Jobless Put Heat on Top Bureaucrats

FEB. 17 - With more than five million unemployed and few jobs in sight, pressure is mounting sharply on the top officialdom of the AFL-CIO to do something, This pressure was behind the reported proposal yesterday to the AFL-CIO Executive Council that it organize a mass jobless "March on Washington" to compel Congress and the President to act. The proposal came from Walter Reuther, president of the United Auto Workers and a vice president of the AFL-CIO.

According to reports from San Juan, Puerto Rico, where the union high command is holding its winter meeting, AFL-CIO president George Meany was "cool" to the proposal.

But the very fact that such a proposal could penetrate into a council so remote from the ranks as this conservative body, indicates how bitter the millions of unionists now walking the streets feel about the situation.

Reuther first proposed a march on Washington in a speech at the Michigan AFL-April 7 election. "Instead of 6. "More of Kansas than the Kremlin" Politics and History as Foster Grinds Them

(This review of James P. Cannon's "Notebook of an Agitator" appeared in the Manchester Guardian Weekly, Dec. 4. Although we disagree with the reviewer's attitude toward socialism and many of his judgments of the book, we believe that our readers will find what he says of interest. It is noteworthy that a writer on the capitalist side of the fence admits admiration, grudging though it may be, for a collection of articles wholly dedicated to the socialist cause. - Editor.)

Hidden away in side streets, or imperfectly visible on newspaper stands, there can be found in America the vehement, entertaining, and often touching publications of the minor sects of American radicalism. They recall a glorious past, they preach a redeeming future. But in the world of Eisenhower and Rockefeller, Reuther and Hoffa, they are little marked. They do not even compete for attention with the dwindling American Communist party and the vast majority of the American workers do not know that these prophets and deliverers exist.

At first sight, then, it would seem to be love's labor lost to reprint over a hundred articles from the pen of Mr. Cannon. For he has fought a number of losing battles over the past thirty years and his occasional victories have been taken over by imposters. He preaches to the converted, with the assurance of a Pentecostal prophet. Marx was right; the contradictions of capitalism are ineluctable. Fascism is a necessary result of capitalist crisis; it can only be defeated by a workers' movement that is doctrinally alerted.

Alas, the workers do not listen. "Labour skates" trick their dupes. The politicians befog the issue and the Stalinists falsely claiming to be Communists lie and betray as they have done for a generation past. In the not very long run Mr. Cannon and his fellow-Trotskyists, so they are convinced, will prove to be right; at the moment they are simply ignored.

Nevertheless, it was a good idea to reprint Mr. Cannon's articles. For they remind us, what we easily forget, how old is the tradition of revolutionary violence in America. In this age of "togetherness' it is easy to ignore this part of the not very remote American past, when the new state of Oklahoma was largely Socialist and when the migratory labourers, the miners and the lumber workers, provided the backbone of the I.W.W., "the Wobblies," produced genuine heroes and martyrs like Joe Hill - and less impressive figures like "Big Bill" Haywood.

It is out of this world that Mr. Cannon comes, a very different world from the overwhelmingly immigrant society that gave its numerical strength to communism in New York City. Mr. Cannon is a disciple and devotee of Lenin and Trotsky (did he not see Lenin plain in 1922?), but he was before that a disciple of Vincent St. John, who, if not a model informed Marxist-Leninist teacher, was

The Powell-Schuman Case

We agree one hundred per cent with the National Guardian which said in its "Report to Readers" Feb. 9: "A strong fight now can prevent the Powell-Schuman Case from becoming a new Rosenberg-Sobell Case.'

Certainly it would be folly to take a hopeful, they - can't - possibly-go-throughwith-it attitude towards the sudden and ominous turn in the government's charge against the Powells and Schuman from "sedition" to "treason." The sedition charge carried the maximum penalty of 20-years imprisonment; the treason charge can mean death.

In 1956 John W. Powell, his wife Sylvia and a former associate editor, Julian Schuman, all U.S.-born citizens, were indicted on a "sedition" charge for what they had written in China Monthly Review published in Shanghai during the Korean War.

The Powells and Schuman were bitterly opposed to U.S. policy in the Korean war and published the facts as they saw them about U.S. conduct of the war. Since 1956 the three have been hounded and persecuted as the government prepared its case against them. Finally, after three years, they were placed on trial Jan. 26 in San Francisco.

Immediately it became evident that the government's sedition charge didn't have a legal leg to stand on-after three years of preparation! But Federal Judge Louis E. Goodman, in a strange colloquy

Jan. 29 with government prosecutor Robert Schnacke said that "the evidence so far presented in this case would be prima facie . . . sufficient to sustain a verdict of guilty under the treason statute."

The sensational exploitation of the judge's remark on "treason" by the newspapers led to the granting of a mistrial on Jan. 31. Prosecutor Schnacke quickly agreed to the ruling. Then within an hour he submitted a treason charge against the Powells and Schuman and demanded that the three be held without bail. It is expected now that the government will get a treason indictment from a grand jury by Feb. 26. A further hearing before the court has been scheduled for March 2.

Compensation for the Duration

We think that the organized labor movement ought to throw its full weight into the fight for jobless benefits covering the full duration of unemployment. There are at least 1,500,000 unemployed who have exhausted all compensation benefits and who, according to UAW president Walter Reuther, have become so "discouraged" over the prospect of finding work that they have simply stopped looking. To the cruelly complacent Democratic and Republican office holders, these men and women have "disappeared" from the jobless lists. They don't even count as cold

At least another 320,000 will be left totally stranded April 1 when the federal government ends its temporary extension of state unemployment compensation. On Feb. 18, before taking off for Mexico's beautiful Acapulco beach, Eisenhower said that he saw no need for continuing such aid "when we are in a curve of rising often guaranteed for life. prosperity."

What to Do About the Krupps

The House of Krupp - the German "cannon king"— is now 148 years old and more powerful than ever. Last year the gross was more than a billion dollars, the biggest since Hitler. Sole owner Alfred Krupp netted at least \$80 million.

In 1917, Americans sent to fight and die to "save the world for democracy," were told that success would end the evil power of Krupp, whose munition plants armed the Kaiser. America won. But somehow the Krupps didn't lose. They even prospered. They helped Hitler to win power and armed his Nazi legions.

Came World War II and again Americans were sent to die to "save the world for democracy" and end the evil power of Krupp. America won. It looked like the Krupps were finished. Alfred Krupp was convicted as a war criminal for use of slave labor. He was sentenced to 12 years

Three years later American authorit-

As the sale deadline approached, Krupp said he was sorry; he couldn't find a customer. So the Allied authorities obligingly let him buy a big steel fabricating plant and gave him "another year" to

A correspondent drawing the historic lesson of all this concluded that there had been an "effort to pressure Mr. Krupp" but that it was "unsuccessful."

Some commentators ask what can be done? Is the alternative to raze the Krupp industrial complex and plant grass there instead? We think not. Taken out of capitalist hands, these vast plants could con- saying he had concluded, after tribute mightily to building a socialist discussion with "leaders of or-Germany that would help guarantee a ganized labor and other interworld of enduring peace. That Plane

A simple fact emerges from the current propaganda barrage around the United States military plane which crashed or was shot down over Soviet Armenia last Sept. 2. U.S. forces have been flying planes into Soviet territory ever since the end of World War II. They do this in order to gain information about Soviet defenses and to test the alertness of the Soviet armed forces. Usually these planes escape; but occasionally one crashes or is shot down.

The practice of violating Soviet borders in this fashion has not been confined to the U.S. In Great Britain a young man was recently jailed for divulging secret military information after he published a first-hand account of how British forces engaged in their own version of "Russian roulette" by sorties to test Soviet defense reactions.

When planes are lost behind Soviet borders as a result of this dangerous game, made the offer of a 30-hour the relatives of the men involved have to bill without first consulting be notified. Purges Haunt Stalin's Heirs

In the Feb. 19 Reporter, Isaac Deutscher, well-informed commentator on Soviet affairs, tells about a debate in the central committee of the Soviet Communist Party when Molotov and Kaganovitch reportedly sought Khrushchev's ouster.

According to Deutscher, "each side dragged skeletons from the family closet. At one point . . . Khrushchev dwelt on his adversaries' responsibility for the great purges of the 1930's-the topic invariably recurring in all secret debates since Stalin's death-he pointed at Molotov and Kaganovitch and exclaim-

Clevelanders **Hear Williams**

CLEVELAND, Feb. 16 - An audience that packed the meeting hall at the AFL-CIO Butchers' Building here on Lincoln's Birthday listened intently as Robert F. Williams, chairman of the Committee to Combat Racial Injustice, told why Northern communities like Cleveland should support the civil-rights fight in Union County, N.C., where the Chamber of Commerce openly boasts, "There are no unions in Union County!"

"The Negro struggle against discrimination and labor's struggle to organize and to maintain union conditions go hand-inhand," he said. He pointed out that Union

County officials have been conducting a campaign to attract run-away shops from the North, providing inducements like free land, no taxes, cheap labor and no unions. Plants that employ Negroes in the North have moved to the South, where they conform to the discriminatory pattern and employ Negroes only as janitors, if at all Thus the Northern workers are left unemployed, the Southern white workers are exploited at substandard wages and the Negro workers benefit not at all.

Harvester Workers Find New Contract Difficult to Swallow

CHICAGO - Everyone is back on the job at the Inernational Harvester chain but many workers are dissatisfied because a lot of the issues in their nine-week

strike are still not settled. Official accord between the company and the United Auto Workers was reached Jan. 19 and 32,000 unionists returned to work. Another 5,000 stayed out for several more days at the Harvester plants in Louisville, Ky., and Rock Island, Ill. The Louisville workers re-

mained out in support of a strike by members of the International Association of Machinists. Unsettled local grievances were at stake in Rock Island. The workers at both plants were forced back by the top officers of the UAW who branded their action a "wildcat" strike and cut the ground under them by removing their strike benefits. Extent of workers' discontent was indicated when the back-to-work vote at Rock Island carried by the slim margin of 587 to 571 despite the heavy pressure by the union

Meanwhile, it's still an uproar at the Chicago Tractor Works. Shortly after the settlement, 85 forge shop workers walked off the job again. The forge shop has been in the forefront of the grievance battle for a long time. One union bulletin described the situation this way:

District 65 Fights N.Y. Sales Tax

NUMBER 8

NEW YORK, Feb. 18 - A pledge to wage a vigorous campaign against Mayor Wagner's plan to boost the city sales tax to four per cent was made today by leaders of District 65, Retail-Wholesale & Department Store Union, AFL-CIO.

The union, which includes thousands of retail clerks in the city, pointed out that an increase in the sales tax is equivalent to a wage cut for workers. It also said that it will mean a loss of retail sales in the city with a consequent drop in store employment.

A spokesman for the union said that the city AFL-CIO council also intends to join the fight against the tax increase.
