But no symbol was provided to remind the capitalist politicians that Negroes are still being lynched in this country. None of the floats carried a replica of a slum dwelling to stress the urgent need for quick action on housing.

Also missing from the parade was a poorly-clothed, undernourished elderly couple to dramatize the terrible plight of the aged. No one suggested standing a moment in silence in memory of the 325,000 people who died needlessly in this country last year because they couldn't afford proper medical care.

WHO RUNS CONGRESS

His main object was to put heavy pressure on the Senate for quick ratification of the North Atlantic military pact. He didn't say a word about the skullduggery going on in Congress to wiggle out of the election promises made

to the working people. Judging from the assignment of posts in Congress, you'd think the Negro-hating, labor-baiting Dixiecrats won the election. Dixiecrats and their fellow travellers have dictatorial powers as chairmen over ten of the fifteen key

Senate committees. Sam Rayburn, a Democrat from the poll-tax state of Texas, is Speaker of the House of Representatives. DOUBLE-TALK ON RIGHTS

Another election promise on civl rights is going by the boards in the House. The Democrats are continuing the witch-hunting Un-American Committee that Truman promised to abolish. As a whitewashing gesture, they have Only as an afterthought, toward dumped foul-mouthed Representative John Rankin. The Republicans have added to the committee a former FBI agent, Representative Harold Velde of Illinois.

Truman's pelitical blacklist is still in effect. The legless war veteran, James Kutcher, is still out of a job because of that blacklist. The Department of Justice is pushing its thought-control prosecution of the Stalinists under the Smith Act. Attorney General Tom Clark already has his hirelings eavesdropping on people's telephone conversations. Now he wants Congress to legalize his wire-tapping so he can use it as evidence in court.

Truman's policies are encouraging abuse of civil rights instead of giving the people the protecion he promised. The Detroit police now require newspaper reporters to sign "non-Communist" affidavits to get press passes necessary for news gathering.

Puts Pressure on Congress To Arm North Atlantic Bloc

By Joseph Hansen

The immediate political purpose of Truman's saber-rattling inaugural address was to smooth the way for the Atlantic Pact, the most far-reaching mili-

tary alliance in history, now being readied in secret for rubber-stamp approval by Congress. The larger aim of this bristling speech was to try to justify Truman's astronomical armaments budget and the open preparations for the third world war projected by American im-

The heavy barrage against 'communism" was designed to lay the guilt for atomic war preparations on the prospective enemy, the Soviet Union. Its hypocrisy can be judged in the light of Truman's highly-publicized avowals of warm regard for Stalin, the fountainhead of all bestial crimes which revolt class-conscious workers. American Big Business has no differences with the Kremlin over morals. It has willingly covered up Stalin's crimes when it suited its aims, made deals with the Moscow bureaucracy at the expense of the working people, and will do so again if it appears expedient.

Does 'World Fair Deal' Differ from 'Old' Imperialism World Events

In outlining his foreign policy, President Truman devoted the fourth plank of his inaugural address to the problem of the "under-developed" countries. Included here is the overwhelming

majority of mankind: the oppressed masses of Asia, the teeming powers. In the new re-division of peoples of the Midale East, the millions of native Africans and the inhabitants of Latin Amer-

To these vast impoverished multitudes Truman made a solemn promise: "The old imperialismexploitation for foreign profit-'has no place in our plans."

But what Truman omitted to give was any serious reason why he should be taken at his word by colonial and semi-colonial peoples who have known for centuries no other lot than foreign exploitation. After all, they have heard similar promises from every foreign conqueror and colonial

The noblest motives are invariably ascribed to themselves by all capitalist politicians, especially when it comes to their program of colonial exploitation.

Germany, under the Kaiser, "claimed no goal other than that of extending the boons of "kultur" to the benighted peoples. England, for her part, eagerly assumed the "white man's burden" exclusively "to spread the benefits of her own brand of civilization. The French, "the Dutch and all the other "civildeveloped" areas under their rule. We have before our own eyes

the end-results of the work of all these enslavers. England's record is the oldest. It is the record of retaining in colonial Asia all the survivals of Asiatic barbarism. It is the record of retaining the medieval institutions of mass oppression. The record of the others is much the same.

But what about U.S. capitalism? It arrived late on the historical arena, rising to supremacy

the world's colonies, markets and sources of raw materials it is therefore necessary to modify some of the old practices, paint them up, adjust them to new conditions. This is exactly what Truman is trying to do. But does this alter essentially U.S. policy as compared with that of "old imperialism"?

For an answer we need only compare Truman's words with the deeds of his administration, say, in Japan. If Britain did everything to preserve the feudal princes in India, then to Washington belongs the sole credit for preserving the rule of the Mikado, one of the most ancient relics of Asiatic barbarism. In fact, the same reactionaries rule in Japan under MacArthur as did in Tojo's day. The Japanese peasants, who are the bulk of the population. live under the same frightful conditions as before.

So do the peasants of Korea where the need for drastic agricultural reforms is as urgent as in Japan. In China, Chiang Kaishek's regime has opposed long needed changes as ruthlessly as any of the previous reactionary "izers" vied with one another in the regimes in that country's long -loftiness of their moral and cul- and unhappy history. Yet Amertural aspirations for the "under- ican billions and arms backed Chiang to the very end.

One could cite many other instances — especially relating to Latin America - that demonstrate how closely U.S. policy, while differing in outward respects, resembles that of "old imperialism."

Truman made another promise to the effect that he' would inaugurate "a bold new program for making the benefits of our scientific advances and industrial progress available for the improvement and growth of underafter the whole world had already developed areas." He implied that been divided among the leading this would be done by private in-

It is for these and similar reasons that the capitalist powers -Britain, Germany, France, Japan, and the rest - have not only fought savagely for colonies but have also constituted the principal obstacles to the cultural and industrial advancement of all colonial peoples.

and British imperialists now is the revolutionary rise of the working class in such strategic cities as Shanghai. An uprising of this character would bring into operation a great, new dynamic power that would tend to shift the axis of the revolution away from the peasantry toward the city proletariat and to displace Stalinist leadership with a revolutionary leadership like that of Lenin and Trotsky in Russia in

POLICIES COINCIDE

The policy of the Chinese Stalinist leaders is to try to confine the revolution to the peasantry and to prevent a working class oprising. Consequently, at this particular juncture their policy and that of British and American imperialism in China coincides. That is why the Shanghai representatives of London and Washington not only welcome the Stalinists but burn with impatience for their arrival.

Whoever fawns before precepts established by the enemy will never vanquish that enemy! The 'amoralism' of Lenin, that is, his rejection of supra-class morals, did not hinder him from remaining faithful to one and the same ideal throughout his whole life; from devoting his whole being to the cause of the oppressed; from displaying the highest conscientiousness in the sphere of ideas and the highest fearlessness in the sphere of action; from maintaining an attitude untainted by the least superiority to an 'ordinary' worker, to a defenseless woman, to a child. Does it not seem that 'amoralism' in the given case is only a pseudonym for higher human morality?" -Leon Trotsky, "Their Morals and Ours," 1938.

UAW Conference and Labor Party

An important speech was delivered at the UAW educational conference held in Milwaukee last week. The 2,500 delegates heard the speaker charge that the National Association of Manufacturers and other employer groups had started a "super-duper Mohawk Valley Formula" in an effort to win control of the government and wipe out democracy in this country.

The auto workers were warned that Big Business was engaged in an "all out war" with democracy in this country and that this war was being waged under the cloak of propaganda slogans intended to convince American citizens that capitalist economy was synonymous with democracy.

This was not so, declared the speaker. What we have in this country today is a "crazy combination of half democracy and half exploitation" under which "the walls between the classes in our society are getting higher and thicker all the time.'

Truman's election does not provide assurance that democracy is safe in the United States, he said, and he urged the workers to take immediate steps to form a national labor party, rather than continue working through the Democratic Party. These words won enthusiastic applause from many

All of the above was carried in a special dispatch to the N. Y. Times, Jan. 23. Who was the speaker? Was it any of the UAW leaders at the conference? Unfortunately, no. It was Professor Robert S. Lynd of Columbia University.

We do not mean by this to minimize what Professor Lynd said. But his words, which were so weighty, could not possibly have carried the same weight as they would coming from the lips of the union's official spokes-

After all, he was not speaking for the union. What is even more important, the union officials offer different "advice" from Professor Lynd's, as the Times dispatch

We are glad to see that the truths uttered by Professor Lynd, which the official union leaders are unwilling or afraid to state, "won enthusiastic applause from many delegates." We urge those delegates to express their agreement with these ideas not only by applause but also through action. One such action should, be the initiation of a movement to replace the present labor leaders with unionists who understand the need for breaking with the Democratic Party and launching a Labor Party, and who act

Taking over Nazi Methods

The ominous pattern of the witch-hunt and "loyalty" purge continues to unfold in America.

On Jan. 21, at one of the Truman inauguration celebrations, Attorney General Tom Clark made a public bid for secret denunciations of government employees. If any person could name one communist on the government payroll, he said, "send that name to Tom Clark and he'll do the rest."

By "communist," Clark meant a member of any group on his "subversive" blacklist Among other things, his statement was a rejection of the growing demands by labor and liberal groups for the reinstatement of James Kutcher, legless veteran fired from the VA because of his membership in the Socialist Workers Party.

Clark's call for denunciations is one of the methods developed by the Nazis and the Stalinist bureaucracy to terrorize political opposition. "Under this system, a victim is presumed guilty until he proves his innocence. Since he is not given a fair trial, permitted to face his unknown accuser or even know what the specific allegations are against him, innocence is not so easily established. Even if he does get off, the accusation stands on his record, a perpetual question mark over his "loyalty."

Thus Clark's declaration is an incitement to every would-be stool pigeon to get busy. It is an instigation to every grudge-carrier to inform on a fellow employee's "dangerous thoughts." It is a provocation to every unscrupulous climber to clear his path with a

No greater mistake could be made than to think that honey-combing employees' ranks with spies and stool pigeons will be confined to the government. Clark is setting an example for all of industry which will be hailed and imitated by every labor-hating company.

This is not the end of the forces set in motion by the witch-hunt. In Scranton, Pa., Judge Albert L. Watson on swearing in some applicants for American citizenship declared: "If anyone ever says to you that there is something wrong with your government, and that the government which exists-if it does exist-in Russia today is the type of government which will guide you to happiness and liberty and comfort, get rid of that person just as quickly as you can-and I recommend physical force."

This judge was not arrested and put on trial for advocating the use of force and violence against anyone who voices an unpopular opinion in exercising his right of free speech. Instead his fascist-like utterance was given wide publicity. Undoubtedly, every reactionary with lynch-murder in his heart rejoiced on reading it.

Such sentiments, are clearly in the spirit of fascism. Expanded into a dogma and put into action by an organized following they could mean the end of democracy in

Unemployment Rises in America

A nationwide survey conducted by the N. Y. Times (Jan. 23) shows a swift rise of unemployment throughout the country. Applications for unemployment insurance have risen since mid-October in key areas from 10 to 100%. Among the most heavily affected are New York, New Jersey, New England and midwest industrial regions.

Job firmness in some cities such as Pittsburgh and New Orleans is ascribed to special local conditions.

In New York State, unemployment insurance and veterans' readjustment rolls dropped 6,600 in the week ended Jan. 7, leaving a total of 461,280, a rise of 67% since Oct. 8. This slight dip in unemployment, however, was countered by the removal of 10,000 workers from the rolls even though they had found no jobs. The Times explained that the 10,000 had exhausted their benefits.

In the past three months, according to union officials interviewed by the Times, about 750,000 workers have lost their jobs. They estimate that unemployed ranks may swell to 3,500,000 by spring. As reported in last week's Militant, the estimate in Washington is that the figure will be close to 4.000.000.

The Times reported that explanations for the layoffs among employers ranged from

"uncertainty" over Truman's fiscal policies and "lack of orders" to "buyer resistance to high prices."

Although the Times gave its survey frontpage prominence, it did not take what it calls an "alarmist view" over the rise in unemployment. This authoritative voice of Wall Street counts on the preparations for World War III to avoid a major depression.

"The beneficial effects of the rearmament program on employment . . . are just beginning to be felt . . . and officials are confident that defense orders and the European Recovery Program will create tens of thousands of new jobs by spring."

How tens of thousands of new jobs can take care of the expected three to four million unemployed, the Times did not explain.

In view of these warning signals the trade unions should at once begin considering ways and means of combatting unemployment. We suggest organization of committees in every local to see that unemployed members get maximum aid. The question of fighting for a sliding scale of hours to spread the work with no loss in weekly pay should be taken up. And the labor movement should begin to campaign for the 30-hour week with no reduction in take-home pay.

ED. REPLY: It is a common experience for persons who have become dissatisfied with the capitalist system to wonder why the various groups and parties professing socialism do not unite into one organization.

Marxism gives a truthful exlanation of the source of poverty, lepressions, fascism, imperialist war - all the major economic, ocial and political evils afflicting mankind today. The socialist solution to these burning problems is so obvious and simple that one's immediate reaction is, let's get going, what are we waiting for?

It is then that the problem of obstacles in the path of socialism arise. Many of these are obvious such as the general ignorance about what 'socialism really stands for, inertia and conervatism, the lies of the capitalist press, organized opposition to socialism, and so on.

The fact that those proclaiming socialism are divided over many issues and organized into separate parties seems to be completely uncalled-for obstacle. Haven't the socialists ever heard that in unity there is strength?

The "Fair Deal" and Other Phony Labels Editor:

A brand new label is now being peddled to the American people: It is Truman's "Fair Deal." As if by magic, these two little words have been picked up and played up by all the dailies and weeklies, radio, newsreels, pulpit, etc. And this is just the beginning.

What delights most publicity tub-thumpers is the slickness of Truman's formula. Every opponent of the "Fair Deal" begins presumably with two strikes against him. How can any one speak up openly against being "fair"? It is much like being told to answer a trick question like tion was immensely enjoyable and "Have you stopped beating your wife"?

In the old days, barnstormers who peddled su gar-and-water "cure-alls" gave out a quick spiel and raked in their take. With one eye out for the sheriff who might spoil the game, they left town with as little publicity as possible.

But the newcomers, with kite-tails of letters after their names, travel at ease. They are sure of a welcome from the government and a buildup from the capitalist papers, because they peddle the stupendous fraud of an "easy cure" for the affliction most dreaded by the people-war.

These pretentious humbugs are famous psychologists and anthropologists. They exchanged formulas a few months ago at an "International Congress on Mental Health" held in London.

Appropriately enough, it was a British anthropologist from New York-representing Anglo-American imperialism-who served as executive officer. Her speech was typical of their perversions of science.

According to this Dr. Nina Ridenour, the anthropologists must work to "prevent war" by studying "the nature of groups-study how the Germans or Russians, for example, would react to certain circumstances, the object being to achieve success in discussions with them."

Dr. Ernest Jones of London pointed out what fine they will take if "peaceful persuasion" fails. President of the International Psycho-Analytical Association, he has already laid the blame for the coming war on the USSR:

"The behavior of some of our friends in other countries may be due very much to a sense of guilt." For example, he said, "The Russians had a sense of guilt because they destroyed the Czarist culture in the 1917 revolution, the Germans because they started the Second World War because they had to do something violent to get over their feeling of guilt about starting the First Great War."

That is supposed to explain everything. Now the Russians must start a war to get over their regret for having wiped out one of the most oppressive regimes in history, a "culture" that condemned hundreds of millions of people to illiteracy, poverty, and brutality.

In the case of Germany, they blandly ignore all scientific proof that there is no such thing as and prices, for instance.

They skillfully avoid any discussion of the real cause of war, the capitalist system whose national rivalries grow from the merciless drive for profits. According to these quacks, wars are just the product of mental disturbances that af-

This isn't entirely new. Hitler years ago spewed out the theory of "collective guilt" to justify the murder of millions of Jews and other 'inferior peoples," as he called them. The prostitute scientists have just brought his ideas up the press and over the radio. By to date to suit Wall Street.

Like the medicine-show barker, they try first to lull the audience. Don't go to a real doctor, don't listen to the Marxists who say the cancer of capitalism must be removed. One quick swallow of the magic "psycho-analytical" dope will fix

And if it doesn't work—as it can't? Ah, then comes the second bottle of "something even better, even stronger"-a poisonous brew of nationalist hatreds, a hypnotic drug to make you spring out of bed at the sound of a war-drum.

Fine medicines, these! The physicists who perfected the atom bomb, the biologists who perfect | tary evidence cited in The Miligerm warfare, are joined by the psychologists and anthropologists who rush for a place in Wall Street's war machine.

The medical quacks were benefactors compared to the scientists who sell themselves to capitalism.

Negroes and the CIO

By Joseph Andrews

The fate of this committee, which exists in name only, calls attention to the true condition of Negroes in the CIO.

A myth has grown in the labor movement that Negroes have found equality in the CIO. This myth is prevalent among trade union functionaries, rank and file white workers, liberals and even some revolutionists-but not among the Negro workers. The myth is based upon the fact that unlike most AFL unions, the CIO in the process of organizing on industrial lines, gave Negro workers full union membership in the formal sense. Millions of Negroes were recruited into the CIO. They vote as other members. They even hold office. They are rarely, if ever, segregated in separate locals, as in many AFL

members, in the basic sense of that word. If Negroes were truly equal in the CIO, they would have job equality. This equality exists only in the rare CIO local union. In the CIO unions generally the Negro workers still are confined to the dirtiest, low paid and undesirable ity provisions in local union contracts which, if enforced, would make it mandatory to give Negroes preference in job openings on the basis of length of company service. Almost everywhere, union leaders overlook this contract provision when it comes to Negroes.

Workers, in Your Hand Lies Indonesia's Fate

By George Breitman

The Jan. 3 Militant article on the Louis Weinstock correspondence, showing how the Communist Party during the war had sabotaged the fight against the Smith Act under which its leaders are now being persecuted, has received wide publicity in now the details of this sordid story are well known in all labor and radical circles.

But despite the wide interest this story has aroused, the Stalinist press has maintained a rigid silence on the matter, not daring to comment one way or another How can they? To admit the facts would only damn them further in the eyes of classconscious workers. To attempt a denial in the face of the documentant would be the height of futility. That is why the Daily Worker contents itself with repeating the lie that this is the first time in American history "that a political party faces criminal charges for its platform and history."

While the Stalinist press can remain silent in this way, individual Stalinists are not all so fortunately situated-and least of all Louis Weinstock himself. Forced to discuss the issue in the New York AFL Painters Union, he has completely confirmed The Militant's charges against him self and his party.

WEINSTOCK ADMISSIONS

Weinstock used to be secretary treasurer of Painters District Council No. 9, and it was in that capacity in 1944 that he played his part in the scabby Stalinist campaign to prevent the mobilization of the labor movement against the Smith Act when 18 Socialist Workers Party and CIO members were railroaded to prison under its provisions in the Minneapolis Trial. The members of the union have since then kicked Weinstock out of that post, and the forum he used in Revolutionary militants must not allow the discussing The Militant's expose was a meeting of Painters Local Jan. 17.

He could not deny that under pretext of "investigating" the facts in the case, he had written letters to Daniel J. Tobin, czar of the Teamsters Union who had openly asked Roosevelt to jail the Trotskyists; to Attorney General Biddle, whose Department of Justice had indicted them; and to District Attorney Victor E. Anderson, who had headed the gov-

ernment staff prosecuting them. Nor could Weinstock deny that he had given the widest possible upholding the conviction of the Trotskyists-including their argument that the Smith Act was constitutional and did not violate

free speech. Weinstock was compelled to admit all these facts, either explicitly or by refusing to mention them in his "answer." The only question of fact which he even half-tried to dispute was his personal responsibility for the letters, which he disclaimed on the ground that he had been directed to write them by the District Council.

WHAT WAS AUTHORIZED

But The Militant had not accused him of acting in this case as an individual. We specifically stated that the Stalinists at that time controlled the District Council and that Weinstock was only "carrying out the Stalinist line." Furthermore, our objection was

not to an investigation by the Council of the facts in the Minneapolis case-but to the nature of the "investigation" that Weinstock conducted. Dutch Trotskyists Back Indonesian Freedom Struggle

The Indonesian people have found militant support for their struggle for independence right inside the Netherlands. The Dutch Trotskyists, organized in the Revolutionary Communist Party, Netherlands section of the Fourth International, are calling on the Dutch working class to fight for the withdrawal of all troops and the immediate freedom of Indonesia. Since the loading of the first troop ship, they have insistently called on labor to organize a boycott to help the Indonesians.

When the attack on the Inlonesian Republic began on Dec. 19, the Trotskyist newspaper, De Tribune, at once issued a manifesto bitterly opposing the war of the Dutch imperialist government. In a blazing headline across the front page, De Tribune declared: "Solidarity with Indonesia!!"

The manifesto condemns the Dutch capitalist class as being 'interested only in the subjugation of Indonesia as a colony.' It points out how cold-bloodedly the government prepared the war, freezing wages to get more money for armaments and imposing a "civil state of siege" in preparation for possible resistance to the wage freeze and the

The Dutch Stalinists share the guilt of the Social Democrats for the assault on the Indonesian Republic. They supported the Lingadjatti and Renville agreements which helped pave the way for the blitzkrieg war. The Stalinists are now beating their breasts in public over their "very serious errors" whereby "the Indonesian revolution was brought in great danger."

At the same time the Stalinists are redoubling their attacks on the Trotskyists, who have consistently fought for the slogan. "Free Indonesia from Holland Now!" Despite their "self-criticism," the Stalinists still refuse to take up this traditional slogan of the revolutionary socialist

Detroit Youth Group Hits SLID Moves

DETROIT - The Socialist Workers Party Youth Group of Detroit, through its organizer Seymour Lyons, has issued a sharp denunciation of the recent national convention of the Student League for Industrial Democracy which voted to exclude Trotskyists from membership as "totalitarians."

Lyons' statement demonstrated the dishonest, frame-up character of this charge by contrasting the program of the SWP with that of the Social Democrats and their allies who run the SLID. On the issue of Indonesia, for example, the SLID convention voted down a resolution calling for a halt of Marshall Plan funds to Holland, thus giving objective support to the war of Dutch imperialism, while the SWP fights unceasingly for support of the Indonesian Dutch totalitarianism.

The statement concluded by appealing to SLID members to support the Wayne University Chapter's request for a referendum on the question and to resist all efforts to bureaucratize the SLID under the pretext of fighting "totalitarianism."

'New Republic' on Kutcher

— By George Breitman -

Elsewhere in this issue we have reported on the reaction by the Stalinists to our expose of the Louis Weinstock correspondence and of the Communist Party's sabotage of the fight to smash the Smith Act in the Minneapolis case. But there is another postscript to the Weinstock story that deserves some comment.

Like many other periodicals, the Jan. 24 New Republic, in its column "Left of Center," recorded the main facts we had published about Weinstock and the Minneapolis Trial, including the fact that despite the treachery of the Stalinists, we Trotskyists are defending the 12 Stalinists now on trial. Then it added:

"The Stalinists refuse to reciprocate, however. They continue to boycott the defense campaign for James Kutcher, legless veteran fired from the Veterans Administration for his Trotskyite affiliations."

The author of these remarks evidently feels that such conduct - "boycotting" the Kutcher defense - is reprehensible. We think so too. And we're not thinking only of the Stalinists. The Kutcher case is now five months old. As we pointed out in the Jan. 17 Militant: "Virtually all

the liberal journals have taken a stand [on it];

only the New Republic and Socialist Call have

not yet found space to express their views."

That was not because the editor of the New Republic did not know about the case. On the contrary. The Kutcher Civil Rights Committee has supplied the New Republic with all the information, just as it has done with other periodi- after receiving replies from them, cals. Furthermore, the editor of the New Republic is a member of the National Planning circulation to their arguments Committee of the AVC, which voted unanimously to call "upon all liberal organizations and upon all individuals who believe in our Bill of Rights to come to his [Kutcher's] defense."

When the New Republic was approached for a short editorial statement on the Kutcher case last October, its spokesman replied that they were rather crowded for space at the time in covering the election campaign, but they would see what they could do. Perhaps they are still crowded because of preparations for the next election. At any rate the passing remarks in "Left of Center" are the very first ever printed in the New Republic about the dramatic case of the legless veteran.

These remarks may be regarded as a step forward for the New Republic, but they hardly represent taking a stand on the case. And they certainly don't give the editor of the New Republic grounds for feeling any moral superiority over the Stalinists because they boycott the Kutcher

Notes from the News

STILL VERY IMAGINARY! - The day before Truman's inauguration, N. Y. Star columnist I. F. Stone printed "An Imaginary Press Conference" in which Truman on the day of his inauguration announces he has reconsidered the case of James Kutcher and decided to reinstate him. The day after the inauguration, Stone said he didn't think Truman could protect civil rights while carrying on his war drive and concluded: "Mr. Truman spoke with malice toward none except half of mankind (Russia and China), and with charity toward all willing to give us military bases.

... GOOD IDEA - A furniture workers union contract in Laurel, Mass., grants a 120-day leave of absence to any member who decides to run for office. If the candidate loses, he gets his job back without loss of seniority; if he wins, he gets a leave of absence to cover his term of office.

SWP FRIEND DIES - The Flint SWP Branch mourns the death of its friend and sympathizer, Peter Schumacher, 42, killed in an automobile accident Jan. 22. CAN'T CALL THEM BIASED - The Social Democratic New Leader on Jan. 22 gave one page to an Indonesian Republic spokesman denouncing the Dutch imperialist war and one page to a Dutch government representative defending it.
