United States Commissioner of Education John J. Taggart has sent his secretary, Dr. Theodore Honour, to Chicago to propagandize for the platoon system of education during the week's session, in Chicago, of the superintendent's branch of the National Educational Association which is meeting at the Auditorium Theatre.

Working with Dr. Honour is Miss Alice Barrows, Taggart's field representative, who has been touring the country on Uncle Sam's pay, in behalf of this mechanized educational system. Miss Barrows was one of the pioneers for the Gary system in the New York schools where the attempt to introduce the system aroused such intense opposition from the teachers that their representatives at the N. E. A. conference will oppose it almost in a body.

JURY GETS CASE OF UPHOLSTERS ON TRIAL HERE

Decide Labor's Rights During Strikes

The fate of four union upholsterers and Fred Jurian, member of the Painters' union, tried with them on the charge of conspiracy charges, went to the jury in Judge Wells' criminal court last night.

Michael J. McKenna and Thomas O'Shea, business agents of Local 110 and 111, and William Jordan and Gus J. Dahl are the four union men. On the turning of their cases rests the judicial precedent whether organized labor has any real rights in taking action against an employer during a strike or not.

Both the state and the defense rested their case yesterday afternoon but Assistant State's Attorney Romano earlier in the day took occasion to reconsider a previous announcement that the state rested its case by calling up Assistant State's Attorney John Sharbaro.

Sharbaro's job before the jury was to clear the state's attorney's office, if he could, of the charge that he rested on it from the defense charges that the state had turned over its office to representatives of the union to grill the arrested union men.

The witness admitted that he had questioned O'Shea and McKenna in his office concerning the upholsterers' strike and said both men told him they had put up stickers in various buildings urging building tradesmen to ask upholsterers to show union cards.

Dennis Taylor grilled them. He said that Robert Bronson and Dudley Taylor, attorneys for the Illinois Employers' Association, had been present when he questioned the men, but he denied that either Bronson or Taylor had asked the defendants any questions. Bronson had testified Thursday that he had asked "a few questions of the defendants."

After the testimony of Sharbaro the state rested its case and the defense without putting in any evidence also rested, the defendant considering that the state has failed to make a case against the defendants.

Remano began the argument for the state and Oscar Nelson made the first statement for the defendants. Nelson was followed by Robert Daniels for all the defendants, and the state then had the last word to the (Continued on page 5.)

THE HIGHER-UP

Chicago high school teachers have joined the fight against the platoon or Gary system of education which Big Business and the United States Bureau of Education is boosting.

At the meeting of the high school teachers' council yesterday a resolution was passed against the new system and the council also declared itself in favor of smaller schools, schools with more than 2,000 pupils, it was protested, are cumbersome and inefficient.

LUDENDORFF, WAR LORD OF GERMANY, ON TRIAL TODAY

MUNICH, Feb. 25.—General Erich Ludendorff, one of Germany's war lords, will be tried for treason today, together with Adolf Hitler and seven others.

Elaborate police precautions were taken today to prevent possibility of the Bavarian authorities may be a monarchist coup. Special reinforcements of state police arrived at Munich, while the Central Government stands ready to lend any assistance the Bavarian authorities may require.

The trial, which will be conducted by a Bavarian court of seven judges, will be held at the War Academy. Here special fire fighting apparatus has been installed against the possibility of fire and police have searched the building from roof to cellar.

Assembly of more than two persons within three blocks of the War Academy is to be forbidden tonight and tomorrow.

The crime of which Ludendorff and Hitler were accused was of plotting against the state. They are charged with leading the ludicrous beer cellar "putsch" of November 8, which swindled into opera bouffe the differences arose among the leaders of the uprising.

The "beer patriots," as they came to be known, swore to march on Berlin. They declared they would rid the country of Marxists, Socialists and Jews and rebuild a better Vaterland.

On the night of the Putsch, Ex-dictator Von Kahr, who resigned last Friday, was named "National Administrator" and Ludendorff head of the army.

The Central government immediately laid an embargo against Bavaria and lack of unity among the beer cellar patriots did the rest. Ludendorff fled to the Netherlands and a skirmish near one of the Munich state buildings. He was placed under "protective arrest" and gave his word not to engage in further reasonable activities. Hitler fled to the mountains and was captured he was jailed, while Ludendorff was made virtually a prisoner in his own villa.

EVERYBODY LIES EXCEPT DOHENY, SAYS THERE IS NO OIL SCANDAL

NEW YORK, Feb. 25.—Edward L. Doheny, lessee of California naval oil wells about whom the senatorial investigation has resolved, lashed back at his critics in an interview published today in the New York Tribune.

Playing the boss of Attorney General Daugherty, Doheny called Senator Borah and Senator Wheeler liars, accused the democratic party of playing cheap politics at the expense of good men's characters.

Senator Walsh, democrat, Montana, who is leading the investigation, is trying to become president, Doheny said. "Senator Wheeler lied when he said Daugherty was a friend of mine," Doheny said in the interview. "I met him once only and that was three years ago next May at the Metropolitan club, with four other members of the cabinet."

"As for McLean I have never seen him in my life, regardless of what Senator Wheeler says. He remarked 'everybody knows' about four times in his speech. That's a good name for him—'Everybody Knows' Wheeler."

"Four years ago Borah said that I had contributed \$50,000 to Major General Wood's campaign fund. I was a delegate to the democratic national convention and voted more than four times for McAdoo at the time, so I wired him asking him to correct his statement. Altho the telegram was read on the floor of the senate he sat in his seat and made no reply. He stands convicted of lying."

Doheny denied the casting of Secretary Denby "who had never been accused of wrongdoing," and said the democrats planned to louse over one member of the cabinet after another like nine-pins and send them from office discarded men.

He said there is no oil scandal. "There never has been any oil scandal. No one has been accused of anything. If any one got straight out of these oil leases it was the United States government."

Expect Democrats to Daub Republican Candidate For President Not Yet Touched

WASHINGTON, Feb. 25.—Bitter partisan feeling growing out of the Senate oil inquiry there, is being drawn in for a forth new sensational evidence designed to smear the names of leaders in both parties.

The name of a republican presidential candidate, heretofore mentioned in an scandal, may be drawn in by democrats. His son is reported to have been connected with the Doheny interests.

The democrats prepared to trace suspected "leaks" from the striking leaders on the investigation committee itself. Republicans threatened to recall William G. McAdoo, democratic presidential candidate, who said Saturday in Los Angeles that his law firm would have been paid \$1,000,000 by E. L. Doheny if they had succeeded in Mexican oil negotiations with Doheny.

These developments came as the investigating committee ended a week's recess and called to the state C. Bascom Slemm, secretary to President Coolidge.

Slemm was called by Senator Walsh, chief investigator, to tell what he knew of "leaks" from the committee. Democrats have a strong suspicion that private information of the committee has been secretly divulged to men who were to be called before the investigating committee.

If Slemm's testimony does not develop this fact, the next witnesses called will be local managers of the local Western Union and Postal Telegraph companies. They were subpoenaed to produce all telegrams addressed to Albert B. Fall, Edward B. McLean and two of McLean's intimate friends while they were all together in Palm Beach, Fla.

Senator Slemm, secretary to President Coolidge, met both E. B. McLean, publisher of the Washington Post, and Albert B. Fall, former secretary of the interior, at Palm Beach, Fla., between February 10 and Jan. 14, he told the senate oil investigating committee.

LADIES' TAILORS STRIKE IN HUB-1,500 ARE OUT

Workers Refused to Arbitrate 40-hour Week

(Special to the Daily Worker)

BOSTON, Mass., Feb. 25.—Fifteen hundred dressmakers and fifty tailors of the Ladies' Tailors' International Union went on strike on Feb. 19.

The first strike meeting was held in order in Falm Memorial Hall, by Anna Thomas, who had nominated Vice-President Monahan, Manager Lewis of Local 49, and Zudkoff of the Joint Board pledged their full support of the various units of the strike. The meeting was so successful that it swayed the strikers to an emotional outburst in harmony with the spirit of the "Internationale" and a revolutionary hymn sung by the workers before and after the meeting.

This is the fourth general strike Boston has had in its history. More extended than at any other time, due to the influx of small contractors during and immediately after the war, the influence of the union was greatly diminished. February was the successful strike organized by the industry to a great extent and forced the manufacturers to accept the terms of their own. This year the union, however, is making its influence felt for a 40-hour week.

For six weeks a deadlock existed between the manufacturers and the strikers. Last year's agreement had expired Feb. 15. The manufacturers proposed arbitration on the 40-hour week which the union refused accepting. The union refused to accept arbitration on the 40-hour week, to save one's self from exhaustion and breakdown during the arbitration of a several calendar months with no experience in the shop. Local 49, is comprised of all those who have gone down to the streets active among them are militants, members of the Trade Union Educational League and the Workers' Party. Here as elsewhere they are hearing the brunt of the fight. The manufacturers sought an injunction that despite the strike was called. Respite this strike is still on.

"Were you there when I questioned Mr. McLean?"

"Yes, sir."

"Where did McLean stay?"

"He was in a place in New about three blocks from the hotel."

"And was Secretary Fall there at the same time?"

"Secretary Fall arrived there, I think, on the 15th. I would meet him up in New York where you called me."

"And remained there how long?"

"Until Jan. 16."

"Did you meet either of these gentlemen while there?"

"Fall and McLean Together."

"I met both of them. I will say I was in Palm Beach about fifty percent of the time. I would meet Mr. McLean occasionally, accidentally, sometimes on the same source. Never met Fall at any place but at Mr. McLean's house for dinner."

"Did you know how long before I came to Palm Beach to question him?"

"I don't know. My coming was known," Walsh asked.

"I really couldn't say," Stemp answered.

Walsh hoped to bring out that Stemp had told McLean that Walsh was coming.

Standard Oil's Deal Suggests. Both reports are based on the Standard Oil Company, Mr. Wilson, counsel of the "Petroleum Company and War Effort," counsel of the Standard Oil Company.

The only objection of getting the opinion of the attorney-general was not forward by Mr. Doherty. It was not necessary, Bain said.

"We didn't want to get into a contract and we didn't want double standard on the matter by the attorney-general," Bain continued.

"The attorney-general's personal would render an opinion that the contract was legal, but you had to be satisfied to ask it," Walsh asked.

"It was unnecessary in that case," said Bain.

WHAT 3RD PARTY IS ABOUT DISCUSSED IN N.Y.

Single Taxer Was Good He, Made Them Laugh

(Special to the Daily Worker)

NEW YORK, Feb. 25.—The subject of "What is a Third Party?" was discussed at a meeting of the Civic Club on Feb. 21. Interest in the subject brought out a large audience despite the heavy asphalt that had covered the city.

The speakers were: Euse Pastor Stokes, member of the Workers' Party; J. H. Hopkins of the Committee of 48, and of the National Farmers' Progressive Party; Attorney-General Daugherty; W. J. Wallace, Single Taxer; Oswald Garrison Villard, editor of the "Nation," presided.

Mr. Hopkins spoke for the program of his party, which included "abolition of special privileges through ownership of the railroads, control of money and credit by the people through government and co-operation; to get justice by its general resources, preservation of civil rights guaranteed by the constitution and prevention of judicial abuses."

Lee Waved the Flag.

Mr. Stokes outlined the series of compromises that had taken place to organize a real Farmer-Labor Party in the United States in these terms: "Another reason was that the Communist in the effort to create a class party of workers and farmers, to get justice by its general resources, preservation of civil rights guaranteed by the constitution and prevention of judicial abuses."

German Workers Fight U.S. 'Experts' Scheme

By LOUIS F. LOCHNER (Staff Correspondent of The Federal Press) BERLIN, Feb. 25.—There is great indignation in Germany over the announcement that the international conference headed by Gen. Charles G. Dawes is considering the possibility of placing the railway system of Germany, now state-owned, under private management as security for an international loan.

When at various times during the past few months, the government turned to its own citizens for aid in order to meet the needs of the railway system, the stock owners were: "We'll furnish the cash if you'll let us have the railways."

The workers have a two-fold fear of the delivery of the railways into private hands. They regard such a step as a step backward in social development.

Secondly, they know that the railway workers would be at the mercy of industrialists who are now showing their cruelty in their destruction of the eight-hour day.

Elaborate essays, which purport to be the work of the government, are a failure because the state is too lenient about keeping its own officials.

It is true that, following the war, the government had to employ a large number of soldiers who were jobless, and that a number of those were taken into the railway service.

During the war, new construction stopped; copper parts were supplied by brass which was a substitute for grease and lubricating oils and great damage was done.

The workers are carrying on a systematic campaign of education among the masses to warn them of the dangers of "privatization" of the railways.

Mexican Bolshevik Tendencies Worry Reactionary Papers

MEXICO CITY, Feb. 25.—The reactionary organ, Excelsior, is greatly worried about the danger of a split between "such reactionaries and respectables as Coolidge, Hughes and Gompers, on the one hand, and such radicals and Bolsheviks as Obregon, Calles and Morones, on the other."

Excelsior, by "bringing it into harmony with modern social tendencies," will never let us do, warns Excelsior, "it will never let us do."

Philadelphia Labor Movement Up In Arms Against Disruption Policy of Yellow I. L. G. W. U. Heads

By ABRAM JAKIRA (Special to The Daily Worker) PHILADELPHIA, Feb. 25.—The Amalgamated Clothing Trades Union and Fraternal Organizations of Philadelphia called for the purpose of protesting against the wholesale expulsions of active and well-known members from the International Ladies Garment Workers' Union.

Brother B. Neinsten, chairman of the Joint Board of the Amalgamated Clothing Workers' Union, presided. Esther Weisman and Max Levine, former chairman of the Joint Board of the Glove Makers' Union, made a very interesting report on the controversy which aroused the indignation of all present against the reactionary machine of the International Ladies' Garment Workers' Union.

Expulsions Disrupt the Organization With facts in their hands, a number of expelled veterans of the labor movement brought to light the tactics of the officialdom and the motives of the expulsions.

Against Dual Unions. The expelled members were strong in their determination to work to organize a union of their own.

League Not the Issue. Membership in the Trade Union Educational League was the official reason for the expulsions.

Public Ownership Sabotaged. It is true that, following the war, the government had to employ a large number of soldiers who were jobless, and that a number of those were taken into the railway service.

During the war, new construction stopped; copper parts were supplied by brass which was a substitute for grease and lubricating oils and great damage was done.

The workers are carrying on a systematic campaign of education among the masses to warn them of the dangers of "privatization" of the railways.

Birth Control Is Issue in Syracuse Free Speech Fight

By THE FEDERAL PRESS NEW YORK, Feb. 25.—Charging that the ordinance passed by the common council of Syracuse forbidding the discussion of birth control in that city "violates constitutional guarantees of free speech and would prevent the American Civil Liberties Union from carrying out its duty," Mayor Walrath urged his "New York State" to veto the ordinance.

The ordinance is designed particularly to prevent holding of the State Birth Control conference, according to Mrs. Margaret Sawyer's secretary, the American Birth Control League. The conference is scheduled for Feb. 28 and 29 in the Municipal Auditorium of Syracuse.

We understand the council has passed an ordinance forbidding discussion of birth control and that the bill will be referred to the common council.

BACKBONE OF FASCISTI REVOLT IS BROKEN BY DE LA HUERTA

By BERTHAM D. WOLFE (By THE FEDERAL PRESS) MEXICO CITY, Feb. 25.—The backbone of the counter-revolt is broken and the question of punishment amnesty becomes the order of the day.

The forces of the Estrada on the western front, the recently defeated in a sensational battle won by the late Gen. L. de la Huerta, were not broken.

Nevertheless the backbone of the counter-revolution broke both the Vera Cruz and Guadalajara, the two former fascist centers, have been occupied by normal military service returning to their homes.

On the other hand, the objective of the fascisti is Tampico. A successful coup of several days ago by the army, which was led by Gen. Felix Tuxtla, would not be a disaster for the government.

Ham Lewis After Concessions. The government has been offering concessions to the fascisti. The government has been offering concessions to the fascisti.

Amnesty is the topic of the day. The pro-government organ, El Democrata, has declared that the government will offer amnesty to the fascisti.

Whether the officials of the International Ladies' Garment Workers' Union state that the entire labor movement of Philadelphia remains to be seen.

PHILADELPHIA, Pa., Feb. 25.—A large mass meeting will be held under the auspices of the Workers Party, Friday, Feb. 27, at 8 p. m., at the Machinists' Temple, 1229 Spring Garden St., to tell the workers of Philadelphia who is who and what is what in the notorious Teapot Dome scandal and how the workers can make their own future possible.

Philadelphia labor still continues to support the two capitalist parties now in control of the government. The Teapot Dome scandal has shown clearly that the republican party is not responsible for the present methods practiced in Washington.

PHILADELPHIA, Pa., Feb. 25.—The court has backed up the International Pressmen's Union in its refusal to accept the strike of the International Brotherhood of Bookbinders.

Prepare for the "Sub Campaign"

AS A DAILY WORKER will carry on a campaign for 10,000 new subscribers by June 30, say, hundreds of members of the "Lwant-to-maks" club, ever increasing in numbers and in organization will carry on the campaign.

Briefly stated, the features of the campaign will be the offering of special rates for trial subscriptions to new readers, premiums in the shape of free subscriptions to leading militant labor monthlies to present readers of THE DAILY WORKER.

Branch and City Agents Needed Everywhere. FROM the basis of the present degree of organization which has been effected for THE DAILY WORKER it would be easy to guess in advance which cities will make the best record in the coming campaign.

Every member of a labor organization will appreciate the value of proper organization. THE DAILY WORKER is to secure an ever larger number of workers as steady readers, subscribers for what is commonly admitted to be the best labor daily ever published in America.

This fact was appreciated by THE DAILY WORKER business office even before our paper was published and a series of letters have been written to every Workers Party branch.

Subscription Campaign to Start March 15. Complete Your Organization at Once. THE big Subscription Drive will start March 15. We know that the campaign will be highly successful in those places where organization is effected.

There are many cities where no agents have yet been named, should see to it that during the next two weeks organization is effected.

Members of the Workers Party should find out if their branch has a DAILY WORKER representative. If one has not yet been elected they should demand that this be done at the very next meeting and the name and address of the agent so elected forwarded to THE DAILY WORKER.

The campaign starts March Fifteenth. Thoro organization means a successful campaign. At least 10,000 new DAILY WORKER readers by June Fifteenth.

Ten thousand new readers means a bigger and better DAILY WORKER, a stronger and more solidified militant movement. The other big step towards the emancipation of the working class.

Bread and Profits

Many have often asked why it is that the right to breathe nature's fresh air has not been turned into a commodity and monopolized by some capitalist clique to sell at exorbitant prices.

As we are approaching such an outright levying of capitalist tribute on the workers, the right to breathe even impure air already exists in the deplorable housing situation prevailing in this city.

At any rate, let no one fool himself into the erroneous notion that it is the fundamental unselfishness and humanitarianism of the capitalist class that has saved the masses from the clutches of a powerful air monopoly.

There is more than one oil graft involved in the attitude of the industrial and financial magnates of this city.

With Daugherty out of office a change would doubtless be made in the executive of the bureau of investigation, the post now held by William J. Burns.

It is the most gigantic blackmail system ever organized in connection with the department of justice which is an anti-social character.

It is little wonder, that with this sword of Damocles hanging over his head the moment he leaves office the attorney-general wants to stick it out.

It is a fraud to quit and a lot of other people are afraid to have him quit.

The Mexican government has given the correspondent of the Chicago Tribune his walking papers for deliberately lying about Mexican affairs.

There is little doubt that the "World's Greatest Newspaper" will consider these two rebukes as merely further proof that the Russian and Mexican workers and peasants are entirely unable to appreciate the blessings of American newspaper enterprise and American democracy that the Tribune wishes to confer upon them.

Saturday evening the Tribune carried a story from its correspondent under a Berlin date-line announcing that a gigantic wire tapping ring had been discovered in Europe of which Zinoviev's mistress was the head.

When it comes to news of events that never happened, the Tribune is certainly the world's greatest newspaper.
