Ramsay MacDonald in Open Diplomacy

LONDON, March 15.—Ramsay MacDonald, Premier of the British cabinet, has published a statement which has created a new situation in the relations between the two former allies.

France has the largest army and the best equipped in the world, the largest fleet in the world, the largest air force, and the largest reserves of all these arms.

MacDonald backs Lord Curzon's policy of appeasement against Germany. He has been a leading figure in the League of Nations.

MacDonald has already left fifty per cent of the popularity which he has since his assumption of power. He has lost the support of the workers.

MacDonald's withdrawal of French troops from the Rhine has been a serious blow to the French people.

MacDonald's policy of appeasement has been a failure. He has lost the support of the workers.

Strike-Breaker Daugherty Must Go, Labor Defense Council Cries

War on Harry M. Daugherty has been declared by the Labor Defense Council long before his appointment as strike breaker of the nation and the arch persecutor, for the employers, of the labor movement.

There must be no delay in casting him out of office the Council says in the following demand:

For one Congress is voting a popular defense Council Bulletin points out, "the country will be plunged into a state of anarchy by the strike of the railway workers."

Daugherty's record is so rotten that even the members of his own party are ashamed of him. He has been a leading figure in the League of Nations.

FEAR SCENES MAY ESCAPE WITH HAREM

Eunuchs Who Guard Wives in Hysterics

CONSTANTINOPLE, March 3.—Guards surrounded the palace of the Caliph Abdol Medjid Effendi and searched the harem to prevent the imperial residence today, under orders from the Ankara government.

The eunuchs, who are said to have caused consternation among the odalisques—commonly called wives—of the Caliph and to have stirred the chief eunuch, the latter followed the Caliph and the family to the palace.

The Sultan of Turkey united the temporal and spiritual headship in himself in the person of the Caliph. The title of Caliph indicates a succession to the Prophet.

Abdul Hamid was the last Sultan to enjoy full autocratic powers. Since his reign, the harem has become a place of refuge for the women of the court.

CHILD LABORS REAL MENACE IN UNITED STATES

Infants Working Eleven Hours in the Fields

Capitalist greed not alone exploits the adults in the mills, mines and factories of the nation but it also exploits the child and the babe...

The oldest inhabitant has an early recollection of movements to prohibit child slavery. But it still goes on. When congress passes law prohibiting it our supreme court declares it unconstitutional...

This curse of child slavery is taking place here in "free" America and not in the so-called "foreign" countries of Europe. American tourists visiting Lithuania or some other state on the borderland of Asia...

Child welfare workers declare that conditions under the farmer are worse than those that prevailed years ago in the tenement districts. They are herded into narrow pens six feet long and four feet wide, under the same sanitation. There are as many as one hundred in each pen...

How futile and hypocritical is the "moral" crusade of the religious organizations of Chicago to protect the eyes of burlesque "entertainers" of moral or semi-moral forms of chorus girls, while the same organizations under which these unfortunates live are engaged in capitalist greed every day...

The Concluding Speech by Kamenev Before Moscow Communists

Today we publish the concluding speech by Chairman Kamenev before the Moscow Soviet on the program of the Central Committee of the Communist Party. Tomorrow we begin the publication of the views of Stalin on the program of the spokesman of Russian Communism.

In my address I have dealt with the most essential and important questions of Party life at the present time. It is not possible to come to a decision today, and that this decision is not only determined by the program of the Party in the provinces...

Comrades, everything which has been said here is not quite in accordance with that demanded or desired by Comrade Zinoviev, position has here been made of a monopoly, but it is not right. It is not right, because there has been no discussion against the discussion...

Does this imply that there exist no more differences of opinion in the Central? By no means. We were not chosen because we all agree with one another in the Central and in the various committees, as every intelligent man would only be possible to speak in the Central...

Necessity of a fraction. The Central or the others; the Central cannot do without them. We must reply sharply forward to this, even the Comrades Probrabrensky and the Central...

When you can prove to us that the formation of groups is no longer dangerous, that the influence of the New Economic Policy is not dangerous...

In Germany the apparatus is preventing the development of the revolution. But what conclusion is there for us to draw from this? Decidedly none whatever.

But for us the question is whether we have an apparatus which efficiently serves our Party. In our opinion, our apparatus needs freshening up. It has made mistakes. The reasons for the attack on the apparatus must be examined into...

But we have no one else further; you have no one else. The apparatus has become converted into a factional apparatus. A narrow factional spirit is spreading in our Party...

Ludendorff Woos Fascisti with Warlike Speeches from Dock

At least that is my impression; this is not the time to express his views on the subject of the necessary comparison.

Salvation lies in the strict execution and execution of the resolution of the 15th Congress. If our Party carries out the program...

But if we let the reins go at this turning, then there is a danger that we shall have factions and sections being played off against one another.

But we have no one else further; you have no one else. The apparatus has become converted into a factional apparatus.
