Lenin's Record Speaks Against His Slanderers

- By John G. Wright

Lenin was still on his sick-bed when the Stalinist bureaucracy - then just beginning its rise to power - started its systematic work of distorting and falsifying the teachings of this great

working class fighter, thinker and leader. Today, a quarter of exclusively devoted to the liberaa century after Lenin's death we tionist struggle of the world find this monstrous campaign at working class. Not only did

What American Labor Can Learn from Lenin

By Joseph Hansen

V. I. Lenin dedicated his life to the struggle of the working class to free itself from the poverty, hunger, bloodshed and oppression of the capitalist system. One aim guided him in all his activities - to establish the socialist system of enduring peace,

abundance and boundless procreative imagination, extraordinary energy and an iron will, made Lenin one of the greatest revolutionary figures mankind has yet produced.

Karl Marx and Frederick Engels worked out the basic scientific analysis of world capitalism, demonstrated in theory the inevitability of socialism and helped organize the first international associations of the working class devoted to fighting for this goal. The fundamental views of Marx and Engels are still valid.

Lenin considered himself a disciple of Marx and Engels. Throughout his political life he waged war without quarter on the adulterators, detractors and avowed opponents of orthodox Marxism. That does not signify that Lenin kowtowed to dead dogmas, as his slanderers maintain. Marxism is a living, growing body of thought like any other genuine science. Lenin precious contributions to Markism in assessing new important developments in the evolution of capitalism and the revolutionary struggle for social-

Above all, he gave a practical demonstration to the working class of the entire world on how to apply Marxist theory in building a revolutionary party, leading insurgent masses to victory over the capitalist class and constructing a Workers and Farm-

LENIN'S METHOD.

gress. This singleness of purpose, of the universe that sees mind combined with mastery of the as a derivative of matter. He scientific method of Marxism, then discusses "Dialectics," the vast learning, keen intuition, most profound formulation of the principle of change and evolution yet worked out. Next he considers the application of dialectical materialism to history; then the class struggle, Marx's economic doctrine and the inevitability of socialism. Only after laying down these basic premises does he turn to the final crucial problem, "Tactics of the Class Struggle of the Proletariat."

This approach is the essence of Leninism. It was precisely in the field of the tactics of the class struggle, that is, the problems associated with the building of a revolutionary party of the work. Bolshevik party is so full of unique strength and assured its skepticism and to demonstrate ers, that he made some of his factional struggles. To gloss over victory when the opportunity afresh the validity of dialectical greatest contributions. Yet he basic differences and reach rotten came. understood better than anyone compromises at the expense of else in his time that a party of program, in Lenin's view—and he action can be constructed only proved correct-could only lodge on the foundation of absolute fatal flaws in the party as the clarity of theory and agreement revolutionary instrument of the on fundamental program.

If the membership of the party differences are unresolved, however, then at the crucial moment to effective action. Even worse, lack of theoretical clarity can but one link in the general chain party. into fatal errors.

SELF-DETERMINATION

The organic connection between means and end, theory and practice, is similarly visible in the development of the Bolshevik ers and the poor farmers. political program. Lenin, for example, foresaw national revolutions for decades to come. In accordance with this view, the Bolsheviks insisted on the demoto secede even from a workers whatever form of government

At the same time, to build a party to make this end possible,

transcend all national differ-

The right to self-determination appealed powerfully to the numerous oppressed nationalities in Czarist Russia and became one of the keys to the Bolshevik an acid test for the world sosuccess.

Lenin's view on this question was in opposition to the prevailing opinion and practice among the Social Democrats particularly in Austria-Hungary, which was a Czarist Russia. In sharp polemics, Lenin demonstrated how the oppression of national and racial minorities and colonial peoples becomes unbearably acute in the imperialist stage of capitalism. And he showed why a revolutionary socialist party in advancing the cause of socialism must give full support to the struggles of the oppressed minorities and colonial peoples for freedom and independence.

ATTITUDE TOWARD PEASANTRY

As with the problem of nationalities, so with the peasantry, Lenin's attitude was determined by his aim of building a revolutionary party capable of liberattinual struggle of the proletarian ing Russia from the yoke of the vanguard against the insidious capitalists and landlords. In a encroachment of petty bourgeois land where a backward peasantry constituted the overwhelming bulk of the population, the revolutionary party could break its neck or achieve a stupendous victory depending on how successfully it tied together the industrial work-

Lenin made a profound analysis of the economic and class relations in Czarist Russia and reach ed the conclusion that even though the coming revolution would be a capitalist one, still it could only be led by the working class in alliance with the peasanstate if they so desire and set up try. This meant fighting for the right of the poor farmers to divide up the big estates.

The older generation of Marxists opposed this view, holding tellectuals and those susceptible the Bolsheviks opposed any na- that the liberal capitalists could tional distinctions whatsoever play a progressive role. But among the party members. OPPOSED IMPERIALIST WAR The First World War provided cialist movement. The old looselyknit parties in Western Europe, where the Social Democratic leadership had lost sight of the importance of adhering to basic program, succumbed to the war prison - house of nations like fever and came out in support of the capitalist governments in the various warring countries.

Lenin, however, remained in opposition. He understood that an imperialist war tends to develop into a civil war and that to stand on the side of the imperialists and their government means supcritical moment. Throughout the war years he

worked persistently to prepare the ground for a new international party of the working class the Social Democratic leadership of the Second International. The Bolshevik party's record of unthe fiercest persecution. Thus Lenin's opposition to the

imperialist slaughter was not simply a moral revulsion to mass murder; his opposition also had the practical aim of constructing a party capable of rooting and cementing the structure of out the basic cause of imperialist war. That is why Lenin's type of opposition to the wars of the capitalist system is so important ganization of the working class as an example to the working class to this day. He demonstrated programmatic and organizational in theory and showed in practice the only effective way of ending imperialist slaughter and assuring enduring peace.

During the war Lenin wrote two important pamphlets which every worker should study: Imperialism and State and Revolution. The one is an analysis of and Engels. The other is a the Marxist view of the real role socialist cause in other lands. of the government. They were designed to help prepare the lution remained unfinished, for the October 1917 revolution in-

LEADS REVOLUTION

Revolution. Trotsky raises the question whether even the Bolshevik party could have successfully led the working class to power without Lenin. Of unalterable political pattern for course, we can say that without Lenin there would still have been Trotsky, but he lacked authority in the Bolshevik party for it was not until the days of the revolution itself that he came fully He expected that the Western to understand the importance of a revolutionary party inured to iron discipline in action.

Lenin was able to correct big to go forward to the best of our nistakes made by the party, to ability with the tools they correct even mistakes of his own prepared for our use.

of the working class which of Russia's landless masses lifted which Trosky had pointed out long before (such as the view ning as capitalist in character could not remain capitalist but only terminate in the Socialist Revolution) and to make these corrections in time. We must add that the very possibility of making these corrections was due to Lenin: first, because without him there would have been no Bolshevik party to correct and, secondly, because to the highest possible degree Lenin had designed the party as a self-correcting organism.

AN EMBATTLED FORTRESS As the head of the Soviet gov-

ernment, Lenin became known to the entire world. It was now that his full stature as a genuine porting the class enemy at a most statesman of the working class became apparent. He viewed the Soviet Union as an embattled fortress. His aim now was to utilize this great conquest to the maximum in advancing the into take up the cause betrayed by terests of the international working class as a whole. This required effective defense of the first workers state against its internal yielding opposition to imperialist enemies and the surrounding war was another proof to the capitalist foe and it required using Russian workers that this party the Soviet Union to directly help would not betray at a crucial the workers in other lands achieve moment but would remain true their socialist revolution as anto its program in the face of other step toward uniting the entire world under the planned economy of socialism.

The military defense of the USSR was placed in the able hands of Leon Trotsky while Lenin concentrated on building the Soviet Government. At the same time he founded the Third International as a new world orembodying his basic revolutionary concepts.

The hopes of the Bolsheviks that the workers in industrially advanced countries would soon be able to lift the siege on their beleaguered fortress were not realized. As a result bureaucratic degeneration began to set in.

Lenin was keenly alive to this the development of the capitalist danger. It could destroy not only system since the days of Marx the Bolshevik party but undermine the workers state and the Third presentation and commentary on International and endanger the

Lenin was an in- imperialist stage of capitalism Union. ternationalist to his very marrow, which has ushered in the epoch teaching the Russian workers of world wars and proletarian and Stalin's "contributions" to Marxnever to approach any major colonial revolutions. There is his ism-Leninism. Stalin's ideas are, political problem at home from work on the national and colonial without exception, borrowed either teachings on the national quesany other standpoint, and to questions and the key role of opsubordinate their immediate in- pressed minorities and colonial politics or the no less polluted safeguarded jealously, even to the terests to the long range interests peoples in the world revolutionary

Lenin's crowning achievements were, of course, his contributions as the architect of the Russian Revolution and of the first workers state. An inseparable part of this historic accomplishment was Lenin's building of the Russian Bolshevik Party and the subsequent creation of the Third In-

STALIN'S REAL ROLE

What was Stalin's part in all this? The Kremlin has falsified history so as to usurp for Stalin he role of Lenin's closest colaborator-in the October days, during the Civil War, in the carly years of the Communist International and of the Soviet Union—a role, that was actually played by Leon Trotsky. Stalin's role in this entire period, as well as in the earlier history of Russian Bolshevism, was a minor and obscure one. Moreover Stalin opposed Lenin or intrigued behind

Vol. XIII-No. 4

Monday, January 24, 1949

"One need only reflect in order to understand the concentrated hate that this figure has called forth and will continue to call forth from all the enemies of the working class. For nature produced a masterpiece when she created in a single individual an embodiment of the revolutionary thought and the unbending energy of the working class. This figure is Vladimir Ilyitch Lenin. . . Like many other comrades who have been for three decades in revolutionary work, I have had the opportunity to meet in different lands many varieties of the proletarian type of leader - the revolutionary representative of the working class. But only in the person of Comrade Lenin have we a figure created for our epoch of blood and iron." -Speech by Leon Trotsky, 1918.

Truman's War on Civil Rights

Truman's attack on the House Un-American Activities hearings as a "red herring" has misled many people into thinking he dsapproves of the witch-hunt and wants to dispute with the House committee really shows is a difference over the best method for conducting the witch-hunt. He prefers the quieter police methods to the flashy klieglight displays.

For instance, he is proceeding ruthlessly with the prosecution of the Communist Party leaders in an obvious frame-up attempt under an unconstitutional law, the Smith "Gag" Act. If he has his way, there is no question the CP leaders will end up behind bars. What is even worse than the fate of these individuals is that any persons or groups who advocate the ideas of Marxism are subject to the same

Hundreds of government workers have been fired or hounded from their jobs on charges of "disloyalty," without the right even to confront their accusers. Most of those driven from their jobs are blackmailed into silence by fear of scandal.

The "loyalty" purge is based on a blacklist of certain political parties, branded as "subversive" by one man, the Attorney General, without a hearing or even specific charges. Truman's decree explicitly prohibits a public

When a courageous individual like James Kutcher, the legless veteran fired from the VA for membership in the Socialist Workers Party, dared to challenge the purge system, safeguard civil rights. What Truman's then Truman's Loyalty Board hastened to issue a special order-Memorandum 32-to make the dismissal stick. Memorandum 32 makes it mandatory for the "loyalty" review boards to uphold the firing of all members of the Communist Party, Socialist Workers Party and Workers Party. This makes any "review" or hearing a farce.

The Kutcher fight is challenging these illegal "loyalty" procedures which have been denounced by the CIO and other labor and liberal organizations. But the administration is making it clear that it intends to go the limit and isn't retreating from its Gestapo

Rather it wants to give them the sanction of law. That is one purpose of Truman's proposal to "tighten" the Espionage Act. He would make wire-tap evidence admissible in federal courts, permit the conviction of persons without showing proof of criminal purpose or intent and reduce or eliminate the statute of limitations.

Truman is out to destroy civil rights, not to protect them. Civil rights will be preserved, iust as they were won to begin with, only by the most determined organized struggle of the labor movement and its liberal allies.

New Stalinist Right Turn?

The Kremlin has launched a "peace offensive" in an effort to secure a deal with U.S. imperialism. As was the case in all previous twists and turns of Moscow's foreign policy, the latest maneuver has been immediately reflected in the line of the Stalinist parties.

Part of the inducement Stalin is offering world imperialism is the abandonment of the "left" shift of recent years-that is, a return to the avowed line of "class peace" that prevailed from 1941 to 1945. Moscow has ordered the Stalinist parties, first of all in Western Europe, to put the damper on working-class struggles. They are obeying with the alacrity of trained seals.

The new line is being put into effect without a pretense of consultation with the ranks of the Communist parties and with cynical disregard of the interests of the workers. It was proclaimed in a speech by the French Stalinist leader Marcel Cachin to the Chamber of Deputies and an article in the French CP publication, Cabiers du Communisme.

Cachin then carried the instructions in person to the Italian Stalinist leader. Palmiro Togliatti, in Rome. Prompfly Togliatti proclaimed that "complete" collaboration between the Soviet Union and the capitalist powers is possible, that Moscow has no

thought of "revolutionary war," that socialism in Europe can be won by "peaceful

Overnight the Italian CP tossed overboard its "campaign of non-collaboration," abruptly called off a slow-down strike of 100,000 Milanese workers and announced the new "peace tactics"-that is, soft-pedaling of strikes, demonstrations and other workers'

Having failed with "left" gestures and threats during the last three years to make Washington call off its cold war, Stalin is now offering concessions again. But whether or not this latest maneuver will develop into a full-fledged right turn like the one followed during the war still remains to be seen.

And the decision does not rest on Stalin alone. Washington is pressing for nothing less than a major retreat of the Kremlin. While not averse to a favorable deal, Washington is far more interested at present in cementing a war alliance with Western Europe, and in building up its war machine. It wants to be able to dictate its own terms to the Kremlin, and it wants a higher price for striking a deal than Stalin has so far indicated a willingness to pay.

'Life' Magazine Is Bitter

Life magazine in its Jan. 17 issue pokes fun - mixed with bile - at the idea of eliminating private profit. It commends the "irony" used by the Wall Street Journal in attacking a proposal by Mayor Curley of Boston to tax profits 15% for the operation of city and town governments. The Journal asked why, logically, the state governments also should not seek a 15% slice of profits. With 30% total going to local and state governments, and 50% to the federal government, the Journal went on-"in ironical spirit," Life assures us—to ask why even 20% of their profits should be left to the corporations. Why not dispose of even this last 20% in "some other wholesome fashion"?

Taking off from this point, Life sneers and ieers at those who contend that profits are "immoral." It paints the imaginary picture of "the directors of A.T. & T. hitting the sawdust trail, abolishing the 1949 dividend and mailing the undivided profits to the sharecroppers of Mississippi" and of "Ben Fairless of U.S. Steel getting up off the mourners' bench to argue with his stockholders that it is their duty to divert all the 1949 profits to worthy

Now we Marxists also ask the question raised by the Wall Street Journal-but in no ironic sense. Why shouldn't the profits—all the profits-of the corporations be disposed of in some "wholesome fashion"? But we don't consider profits from the standpoint of "good theology" or abstract morals.

Marx revealed the source of capitalist profits as unpaid labor. He demonstrated

that all profit is derived from the surplus value created by the workers' labor power, for which the capitalist pays the workers always less than the value created by their labor power. The capitalist system of production and distribution, based on the profit interests of the individual capitalists, is anarchic and planless, and leads to greater and greater crises, brutal competition and war, Marx showed. Haven't two world wars and the threat of a third, the world-wide depressions alternating with inflations in the last 45 years, proved Marx right?

Therefore, we Marxists don't propose merely to take away the profits after they are amassed by the capitalists. We propose to abolish the private ownership of the means of production and distribution. We propose, in short, to abolish the system of private profit. We are for the social ownership of the means of production and distribution operated under the cooperative control of society as a whole.

Under our system there won't be any directors of A. T. & T. or a Benjamin Fairless of U.S. Steel even to suggest turning over profits to the Mississippi share-croppers or for "good works." There won't be any sharecroppers or other deprived and oppressed sections of the population either. Through socialist planning for human needs we will be able to provide all with abundance and to eliminate the sordid incentives for exploitation of man by man that dominate the capitalist profit system of scarcity and high prices, boom and bust.

The SWP Case--Precedent for Stalinist Trial

(Continued from Page 1) Act" and "in violation of Sections refused the pardon. Last year the Smith "Gag" Act, we warned 3 and 5 of the Act of June 28, appeal for a presidential pardon, 1940 (Sections 11 and 13, Title so that the defendants might 18, United States Code), commonly known as the Smith Act." was renewed. President Truman ministration did not approve. The both indictments are virtually appeal. dentical. Our indictment read that we "would, and did, accept is the ideal formula for the carryng out of said objectives the Russian Revolution of 1917, whereby the then existing Gov- that if the Stalinists are conernment of Russia was overthrown by force and violence, and eventually rule out the conviche principles, teachings, writings, counsel and advice of the leaders of that revolution, chiefly of V. I. Lenin and Leon Trotsky" and that we "did knowingly and case. We have cited the public danger their prosecution reprewillfully advocate, abet, advise and teach . . . and did print, publish, edit, issue, circulate, sell, distribute and publicly display written and printed matter advocating, advising and teaching the duty, necessity, desirability and propriety of overthrowing and destroying the Government of the United States by force and violence" and did "organize and help to organize societies, groups and assemblies" for that

reads that they "did conspire . . . to organize . . . a society, group | did not even exist. and assembly of persons who and destruction of the Governwas further a part of said conculated, books, articles, magand Leninism.'

In brief, except for the omission of the name of Leon Trotsky, 18 Trotskyists is the forerunner 'Gag" Act of 1940.

150 pieces of printed and publicly CRDC. circulated literature, including the Communist Manifesto written in 1848 by Karl Marx and Frederick Engels; the chief writings of V. I. Lenin and Leon Engels and Lenin, will constitute present trial.

We were tried under two counts, the first under an old Civil War emergency law for alleged "overt" acts to accomplish the "crimes" count out. On Dec. 5, 1941 the jury found 18 of 28 defendants "guilty" of violating the Smith Act which makes mere "advocacy" of certain ideas a "felony." On Dec. 8, 1941—the day after Pearl Harbor-the judge sentenced us to federal imprisonment for terms ranging from 12 to 16

LABOR'S OPINION

On Nov. 22, 1943, the U. S. Supreme Court refused to review our case, thereby denying, in effect, that any constitutional ssues of free speech, press and assembly were involved. The Supreme Court repeated its refusal to review on two further occasions. On Jan. 1, 1944, after two years of appeals, we were incarcerated in prison and served our sentences.

That the trial of the 18 Trotskyists was a "political trial" was the publicly-voiced opinion of the American Civil Liberties Union, the Civil Rights Defense Committee, and of labor and liberal organizations representing more than five million members, which adopted resolutions to President Roosevelt urging repeal of the Smith Act and the immediate unconditional pardon of the im-

"Socialist Workers Party - What It Is -What It Stands For"

Who rules America? Who are the "informal, invisible, shadow" figures behind the White House? What future do they plan for America? What do the inside works of capitalism look like? Where is the capitalist system headed? How will socialism work out? What inspires the members of the Socialist Workers Party?

These questions answered by Joseph Hansen in this 32-page pamphlet. Send for your copy. PIONEER PUBLISHERS 116 University Pl., New York 3,

Of course, the Tribune cannot refute our arguments showing the economic advantages for the workers of the 30-hour week at the same takehome pay. It concedes that as "a palliative for a depression the thirty-hour week might be successful in spreading employment. It might maintain purchasing power at a crucial period of the economic cycle."

But keeping millions employed with no loss in purchasing power is a minor consideration for this mouth-piece of the employers. First of all, it opines, "there would be the immense administrative complications of staffing enterprises with men on such abbreviated shifts, as well as the dislocations caused by wages which did not fall proportionately with the cut in hours."

In short, the employers would have to hire more workers and raise hourly wage rates, thereby suffering a slice in their present all-time record profits - and that's bad, according to the Tribune. But this argument has too much of naked self-interest, so the Tribune comes out with the clincher, an argument right out of the Good Book, according to which "what profiteth a man if he gain the whole world, but loseth his soul." The editorial finds that it would be bad for the workers to have so much idle time on their hands, because you know what the Devil finds for people to do when they're just loafing around.

The worst thing of all, says the Tribune, "would be the social difficulties that would inevitably ensue when workers became something less than workers, and when their leisure bordered on idleness." It might be OK if you could put the workers to work at something else, "but in the great cities as they exist today there could hardly be anything but a slow demoralization, a debasement of the old standards and a general moral

Now the Herald-Tribune didn't invent this argument. In fact, Karl Marx, in his monumental book "Capital" back in the 1860's, traced this identical argument to the early beginnings of capitalism and showed how it was used to justify even working eight year old children until they dropped dead.

C. Curtis, in his January 1949 Fourth Interna-tional magazine article, "The Position of the American Working Class — 100 Years After the Communist Manifesto," traces the subsequent history of this same argument in this country. During the struggle for the 10-hour day in 1870 in Massachusetts one employer stated "that he had 'invariably noticed that when men are kept at work until 10 P. M. they live in better health as they keep indoors instead of sitting around

fifth of the great commandments and for sixty centuries it has been accepted as the divinely prescribed standard of economic effort. . . These constant attempts to amend the decalogue and to adapt by alterations the moral law to the appetites developed by easy and loose living conpetites developed by easy and loose living constitute the outstanding peril of our unprecedented Of Problems at prosperity."

In 1929 - just before the economic crash and mass unemployment — another NAM spokesman expressed satisfaction that the workers "have for the most part been so busy at their jobs that they have not had time to saturate themselves with false theories of economics, social reform and of life. They have been protected in their natural growth by the absence of excessive leisure."

Curtis observes: "Some readers' credulity may perhaps be strained by these citations. We can hardly blame them, but they may rest assured concerning the authenticity of these statements. As was once said in a different connection, 'You can't make up things like that." You can read them today in papers like the N. Y. Herald-

Now there's one little question the Tribune doesn't answer. If the workers will suffer "moral laxity" and "debasement" working 30 hours a week, what will they suffer if they are unem-ployed and without any income? The latter is evidently the alternative the "moral" capitalist

Of course, there are some idlers and loafers who might lend weight to the Tribune's argument. We refer to the idle rich. They flit from winter resort to summer resort and back again, steep themselves in vice and lap up all the good things of life that the labor of others creates. When you talk about these parasites, we'll agree that their work week is too short, and we'll make special efforts to discourage their moral laxity under socialism. But the Herald-Tribune considers socialism the most "immoral" condition of all. Which only goes to show how closely moral views relate to class interests.

No One Need Go Hungry

Marxists have long contended that the capitalist system is responsible for continued hunger. Under a socialist economy that eliminates war and gives unlimited expansion to the productive forces, the Marxists point out, hunger can quickly be eliminated throughout the world.

In opposition, reactionaries have claimed that the food supply cannot keep up with the increase in population. Consequently, they claim, the population must be kept down, which of course is a neat argument to justify turning plows into guns and slaughtering tens of millions of human beings in imperialist war.

Last week two important items in the press gave additional confirmation to the Marxist view. "We do not eat soil," Carl S. Miner, a 70-yearold specialist in industrial organic chemistry told the Society of Chemical Industry at a dinner in his honor. "The foods we eat are composed in largest percentage of carbon, hydrogen, oxygen and nitrogen, all of which elements are available in what appear to be ample quantities from air and water. The additional essential food elements of the inorganic class do not appear likely to become exhausted at such a rate as to affect

importantly the starvation problem." This scientist then outlined a whole series of projects whereby the food supply could be enormously increased. These include use of growth-provoking hormones, weed-killing herbicides, insecticides; the farming of seas, lakes and ponds; and even the production of edible food from petroleum hydrocarbons.

The second item is the report of two scientists. Dr. Melvin Calvin and Dr. Andrew Benson, who are working for the Atomic Energy Commission. They have been conducting research on photosynthesis, the mysterious process by which green plants manufacture food out of sunlight and common elements. When the secret of photosynthesis is discovered it will be possible to by-pass plants in the this convention. One motion that bows. production of food. Through artificial photosynthesis factories will be able to duplicate the process by which, for example, sugar cane

According to the columnist Stewart Alsop, who | because opposition delegates were reports on the encouraging progress made in this completely unprepared. research, "mass artificial production of food is theoretically possible in the same sense that the delegates to make a public demonatomic bomb was theoretically possible before stration against "piece-work" conthe Manhattan District came into existence. A tracts signed in this state, also somewhat comparable national effort would be came to nought. When these delenecessary before artificial food production entered gates threatened to protest the realm of the practical at any time in the against these contracts by ab- argument is still going on, it apnear future. Dr. Calvin guesses-and it is, of staining on Sviridoff's candidacy pears certain that the prosecutor course, merely an informed guess-that with for CIO president, UAW Re- and judge are determined to go such an effort the trick might be turned in four

or five years." As is well known, it took \$2 billion to bring the first atomic bomb into existence. The capitalist government was willing to devote that sum thus nipped in the bud although on a weapon of destruction. Under socialism that it did not satisfy the opponents effort would have been undertaken not to make of the rotten contracts. bombs and radioactive clouds but to open up the dazzling possibilities of atomic energy for

Today the capitalist government is not willing to invest \$2 billion on solving the secret of photosynthesis. Unless you can show Truman how photosynthesis can be tapped for bigger and better instruments of destruction that you can get out of atomic energy, the problem of food can wait. The \$15 billion for armaments next year is needed to prepare for something far more important to capitalism than ending hunger

Notes from the News

NO CRUSADE IN COLUMBIA — Columbia University President Eisenhower still has not re plied to the request, made by Columbia's NAACP chapter a month ago, that he ban from the campus all fraternities discriminating against students for racial or religious reasons.

BIRDS OF A FEATHER - James Burnham, America's No. 1 propagandist for de Gaulle, has been given prominent space in the Social Democratic New Leader for a series of articles urging support for the general who wants to be fuehrer

CAMPAIGN PROMISE - At last year's special session of the Republican-controlled Congress, July 27, Truman said: "I recommend that an excess profits tax be re-established in order to provide a Treasury surplus and provide a brake on inflation." His State of the Union message to the Democratic-controlled Congress on Jan. 5 of this year never even mentioned the subject.

ACADEMIC "FREEDOM" - Economies Professor Tucker Smith, Socialist Party candidate for vice-president last year, and four other professors have received notice of dismissal from Olivet College, Mich. No reason was offered, but all five victims of the academic axe are active members of the AFL Teachers Union.

TRENDS IN UE - In addition to the severe setback the Stalinists got in the big Westinghouse UE Local 601 in Pittsburgh, they were soundly defeated in the Schenectady GE local and Minneapolis Local 1140. Furthermore, the New Republic reports, in Dayton the anti-Stalinist group in the UE ran a write-in campaign that beat the business agent who had held office for 10 years. (At Westinghouse Local 601, however, the defeated Stalinist candidate for president was elected chief steward.)

NEW EDITOR FOR F. I. - George Clarke, who was National SWP Campaign Manager in 1948,

assumes the post of editor of the monthly Marxist magazine, Fourth International, beginning with the new (Feb.) issue.

77 JOBS ANYHOW - Connecticut Labor Commissioner Egan made an unqualified prediction of a recession in Connecticut within the next few months. In a speech at the state CIO convention he said unemployment has risen 108% in the last year and is still rising. Although he admitted he had no solution, he did plead for 77 more clerks so that unemployment checks can be mailed out in four weeks instead of eight.

'LOYALTY' PURGE LOGIC - The AFL Cleveland Citizen's editorial on the Kutcher case ended with the following ironic remark: "Now all the Justice Department has to do is put the Democratic Party on the subversive blacklist and we will have an entirely new administration."

DEPARTMENT STORE FIGHT - Since CPdominated locals broke from the CIO retail clerks union and the CIO gave jurisdiction over department stores and clerks to the Amalgamated Clothing Workers, both the AFL Teamsters Union and the AFL retail clerks international have announced big organizing drives in this field. In New York, the Stalinist-led independent union has now secured a two-year contract with Gimbels and Saks-34th St., and will be on the ballot along with the CIO and AFL clerks' union in an NLRB election at Macy's next month.

DIXIE DEMOCRACY - The Georgia legislature, carrying out Gov. Herman Talmadge's whitesupremacy program, is preparing to pass a poll tax and new rules for "voters' qualifications" which would drastically reduce the number of voters, especially Negroes.

NEW ADA CHIEF - Sen. Hubert H. Humphrey, darling of the union leaders and Social-Democrats, has been chosen as chairman of the Americans for Democratic Action.

THE MILITANT

MONDAY, JANUARY 24, 1949 **VOLUME XIII**

In 1902 the president of the National Association of Manufacturers opposed an 8-hour day bill "as socialistic and controverting the inalienable right of the individual to use his time as he saw fit." And 20 years later, a succeeding president of the NAM invoked the Lord and Holy Scripture in opposition to the five-day week, for "six days shalt thou labor and do all thy work! So reads the fifth of the great commandments and for sixty

Little Discussion Conn. CIO Parley

HARTFORD, Jan. 16-After a total of 20 minutes' discussion from the floor during two full days' sessions, the 11th Annual Convention of the Connecticut CIO adjourned this afternoon. Ironically enough, there were only two speakers who held the full attention of the delegates-Chester Bowles and James

In his written report President Mitchell Sviridoff had warned the Democratic Party, state and national, to keep its campaign promises or "Labor will of necessity look elsewhere in its future political efforts." But his statement to the delegates that Bowles is the real hero of this convention" turned out to be the overwhelming theme.

Gov. Chester (Little FDR) Bowles, speaking at the convention, admitted that before the election he was resigned to leading a "strong minority party" and that it was only the intervention of the "fellows sitting here" that saved his political neck.

But Bowles warned sharply that the convention should not expect a "labor's program" but a Trial of C.P. Threatens 'people's program." In explaining what he meant by that, he said labor must never forget that capitalists are entitled to a 'generous profit."

There was no organized opposition on a state-wide scale at defense lawyers sits at their elwould in effect have taken the post of secretary-treasurer out produces sugar, or wheat produces starch. boration with the Stalinists.

A postwar peak in unemployment—possibly four million jobless by this spring-is predicted by government and labor economists in Washington, reports a Jan. 14 United Press dispatch. According to the Bureau of Em-

ployment Security, unemploy- says that "lack of orders" is the principal reason given for layoffs in scores of industrial plants. Officials admit that the unemployment figures do not tell the full story, since many factories are operating on a two and threeday basis while others are operating on a skip-week basis. In the two weeks ending Jan. 5 a total of 41,000 were dropped from unemployment insurance rolls because they had drawn their full benefits. Thousands of unemployed are not reported because they

ployment insurance system. WILL RISE FURTHER" In the month of December, un-

are not covered by the unem-

employment compensation claims jumped from 60,000 to 105,000 in Michigan, according to the latest Michigan Unemployment Compensation Commission report. For the one week ending Jan. 5, such claims rose 10% in Massachusetts, with 11,000 more jobless being added to the rolls. The total figure is expected to reach 125,-000 by Jan. 12, according to preliminary reports. Heaviest layoffs are in textile and shoe manufacturing. The December "Labor Market Information" bulletin of the Ohio State Employment Service *reported: "Job-seekers registered with OSES jumped onefourth in 30 days . . . to 73,000 on Dec. 1. . . Unemployment will probably rise further in January and February.'

All reports claim there is nothing to be "alarmed" about-yet. But neither are they making any ciaims that the present upward trend in unemployment won't continue. At any rate, labor can't say it isn't getting advance warning of large - scale unemployment ahead. Wisdom dictates imme-

diate preparations. First of all, every union has the duty to protect its unemployed members. Unemployment and placement committees should be jobless members in getting prompt

ANOTHER FALSITY

petrated by the government when just as it has done. it accuses the Stalinists in the inciples of Marxism-Leninism." They are not and cannot be Marx- strike-breakers and cynical advoists-Leninists precisely because they are Stalinists.

The Stalinists betray the interests of the working people to serve the gang of murderers in the Kremlin who have usurped power in the Soviet Union. Marxism-Leninism teaches unswerving loyalty to the working class.

The Stalinists betrayed the struggle to defend civil rights in America by cheering the conviction and imprisonment during the war of 18 Trotskyists under the same Smith Act that is now used against them, and they sought by every foul means to sabotage efforts to secure a presidential pardon for the imprisoned Trotskyists. Marxism-Leninism teaches solidarity of the labor movement in united front struggle to defend democratic rights from attack by the capitalist government.

WHY THEY WAITED

In the present trial, the Stalinists, for unprincipled and treacherous factional reasons, seek to conceal the fact of the Trotskyist conviction under the Smith Act. They do so when broad public knowledge of the true history of that infamous thought-control law would serve as a powerful means to arouse the American workers to the need for solidarity in defense of their democratic rights. Marxism-Leninism teaches honesty and truthfulness in talking to the workers.

By their treachery, lies, slanders, deceptions and repeated betrayals of the workers, the Stalinists have aroused the wholly justified hatred of millions of workers and have thereby aided the government in whipping up a to New Haven where they attend- lynch spirit against them. Thus hunt against the Stalinists and then use the precedents so established for an attack on the rights of the whole working class.

This deception of the workers by the government is further proven by the language of the indictment. The question might be asked, "Since the Smith Act became law in 1940, and the Trotskyists were convicted under it in 1941, why did the government wait until 1948 to indict the Stalinists?"

The government got around es against the Stalinists "from is, coincident with the expulsion of Browder and the reorganization
