Report Lenin Secretary Survived Stalin Purge

Could Tell How Lenin Sought to 'Bombshell' Foe

One of Lenin's personal secretaries, L. A. Fotieva, who collaborated with the founder of the Soviet Union just before his death when he was preparing a showdown

struggle with Stalin, has been ? reported by Pravda to be still "Yes, Hyich does not trust

first that has been heard of Fotieva in many years. When her name was not included in the 1947 list of old Bolsheviks, it was assumed that she had perished in Stalin's monstrous

Fotieva was one of the two secretaries sent to Trotsky by Lenin — just two days before he suffered his third stroke with materials for use against Stalin at the forthcoming Twelfth Congress. In view of his worsening illness, Lenin had already asked Trotsky to see the struggle through. These materials were to help in any way possible although some were in unfinished form. Even as he faced death, Lenin was desperately concerned about the success of the struggle against Stalin.

"He told me," Glyasser, the other secretary, said to Trotsky, "to transmit to you the manuscript material which was supposed to have made up his bombshell for the Twelfth Con-

in's latest actions by telling Trotsky that "Vladimir Ilyich is feeling worse and is in a hurry to do everything he can."

Among the materials left by Lenin for use in the struggle against Stalin, the most famous today is the last testament. (See full text below.)

Fotieva could now tell how Lenin came to write this important document: why Lenin decided to break off all comradely relations with Stalin; and why Lenin asked Trotsky to join him in war against the sinister UE Strikers leader of the rising bureaucratic

at least part of Lenin's last testament in attacking the "Stalin cult." It is clear that Fotieva could prove useful to them in this by explaining the origin of the testament and verifying the truth about Lenin's real attitude toward Stalin.

Fotieva could also verify the truth about Lenin's bloc with Trotsky against Stalin. This is When Trotsky asked whether the kind of testimony that Lenin had come to the conclusion should be heard by an impartial that it was impossible to "com- Inquiry Commission, as proposed promise with Stalin even along to the Communist Party by the correct lines," Fotieva replied: Socialist Workers Party.

Text of Lenin's Last Testament

The following is the full text of Lenin's Testament:

By the stability of the Central Committee, of which I spoke before, I mean measures to prevent a split, so far as such measures can be taken. For, of course, the White Guard in Russkaya Mysl (I think it was S. E. Oldenburg)

This ruling not only sent Ceylon's capitalist mittee. In such an event no measures would prove capable of preventing a split. But I trust that is too remote a future, and too improbable an event, to talk about.

I have in mind stability as a guarantee against a split in the near future, and I intend to examine here a series of considerations of a purely personal character.

I think that the fundamental factor in the matter of stability - from this point of view - is such members of the Central Committee as Stalin and Trotsky. The relation between them constitutes, in my opinion, a big half of the danger of that split, which might be avoided. and the avoidance of which might be promoted, in my opinion, by raising the number of members of the Central Committee to fifty or one hundred.

Comrade Stalin, having become General Secretary. (Continued on page 3)

Local 107 remained on strike after the national UE agreement with Westinghouse on March 28 because the company insisted on "re-arranging" the wage structure at its Lester plant. The "rearrangement" was actually a proposal that the strikers first accept a 20% pay cut before the national agreement offering an estimated 3% yearly wage increase went into effect.

Since the national settlement, Westinghouse has conducted an insuccessful campaign to isolate the Lester strike and force local 107 to accept its unreasonable demands. It will take 100 station wagons to operate an effective transportation system for the Negro people in Montgomery, according to Rev. M. L. King, leader of the bus protest movement in that city.

In an interview with a staff writer for the weekly Afro-American, the Rev. Mr. King disclosed that the Montgomery Improve-ment Association had applied for a "jitney service" franchise. In answer to a query by the Afro-American reporter, the Rev. Mr. King, president of the MIA, said:

"We were turned down and plan to apply again. If the franchise is not granted, perhaps we will run a free jitney service.

SHUT DOWN TIGHT

Everything in Pamplona is shut down tight. The strike began yesterday when several hundred workers in shoe factories quit in protest against a too meager wage increase granted by the government. In fascist Spain, the government regulates wages. Then the strike spread to 35

other factories and industrial enterprises including a construction company employing 2,000 workers. Stores are closed down and transportation suspended

The present militancy of Spain's workers was clearly foreshadowed last August at a national labor congress. Even though handpicked by the government, the union leaders yielded to the pressure of the workers and voted demands for a minimum living wage, greater participation in profits and a voice in management policy. These demands have not been met by the government.

MOUNTING UNREST

Then on Jan. 1, Dictator Franco nimself disclosed the mounting rebellion against his regime, when he devoted his entire New Year's message to the need for "national solidarity." He admitted that there was unrest among workers, students and intellectuals.

At Madrid University, last February, an independent slate of

Already in 1951, a general increases showed that the Spanish working class had recovered from the defeat inflicted by the fascists in the Civil War of 1936-37. The Franco regime survived the Barcelona strike by means of epressions. But judging from developments during the last months, police measures have now lost their effectiveness. Kotelawala was denounced during the campaign for his role at the Gunawardene, who many years Bandung Conference where he ago split off from the Trotskyist served U.S. imperialism by his attacks on Communist China. Secretary of State Dulles tried to build up Kotelawala's prestige by visiting Ceylon in the midst of the election campaign. The visit probably cost Kotelawala even more votes. Indicative of Wall Street's reac-

tion to the election was the New York Times editorial of April 8 after the first day's voting indicated the landslide. Entitled 'setback in Ceylon," it began: 'We may as well face the unpleasant facts in the case. We cannot greet the election return from Ceylon, at this point, with anything short of dismay." A news story in the same issue of the N. Y. Times correctly predicted: "Today's polling threatened to push the Government party even out of second place. The Trotskyite Ceylon Equality party [LSSP] won five more seats and its total stood at nine. . . The second most important politician in the country now may be Dr. N. M. Perera, the Trotskyite leader, and former mayor of Colombo.'

Communalism, as the Hindu-Moslem riots in India have so tragically demonstrated, is the greatest threat to the progress of the workers and peasants of Asia. The LSSP's principled stand for solidarity of all peoples and national minorities' rights can best be appreciated when the communalist wave which threatened to engulf Ceylon is described. Kotelawala called the elections

the explosive Middle East crisis.

Will Eisenhower Send U.S. Troops?

Current administration moves in relation to the Middle East crisis are loaded with deceit and fraud against the American people. Washington is attempting to jockey the country into a position where it can again be plunged into war against the will of the people.

Secretary of State Dulles announced April 3 that "in an emergency in the Middle East" U.S. forces might be sent into action without Congressional authority. The next day President Eisenhower gave solemn "assurance" that he would never commit U.S. troops to war without consent of Congress.

Eisenhower's statement was motivated by the knowledge that U.S. public opinion. with the memory of Korea still fresh is deeply opposed to any more "police actions." He was attempting to placate antiwar sentiment while laying the groundwork to thwart it.

Carefully inserted in his statement was a loophole big enough to drive a tank through. "There are times." he explained. "when troops, to defend themselves, may have to, you might say, undertake local warlike acts. . ."

With the Sixth Fleet in the Eastern Mediterranean and an additional 1,800 marines recently dispatched there, it would not require much conniving to deliberately put them in a position where they would have to "defend themselves."

In a new policy statement, April 9, Eisenhower announced that the U.S. was prepared to "resist aggression" in the Middle East. Again he assured that this would be done "within Constitutional means."

hope and courage.

The highly political Big Business oracle, the New York Times, has been straining to construe the Kremlin's recent repudiation of the Stalin cult as some kind of victory of capitalism over socialism.

During the period of the rise of Stalin and his bloody campaign against the Bolshevik-Leninist opposition headed by Leon Trotsky, the capitalist - class - conscious Times made sure to send correspondents to Russia who always favored Stalin as against the revolutionary internationalists.

Now that the heirs of Stalin have been forced by the new revolutionary mood of the Russian working class to disown the murderer of revolutionists and the betrayer of revolutions, the editors of the Times hope to extract something useful for capitalism out of the situation.

They are barking up the wrong tree. And what's more, they know it, and therefore they don't have their hearts in the project. In an editorial April 6 they say: "The Soviet people are asking the same questions that people all over the world are asking." And among these questions they list: "Is there not something basically rotten and corrupt with a system in which Stalinism could come to flower?"

The Times would have been more accurate, not to say honest, if they admitted they hoped this was a question the Soviet people would ask. Actually, all the evidence shows that the Soviet people have decided irrevocably that they are opposed to capitalism and in favor of socialism. And the rise of an anti-Stalinist revolutionary movement of the Russian workers, which in its initial stirring has already forced concession after concession from

SUPPRESSED TESTAMENT OF LENIN

This 48-page pamphlet, containing the full text of Lenin's famous last testament, plus background material by Leon Trotsky, is must reading for everyone interested in the origin of the Stalin cult. Trotsky reveals the inside story of why Lenin came to break with Stalin and how he started the struggle against the future dictator.

Stalin himself was forced at the October 1927 plenary meeting of the Central Committee of the Russian Communist Party to admit the existence of Lenin's last warning. He read aloud the postscript designating the General Secretary as "too rude" and proposing to remove him from his post. "Yes, comrades," said Stalin, "I am rude towards those who are rudely and disloyally destroying and disintegrating the Party. I have never made a secret of it and shall not do so now." But Stalin soon decided to make a secret of Lenin's last testament. He refused to publish it, putting it instead on the list of forbidden reading for rank-and-file Stalinists.

ministers who become too closely identified as "friends" of the American State Department is rising. The latest, but by no means the last, is the recently ousted prime minister of Ceylon, Sir John Kotelawala. In an editorial published in The Mili-

tant, Dec. 13, 1954, entitled, "Parade of Prime Ministers," we reported the visit to Washington of dignitaries seeking aid in exchange for their support of American imperialist foreign policy. They were: (1) Mohammed Ali, Prime Minister of Pakistan - he had to cut short his visit and hurry back in a futile attempt to head off a palace revolution against him. (2) Shigeru Yoshida, Prime Minister of Japan, ousted from office following his junket to Washington, and (3) Sir John Kotelawala.

Despite the weight of evidence against it. Sir John believed he could use American dollars to bolster his waning prestige with the people of Ceylon. He was prepared to pay Washington's price for American aid and was ready to utilize every opportunity to demonstrate his loyalty to Anglo-American imperialism. His "good will" trip to Washington in Dec. 1954 was intended to prove that he could be depended upon in a

Uncle Toms Abroad

At the beginning of the capitalist era Sir John Wotton, a famous English diplomat, gave a definition which has lived in history. "An ambassador," he wrote, "is an honest man sent abroad to lie for his government." In our epoch we are seeing more and more Negroes sent abroad as official or unofficial "good will" ambassadors. This is because U.S. imperialism's propaganda that its foreign policy is motivated solely by the pure desire to spread democracy is disbelieved by foreigners who know about and abhor this country's undemocratic Jim Crow

While a foreign audience frankly disbelieves speeches of white "good will" ambassadors denying that U.S. Negroes are second-class citizens, the same denials from American Negro speakers carry more weight.

The New York Times and the Negro press has recently carried accounts of statements made in the Soviet Union by Negro Bishop D. Ward Nichols of the AME Church. In a speech to Russians, translated sentence by sentence, he said such things as, "U.S. Negroes lived as well as any other racial group," and, "The Supreme Court, the highest court in our land has made it possible for every Negro to attend school anywhere in the United States of America.'

These statements are on a par with

the infamous utterances of Congressman Adam Clayton Powell, the jackrabbit politician, at the Bandung Conference that Jim Crow was a thing of the past in the U.S. and instead of being a social stigma in the U.S. it was now a distinction to be

Bishop Nichols was lying for "his" government at the expense of his people. For he surely knows what the census reveals if he hasn't understood what his eyes have seen. U.S. Negroes on the whole receive much lower pay than whites and have poorer jobs; Negro housing is predominantly overcrowded, overpriced, dilapidated, ghetto housing; Negroes, because of the lower standard of living forced on them and lack of equal medical attention, have shorter lives than other Americans.

While Bishop Nichols was saying that Negroes could now go to any school in the U.S., Miss Lucy was risking being lynched in her effort to enter Alabama University.

Public opinion against American Jim Crow is widespread in Asia, Africa, and Europe. It is a powerful ally of the Negro people in their struggle for equal rights here at home. Any Negro - official, unofficial or self-appointed - who goes abroad to tell foreigners they are wrong to condemn American Jim Crow is scabbing against the Negro struggle just as much as if he were riding the buses in

The answer can be found in the writings on the subjects listed by Mikoyan that the

Stalinist bureaucrats have suppressed — namely, the works of Leon Trotsky.

What accounts for this self-admitted bankruptcy of the Kremlin bureaucracy?

American labor is offered good food for thought in the April issue of The Educator, organ of the Mechanics Educational Society, AFL-CIO. A full column editorial, levels solid criticisms against the politics of the AFL-CIO officialdom and spells out the need for a labor party.

Labor will be compelled by sheer necessity in the next few years to work out a full scale list of demands, the editorial points out. The very words "automation," "high prices," "Taft-Hartley," "Right-to-work laws" and a host of others indicate how true this is.

The Educator is on firm ground when it predicts: "Inevitably labor will not be satisfied with the limited support it will receive from the Democrats and with a loud fanfare of trumpets a Labor Party will be born."

The Educator is also looking ahead clearly when it points out "even this will be dangerous if Labor forms a Party without a program." The experience of the British Labor Party over the past decade, we think, demonstrates the correctness of the point.

In 1945 the British Labor Party was swept into office and had the chance to end the capitalist system of wage slavery. Eleven years later the English workers are still compelled to "pull in their belts" to maintain capitalist profits. This situation is a direct result of the fact that the conservative leadership of the party has fought all efforts to elaborate a genuine socialist program for the movement.

The Educator takes a hard-headed approach to the problem of leadership for

Dairy Farmers Strike

Strike leader Sam Bailo talks to dairy farmers in the Imlay City, Mich. area, who cut Detroit's milk supply to a trickle before an injunction ended the nine-day stoppage. The confusion in this article is the result of a lack of clarity in

As a result of this approach, he seems to have equated the First Industrial Revolution with capitalism to the degree of making it a kind of alpha and omega of the capitalist epoch.

He mistakenly identifies automation with automaton. The term, automation, is often used in industry and engineering to indicate automaton - ism. This carelessness is due partly to ignorance and partly sales-bologna -a way of dumping fancy gadgetry into the tooling programs of naive manufacturers. Marxists, however, must make more careful distinctions.

The First Industrial Revolution is defined simply as that part of the capitalist process in which the muscular power of the worker was replaced with the mechanical application of power in a machine, a process in which Answer to Problem the worker remains to supervise and control the individual stage of production as an appendage of the machine. Michigan Farmers Gain In Militant Milk Strike

The discontent of the small farmers has taken militant organizational form in Michigan and resulted in a milk strike here which was more successful than almost anyone expected it

THE MILITANT

MONDAY, APRIL 16, 1956

Milk is one of the few major agricultural commodities that is still produced largely by small independent farmers. Practically all of the 1,300 milk producing farmers in the Detroit milk shed belong to a marketing organization called the Michigan Milk Producers Association. This outfit operates the receiving stations which take milk from the farmers and distribute it to the large dairies in the cities.

The MMPA is supposed to be a cooperative organization owned by its farmer members. Actually the farmers claim that it is a "company union" controlled by the rich farmers and the dairies. Said one farmer: "We are supposed to get about \$4.41 per hundredweight for fluid milk, but by the time the MMPA takes its cut we end up with around \$3.75. Then, too, we don't get the full price for all our milk. The MMPA decides how much of our milk is surplus and pays us less for that part of it. We have to pay income tax on back" and other techniques to the 'share' of the MMPA that make machine-processes stable we are supposed to own, but we never get any dividends."

STRIKE IS CALLED

The milk strike was called by rebel group called the Fair Share Bargaining Association which was formed last September. Its most prominent leader Homer Martin, ex-president of the UAW. Martin now operates a small farm outside of Detroit and holds the position of "advisor" in the FSBA.

On Sunday, March 26, the FSBA announced that it would picket two major dairies in Detroit and asked all farmers to withhold milk from sale to the affected plants. The two plants, Dairy Co. were probably chosen because they are each organized

Said one young farmer on the Detroit plant: "If that's the labor movement, I'm disgusted with it. Reuther runs all over the place making speeches about how the labor movement is the friend of the farmer and when it comes to the time when he can show it, he lets CIO drivers cross our picket lines."
