in subsequent years, under the pressure of the union established the highest wage scales and best union conditions in the industry. The rest of the industry, controlled mainly by big Wall Street financial interests, determined to break the union and gain control of the independent company.

In December 1941,, according to the available information, one of the big rubber corporations owners into handing over control. The rubber company's the Brewster management did not yield to the proposed conditions, they would see that the government itself took the appropriate action to force the company was failing to fulfill its contracts. At the same time, the government agents opened up their assault against the union by claiming that the company was incapable of managing the workers or handling the union, which the Navy claimed was dictating the company's policies. This was the first and only

plant seized by the government where no actual labor dispute was in progress. The Navy held

Frankensteen, one of the most

The following article is a first-hand account of conditions in Southern Italy today, written by a young American merchant seaman, who recently visited Italy.1

By William Hill

South Italy mirrors in miniature the fate of Europe under Allied rule. Naples, a metropolis of some one million inhabitants, eloquently illustrates Italy's present position.

I was in Naples some six months after Allied occupation. The conditions that exist are almost unbelievable.

Food is simply not to be had. As soon as I left the pier, I saw long lines of beggars, including at the opulent fascist-controlled women with babies at their breasts. I saw in the streets of main thoroughfares groups of

What does this mean? The Italian masses instinctively cheer the red army victories. They wish 'Law and order" is enforced to emulate the Russian masses

Out of the bomb-blasted tenements this call will grow louder doglio nor AMG can stifle it. When I heard of an Italian Italy will move to a better day.

## **Prince Umberto -- New Tool** Of Monarchist Dictatorship

By J. C.

King Victor Emmanuel announced when the Badoglio gov- when the masses were suffering ernment was recently reor- the infamies of the fascist dicganized that he would turn over | tatorship. When the blackshirt all activity to his "lieutenant," troops, led by Marshal Badoglio, Crown Prince Umberto as soon as the Allied armies occupied Rome. Now that the Anglo-American forces are entering Rome, the new "democratic" titular ruler of Italy will be Prince Umberto.

The rulers in Washington and London are convinced that they need the monarchy as a bulwark against the tide of social revolution. Unfortunately for the Allies, the House of Savoy was so intimately tied up with the Fascist regime of Mussolini, so smeared with its crimes, that it had thoroughly discredited itself before the masses.

In the nine months since the overthrow of Mussolini this has become clear beyond the faintest shadow of a doubt. The slogan "Down with the King!" has resounded throughout the land.

The House of Savoy naturally wishes to save itself. It possesses tremendous wealth and privileges Kings have a horror of unemployment. They like employment even less. They seek by all means to perpetuate their comfortable parasitic existence.

#### A TRICK

It became clear that the Italian monarchy could be saved from the anger of the people only by a miracle - or a trick. Miracles, of course, do not happen and so a trick was decided upon When the Badoglio regime was in process of having its face lifted by the political beauticians of Washington and London, with the aid of the Stalinists, social-democrats and liberals, Victor Emmanuel announced that he would step down from the throne after the Allies captured Rome and turn his job as King over to his son, Prince Umberto, who would rule in regency fashion with the title of lieutenant-governor.

This trick is not likely to succeed. The Italian working-class knows only too well that the entire royal house, including Umberto, was intimately tied to fascism and is part and parcel of the system of capitalist exploitation which gave it birth. The seal | capitalist class were grooming for of the House of Savoy was set the Italian throne before Romehad clear. The masses will not be in which they have no confidence. upon every act of the fascist re- fallen. He will be presented as a tricked. The reactionary Italian gime from 1922 until the hour when Mussolini was toppled from really concerned for the welfare bayonets can only postpone its

Umberto himself licked the fascists all through the years the streets of Rome after their barbaric conquest of Ethiopia, Umberto stood with Victor Emmanuel on the balcony of the Quirinal Palace, raising his arm in the fascist salute. When the gold wedding rings of millions of Italian women were sacrificed to pay for that imperialist advent ure. Umberto's wife, the Princess Maria Jose, made a demonstrative public offering of her owr ring to the fascist cause.

#### MUSSOLINI'S MAN

In 1938, Umberto was appointed by Mussolini to the position of Inspector of the Italian Infantry. On May 23, after reviewing regiments of Royal Grenadiers, he sent a telegram to Mussolini: "Duce, I wish you to know that the Italian Grenadiers, as citizens and as soldiers, are ever ready to obey your orders in peace-time and in a glorious war for the imperial greatness of the Fascist fatherland."

The same day, overcome with love for Fascism, he wired Achilles Starace, secretary of the Fascist Party: "The Grenadiers fraternity united with the Blackshirts send their Fascist salute to the Bersaglieri who fought in the First War and in Africa."

Princess Maria Jose joined the Red Cross and led a great drive to recruit nurses for the Ethiopian campaign. On Oct. 3, 1939 she sent an affectionate telegram to Mussolini "Duce, I wish to convey to you the undying faith of the Red Cross nurses of Italy who, following your shining example, will always be able to accomplish their silent duty. Your very affectionate cousin, Maria di Savoia."

A month later Umberto was demonstrating anew his love of Fascism when he and Mussolini "knelt together in devout religious rapture" at the tomb of the Unknown Soldier in Rome to do "homage" to the thousands of men, Italians and Africans, whom they had sacrificed in the Ethiopian war.

This is the man whom the Allied "democrats" and the Italian "friend of democracy" who is of "his" people. But the people extinction.

Anti-Capitalist Demonstration in Naples

A part of the mass demonstration held in Naples on March 12, is shown above. The demonstration was called in protest against the monarchy, a few days after Churchill openly proclaimed Allied support of hated King Victor Emmanuel. The temper of the Italian people is shown in the signs; significantly, the largest reads "Down with Capitalism;" the sign in the background calls for "Liberty, Democ-

of Roosevelt's Four Freedoms-

"Freedom from want!"

By James Cowan

Ten months have passed since the Italian masses rose to put an end to the regime of Mussolini and his Fascist Blackshirt gangsters. Nine months have elapsed since the Allied armies of "liberation" marched into southern Italy as bearers of Roosevelt's "Four Freedoms." Now that other European countries are about to be "liberated" by the Allies, it is appropriate to draw a balance sheet of the Allied occupation, to

assess the blessings which the American and British armies told the visitor that they were have brought to the unhappy being paid 100 lire, or about \$1.00 Italian people.

"Freedom of religion?"-meaning freedom of the priestly caste to give and of the exploited and oppressed to receive the opiates of the church -- this the masses never lost, even under Mussolini's

"Freedom of speech and press?" - these are as far from realization now as they were ten months ago. Southern Italy and Sicily are under the dictatorial regime to 80 lire a kilo, and greens anyof Badeglio and the King and the six "opposition" parties, back of which stand the armies of the Allied imperialists. No paper can be printed and distributed without permission of the Allied mili-No public meeting or demonstration can be held without similar permission and this, too, is withheld from real oppositionist groups.

"Freedom from fear?" - the Italian people live in greater fear today than they did under Mussolini. The "democratic" imperialists promised them peace if only they would get rid of Mussolini. Instead, their country has been turned into a battlefield of the rival imperialist camps. Towns and villages are being shattered into rubble. The inhabitants are in daily terror of aerial hombardments

#### BLACK MARKETS

But perhaps there is "freedom from want" - it is here that we encounter the most glaring contradiction between Allied promise and Allied performance. Food is scarcer than it has ever been. It can be obtained, for the most part, only in the black markets and at prices which are beyond the means of most of the people. Unbr'dled inflation has destroyed the value of the currency and reduced most of the population to utter beggary.

The inevitable accompaniments of this situation - mass undernourishment and disease - are rife everywhere. Prostitution is flourishing on an unheard-of scale as hungry people resort to the most desperate means to obtain food.

An Italian-American seaman, John Vinaccia, visited Naples recently and reported in the Daily Worker that as he walked along the Corso di Garibaldi in Naples he noticed many boys between the ages of nine and twelve approaching English and American sol

suing action in his

speech on May 24:

Roosevelt.

Having for the moment rescued the reactionary shadow regime of Badoglio and King Victor Emmanuel from the oblivion to which the revolutionary-minded masses of Italy sought to consign it, the Stalinists have now jumped in to save the stark reactionary Greek government-in-exile headed by King George II.

Negotiations have been completed for the formation of a national "coalition" government which permits the King, and his reactionary retainers, to remain in office in order that they

may transplant themselves from Cairo to Greek soil after the Nazis have been driven from he country. This has been done in the teeth of opposition from the Greek masses, including the soldiers and sailors, who have over and over again declared their abhorrence of the monarhy and all it stands for.

As in the case of Italy, the Stalinists have taken the lead in breaking the deadlock" for reaction. They were the leading participants late last month in a our-day conference in Beirut at which a decision was reached by various Greek political groupings for the creation of a "Pan Hellenic coalition" which would serve under the detested King.

The new government, like the 'new" Badoglio government in Italy, will simply be the old rotten regime subjected to a process of "democratic" face-lifting. It will be a monarchical police-military dictatorship, but adorned with Stalinist and social-democratic traitors. It will rule by decree and will possess not a shadow of popular authority. Its one purpose will be to forestall, and if need be crush, the socialist revolution in Greece.

#### BEIRUT CONFERENCE

The Stalinists were represented at the Beirut conference through the EAM, most popular of the political groupings in underground Greece, and the ELAS, which is the military arm of the EAM. At the conclusion of the conference, they dispatched a message to Prime Minister Churchill, thanking him for "his interest in Greece and its future" and stating that "we will do all in our power to achieve national unity." (N. Y. Times, May 22).

This was the same Churchill who only a few weeks previously of starvation and the workers see | had demonstrated his "interest in thieves and pillagers become rich Greece and its future" by using and prosperous while they British warships and British troops to crush a mutiny of Greek soldiers and naval men who were protesting against the reactionary Greek government and the support given to it by Churchill and the Anglo-American imperialists. The revolutionary-minded Greek sailors and soldiers will rememforward in the guise of chamnions of Greek liberty

Commons on May 24, Churchill acknowledged the message of the Stalinists, saying he had received "a very agreeable letter" from them. Churchill indeed has cause to be grateful to these betrayers of the Greek masses. They have done for him what he was unable to accomplish himself after many months of effort. All his atgovernment of King George, to rescue it from isolation, and to invest it with a semblance of po-

#### DICTATOR METAXAS

The Greek masses could not forget that it was this King who brought the vile dictator, General Metaxas, to power only a few short years ago, and that it was the bloody Metaxas who smashed socialists were arrested and killed. Every trace of political opposition was driven underground and the black night of totalitarian dictatorship descended upon the invasion of the country by the

King George and the coterie who surround him fled Greece when the legions of Mussolini and But they have not relaxed their Hitler descended upon the couniron military control over the try, and set up a papier mache country. They keep Badoglio and government in Cairo under the the King and all the local fascist benevolent eye of Churchill. But the Greek masses continued the struggle against the Nazi-Fascist oppressors. They aim to sweep the capitalists and landlords, the their country free, not only of profiteers and black market the foreign invaders, but also of speculators may continue to live the capitalist-landlord scum which well and get rich from the the King and his clique represent.

So keen and widespread is the hatred of the monarchy that in April of this year an entire Greek brigade stationed in Egypt, near Alexandria, mutinied. The soldiers refused any longer to take orders from Greek Monarchist officers. The mutiny spread to Greek warships lying at the Alexandria naval base. The sailors formed ship committees and took charge of the vessels.

Possessing no adequate forces of its own with which to quell the mutiny the King's "government" appealed to the British

SATURDAY, JUNE 10, 1944

The fact is that rebellion against King George and his government had been seething long before the mutiny broke out. The mutiny was the revolutionary culmination of a situation which had grown more and more intolerable to the Greeks.

#### GREEK WRITER

A Greek writer in the Nation for May 13 tells how in August of last year the Greek underground organizations sent six representatives to Cairo to demand a statement from the King that he would not return to Greece. They were "placed under house arrest by the British authorities, kept strictly incommunicado, and later sent back to Greece under the most humiliating circumstances. Censorship in Egypt became increasingly ruthless, and the British government joined with the Greek royalist clique in a campaign to defame the guer-

But the crisis grew. "The Brit-

sh authorities increased their persecution of democratic officers and soldiers. More than 4,000 had already been sent to concentration camps and many more were arrested daily. The impression became prevalent in the army chat the Allies intended to get rid of it because of its unwillingness to support the King. George II continued his intrigues in London . . . The army's determination to end his machinations took more and more concrete form . . . Hundreds of other persons, not only army men but civilians, were arrested . . . People disappeared without a warrant having been issued, without any specific charge having been brought against them, and without notification to their families. The Greek military headquarters in Cairo were occupied by force. The offices of the Greek government were placed under British supervision. The editor of the newspaper Hellin and the directors of the Hellenic League of Liberation and of the Scamen's Association of Alexandria were

arrested." This was the atmosphere in which the mutiny ripened. The mutineers formed more than 60% of the Greek Army abroad and almost the entire navy. Yet according to Churchill it was all a conspiracy hatched by "subversive movements?

Churchill's persistence in foisting the reactionary monarchy on the Greeks is part of the overall policy of the Allies to create and support such regimes for all European countries as dikes against social revolution. The brute force used to crush the movement against the Greek monarchy is a coretaste of what the imperialists will do whenever the masses intervene with their own independent aims. The Allied policy is counter-revolutionary to the core. The Allies seek to crush every popular movement which cannot be made to acquiesce in their reactionary schemes.

#### STALINIST BETRAYAL

The Greek Stalinists, in the beginning, led and supported the movement against the monarchy. help or recognition to the self- This was their way of gaining a appointed Greek government in following among the masses. But Cairo." The mutiny had resulted, once the masses took to the road the union declared, from "the ef- of revolutionary action against forts of the Cairo government to the monarchy and its imperialist mpose the most notorious fascist backers, the Stalinists stabbed officers upon our fighting forces" them in the back and joined hands and disclosed that "thousands of with the reaction. ### Negro Struggle

By Charles Jackson\_\_

#### Mr. Rockefeller And His Negro Colleges

Jr. make an appeal for contribu- ary. tions to the United Negro' College Fund of which he is national chairman. The fund seeks \$1,500,ance of 27 small, private Negro Colleges.

As was to be expected, some Negroes are already shouting the stand that those who are not forpraises of Mr. Rockefeller. They tunate enough to be able to go ask: Aren't Negroes denied en- to college are mentally unable to trance to practically all white institutions of higher learning in the South and to many in the North? Under the circumstances, don't we need financial support for our own colleges so that our boys will have a chance ernment practices are rigidly defor a higher education too? After all, John D. Rockefeller, Jr. racial equality are ridiculed as and people of his class are openly contributing their time, effort and money to assure the survival where is sanctioned. Militant of these colleges. Maybe these big, bad capitalists that the Trot- and discouraged. The discussion skyists are alway talking about of revolutionary socialism is mean to be nice to us Negroes, strictly taboo. Whoever differs too after all. Such has been the build-up for Mr. Rockefeller in certain quarters since he launched pulsion. What happens, then, is

this: Big business does not give further understanding and better anything away out of the good- opportunity, is drained into the ness of its heart. As a rule, its churn of these Negro colleges representatives only expend their money and energy when they are assured of receiving a proportion- ating the Negro people is desate return in one form or another on their investment.

#### ROCKEFELLER'S "PHILANTHROPY"

But how could such an apparently sincere philanthropy as mainten ance of Negro colleges pay any dividends to Mr. Rockefeller and his friends? Are we being a trifle far-fetched? Not by a long shot. right - like a fox. They are the same people who have extracted tremendous profits as a result of their monopoly of this earth's natural resources and by the exstate of affairs can continue only so long as the present system of economic anarchy obtains.

Here, then, is the key. These colleges, as they are operated today serve in an indirect manner as props for the system of capitalism — that system whereby the Rockefellers and others have grabbed billions of dollars at the expense of the masses. Practically all of these private colleges that are to benefit from this fund are located in the South. Any Negro from the South knows that any institution that is allowed to exist down there must abide by the general practice of teaching meekness and submission for the Negro. The official policy of any Negro "educational" institution under those circumstances must be pro-segregation, pro-white supremacy and anti-militancy. It is because of this racial separatism and the resulting prejudices that the wealthy landowners and industrialists (usually backed by Northern money), are able to keep the wages and living conditions of the white and Negro this way the pro-segregation practice of these colleges is also pro-capitalist.

#### "UNCLE TOMS"

The president of such a school is usually either an "Uncle Tom" Negro or some worn-out white missionary. The boards of directors are made up of high caste.

Radio listeners from coast to wealthy conservatives. The incoast had the dubious privilege a structors most sure to retain couple of Fridays ago of hearing their jobs from year to year are the eminent John D. Rockefeller those who are the most reaction-

# Unconditional Pardon Of The 18 Demanded By Brewster-CIO Leader In Radio Speech

and the New York mass meeting to demand the freedom of the 18. was delivered by Mr. Gabriel De Angelis, Financial Secretary of Brewster Local 365, UAW-CIO, and a member of the National Committee of the Civil Rights Defense Committee, on June 1st over

station WEVD.1

Free speech, civil liberties, labor's rights - cherished possessions of the American people have been placed in peril by the convictions and imprisonment of 18 trade union and socialist leaders in the famous Minneapolis Labor Case. This has been correctly characterized as the most important civil liberties issue of World War II.

The prosecution and convictions

arose out of a long-standing con-GABRIEL DE ANGELIS flict over questions of trade union democracy between Local 544 membership and Daniel J. Tobin. President of the International Brotherhood of Teamsters. This con-

flict came to a head when on June 9, 1941, at a regular member-

ship meeting, almost 4,000 members present decided by almost unanimous vote to disaffiliate from the AFL and join the CIO. Daniel Tobin wired the White House for help to prevent this change of union affiliation. Immediately after this followed the

indictments and arrests. The indictments contained two counts. Count 1, which charged "overt acts" was so flimsy and fantastic, that it was thrown out by the jury, during the five-weeks trial. Count 2 was drawn up under the provisions of a new law passed in peacetime 1940 and popularly known as the Smith "Gag" Act. Although this law has never been tested for its constitutionality, 18 of the defendants were convicted and sentenced to federal prison terms.

The sponsor of the Smith "Gag" law is the same poll-tax Conressman Howard W. Smith of Virginia who is leader of the antilabor bloc in Congress and co-author of the Smith-Connally act. Smith and his associates put through this law as a weapon in their reactionary campaign against the rights of labor.

Both the CIO and AFL opposed its passage in Congress. The American Civil Liberties Union denounced it as a violation of the Bill of Rights and declared the Smith Act "would become an instrument of oppression against unpopular minorities and organized laoor." Worst of all, the U. S. Supreme Court, in an unprecedented action, three times refused to review this case, to test the constitucionality of this anti-labor law.

This prosecution is the most sweeping government attack upon democratic and labor rights in many years. This law, which makes the expression of opinion alone a federal crime, is in flagrant contradiction with the rights of the American people for free speech and free press guaranteed under the Bill of Rights. In refusing to hear this case, the Supreme Court has set an extremely dangerous precedent which can now be used against, other trade unionists and

I would like to urge everyone to attend this important mass meeting on June 8 at the Hotel Diplomat to hear these prominent equal opportunities for the Negro labor and liberal figures discuss the importance of the Minneapolis

# 10 Years Ago In The Militant

CALIFORNIA-In twenty West Coast cities, striking workers of the AFL International Longshoremen's Association were waging a determined fight for the closed shop. In San Francisco and Oakland, machinists and riggers in all major shipyards walked out in support of the longshoremen. Strike leaders and militant unionists went over the heads of the reactionary AFL International bureaucrats and made preparations to call a general strike in support of their demands. In Oakland, the strike committee initiated a call for "formation of a General Waterfront Workers Federation to include all unions on the waterfront and in the marine industry," The Militant reported.

TTSBURGH-Delegates from steel locals throughout the country met to formulate a course of action as the steel barons moved to preserve the company-union set-up under the protection of Roosevelt's NRA (National Recovery Act) Codes. The steel workers' organization, at this time still part of the AFL, was under the treacherous leadership of Mike Tighe who feared strike action almost as much as the steel barons themselves. TOLEDO-Settlement of the great Auto-Lite strike was announced

on June 5, with three substantial gains for the union as a result of the militant struggle. First, the union was named in the contract as bargaining agent for the workers, a victory of tremendous importance not only for Auto-Lite workers but for the entire auto industry. Union recognition paved the way for the elimination of company unionism throughout the industry. Second, there was to be no discrimination against strikers; and although scabs remained on the company payroll, they were designated as the first to be released in event of lay-offs. Third, a 5 percent wage increase for all workers, was won with a minimum of 5 percent above the NRA code minimums, so that women workers gained as much as 17 percent increases in pay.

The union victory at Auto-Lite struck the first blow in the organization of the automobile industry and the emergence of the powerful auto union.

Tobin "Explains" His Frameup Role

Although Daniel J. Tobin, dictator-president of the AFL Teamster's Union, succeeded in reestablishing his stranglehold on the Minneapolis drivers and having the Roosevelt government frameup and imprison the leaders of Minneapolis Local 544-CIO, he still gets a cold chill when he thinks of how nearly his machinerule was displaced. Every once in a while he lets loose in his personal organ, The International Teamster, with another slanderous smear against the Trotskyists and the Local 544-CIO leadership.

Gracing the May issue of his magazine is a choice piece of literary garbage entitled: "Teamster's Union Supports Russia -Crushed Trotsky Move Aimed at Joseph Stalin." In this, three year's after the fact, Tobin reveals that his efforts to destroy Local 544-CIO and betray the Minneapolis teamsters were really to prevent the Trotskyists "from functioning and collecting sums of money . . . to be used against Joseph Stalin"

He also takes the occasion to inform his membership that unionism, and winds up advising nent of the funds of the organ- son worry him no end. ization in Minneapolis," a reference obviously to his frameup self is an example of Tobin's "deagainst Kelly Postal, who was im- mocracy." ## Allied Plans For Europe

An Editorial

If Churchill made anything clear beyond the possibility of a doubt in his May 24 speech before the House of Commons, it is the type of regimes that the victorious Anglo-American coalition hopes and intends to impose on Europe. Discarding the previous shouldy pretenses about the "democratic" aims of the war, Churchill came out unequivocally in support of military and police dictatorships. He spoke in glowing terms of the Badoglio government in Italy; e noted with satisfaction that a similar set-up was being consolidated for Greece, while still another was in process of preparation for Yugoslavia. And as if to dispel any possible misunderstanding, Churchill went out of his way to utter "kindly words" for butcher

The public pronouncements of one of the two sponsors of the Atlantic Charter thus doubly confirm the preview of Allied postwar aims that has already been provided by the previous deeds of | fought for over a long period of London and Washington (the Darlan deal, the rule of the Allied Military Government in North Africa, Sicily, Southern Italy, etc., etc.)

When such reactionary governments are being designed for countries within the camp of the so-called "United Nations," what question can there be about the monstrous despotic rule in store for a defeated Germany, if the "demogracies" have the say?

#### The Trotskyist Position

We Trotskyists have warned from the beginning precisely against this development. In the resolution "On Perspectives and Tasks of the Coming European Revolution" adopted at the Fifteenth Anniversary Plenum of the Socialist Workers Party last November

"Roosevelt and Churchill understand that it is not in the cards to establish stable 'democratic' capitalist governments in Europe today. Given free scope, given their democratic rights, the European working class will not require overly much time to organize their revolutionary parties and to overthrow all of their capitalist oppressors. The choice, from the Roosevelt-Churchill point of view, is a France-type government or the specter of the socialist revoluis a Franco-type government or the specter of the socialist revolu-

Events are verifying this forecast. This is the truth. The fine mouthings of the hypocritical liberals, the treacherous labor skates, the Stalinist finks stand revealed as deception and lies.

In the same resolution, we likewise warned against the counterevolutionary role of the Kremlin:

"Stalin, exploiting the enhanced prestige of the Soviet Union as a result of the Red Army victories, seeks to gain control of the popular movements in Europe in order to use them for bargaining with the imperialists and, when nationalistic considerations require, sell them out. The Stalinist bureaucracy is capable of any treachery to socialism and the international proletariat."

Today Stalin has already revealed his counter-revolutionary nand in Italy and Greece. He is making clear that he is most anxious, together with Roosevelt and Churchill, to act as the grave digger of the European revolution and the guardian of the status-quo.

It is not for nothing that Churchill lavished praise on Stalin in his May 24 speech. The Kremlin's sell-out of the Italian people and the Italian revolution is now a matter of common knowledge. Less known is the identical course pursued by the Stalinists in Greece. An account of this sequel to the Badoglio deal is contained in Ralph Graham's article which appears in this issue. A similar deal is now in preparation for Yugoslavia. Only the gullible will believe that a different policy will be pursued by the Stalinists in relation to France, and the rest of the European continent, above all Germany.

#### The Conspiracy

The conspiracy against the coming European revolution is not figment of our imagination. It is a sinister reality. But the counter-revolutionary schemes and designs of Washington, London and Moscow are only one aspect of the European situation. There is another side: the rising tide of revolution. The first stages of the independent revolutionary action of the masses have already evidenced themselves in Italy, Yugoslavia, Greece, and on the morrow will surge through the whole of continental Europe. The European revolution will sweep away like so much chaff all the criminal plans Melrose Park, Ill., Transportation of Roosevelt, Churchill and Stalin.

bargaining. Though collective bargaining is guaranteed by the

"The right to strike . . . is inder sharp and increasing attack, radio. Every day sees new proposals to take away the right to strike or to curb it so severely that its value to workers would be destroyed.

The workers have learned to expect such proposals to "take away the right to strike" from the camp of the union-hating corporations, their political agents in the government, in the plutocratic press and on the radio. The Bridges proposal, hailed by the Daily Worker as a masterpiece of "labor statesmanship" places the Stalinist finks squarely in the render the right to strike "indefinitely" is the logical culmination of the Stalinist policy of attempting to "company-unionize" the trade unions by acting as the agents of the employers in introducing their piece-work, speed-up, strikebreaking program into the labor movement.

The Stalinists have abandoned all restraint in their plunge to main free, in order to keep and reaction. They are making an open bid to Big Business for recognition as the most trustworthy agents of the Wall Street plunderbund, ready to go to any extreme in keeping the labor movement in subjection to the piratical buccaneers who dominate American economic and political life. In doing so they have not hesitated even in coming into conflict with the conservative leadership of the CIO as they did when they endorsed Roosevelt's forced labor proposal and later joined the J. P. Morgan-Sewell Avery attempt to break the Mont-

gomery Ward strike. The latest Bridges proposal, an aftermath of the Stalinist strikebreaking role in the Montgomery Ward dispute, has served to sharpen this conflict. The conflict will probably be aired at the coming national meeting of the CIO Executive Board.

### The Liberal Party

The split in the N. Y. American Labor Party has become definitive with the launching of a new political party, designated as the Liberal Party, by the Dubinsky-Rose-Social Democratic clique. The Hillman-Stalinist combination won control of the ALP in an acrimonious primary fight distinguished by its lack of programmatic distinction between the contending factions as well as by its low political level and unprincipled scramble for clique control. When the results of the primary became known the losing Social Democratic faction "took a walk" and decided to set up house in an establishment of their own, free from the taint of "communism." Thus was the Liberal Par-

The Liberal Party was conceived as a "fourthterm" party. Its central purpose is to rally the "liberal and labor" vote in support of the re-election of President Roosevelt. The adoption of a wishy-washy program of social reforms is not to be taken seriously as its endorsement of Roosevelt is unconditional. The political logic of such endorsement can only lead to acceptance of any program written by the political bosses who control the Democratic party—the program to which Roosevelt, as head of that party, will be committed in the election campaign. The only reason for the "independent" existence of the Liberal Party, as stated by its founders, is to forestall the "danger" that the American Labor Party, tainted as it is with Stalinism, will be unable to capture the liberal and labor vote. The Liberal Party is rushing into the breach to save New York State for Roosevelt!

The circle is completed! In the presidential campaign of 1936, the present founders of the Liberal Party, launched the American Labor Party for the express purpose of garnering the labor vote for Roosevelt. The two major parties had become so discredited that the labor lackeys rushed in to rally the workers to the support of Roosevelt under the banner of the ALP for fear that Tammany Hall, the graft and racket-ridden organization which controls the Democratic Party in New York, lacked sufficient appeal to attract liberal and labor votes. Since then, with the one exception when the ALP was literally forced to run an independent candidate, the labor bureaucrats in control of the organization entered into all kinds of shady deals

with the corrupt political machines dominated by the Democratic and Republican bosses. The only discernible difference, after eight years in which Dubinsky and other labor fakers did everything possible to discredit the very idea of independent labor political action, is that they have now dropped the word "labor" from the name of their par-

### **CIO** Political Action

In the short period of its work, the CIO Political Action Committee is acknowledged to have been largely instrumental in the defeat of several of the vicious reactionaries in Congress, such as Starnes, representative from Alabama and a former member of the Dies Committee, Costello, representative from California and the retirement from public life of the notorious Dies, representative from Texas.

This ability to organize the working class vote and defeat a few of the notorious labor foes in Congress simply demonstrates that the working man and woman is eager to participate in politics, is anxious for independent labor political action, is more than ready to participate in the building of an independent party of labor.

Unfortunately for labor, the PAC achievements are wholly negative. True, a few anti-labor demagogues have been defeated. But in favor of whom? Who were the men elected, on what program were they elected and whose interests do they serve? In the case of Texas and Alabama, the defeated Congressmen were replaced by two other polltaxers. And even for these "victories" it was necessary for the PAC to participate in the primaries. of the Democratic Party-the "lily white" party that represents the Southern bourbons and their

Despite the fact that Hillman and Murray have decreed that the PAC must operate within the confines of the two-party system, the plutocrats are alarmed at the increasing aggressiveness of the movement, its mounting demands for more concessions and representation for labor, the unmistakable surge of the workers toward independent labor political action. They fear that the labor bureaucrats will not be able to restrain the movement within the arbitrary limits imposed and once it breaks through these restrictions, the movement will achieve a sweep that will end the political monopoly which Big Business exercises through its control of the Democratic and Republican par-

If the CIO Political Action Committee, under the super-respectable, pro-capitalist leadership of the Murrays and Hillmans has put such fear and consternation into the hearts of the capitalists, one can easily appreciate that the organization of a genuine independent labor party, running its own candidates on a militant, constructive program would put an end to labor's retreat, would halt the onslaught of reaction and begin the forward march toward a new society of peace, freedom and pros-

## 9. The defense of the Soviet Union U. S. Supreme Court

On May 15 the United States Supreme Court decided to review the case of 24 former officials of the German -American Bund, who, together with their national head, Gerhard William Kunze, had been convicted in a New York federal court for "conspiring to advise evasion and resistance to the Selective Service Act." This readiness of the supreme judicial body to safeguard the "constitutional rights" of avowed fascists stands in glaring contrast to its arbitrary and unprecedented refusal to review the case of the 18 Trotskyist class-war

Three times the Supreme Court refused to review the famous Minneapolis case in which the convictions had been obtained under the 1940 Smith "Gag" Act, the constitutionality of which has been universally challenged. The Minneapolis case was the first instance under which this law, sponsored by poll-taxer Representative Howard W. Smith, had been invoked. Moreover, this law was the first peace-time measure since the infamous Alien and Sedition Acts of 1798 that made mere advocacy of ideas a federal crime. If ever there were weighty legal grounds for review, it was in the Minneapolis case. But the same judges who now so readily accept routine reasons for reviewing the conviction of 24 Bundists, have thrice spurned out of hand the appeal in the case of the uncorruptible anti-fascist fighters.

The explanation for this brazen inconsistency in the conduct of the Supreme Court is to be found not in the intricacies of legalistic procedure but in the role of the courts as instruments of class justice. Fascists, whether of foreign or domestic variety, are the most rabid enemies of labor and the staunchest supporters of the capitalist system, and as such they are as a rule granted every consideration by capitalist authorities and tribunals. On the other hand, the opponents of capitalist greed and exploitation, the most unwavering fighters for socialism and labor's rights — above all, the Trotskyists — get short shrift from all the agencies of

Big Business, including the courts. To obtain even a semblance of justice under capitalism the organized labor movement must exercise utmost vigilance, and react vigorously to the slightest incursion on or violation of the workers' democratic rights. The Smith "Gag" Act is a vicious reactionary law. The railroading of the 18 under this law is a most sinister precedent. That is why it is the duty of every union militant and of the trade union movement as a whole to fight for the unconditional pardon of the 18 and for the immediate abrogation of the Smith "Gag" Law.

## **Workers Back Defense** Of British Trotskyists

London Workers' Committee; Ted Party: M. Kavanagh, Freedom G. Pittock-Buss, Bob Arthur Ballard, Turner. Beech, D. Ballantine.

Resolutions from local unions and district union councils, protesting the arrest of the four of such a step when the govern-Trotskyists and condemning ment sought to suppress the Minister of Labor Bevin for using the Trade Disputes Act against them are pouring into the London headquarters of the defense committee. Among them is a resolution by the Trade Council at Slough, which calls upon the Trades Union Congress to initiate a national campaign for the repeal of the Trade Disputes Act and warning the Churchill-Bevin clique against further encroachments rights of the workers.

The Slough Engineering Trades Union passed a similar resolution, as also did the Methyr Vale Lodge, largest miners' lodge in Wales. The Thornton Heath (London) branch of the Amalgamated Engineering Union, passed a similar resolution and donated five pounds towards the defense of the four. The Edmonton Trades Council sent one pound to the defense committee. The Glasgow District Committee of the Amalgamated Engineering Union condemned the arrest of the four.

Speaking in the bosses. Although there were union leader into an avowed House of Commons, he urged the | plenty of reasons for taking ac- | servant of capitalism.

The prosecution of the four Trotskyists under the Trade Disputes Act is the first time this law has been used since it vas placed on the statute books after the great British general strike of 1926. It was enacted for the avowed purpose of hamstring ing the labor movement and preventing another such strike ruption as that of 1926. The nev Bevin Defense Regulation 1-AA is aimed at the moment at the revolutionary vanguard of the workers, the Trotskyists, but the masses of workers understand its reactionary implications for the labor movement as a whole. The defense of the persecuted Trotskyists thus becomes joined with, and part and parcel of, the great workers campaign against all the reactionary anti-labor legislation by means of which the British capitalists seek to hold the workers in check.

In the debate on the new Regulation in the House of Commons, Neil McLean, Labor M.P. for Govan, addressed the government benches to declare: "All you need do now is to put into the Regulation authority for a judge to transport people overseas to penal settlements and we shall e back to the days of the Tolpuddle martyrs. Bevin, His Majesty's Minister of Labor in the Tory government chosen instrument of the British capitalists for spearheading the attack on the growingly militant democracy" Bevin wrote ar article in the British Record and made speeches around the country, warning British trade unionists that the "appetite for com pulsion" was growing and that unless they were vigilant the "shackles of a great tyranny" would be riveted on them. The warning proved true and attempts are being made to fasten these shackles on the British workers -by Bevin himself! When Bevin issued the warning, he was speaking as leader of the great British Transport and General Workers Union. He had not then become Minister of Labor in His "We, the undersigned, protest Majesty's Tory government. To-

## **Concentration Camps for Workers in Aleutians**

Charges that American union men work under conditions of forced labor on the Aleutian Islands and are confined in Army concentration camps if they attempt to quit their jobs, are reported in the May 18 104 Reporter, organ of the AFL Boilermakers Seattle Local 104, which describes the personal experiences of its returning members.

"Quitting a job on the Islands automatical'y means that a worker will spend an indefinite length of time in a 'stockade' until the army grants him a release to leave. The army informed them this was due to lack of transportation facilities. But information received here shows the stockade also is used as a means of punishing men who leave their work on the islands.

Workers have been confined for as long as 60 days in a stockade before their release. One of the stockades was separated by barbed wire from the rest of the town.

104 Reporter claims that when the men applied for the Aleutian jobs, they were told they could quit whenever they desired, provided they paid their own boat fares back home. "But when they got to Alaska, they found the picture had changed somewhat."

One Local 104 member declared: "They deliberately use the threat of the stockade to keep men from quitting. And it works. There are plenty of men who keep on working for one reason only and that is the fear of the long days they must spend in that prison."

The paper reports that many of the returning workers spoke of the "arbitrary procedure. . . and irksome conditions imposed by the army," although they were employed by private contractors. Other unions, including the hoisting engineers and auto mechanics, have reported similar treatment of their members in Alaska and have already made formal protests, threatening to discontinue dispatching their members to Alaska if conditions are not changed for the better.

## **Bankhead Amendment to Boost Clothing Prices**

The Senate Banking and Currency Committee has approved the Bankhead Amendment to the Price Control Act, which, if approved by Congress, will add "\$225,000,000 to \$350,000,000 to U. S. A. consumers" annual bill for clothing and other textile products," according to Associate General Counsel Henry M. Harte of the OPA.

Textile manufacturers, who have increased their profits "only" ten times over the pre-war level, are behind the Bankhead Amendment. It is estimated this legislation would enable the textile capitalists to notch their profits up to 16 times the "normal" amount they were able to grab in the years of 1936-

Under the proposed amendment, the present OPA method of fixing "reasonable" profits would be wiped out. Instead of the current over-all industry basis for fixing prices, the OPA would be required to estab'ish price ceilings on cotton items separately for manufacturers, jobbers, wholesalers and retailers. The top-costs and "reasonable" profit margin for each group would be added in to determine the final "fair" price. The highest-cost producers would be used as the yardstick, and those who produce more efficiently and cheaply would be permitted to charge the top prices of the costliest producers.

This move of the Cotton and Textile Lobby is regarded as the opening phase of a general offensive to smash even the present feeble price controls now maintained by the OPA. If it is successful, every other industry will then begin a clamor for "preferential consideration" on price ceilings.

It seems there are two types of bills which will always win quick and favorable action from Congressional committees: 1) to put the squeeze on the workers, and 2) to guarantee bigger profits and privileges for the capitalists.

### Trying to Get Out from **Under the Poll Tax Issue**

Congressmen and Senators of a'l political stripes have come to regard the perrenial poll-tax issue like a case of the seven years itch. Each year in the Senate there is a regular session of wriggling and scratching, but nothing is done to affect a permanent cure, like abolishing the poll tax which in eight southern states keeps 10,000,000 whites and Negroes disfranch-

Apparently tired of making a public spectacle of themselves each year by their fantastic performance. Republican and Democratic Congressional forces have organized a movement which they hope will relieve Congress entirely of the responsibility for even discussing the embarrassing poll-tax issue, while at the same time ensuring the poll-tax system a long lease on life for the benefit of the "white supremacy" overlords of the South. Launched by the Republicans, and finding support

among such pillars of the Wall Street press as the N. Y. Times, a move is now afoot to divert the polltax question from the Congressional arena into the 48 state legislatures, through a proposed Constitutional amendment to abolish the poll-tax in federal elections.

The sponsors of the proposal assured themselves in advance that such an amendment would never be passed by the required three-fourths of the states. Thirteen Southern states alone are sufficient to block passage of the amendment indefinitely.

After a 20-years sojourn through the mazes of the 48, state legislatures, the child labor Amendment has still not been adopted. This gives an intimation of what would happen to the anti-poll tax law if it is ever made the subject of state actions.

Even the poll-taxers themselves might not be averse to getting behind such a proposal. It would save them a lot of breath in the Senate. It might even secure them the reputation of being really "democratic" at heart. It would forestall any further annoyance and frayed tempers among otherwise congenial Congressional politicos. And it would effectively bury the poll tax issue.

# International Notes

PUERTO RICO

the Stalinists in this country, has the church has withdrawn its opdissolved itself as a party, and position upon express orders from ported in the Daily Worker, will organization of a non-party character, which will be able to adopt Marxism as a guide to raise the political, cultural and civic level of the workers and all the people of Puerto Rico."

Puerto Rico is a colony of Wall Street imperialism and since the American Stalinists have now made their peace with Wall Street, the dissolution of the Puerto Rican C. P. is a logical, consistent step. While Browder and Company serve the big capitalist exploiters in this country, the Puerto Rican Stalinists will serve the same crew in the little Caribbean colony. To be sure, the Puerto Rican Stalinists pay lip service to Marxism in order to fool their followers, just as Browder and Company do here. But the terribly exploited Puerto Ricans will not be fooled for long. Wall Street oppression is for them a very close reality. They will build a new revolutionary party to continue the struggle for freedom and independence which the Stalinists have so shamelessly deserted.

COSTA RICA

Although nominally an indeendent country, the small Caribbean island of Costa Rica is nevof Wall Street. Here the Communist Party was dissolved last year into the Vanguardia Popular Party. The newly-camouflaged Stalinist traitors then proceeded which is one of the big powers in the island.

The Communist Party of Puerto new party, but according to a reaccording to its resolution as re- the Vatican and the archbishop has written to Manuel Mora, Stal-'promote the idea of creating an inist leader of Vanguardia Popular, stating that "those Catholics who so desire may become members of the new, organization." Papal approval of any organization means but one thing: that the organization has become "safe" and "respectable," a defender of the system of capitalist exploitation, an enemy of the true interests of the masses. The Costa Ricans will soon find this out for themselves.

Louis Fischer, an ardent supporter of the imperialist war, is disturbed by the leftward trend among millions of the fearfullyoppressed victims of British rule in India. He visited the country in the summer of 1942 and has been following events there since. In the latest issue of Common Sense, he writes:

"The tendency in India today is towards extremism and away prophet of violence, will affect India's political thinking even if the imperialists. he never gets much further than the Burma border. There is no doubt that Gandhi's influence has waned since he went to jail on August 9, 1942. In the storm that is raging in Indian minds ertheless very much under the heel and hearts, Indians find Gandhi's ideas too temperate and his meth-

ods too slow." Subhas Chandra Bose (the "prophet of violence") is a former chairman of India's Congress to court the Catholic Church, Party who went over to the Japanese imperialists. He has established a "Provisional Govern-

refused to give approval to the has mustered an army composed of Indian soldiers taken prisoner Rico, following the example of cent report in the Daily Worker by the Japanese in Malaya and Hongkong and Burma. He directs regular radio broadcasts to India, urging his fellow-countrymen to throw off the British voke. According to Fischer, Bose's

propaganda is making consider able headway because more and more Indians are becoming convinced that the British imperialists will never peacefully relinquish their hold over India. They took note of Churchill's statement that he "did not become the King's first minister in order to preside over the liquidation of the British Empire." They have noted, too, that the British labor fakers, as late as April 20, 1944 backed Churchill's policy when Arthur Greenwood and Emmanuel Shinwell stressed before the House of Commons "the resolve of the British people (read British imperialists) to keep the empire together after the war."

"So it is obvious," writes Fis cher, "that India will not be given freedom." Of course, India will not be given freedom by the imperialists, whether British or Japanese. The Indian masses will win from Gandhi's non-violence and freedom not by backing one group Nehru's reasonableness. Bose, the of imperialists against another but only in struggle against all
