Yale students rate Farrell Dobbs high on their list of presidential candidates. A meeting of the Yale Political Union, largest undergraduate organization on the campus, picked Dobbs, presidential candidate of the Socialist Workers Party, as one of the nominees to be placed before the student body in a coming straw ballot.

Candidates who will be entered in the poll required a nomination and ten seconds, and only two Republicans and two Democrats, out of the many aspirants for nomination in those parties, made the grade besides Dobbs. The order of nomination was Eisenhower, Douglas, Taft, Stevenson and

RECOGNIZE BOLIVIAN **GOVERNMENT NOW!**

A few months ago General Batista overthrew the legallyelected government of Cuba in order to prevent an election which everyone acknowledges he had no chance of winning. The U.S. government promptly recognized dictator Batista's regime.

One year ago, Victor Paz Estenssoro, presidential candidate of the National Revolutionary Movement (MNR), received a clear plurality of the votes cast in a Bolivian election. Before the parliament could vote on whether or not to seat the MNR candidate, a clique of generals seized power, dispersed the parliament and put their own stooge in the president's seat. The SWP's bill of complaint listed six separate violations by the Trucks Act of both the U.S. Constitution and the Michigan state constitution. It also denied that the Trucks Act applied to the SWP, and charged that the party's exclusion from the ballot was illegal.

Commenting on this fact, Farrell Dobbs noted that Michigan is now the only state in the country where he can not campaign for the Presidency without hindrance and threat of imprisonment.

The UN report points out that he "under-developed" (colonial) countries saw "little or no industrial progress" in the entire post-war period. This gives the lie to all the claims and promises of the imperialist spokesmen.

STARTLING FACT

One startling fact given in the report is that "for the world as a whole, consumption of food per capita is less now than it was 15 years ago. Moreover, inequalities in food consumption are now greater than before the war."

Food consumption per person in the world is thus lower today than it was during a pre-war depression year. Not only that, but it is more unequally distributed than it was at that time!

"Left Winger"

Our distinguished contemporary, the New York Herald Tribune, takes an extreme view on what's wrong with and driving force of world defeat in the winter of 1950. America, as one might expect from a newspaper crusading counter-revolution. for capitalism, Republicanism and Ike. "LEFTIST 'PACK-ING' OF BOARDS BLAMED FOR U.S. INTERNAL STRIFE." That's the instructive headline on a May 8 all spheres: appropriations for World War. All previous concepcolumn signed by David Lawrence.

It appears that on government boards dealing with substantially increased, an ever be ignored or by-passed in favor labor cases, Roosevelt and Truman appointed "persons who larger sector of national production is being committed to the were exploded by China's entry are supposed to represent the 'public' as impartial mem- war economy, strategic raw into the war on the side of the bers, but who actually are avowed partisans in behalf of materials are being cornered and North Koreans. Under the influence of this dangerous ideology, these "Left Wingers," as Lawrence calls them, in disputes between companies and unions, "decide issues on the labor-

And so, if you didn't know it before, "there's the explanation for much of the internal trouble in America today."

Lawrence does not ask us to take his word for it. Objective analyst that he is, he offers proof; namely, "the latest episode," the way the "public" members on the Wage Stabilization Board "sided" with the Steelworkers union in its dispute with the steel trust.

What are the facts? The WSB took the original modest demands of the steel workers and chopped them to shreds. The "public" members voted for these shreds. The Herald Tribune, as a leading Wall Street mouthpiece, should in all fairness, it seems to us, commend the Board for its hatchet work on the union's grievances.

But this Big Business newspaper is not much concerned about either facts or fairness when its nerve center of profits is touched. In face of the fact that steel company profits are at present double the fabulous 1946-1949 level, David Lawrence still felt forced to say, "the 'Left Winger' doesn't worry if the large companies fail to make an adequate profit.'

These pearls of capitalist ideology are, however, in- slide, and unemployment climbed cident to the Herald Tribune's main contribution, which lies in the field of semantics. "Left Wingers," we now understand, includes America's 16,000,000 trade union in the portion of national produc- United States capitalism. members and all those associated with them even though it be so remote an association as the failure of a "public" member of a government board to vote 100% the way Big Business lays it on the line.

That's progress. In a month or two, if the witch hunt continues to prosper, the crusading Herald Tribune will, no doubt, take us a step further, demonstrating with David Lawrence's invincible logic that "Left Winger" is but one of the numerous synonyms for "subversive."

This would not surprise us. Our impression from the very beginning of the Smith Act prosecutions was that operating the most productive capitalist class well knows, would while they started shooting at the Socialist Workers Party kind. The war economy is there- having been artificially repressed and Communist Party they were really aiming at the whole labor and liberal movement. In fact, they actually had in sible. It drives production and which only aggravate the crisis mind anyone who looks like a "Left Winger" to the Herald

Which brings us to another thought-provoking contribution of this eminent newspaper -

The Herald Tribune's cloak-and-dagger column, "The Red Underground," revealed last Sunday that the Socialist Workers Party held a "recent secret meeting" at which dark "plans" were laid. These plans included changes in 1951 by organized labor's withthe format, style and name of the Marxist theoretical magazine. Fourth International, a shift in personnel, and tion set-up. Either they had cracy was forced to clash time Underground" startling, even hair-raising?

The "secret" meeting they refer to was that of the National Committee of the Socialist Workers Party reported in our usual "secret" fashion in this issue of The or they had to crawl back into Militant. It is true that the editors of the Herald Tribune were not invited to attend this meeting, but then we don't get invites from them to attend their meetings either

This isn't the first time the pipe lines of the Herald Tribune have enabled them to reveal "secret" meetings of the Socialist Workers Party. A few months ago, George BO Clarke, editor of Fourth International, made a national lecture tour. His appearance in various cities was announced in tens of thousands of leaflets, in press releases and press conferences and in every way possible to get the 14 when President Victor Paz the projected commission would be chosen by the Minister of that the establishment of the Miller is in fact defending the widest public notice and biggest possible crowd. Now, with the attack on Miller's book, the campaign is centering its fire on the ACLU, for a generation the foremost nonpartisan defender of constitutional liberty in America.

What arouses the despicable defenders of the thought-police. is that more and more non-Communist individuals are becoming alarmed at the sweep and scope of the witch-hunt. The purge of Communist, has spread the fear will not stop until every independent voice is stifled.

Wonder About Delay in Recognition LA PAZ, Bolivia, May 5 - . . . Many foreign business men in La Paz were wondering why the United States government was taking so long to recognize this (MNR) government, particularly after the speedy recognition of the Batista government in Cuba where there seemed to be little evidence that he could have secured as much support at the polls as

this government received in the May (1951) elections.

Others vehemently oppose this assessment. The only thing this government has demonstrated so far, they say, "is an apparent rather than an effective control" of the population. They say that as soon as it is recognized, the government will then get on its high horse and indulge in dictatorial actions aimed at a constant decrease in liberties and become as balky a member of the Latin-America union as Argentina. However, like the other group of business men, they see no alternative to the present government.

Now, however, there is grave danger that even that limited avenue for criticizing the actions of the Democrats and Republicans may be denied. Minority parties, and independent candidates affiliated with no party, are being barred from the ballot by one means or another in a number of states. In Illinois the new Law 1030 monopolizes the ballot for the two old parties by making it a crime to solicit signatures on election petitions for state-wide office outside the county in which the person circulating the petition resides.

In Ohio the new election restrictions increased the number of signatures required by 700%. In many cases this makes it necessary for a socialist or an independent to get more signatures for a place on the ballot than a Democrat or Republican would need votes to be elected. This new law has already ended the appearance of judicial impartiality by forcing all the judges in the recent primary election to run as party candidates rather than independents. It also was the decisive factor in blocking a serious movement to nominate an independent Negro

The direction of this drive is clear. It is toward a police state. It aims to prevent thousands of new voters registered by Negro and labor organizations from using their right to vote effectively. It aims to deprive critics of the Democratic-Republican political monopoly of all democratic rights in the North, just as all critics of white supremacist rule are denied their rights in the

The answer is to fight. Negro and white workers, and all who recognize the danger, must unite to demand the repeal of these reactionary election laws. But that is not all. The only way to stop the reactionary drive is to take the offensive. And regardless of what the political bosses or labor fakers may do or say, the ranks can protest and vote socialist when they go to the polls. No one can be forced to vote to cut his own throat.

Unions Hit Thought Control

Three powerful CIO unions meeting in convention last week - United Steelworkers, Amalgamated Clothing Workers and United Packinghouse Workers - went on record for the repeal or revision of the Smith Act, the McCarran Act and other thought-control legislation.

The steel union resolution, after noting the union's continued opposition to "Communists and their activities, declared:

"The danger from domestic Communist activities has been dwarfed in recent months by the subversive activities of reactionary forces who attempt to use the unity of the people against Communism to whip up hysterical fear and suspicion of all liberal forward looking ideas and persons. . .

"Americans must be aroused to the danger of undermining our own democracy by reactionaries engaged in a sneak attack on our civil liberties during the nation's preoccupation with the de-

"The loyalty program, the McCarran Act assed over the President's veto, the Smith Act, and various state laws have all worked toward the weakening of civil liberties.

"We are confident that the American way of life is not endangered by free speech, even when this freedom is exercised by Communists, Fascists or reactionary enemies to our democracy. But we are fearful that legislative denials of civil liberties do endanger our democracy because such restrictions permit the silencing of the advocates of freedom and progress by those who seek to

destroy our constitutional democracy." The resolution asked Congress to "review and revise" such measures as the Smith Act and the McCarran Subversive Activities Control Act "sc that the security of the nation shall be safeguarded against acts of sabotage without sub-

It also recorded the steel union's opposition to "any legislation which tends to limit freedom of thought, press, assembly or association, or to impose conformity. . .

The Amalgamated Clothing Workers convention, meeting in Atlantic City, took a similar stand. It charged that "The Smith Act and the McCarran Act have created, in effect, a legal system superseding the Bill of Rights, the Constitution and our traditional body of law." Calling attention to anti-sabotage and anti-

espionage laws already on the books, it said: 'The Smith Act is, however, thought control It has introduced into our way of life a dangerous

precedent, striking at our fundamental freedoms of press and opinion.

The McCarran Act is a standing threat to the freedom of speech and brings us back 150 years to the disreputable Alien and Sedition laws." The ACW convention also advocated abolition

Un-American Activities Committee. The Packinghouse workers, convened in Denver, denounced the Smith Act for outlawing "America's traditional freedom of thought and expression" and the McCarran Act for providing concentration camps which are "now being built for political prisoners.'

Their convention also condemned the McCarran-Walter immigration bill and the Cox resolution, which opens the way for "witch hunts" LOS ANGELES CENSORS against educational and philanthropic organizations, especially those devoted to improving the status of Negro citizens."

Notes from the News

"WHITE DEMOCRATS of the South" is a new racist organization formed in Florida. It stands for "states' rights and segregation of the white race from the colored race," the election of "white candidates for public office," the spreading of propaganda about "all civil rights cases framed against white citizens and peace officers by Communistic and all the deceptive popular front groups," and, of course, the destruction of "Communism."

DR. LINUS PAULING, head of the chemistry department at the California Institute of Technology, was refused a passport to travel to Britain for a scientific conference. The State Department said his trip "would not be in the best interests of the U.S." Pauling says an official told him the passport was denied "because of suspicion that I was a Communist and because my anti-Communist statements had not been sufficiently strong." Pauling's theory of resonance in chemistry has been denounced by Soviet scientists. The real reason his request was rejected is that Pauling is against war and the witch hunt.

REP. FRED E. BUSBEY (Rep., Ill.) was telling the House of Representatives that he detected "Communist influences" in a Paris art exhibit sponsored by the State Department: "They always paint the unnatural. That is why they never paint a building with perpendicular walls. You always see one corner of a building going off at an angle." Rep. John J. According to indications in the Ohio and New Jersey press, the Truman administration is preparing to extend the witch hunt into a new field. Union officials are being

The Cleveland Plain Dealer of May 16 reports: "Twelve Cleveland labor figures, all signers of non-Communist Taft-Hartley affidavits, have been quizzed here the last three days in a secret grand jury probe. An Associated Press dispatch from Camden on May 21 reports that Anthony Valentino, business agent of the Campbell Soup plant local of the Food, Tobacco and Agricultural Workers' Union, was the subject of another Grand Jury probe dealing with alleged Taft - Hartley Act violations. Valentino has been indicted on the charge of falsely swearing to a Taft-Hartley non-Communist affidavit. Score Law 1030

By Larry McMasters

CHICAGO, May 16 - In a vigorous demonstration against Illinois Law 1030, over 250 trade unionists and students rocked the CIO-PAC Hall last Friday night at the May Frolic of the Citizens Committee Against Law 1030. Co-sponsored by the Roosevelt

College and University of Chicago Committees, the highly successful dance attracted primarily workers from the local supporting the campaign against the repressive law, and students active in the civil liberties fight on the campuses.

A top-notch floor show featured acrobatic dancers, "Sandman and His Mate," whose versatility and rhythm swayed the audience; a pair of ballad singers, Irvin Burgess and Arden Melzer, who brought the folk songs of the people vibrantly close; and Joanne Jordan, singing the "hot" and the "blue" with a contagious vigor that kept the audience clapping and tapping. Vernon Duncan's excellent dancing rounded out the evening, while Bert Deck's suave MC-ing kept the show rolling without a dull moment.

The spirit of the audience was striking proof that the adverse court decision on May 6 by no means spelled the end of the fight against Law 1030. The attendance of workers from CIO textile, auto and electrical locals and the New Hope Lodge of the AFL Carmen, among others, showed that a significant section of the labor movement realizes the dangers implicit in the law.
