# Election Plans Mapped by SWP Convention in N.Y.

NEW YORK - The convention of the New York Local of the Socialist Workers Party, held here on Feb. 3, voted to throw all the energies of the organization into the SWP's presidential election campaign this year and to hominate, in cooperation with other locals in the state, a candidate for the U.S. Senate from New York state.

In reviewing the activity of the city local during the past year, City Organizer Michael Bartell, who was the party's candidate for President of City Council last fall, indicated the favorable conditions that made possible an especially fruitful electoral activity in the coming elections:

activity of the past year - the youth to our party - all these of the local's work. indicate that the workers are discontented with their present CONVENTION HIGHLIGHTS conditions and are ready to listen to socialist ideas.

REPORT BY CANNON A stirring report for the SWP

national and international tasks of the revolutionary socialist movement in this period of world capitalist war preparations led by U.S. imperialism. The text of in the Militant of Feb. 11.

The convention was attended by 32 delegates and 10 alternate delegates. # "A War Without Reason"

Mrs. Dorris Davis, widow of the jet-fighter ace Maj. George A. Davis Jr. who was shot down in Korea on Feb. 10, wanted a live husband, not a dead hero. She has spoken the sentiments of millions of wives and mothers in this country when she bitterly attacked the war that has made her a widow. And she spoke, she said, not for herself alone, but for her husband, too, who didn't want to be a hero in a war in which he had no faith.

He never volunteered for Korean duty in the first place, said Mrs. Davis, and he lost his life in "a war without reason." She accused the Air Force high command of State" program was for domestic lying when it issued a propaganda statement to the effect that Major Davis didn't want to come home before last Christmas when he was entitled to.

Mrs. Davis' words are dynamite and the Washington politicians and militarists know it. They and the capitalist press are trying to put into her words all kinds of meanings but the clear and simple meaning she intended. She has said that her husband died in a war "without reason" that is, a war that has no good purpose that she can WINDY REPORT understand. That is why she is so bitter.

Some of the capitalist papers admit that Mrs. Davis is actually expressing a widespread and growing sentiment of hostility to the war. These papers, however, point to Mrs. Davis as evidence that the American people still don't "understand" what the Korean war is all about. It has not been "explained enough," they claim.

But Truman himself has made eleven official statements and speeches on the Korean war aims and scores of unofficial ones, broadcast over every radio station and headlined in every newspaper. Millions of words pour out in print and over the air every hour of the day and night "explaining" why the people should sacrifice and die in the Korean war. If the people don't "understand" what this war's about by now, it's not because there haven't been sufficient "explanations," but because these "explanations" are so patently false.

What disturbs the war leaders is that the people understand this war too well. Like Mrs. Davis, they have heard again and again and again that the U.S. is fighting in Korea against "aggression." But they still say this is a "war without reason." And by that they mean a war in which they do not believe, a war without any just cause worth fighting and dying for.

The people are suspicious of the purposes of the war. They are not convinced of the argument that this is a war against "aggression." They feel something is being kept from them - some less worthy aim about which they are not being told. And their suspicions are well-founded. The war propagandists dare not tell the real aim of the war that it is part of the drive of U.S. capitalism to dominate the world and destroy the anti-imperialist revolutions in mental predictions of Marx in and in the U.S. in 1929. Par- Engels in some of their writings.

If people like Mrs. Davis do not understand precisely these aims, they nevertheless sense there is something shameful about the war. That is why the sentiment is growing to end the war by withdrawing the U.S. troops the deepening of capitalist crises, the effects of the world capital- predicted by Marx only in general from Korea.

They would guilty in spite of conflicting and cite the statements of Tories who in 1775 deobviously phony testimony by the clared that "to hint that the Congress had any two plainclothes police. Such in- thoughts of independency would endanger a man's cidents are teaching the people life." They could even show that Sam Adams of Los Angeles that the only himself, although he certainly favored a full respect the police here deserve is revolution against British rule, dared not speak that of the capitalists who profit openly of it as late as the beginning of 1,776. from the super-exploitation of Finally, the historians could cite the fact that Sam Adams and the radicals in Congress failed

to defeat a resolution calling upon Congress to publicly deny rumors that it had any intention of declaring independence. This was nine months after the war began.

The historians could even go on to make the further startling claim that, of the thousands in the great popular army that besieged Boston in 1775, only a minority favored independence. This was probably true. Had the issue been put to a vote in the encampments around Boston, independence very likely would have been defeated.

### A Peculiarity of Revolutions

Thus we have arrived at a peculiar contradiction. We have found that men who would fight and risk their lives for the Revolution would not necessarily have voted for it! This peculiarity lies at the center of every unfolding revolution.

This contradiction between the actions and the consciousness of the great mass of the people stems from the fact that the dead hand of the past lies heavily on the brow of the living. The oppressed peoples who enter into a revolution do so because they are goaded into it by conditions which they feel they can tolerate no longer. But the old myths, traditions and political forms still hold them prisoners. They succeed in shaking these off only as the social upheaval runs its course. It is precisely this process of re-education of society, of reconstruction of all social forms, that constitutes the heart of the revolu-

Thus, in the early days of any revolution, we see this great disparity between the historic tasks and program of the revolution, and the relatively small number of people who understand these tasks and support this program. For example, the great French Revolution of 1789 had the job of destroying the ancient and reactionary French monarchy. Yet only a small percentage of those who entered the revolution did so with the conscious purpose and intention of toppling the King from his throne. The centuriesold traditions of monarchy made it unthinkable

to most people that there could ever be any such thing as a government without a king. Despite this, all the actions of the revolutionary people tended towards the destruction of the monarchy, whether they realized it or not. Later, as the revolution took its course and thinking was rapidly altered by the lessons of the struggle, republicans by the million were created in France.

Similarly in Russia in 1917, when the masses overthrew the old regime and replaced it with the communist government of Lenin and Trotsky. Many millions of peasants had come to support the Bolshevik program because they saw in it the only hope of "peace, bread and land." They defended the Bolsheviks, fought for the Bolsheviks, and supported the Bolshevik slogans, but when elections took place, large numbers of them continued to vote for the traditional peasant

These considerations put us in a better position to judge the sentiments of the mass of the people of this country during the American Revolution. In 1775, the consciousness of the mass lagged far behind its deeds. No one spoke of independence. Yet, beneath the surface, this was the real aim of the revolution. It was the end towards which the colonial masses were unconsciously directing their efforts.

As the process unfolded, that which had been a powerful under-the-surface current became a conscious movement. Sam Adams' program became the program of the mass. He was able to proceed beyond limited or "transitional" demands and to unfurl his banner.

### Tom Paine and "Common Sense"

The turning point in this process was marked by the publication of Common Sense by Thomas Paine on Jan. 10, 1776. The amazing success of this forceful tract can be explained only by the fact that Paine expressed that which hundreds of thousands had felt but had never dared to formulate consciously. So well did he give conscious expression to the feelings of the people that his pamphlet was probably read by a larger percentage of the American population than any product of the pen before or since.

After Common Sense, the people moved rapidly towards the full radical program. An historian writes: "In the final analysis, the question of independence was decided, not in the Continental Congress but in the states where the issue was threshed out in popular assemblies and meetings. Both conservatives and radicals in Congress ap-

pealed to the people outside to voice their wishes; and the people's answer had much to do with the final decision. . . . Congress, indeed, was in danger of finding itself left in the wake of public opinion in some states.'

### "The People Are Ahead of You!"

Sam Adams, at Congress in Philadelphia, heard from his old friend and supporter in Massachusetts, Joseph Hawley, in April of 1776: "The People are now ahead of you, and the only way to prevent discord and dissension is to strike while the iron is hot. The People's blood is too Hot to admit of delays - All will be in confusion if independence is not declared immediately." Hawley went on to warn that, if Congress did not act, "a Great Mobb" of citizens and soldiers would descend upon Philadelphia to purge Congress and set up a "dictator."

Sam Adams, perhaps a little astonished to find the people so suddenly "ahead" of him, was soon in action spurring the radical faction in Congress, denouncing opponents of independence as "puling pusillanimous cowards." and setting in motion the trend in Congress that resulted in the passage of a resolution for independence on July

This sketch of the course of events shows how foolish it is to try to analyze mass sentiment in a revolutionary period in purely static quantitative terms. Mass sentiment is not a quantity, but a process, and a contradictory process at that. This is the lesson of the peculiar situation of Sam Adams, who was for years unable to put forward his full program because of the immaturity of popular feeling, suddenly finding: "The People are now ahead of you."

With this understanding, we can realize that all genuine popular revolutions are the most democratic events in history; the times when the people give vent to the accumulated feelings of centuries. Only fools will demand that the whole populace attain complete maturity and comprehension at the very opening of the revolt. For this, a process of education and experience is required.

The "energetic minority" of which Lecky and others speak so disparagingly are those who attain an understanding of the necessary program of the revolution sooner than the mass. This was the radical wing led by Sam Adams. It should be honored for its far-sightedness and courage.

(Next Week: Civil War)

of working people. We invite our readers to take part in this discussion since The Militant is one of the few places where they can call a spade a spade.

To open the subject, we'd like to quote in full an editorial which appeared in the Cleveland Call and Post on Feb. 2:

"A couple of decades ago, more or less, the founders of what later became the Congress of Industrial Organizations declared themselves openly and loudly as opposed to any discrimination in Labor based on race.

"Last Tuesday morning William Donovan, kingfish of the Cleveland area steel workers, smirkingly told a dozen Negro foundry and mill employees that 'I am going to take my double-barrelled shotgun and clean out these committees who fight against discrimination.'

"Between these two extremes lies a long, long chain of events. It is a chain which tells, patiently and item by item, like the beads of a rosary, the saga of vast sections of the CIO, which have changed from the leadership of militant champions of equal rights for all people who work to being led by sleek, Cadillac-mounted, drunk-threequarters-of-the-time Labor Barons who must have exploitation as their stock in trade if they are to maintain their ill-begotten regimes.

"It tells more; it tells as clearly as the nose on the forward part of your face how the Congress of Industrial Organizations first began with a program of full equality to offer to the Negro. Then it passed through a period in which it hattled to maintain this high objective. Then came the spell during which it made compromises with Labor's enemies and 'soft-pedalled' the Negro issue, and finally arrived at the stage where the Donovans took over.

"In this new stage - which could well be the CIO's FINAL stage unless it gets reasonably

The Italian movie, Miracle in Milan, is a sym-

pathetic and altogether delightful film on the

plight of the very poor, the people for whom

there is just no room in the world. It is also a

portrayal of a type of human being who intrigues

us all - the character who makes the best of

the most adverse conditions, and seems able to

transform his surroundings by sheer force of

good will. The unfolding of the destinies of the

hero, Toto, and the band of vagrants whom he

takes under his wing is hilariously funny. At

the same time, the American moviegoer realizes

with a delightful shock that here again is a for-

eign film which doesn't depend on taking the

audience out of the real world. The art lies in

showing him the old, familiar world from the

point of view of a particular segment of human-

ity - in this case, the forgotten, resigned poor.

start of the movie, when he is found by a daffy

old lady in her cabbage field. After a few years

of a sort of fairy-tale life with her, she dies,

and the manly little boy of eight or nine, follows

as the lone mourner behind her horse-drawn

hearse. With great economy of reelage, by hav-

character, the film shows Toto emerging as a

young man from an orphan asylum. He is simply

bursting with good will, and when he is invited

to spend the night in a tramp's packing box,

he is genuinely grateful to his host. Here, Toto's

angle on life is enlarged to include his fellow-

tramps, who, while not at all happy with their

dismal dump-camp, are nevertheless resigned.

This, the movie depicts in one particularly ef-

fective scene: They all emerge from their shacks

jumping up and down in the cold. They shake

even the most minor gestures strictly in

The hero's character emerges from the very

wise to itself - the movement is characterized by a loud name-calling every time someone mentions the organization's neglect of its huge Negro membership. Anyone who notices this alarming tendency, and a blind man couldn't miss seeing it - is automatically 'red' in the CIO books.

"The new trend reaches its highest point in Local 1157 of the United Steelworkers in Cleveland. For years the Urban League, the NAACP and the Call and Post have received complaints that the Negro membership of the huge Republic Steel local, sometimes 70 percent of the total membership, has been denied any effective voice in union affairs. They get none of the top jobs; when one man finally did get into a responsible position, others of the entrenched bureaucracy soon jockeyed him out of it by the simple mechanism of a forged check and a stool-pigeon frameup. Unfortunately for the local's heads, but possibly quite fortunately for Labor as a whole, the deal backfired and the frameup brought the union heads to court to defend themselves in some \$200,000 worth of lawsuits.

"It was this situation which touched off the Talmadge-style outburst of Donovan Tuesday morning. To make a thinly veiled incitement to violence among a group of men who handled boiling steel and hunks of metal weighing thousands of pounds is pretty close to a criminal action. Donovan's statement should point out sharply to the CIO's top leadership: can it afford the stigma and the setback that the policies of Donovan 'and Local 1157 are giving it? Can it afford to continue to lose plant elections to its union competitors because other workers refuse flatly to come under the influence of men and locals like Cleveland's? Or would it rather have a thorough house-cleaning in District 28 - Donovan's and 1157's district - NOW, before organized labor as a whole has to pay a terrific price for the hatred and greed of a handful of slimy chis-

That's the problem as the Cleveland Call and Post, an outstanding Negro weekly, sees it.

What is the answer? What can Negro and white workers in the unions do about it? Is anything being done to improve the situation of the Negro worker in the labor movement? We'll continue this discussion next week.

hands, still jigging. Suddenly, they all run like

mad across the lot to a spot where the sun's

beams are streaking down between the clouds.

Here, they all jump in a bunch together, congra-

tulating themselves on their luck. Toto bounces

with the rest, pleased as can be with these good

people. When a storm comes and tears their

hovels to pieces, he organizes them to build

Soon, there is trouble in the happy community:

The lot is sold to a banker dressed in an exag-

gerated fur-collared banker's coat, who arrives

with his retinue. Toto is delighted when the

banken, with Chaplinesque double talk, points

out his common humanity. "We all have

five fingers, have we not?" No sooner has the

film poked fun at the banker than it in-

troduces the sinister threat which he represents.

The tramps, led by Toto, go to his cathedral-like

office, to ask him to call off the police who have

come to evict them. They are served tea, the

banker is genial and asinine - but while they

are talking to him, he has given word for the

to keep them from fighting back. In the end

when his fostermother appears from heaven, and

helps him to fly the whole colony up to paradise,

the movie becomes an outright comedy, without

To this reviewer the controversy as to what

is meant by the ending is unimportant. Here is

a social message, gently, almost lazily included,

yet so powerful that it stands out like a sky-

scraper on a barren lot: As long as there are

capitalists, there is no room on earth for the

whole shanty-town to be cleared away.
