CATCH BURNS CONSPIRING IN OKLAHOMA

Judicial Outrage Unparalleled in State, Charged

By ERNEST R. CHAMBERLAIN.
State Department of the Federal Reserve Bank
OKLAHOMA CITY, Mar. 20.—
An application to appear as a witness for impeachment of the supreme court of Oklahoma has been filed in the state house of representatives by Dr. C. F. Border of Mangum alleging a case of judicial outrage unparalleled in state history.

Border's case is of special interest to public ownership advocates as it shows the combination of the electric light combine and the Burns detective agency in a conspiracy to blackmail the mayor of Mangum, who was a physician, in calling off a bond election by seeking to induce him to perform a criminal operation.

Minked for Hoax
Border had run for mayor on a public ownership platform following the discovery that the Mangum electric franchise, as a unit in a "parent company" in New Jersey, was making Mangum citizens for about \$500,000 a year. Border was told that the franchise was a valuation that was mostly water. Border was told that the franchise was a valuation that was mostly water.

GIRL PICKETS PROMISED AID AT MEETING

Federation Injunction Committee Summoned

Four girl garment strikers, right from the picket line, attended the executive session of the "Committee of 15" of the Chicago Federation of Labor yesterday afternoon and made a blood-quicken appeal for action by the labor movement in support of the strike which they have been waging for more than three weeks.

After listening to the recital of numerous brutalities by police and striate thugs which culminated in Friday in the beating unconscious of Sophie Alexander, the strikers continued without cessation to discuss the case, the committee ordered John J. McGuire, president of the Chicago Federation of Labor, Victor Olander, secretary, and the Chicago Federation of Labor, Victor Olander, chairman, and Anton Johannesen, chairman of the "Committee of 15" to call on Mayor William E. Dever this morning and demand that he curb his thugs.

Takes Up Injunction Issue
The committee also promised to take up the injunction issue with the Federation of Labor at a meeting Monday. This injunction also consists of 15 members, and will deal with the charges presented by the sentencing of Florence Carr.

Plans for action to arrest the people of Chicago to the exchange of liberties that the Police Dept. Bulletin instructed, which the committee for strategic reason does not wish to make public at this time.

"We are going to win this strike," declared Miss Freda Reichler, who is speaking for the girl strikers.

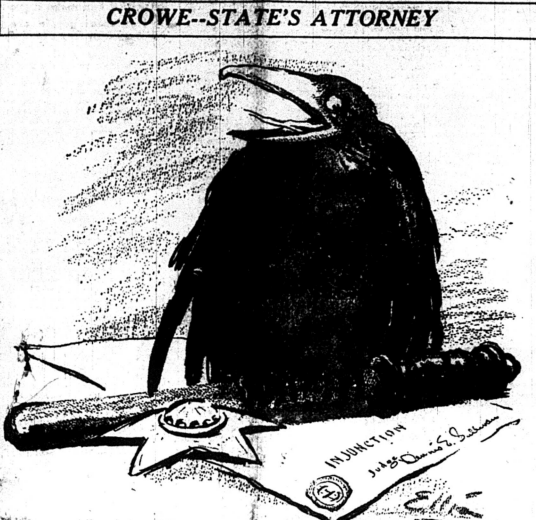

"We are going to win this strike in spite of injunctions and police," she declared. "If the strikers submit to the manhandling of Police Sgt. Sullivan, they told the 'Committee of 15' that the strike is lost. If they maintain their right to walk the streets of Chicago, the scab shops the strike will be won."

The strike will be won," they repeatedly declared.

At the end of the meeting the daily reports of police brutalities and the progress of the strike should be presented to them so that they might take prompt action.

The appeal for solidarity from the rest of the trade union movement here, for aid in the fight for union life and for human liberty, aroused a protracted discussion as to what measures should be adopted in the men's support.

A minority of the committee was for the mass action by the Federation on the picket line in spite of Denis Sullivan and his outrageous injunction. This minority urged that the most effective support would be given by a picket line, side by side with the girls, who are threatened with the 30-day sentences that Sullivan has just handed out to Florence Carr. They felt that if the girls pickets to beat up on the trade union pickets that men from the trade union movement of Chicago should wear the brunt of it, as well as the girls.

He Crows for the Bosses.

CHICAGO FIRES INJURE 3 WOMEN AND 4 FIREMEN

Wet Snow Saves Lives, Fire Laws Ignored

Three disastrous fires raged in Chicago yesterday, injuring four firemen and three women.

The fire laws might have been loosed in the conflagration that destroyed the huge Glanman Furniture warehouse at 3302 Newberry avenue and 832-36 Maxwell street in the vicinity of the Jewish tenement house district had the wind been different and wet snow not been falling.

The tenement houses, tenements where the city fire regulations are violated many times over, are clustered about the four-story warehouse that was blazing away. Flying sparks set off on buildings as far as three blocks away and Jewish people who were dragging the Purim feast rushed into the streets while firemen, aided by the wet snow finally put out the starting flames.

Another furious fire raged through the State Bank building at Madison street and Ashland avenue. Carl John Coffin of Empire Company No. 78 was caught in the debris when the roof of the building collapsed. His skull was fractured. Three other firemen were carried from the burning building, overcome by the smoke and cut by flying glass.

Agred Woman Injured
Mrs. Catherine Cunningham, 72 years old; Mrs. May Lambert and her daughter Dorothy were overcome by smoke in a fire that broke out in the Woodlawn district at 6100 street and Stony Island avenue. One hundred and fifty flat dwellers were driven to the streets. Damage at each of the fires was estimated at approximately \$250,000.

DAVIDSON, Okla., March 20.—The 103,000 acres of Osage Indian land on which oil rights were auctioned here brought a total of \$14,123,800. The record price for 100 acres was paid by approximately \$250,000.

"THIS STRIKE DETAIL THE POTATOES" SAYS ONE BULL TO ANOTHER

This strike detail is the potatoes, two bags a day and a lot of drink!

This fragment of conversation between two bulls in the S. Clark St. courtroom where the girl pickets and a DAILY WORKER reporter were awaiting arraignment explains a lot.

Two bags a day and the drink! The boss gets uniformed there cheaply. The regular "slugs" cost the boss more, he has to pay their wages. When the city sends policemen to arrest his strikers they cost him nothing but the side money and the drinks.

Russia's Victories Abroad Put Home Issues to Front
MOSCOW, March 20.—(Special to The Daily Worker.)

The Russian government was prepared to ratify the agreement which her emissary, Karakhan, signed with Wang and had demanded that China do likewise within three days. Up until today the Chinese cabinet had withheld ratification. The agreement provided for recognition of the Soviet government by China, France and Italy, the Pravda, in an article entitled "A Turning Point," writes: "Our immense proletarian power" further says the organ of the Russian Communist Party—"has now been openly recognized as a legal power. However, the consolidation of our external position lays new obligations on us—and paramount among them—the obligation to carry on our internal construction with utmost energy. Thus, we must learn to be more efficient in commerce and industry; the very 'tempo' of our life and work must be made stronger; it is an imperative demand of our days.

MOSCOW SEES TROUBLE WITH CHINA OVER PACT

Reputation Is Due to Anti-Soviet Powers

MOSCOW, March 20.—China's repudiation of the signature of her foreign minister Wang, on the Chirchik-Kustan recognition agreement signed recently at Peking, is unjustified and liable to lead to the most serious consequences for which China will be responsible, it was declared in official Soviet circles today.

CAL'S CAMPAIGN PRINTING DONE BY SCAB LABOR

Strikebreaker Coolidge Has Consistent Record

By CARL HÄSSLER (Chief Correspondent of Federal Press) Coolidge is for union labor in the district where he can get most votes that way. If for the open shop wherever he thinks he can get more votes will develop out of such conditions.

This is made clear in an interview granted to Typographical Union No. 16 by the Coolidge campaign headquarters in its magnificent, newly built building. The printers want to know why the union label does not appear on Coolidge campaign literature.

The official answer is that some times it does and some times it doesn't. But this is not their carelessness or negligence. The purchasing agent of supplies for all the Coolidge headquarters throughout the country said that the use of the label is determined by political expediency in each state.

The anti-labor bias of Coolidge is no secret. His only appointment of a cabinet member is that of Judge Curtis D. Wilbur, chief justice of the United States. Wilbur is chief justice of the state supreme court that has permitted the imprisonment of Tom Mooney and Warren Billings in jail under the life sentence of a law which has been repeatedly sustained by the United States Supreme Court.

Coolidge has kept in his cabinet Attorney General Harry M. Daugherty, whose assistant, William J. Burns, spends his time trying to put both American Federation of Labor and other unions out of business. Burns uses every conceivable source to help his private detective keep from his jobs and get more business. He is the protégé of Hiram Johnson, another presidential aspirant.

Coolidge has also kept James Davis as a secretary of labor, who plans to register alien workers and issue a large political and industrial police machine, was confirmed by the U. S. F. I. in its Portland convention in 1923.

Dutch Children Are Busy Collecting Funds For German Kiddies

AMSTERDAM, March 20.—The children of Holland are collecting money with which to erect feeding kitchens for the starving school children of Germany. Already several hundred such feeding kitchens in Berlin, where 20 of the neediest kids are fed daily. To keep down the overhead, it has been arranged that the pupils of the upper grades who are receiving lessons in home cooking, shall prepare the meals every day for these 20 under the tutelage of the domestic science teacher.

It is expected that a large number of kitchens will soon be provided for.

BURNS MUST GO!

Negro Workers Are Against Conservative Sanhedrin Leaders

TODAY we show up the Urban League, and how little it cares for the betterment of the housing and labor conditions of the Negro Race. It will be noted that so-called social workers and real estate sharks worked together in the last Sanhedrin Conference, to throw out aggressive and definite housing reforms demanded by labor delegates. The satisfaction of the mass of Negro workers with the conduct of the conservative members of their Race, who are in league with large white industrial firms, prompted the Negro workers to organize the NEGRO TENANTS LEAGUE. The Bill of Rights in the last Sanhedrin Conference a little further, showing how the labor and housing problems of the Race cannot be separated. We will also present a program on Negro conditions in the United States, introduced by the only political party which has a definite and practical program on the Race question—THE WORKERS PARTY.

Urban League, Negro "Welfare" Agency, Ignores Housing Issue; Workers Party Is Leading Fight

Despite the fact that the Negro workers were clamoring for a clean-cut housing and labor program to be adopted by the Sanhedrin All-Race Conference, which was held in Chicago the week ending February 16, only a vague and brief resolution on labor and housing was passed thru the conservative watch dogs who controlled the Congress.

Due to the efforts of Dean Miller and Arnold T. Hill of the Urban League, a recruiter of labor for the Chamber of Commerce, and their non-labor and anti-labor associates, the popular demand of the mass of Negroes, who had their eyes on the Conference as their hope for better living conditions, was thwarted.

The labor resolution, thrown as a sop to the mass Negro workers, was finally reluctantly passed in this form: "It is the sense of the Sanhedrin that the exploitation of Negro labor in the conflict between capital and organized labor is unfair and detrimental and that the principle of equal pay, recognition of labor unions in the field where labor is organized, and community assistance to Negro workers in industrial centers and organized financial relief in farming centers, be adopted by the Sanhedrin."

The nearest the rich business men of the Sanhedrin came to mentioning the dreaded word "trade unions" was in the phrase "community assistance to Negro workers in industrial centers." And the nearest these real estate sharks came to mentioning the word "rent" was in the phrase "community assistance to Negro workers in industrial centers."

The anti-labor bias of Coolidge is no secret. His only appointment of a cabinet member is that of Judge Curtis D. Wilbur, chief justice of the United States. Wilbur is chief justice of the state supreme court that has permitted the imprisonment of Tom Mooney and Warren Billings in jail under the life sentence of a law which has been repeatedly sustained by the United States Supreme Court.

The Sanhedrin conference declares itself unalterably opposed to the segregation of Negroes into "black belt" residence districts, to the segregation of Negro workers in industrial centers, and to the segregation of Negroes in regard to which part of a city they may live in and where they may live in.

"We demand legislation by which all tenements, apartment houses and homes to be built are subject to the claim of the first comers, without distinction of color or the will of the landlord. "Whereas, it is common knowledge that Negroes are customarily charged rent at a rate of 20 per cent to 100 per cent higher than is charged for the same apartments rented to white people, we demand legislation which fixed rental for all places and to be paid by heavy penalties and damages to the landlords who charge higher rents for one race than would be charged for another race for similar accommodations.

Tenants Meet March 31. The Negro Tenants League, which has its headquarters at 1200 N. State street, was formed by representatives of the Negro workers who are tired of being held up by the landlords and who have concluded that the controllers of the last Sanhedrin program have been proven to be hand in glove with the real estate firms and the industrial monopolies. If the Sanhedrin did not act in a definite action to aggressively better the housing conditions of the Negro workers at least it showed the Race where the interests of the colored workers really lie, and prompted them to act for themselves.

Wilkes-Barre Free Speech Test Coming; Pinchot Won't Act. NEW YORK, March 20.—Following court action to prevent Mayor Daniel L. Hart, of Wilkes-Barre, from interfering with the right of free speech, a test meeting will be held by the Workers Party in that Hart-riden town.

Robert W. Dunn, who has been inquiring into the state of Lorraine in Wilkes-Barre on behalf of the Civil Liberties Union, was informed by Governor Pinchot that he has no legal power to curb "the lawless" mayors like Hart as long as they are confined to the first amendment of the Bill of Rights.

Attorney General Woodruff, of Pennsylvania, has advised that "violated the fundamental law of free speech when he broke up the Lorraine meeting on Jan. 27." But Woodruff adds that the removal of Hart from office would require a two-thirds majority on the state senate.

LEWIS BLOCKS THE PAYMENT OF HOWAT'S WAGES

Tells Kansas Not to Pay 5 Months' Refund

By TOM TIPPETT (Staff Writer, Associated Press) PITTSBURGH, Kan., March 20.—John L. Lewis, international president, United Mine Workers of America, is blocking payment of back salaries to Alexander Howat and other disposed officials of District 14, voted to them by the Kansas miners' convention which adjourned here March 15. The convention had voted to pay the disposed men five months' wages for their unexpired terms, but Lewis refused to allow serving the 10 months' jail sentence for violation of the industrial court law.

"Don't Pay" Lewis Wishes. After the Lewis action Lewis told the miners not to pay. His message threw the convention into an uproar. Lewis was not in Kansas demanding that he cite the union law that prohibited this district from spending its money in any way but its own convention decisions.

Lewis' reply said the constitution "contains ample authority," but did not mention the industrial court law. Lewis pointed out the "payment of money under such circumstances under our own law and law officers of the state of Kansas is illegal action under the state law. One delegate from the international organizer.

Lewis Bank Disposed. The \$200,000 sent for the Kansas miners by the Illinois miners against Howat's wages was cited as proof that his stand was wrong. Upon the advice of Howat, who spent the money in the industrial court, the miners' convention did not force payment of the money.

The men involved in the salary question, when interviewed, said that Lewis' action was a "betrayal"; all had lost salaries. The district organizer, who is on the international board, would be taken. "A motion carried unanimously in favor of the international board, that the Kansas case with Howat and Lewis is permitted to select the date and place of meeting of the district convention at Kansas City on March 28."

What Howat Men Won. The convention was held with every provision present by the old Howat crowd won—excepting the salary payment of salary to the disposed officers—and they figure that the action was a victory for the workers. They stand the debate on the industrial court law, demanded a resolution to be adopted by the convention and rewrote their district constitution so as to provide for the election of a committee in the election and laid other plans to bring out the workers who are tired of being held up by the landlords and who have concluded that the controllers of the last Sanhedrin program have been proven to be hand in glove with the real estate firms and the industrial monopolies.

Grating Officials Will Hold on to Prison Pen Contract

By HERBERT E. CHAMBERLAIN (Chief Correspondent of Federal Press) OKLAHOMA CITY, March 20.—The Oklahoma City penitentiary, which has passed a resolution charging its agents, particularly Eli H. Brown and Louis J. Brown, with "grossly abusing their state officials." The resolution has been sent to the senate, reported by one committee and just referred to the committee on prison affairs presided over by Senator Carl Monk of McAlester, where the shirt factory is located. Monk is a friend of the contract.

W. E. Disney, house leader of the investigating committee, charged that the contract was "reeking with graft." B. B. Radar, treasurer of the company, said that the contract was made by Brown and the company's financial affairs and not by the state. He said that the contract has been paid by Brown and the company's financial affairs and not by the state.

Virgin Islanders Badly Fed Under American Rule

By THE FEDERAL PRESS NEW YORK, March 20.—Hearings on the senate bill providing for permanent form of civil government in the Virgin Islands, have been preceded by the publication of a report by the federal commission to the islands. The report of the American government toward the West Indian possession stands indicated by its own investigators. The report says that "Economic conditions in the Virgin Islands have deteriorated since the islands were taken over by the United States. The marked loss of trade is largely due to our general policy of free trade with the islands. The output of defense for the Panama Canal zone is largely due to our general policy of free trade with the islands. Austria Ministering Relief to J. P. Morgan Under League Yoke

By THE FEDERAL PRESS VIENNA, March 20.—Austria's suggestion that it is high time to consider the removal of the yoke, thrust upon the country by the League of Nations and foreign powers, has been rejected from the league. The clerical government at Vienna, acting under pressure from the socialist, recently suggested that the Austrian parliament should, after all, the competent authority to determine the nation's fate, to draw express the sentiment of the inhabitants of the Austrian peninsula. The "bondholders must be protected"—the foreign bondholders of Austria.

If there is any doubt left as to the sincerity of Austria, the league's own statement should dispel such uncertainty. The Austrian workers and middle class are not even favored with "honorable mention" in the league's dispensation of gratuities. If relief is being mentioned, it is to the bank of England, J. P. Morgan and other investors in the Austrian loan.

MILITARY RULE STILL PREVAILS IN GERMANY

Yellow Socialists Play Usual Dirty Role

By LOUIS F. LOSCHNER
(Special to The Daily Worker)

BERLIN.—A decree has been issued by the government to the effect that the military dictatorship of General von Seeckt and the Reichswehr (national guard) is ended—but a "civil" dictatorship has been set up instead. The sole difference is that that Minister of the Interior, Brüning, is identified with the big industrialists of the Ruhr valley, supports General von Seeckt.

That is President Brüning's answer to General von Seeckt's letter to the effect that the country is now "safe" and "stable" need not to need any state of emergency regulations. The parties of the Right immediately started a campaign of resolutions and petitions not to surrender the country to possible anarchy, but to provide some special means for maintaining law and order. The one signed by Ebert, the chancellor, the Minister of the Interior, and the Minister of Defense, is the answer.

There is not even hope that the military will now be taken out of politics. For the decree provides that the troops shall not be subject to the disposal of the Minister of the Interior if and when necessary. While the military is supposed to be removed, established the decree provides that there will be no interference with the "ward off movements" for unlawfully changing the form of the state. Which means probably that the Communists and extreme nationalistic groups are outlawed again.

The Minister of the Interior a few hours after the decree had been issued, issued an order specifying exempting Bavaria from the decree, the Minister of the Interior, in effect, the fact that Bavaria is its own state-of-emergency law.

In Bavaria a state-of-emergency law prevails which is aimed at the workers and at the parties standing for republican government. The monarchistic parties and organizations continue to flourish and prepare for "war" with the Reich government. The Reich government is sure to take the rest of Germany by surprise and reconstitute a Reich.

Democracy has once again been defeated in Germany.

East St. Louis Trade Unionists Threaten Strike on April 1st

By R. KRAMER
(Special to The Daily Worker)

EAST ST. LOUIS, Ill., March 20.—A strike is threatened here by 6,000 laborers and cement men in the building industry if the 10 cents per hour increase is not granted by the Master Builders Association.

The workers are not getting 10 cents per hour increase, but are getting 5 cents. Builders so far have refused this demand.

The mechanics, carpenters, steam fitters, and plumbers also asking for a 10-cent increase. The Master Builders Association looks that if the Builders Association will stand pat and refuse the increase, a general strike may be expected April 1st, or about 50 days.

Jobs under construction and involve approximately 2000 men.

PITTSBURGH COAL BIGGERS PREPARE FOR CONVENTION

Ready to Clean Up on Lewis Gang

(Special to The Daily Worker)

PITTSBURGH, Pa., March 20.—"How to beat the machine" was the subject discussed at a delegate meeting in Chartersville, Mo., from the Mon River section of District 5, United Mine Workers of America.

Some instructive speeches by Jimmy Oates and Thomas Myerscotton, the delegates talked of the district convention which will convene in Pittsburgh on Monday, March 24.

Such matters as the impeachment of the officials for maladministration, the reviving of the district constitution, the rotten conditions that prevail in the district and many other things too numerous to mention were discussed. Many of the delegates present also attended the Indianaapolis convention in January and they are determined that the things "put out there" are not going to be repeated in Pittsburgh.

Some brought reports of personal investigations of "Blue Sky" locals that were represented by organizers at the National convention, which were to the effect that many of the supposed locals are nothing more than "shell" organizations that have been established for years, while others have been closed for long periods of time and did not hold meetings to elect delegates.

It will not be permitted at Pittsburgh if the Progressives can get a majority of the delegates they can. Of course, they expect that the attempt will be made and the Indianaapolis convention. Green will be here to help Egan and they will be ready to fight. It is confident that the "Non-Communist" locals will be held in check.

Besides this meeting, three other meetings will be held in the district, i. e., the firing of the machine. Watch the smoke in Pittsburgh.

Haganman Governor of California Denies Reprise to Youth

By MIRIAM ALLEN DE FORD

LOS ANGELES, Calif., March 20.—SAN JOSE, Calif., March 20.—"I have no recollection of anything," the Mexican boy to whom Governor Richardson denied a reprieve to stand the conviction of the Farmer-Labor Reconstruction League is faced with another scandal in a hanging case. A law was passed by the Legislature forbidding the hanging of any person under 18. Now a boy, William D. Haganman, 17, has been placed in the chair, to be hanged May 15, says he is only 17. His mother says he is 17; he looks 17.

But, like many boys who are trying to be "hard-boiled," he has at various times claimed ages from 18 to 20. There is no record of his birth and the family has not lived long in San Jose, where he was born. His mother says he was born in San Jose, where he was born. His mother says he was born in San Jose, where he was born.

The admission of Haganman in the crime, has made the population of the "Blue Sky" locals in California. He is before the state supreme court, but the Governor has granted a reprieve to this situation as a proof that the hanging does not deter from murder.

Paroled To Die
SAN FRANCISCO, March 20.—John Weller, who as cashier stole \$170,000, was released from San Francisco State Prison on parole for a year. He is now in the hands of the state police. He is now in the hands of the state police.

Every new DAILY WORKER reader means a new recruit in the ranks of militant labor.

MAY ORGANIZE THIRD PARTY IN OKLAHOMA STATE

Political Lines Split Wide Open

By ERNEST F. CAMBERLIN
(Special to The Daily Worker)

OKLAHOMA CITY, March 20.—Approximately 800 delegates are expected to attend the convention of the Farmer-Labor Reconstruction League to be held at El Reno this week.

Political lines are badly split in Oklahoma.

George Wilson, dep. pres. of the League, has announced that he is to be elected to the office of governor. He has been nominated by the League. He has been nominated by the League.

Wilson will organize a Farmer-Labor party machine to support the national movement independent of the League. He will thus give the League a card in the hole should they be defeated in the election. He will thus give the League a card in the hole should they be defeated in the election.

The regulars who once sought to secure the right to organize a new party are now split. The regulars who once sought to secure the right to organize a new party are now split.

Greek and Armenian Comrades Hoist to Detroit Sub Getters

DETROIT, Mich., March 20.

DETROIT, Mich., March 20.—The DAILY WORKER "getters" took the evening of Saturday, March 17, and enjoyed a banquet in the offices of the Detroit Press Club. Tables were set in the auditorium of the House of the Masses.

Bill Dumas, of the DAILY WORKER, who has set up as a local manager, telegraphed that he "has immense connections coming from Minneapolis where we secured a tremendous victory for our Party in four different conventions. Could not leave sooner, and am sure that this telegram with this news will be a good substitute for me. Best wishes to the Detroit comrades."

Maurice Sagar was hurriedly conscripted to serve in Dumas' stead and was given an ovation when Detroit Organizer Owen announced the change. However, those most vociferous in their applause regretted it a moment later when Maurice Sagar, who is familiar with the private lives of most of those present, began telling what he knew.

The English branch of the Workers Party was organized in Detroit by organizing a rifle squad banner for securing the most subscriptions during the drive. Joe Harris received \$10 in gold for getting the most subs, and Bud Reilly received \$10 in gold for coming in second best.

Full credit for the success of the banquet must be given to the Greek and Armenian comrades, who took Saturday this morning and spent a dinner that will long be remembered.

Arrangements have already been made to continue the drive in response to the call for 10,000 members by June 15. Detroit is determined to maintain its reputation as the "Red City" of the West. Let Chicago take warning.

Bylander Killed by Seab.
NEW ORLEANS, La., March 19.—In August of last year Felix Cate, an innocent bystander, was shot and killed in a battle between Greek and Armenian comrades. The Greek and Armenian comrades were charged with murder.

Assistant District Attorney Tom Cavanaugh is now in the field, shot and killed in the field, shot and killed in the field, shot and killed in the field.

RIFLE SQUAD TO SHOOT WORKERS IN WATERBURY

Police Are Ready for "Labor Trouble"

(Special to The Daily Worker)

WATERBURY, Conn., March 20.—The Waterbury Police carried a news story about the visit of two Communist organizers from New York and their attempt to speak with the unorganized workers of the plant to arm the men against "going anti-industrial." Then follows this paragraph in bold type:

"Waterbury expects labor trouble this spring, however, and the police are busy preparing for any emergency that may arise. By order of the Board of Public Safety and Superintendent of Police George M. Heach a rifle squad has been organized. The squad is drilled twice weekly so it will be efficient should the occasion arise."

On the same day the following editorial appeared in the Herald, same paper:

Waterbury Ready For Murder.
The police are busy preparing for any emergency that may arise. By order of the Board of Public Safety and Superintendent of Police George M. Heach a rifle squad has been organized. The squad is drilled twice weekly so it will be efficient should the occasion arise."

Waterbury is the only place in Connecticut, and probably in New England, where the police are made every time there is a strike. The police are made every time there is a strike. The police are made every time there is a strike.

Bonus Bancombe

The House of Representatives has adopted a so-called soldier bonus measure by the tremendous vote of 355 to 115. This is enough to override a Coolidge veto.
