Letters to a Stalinist -

OF GERMAN REVOLT?

Dear Phil,

r Phil,
What do you think about the Daily Worker line on fearful of repercussions inside Deutschland's leading editorial the general strike uprising of the East German workers? the USSR resulting from the mas- reprinted by Pravda, In all our past discussions you told me that you knew the sive reappearance of the German lin workers did not themselves party leaders had committed many mistakes and even working class as an independent terminate this disgrace, and that crimes. You even felt that they were guilty of organizing is clearly shown by Pravda, chief claring martial law with necesframe-up trials in Moscow. You disagreed with the war- mouthpiece of the post-Stalin re- sary resoluteness defended the livtime policy of the American Communist Party, with its gime. Within six days of the up- ing interests of the German peostrike-breaking and betrayal of the Negro struggle for rising of the East German work- ple as well as of all other peocivil rights.

I remember how disgusted you were when the Com- hide the truth about East Ger- Berlin working class, indubitably munist Party used its influence in the Longshoremen's many from the Soviet workers, honest people and of good will, Union to break the Montgomery Ward strike during the a campaign still going on by were seized by a mood of diswar. It took you a long time to get over that betrayal, but in the end you swallowed it.

You always came back to one point: Despite all these insurrectionary movement. On oversights." crimes and mistakes, events showed that the policy of June 18, it published a Tass dis-Stalin was getting results, the Communist Parties were patch from Berlin, headlined: leading socialist revolutions and gaining victories all over in Berlin Crashes." It contained venturists." These dispatches af-

Now what about East Germany? Knowing you as I do, I expect your reaction was, "Yes those East German workers have their grievances and misery all right, and it's a shame the Red Army had to be used against them, but appealing to the population to including government and muniweren't these workers playing into the hands of western maintain law and order, and cipal institutions, have resumed imperialism by their revolt?"

To bolster your argument, you will probably refer me to such sources as the editorial in the June 24 Daily Worker which says, "The facts about the 'riots' and 'revolution' are that with very few exceptions the persons arrested by the authorities were from West Berlin, or were criminal elements who came out of hiding during workers' demonstrations for unity and tried to turn these demonstrations into anti-Soviet demonstrations. And the guilt of these elements cannot be buried by the fact that some East Germans were sucked into these provocations and participated in the rioting.'

As you no doubt know, this is lifted from the Stalin- prises, an increase, however, lin." Another item reported the ers is embittered. They think the ist International newspaper For a Lasting Peace, etc., which describes the leaders of the general strike as "Nazi killers," "American gangsters" and "fascist cutthroats." This paper says that the movement failed "because the broad sections of the population in the democratic sector of Berlin and in the German Democratic Republic did not

I disagree. The Stalinist leaders are carrying on a world-wide campaign of slander against the East German workers. Crushing the East German general strike was a direct blow at the world anti-capitalist revolution. You can't be for the world revolution and the Stalinist counterrevolutionary repressions in East Germany at the same

Who participated in the movement? Is it true that "broad sections" of the East German people opposed the general strike? In a country of 18 million people, 2,000,000 workers in every branch of industry joined the general strike. The movement involved over 40 major cities in East Germany. Piecing together numerous admissions of the Stalinists, the fact emerges - the whole of the East German working class rallied to the struggle. Even Deputy premier Otto Nuchke had to admit that the "bitter events of June 17" had grown out of "considerable discontent in many sections of the working classes in Berlin same type of revolutionary strug- Germans to be prudent and half- When Mayor Reuter did hastily and industrial areas of East Germany.

Who led the movement? The Stalinists claim that it was "provocateurs" in the pay of Washington. They attempt to prove this by the further claim that "with very few exceptions" those arrested were such provocateurs. But according to Max Fechner, East Germany's Minister of Justice, 50,000 people were arrested. Were these 50,000 spokesmen of Wall Street and near the border and the six-hour workers provocateurs and Nazi killers? Isn't it obvious many has not been one of unthat this is the kind of "explanation" police-minded strike- mixed elation at the terrible blow back from Munich to help or there, "they advised Dr. Ernst breakers always give to smear a genuine workers' action? dealt the oppressive rule of the

What were the aims of the movement? Despite all the Kremlin and its East German Stalinist slanders, the East German workers were fighting tion of the workers. Indeed, the to rid themselves of the bureaucratic stranglehold of the "liberation idea, talked about for Kremlin without making the slightest concessions to capi- East Europe," drily comments the talism. All the slogans raised by the demonstrators prove. this. End the speed-up! Free elections! Remove the troops of the Kremlin! These were the demands of the East Ger- ture. Officials froze into silence, man workers and they are in complete harmony with the inaction." march of the world revolution against capitalism.

The most astute capitalist commentators are fully aware of this anti-capitalist character of the East Ger- ance to the insurrection was conman workers' revolt. Walter Sullivan of the N.Y. Times wrote on June 19, "The Western powers themselves indicated they considered the Berlin situation to have dangerous potentialities." He tells how meetings in West Germany were called off because "the present situation was greatly tempered by their (is) too explosive to allow such meetings now."

The Kremlin hurled 300,000 troops at the East German workers. Tanks, machine guns and firing squads were the weapons of the Stalinist counter-revolutionaries. Neues | count in the pro-imperialist New Deutschland, East German Stalinist newspaper "explained" Leader, the officials in West Berwhy the Red Army was used. "Of course, it would have | lin - "German and Allied" been better if the German workers had repelled the provocations themselves in time. The workers did not have paper and no radio station [in the high sense of responsibility."

Here you have it in a nutshell. The haughty bureau- ing guidance to the people. Only crats, placed in power by the Kremlin over the workers, that the demonstrators had isare momentarily saved from the workers' wrath by the sued a call for a general strike." Kremlin's "blood and iron" repressions, and then, they The battle, complains the Social deliver pious sermons about the workers' lack of "responsibility." - Murry Weiss having been given by the western

Monday, July 20, 1953

On April 23 in Copenhagen, Denmark, a Detroit educator and his wife who were studying in Europe were called to the American Embassy and asked to hand over their passports. The State Department's action was presumably taken because the names of the couple had been found listed in some black book of the witch hunters.

Dr. Walter G. Bergman and his wife searched their memories but came up with little. Dr. Bergman had been active in the Socialist Party since 1931 and ran as its candidate for mayor in Detroit. He had twice served as president of the Michigan Federation and once as vice-president of the American Federation of Teachers. After being investigated and cleared by the Counter-Intelligence Corps, he served in the Allied Military Government in Germany and in UNNRA.

"Entering the third week of our incarceration in Denmark," the educator wrote on May 7, "neither we nor our attorney nor any of our friends have been able to get a single specific definite charge of any action, any speech, any letter, any membership in any way with the Communist Party or any of its affiliates, either in the period under question,

man were granted a limited passport confining them to certain countries in Europe. Last week they were back in Detroit where they were interviewed by the press.

"It was the most harrowing experience of my life," Dr. Bergman said. And his wife added, "An experience I would wish only on

They still did not know definitely why their passports were taken away. Dr. Bergman could

Beria -- Victim of System He Helped Create By Murry Weiss

The career of Lavrenti Pavlovich Beria compresses in the life of one man the biography of the ruling caste of the Soviet bureaucracy. He gained his first prominence in the bureaucracy as a "historian" and "biographer" in Stalin's school of falsification. He was one of the principal architects of the Stalin mythology Author of an official biography of Stalin that was spread by the the closest personal henchmen of the "Chief" himself. At the peak Trials in 1938, Stalin summoned him from Georgia, where he had served as the ruthless local head of the GPU in Stalin's own homeof all secret police, and he survived in that hated and danger-

For 15 years, under the closest supervision of Stalin, Beria directed the ten security divisions of between the two world reactions "Beria's Butchers." As head Trotsky in Mexico on August 20, 1940 took place under Beria.

After Stalin's death he became a member of the triumvirate hearings of the Dewey Commiscamps, this pitiless killer and were a structure of miserable lies foul practitioner of the lie and from beginning to end. The purge already received a bullet at the base of the brain. He is accused Stalin, and has caught up with by his two co-disciples of Stalin,

Not a single current of world public opinion gives the slightest credence to the accusations against Beria. If we exclude the too, it is necessary to go to kept Stalinist press, which has confined itself moreover primarly to reprints of the Pravda denunciations, the question asked everywhere was not "is Beria guilty?" but "what is the poli-

Six Plumbers, One Millionaire

"Six plumbers and one millionaire" would make a better cabinet than "six millionaires and one plumber." This idea was advanced by James A. Brownlow, President of the AFL Metal Trades Council, in a speech at the Cleveland convention of the Office Employees International Union. "Such a cabinet," he said, "would better understand the needs of the people.

The main theme of Brownlow's speech was that the Taft-Hartley law will be repealed 'not by begging Congress to do so" but by electing people to Congress who will repeal the law. He also warned that "You cannot depend on the government to do your collective bargaining. Only one thing can do that -good strong militant unions."

Now all these ideas are very good (although we think that a cabinet of six plumbers wouldn't have any use for a millionaire) but the question arises, when and how do we get going on some of these militant proposals we hear from the labor officials nowadays?

If labor is going to prepare for the 1954 cements of the great purge trials bureaucracy, represent- purges is the struggle of the elections, if there is to be an end to the ruinous policy in the political field that led to the election of the Eisenhower regime, if the menace of McCarthyism is to be met, if Taft-Hartley is to be repealed — then the time to

We agree with Brownlow that begging Congress won't help. But neither will it help to beg the Republican and Democratic parties or any "wing" of these parties. When Brownlow says that only "good strong militant unions" can bargain successfully with the employers, reveal that China is peopled by we must agree. However, we must add: A good close to 500 million. Yet, with strong militant labor party based on the unions and independent of the employers on the political as well as the economic field is two percent as much industrial needed to win labors' political demands.

Joseph Porgie's Secret

The other day in New York, biggest and richest city of the capitalist world, a 74-yearold worker got in trouble. Someone, perhaps a "disgruntled" relative or stoolpigeon on the job turned in his name to the Municipal Civil Service Commission. Confronted by the charges of the unknown informer, Nicholas Lana admitted his guilt. For 45 years he had been working for the city under the name of "Joseph Porgie."

He explained that he had no intention of defrauding anyone. For almost a half century he had faithfully performed his duties. In fact, using that name had not been his intention in the first place.

'Way back in 1908 he was laid off from a candy factory. He appealed to Tammany Hall for help. Alfred E. Smith, later governor of New York, gave him his personal card and wrote on it "Joseph Porgie." This worked like magic in landing a job in the water works department.

At first Lana thought the job would be temporary. So when the pay checks came, he simply endorsed them "Joseph Porgie" and cashed them. But the job stretched out, the way jobs sometimes will, and Lana found himself burdened with the unsought name bestowed

on him by Gov. Smith. "Later," he said, "I thought if I did anything about it, I'd get fired. And sure enough — 45 years later — that's what happened."

Yes, that is precisely what happened. The 74-year-old man had been thinking of retiring on the \$1,200-a-year pension to which he is entitled. The City officials thought otherwise. Wasn't the man an obvious miscreant? They gave him the axe in accordance with the precepts of justice, fair play and decency as applied according to the capitalist code of ethics.

Lana is now petitioning the State Supreme the nationalization of large por-Court for reinstatement to his \$67.50-a-week tions of industry, the possibility job. Up to now there is no indication as to has opened up for China to transwhether the robed magistrates, representing form itself. Without this revoluthe justice of the ruling class, will decide to ning and industrialization would dispense mercy.

We thought this life story of some interest. No matter how loyally Lana may have performed his duties and perhaps publicly thank- achieved in full (and there is no ed Tammany Hall, in his heart he seems to guarantee of this since the state have had little trust in his employers. "I thought if I did anything about it, I'd get tion will increase no more than fired." And so for 45 years he endured the barely enough to keep up with embarrassment with family and friends of liv- the population growth in the ing under two names.

The accuracy of his judgment is also worth only, designed to counteract the noting. It took his bosses 45 years to discover great impact of Chinese progress the error -and only then through the help of upon the Indian people. a stoolpigeon - but once they found it out. they acted precisely as Lana had feared. This worker knew in his bones the outlook of his is about 20% per year. At this

Finally, the cause of Lana's downfall is not without interest. Here we see the influence of the McCarthy code that is spreading like a possible, in view of the fact that blight over America. The hero in the eyes of the new China has been able to the City officials is obviously the anonymous more than double production in informer who sought revenge or profit by sink- Revolution in spite of the buring the knife into this elderly worker's back. den of war in Korea. They acted on the informer's report. They carried out the informer's will. They gave the informer the evil satisfaction he sought.

with the resources for the development of a heavy industry, while China is. China is richly endowed with almost all the basic industrial raw materials, both cultivated and mineral perialist oil companies made out to be scarce in China, is being

developed in great quantity. The plenitude of raw materials the scope and amplitude of the economy giving a possibility of economic independence, the great agricultural underpinning which capable of producing large food stocks for the population, the great revolutionary spirit deriving from the Chinese nationalistsocialist upheaval - all of these factors and many more distinguish China from Eastern Europe. Thus there is very little reason to expect that the process of industrialization will lead to a crisis in the same form as has occurred in Eastern Europe. As a matter of fact, the situation in China up to now has been sharply different from Eastern Europe in that the standard of able. living of the people has apparently been rising since 1949.

Kao Kang, chairman of the re gime in northeast China (Manchuria) a region which produces well over half of the total industrial output of the nation expressed the desire to concentrate on heavy industry in the following words: "We must concentrate our strength in developing our heavy industry and national defense industry. We are opposed to the theory of socalled 'balanced development' which argues from a partial viewpoint." These words, which onvey the flavor of disputes or China today is roughly in the at least discussions within the proportional industrial position of regime over tempo, express the the U.S. or Germany in 1800; outlook which today causes four-

been recorded in the three and one-half years since the overturn. A shift of trade to the Soviet forms. Even oil, which the im- sphere, necessitated by the imperialist blockade, has been successfully worked out, mainly because China has sufficient strength and independence from Moscow to be able to negotiate as a power. Secondly, imports, which used to consist mainly of manufactured goods, have changed character and now concentrate heavily on machinery and other aids to industrial development. This shift reflects what was aptly put by one of the Chinese leaders as follows: "The key to China's front door is in our own pockets instead of in the pockets of the imperialists and their running dogs, as was formerly the case." Finally, where China used to have a large deficit in its foreign trade (close to one-half billion U.S. dollars in 1946 at present the Chinese trade balance is slightly favor-

The pace of industrialization is very rapid, and is being accompanied by vast corollary projects such as the training of large numbers of engineers and technicians, educational and literacy campaigns that reach down into the mass of the people, great soil-conservation and power projects, etc. One of the reasons why this rapid rate is possible is that China starts from so low a level that, by adding only a few percent of China's huge population to the industrial proletariat, the industrial output can be doubled.

But this is only the technical side of the transformation. The socio-political side is the transformation of economic forms and social institutions in such a way fifths of basic industrial con- as to make possible what could not be done under the old forms The process of industrialization was preceded by a revolutionary overturn, and has since been accompanied by a systematic growth of a new social organization and a decline in the social weight of capitalist forms of pro-

Are there "subversives" among the Protestant clergy? By McCarthy's definitions and guilty - by - association principles, of course. What's more, since he condemns those who held positions similar to those of the Communist Party on many issues, Negro ministers are particularly vulnerable. Many of them, particularly those with large followings, have been militant protesters against some of America's most undemocratic practices. By McCarthy's standards, that would make not only them but all their supporters suspect, liable to inquisition and persecution.

As a matter of fact, however, McCarthy would not insist on making his attack along religious lines, because some of his staunchest supporters may be found in Protestant circles.

We are willing to bet, for example, that one recently licensed minister who will not be labeled a subversive by the Senator is Bill Hendrix, of Florida. Hendrix, you see, is a former grand dragon and currently imperial emperor of a new Ku Klux Klan.

It will take a broad alliance that disregards religious lines and bases itself on a conscious recognition that McCarthyism and all anti-democratic forces aim to deprive the working people, including its most oppressed sections and most militant fighters, from struggling to improve their lot, to organize an effective counter-offensive to the drive toward a police state.

Why Penalize Mothers?

"Maternity Leave Put in Work Pacts" this headline in the N.Y. Times announced the results of a survey made by the National Foremen's Institute. According to their report, women in industry today have less reason to fear loss of job because of pregnancy than ever before. More and more companies are granting maternity leaves as fringe benefits.

This is good news for 10,000,000 working wives in this country who probably feel that it's about time. In the past, women have been penalized for bearing children by loss of employment or loss of seniority. But a woman still gets maternity leave only on a "voluntary" basis - "voluntary" for the boss, that is. There is no law which requires the employer to hire her again. In most cases, she receives no benefits of any kind while she is on leave.

A bulletin issued by the Women's Bureau, Maternity Protection of Employed Women, gives an interesting summary of protective legislation throughout the world. The United States is supposed to be a progressive, democratic country and it's reasonable to assume that conditions here compare favorably with those in other countries. So I was startled to find the United States listed, along with Afghanistan, Syria, Ethiopia and a few others, as one of the countries that has no legislation guaranteeing maternity leave, cash benefits or medical care.

"Visitors to the United States," says the bulletin, "ask time and again why the United States, almost alone among the industrial countries of the world, has no Federal law providing for a national system of maternity protection for its women workers."

An international standard for maternity protection for women workers was adopted by the International Labor Organization at its first session in 1919. Since then 18 European and Latin American countries have ratified the Maternity Protection Convention and enacted laws to carry out its provisions. Many countries that have not ratified, in Asia as well as Europe, have adopted national legislation equalling many of the requirements of the ILO Con-

Most countries which have passed such legislation include cash benefits for employees on maternity leave as part of their social-security system. One-third of the countries give allowances equal to the full wage; benefits in other countries range from one-third to two-thirds of the woman's pay. Many countries pay additional tenants in federal housing probenefits in the form of medical care, lay- jects are required to file a cerettes, nursing allowances which range from tificate which affirms, not their 10% to 25% of basic pay, and milk for children not nursed by mothers. Notes from the News

ABRAHAM LINCOLN AND MARK TWAIN were among the authors checked by the State Department's Security division for possible Communist connections. This was due to one of the employee's sending these and similar names through to Security during the height of the recent book-purge. After checking such names numerous times and replying: "No record on him," the officials began to suspect that someone was pulling a fast one. They uncovered the culprit and fired him. "Imagine what might have happened if the man checking the names had noted that Abraham Lincoln once corresponded with Karl Marx" one State Department official

A LANDLORD accused in 1936 of having improper toilet facilities in his New York lower East Side tenement, was brought to trial on July 9, 1953. Chief Inspector Samuel Browdy of the Housing and Building Dept. recommended a \$15 fine. "You bring this man to court after 17 years and then recommend only a \$15 fine?" asked the Judge. He was then informed by Mr. Browdy that there are "a couple of thousand such cases," going back 15 to 20 years. Magistrate William E. Ringel was very indignant. He fined the defendent \$250, and called for an investigation of "this whole mess."

. . .

IRWIN EDELMAN, the man who raised the argument in the Rosenberg case that gained the last stay of execution, was arrested for vagrancy in Los Angeles. He was convicted on July 6 of violating a state law requiring vagrants to register. On July 7, he was released with the proviso that he must register within 48 hours or go to jail for 90 days. Edelman

announced that he will appeal the conviction Edelman is well known in Los Angeles as a fighter for civil liberties and free speech.

BELIEVE IT OR NOT. Senator McCarthy was quoted by the Washington Star of July 8: " feel I have no right of censorship over any one:

A "NEWSLETTER" FOR BANKERS said, "The fact that the Eisenhower Administration is dominated by bankers is a source of pride to many in the financial world." The article in Banktrends went on to list 12 bankers who hold top posts in the government, and then said, "All the foregoing are what the critics call big bankers, synonomous with Big Business."

A "RIGHT TO WORK" BILL is being introduced in the Pennsylvania state legislature that is typical of scores of anti-labor bills pending in various states. The Pennsylvania measure, introduced by John DuBois, a manufacturer, would outlaw the union shop and make any kind of effective picketing illegal. James Mc-Devitt, President of the Pennsylvania State Federation of Labor called the bill "the most vicious ever introduced in the General Assembly.' A similar measure was recently stopped in California before it got out of committee.

JOHN W. LOVE, who writes Today's Business column in the Cleveland Press declares, "unemployed are estimated to be no more than 1,300,000. This figure includes people who . . . have handicaps like age, race or temperament."
