Throw Out Burns

William J. Burns, head of the Bureau of Investigation of the Department of Justice, symbolizes more than any other individual the brutality and maledict of American capitalism.

As director of the world-notorious detective agency, the International Burns Detective Agency, Mr. Burns has railroaded more innocent workers to jail, has smashed more unions and broken more strikes than any other strike-breaker or scab agency under the sun.

As the boss of the most powerful subdivision of the United States Government, his Bureau of Investigation of the Department of Justice, Mr. William J. Burns was the field-marshal in the relentless war waged by the employers against the railway workers in their national strike of 1922.

All of these high-handed deeds of Mr. Burns were performed in the name of the powerful capitalists whose watch-dog he has been for years. Fortunately the great majority of the working class and the farming masses of the country have managed to recognize Mr. Burns as their mortal enemy.

While the workers were being sent to die by the thousands in the country and Florida in the name of the fraudulent democracy, Mr. Gaston B. Means, was in the employ of the German imperialist government. No sooner had the war ended and no sooner had Mr. Burns been given his present appointment by Daugherty than this same German imperialist spy was employed by the Bureau of Investigation.

And, while the country was being shocked by the astounding revelations regarding wholesale robbery of its oil resources, Mr. Burns, who calls himself the world's best detective, not only did not put a stop to the activities of the oil trust, but did everything he possibly could to aid and abet the millionaire capitalist criminals.

His Master's Voice

The Chief Executive of our imperialist government has come out flatly against granting the Filipino people the right of self-determination and the right to be the world's most arrogant and aggressive coterie of capitalist looters, the American employing class, Mr. Coolidge minced no words. The President spoke his master's voice. "Silent Cal" mercilessly thrust the dagger of oppression into the very heart of the Filipino people.

Of course, our President, who is the political bed-fellow and protector of the oil thieves Sinclair and Doheny, hid behind the time-worn hypocritical idealistic pretensions so characteristic of the lying lackeys of the imperialist gangsters.

the capitalists who financed his diabolical primary campaign of 1930 to the extent of two million dollars is lauded and honored by the Philippine people.

The Coolidge message on the Philippine question is a challenge and a warning to the Filipino people and to the American working and farming masses. The brazen effrontery of our Filipino president, his attempt to terrorize the Filipino people into submission to the autocrat Wood—

When Senator Walsh was away from Washington for the night, the Communist Party was conducting its investigation of the oil scandal.

As the personnel stands today, the Public Lands Committee is burdened with such Senators as Lenroot and Smoot. Lenroot from Wisconsin is its chairman. He has already shown himself to be distinctly prejudiced in favor of the corrupt capitalists who have been despoiling the country's resources.

There can be no effective, real housecleaning, all the talk about it to the contrary notwithstanding, until the present Public Lands Committee itself is subjected to some detour house cleaning. The country has no confidence in the honesty and purpose of more than one of the members of the Committee now investigating the Teapot scandal.

Remember Mooney

The frantic appeal that Hiram Johnson is making for the republican presidential nomination and his renewed claims to progressivism once more bring to the fore the cases of Tom Mooney and Billings now rotting in California jails.

The case of Mooney and Billings present the most elaborate and outrageous frame-up perpetrated by the capitalist class and its government in all the dark annals of working-class persecution in America.

Are You Reading "A Week"?

By IURY LIBROVSKY
Published by THE DAILY WORKER
1640 N. Halsted St., Chicago, Ill.

What Do You Think of Our First Story?
The DAILY WORKER wants to know what its readers think of the first serial novel it offers...

And with dull incomprehension she looked at the simple joyful sky. The Easter bell-ringing floated over the town, and the sound of the machine gun broken off...

CHAPTER X—Continued.
SHE wanted to scream and run, to run and scream again. But she nibbled his feelings...

CHAPTER XI.
THE door opened for a few seconds. The daylight lit an electric torch...

GANGWAY FOR THE UNION!

Illustration by Billie for The Labor Herald.

AS WE SEE IT

By T. J. O'FLAHERTY.

Follow by the name of Ed. How—? says that Russia is not a good chance for the masses. Ed. How is a good American, is strong for the good cause. However, the nine have been caught selling out Russia for a sackful of dough. Whenever they catch anybody in Russia thinking of doing that he finds his thinking mistimed. Here in the U.S. he would begin to enjoy life.

The grave diggers in Naples, Italy have gone on strike. The demand for shorter hours, more pay and a higher standard of living. Since the Fascist government came into power the number of deaths has increased enormously. The result is a great tear on the bodies of the grave-diggers. Mussolini threatens to give the grave-diggers medicine unless they bury their demands with the dead.

Much joy was created in England recently over the announcement that the United States Shipping Board was to sell its ships at auction. This was a good chance for the masses who were looking for a ship to bring fresh goods from the States. The ship was a sandwich, as was predicted by Saint Columbae a few hundred years ago.

Sweden has a new consul general, Charles Evans Hughes or Yiddish Little Forward. The result is that the Swedish government has ordered 600 locomotives to the Soviet government. This is a great step in its contracting economic depression.

Britain is also taking steps to grant Russia credit to that the great war. The result is that the conditions of the loan will be that all the goods of the country must be delivered to buy the needed materials in England.

J. P. Morgan went to Europe after the war. He had a lot of money on board the yacht "Cobra" and appropriate cognomen—after which the yacht was named. The yacht was in the Mediterranean idling among the Grecian Isles and sailing as far east as Keyport. This should be gratifying to the wage slaves all over the world. Morgan's investment pay so that he and his family can live among the Greeks.

James Reed, Missouri, threw another harpoon into Mr. McAdoo's campaign—or is it a corpse? He charged him with losing money without security to France during the world war.

Latria is facing another cabined crisis of the dark days of the "potato republic" of the Baltic. The Chicago Tribune and the Herald-Examiner are engaged in a criminal-capturing contest. It is known fact that the big dailies have their undercover men in the underworld. The Chicago Tribune and the Herald-Examiner are on such terms with the police that the latter feed them information on how to tip off the newspapers when to tip off a raid or capture a criminal. This should be gratifying to the business of arresting those who are on the loose. The function of the capitalist press here and that the police only move when directed by the newspaper. The police has been tracked down and apprehended by the press.
