I. Beinin Heads **Anti-War Slate of SWP** in Illinois

Irving Beinin, Illinois State Chairman of the Socialist Workers Party, will be a candidate for Congress from the 2nd Congressional District of Illinois, it was announced this week by the Chicago local of the SWP.

In announcing Beinin's candidacy, Frank Roberts, SWP campaign manager stated that Beinin's campaign will be the means by which the workers of Illinois can ally themselves with the national Presidential campaign of Farrell Dobbs and Grace Carlson, anti-war banner-bearers for the SWP."

The petition campaign to put Beinin on the Congressional TEST OF STRENGTH ballot began last week-end with a mobilization that gathered 5,200 signatures in two days. This fine response indicates the campaign will meet with a very good

reception from Chicago workers. Restrictive election laws in Illinois, plus the presence of Law 1030 until last week, made it impossible for the SWP to place its presidential ticket on the state ballot in 1952. Nomination of Irving Beinin by the SWP will give workers all over the city a chance to protest the war drive

of American imperialism. Irving Beinin, a sheet worker by trade and long active strike, as he boasts. Thus, the in the labor movement and in "efforts to bring about . . . an

Eisenhower Unveils Platform Of Political-Military Reaction

The Eisenhower legend, so many years in the making by Big Business, has been considerably tarnished as a result of the Five-Star General's first public speech at nationally, for all labor and Against Law 1030, a committee

Abilene, Kansas, This and the initial press interviews have sufficed to disclose the reactionary political general behind the publicized grin.

Taft's rival has revealed himself to be a rock-ribbed reactionary, a latter-day champion of "rugged individualism," a throwback to the Harding-Coolidge-Hoover school of politics. But with this difference - that Eisenhower combines political reaction with the authoritarian attitude of a militarist.

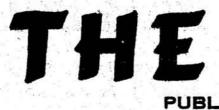

Much as his heart bleeds for the oppressed minorities, he lost no time in solidarizing himself with the Southern Bourbons, Jim Crowers and lynchers. The FEPC and similar federal legislation declared Eisenhower, would constitute "punitive" legislation.

This is in complete harmony with his previously expressed views on social security, which, ing in the international or revolt and the socialist struggle in his eyes, is attainable only by domestic situation especially for emancipation from capitalslaves or jail birds. "If all that qualifies for the most important ism, Wall Street and its Pentagon Americans want is security, they office in the world (i.e., the office butchers will stop at nothing. can go to prison," he said in 1950 of President) a man whose adult before the St. Andrews Society years have been spent in the of New York.

EISENHOWER "PHILOSOPHY"

"I am a fanatical devotee of democracy," Eisenhower has repeatedly avowed. To this "democrat" the supreme "human right" "When that falls all else falls was try with it," he told a group of executives in September 1948. This is the heart of his "philosophy."

Most ironical are Eisenhower's diatribes against the danger of 11% WAGE BOOST bureaucratism, its growth in the U.S., etc. His entire conscious life has been spent as a member of the most hardened bureaucratic approve a nationwide 11% wage formation in American life the military caste, whose ominous should be compensated for progrowth and power he has con- ductivity increases in the past has been "limited." But that is sciously promoted.

THE BATTLE OF KOJE ISLAND

The whole story of Koje Island is not yet known, but from the few scraps of information which have been blown out of the prisoners' compounds, like hot rocks from a heaving volcano, the world is becoming uneasily aware of awful and fateful events transpiring there with the premonition of more to come.

Through a breach in the military censorship the world is catching glimpses of a conflict of gigantic proportions in which ordinary men, as often before in history, play big parts because of the things they represent. In the great crises of history some men always rise above themselves and attain the stature of heroes. That happened in our own history - in 1776 and again in 1861. In the men who made these two revolutions young America saw the magnified

Across Barbed Wire

The same thing appears to be happening now once again in a far-off land, and we are witness to it. The transcendant issues of our century are being dramatized on Koje Island in human terms, as in a heroic epic which has for its theme the death agony of an old social order and the birth pangs of a new one. Colonial oppression and struggle for national independence; western supremacy and Asian self-assertion; war and revolution - these are the colossal issues involved in the confrontation of white and yellow men across a barbed-wire barricade.

Outwardly it would appear that the struggle is unequal, with the outcome foreordained. The American army, which never lost a war, goes into the battle of Koje Island with much better equipment than the "Ragged Continentals" of 1776 who defended their land and their homes with an odd assortment of old muskets and sticks and stones, and a more impetuous policy than the patient General Washington's strategy of attack and retreat to wear out the enemy and keep his own army in being.

For the battle of Koje Island we needed a different kind of General and we found him. To the atta-boy applause of the editorial writers, who unfortunately can't leave their desks to take part, General Boatner has proclaimed a crackdown and he has the stuff to make good with it. Press dispatches bristle with accounts of the formidable array of armament he has brought up for use against the prisoners of war who persist in waving their own banners within the compounds. There are daily reports of prisoners being killed and wounded since Boatner took charge and announced a "get tough" policy.

Prisoners' Side Not Told

Things are moving to some kind of a showdown in this battle of Koje Island; and the American people, with the historic memory of Bunker Hill not yet entirely obliterated, would do well to ask for a little more information about what we are fighting for there. We have heard the explanations of the brass hats. The captured "gooks," it seems, are "surly" and 'fanatical." They "don't know who's boss" and they have to be shown. The compounds have to be split up into smaller units so that the prisoners can be "screened" more effectively. The improvised banners, waved from sticks inside

the compounds, must come down. These are our declared war aims at Koje.

The prisoners' side of the story didn't come through yet, although a UP dispatch of May 21 reports that they made a strenuous effort to tell correspondents what it is. "When the prisoners inside saw newsmen arrive they set up a clamor to be allowed to talk to them," says the report. One shouted in English: "Let us talk to these war correspondents!' Authorities refused." Could this incident, buried in a long dispatch, have been a correspondent's indirect way of telling the world that the whole truth is not coming out because he and his colleagues are not allowed to send it?

As the climax approaches, the papers are full of information about the battle plans of the forces outside the barbed wire. The New York Times, June 9, reports: "General Boatner has shaped up a full-scale offensive with all the troops under his command. . . The plans call for battalions of infantrymen with fixed bayonets to crash through the barbed-wire barricades into the compounds, supported by several Patton tanks and under the protective range of machine

That ought to do it. Military doctrine says that, other things being equal, superior firepower prevails and decides. What chance, then, remains for the Koje prisoners who have no fire-power whatever? They have no chance at all - if other things are equal. But could it be that the prisoners keep their morale unshaken in the face of superior force because they think that the other things are not equal? That they have on their side some intangibles not comprehended by the military mind - some secret weapon more powerful than a bomb, some moral force generated by the things their banners represent and symbolize to them?

Revolution Lifted Them to Their Feet

If that is the case, history tells us that such men will not be easy to conquer. History also tells us that men so inspired can lose a battle and still win the war. The most dangerous animal on earth is the man who has nothing to lose and is convinced that he has everything to gain. That's the trouble with the ill-starred American adventure in Korea - it is up against men like that, who are convinced that their historic hour has come; that they have great allies; that hundreds of millions of their kindred are behind them because they are in the same fix.

Such a conviction can make all things possible. From such a conviction comes the fanatical courage of the Koje prisoners - you can even call it heroism and you won't go wrong - to face all the military power of America unarmed and defiant.

Yesterday they were nothing, with no rights that a white man was bound to respect. But a mighty revolution, coming up like thunder out of China and echoing throughout the entire Orient, has changed all that. Revolution has made new men out of them, lifted them to their feet and inspired them to sing and firmly believe: "We have been naught, we shall be all!"

That may be the secret weapon of the prisoners of Koje Island.

"But the Bolivian revolution," Paz - as the peoples of China, murderous pressure to bear on Korea, of Indo-China, of Persia, Egypt and Yugoslavia - in three days of heroic battle have said to the cynics: 'No, you are wrong! The people are still stronger. Mankind can win, as soon as it s determined enough to win."

The speaker described the three day April battle in La Paz, Bolivian capital. "The workers went up against artillery with hand rifles. Great barricades rose in the workers' quarters. The regular army regiments were annihilated. Thousands of prisoners were taken by the quickly organized and armed People's Militia."

Reactionary officials and army generals were forced to sign a capitulation to the victorious revolutionary forces.

By sketching these colorful and inspiring events the speaker refuted the slanders which have appeared in the American press slanted to smear the Bolivian revolution as merely another coup d'etat by a fascist junta. It was unmistakably a popular uprising of powerful and determined masses.

TRACES CAUSES OF REVOLUTION

Comrade Cochran told his audience about the economic social and political structure of Bolivia, a typical Latin American country, tracing the basic causes for the April revolution. He described the one - industry. nature of the economy, imposed upon the people by foreign oppressors and native capitalists and landlords.

Where Your Money Goes

The Florida State Retailers' Association and the Tax Foundation, a private research group, recently released some very significant figures concerning the 1952 tax load. Direct and indirect taxes - federal, state and local today take from 38c to 40c out of every income dollar. By far the larger share of these taxes is paid in the shape of indirect or hidden taxes.

To illustrate how the tax structure has pyramided, there are 201 direct and hidden taxes on a gallon of gasoline; 189 taxes on a suit of clothes; 154 on a bar of soap; 53 on a loaf of bread, etc.

Taking "an average family of 3,2 persons," the Tax Foundation estimates that such a family with an income forces "from a military point of of 3,500 pays nearly \$1,100 in taxes, of which \$800 is hidden taxes as against a little less than \$300 in income taxes. In other words, the average American family pays \$2.66 in hidden taxes for every dollar it must also pay out equipped battle-hardened troops."

The prisoners have nothing but in direct taxation.

The actual tax gouge bites even deeper because the "low income brackets," the huge majority of the population, must spend virtually their entire income on food and other necessities, which carry the most hidden taxes.

For example: On a ton of coal, a gallon of gasoline, a pack of cigarettes, these taxes constitute as much as two-thirds of the purchasing price. On such necessities as a loaf of bread, a pound of beef or a quart of milk, the taxes amount to up to one-half of the purchasing price. Almost one-third of the price of an automobile consists of direct and hidden taxes.

These facts and figures prove beyond the shadow of a doubt on whose backs the tax-load really falls. It is not mitted 31 more prisoners and the by force and to terrorize prison- men, crushed the revolt by the rich but the poor who are shouldering the intolerable tax-load which has resulted from the arms drive and the war program of American imperialism.

At the same time these figures suffice to indicate how Repeated massacres — I use the rapidly the tax gouge is undermining, amid continued in- on Koje. flation, the living standards of the American workers and of the middle classes.

Not less than 38c out of every wage dollar already go for taxes. But even more alarming is the rate at which this tax gouge has been boosted. In 1951 the over-all tax mand and its South Korean ally load amounted to 32c out of every dollar. This means that in the space of a single year the over-all tax load has been increased by 20% and more.

Heavier arms expenditures and, therefore, steeper taxes lie ahead, if American imperialism is permitted to continue with its arms program and allowed to unload the costs on the backs of the poor.

The need for tax relief has become, in a literal sense, a life-and-death issue for American labor and for the mass of the people generally.

Baruch's War Timetable

A statement by Bernard M. Baruch at the May 28 meeting of the Senate Preparedness subcommittee shows ception to this trend is the treathow much pressure there is in Big Business circles for an ment of prisoners by Occidental early plunge into World War III.

Baruch's comments are very important for two reasons: he himself is a Wall Street financier and a representative of Wall Street opinion, and he is Wall Street's "war economy specialist." Whenever his name is mentioned by the newspapers, he is labelled "a top adviser to Presidents in two world wars."

Baruch, in his statement to the Senate committee, 'protested" the "stretch-out in arms production." He called for a "sense of disciplined urgency," to speed up arms production. He pointed out that the tooling-up operations and construction of factories must give way sooner or later to full-scale production of weapons and munitions, and he wants that transition to take place very soon.

What is the extent of Baruch's disagreement with the Pentagon? Baruch wants the previous goal of peak arms production, originally set for mid-1954, to be restored. The Pentagon, on the other hand, gave up the mid-1954 goal some time ago, moving its sights to 1955 or '56. Both have short term perspectives. The difference is between two years and three or four years.

It must be understood that the discussion over arms "preparedness" is really a discussion of the capitalist war timetable. Capitalist strategists realize that this is against them. The revolt of the European and colonial people is growing. Only in one respect does American capitalism gain with the passage of time, and that is in the military sphere. When the U.S. has reached a military peak, the capitalist class will have no further reason to wait.

It must also be kept in mind that, if the U.S. capitalists permit the armaments peak to pass without war, the decline in arms expenditures would then surely produce a devastating economic crisis. This is an additional reason why the Baruch-Pentagon discussion of the arms-production tempo is really a discussion of the war timetable.

Still another consideration: since most important capitalist spokesmen have admitted that they do not expect the Soviet Union to launch a war, the initiative for war belongs primarily to American capitalism. When Baruch and the Pentagon speak of the "war danger," they are not, properly interpreted, speaking of something outside themselves, but of something over which they have considerable control, at least so far as timing is concerned.

Thus when Baruch says: "Hurry the arms, the war danger is coming close," this should be read: "Wall Street's needs call for war quite soon; therefore, rush arms production!" And when Wall Street speaks, the Pentagon usually does its best to obey.

The Massacres on Koje Island

A Documented Record of U.S. Atrocities Against Korean Prisoners of War

By Art Preis

"This is war!" exclaimed Gen. Haydon L. "the Bull" Boatner at the start of the June 10 battle on which his military fame will forever rest - when he sent his 6,000 troops, with tanks and flame throwers, against 6,000 North Korean prisoners of war trapped behind the barbed-wire fences of Compound 76 on the South Korean "Alcatraz" - Koje

It is a war such as the world has never before heard of - the armed might of a modern military machine hurled against organized and defiant, but disarmed or crudely armed captives. In this 'critical war of the prison camps," as the June 8 N. Y. Times describes it, the contending view are weirdly lopsided."

"The United Nations has tanks, machine guns, tear gas and fully their fighting spirit, their solidarity, their hatred of imperialism and - as the Times complains - the "'tactical advantage" of a "highly effective propaganda" appeal to world public opinion.

General Boatner, addressing his troops on May 26, said: "You must not kill prisoners unnecessarily. If you get into a fight, slash him, use the butt of your rifle, knee him in the groin - but don't kill him or hurt him unnecessarily." These tender sentiments preceded and inspired the slaughter on June 10 of an adwounding of 139. The U.S. military and their allies have found it "necessary" to kill war prisoners with monotonous regularity.

I charge mass murder of helpless prisoners of war from the the reader to the article on the with tear gas and concussion hitherto secret details of a new start of the Korean war in June bottom of this page reporting the grenades. . .

Time Admits PW Poll a Fraud

Time magazine of June 2 reveals as a complete fraud the claim of U.S. truce negotiators that they had polled some 170,000 war prisoners individually in U.S. prison camps in Korea and that 100,000 had said they would "forcibly resist repatriation" to "Communist-controlled countries" in event

When the U.S. negotiators used this faked survey as a pretext for refusing to return 100,000 of 170,000 prisoners of war, "prospects for an early armistice" were "unintentionally and unexpectedly wrecked," reported the N.Y. Herald Tribune of April 26.

While the daily press continues the fiction about the POW poll. Time has finally admitted that of all aspects of "the all-but-incredible story of chaos and bloodshed in the U.N.'s prison stockades," the "worst of all" is that "observers were beginning to realize that the prisoner vote on repatriation, which at first had seemed the only creditable and politically valuable aspect of the whole affair, had not been arrived at by the U.N. in a true and careful polling, but was in some cases a rough & ready guess."

This "rough & ready guess," which was announced on April 25 by Col. George W. Hickman, senior U.S. staff officer at the Panmunjom sessions, was defended by him as an accurate survey, the result of "a sincere and conscientious effort" to ascertain the desires of all 170,000 Korean and Chinese prisoners-of-war."

But, Time now discloses, there has been "almost complete lack of U.N. control" since last September in the prisoner compounds on Koje Island and "under such conditions, no fair or complete balloting on political preference was possible. Washington apparently did not realize this."

Whether or not Washington realized that it couldn't con-

duct "fair or complete balloting," the "screening orders went out, and General Ridgway passed them on to the Eighth Army, which passed them on to the Second Logistical Command at Pusan, and so on down. The screeners did their best, but their best was poor. Some compounds successfully resisted all In one compound where anti-Communists were in con-

trol, a "preliminary screening" was held. "They called for repatriation volunteers; when two loyal Communists stepped forward, the pair was set upon and done to death."

Time further reports: "The Eighth Army kept the physical details of its nose-counting under wraps, but somehow or other it emerged with 59,000 North Korean and Chinese prisoners who would not 'forcibly resist' repatriation. By scraping around among dissident South Koreans, it raised the number of those willing to go north to 70,000. When this number was passed on to the U.N. negotiators they were stunned. They had already (and unwisely) given Nam II & Co. a much higher estimate; they knew the Reds would not accept the 70,000

But when the U.N. negotiators asked Gen. Ridgway for a rescreening, "Ridgway referred the request to Van Fleet, Van Fleet, however, stoutly insisted that the prison stockades were under control, and resented any suggestion that they were not. Ridgway - and Washington - backed him up."

Van Fleet lied and Ridgway and the Pentagon swore the lie was truth. "So the 70,000 figure was presented to the Communists and they exploded." And, laments Time, "in presenting the figures as if every prisoner had been specifically consulted, the U.N. made a serious mistake." It is such deliberate "mistakes" that have repeatedly prevented a truce

Germans Charge Jailed Nazis Did Only What U.S. Is Doing at Koje

German political circles and the German press are charging that Nazis now in prison as war criminals did nothing different from what the U.S. military are doing to Korean and Chinese prisoners of war in the concentration camps on Koje Island, according to the Bonn dispatch of Jack Raymond

"Assertions of this nature have been made by influential Germans ever since the war in Korea started, much to the consternation of Allied and particularly United States authorities," reports Raymond. U.S. High Commissioner John J. McCloy has even been forced to disavow publicly "that United Nations soldiers were committing acts for which Germans had been tried as war criminals."

The German Future, official organ of the Free Democratic party, a member of Chancellor Adenauer's governing coalition, recently observed: "We do not want to act superior or appear malicious when we call attention to these events (in Korea). We only want to state that in the face of Communist methods humane Western principles cannot be applied in the treatment of prisoners of war." The paper hails the action of the U.S. military authorities, who did not treat the prisoners of war in Korea "as normal prisoners" but instead "finally. . . turned to the use of arms, tear gas and armored cars against prisoners.

"In Nuremberg this would have meant a death sentence," the paper complains. The German Future refers to a plan to review sentences passed on Nazis and suggests "it certainly would not be a bad idea to put Allied officers from Koje on the parole boards for German 'war criminals.'"

In last week's column we discussed proposals for resolutions at the annual convention in Oklahoma City June 24-29 of the National Association for the Advancement of Colored People. One proposal was the organization of workers' defense guards for protection against anti-Negro violence. Another proposal was adoption of a policy to defend all victims of the current witch

The two problems are related, of course. American capitalist democracy can no longer afford the democratic trappings which have concealed the real dictatorship of capital in the past. Hence the mounting attack on minority groups and minority opinions.

The tremendous power of the American working class, capable of producing the highest standard of living in history here at home and of helping the workers of the whole world to catch up, is a threat to the rule of Big Business. Big Business feels that it must head off this threat at any cost. Scrapping of the "democratic process" is only the first step for those who are determined to defend the present outmoded economic order.

This means that the old type of political action, based on the ability of the capitalists to bribe the working class with reforms, it outdated both for capital and for labor.

The delegates to the national convention should pass a resolution recognizing the new stage in American history as it affects the tasks of the

The NAACP has long recognized that political action is necessary in the struggle for full equality for Negroes in the United States, and has done a noteworthy job of winning the legal right to vote in many areas where the ballot was formerly denied, and helping to increase the number of Negro voters.

Despite this, there has been no progress in securing civil rights legislation in Congress. Both the Democrats and Republicans have given lip service to the cause of equal rights, particularly when seeking support from the thousands of new Negro voters, but neither party has used its power, when it has been in a majority in Congress, to pass such legislation.

The 42nd annual convention in Atlanta last year noted that "the 82nd Congress has so far failed miserably in its promise to enact civil rights legislation as outlined in the platforms of both major parties. Both of these parties are guilty of insincerity and inertia in pressing for the passage of civil rights legislation and have used the so-called national emergency as an ex-

cuse for not pressing the promised civil rights legislation. . .

President Truman's responsibility was also noted in the resolution on FEPC, which stated: 'Just as the majority of reactionary opponents or half-hearted friends of civil rights in Congress are responsible for the failure to adopt Fair Employment Practice legislation, so the President is responsible for the failure to enforce Fair Employment Practice provisions already in de-

The situation this year is even worse. The candidates for nomination by the two major parties have even worse records and programs on civil rights than the candidates of 1948.

It is time for the NAACP to recognize that resolutions condemning the Democrats and the Republicans, even when coupled with vote registration campaigns, net no gains for civil rights so long as the voters are given no alternative but voting the same parties back into office. The corrupt and cynical politicians will not take the voters' needs, their protests and their demands seriously so long as political power is monopolized by the Democratic and Republican party machines.

It is necessary to do more than threaten and bluster. It is time to show the two old parties that the Negro people are through supporting the reactionary Congressional coalition.

The convention should call on the members and friends of the NAACP to reject both the Democratic and Republican parties. The delegates should call on the AFL, the CIO and the independent unions, who have had similar experiences in the field of labor legislation and who have proved to be the most consistent allies of the tee, the Sacco-Vanzetti Defense NAACP in political action, to join in a national conference for the organization of an independent

THE MILITANT

MONDAY, JUNE 16, 952

John Dewey,

VOLUME XVI

By Fred Hart

The death of John Dewey on June 1 removes from American life one of the very few remaining intellectuals who adhered consistently to the liberal creed of unreserved defense, in word and deed, of all the rights of freedom. Dewey, would have been 93 next October.

Liberalism as a major political force in America died long before John Dewey, but he remained true to liberalism to the end of his life.

To give only a few of the many examples of his spirited defense of the rights of men over many decades, he was a member of the Tom Mooney Defense Commit-Committee, the Civil Rights Defense Committee (formed to defend the 18 Trotskyist victims of the Smith Act) and the

At the age of 78, long after kow-towing before Stalinism,

"In the cases of Tom Mooney in San Francisco and Saccovanzetti in Boston, we got used to hearing reactionaries say that these men were dangerous nuisances anyway, so that it was they were tried. I never thought sounds like something lifted out I would live to see the day when of the Moscow frame-up trials of effort more weight and to try to to a similar argument. . .
