# Stop the Nuclear Tests!

The world-wide demand to stop nuclear bomb tests, raised by scientists of unimpeachable authority and tens of millions of people, has run into one stall after another. The fateful issue threatens to become buried in the quagmire of diplomacy and doubletalk.

It is amply clear that at the very least there is grave doubt about Washington's assurances that all is well, that a "clean" bomb has "practically" been discovered. that it will be "virtually" free of deadly radioactive fallout, that it "appears" there is no risk involved in continued tests.

Are we to take the word of the brass hats on a question that involves the fate of the human race? Or are we to heed the advice of scientists of international renown, like Albert Schweitzer, who tell. us in forthright terms that to continue the tests invites disaster not only for our generation but for countless generations to come?

We socialists have never believed that disarmament was the solution to the constant threat of war in our epoch. We have said that the working class must destroy capitalism, the social system that breeds war. When the working class takes political power, then, and only then, will we be able to establish a world society free of the causes of war.

We don't say that stopping nuclear bomb tests is a panacea for war. If capitalism is allowed to continue, it will inevitably plunge the world into an atomic holocaust.

But the mass demands to stop nuclear tests, and the sober warning of devoted scientists, are an entirely different thing than the cynical maneuverings of war mongers who screen their war preparations with the camouflage of a disarmament conference table.

The popular demand to stop the tests poses the question: who should make the decision? We answer: Let the people themselves decide by referendum vote!

July 30-Colonel Carlos Castillo Armas, dictator-president of Guatemala, was shot to death July 26 by one of his own guards. The vice president, Luis Gonzales Lopez, a wealthy real estate dealer, was sworn in as provisional president the next morning and immediately decreed a "state of siege" putting the entire country under control of the Army. A government statement issued a few hours after the slaying claimed that the guard, Romeo Sanchez Vazquez, wno was in his early twenties, committed suiciae with his own rifle after having used it on Castillo Armas as the latter entered the palace dining room. It also claimed that documents in his personal erfects "proved' that the assassin was a "Communist," arthough no details were given.

Later it appeared that these documents consisted of a handwritten diary and some correspondence with a statt member of Radio Moscow's Latin American bureau. He spoke of the pain the year had brought: "To the suddenly released dreamer, nothing is so unreal as the world of reality. . But I choose to speak for those to whom disillusionment meant

Such "idiot's refrains" as Art is a Weapon, Socialist Realism. "What can be the attitude of the revolutionary party towards creative art?' swer: HANDS OFF!'

The tragedy of the artist today was graphically depicted: under art is indeed only a weapon in capitalism only the wealthy can the narrow sense, then someone afford him; under Stalinism he becomes a machine hack. # Soviet One-Party Rule -**CP's Views and Ours**

By Murry Weiss

John Gates, editor-in-chief of the Daily Worker, in his July 24 article, "The DW's Attitude on the Recent Soviet Changes," deals with the question of the one-party system in the Soviet Union. Gates presents the view that there is "no material base" for a multi-party system in the USSR; that the Soviet Union has gone beyond bourgeois democracy and is now faced with the expansion of socialist democracy. Socialist democracy has no need for more than one party, according to this view, because it is based on a society in which the class struggle has been eliminated and there are no social antagonism among the people that cannot be harmoniously expressed through a simple party.

Gates is merely repeating, in a stunned and dogged manner. the official litany of the Sovie bureaucracy which, moreover becomes increasingly incongru ous as the facts of life in the Soviet Union become known to wider and wider circles of Communist workers.

### AFTER 20TH CONGRESS

How can Gates talk of the lack of a "material base" for rival parties in the Soviet Union after the Khrushchev report to the 20th Congress of the CPSU? Is he joking? There is obviously no party and no independent mode of political life in the Soworking class political tendency that has escaped material destruction by the Kremlin rulers.

ten percent of the workers at union meetings buy the paper. Recently, the Trotskyist leader Humberto Valenzuela, a member of the leadership of the Workers Central (C.U.T.) was able to defeat a policy advocated by the Stalinists that would have led to street-riot adventures—a

policy that would have brought defeat without question in view of the split in the labor movement and lack of a clear 'objective. The Trotskyists proposed that the way to fight the rising cost of living is to prepare for a general strike with the demand for a rising scale of wages (the escalator clause, as it is called in the U.S.) and for additional Family Allotments."

Finally, the Chilean Trotskyists after a two-year campaign, were able to bring about the unity of the municipal workers who were divided into different and irreconcilable sectors. We participated in the National Congress of the textile workers at the end of June and are now preparing our participation in the Metallurgical and Construction workers congresses, and especially for the national congress

When milk drivers in Chicago earn as much as \$10.000 a year. railroad engineers \$600 a month and building workers up to \$5.00 an hour where is the zeal for a new workers social order to come from? It cannot come from a small group of intellectual thinkers who like to solve problems and publish intellectual papers like the Militant. The American worker is not interested in socielism. He has no soaring ambitions and the only altruism that he has is to give to the redfeather charity. The American worker does not read any thenretical labor paper. He reads popular junk like everybody else. No reforms in society seem to be coming from the well-paid American worker. He has his television set has he not?

Are intellectuals supposed to starve for this kind of guy? A better order of society will have to come from an increase in ethical ways or religious insight on the part of the masses.

The City got worked up over the Hungarians - so let's see what's done for slum-clearance. Last spring newspapers pictured tons of change collected by paperboys for "truth dollars" to send over seas. Either side could use a little truth. Right?

I don't mean to infer resentment that the Hungarians were aided. I like people helped, or helped to help themselves, specially when they are fighting or working for freedom or justice.

But in this case it is insincere, a phony sympathy expressed by people of another country when citizens of their own are neglected. It's like blaming people who live in slums for not helping themselves when it's all most of them can do to get shelter and food. It's like organizing White Citizens Councils or the Klu Klux Klan or making civil rights sound filthy. And it's like making politics out of human rights and dignity.

# A Piece of Demagogy

If ever there was a demagogic use of the civil liberties issue it is the attack on the civil-rights bill for not providing jury trails. Civil liberties for Negroes do not exist in the Deep South. It is wellknown that Mississippi juries, for example, hand out heavier penalties to white men for shooting deer out of season than for killing Negroes. Whereas Negroes are commonly framed up for criminal attacks on white women it is a man-bites-dog story when a Deep South jury assesses the slightest penalty on whites for raping Negro women or children.

Trial by Jim-Crow jury in the South is best exemplified by the brazen acquittal of the lynchers of 14-year-old Emmett Till two summers ago and the recent acquittal of the bombers of Negro homes and churches in Montgomery, Alabama. These and a thousand other cases answer the question whether Southern juries will act fairly in cases involving white-supremacy issues. To put a jurytrial clause into the civil-rights bill would be the same as tearing it up.

It is no news that juries can be so prejudiced that a fair trial is impossible before them. English-American common law has long recognized this possibility. That is why in many cases the defendant has the privilege of asking that he not be tried by jury but by the judge. It is: noteworthy that in some recent witchhunt trials some defendants have availed themselves of this prerogative.

Another legal provision to protect a defendant from a prejudiced jury is request for a change of venue. That is to

transfer the trial to an unprejudiced locality. But this provision only foresaw local prejudice and not prejudice in a whole section of the country. Thus there can be no change of venue of a case out of the Deep South to, for example, Ohio or

There are some 28 federal statutes providing for juryless contempt-of-court proceedings. Almost every state in the union has similiar statutes. The demanders of a jury-trial amendment to the present civil-rights bill have never objected to these as violating civil liberties.

What precisely is the "civil liberty" the jury-trial proponents wish to protect? cial system of the South; 2) the The right of white supremacists to prevent Negroes from voting! If the racists marily interested in the money do not attempt this there will be no contempt-of-court proceeding. Moreover, if they are cited they can quash the proceedings simply by letting Negroes vote.

Labor has had a long and bitter experience with government by injunction. It was and remains an example of the perversion of the law by a pro-capitalist judiciary. But because of this labor should not as long as the labor leaders can agreement. Control of Congress could only split the Democratic be taken in by the false arguments of the union-busting Dixiecrats.

Civil liberties aren't a set of phrases dropped from the heavens. They are the result of the centuries-long struggle of the people to protect themselves against selfish ruling classes and governments. To defend what has been won in the past placed segment of the workingand to extend real freedom into all fields class vote is that of the Negro of life should be the aim of the labor people. movement. > But Negro militancy, instead of diminishing after election day, has increased. The struggle in the Deep South, exemplified in the Montgomery bus boycott, has aroused the whole Negro people and millions of white allies to a fighting mood. The Democrats and Civil Rights

The spearhead of all the moves to gut the already weak civil rights bill with a host of amendments has subsequently been led yard, Liberal Anderson (D-N.M.) introduced the amendment cutting the civil rights section from the bill, thus reducing it solely to a right-to-vote bill. Liberal Mansfield (D - Mont.) exerted great efforts in lining up votes for the amendment. Eleven liberal Democrats voted with the Dixiecrats in this successful emasculation of the bill.

Brazen in his anti-civil rights labor, liberal O'Mahoney (D-Col.), who has been one of the most vociferous opponents of the bill, has introduced an amendment to render ineffective the voting right section - the only meaningful part left in the bill. Co-sponsoring this amendment are liberals Church (D-Idaho) and Kefauver (D-Tenn.), who campaigned for the Democratic presidential nomination by talking to the left of Adlai Stevenson on the civil-rights issue.

But this is only their present difficulty - the future abounds in more. To win the 1958 Congressional and the 1960 presidential campaigns the liberal Democrats and the trade union bureaucracy will have to counter the Republican bid for Negro support. The powerful Dixiecrat wing of the party will put its foot down on any suggestion of further civil rights legislation.

### NEGRO-LABOR UNITY

To prevent a split in the working-class votes the Negroes must have an alternative to voting Republican. This alternative can only be a new party, a Labor Party, based on the unions, working farmers and oppressed minorities. Between the Republicans and such a party the Negro people would not hesitate. They have no illusions about the good faith or permanence of the overnight conversion of reactionary Republicans to civil rights. They would have every confidence in a party based on the unions and in which they had a proportionate share of control, candidates and participation in platform-drafting.

Incorporated in the Southern strategy is an attempt to bribe the AFL-CIO into supporting emasculating amendment. This was done by drafting the jury-trial amendment so that it would also apply to injunctions used against labor.

The open bid to the labor bureaucracy by the white supremacists was immediately branded by James B. Three days later the executive

committee of the AFL-CIO issued a statement opposing the amendment. John L. Lewis, on the other hand, took the bait and Democratic majority leader Lyndon Johnson of Texas gloatingly read Lewis' telegram of support into the Congressional record.

The labor bureaucrats have been put on the same spot by the Republican drive to pass a civilrights bill as the liberal Democrats. Labor leaders for years have been committed in words to support of civil rights .Their political ties, however, are al most exclusively with the Demo cratic Party. For years the labor leaders have abetted the liberal Democrats in the con game of garnering Negro and labor votes on the civil-rights issue only to sell out by introducing civilrights bills prearranged to die in committee. This kept the lib eral Democrats happy - they "made the record"; it kept the Dixiecrats content - no bills were passed; and it kept the

the Republican civil-rights bill. The Dixiecrats and those liberal Democrats who are plugging the jury-trial amendment obviously had reason to believe that they stood a chance of winning AFL-CIO support. There is no doubt but that there is a division on the issue in the AFL-CIO top leadership. Moreover, IUE President Carey's immediate and strong denunciation of the offered bribe to labor, indicates that he aimed to scotch any move to put labor on record for the amendment. It should be recalled that last April Carey resigned as head of the AFL-CIO Civil Rights Committee declaring that it was not allowed to do anything.

The AFL-CIO top leadership's rather tardy rejection of the amendment means that the labor movement will continue formal support of the bill. However, this support is far from enthusiastic or dynamic. The union press utters the words of support but there have been no real moves by the unions to mobilize sentiment and bring pressure on the politicians.

DETROIT, July 28 - Yesterday was the last day for filing in Detroit's municipal elections, and this is how the picture stacks up today:

The Big Business candidate for Mayor is Louis C. Miriani, president of the Common Council, and a carbon copy of retiring Mayor Cobo, a consistent reactionary.

The powerful labor movement here refused to nominate anybody to run against Miriani, even though his record is so poor that the CIO had to deny him endorsement in some of his previous campaigns for office.

Altogether, twelve candidates are seeking the two nominations for Mayor in the Sept. 10 primary, but most of them represent only themselves and are either Democrats or Republicans. although the "non-partisan" regulations in this campaign bar any political designations on the ballot.

The only one of them who is opposing Miriani from the left is Sarah Lovell, campaigning with the endorsement of the Socialist Workers Party.

Seventy-seven people also have filed for the nine-member Common Council, from whom 18 will be nominated in the primary. Included are all eight of the incumbents who together with Miriani make up the present Council.

Sarah Lovell, only woman in the mayoralty race, pitched a hot potato to her chief opponent Tuesday. She peti-tioned the City Council to adopt a resolution urging Senate passage of the civil rights bill.

# Negro Representation in Detroit

DETROIT, July 28 - One of the encouraging aspects of the election campaign this year is the growing movement to elect one or more Negroes to the Common Council long overdue in a city where more than one out of every five people is colored, but where the Council remains lily-white.

Sarah Lovell, the only candidate for Mayor who supports the fight for Negro representation in government, had urged the Negro organizations to confer, adopt a platform, and pick one or two candidates for Council who would be truly representative of the Negro community and independent of the capitalist par-

The picture will not be clarified until later this week. when the period for withdrawals will expire. Mrs. Lovell is expected to have a statement then presenting the socialist attitude on this important question. The Socialist Workers Party
