# 1,18 Miner Delegates Plan Recall of Lewis; Big Stea Aids Swing to Farmer-Labor Party

**This Week to See McAdoo, Pet  
of Labor Bureau, on Grill  
for Getting \$250,000 from Doheny**

**New Significance to May 30th Conference**

(Special to The Daily Worker)  
**WASHINGTON, D. C.**—Unexpected and unwelcome to the republican and democratic party leaders is the news from the country at large of the great swing towards the Farmer-Labor movement as a result of both parties being involved in the Teapot Dome steal.

Democrats are no longer wearing a jubilant smile, for the Doheny revelations as to the connections of McAdoo and other prominent democrats with the oil interests have, according to those who, with that remarkable agility found only in politicians, keep both ears to the ground, suffered more than have the republicans. The May 30 Farmer-Labor conference called for St. Paul is now attracting the undivided interest of both republican and democratic leaders.

(Special to The Daily Worker)  
**WASHINGTON, D. C.**—Doheny's story of wholesale hiring of prominent men such as McAdoo, Thomas W. Gregory, former United States Attorney-General, Lindley M. Garrison, former secretary of war, and the late Franklin K. Lane, former secretary of the interior, has rocked congress and official Washington to its base.

It was a political bombshell, exploding with tremendous force in the camp of McAdoo's supporters for the Democratic nomination for president; upsetting Coolidge's selection of Gregory as one of the special counsel to prosecute the leasing cases and opening a new and startling chapter in the amazing story of how men high in the government were involved with Doheny's lease of naval oil reserves and generous lenders of money to Fall and other friends.

## FRIENDS OF SOVIET RUSSIA SEND FIRST AID TO GERMANY

Five hundred dollars has just been handed to Germany by the Friends of Soviet Russia and Germany as exactly the larger support which is on the way. The wire which was sent to the Russian Committee, Berlin, is as follows:

"Cash five hundred dollars cash. Sending shipment bacon and beans. News of the German relief conference of two hundred and sixty delegates from trade unions, fraternal and political organizations. Collected two thousand dollars; sold out one hundred thousand. American workers everywhere are rallying to German Workers' aid."  
(Signed: "Friends of Soviet Russia.")

## See Collapse of De La Huerta in Taking Vera Cruz

**WASHINGTON.**—Occupation of Vera Cruz, stronghold of the Mexican fascist, early this week with the coming collapse of the whole of De La Huerta counter-revolution, was forecast by the Mexican Embassy here tonight, after receipt of official dispatches from the Mexican foreign office.

De La Huerta on the Run.  
Federal troops marching on Vera Cruz have occupied Orizaba, capturing large supplies of ammunition, according to the reports.

## Glenn Young Back Leading K. K. K. Williamson County

**MARIETTA, Ill.**—Under the leadership of S. Glenn Young, the Ku Klux Klan has resumed its anti-boycott campaign in Williamson County.

One hundred members of the organization, arrested at Johnston City, scene of the recent mine disaster, by two hundred of Young's raiders on federal warrants last night, were taken to Benton and jailed today. Most of the prisoners gave bond and were released.

## Strawn Oil Tips Pay Very Well

For over a year the law office of Elias H. Strawn, appointed by President Coolidge as the Republican counsel in the bipartisan investigation of the Teapot Dome scandal, has been seen from the inside by the members, according to inside information obtained by The Daily Worker. Employees in the Strawn office have given tips that indicated in substantial instances for those who took from the Strawn papers. Whether high-ups in Chicago's business, professional and political world would also partake, from the oil of the conspiracy in the Strawn office, could not be ascertained.

## A LABOR PROBLEM

Perhaps no other problem confronting the working masses today involves as many difficulties as does the housing question.—From series of articles on Housing now appearing in The DAILY WORKER.

## The Kept Government of the United States

**JOHN PEPPER**

The Teapot Dome oil scandal began as a modest case of individual corruption. It has grown and today it looms up as the most frightful exposure of the whole government of our country. What until now only the Communists denounced clearly and boldly—that the "most democratic government of the world" is only the rule of finance capital—has become now a common possession of millions and millions of the common people. Masses learn political wisdom, not from text books, but through experience. The Teapot Dome oil shame is the greatest mass experience imaginable on the essence, system and methods of American democracy. The shakedown of the Teapot Dome oil scandal has cut a horrible wound in the body of the United States governmental system, has ripped open its abandoned, has torn out its intestines, has covered it with its own tainted blood and excrement. It stinks. The odor nauseates not only the 110,000,000 people of the United States, but it spreads from Alaska to Mexico, it fills the entire Western Hemisphere. Karl Marx said once of young capitalism that capital was born with blood and dirt sweating out of all its pores from head to toe. We can say of aged capitalism turned into imperialism that its loathsome body is sweating blood and dirt and oil out of all its pores from head to toe.

The capitalist press speaks of individual kept politicians and government officials, but it is silent on the fundamental truth. It is not a case of kept persons, but of a kept government. Everybody and everything is involved in the Teapot Dome oil shame. The Republican Party as well as the Democratic. The Harding administration as well as the Wilson and Coolidge administration. All "leaders" of the nation are guilty. With combined forces they did their utmost to hand over the treasures of the nation, worth hundreds of millions, into the hands of the oil magnates. They are all patriots; but all—Republicans and Democrats vying with one another—have broken the Constitution, have destroyed the laws, to give the gigantic oil fields of the United States navy into the hands of the Sinclair, the Doheny, into the hands of the Standard Oil. They made the nation poorer by hundreds of millions. They have well-nigh destroyed the power of resistance of the navy in case of war and at the same time they have stirred up dangers of war and intervention in Mexico in order to defend the oil interests of the same Doheny and Sinclair.

Who of all the powerful ones of the White House and capital is not guilty?

President Harding knew that the government has no right

## Strong Arm Squads Help Lewis Fight Progressive Aid Given to Howat and Mysercour Appeals

**Falling Out among the Machine Following**

(Special to The Daily Worker)  
**INDIANAPOLIS, Ind.**—The administration forces of the United Mine Workers are claiming complete victory today but without an enthusiasm. They know better than any one else that their handling of the Howat case by refusal to allow him to defend himself on the floor, the ratification of the adverse committee report without a court trial, the vote, has strengthened Howat and the progressive element that support him. Not only is the Howat case still a source of irritation but the radical and progressive forces have now a live issue—the violation of the constitution in the Howat case and in the case on the representation resolution—an issue that the rank and file can easily understand and on which they will fight. There is, among the machine following, much mutual criticism for giving the radical element a chance to start the Lewis impeachment proceedings with delegates who were at the convention and altogether too familiar with what happened there.

(Special to The Daily Worker)  
**INDIANAPOLIS, Ind.**—A total of 1187 delegates out of 1,800 remained in Tompkins Hall after President John L. Lewis left the platform Saturday morning without adjourning the convention, heard Alex Howat state his case and adopted a motion calling for a special convention to impeach Lewis.

Affraid to allow Howat to state his case before the convention, the committee on grievances and appeals recommended that his petition for reinstatement be denied.

A roar of shouts for Howat came immediately from the floor and gallery. Lewis called for the vote on the committee report, declared it carried without the formality of a count, and then tried to stem the greatest storm of protest yet seen in the convention.

## MEXICANS PUT FLAGS AT HALF MAST FOR LENIN

**Cubans Plant Olive  
Tree to His Memory**

(Special to The Daily Worker)  
**MEXICO CITY, Mex.**—A total of 1187 delegates out of 1,800 remained in Tompkins Hall after President John L. Lewis left the platform Saturday morning without adjourning the convention, heard Alex Howat state his case and adopted a motion calling for a special convention to impeach Lewis.

Affraid to allow Howat to state his case before the convention, the committee on grievances and appeals recommended that his petition for reinstatement be denied.

A roar of shouts for Howat came immediately from the floor and gallery. Lewis called for the vote on the committee report, declared it carried without the formality of a count, and then tried to stem the greatest storm of protest yet seen in the convention.

It was evident that only the payroll followers of the Lewis machine had voted for the report and roar became a steady shout of "Take the platform, Alex." Howat walked down the aisle and his appearance stilled the noise somewhat.

"For what purpose do you appear, Alexander?" said Lewis.

Howat replied, "To get justice from this convention."

"Your case is not before the convention," replied Lewis, and again shouted the words "Platform, Alexander."

Howat walked onto the platform and stood for a few moments by the president's chair. Then he was seized by some of the strong-arm squad, a gun was drawn by one of the crowd, and Howat was almost thrown from the stage leading to the platform.

Impeachment Proceedings Begun.

A crowd of delegates rushed to the platform. Lewis broke his gavel and in order and left the chair. The floor leaders of the administration started a roar for the door in an effort to stampede the convention but failed. The disorder continued for a time, but finally quieted when Howat began to speak to the crowd of more than a thousand delegates that had remained, as was announced by Delegate John Watt, who mounted a chair, to take action for the calling of a special convention to impeach Lewis for his violation of the constitution in the Howat and other cases.

The motion adopted by the 1187 delegates reads as follows:

"That we agree to call a special convention for considering the wage-scale, saying Alexander Howat a fair hearing considering violations of the constitution by President John L. Lewis and taking action on them as may be necessary."

The constitutional sections of which citations are claimed were also voted in the motion which was adopted unanimously. A committee was elected to organize the impeachment proceedings.

**National Program.**  
The following demands were also adopted by the meeting as a basis for a national campaign through the United Mine Workers:

1. Immediate legislation by Congress to compel the coal operators to employ regular unemployed miners out of their profits.
2. Immediate legislation by Congress establishing the six-hour day and the five-day week in the coal industry.
3. Immediate nationalization of the coal industry.
4. Sending of a delegation to Moscow to make demands and fight for them and a fight of the United Mine Workers for this purpose.

For the purpose of solidifying the ranks by maintaining constant pressure in the fight for a national program, the following resolutions were adopted by the 1187 delegates:

# TEAPOT DUMPS ELEPHANT AND DONKEY

## Dohen Dumps Doms, in Domes Black Mess

(Continued from page 1)

former senate colleague.

Senator Walsh asked him if he was willing to make any further statements.

"I decline to answer any questions," Fall answered in a steady voice.

Fall Gets Tough.

Fall then challenged the authority of the committee in its line of investigation.

"I said the resolution passed by the senate providing for the present investigation was not in force now, then other resolutions of condemnation of all issues had since been passed."

"I decline to answer on the ground it may incriminate me," Fall said.

Chairman Lammont of the committee ordered the chamber closed and Fall had to consent to be taken to the committee room to execute sentence to decide what should be done.

"I point Fall to the fact that the present investigating committee has appointed Doheny as its chief counsel and that it had no power to do the present investigation."

"To meet this objection the committee will take adoption in the senate today of a resolution which will empower under the present compromise. This action was unanimously passed on motion of Senator Walsh, Montana democrat."

"In executive session, the committee discussed holding Fall in contempt. The senate could try him, but a recommendation of the committee in contempt proceedings and Fall would be sent to jail if found guilty and if he still declined to answer."

"Fall appeared on the verge of collapse at first, but after reading his statement, he walked firmly without use of crutches to the executive chamber to await action of the committee."

## Grief for Lenin's Death Shown by Bonnaz Workers

(Special to The Daily Worker)

NEW YORK—Expressing their grief at the death of Lenin, the following resolution was adopted by the Bonnaz, Singer and Hand workers' union, 45, 10th St., International Ladies' Garment Workers' Union.

"The Bonnaz Embroiders' Union, Local No. 66, I. O. G. W. U., expresses profound sympathy for the death of Comrade Nicolai Lenin, leader of the International Workers' Order of America and the Workers of Soviet Russia. We, together with the workers of other countries, mourn the irreparable loss and send message of sympathy to the workers of the Soviet Republic of Russia in this hour of great sorrow."

Executive Board, Bonnaz Embroiders' Union, Local No. 66, 10th St., New York, president.

Signs of Spring.

WILHELM BARR, P.—The ground he now has shadow here today, but it doesn't mean anything, according to Uncle Joe Chambers, who drove into town today to invite his friends to a "grounding dinner."

"We seen two extra-terrestrials in the yard; a robin has been singing near my window for a week; bulbs are sprouting and the animals are strutting, all signs of an early spring," Uncle Joe said.

Uncle Joe killed a venturesome brooding which came out a day early, and intends to have a feast. That's what he thinks of superstition.

Correction on "Expelled" Story

The signature "The Expelled" did not belong to the cloak maker's statement, which was copyrighted by the expelled Ladies' Garment Union members in their letter to the Parisian machine published in the Saturday Daily Worker. The cloak maker's statement was from a group within the union which is urging the abandonment of the expulsion members. The erroneous signature was an editorial error.

Spenders More Money.

WASHINGTON—President Coolidge today sent to congress a request for an immediate appropriation of \$185,000 for the construction and expansion of the coast guard to enable it to adequately cope with run running.

Overlooked This.

NEW YORK—Henry Ford meant his plan in the Bok contest to win the national position of international peace.

# The Kept Government of the United States

(Continued from Page 1)

to give the naval oil fields to the hands of private capitalists, but he tolerated this dirty business.

Denby, Secretary of the Navy of Harding's and Coolidge's cabinet, signed the order which transferred the valuable oil reserves from the Navy Department to the Interior Department in spite of the opposition of all navy officers. Fall, Secretary of the Interior of the Harding administration, signed the leases which gave the naval oil fields to the oil magnates Sinclair and Doheny.

The investigation up to now has not shown whether Secretary of the Navy Denby and Assistant Secretary of the Navy Roosevelt have or have not received money from the oil magnates, but it is clear that the brother of the Assistant Secretary of the Navy, Archie Roosevelt, was a paid employe of the oil magnate Sinclair. And the investigation has shown clearly that Senator Fall, former Secretary of the Interior, received from Doheny \$100,000 and other big sums from Sinclair. Doheny was forced to say in his testimony that he gave the money to Fall not only out of old friendship but out of gratitude for valuable services with the government rendered him by Fall.

Denby, the Attorney General in Harding's and Coolidge's cabinet, knew everything about the shameful corruption, the dissipation of national wealth and the weakening of the navy, but he was occupied with the prosecution of Communists that he did not prosecute the guilty oil magnates and cabinet ministers.

Who is not guilty in the Coolidge administration, and who dares to say that Coolidge himself is not guilty? Who is so big a part of the government as to say by chance that the cunning calculating Coolidge selected Silas H. Strawn and T. W. Morgan as his counsel to prosecute impartially those guilty in the oil corruption? And who believes that Coolidge did not know that Denby, the Attorney General in Harding's and Coolidge's cabinet, knew everything about the shameful corruption, the dissipation of national wealth and the weakening of the navy, but he was occupied with the prosecution of Communists that he did not prosecute the guilty oil magnates and cabinet ministers.

# 1917 Coal Miners Delegates Plan Recall of Lewis

(Continued from Page 1)

states were registered with the committee before the meeting on the day before the expense of leaving in the afternoon on the convention proceedings.

The meeting was probably the most important of all the Indianapolis sessions.

Tom Myronough, secretary of the International Union of Mine Workers, whose case was reported to the meeting by the committee, was given a chance to make a defense. When a vote to speak he was granted by two arguments and forced back into his seat. There was plenty of applause but it was evident that his supporters were trying to make the Howat case the start of the real fight that came later.

No more arbitrary action than that of Lewis on both the Myronough and Howat cases has ever been seen at a convention of the United Mine Workers. Lewis had to rule both cases out of order to save his administration. It is a dangerous conclusion that he had the vote on the committee report been counted, or a certain amount of Howat would have been re-elected and the administration would have been re-elected.

It was a knowledge of this that Howat was to deny a hearing to Lewis and the other Kansas officials who have been out of the organization since the time of the Howat case. The Farrington-Lewis alliance did not swing the vote in the election, but the largest district in the United Mine Workers, District No. 12, was against the administration. The delegates from this district were against the administration. The delegates from this district were against the administration. The delegates from this district were against the administration.

# Boosters Are Meeting on February 7

While militants all over the country are putting in strenuous efforts to build up the rapidly growing membership of the DAILY WORKER, a special campaign is being started which is calculated to add at least 1,000 new DAILY WORKER readers to the thousands now reading THE DAILY WORKER in Chicago. Under the direction of City District WORKER Agent G. A. Schlenker and District Organizer Al Wierbeck, assisted by all of the DAILY WORKER branch agents, this campaign is catching the imagination of hundreds of DAILY WORKER boosters in Chicago.

After a preliminary conference of the campaign managers, details of the campaign were worked out. Comrades in Chicago are enthusiastic over the prospects and the preliminary work has been done. A great deal more than 1,000 new readers will be secured by February 7.

While the campaign will not be held until Feb. 7, it will be held on Feb. 7, at a special meeting which has been arranged for the purpose of the Russian Technical School. The DAILY WORKER branch agents, together with their assistants, will be attending this meeting. The meeting will commence promptly at 8:15 and will continue until 10:30. The meeting will be held at the Chicago Club, 100 W. Madison St. The meeting will be held at the Chicago Club, 100 W. Madison St. The meeting will be held at the Chicago Club, 100 W. Madison St.

COAL MINERS IN N. E. STRUGGLE IN NOVA SCOTIA

Battling 20 Per Cent Cut by Steel Company

By JOHN A. McBRAY (Staff Correspondent of the DAILY WORKER)
GLACE BAY, Nova Scotia.—The miners of Nova Scotia are again battling for their livelihood against the British Empire Steel Company.

As the miners were leaving the pits on January, they were instructed by the company to display the new wage scale, which would go into effect on the following day.

The new wage scale contained a 20 per cent reduction in wages from December to April, and for the remainder of the year the 1923 rate of wages would be paid.

As all mines in the district were ordered to "suspend operations" pending a satisfactory settlement.

The demands of the union were for the resumption of the 1921 rates of 20 per cent increase over the expiring wage schedule.

With 5,000 tons of coal on its sidings, the corporation gave orders that no more coal would be sold.

Andrew Steele, U. M. W. A. representative in a telegram to the premier of the province, who replied suggesting that the men strike to the pits for fifteen days.

Fabulous Steel Profits Nail Gary's Lie About Cost of Shorter Workday

Which Credulous Cal Swallowed

By LELAND OLDS (Editorial from the DAILY WORKER)
Did Gary lie when he told President Coolidge that abolition of the 12-hour day increased production costs by 10%?

The total profits for \$49,989,890 shared by U. S. Steel in the last three months of the year are the largest of the year.

The total profits of the steel corporation for 1923 amounted to \$19,680,000. After paying all interest and taxes, the corporation had \$14,800,000 left.

Such record breaking profits are the result of the shorter workday. The corporation has received \$14,800,000 in cash for its share of 1923 profits.

IMPACT OF RUSS PRESS BY MASS STRONG

Workers' Papers Thrive with Interest

Am Louis Strong painted a picture of Russia as a two-headed monster, thrashed with vital human interest.

It was her first appearance in Chicago, organized under the leadership of the Sovietists and those who were fortunate enough to hear her with only that thousands had been present.

Am Louis Strong reads Russian and did not depend on translators. The papers of Moscow and other cities visited are as different from the blasted monotony of American newspapers.

Let a scientific explorer find new life, mica or iron mines and stockholders will be glad to pay the cost of the expedition.

# FREE FILIPINOS MEETING HELD HERE FIRST TIME

## Rousing Rally for Philippine Freedom

The first mass meeting in the United States for the Philippine freedom was held under the auspices of the Workers Party of America on Monday night at the Metropolitan Opera House.

W. E. Rutenburg, executive secretary of the Workers Party of America, presided.

One of the contracts granting Colombia the constant oil concession in the Philippines was made public for the first time by Jay Lovestone.

The meeting unanimously adopted resolutions for Philippine independence from American imperialist domination.

At the close of the meeting, Mr. Nunez proclaimed his joining the Workers Party of America and the Workers Party of America.

Head Delegates of 11 Million.

Rutenburg aroused the audience to great enthusiasm when he declared: "The Workers Party of America will do all in its power to defend the Philippines which the eleven million Filipinos are now being held by American capitalist government."

Rutenburg said: "The only way in which the Filipino workers can win their freedom lies in their allying themselves with the American workers, standing against the same American imperialists."

"We know that the interests of American workers are identical with the interests of the working masses of the Philippines who are being oppressed by the majority in the islands. We will do all in our power to help them to win our freedom here in the United States and in the Philippines."

The following resolutions were unanimously adopted in this struggle for the liberation of the Philippines from the imperialist tyranny now oppressing them:

Mr. Nunez drew great applause when he said that the bulk of the Commission was in the hands of the United States, and that he would fight against Spanish tyranny and we shall fight all oppression which is being brought the Philippine Islands for twenty million dollars from Spain.

The United States to restore a free country to its people and give the Filipino people complete freedom.

America has proclaimed to the world that she entered the war to fight for the self-determination of the nations. Let America now show to the world that she meant what she said and grant us freedom in the Philippines for the Filipino people, before we are again to fight for the right to exist, to appeal to the workers of America.

"Your pains are our pains, your sufferings are our sufferings. We have no grievances against the American people but the desire for human liberty is innate in every self-respecting citizen. America today is on trial; the American of 1776 is no longer today. The time has come to believe that the United States is turning imperialistic. Let America free all her colonies."

The Workers Party of America is helping to free all the people of the world when it fights for Philippine freedom. The American of 1776 was not what the American capitalists and profilers of war are today. The workers of my country still believe that the United States meant what she said when she promised us our freedom. We appeal to the American working masses. We know they alone can expel the politicians in Washington to free us. The Workers Party of America will merit the eternal remembrance and gratitude of the Filipino people."

Hits at Leonard Wood.

Lovestone stated that the Philippines were the gate-way to American imperialism.

# THE PARTY AT WORK

## Workers Party Begins Campaign for Farmer-Labor Party Convention

Instructions have been sent to all District Organizers, City Central Committees and Executive Committees of the Workers Party, to immediately begin work to build up sentiment for the holding of a national convention of the Farmer-Labor Party, to be held in the Philippines, and the adoption of a national platform.

The latter effort will be against the proposal made by William Mahoney, one of the leaders of the Farmer-Labor Party of Minnesota, to postpone the May 30th convention of the old party.

## Trachtenberg Lecture Tour

The National Office of the Workers Party is arranging a lecture tour for Comrade Trachtenberg, who is returning after a fourteen months' trip to Europe.

Comrade Trachtenberg was one of the delegates to the Workers Party Convention in Russia and had an exceptional opportunity while there to come into closest contact with the activities of the Communist Party of the United States.

The Fourth Congress of the Communist Party of the United States was held in the meeting of the Enlarged Executive Committee of the Communist Party of the United States.

Comrade Trachtenberg also visited Czechoslovakia, Germany, France and Austria, and came into intimate contact with the Communist Parties and labor movements in every country.

Comrade Trachtenberg's dates are now being arranged. All Party units desiring to have the lecture by him should notify the National Office without delay.

imperialists. The Philippines of our fullest support in their struggle for National Freedom and we call upon Congress to grant the Filipino nation freedom without delay and without discrimination.

"We demand that Samuel Gompers and the Executive Council of the American Federation of Labor call upon congress to grant the Filipino people National Freedom without discrimination, the working and farming masses in the United States to rally to the cause of freedom of the Philippines and all other oppressed nationalities."

At the close of the meeting Mr. Nunez proclaimed his solidarity with the American workers, by joining the Workers Party of America and offering a special resolution endorsing the speech of Commissioner Gompers on the floor of congress and the "Filipino Appeal for Freedom" issued by the Philippine Independence Commission in the United States. This resolution, proposed by the Honorable Nunez, was adopted.

**RESOLUTIONS ADOPTED.**

The following resolutions were unanimously adopted by the audience: "We, the working men and workers of the United States, in a mass assembly, under the auspices of the Workers Party of America, hereby declare ourselves unequivocally for the complete independence of the Philippines from the American imperialist domination."

# FIGHT HOOD-UP OF JOBBERS IN WISCONSIN

## Employment Shark Is Fought Successfully

By LELAND OLDS (Federated Press Industrial Editor)

Exploitation of job seekers by the employment agencies doesn't go on in Wisconsin, according to the Department of Labor, which has taken the case of the industrial world from establishing offices in the state and the public employment offices make their services unnecessary.

Last year the public employment office placed 113,850 applicants at a cost of \$69,647. For placing the same number of applicants in similar positions private agencies would have charged fees totaling \$404,770 or nearly seven times as much. The average cost of placing applicants on the state average fee basis was therefore only 48.4 cents a place, as against the \$3.50 which would have been exacted by the private agencies.

**Eastman Fees Evil**

The time was, says the report, when private employment agencies required endless corrections by the state. The law of 1913 and the rules applying to licensed employment agencies were designed to prevent such a misrepresentation of employment opportunities (b) agencies splitting fees with employers of the firms to whom labor is furnished, (c) applicants sent to places of bad reputation and (d) exorbitant fees.

During the past three and a half years the industrial commission has received 37 requests for private employment agency licenses. But upon being furnished with information as to the conditions of the agencies, they would be forced to conform all but three of the applicants dropped their applications. Two of the remaining three withdrew before the commission and the other was denied a license.

Wisconsin considers an employment agency as an enterprise of a public utility nature. It puts upon the applicant for a license the burden of proving that the existing employment office services are inadequate to meet the needs of employers and employees. "Such an agency finds no advantage in being served by two telephone systems, instead of by one, so a multiplicity of private employment agencies would be a benefit to the community or the state."

**Tool of Scab Employers**

Employment agencies have always been a tool of the anti-union employer. They have been a means of discrimination and the recruiting of strikebreakers.

The free employment offices established by the U. S. Department of Labor during the war were resented by employers as hindering their work during the war and were knifed as soon as possible after the armistice.

The experience in Wisconsin in this field private initiative and protection of the worker looking for a job are not compatible.

By E. D. Craner, in The Minneapolis Labor Review.

LENIN is dead.

By the trying days of establishing the Soviet government, when he worked in cold rooms and lived on scanty food, they trudged miles thru the snow to bring him wood and coal. They did not want Lenin to be cold or hungry.

And when things sometimes went amiss in governmental affairs, the passing of Lenin was a great loss to the nation.

And now Lenin is dead. A worker and a teacher he has done his duty well.

Russia rising out of the perils of reconstruction strong and sturdy, while other nations that despise the kindness of his doctrine sink deeper and deeper into the mire of their own sins. His death is their civilization is on the verge of dissolution here witness that Lenin, cursed and hated by the men and philosophers of capitalism, was fundamentally right.

Today because of the movement in which he played so prominent a part, despite the fact that he is dead, there is more of security and hope for the workers of Russia than they have known for centuries.

Lenin was a fighter, a destroyer. Also he was a constructor and an advocate of world peace. He saw the danger of India being a mandate to follow it, to the overthrow of capitalism.

But he was also an interpreter of Marxian socialism. Events in Russia have proven his interpretation correct.

He differed with those socialist servants who from their easy chairs led the workers of many lands to believe that the workers must ever fight to defend the conquests by the ballot against the armed attacks of a politically defeated, armed capitalist minority.

Events in England, Germany, the Mexican revolt and the reported assassination of the socialist governor of Yucatan, Felipe Carrillo, affirm the correctness of his contention.

Lenin not only stated the solution of the problem. He demonstrated it. He pointed out the way clear and distinct to the masses who had been done and discouraged thru the false interpretation of Marx.

Soviet Russia does not die with Lenin. It is not impossible that his passing may cause some confusion.

# "RED" IS COLOR OF LIFE, WATT TELLS MINERS

## Only the "Reds" Give Hope for Future

By ANTONIO PRESI (Editor, Alma News)

INDIA NAPOLIS, Ind.—The slightest demand for the workers of the United States is a half million workers in the great coal industry. The miners are the giants of this epoch. They supply the basic energy and force for this machine age.

The miners of America are brilliant and courageous fighters who can resist and fight harder than any workers in the great coal industry. They are men who can, and do, abandon their homes and take to the hills for work and months while on strike.

The men here from the mines can speak. They can tell of their struggles, and they do. One of the delegates, Watt, a miner from Illinois, told the convention that they should prepare for greater things. "Do not be afraid. If they call you 'red,' red is a beautiful color, it is an inspiring color. It is a color that suggests life, hope," he said. "History remembers the 'reds' it forgets the 'yellows.'"

John L. Lewis is a defender and friend of the "yellows." For John L. he hates, but it is the fighters he hates. John is like a mad turkey or bull he hates red. It is too bad for John.

The red roses will not stop their blooming at the end of this great man. It is a pity.

Miners! do not be afraid of the "reds." They are our friends to watch. They who are friendly to our country are the "reds." They are the friends of the class. They are the friends of the class. They are the friends of the class.

Miners! do not be afraid of the "reds."
