By Harry Ring

NEW YORK, May 27 - With an unprecedented amount of support from the rest of the union movement, almost 2,000 employes of six private hospitals are standing firm in the 20th day of their strike for union recognition. Their solidarity has not been shaken by injunction-happy judges, the threatened jailing of two union leaders, arrest of pickets or moves by an allegedly pro-labor mayor to drive them back to work

The striking members of Local 1199, Retail Drug Employes Union, AFL-CIO, have won wide public sympathy for their cause despite a campaign of vilification by most of the daily press. Hypocritical editorials about the plight of the patients cannot erase the fact that the hospitals have been paying scandalous wages of \$32 to \$38 a week to the bulk of their employes, 85 per cent of whom are Negroes and Puerto Ricans.

#### COURTS HELP BOSSES

As usual, the courts are on the side of management. A state supreme court justice in ner's police stepped up their Brooklyn has meted out a 15- drive against the union. ## **Knows Who Killers Are But Turns Names Over** To Racist Governor

By George Lavan

FBI withdrawal from the case of Mack C. Parker, 23-year-old Negro lynched April 25, came as a bitter blow to those who hoped to see Mississippi's murderous racists brought to justice.

According to an Associated Press story (May 27) the FBI had identified about ten members of the masked lynch moband had turned over all its information about the crime to Mississippi Governor Coleman. But the FBI didn't wait around for any arrests, and Gov. Coleman announced he would do nothing with the FBI report till next November when the Pearl River County grand jury met. Meantime the report would be kept secret and by state law a grand jury need not divulge information presented to it for another six months.

The FBI, which will spend years hounding a person with leftist political ideas who has committed no crime, decided to stop its lynch probe after exactly one month's activity. J. Edgar Hoover exercises a free hand in determining what and where his agency may investigate. He determines in very elastic fashion whether on the basis of possible federal violations to prolong or curtail investigations. ## The Chivalrous South - Alabama Legislature Style

How does a racist think? Last week's debate in Alabama's House of Representatives over a controversial "illegitimate" child bill provides a damning example. The bill, passed by the House 58-22, would cut off welfare aid to children whose mother has more than one child born out of wedlock.

Rep. H. B. Taylor of Butler County sponsored the bill. In reply to opposition he said "All this bill does is try to stop those Negro women from raising those illegitimate, bastard children who some day will grow up and outvote us." (Montgomery Advertiser, May 20.)

investigate this story? No, it has withdrawn from the case.

Furthermore, if the auto caravan did murder Parker without crossing into Louisiana beforehand, what about afterward? Did it turn around in the midinvestigation the FBI stated that dle of the bridge or did it have no violation of federal law was to cross over to Louisiana to

for collusion of Mississippi officials with the applies when state lines are lynchers, Negro reporters have crossed in connection with the dug up enough evidence to crime, and (2) an old law cover- warrant a great deal more investigation. The jailhouse keys, always taken home by the jailer, were left that night in the office and the lynch mob knew exactly where to find them. When the "surprised" sheriff got to the jail some 20 minutes after Parker's brutal abduction. a white companion asked him "Did they get the right one?" The very transfer of Parker from a safe jail in the state capital to the unguarded Poplarville jail smacks of collusion.

> It has now come out that the lynchers proceeded to the jail

# The FBI Grads Take Over Debate Is Lively at British Socialist Parley "Industrial Relations"

By Henry Gitano

Besides compiling a master blacklist for the employers and spying on labor meetings, the FBI supplies management with a trained corps of FBI "graduates" to staff their personnel or "security" departments.

Business Week in July 1946 told its readers: "Labor Relations is another natural for the old grads. FBI experience has taught them not only how to handle personnel but to know what is going on within groups.

Albert J. Tuohy, "security" director at Republic Aviation, is one such "old FBI grad." In the October 1954 issue of Factory Management and Maintenance, he advises on What You Can Do About Communists in Industry." Tuohy says the answer is "Fire 'em. And that's exactly what we did to 250 of them this year. Of those 250, only 15 were Communists. No matter. They all get the same

Describing the work of his "security" organization in which all but one are ex-FBI agents, Tuohy elaborated: "We're alert to which men are becoming prominent in plant organizations. . . . We know who is running for office and who has been elected in the various organizations. A quick look through personnel and security files tells us all we need to know."

### "Once a G-Man . . .

Dick O'Connor, in his 1939 book, G-Men At Work, stated that "All the publicity and the carefully nurtured tradition that G-Men are super-detectives has impressed business men. . . . Hoover encourages his men to accept such [job] offers.'

Business Week observed, "Once a G-Man always a G-Man. . . . Relations with the old chief are cordial, almost reverent."

A national convention of former FBI agents was reported in the Nov. 11, 1955 Detroit News: "Detroiters include people like John T. Lynch and E. Walter Butler Jr. who with a staff of former FBI agents find out for employers whether their employees will strike or not. There are better known Detroiters too, like John S. Bugas, Ford Motor Co. vice-president in charge of industrial relations, former head of the Detroit FBI office, and his 26 former FBI men who make up a unique group at

Harry Bennett, who once ran Henry Ford's "security" organization and headed the drive against unionization by the CIO, reports in his book, We Never Called Him Henry, that "While Bugas was still with the FBI, Edsel [Ford] began using him as his own source of information." A Boston Globe headline in December told its readers: "FBI paid Bugas \$6,500, Ford Salary \$183,785." Quite a graduation present!)

Business Week, after noting that Bugas employed "subtle tactics" against the UAW which he learned while with the FBI, also listed some of the other FBI "grads" in personnel work: William Larson, advisor on labor relations, General Motors; Wayne K. Listerman, director of personnel, Eaton Manufacturing Co.; John Hanson, personnel director at Lockheed Aircraft.

FBI graduates have organized the Society of Former FBI Investigators, with offices on the 16th floor at 274 Madison Avenue, New York City. The Society has 3,700 members and 36 active chapters. It runs a placement bureau and acts as a clearing house for its sleuthing membership.

The Society's national convention "is always attended by high-priced executives from companies like GE, GM, IBM, Westinghouse and Lockheed," says an NEA feature article in February 1958. Undoubtedly the big shots are hunting talent to staff Tuohy-like personnel departments.

The Society's magazine, the Grapevine, (April-May 1957) tells how the boys are making out. It reports, for instance, that "Ivor E. (Bill) Nitschke (1935-1945) . . . has gone into the investigation business under the firm name of Gross and Associates with offices in the Subway Terminal Building, 417 South Hill St. Los Angeles 13.

"Bill announces that 'I have associated with me a group of competent professionals in the field of security surveys, specialized investigations, business consultation, pre-employment screening, polygraph examinations, undercover assignments and the use of professional investigative equipment'."

Again, Grapevine reveals that H. E. White is now personnel director at North American Aviation, Downey, Calif., and Herbert T. Brunn is in charge of personnel with RCA's International Division. At Milwaukee's Miller Brewing there's a trio of FBI "old grads": Frank Grassy, director of industrial relations, his assistant John W. Siler and Joseph Fellner, investigations, Leslie Grady is supervisor of industrial relations for Westinghouse at Little Rock and Philip Cease is with Olin Mathieson

(Incidentally, the Grapevine is unavailable either New York's Forty-Second Street Library or the Library of Congress in Washington. I went to the Society's office and asked to see a back file. The office secretary, Fran Keogh, told me: "Libraries have requested it, but it is unavailable to outsiders. We are very security conscious." I obtained the April-May 1957 issue only by accident.)

"A group of ex-FBI men now form Michigan's biggest 'professional' investigative conference I have ever been to, agency," reports Fortune (May 1956). Frank Bielaski who according to the Reporter (Feb. thing is free and open. We all 10, 1955) has rounded up 42 former FBIers -"his favorite employees" — on a single as- is no other political group signment, peddles private political inquiries where you could do this. The and boasts that he "has been able where only thing I am sorry about is necessary, to penetrate and explore the com- that I am not fifty years young- gue is as follows: Since 1956, a guide the working class forward munist underground as a measure of the security which is furnished important industries."

The N.Y. Post last July 9, exposed a private organization, the American Security Council, with a file of over one million names and a \$100,000 yearly budget, which supplies giant enterprises with dossiers on workers. This Labor Party. The right-wing, outfit devoted to the hounding and harassing of job seeker's was founded in 1955 by William Carroll, a former FBI agent, and is currently bossed by ex-FBI agent John M. Fisher, who was with the N.Y. Office of Communist Investigations, and Robert J. Wilson formerly head of the Chicago FBI's "subversive" squad.

In April 1947, three ex-FBI men - Ken Bierly, Ted Kirkpatrick and John Keenan set up American Business Consultants in New three members have been ex-York. In addition to publishing Counterattack, subtitled "Facts to Combat Communism," they provided special reports, charging fees from five dollars to five-figure sums. Information was provided by these specialists to business clients on ridding their enterprises of so-called

#### "Red Channels"

Counterattack's most infamous special report was "Red Channels" in 1950, designed and used as a bible for blacklisting in the entertainment field. The former FBI men sat in judgment over 151 actors, producers, directors and writers. They whipped up hysteria and demanded firings.

Counterattack exhibits a remarkable interest in the labor movement generally. Thus, in its April 3 issue, appear articles dealing with the Steel, Jewelry and Electrical Workers unions. All names are underlined.

In its study of "The Private Eyes," the facet of the close liaison between private and government snoopers: "George F. Keefe, chief of Dun and Bradstreet's investigative staff which includes 2,000 full time 'reporters' and 20,000 'correspondents' — points out that 'As program based on the real needs soon as the question of loyalty develops in a case, we cease our own investigation immediately and turn our information over to the FBI, then getting the FBI's permission to notify our client of the circumstances.' The average employer reacts to such notification promptly and decisively! The worker is fired, and solely on the basis of what may be

delegates met in London at the inaugural conference of the Socialist Labor League on May 16, 17, and 18.

"It was a historic gathering which proclaimed clearly and confidently the intention of building a powerful movement to defeat the employers' offensive and lead the working class forward to workers' power and socialism," writes Patricia Mc-Gowan in the May 23 Newsletter, weekly journal of the League.

The delegates were men and women from every major industry and trade union in the country - over a hundred of them members of the Labor Party. It was a youthful conference. Forty-two delegates were between the ages of 20 and 30. Four were under 20 and the average age was 291/2. But there were old-time revolutionary socialists among the delegates too. The oldest delegate was Frank Parkinson from Liverpool, a 70-year-old pensioner and former boot and shoe worker. He told Patricia McGowan: "This is the most marvellous and I have been to 200. Everysay what we want to say. There

#### PROTEST OVER BAN

The Socialist Labor League is revolutionary-socialist policy group within the unions and the let Communist Party's 20th Conbureaucratic leadership of the lution. Their first joint venture followed ruling-class strategy in Labor Party has proscribed the League and the Newsletter, and Peter Fryer, one of the prominordered local units to expel League members. This has brought so much protest within distinguished itself through its gentlemen speak and act in acthe Labor Party that so far, according to Gerry Healy, the League's general secretary, only pelled. Healy's own unit in London refused to exclude him from membership, though he is widely known as the League's leading spokesman. The May 23 Newsletter prints a statement passed by the executive council of Victory for Socialism, another policy group within the Labor Party, deploring "the recent bans, proscriptions and expulsions because we feel that group to found the Socialist the aim of the Labor Party should be to maintain the widest PERIOD OF STRUGGLE unity of diverse elements in the movement . . ."

"It is inevitable that some people will be expelled from the Labor Party," Healy told the conference, "but we have more supporters in the Labor Party gle. Marxism is a science to tcday than ever. We are recruiting more people than ever before

The Socialist Labor League conference had three main tasks. (1) To work out a policy and of the British working class. (2) To draw up a constitution for the League. (3) To further the the annual conference of the people who cannot send their toward the establishment of a campaign against the right-wing Ceylon All Island Congress of children to the same schools as Sama Samaja Government in leaders' ban against the League. came Stalinized in 1924. "They are afraid that Marxism will take root among advanced workers and young people at a time when the employers are intensifying their offensive."

The League was the direct outcome of the struggles in Britain of the last twelve months, Healy said. When the situation began to change in the country, it became clear that changes would take place in the Labor Well, enclosed is \$5 to the policies of thousands of workers throughout Britain.

(The background of the Lea-

# Urged for W. London

(The following are excerpts from an editorial in the May Newsletter outlining Socialist Labor League policy on racial disturbances on Notting Hill in West London.)

The Socialist Labor League believes that the manifest inability of the police to prevent violence [against Negroes] in west London makes it imperative for the only organized force that is capable of affording them the necessary protection to do so That force is the Labor movement, Our suggestion is that a conference be held in west London of local Labor Parties, Communist Party branches, union branches, trades councils and shop stewards' commitees, together with representatives of colored people's organizations. This conference would consider the formation of local defense committees, consisting of white and colored trade unionists.

The primary task of these committees would be to carry out propaganda among white youth in the affected areas, answering the inflammatory statements put out by fascist organizations, explaining that colored people are not their enemies, but that capitalism is the common enemy of white and colored workers. Explanations should be given, too, about the real causes and real character of the immigration to this country from the colonies, and about the real nature of racialism and imperialism.

The defense committees would also provide protection where colored people requested it, escorting them and guarding their homes from attack where necessary. . . .

As a matter of fact, the Common Law makes it the duty of citizens to prevent a breach of the peace if the police do not do so. The Committee for African Organizations has just written to the Prime Minister, declaring that "colored citizens of the United Kingdom . . . have lost confidence in the ability of the law-enforcing agencies to protect them." Has not the organized Labor movement a duty to these colored citizens? The Socialist Labor League thinks that it has.

## **Dulles**

Chilon, one of the Seven Sages of Greece, seems to be in vogue among both Democrats and Republicans. In the case of Dulles, at least, they are religiously following the ancient wise man's advice: "De mortuis nil nisi bonum." (Of the dead be nothing said but what is good.) In fact some of them go so far as to suggest that not even the history books will express anything about the late Secretary of State but admiration.

The death of the Republican administrator of foreign policy happened to occur as Gen. Marshall, the outstanding administrator of foreign policy under the Democrats after World War II, lay in a hospital visibly nearing the end. The place of both men in history — as they themselves no doubt expected - willeventually be assessed in relation to the bi-partisan policy with which they did everything to associate their names. From this viewpoint they were colossal failures.

State Department spokesmen ascribe the cold war to the Soviet Union, fixing its origin vaguely around 1946. They picture the Truman Doctrine and the Marshall Plan of 1947 as "defensive" measures. Observers more inclined to accuracy set Churchill's warmongering speech in Fulton, Missouri, March 5, 1946, as the beginning, or possibly Truman's ouster of Henry A. Wallace from his cabinet on September 20 of that year after the former Vice-President warned in a sensational speech that it would be a mistake to "get tough with Russia."

But the cold war began earlier than that — as early as October 9, 1945, the date on the biennial report made to the Secretary of War by Chief of Staff Gen. George C. Marshall.

This instructive document was issued only five months after the surrender of Germany and two months after the surrender of Japan, when the Soviet Union was still America's ally. It scoffs at the possibility of peace. It projects World War III and the desirability of preparing for it. Marshall saw the new war beginning where World War II left off - with nuclear weapons.

The only adequate defense, said the American general, was the "power of attack." (The power of "massive retaliation" was the way Dulles later put it.)

Phrases like the "containment of communism" were used to describe the policy. Its substance was the construction of the greatest military alliance and military machine the world has ever seen.

It was directed against freedom movements in the colonial lands and the socialist aspirations of working people everywhere. It sought to shore up the battered capitalist economies that survived World War II. It aimed at upholding beleaguered dictatorial regimes like that of Chiang Kai-shek. It sought to convert Germany and Japan into springboards for an eventual attack on the Soviet Union. It sought to maintain a monopoly of the atom bomb as the U.S. began testing and stockpiling the weapon which Gen. Marshall himself admitted could "destroy" mankind.

The evidence is overwhelming that the blueprint projected an eventual war that would give American capitalism domination of the earth and that the timetable first drawn up envisaged only a few years preparation.

The concomitant of this utterly reactionary foreign policy was a witch-hunt at home in order to stifle all political op-

position. The witch-hunt began under the Democrats with Truman's "loyalty" purge and reached its height under the Republicans with the spread of McCarthyism.

Where does this policy stand today? It is true that Marshall succeeded in saving capitalism in countries like Italy and France, although it took the help of Stalin to do it. It is true that figures like Franco and Syngman Rhee still appear powerful. And we are still suffering a hang-over in America from McCarthyism.

But the overhead cost was to make America the most hated power on earth - more hated perhaps than Hitlerite Germany was in its time.

And it is clear, as other hands take cuous with ducks." over furtherance of the policy from Dulles' hands, that its main purpose to give America domination of the world - cannot possibly be attained.

The gigantic failure is not due to personal faults in either Marshall or Dulles. The estimate of their admirers that they were about the best to be found among capitalist statesmen in our time is probably accurate.

## The Rabbit's Wedding

Alabama officials have really invited trouble for themselves this time with their decision to ban "The Rabbits' Wedding," a children's story about the wedding of a black rabbit and a white rabbit.

For some time now, racist authorities have been knocking themselves out just trying to keep people segregated by color. And if this gives them headaches, wait till they get into the animal kingdom.

Take those rabbits that they decided to begin with. Obviously they can't stop with a simple ban on pictures of rabbits of different colors defying the laws of segregation. If a mere picture is sufficient to corrupt children of tender age what in the world must go on in their little heads when they see actual rabbits frisking around unsegregated in the cabbage patch?

· Clearly, a special game warden's division will be required just to enforce Alabama's color law among the rabbits. How big a job this will be is indicated by the well-known proclivity of rabbits to multiply quickly in defiance of all established rules and customs. (Furthermore, what they'll do about black-and-white rabbits we don't know.)

And they certainly can't stop with What will really measure the rabbits. By John Thayer

'Violence'

VOLUME XXIII

Those seeking effective measures in the Negro struggle for equality will have their eyes fastened June 3 on the national office of the National Association for the Advancement of Colored People. That is the day on which the great policy question involved in the battle of Roy Wilkins vs. Robert F. Williams will get an official hearing.

NAACP head Wilkins is fornally demanding that Williams, president of the Monroe Union County, North Carolina NAACP branch, be removed from office because of his statements that Negroes should "meet violence with violence" when attacked by racists. Though he was speaking as an individual and not in the name of the NAACP, Williams is sticking to his guns on the rightness of his prescription for Negroes, individually and collectively, to arm and defend themselves.

The hearing will be before Branches, presided over by Judge Hubert T. Delany. After tion in 1948 for admitted mem- give full support to James Kutwill make a recommendation to Party. the NAACP national board which meets on June 8.

Through his attorney, Conrad Lynn, Williams had requested that the hearing be open to the press and public and that he be permitted to introduce witnesses. According to the May 30 N.Y. Amsterdam News the hearing will be closed to the press.

#### WILLIAMS' BRIEF

Part of Williams' defense will be a 14-page legal brief which traces in federal and state laws attack. It further demonstrates that all Americans are fully entitled to make the "citizen's arrests" which Williams is urging Southern Negroes to invoke against racist assailants.

"It is submitted," the brief continues, "that taking the entire Williams' statement in context and the meaning given by him to that statement, he has formulated the classic privilege of self-defense accorded under persons. Surely, NAACP policy cannot deny that privilege to fore . . . Williams' statement

# Notes in the News

ON KREMLIN'S INDEX LIBORUM PRO-HIBITORUM - Novelist Howard Fast, who broke with the Communist Party after the Khrushchev revelations, was the subject of a lengthy attack by the official Soviet news agency, Tass. A one-time Stalin Peace Prize winner, Fast was one of the most popular authors in the Soviet Union, his books selling in millions of copies. The Tass diatribe said that "when ideals wither literature becomes petty."

"FREE WORLD" MOVIE BLACKLIST -After substantial prodding, the United States Information Agency provided a House Appropriations subcommittee with the names of 82 movies that it had blacklisted against showing in a dozen countries abroad. It was explained that the banned films gave a "false" picture of life in the United States. The blacklist includes such varied titles as "All Quiet on the Western Front," "The James Dean Story," "Salt of the Earth" and "Somebody Up There Likes Me." A congressional supporter of the blacklist said that if film distributors were true patriots they wouldn't want to send such films abroad "even

for the profit motive."

FLEXIBLE POLICY ON CHINESE SHRIMPS - After weeks of soul-searching and legal study, the State Department resolved a thorny security problem. Four refrigerator trucks, loaded with frozen shrimps from Chinese waters, in transit from eastern to western Canada via U. S. highways were stopped by custom officials at the point of re-entry into Canada. The ban on trade with China made the presence of the shrimps illegal in this country. The issue was raised in the Canadian parliament and press. One Canadian cartoon showed Uncle Sam on a horse, waving a flag and crying: "The shrimp trucks are coming!" Deciding to subordinate national security to friendship with Canada, State Department legal experts recommended that the customs men "look the other way" while the shrimps slipped back across the border. The decision is not to be construed as tacit recognition that China exists.

OBSCENITY DEFINED - The Supreme Court of Vermont is about to decide if eight magazines should be banned as pornographic. In a brief for the defense, former assistant Attorney-General Thurman Arnold observed that the only final basis for such censorship "is to hold that no nudes is good nudes."

TO RESIST BAN ON DRAPER - The Freeport, Long Island, Community Concert Association said May 22 that it would fight for reversal of a local school board ban on a scheduled appearance by the noted dancer Paul Draper. The board withdrew use of the high school auditorium for Draper's recital after the local American Legion post protested his appearance on grounds of alleged Communist sympathies. The local concert group said: "We deplore the kind of pressure applied as not only undemocratic but dangerous . . . We stand firmly behind the principle that every artist has the right to perform and every audience has the right to gather to see him."

THOMPSON RETURNED TO PRISON -Communist Party leader Robert Thompson was reimprisoned May 20 to complete a four-year contempt of court sentence imposed in 1953 for

failing to surrender after conviction under the Smith Act. He was released after serving his Smith Act sentence and two and a half years the civil and criminal law to all of the contempt sentence pending review by the Supreme Court. But the court twice refused to review the onerous contempt sentence, its Negro members . . . thereforcing the political prisoner's return to jail.
