"Wade-Ins" Follow "Sit-Ins"

The summer has seen no slackening in the Southern Negro's struggle for equal rights. In Savannah Beach, Georgia, Negro bathers sat on a hitherto lily-white public beach Aug. 17, as a new tactic in the fight against segregation. A group of eleven Negroes arrived at the beach wearing swim suits under their street clothing. They then removed their

outer garments and entered the water. Police did not arrest them for bathing but for violating a city ordinance that forbids disrobing in public. A special meeting of the town council was scheduled to be held later to deal with the wade-in problem. The Negro "wade-iners" were released on bond.

Thus on Aug. 24, Senators Kennedy and Johnson moved together into the South with speeches at Alexandria, Va., in which they omitted all reference to the civil rights issue which they had just shunted aside in Congress.

Earlier last month, on his visit to Greensboro, N.C. Vice-President Nixon said he was "endorsing" the sit-in movement — as long as it does not "run counter to local laws." Who does Nixon think he's playing for a fool? It is the local laws that enforce Jim-Crow in defiance of the federal constitution. The sit-in movement is designed to get the local authorities to abide by the federal constitution. Is Nixon for this or not?

Cynical indifference and duplicity have marked the Democratic and Republican candidates' appearances even while a wave of racist violence has hit the embattled Negro sit-in movement.

four days and nights of racist violence, one Negro has been killed by gunfire, several others suffered bullet wounds, some crowded into Richmond Hall slanders against the students hundreds more were injured to last Friday to hear a folk music that they rushed the barricades one degree or another.

Recalls How '58 "Victory" Yielded New Antilabor Act By Farrell Dobbs Socialist Workers Party Candidate for President

To nobody's surprise, the general board of the AFL-CIO, meeting in Washington Aug. 26, endorsed the Democratic presidential ticket and called upon its members to give "full and unstinting support" to Senators John F. Kennedy and Lyndon B. Johnson.

The AFL-CIO leaders claimed the election of the Democrats would be "in the best interests of the United States and of the labor movement." Immediately after the board action, the AFL-CIO Committee on Political Education (COPE) appealed to the federation's 135 affiliated unions to speed their drive for \$1 political contributions

I doubt whether the official endorsement of Kennedy and Johnson will generate much enthusiasm in the union ranks, however much they dislike the Republican candidates. More and more workers rightly fail to see any essential differences in the programs or performance of the two parties. Nor have they forgotten what happened after the sweeping victory of the Democrats in the 1958 Congressional elections.

At that time the union leaders hailed the landslide, which gave the Democratic party two-to-one majorities in both Houses, as a mandate for new advances in progressive legislation and as assurance of labor's greater influence in Washington. These illusions were speedily exploded.

Instead of repealing the Taft-Hartley Act and other obnoxious legislation, the present Congress enacted the no less vicious Kennedy-Landrum-Griffin Bill. The Democratic presidential nominee authored the main sections of that bill and voted for it. His running mate, Lyndon B. Johnson, piloted the measure through the Senate.

After this anti-labor measure was passed at the first session of the 86th Congress, the union leaders from Meany should have condemned the U.S. to Reuther vehemently denounced the Democratic-Republican coalition responsible for it and threatened to withdraw all further support from them. This has turned out to be pure bluster.

Starting with Reuther, the AFL-CIO heads have one medical care for the aged, aid the same right to reject the OAS by one come over into Kennedy's camp, swallowing Johnto education, minimum wage, dictates that it break relations son in the bargain. Their official expression of support housing and civil rights action. with the Soviet Union and climaxes their surrender and subservience to the big bosses

Randolph Dissents

The vote was not unanimous. One of the union leaders, should note his jingoistic speech A. Philip Randolph of the Brotherhood of Sleeping Car to the Veterans of Foreign Wars Porters, refused to go along. He told reporters there was convened session does hand the Reuther warned the leaders of for old people. This time the this week branding the Castro not enough difference between Senator Kennedy and Vicethe Democratic party: "You Democrats feinted when Ken- government as any enemy and President Nixon to justify an endorsement.

Later bers of the Democratic Senate the Cuban people and its revo- alarm and mistrust. They know that actions speak louder than words in the civil rights struggle. And, despite the high-sounding promises in the Democratic platform, they have seen Kennedy and Johnson block any favorable action when the chance came to do something for civil rights in this special Congressional session.

George Meany said that Randolph dissented because he wanted to form a labor party on the ground that the nation had no real choice now. Meany rejected this idea.

If Meany and Reuther were as responsive to the genuine interests of labor as Randolph is sensitive to the moods and demands of the Negro people, they would have taken up his proposal. They would proclaim the need for an end to the two-party runaround and for the estab-|dropped the demand for 30-for-| "give top priority" to this and lishment of labor's own political organization, as the 40 in the recent negotiatons with similar proposals. The Demo- Canadian unions are doing.

Instead, they are paving the way for the same disillusionment experienced after the 1958 elections by helping into office a set of capitalist politicians who will not hesitate to deliver new blows at labor's rights.

We urge all those union members who can no longer take this suicidal policy to vote for the candidates of the Socialist Workers Party, the only advocates of a Labor party in the 1960 elections.

A Change to Socialism

-By Myra Tanner Weiss -

Socialist Workers Party Vice-Presidential Candidate

We advocate a change to socialism first of all because we recognize what an inefficient, wasteful, insane system capitalism is. The proposals made by the Democratic and Republican candidates themselves go far to prove this.

Senator Kennedy foresees signs of a new recession and greater unemployment. Instead of a vast new public works program, he has recommended that another \$3 billion be added to the already staggering military budget. Nixon has set no such specific figure but his Republican platform states there can be no ceiling on necessary arms expenditures.

In recent years a colossal arms budget has become such a fixture in American government that many people forget its real meaning. Since 1940 arms spending has been propping up our economy. Even today, twenty transportation and banks years later, U.S. capitalism can ward off a developing slump some sixty extremely wealthy only by increasing the warmaking budget still further.

and Republican candidates, there will be no end to this mad arms race.

What a waste of the wealth duction meets no needs of the American people. It criminally right. squanders human labor and natural resources. Arms production satisfies only big business which profits from the manufacture and sale to the government of the instruments of death.

Arms production imposes a back-breaking burden of high prices and taxes on the working people. It leads to imperialist ventures and to war.

Why must we be chained to a system in which workers can earn their livelihood only by fabricating engines of destruction which enrich the millionaires but make their country hated and feared throughout the

As a result of the U.S. mili-

extensive sampling of political opinion through conversations with many of the delegates at the conference.

Antiwar Movement

He returned from Japan greatly inspired by the strong anti-war and anti-capitalist sentiment that is developing there. 'I felt in the air," he said, "a renewed yigor in political life that is typical of young people throughout the world who are esisting the insane preparaions for nuclear suicide'

At the anti-bomb conference there were delegates from 29 countries and a mass delegation of thousands from Japan itself. 'The delegates had many differences of opinion on how they could best meet the problem of the bomb," Dobbs explained, "but they were united in their determination to prevent other and more deadly Hiroshimas."

He found that the militant anti-war sentiment of the Japanese workers and students, so dramatically expressed in the giant demonstrations against the U.S. military treaty, had a pronounced effect on the entire gathering. "In the past," he explained

these conferences were characterized more by abstract humanist appeals against the manufacture and testing of nuclear weapons — appeals to the warmakers to quit making and testng these weapons that threaten the destruction of civilization.

"This year there was a new rend manifest in the congress. Not only was there absolute solidarity against all forms of preparation for nuclear warfare out the conference went on record in support of the Japanese fight against the military treaty that Washington is trying to impose on them. That was Discussing the anti-war move-

ment in Japan, he described some of the background to the explosive June student demonstrations and workers' political trikes that forced the cancellation of the Eisenhower visit and and toppled the Kishi government.

Student Movement

After the war, he explained, the U.S. military occupation authorities fell victim to their own machinations when they permitted the reinstitution of what audience most concerned with they hoped would be a "controlled democracy." While the Socialist party exercises the least influence among the labor federation, was holdthe students of any of the radical tendencies, it does have the support of Sohyo, the Japanese counterpart of the AFL-CIO, and is the predominant workers' party in the country.

Describing the politics of the Socialist party leadership, Dobbs said that it remains in opposition to the American-Japanese military treaty and in general opposition to the imperialist preparations for a third world war.

However, he added, "The eaders of the party, place all their stress on parliamentary activity, saying that all the workers need do is elect more Socialists to the Diet - they won't need student demonstrations, they won't need strikes, they can rely on their Congressmen.'

But while the Socialist party leaders may be conservative in their approach to the big social problems confronting Japan, the working class is becoming more, and more

he U.S. will drag their country into a new war, two main factors are contributing to this fighting spirit in the ranks of Japanese labor, Dobbs found.

Antilabor Drive

He came back with the defnite impression that the economic situation in Japan is oughly similar to the one here. There is a generally high level of employment but "rationalization," the Japanese term for the process called "automation" here, is taking an increasing toll on jobs. At the same time, the Japanese bosses are pressing an anti-labor offensive to roll back job conditions, intensify speed-up and reduce the number of men on the payroll. "There's a steady whittling

away of jobs," Dobbs said "and buildup of the backlog of chronic unemployment. Inven-The third group contending tories are rising. Meeting Marks In addition to the fear that Anniversary of Trotsky's Death NEW YORK, Aug. 23 -

'What greatly impressed me was the defiant spirit of the young worker and student leaders of the anti-war forces, who participated not only in this conference but in the demonstrations against the Japanese-American treaty," declared Farrell Dobbs, Socialist Workers party presidential candidate. "The American people should understand that these Japanese youth and their elders do not want to become victims of another atomic war and that they believe the treaty imposed upon them by Washington is dragging them in that direction.'

Dobbs, who just returned from Japan where he attended the World Conference Against A and H-Bombs, was the principal speaker at the meeting held at Hotel Albert here tonight to commemorate the twentieth anniversary of the assassination of Leon Trotsky.

"The Socialist Workers party and the Young Socialist Alliance are honoring the ideas of Since the imposition of the Trotsky in the way he would hated military treaty and the have urged and approved — by carrying them into action in the struggle for peace, for equality and for socialism against the political representatives of big business rule," said William F. Warde, who spoke on the significance of Trotsky's teachings

"In the last year of his life ist regime in the U.S. would signify from the beginning the rise of independence, initiative and the creative power of the human personality.'

"Trotsky was determined to bring forth the conditions which would make possible a flowering and fulfillment of the human personality, not only for a favored few, but for the billions of toiling and aspiring mankind. The liberation of the economy from capitalist restrictions was indispensable for this higher goal," Warde concluded.

James Lambrecht, national secretary of the Young Socialist Alliance, said that the youth he knew were sceptical about paying homage to any individual. But he saw in Trotsky a person who had so honestly and consistently lived his ideals that he could be taken as an example to admire and follow. The audience of 180 contrib-

uted almost \$200 to help put the SWP candidates on the ballot in New York state.

Cuba Defies U.S. 'Discipline'

After a week's delay, under immense pressure from the U.S. delegation headed by Secretary of State Herter, nineteen of the twenty-one members of the Organization of American States adopted a resolution of censure directed against Cuba for its refusal to reject aid from the Soviet Union and China. The San Jose Declaration asserted that all member states were "under obligation to submit to the discipline of the Inter-American system."

Cuba's Foreign Minister Dr. Raul Roa told the conference that Cuba would take aid from any nation that was willing to help her fight imperialistic aggression from the United States. The Cuban spokesman insisted that the only threat of intervention came from the United States and that the OAS should aim its indictment against Washington, not Havana or Moscow. In that way, Dr. Roa said, the OAS would show that it would act to protect a small state against a big one.

Cuba's representatives submitted a counter-resolution warning the United States against continuing its policies of "provocation, intervention and aggression." The Cubans left the conference after this was voted down, 18 to 1.

The OAS was organized in 1947 under U.S. supervision, and has been kept going with the help of many of the now overthrown dictators, including Batista, to serve as an instrument for reinforcing U.S. domination over Latin America. Washington has wielded its financial resources, military and diplomatic strength to keep the weak and divided Latin American countries under its thumb through

To promote the State Department's aim of isolating and strangling the Cuban revolution, Herter agreed to an earlier resolution by the foreign ministers' conference imposing diplomatic and gradual economic sanctions on the Dominican Republic. The Secretary of State was extremely reluctant to take so drastic a move against Trujillo's tyranny which it had patronized and protected for many years. But he had no alternative but to trade the break with Trujillo for unity in the attack upon Cuba.

Even then the censure of Cuba was not easy to push through. The foreign ministers stalled for a week, seeking some compromise. But Washington insisted on "A la Sierra con Fidel!" — "To its pound of flesh, while the Cubans stood the Sierra with Fidel!" - was firm in upholding their sovereign right to shape their own policy.

The foreign ministers of Venezuela and Peru had deputies sign the document on behalf of their governments because they were personally opposed to it. Mexico issued its own interpretation of the resolution, saying that "in no way does it constitute a condemnation or a threat against several days in the near wilder-Cuba, whose aspirations for economic improvement and social justice have the tion center was the Capitolio, crowd would roar back approvstrongest sympathy of the Government and the people of Mexico."

These official attitudes convey only dreds of youngsters were a pale reflection of the real feelings of the streaming through the great Latin American masses toward the Cuban revolution and its conflict with the U.S. government. The Cuban Foreign Minister, Dr. Raul Roa, was not exaggerating when he said, as he walked out of the conference: "I am going back to my people and with me go all the peoples of Latin America."

The U.S. imperialists have been exploiting and holding down the Latin American nations through their corporate enterprises and financial holdings backed up, when necessary, by such diplomatic combinations as the OAS.

Cuba is the first Latin-American government to muster the courage to defy the North American colossus and cast off both these shackles. By nationalizing a billion dollars worth of foreign-owned properties, it has taken a long step toward economic sovereignty. But refusing to be bound by the dictates of Washington expressed through the OAS resolution, it has asserted its freedom of diplomatic action.

These bold steps have not only safeguarded the sovereignty of Cuba but represent the beginning of a new chapter in the efforts of all Latin America to find its way to freedom.

Assault on Puerto Rican Rights

While Secretary of State Herter was in Costa Rica, talking about the need to defend democracy, the House Un-American Committee was demonstrating its contempt for the democratic rights of Puerto Rican citizens.

The House of Representatives on Aug. 23 cited thirteen men and women in Puerto Rico for their refusal to answer questions about Communist party membership by the House Sub-Committee on Un-American Activities. The citations have been turned over to the United States Attorney for Puerto Rico for court action.

A citation against Consuelo Burgos de Saez Pagan was approved by a roll-call vote of 312 to 0. The citations against the other twelve were equally unanimously approved by voice vote. Not a single liberal Democrat in the House raised any objection.

These persecutions are especially outrageous because, as a presumably selfgoverning Commonwealth, Puerto Rico is supposed to have some independent rights of its own. It has no vote in the U.S. House of Representatives. Yet a crew of witchhunting snoopers can go to the island, subject its citizens to impermissible interrogations, and then put them in jail if they exercise their constitutional right not to

The Powers Trial

After pleading guilty, Francis Gary Powers, pilot of the U-2 spy plane shot down over Russia May 1, was given a tenyear sentence by a military court in Moscow. President Eisenhower and Senator Kennedy considered the sentence harsh, although Senator Fulbright, head of the Senate Foreign Relations Committee, and most of the European press thought it lenient, in view of the offense.

The American airman was, in fact, as much a victim of Pentagon policy as the entire American people. His sentence was certainly not excessive since he was liable to the death penalty. Caught in the act, he could not claim innocence after the head of the government which ordered his mission had not only acknowledged its purpose but continued to claim the "right" to make such intelligence flights over the Soviet Union.

His sentence was far more lenient than penalties meted out for comparable offenses by the U.S. government. Julius and Ethel Rosenberg were put to death while Morton Sobell is still serving a thirty-year sentence on similar charges. And yet, unlike Powers, none of them were caught committing any crime or ever admitted their guilt. In fact, millions of people all over the world believe they were innocent.

Eisenhower's comment on the Powers case was more significant and ominous in another respect. He again defended the U-2 spy flights which led to the American Las Mercedes, we converged up- Cuban Revolution. Young Socialists Attend Congress in Cuba

By Peter Allan

(Peter Allan headed the delegation of seven members of the Young Socialist Alliance which visited Cuba in July to attend the first Latin American Congress of Youth.)

When we arrived in Havana. the city was bustling with preparations for the coming concentracion - the Cuban term for "huge mass meeting" — in the easternmost province of Oriente celebrating the seventh anniversary of the July 26 Movement. the slogan displayed on every building, vehicle, lamp post and blazoned in every periodical and newspaper.

Teen-age and student militias were touring Havana with trucks, collecting provisions donated by citizens to help feed the hundreds of thousands who were going to concentrate for ness of the Sierra. The colleccapitol building of Cuba and once a sinister edifice occupied by Batista gangsters. Now hunhalls with big boxes of victuals, piling them high in the spacious rooms, counting and planning their final distribution for the journey.

Excitedly, they took us around by the arm and told us what Fidel Castro had explained to them, that one of the purposes of the mass rally so far from the city was to bring the urban workers and students closer to the peasants to find out how they lived and what their problems were. The peasants, who had formed the backbone of the revolutionary forces in Oriente, would in turn impart some of their spirit to the city dwellers.

Along the route of the Youth Congress train, at all the larger towns, huge crowds and brass past 2 a.m., they pressed forward at the train stations to the crushing traffic. wave their banners, chant revolutionary slogans, and grasp our hands during the short time the train stopped.

At one station, two of us leaned out of the doors and, proclaiming that we were from the United States, cried "Long live the Cuban Revolution!" A deafening cheer emerged from the crowd and a hundred hands stretched out in a vain effort to shake ours.

The accusations consisted of stock Stalinist slanders against Trotskyism, of the kind that were exploded long ago by the International Committee of Investigation into the Moscow Trials, headed by Professor John Dewey, and by Khrushchev's denunciations, at the Twentieth Congress of the Soviet Communist party in 1956, of Stalin's witchhunts and frame-ups.

Conforming to tested witchnunt techniques, the accusations were not presented to the Congress for open discussion and vote, though several Trotskyist delegates from Latin America did take the floor to protest against the outrage.

Trotskyists Offer Views

The representatives of various Latin American Trotskyist parties had, at an earlier session. distributed a folder to all delegates setting forth their views on a number of questions. For instance, they advocated the extension of the Castro government's program of nationalizations. They also called for the expulsion of American military forces from the Guantanamo naval base and for a struggle against native capitalism. These programmatic proposals, accordng to the Stalinist charges, were "left-wing phrases" designed to "provoke aggression by Yankee imperialism," "divide the unity of Latin American youth" and "confuse and destroy the Congress."

The baselessness of these charges was dramatically demonstrated only two days later when Castro addressed a mass rally sponsored by the Youth Congress, in which he announced the nationalization of \$800 million dollars' worth of American holdings. In Other Lands

Pravda Discusses Asia, Africa

Denies Socialism Is the Issue There

The debate between the Soviet and Chinese Communists which has been going on for months has up to now revolved around the nature of imperialism and the possibility of a peaceful and even parliamentary transition to socialism. The controversy may now be extended to a third major issue: the attitude of Communists toward bourgeois forces and formations in the former colnial nations.

Prof. Y. M. Zhukov, Soviet specialist in Far Eastern affairs and an authoritative spokesman for official opinion, published long article in the Aug. 26 Pravda stating that Communists can and should subordinate the struggle for the overthrow of capitalism to the achievement of national independence and collaborate with 'progressive sections" of the national bourgeoisie to that end.

"For many lagging countries, where the main body of the population is peasant, for them the main task for a relatively long period will be that of struggle, not against capitalbut against middle-century inheritance," Zhukov

"For such countries, long coworkers, peasantry, intelligent- into their own hands. . . . This bourgeoisie that is interested to achieve the same great prog-

independence from any at- capitalism." tempts on the part of the imperialist powers," he continued. that time that the Asian and

The Professor assailed as 'dogmatists and sectarians" those who expect any purely socialist revolution in Asian and African countries "that have not achieved economic in-Such dependence." "forget that there doesn't exist a pure revolutionary process, that in a national liberation movement the range of those taking part is broader than in Socialist revolutions."

ment is everywhere being postponed in the long view. It will come as soon as vital na-

The position set forth in Pravda accords with CP policy in Asia and Africa. It is timehonored Stalinist dogma. But it stands in sharp contrast with views expressed by Khrushchev on this very question in Peking on the tenth anniversary of the Chinese revolution last October. In a speech on that occasion he declared: "The heroic and industrious people of China, led by their glorious Communist Party, have shown what can be achieved by the operation is possible between people when they take power that part of the national nations to emulate it in order

and that is ready to defend its apprehension for the fate of

Khrushchev's African peoples will find their true liberation from economic backwardness by imitating China's example and adopting socialist-type property forms directly controverts Pravda's position that it is necessary for Communists to cooperate for a long time with bourgeois elements.

It is reported that the Soviet Communist Party has circulated statement among its own members and foreign Commu-Zhukov sought to shield this nist parties attacking the views policy against critics on his left of the Chinese Communists as by asserting this "does not at "sectarian" and "dogmatic." all mean that transition to a The Chinese in turn have cornoncapitalist way of develop- rectly characterized Krushchev's line as "anti-Leninist."

Protests Telecast On Cuba

The following is a copy of a letter of protest that I wrote Aug. 21 to the NBC-TV program, World-Wide 60.

Your special telecast on Cuba Saturday night, Aug. 20, at least had the decency not to claim impartiality. It would have been more honest, however, to admit State Department sponsorship.

My family returned from Cuba this month. Since my wife, Yolanda Moreno, understands Spanish well and my three children played freely with Cuban children, we had an unusual opportunity to sample Cuban life on all levels.

You achieved your effect by three lying techniques: first, you presented the Cuban leaders as ranting maniacs, but you were careful not to let the audience hear what they were saying. After all, there are 1,000,000 people who speak Spanish in the metropolitan area! Secondly you showed a Country few shots of the innumerable new houses built for the peas- Needs . . . ants and reported that the new occupants are "thunderstruck." What that meant was left unclear, but its effect was sinister. Finally, you are careful to conceal the significant role played and economic life. Like the New | a nominating petition.
