

PROBING OF WHEELER'S NOW ON Final Preparations of Attack

Worm Made in Secret

(Continued from page 1.)
After some preliminary questioning by Wheeler in Columbus, Mrs. Sinson is understood to have "told the whole story," a complete case for the committee.

The Fight to out Attorney General Daugherty was carried into the open here today.

The investigating committee made its preparations in secrecy. Senator Burton K. Wheeler, democrat, of Montana, who will assume charge of the open hearing at which Daugherty's management of his department's affairs will be attacked, disappeared for 24 hours.

Probe Bootlegging.

Investigation of bootlegging activities in the capital and elsewhere, efforts to secure pardons and paroles for bootleggers and the doling out of Federal patronage, will be gone into first by the committee, Wheeler indicated.

# INTERNATIONAL "DAILY WORKER" DESCRIPTION CAMPAIGN STARTS TODAY WITH GOAL SET FOR 10,000 NEW READERS BY JUNE 15TH

**--Quotas Set For Every Locality--**  
**LOCAL "DAILY WORKER" BOOSTERS DETERMINED TO EXCEED THEM**

**Special Offers made for Period of Drive**  
**SUBSCRIPTIONS TO LEADING LABOR PERIODICALS GIVEN AWAY**

NO WORKING class paper ever published in the English language in the United States has been so widely and uniformly commended as the DAILY WORKER. Even the capitalist press, when calling attention to the new menace that the presence of the DAILY WORKER constitutes to American capitalism, cannot help acknowledging that it is a well-written, realistic revolutionary organ, quite different from anything of a like nature attempted in this country before.

NOT since the call to save the Russian workers from the terrors of a devastating famine has a drive aroused so much enthusiasm on the part of the progressive workers of America as the campaign to add at least ten thousand new readers to the mailing list of the DAILY WORKER which will open officially on March 15. While the DAILY WORKER since its establishment has broken all records for growth, doubling its circulation since the first issue appeared on the streets on January 13, its readers are not content with resting on their laurels; on the contrary, the marvelous success of their paper has spurred them onward to set a new record, even for the DAILY WORKER, in the next three months.

The DAILY WORKER has on its staff some of the best writers in the American revolutionary movement. Not alone can they write, but they know the labor movement. They have actively participated in the class struggle. Its cartoonists have won world renown and if they wanted to draw for the capitalist press, they could name their own salaries. There is Robert Minor, editor of The Liberator, and Fred Ellis, specially engaged by the DAILY WORKER to draw pictures depicting the gyrations of capitalist grafters while they rob the workers and plunder the wealth of the country.

The campaign for 10,000 new readers will end on June 15. Letters to the Business Manager, inist that the figure has been set too low. Figures and quotas will be disregarded, declared the enthusiastic rebels from the great industrial centers and the open spaces. "How soon shall we pass our quota?" is the question asked by the local campaign managers.

Rebels love to battle with the capitalist class and when not in a scrap with the masters there is nothing they like better than to indulge in a contest between themselves.

From the mines where the workers go down into the bowels of the earth to produce the coal that sets the wheels of industry in motion come assurances of success for the campaign. The miners more than any other section of the American workers know the necessity for a fighting labor party.

Out of the enthusiasm of this campaign a spirit of friendly rivalry has grown between the DAILY WORKER pioneers in the various localities. Cities are challenging each other. One of the most interesting of these contests is that between Detroit and Chicago.

A HALF YEAR'S SUBSCRIPTION TO ONE OF THE LEADING LABOR MONTHLIES

Monthly magazine of THE FRIENDS OF SOVIET RUSSIA AND WORKERS GERMANY. The most authentic journal of Russian affairs published in America. Dedicated to the recognition of Soviet Russia and to International Workers Relief.

The liveliest general labor monthly in the country. Dealing with current subjects of the greatest interest to the workers. No militant can afford to miss it. Crammed full of telling articles, winning class poetry and smashing cartoons.

The most constructive, purposeful journal published anywhere in the world. The Labor Herald gives the lead to militant labor activity in America, within the trade unions and outside them. Proponents of anything progressive in the labor movement must read this magazine every month.

These figures have been set rather low, so low in fact that the booster captains were complaining until they were informed that a goal meant very little to a rebel as soon as he reached one, he got ready to go for another.

THE DAILY WORKER will move into its building about April 10. That will be a day of great historic importance to every life militant in America. It will mean that a home has been established not only for the DAILY WORKER, but also a home, a center for the militant labor movement in America.

By selling trial subscriptions to the DAILY WORKER in your city, your shop, your union. Surround yourself with DAILY WORKER educated militants in your neighborhood and your place of work.

### "Back to the People"

The powerful capitalist interests are not retreating before the assault that is now being made against them.

The American constitution is reputed to be the most inflexible document. There is no other constitution so difficult to amend and which puts the government at so respectable a distance from the influence of the people. While the Teapot committee is busy digging into telegrams and secret codes the senators and congressmen of both the republican and democratic parties are jockeying for position. The constitution even more rigidly difficult to amend than it is today. To some this task may be an impossible one in view of the already existing rigidity of the constitution. Nevertheless, this is the case.

It is true that the Communist advocates the national conference to meet in any circumstances. It is true that the Communist advocates the national conference to meet in any circumstances. It is true that the Communist advocates the national conference to meet in any circumstances.

Of course James O'Neal's assertion that the Communist is a "harmless" organization is a complete lie. It is a dangerous organization. It is a dangerous organization. It is a dangerous organization.

Do I advocate or propose any split? No, at all in my article. I advocate a split between the non-capitalist classes and the capitalist class. I advocate a split between the non-capitalist classes and the capitalist class.

### The Coolidge Ultimatum

After weeks of wrangling and bitter fighting the house of representatives adopted a tax measure which was a hedge-podge affair. The tax bill as approved by the house reflects very vividly the chaotic disintegration and confusion prevailing in the dominant capitalist parties at this moment.

Observers were wondering what Coolidge would do with the proposal of the House. He could not very well veto it on the general principle that it would be considered bad politics to be in any way at all responsible for holding up a tax reduction measure of this nature which was on the other hand the president had been banking so much on the Mellon scheme that his acceptance of the blighted house bill might be looked upon as a serious blow to his power and prestige.

As was to be expected, Coolidge then began to wield the powerful club placed in his hands by a highly contentious and confused legislature. He tried the game played by Wilson during the days when war fever was raging at its worst. He sent an ultimatum, clothed as an urgent request, to congress to reduce the tax rate on reduction in the 1923 income taxes without delay. But the reaction of congress to this ultimatum was a curt and effective rebuff to the president's ultimatum. It was guaranteed by the constitution to the house of representatives, the right to levy taxes.

United States Senator James W. Wadsworth, of New York, a multi-millionaire republican, who has inherited millions of dollars from his father, once one of the leading real-estate gamblers in the country, and who is himself now one of the notorious bond sharks, is the author and chief instigator of the "back to the people" amendment. In his capacity of representative, Congressman Flinn G. Garrett, of Tennessee, democrat, is the sponsor of this proposal.

The amendment provides for new and slower procedure for changing the constitution. It is to be a substitute for Article 6 of the constitution. It is to be a substitute for Article 6 of the constitution. It is to be a substitute for Article 6 of the constitution.

It is really true that James O'Neal asserts that the Communist is a "harmless" organization. It is a dangerous organization. It is a dangerous organization. It is a dangerous organization.

I will quote here word for word what I really wrote in my article of December 22, 1933, in the WORKER, under the heading, "La Follette, the Third Party and the Labor Party."

"It is in the deepest interest of the working class and the American people to have a split in the capitalist class and the other classes. It is a split that will shatter the capitalist united front. It is a split that will shatter the capitalist united front. It is a split that will shatter the capitalist united front."

At the same time my analysis goes further and makes it clear that the non-capitalist classes, also in certain respects, have an interest in the split. It is a split that will shatter the capitalist united front. It is a split that will shatter the capitalist united front. It is a split that will shatter the capitalist united front."

It is a split that will shatter the capitalist united front. It is a split that will shatter the capitalist united front. It is a split that will shatter the capitalist united front."

We are for the May 30th convention. We are for the May 30th convention. We are for the May 30th convention. We are for the May 30th convention. We are for the May 30th convention.

We are for the May 30th convention. We are for the May 30th convention. We are for the May 30th convention. We are for the May 30th convention. We are for the May 30th convention.

### Another War Brewing

Germany is getting ready for the next war! Capitalist correspondents in Berlin send this prophecy to their papers as hot stuff. But why wonder at it? There is not a government in the world strong or weak that is not preparing for the next war.

The best brains of every capitalist government in Europe are devoted to the task of preparing for the next war. This is the business of capitalism. And yet we are told that Communists believe in violence. Communism alone can save the human race from this suicidal mania for war and self-destruction.

The last war was supposed to make another war impossible. So said the American war mongers. But to say that another war must not be, today, is to court the dungeon. The United States is preparing for the next war.

Germany is preparing for war. Of course. Today she can place 400,000 men in the field. In a few years more she may have 750,000. Her chemists have perfected the most deadly forms of gas. How splendid!

And France! Victorious France, totters under the weight of her victory. The franc slips; panic seizes her rulers; dictatorship of capitalism is threatened. Surely a beautiful prospect.

Meanwhile Soviet Russia proceeds calmly building up a new order, abolishing the causes of war and offering hope to the workers of the world who are slowly building up a socialist society. It is the only power in the world that has abolished capitalism and its evil accompaniments, the most terrible of which is war.

### The Spanish Dictatorship

It appears that the Spanish dictatorship of Colonel Primo de Rivera, and the game of military dictatorship in the Philippines and Cuba, once so popular with the American "humanitarian" capitalists, is due for a serious jolt.

### The Outlook In Japan

Dissemination must wait, says Ramsay MacDonald, until the pigs begin to die. Dissemination must wait until the capitalist system is overthrown, say the Communists.
