who "brought mass organization of workers to this city," Wickland acknowledges. "They provided the leadership — the hard, tactical knowledge and the developed, practical philosophy — which smashed the open shop tradition."

methods by which Stalin corrupted the world communist movement has come to light in an article by Ignazio Silone,

## He Believes Workers Should Rule

"Vince. . . . believes that the workers and farmers should run government and industry," continues Wickland, "that there should be no private ownership of resources or of the tools of production and that there should be no capitalism. He is a disciple of Marx, Lenin - and Leon Trotsky.

"He is not a member of the Communist Party as developed by Stalin after Trotsky was expelled from Russia. He belongs to the Socialist Workers Party. That is the dissident group which split from

the Communist Party and followed Trotsky's doctrine that the socialist revolution cannot be confined to one country, Russia, but must spread throughout the world.'

Wickland describes Dunne as a "coldly logical speaker who can light the fire of rebellion within his comrades." In Wickland's opinion "most radicals" don't have a sense of humor but he admits that it is not lacking in Dunne and that he "can converse without orating."

The absorbing story of Dunne's life is told by Wickland. "Vince Dunne - he was christened Vincent Raymond and is either Vince or Ray to his comrades - was

## The Basis of His Philosophy

"School had ended for him after six short winter terms. Before he started classes he had learned to read from the newspapers with said that it was not strong which his grandparents' cabin was papered.

"When he was 15, Vince went west to the Montana lumber camps. There he first met the trade union movement, the Western Federation of Miners which had just merged with the IWW. Impressed with the better working conditions which existed because of the union, he immediately joined and was immediately exposed to the revolutionary-minded people who led the union. He began to read the revolutionary literature of the Wobblies and the federation.

Important testimony, on the "Farewell to Moscow," printed in the November issue of Harper's Magazine. Silone, the famous novelist, is a reformist Social Democrat today, but in the Twenties he was a revolutionist and one of the leaders of the underground Communist Party in Italy. The Harper's article explains the circumstances which led to his break with the Communist International after it came under the complete control

of the Stalinist bureaucracy. The main incident in the article deals with a session of the enlarged Executive of the Cominern held in Moscow in May, 1927. Ostensibly called to discuss the struggle against war, it "was actually designed to begin the 'liquidation' of Trotsky and Zinoviev, who were still members of the International Executive," says Silone. Palmiro Togliatti took Silone to a meeting of the heads of the most important delegations which preceded the formal session of the Executive and was in effect a Stalinist caucus meeting.

When the two Italians arrived at the meeting (which was attended by Stalin, Rykov, Bukharin and the German Ernst Thaelmann began to read a resolution, prosession, violently condemning a document Trotsky had written to the Russian CP leadership. Mad King Canute who tried to roll back the ocean with a wave of his hand had nothing on the Truman administration which now proposes to curb the capitalist monopolies by mere appeal to their good will. Secretary of Commerce Charles Sawyer announced on Dec. 4 that at Truman's request, plans have been made to establish an interagency committee to prepare a program of "education" for the monopolists.

U. S. Steel, Aluminum Corporation of America, General Motors and the other of the 250 largest corporations that control two-thirds of the country's manufacturing assets will be persuaded to "voluntarily" cease and desist from their superprofitable monopoly practices. "Educating" these wolves to grind down their own fangs is put forth by Sawyer as a "positive approach" to the question of monopoly, the all-dominating factor in American economic, social and political life.

This "positive approach" is offered in contrast to that being stressed by Representative Emanuel Celler of New York as chairman of the House Judiciary subcommittee which is making another study of monopoly power. Mr. Celler appears to be taking his task more seriously than the Truman administration intended and has actually been talking about more effective laws and enforcement. Evidently, Truman and his advisers feel that you can carry this "trust-busting" business too far. So they've come through with this counter-idea for spreading sweetness and light in the dark jungle of monopoly.

For 60 years anti-trust laws have been on the statute books. Federal agencies have been set up to investigate violations and empowered to get court orders to halt them. Every president since Grover Cleveland has inveighed against the

But they have upheld the system of capitalism in which private monopoly thrives. They have not dared or wanted to take measures that could really end monopoly power. For that means taking the ownership away from private capitalists, nationalizing monopoly industries and operating them under the cooperative, democratic control of the workers.

## Renazification of Germany were solid behind the leaders who had showed them how to make Proceeds at a Rapid Pace

By Charles Hanley

The renazification of Germany has progressed so moved in. It charged Vince, Miles swiftly that some of the American officials in Germany and Grant Dunne and 26 other and some of the foreign correspondents are becoming

> ited to Bavaria, as Middleton anti-Soviet stronghold.

Middleton cites figures compiled by U. S. military governriddled with Nazis. They comprise their native oppressors. 60% of the personnel in the Ministry of Finance; 77% in Food, Agriculture and Forestry; and 81% in the Ministry of Justice. For all Bavarian departments. more than two-fifths of all offi-

cials are "former" Nazis. In schools where a new generation is being indoctrinated, the situation is even worse. Of the 12.000 teachers dismissed in 1945 for their affiliation with the Nazis, 11,000 are back in their posts.

Former prominent Nazi journalists, propagandists and officials are as busy as ever, especially in Bavaria. Middleton mentions such notables as Dr. Kurtz, erstwhile staff member of Goebbels' Ministry of Propaganda; Felix Rufenbach, who served on Goebbels' propaganda machine in Poland during the German occupation, editing two Nazi newspapers in Cracow and Warsaw; Rudolph Richter, Nazi press chief for Gau Mainfranken under Hit-

## What James Kutcher Has Achieved

When the Truman administration fired James Kutcher from his clerk's job in the Newark VA over a year ago, he volunteered for a different job. He shouldered the tough task of challenging the persecution of government workers for their political beliefs and leading the fight against the entire system of thought-control.

Since then the case of the legless veteran has become nationally known as the most flagrant example of the injustice inflicted by the "loyalty" purge. It has provided a rallying center for one of the broadest united front defense movements in recent years.

This is due in great measure to Kutcher's energetic activity as well as to his honest, bold and principled stand against all forms of thought-control and in defense of all its victims. For the past six months he has been traveling from coast to coast, speaking to hundreds of labor, liberal, civic, religious and minority groups and enlightening them on the vital issues involved in the "loyalty" purge. It is estimated that he has enrolled the support of almost a thousand different organizations, representing well over five million members. His tour will reach a fitting climax on Thursday, Dec. 15, the

158th anniversary of the Bill of Rights, when his supporters in New York City headed by a distinguished list of civil liberties leaders will meet to pay him

Kutcher has not yet been restored to his former job. However, the protest movement built around his discharge has left a powerful mark on public opinion which in turn has influenced recent judicial decisions upsetting thought-control laws in several states. The issues in the Feinberg Law, now declared unconstitutional, are substantially the same as those in Kutcher's case; the opinions expressed by New York Supreme Court Justice Schirick repeat and confirm many contentions of the opponents of the witch-

The federal judges who will hear Kutcher's appeal in Washington are not elected but appointed by the President. We cannot say whether they will follow Schirick's precedent. But at least one thing is sure. The greater the forces mobilized behind the veteran's case, the more likely are the courts to heed the mass sentiment against the "loyalty"

## Eisenhower on Social Security and outspoken champions that the utter-

General Dwight D. Eisenhower's speech on Nov. 30 was widely quoted, as he intended it to be. For it was a calculated speech, an obvious trial balloon for his bid for the presidency in 1952. In a "statement of principles" that will warm the cockles of the National Association of Manufacturers, Eisenhower centered his attack on "an illusory thing called security" now being sought by "too many."

His keynote was a clarion call for "personal independence" and a return to "simple principles" of the past when men had not yet lost their "respect for mere thrift and independence." In an obvious reference to current struggles for pensions and other welfare benefits, he warned against the idea that "security, in the sense that we may live in slothful indolence and ease, can ever be achieved." In a word, the program of "rugged individualism" all over again.

The student paper of the university over which the General now presides, the Columbia Daily Spectator, made the following apt comment: "The American people want continued security against the type of economic liberty which frustrated so long minimum wage and hour legislation, the formation of labor unions, collective bargaining and which still denies the Federal Government the means for

### regulating child labor." must begin by denying the most modest It is on the lips of its most "rugged" aspirations for any security whatever. Bolstering the "Loyalty" Purge

Prodded by mounting criticism, the Department of Defense has taken a step to quiet the increasing protests against the procedure of firing workers in industry, without charges, a fair hearing or appeal, as "poor security risks."

An Industrial Employment Review Board of four members has been created to act as a "court of appeals" for persons arbitrarily victimized under present procedures of the Joint Personnel Security Board, which is in charge of ferreting out "disloyal" and "unreliable" workers engaged in private industry on government contracts.

Just what kind of "justice" a fired worker will be able to get from this new "court of appeals" is indicated by the very composition of the Review Board. Its chairman will be an industrial consultant, John T. Mason, appointed by the Munitions Board of the Defense Department. Its other three members are to be hand-picked by the Secretaries of the Army, Navy and Air Force.

The department which lays down and enforces the "loyalty" procedure also designates the appeals body and determines the powers it will have to hear complaints against this same procedure. The Defense Department will continue to be prosecutor, judge and jury.

At the same time as this phony "appeals" board was set up, the Defense Department announced the grounds on which it would act to remove workers "subversive" groups. The organizations on this list, of course, have never had the opportunity of a fair hearing or even a specification of the charges against them. The Review Board will have no power to review the "subversive" listings them-

Besides this, the Board will have power to deny employment to any person who is "mentally or emotionally unstable" or who, in its opinion, "does not possess the integrity, discretion and responsibility essential to the security of classified military information." That's broad enough to include strikers, militant union leaders or anybody else a corporation, in cahoots with military officials, wants to

Thus, this new "appeals board" will merely give a "legal" cover to the "loyalty" procedure which has already claimed a number of active and militant unionists as victims.

## THE 26-MONTH RECORD OF THE COMINFORM

By John G. Wright

The Communist Information Bureau (Cominform) has been in xistence now for some 26 months. What has it done in all this time? What has been the central object of its activity?

The Cominform came into being in September 1947 when 18 delegates from nine countries - the USSR, France, Italy, Czechoslovakia, Poland, Yugoslavia, Bulgaria, Rumania and Hungary met secretly "somewhere in Poland" and issued a manifesto. The formal explanation for the setting up of this "international" body is was that it would organize "an exchange of experience between parties and. . . coordination of their activity."

The political platform was summed up in the name chosen for its official organ: For A Lasting Peace, For a People's Democracy. To all outward appearances the Cominform came on the scene as Moscow's countermove in the "cold war" against Washington and ts Marshall Plan, its projected organization of the Western bloc, which was later to take shape under the Atlantic Pact, and so on.

The 1947 manifesto of the Cominform bristled with calls for a 'struggle" for peace, with denunciations of Anglo-American imperialism and attacks on "right-wing Socialists" as "faithful toadies" of the imperialists." To the imperialist war drive, the Cominform counterposed a nebulous program of "national independence and sovereignty, independence and self-determination.'

At the beginning the American bourgeoisie pretended to take all this seriously. Prominent dailies saw in the Cominform the reestablishment of the Communist International" and labeled its manifesto as a "declaration of political war." But the Cominform quickly showed that world capitalism, in the first instance the American monopolists, had little to fear from its activities. Apart from issuing calls for "peace congresses" to be organized in various countries and on a "world scale," and regularly publishing its central organ, the Cominform did nothing else of any consequence for the next nine months.

### Its Major Public Action

Then in July 1948 the Cominform took its first major public action. Meeting secretly "somewhere in Rumania," 16 delegates from eight countries announced the formal expulsion of the Political Bureau and the Central Committee of the Yugoslav Party from "the family of brotherly Communist parties." The avowed aim of the Cominform was to "peacefully" purge the Yugoslav CP of the Tito leadership.

As it turned out, they had been forestalled. A month before this cond Cominform meeting and decision the Titoists had completed their own "preventive purge" with the dismissal, demotion and jailing of 15 prominent government and army officials, among them Finance Minister Zujovich and Hebrang, Chairman of the Yugoslav State Planning Commission. The Cominform campaign against the Yugoslav CP proved a

complete dud. The regime remained more strongly intrenched in the country than was the case before the attack, and gained sympathies in other Stalinist parties. For the next 17 months the Cominform paper continued to print

summons for "intensifying" the struggle for peace plus denunciations of Anglo-American imperialism and the "right wing Socialists." But the main attack all the while remained centered on Yugoslavia. The Kremlin clamped an economic blockade on Yugoslavia. Early

this year came the liquidation of Gen. Markos, leader of the Greek guerrillas, and then of the guerrilla movement itself. The Cominform organ covered all this up, not forgetting to accuse the Yugoslavs of having "betrayed the Greek struggle," and having become "hirelings of imperialism."

In August of this year Moscow denounced its treaty of friendship and mutual aid with Yugoslavia, and identical actions followed Hungary, Poland, Bulgaria, Rumania and Czechoslovakia.

In September, the first of the "treason trials" - in which the Yugoslav leaders figured as the main, though absent, defendants was staged in Budapest. It was the Cominform organ that provided and say that it is a measure of and fascism and not towards the Trotskyism, in the only organ- the main, and most vicious, coverage of this trial for the Stalinist press throughout the world.

Finally, toward the end of November, the Cominform met for the third time "somewhere in Rumania." It met solely in order to issue a formal declaration of war against the Yugoslav dissidents. And again we find the original "anti-imperialist," "peace" program of the Cominform, this time appended to the call for the overthrow of the Tito regime.

## Why Was It Organized?

The entire history of the Cominform naturally poses the question: Was it organized in the first place in order to serve as a weapon in Stalin's struggle against the Yugoslavs? Prominent Yugoslav leaders have hinted publicly that this was precisely the case. But none of them has criticized in public the gist of the original program which is now serving as a cover for the attacks against

To all intents and purposes Tito and his colleagues remain committed to the "principles" enunciated in the original Cominform manifesto. Almost simultaneously with its issuance. Tito, in September 1947, called for the establishment of "People's Fronts on a world scale to struggle for peace," and publicly attacked those who thought that People's Fronts had become "outdated."

Like their self-proclaimed mortal enemies in the Cominform, the Yugoslav leaders also continue to paint up the United Nations as one of the instruments for assuring peace. Neither peace nor the integrity and independence of Yugoslavia and other small nations can be safeguarded in this way. The "peace" program of the Cominform was a fraud and a de

ception to begin with. By not exposing it for what it really is, Titoand his colleagues are playing into the hands of the Cominform. It is poles apart from a genuine struggle against the imperialist warmongers which is inseparable from the struggle against capital-

His fellow-politicians of Big Business in the House of Representatives will no doubt be equally charitable. As one reporter pointed out last week, "If the House follows recent precedents," Thomas "is likely to continue as a Congressman until his term runs out, Jan. 3, 1951, and to receive his pay checks even if in jail, unless he voluntarily resigns." Whether he resigns or not, whether he goes to jail or not, he will be eligible to receive a \$290 a month government pension when he reaches the age of 62.

There's a double lesson in Americanism, Congressional style, in the case of the taking Thomas. He is the man who headed the House Committee on Un-American Affairs, hounding and persecuting every radical and liberal he could smear in a drive to keep the country safe for plutocracy. "I am very proud of the Committee and the job we are doing to educate the American people on the nature of communism," he boasted.

In a typical free-enterprise, grab-all-you-can manner, he padded the Committee payroll with names of people whose only job was to hand over their salaries to Thomas. When he was caught, he pierced the heavens with his cries about "Communist plots to discredit his work," and shrieked that it was "Un-American" to pry into his graft. Publicly or privately, most of his fellow Congressmen agreed.

The government waited over a year for the stench to waft away, before it opened the trial. The prosecutor treated him gently, and of course never mentioned his far greater crime - the one shared by all of them in Washington - from

Truman down. That is his theft of the civil liberties of hundreds of men and women "investigated" by the Thomas Committee, and robbed of their reputations and livelihoods in flagrant disregard of their elementary civil liberies guaranteed by the Bill of Rights. The latter crime is the purest "Americanism" of Democrats and Republicans alike, endorsed by every "subversive"

### Macdonald in Toryland

By Paul Shapiro

Dwight Macdonald, the would-be revolutionist who used to conduct his soul-searching in public, presenting a new political philosophy with each issue of his magazine Politics, recently informed his subscribers that he was ceasing its publication. One reason, he explained, was that his "values and interests are changing even more rapidly than usual." He did not bother to say what was the nature of this change which was proceeding at a velocity hitherto unknown even to him. However, Macdonald is not one to keep

In the course of a book review in the Nov. 14 New Republic he disemburdens himself, announcing his newly found admiration for Hoover and Taft, whom he acclaims as "cautious, moderate, realistic," the stabilizing forces in a society moving toward destruction. Those who have not read the review may suspect at this point that I have misread it and that Macdonald is being ironical. Macdonald is, however, often most funny when he means to be most serious, and this review is one such occasion.

The book reviewed by Macdonald is Conservatism Revisited by Peter Viereck, a professor of history and a poet, who finds a hero in Prince Metternich, the founder of the Holy Alliance, which sought to repress revolution everywhere in Europe after the fall of Napoleon. Viereck extols Metternich as a guardian of order in the unstable world of his time who may well serve as a model for statesmen today. Macdonald joins in Viereck's praises of Metternich, finding in him "a principled believer in Law and Order, who Recht' ('Strength through Law') and whose instrument of policy was diplomacy rather than force." Macdonald does not bother asking such elementary questions as who formulated the law, who imposed the order and who benefited from this law and order that Metternich was such a principled believer in. He does not stop to consider whether Metternich's liking for the conference-table was not related to Austria's position as a second-rate power in Central Europe which had to maneuver first between France and Russia and then between Prussia and Russia, and it does not seem at all incongruous to him that Metternich, that lover of peace and moderation, instigated the most savagely repressive measures against revolutionary movements.

Macdonald does have an adverse criticism to make of the book. It is that Viereck has not carried his ideas out to their logical conclusion - unlike Macdonald, whom, once he gets going, there's no stopping - and that Viereck is not sufficiently conservative! "In his main contention - his preference for Metternichian conservatism to the revolutionary messianism of our age - Viereck is both correct and acute. . . The defect of Viereck's book, curiously enough, is that threatened to engulf the Curran it is not deeply conservative enough. WESTBROOK PEGLER is dubious about the effects of asking the people to conserve water in the areas where it is running short because "for every pint saved by a good citizen, a Communist will waste a dozen bathtubfuls and there are hordes of Communists."

CATHOLIC WAR VETERANS, Essex County (N. J.) Chapter, held a convention last week and adopted a resolution "against the United States offering any further aid to Yugoslavia until it is established that it has severed all connections with Russia."

ANOTHER UNION LEADER said goodbye to the Stalinists as Morris Pizer, president of the CIO United Furniture Workers, expressed support of CIO policies and called on the members to remain in the CIO. The Stalinists put Pizer in the office of president a few years ago to replace Morris Muster, who quit after charging the executive board was Stalinist-dominated.

THE STATE DEPARTMENT, denying charges that the U. S. Minister to Bulgaria plotted with Kostov to overthrow the government in that country, denounces "the now familiar tune of 'confession' which appears to have been made by Kostov" and "the pattern of the Rajk trial in Hungary and similar travesties of the judicial process held elsewhere in Communist countries." It neglects to mention that during the war the State Department helped to glorify the Stalinist "travesties of the judicial process" by promoting the film, Mission to Moscow.

TOTAL CONSUMER INCOME is 3% lower today than a year ago, when it was at an all-time high, according to the Federal Reserve Board.

JIM CROW IN COLLEGE FRATERNITIES was struck a blow when the National Interfraternity Conference voted 36 to 3, with 19 abstaining, to recommend that affiliated groups eliminate restrictive membership provisions. However a motion to make such action mandatory was defeated by the conference, representing 58 organizations with about 2,700 chapters.

THE NEW YORK POLITICAL SCENE: Newly re-elected Mayor O'Dwyer is pushing through a 60% wage increase for himself (from \$25,000 to \$40,000 a year) and a 50% increase for City Councilmen. Stalinist Councilman Ben Davis was demonstratively expelled from the Council with only one more month of his term to serve, while the Liberal Party is calling on Tammany and the GOP to pick a tri-partisan candidate to defeat Marcantonio in the 1950 congressional race. And police officials complain they don't have enough patrolmen pounding a beat in residential and park areas because so many (up to 700 daily) are diverted to "preserve order in labor disputes," meaning such things as the National Maritime Union struggle where cops were used on a mass scale to help Curran take the union away from

DR. VANNEVAR BUSH, atomic authority and president of Carnegie Institution, has joined Gen. Eisenhower's attack on pensions and other social security demands. Bush is worried about a trend to federally-supported "soft security" in which "every man's hand is out for pabulum" and the people are bent on "voting themselves into Eden from a supposedly inexhaustible public purse, supporting everyone by soaking a fast disappearing rich, scrambling for subsidy," etc., etc.

The Curran faction realized that prevailed the members in the outports and on the ships would begin to rally behind the rank and file movement. The opposition was cut off from access to the union paper and Curran launched his blitzkrieg to take over the Port.

The campaign against the Port of New York was conducted under an unbridled red-baiting barrage. In this, Curran was aided and abetted by the boss press, radio, Tammany politicians, shipowners and police. Many, many members brought in from the outports really believed they were here to save the union from a "communist putsch." But the truth must and will prevail.

The course that the Curran faction has taken can only lead a greater awareness of the real issues in dispute. With the awakening will come the day of reckoning.
