# FITSIH COAL MINERS' STRIKE

## MINE STRIKE LOOMING BIG IN BRITAIN

### Another Gaint Struggle Is Facing MacDonald's Rule

(Special to The Daily Worker)  
LONDON, March 26.—Following announcement of a deadlock in negotiations between miners' officials and mine owners, the British cabinet met at 10 Downing Street today to consider an impending crisis in that industry, the third the government will have been called upon to face in its brief tenure of office.

At the same time, a national miners' delegate conference, representing 800,000 workers, met.

Agreement Expires April 17.  
The existing wage scale in the mining industry expires April 17 and conferences have been under way for some time, seeking to adjust differences regarding a new scale. The board of trade announced officially early today that there has broken down completely. The employers suggest a court of inquiry, which the miners rejected unqualifiedly.

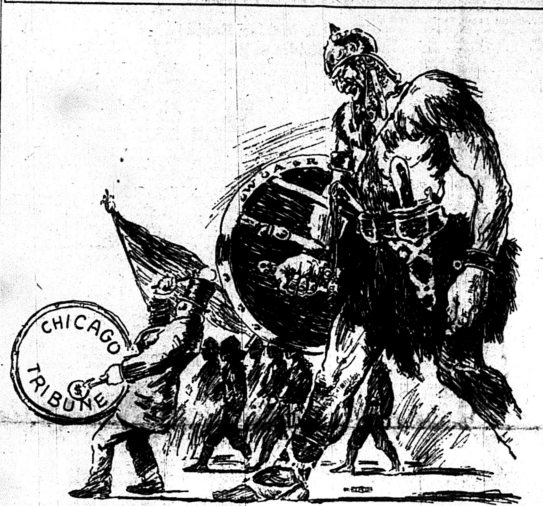

Freddie Minnieaux Wage Bill.  
It was forecast that today's delegate conference would recommend a nationwide ballot of miners as to certain whether the workers are willing to strike to force acceptance of this measure.

The minister of mines will take a hand in the controversy tomorrow. If this intervention fails there is said to be no alternative save introduction in Commons of a minimum wage bill for the industry, as promised by the government.

If the House should defeat this bill it would mean a setback to Premier MacDonald's government.

## "Labor" Alderman Is Silent in City Council as Police Arrest Forty-Five More Strike Pickets

### IT YELLS FOR WAR

But It Is Silent About the School Land Lease Deal.

## NELSON FAILS STRIKERS AT CITY COUNCIL

### But Girls Flock To Picket Line in Greater Numbers

Alderman Oscar Nelson, vice president of the Chicago Federation of Labor and paid attorney for the garment strikers, flatly refused to raise his voice at the city council meeting yesterday afternoon against the police slugging and wholesale arrests which are going on in violation of the law.

The last of Nelson's 29th and 30th of labor came on the scene of most critical day of the strike. Another case of police slugging and just occurred and three dozen arrests had been made of girl pickets and social workers who had come on the picket line in greater numbers than ever.

When the city council opened at two o'clock the galleries were filled with girl strikers who were waiting two hours off from the battle front on S. Wacker street for the purpose of hearing Alderman Nelson raise his voice in their behalf.

The girls waited for more than an hour in vain. Their paid attorney's voice was lifted loudly for a special Friday meeting of the council to consider the \$46,000,000 budget proposed by the city of Chicago but he was dumb on the issue of police slugging.

Nelson Turned Girls Down.  
So the girls sent Nelson a note stating that they were waiting for some action from you. Can you help?

Cries "Foster" To Hide Lies.  
Out came Nelson. Using the same tactics he used at the Chicago Federation of Labor, when he was being urged mass picketing by the Federation, Nelson launched another attack on "Fosterism."

## Arrest 45 White Oscar Was Mum In City Council

While Alderman Oscar Nelson was refusing to raise his voice in the city council against police brutality, the city police were making a new record for arrests of peaceful pickets.

Forty-five strikers and two socialist workers were there arrested in the course of police raids on the picket lines in which considerable violence was used.

Many of the arrests were made in front of the C. H. Lowenthal at 224 S. Market street which is the special office of police care. Contrary to law the police use this hallway as a temporary prison in between patrol wagon trips.

Thomas Holland and Miss Helen Tippy, Hull House residents, were arrested in front of the Lowenthal plant as they entered in their note books the numbers of police captured in the beating up of Miss Jennie Lieberman, one of the strikers.

WHAT WILL CHICAGO LABOR DO ABOUT IT?  
"Sluggers" Frank Fuller, employed by Lowenthal, at 221 So. Market Street, will have the pleasure of accepting a warrant this morning, served at the request of Jennie Lieberman, whom he attacked yesterday.

Miss Lieberman had just been arrested and was being held in the entrance to the Lowenthal building.  
Sluggers Fuller addressed Miss Lieberman familiarly and attempted to shove an injunction writ into her hand.  
"Hired by My Boss."  
"Who are you to talk to me?" Miss Lieberman demanded. "Talk to the policeman. You're hired by my boss."  
"Can you read English?" Sluggers Fuller persisted.  
"I'm not to tell you if I can or not."  
"Just look at the heading of this paper!" Miss Lieberman, thrusting the paper into her face.  
Miss Lieberman looked at the ceiling.  
"At this Sluggers Fuller grabbed her dress at the neck with one hand and hit her in the stomach with the other."

## DAUGHTERY IS NEAR OUSTER BY COOLIDGE

### Grooked Attorney General Is Called to White House

(Special to The Daily Worker)  
WASHINGTON, March 26.—Smearing under the campaign waged through the country, demanding the removal of the criminal attorney general, Harry M. Daugherty, President Coolidge again today called the chief cabinet white elephant into his office and implored him to quit while the quitting was good.

The DAILY WORKER in its Monday edition pointed out that the removal of Daugherty would be brought to bear on the president during the week to force his hand with regard to the attorney general.

It is no secret that the prominent leaders of both democratic and republican sides of the revolution, significance of the Teapot Dome scandal, and the still worse revelations that have come out of the Daugherty investigation.

So they are making another determined effort to force Coolidge to kick the republican side of the house for not calling a halt on the entire business.

After the conference Daugherty told the reporters that only routine matters were discussed. But it leaked out that Coolidge again implored the attorney general to do a good job for the republican party.

"Hell Will Break Loose."  
After the conference Daugherty told the reporters that only routine matters were discussed. But it leaked out that Coolidge again implored the attorney general to do a good job for the republican party.

None of the six policemen standing in the hallway protested the brutal attack on Sluggers Fuller. Instead they laughed at seeing a defeated woman being dragged by the face and bruised crimson chest didn't phase their stolidity.

But the police sergeant on duty in that block realized that the attack was being beaten. She was questioning to go up for the sluggers' name. He brought it back to Jennie Lieberman. She was wearing a warrant for the arrest of Sluggers Fuller.

## Morgan's French Lackey Out

### M. POINCARE, WALL STREET HOPE, QUILTS

### French Premier Is Asked To Form New Ministry

(Special to The Daily Worker)  
PARIS, March 26.—Raymond Poincare, the \$100,000,000 white hope of J. Pierpont Morgan, was defeated in the chamber of deputies on a vote of confidence in his minister of finance.

The long threatened defeat came on the eve of the report of "Hell and Marie" General Dawes, of the reparations committee.

Poincare is one of Europe's leading militarists and a bitter foe of the Russian Soviet Republic. He took a prominent part in the intrigues that led up to the European war and is said to be in the hands of the great struggle.

## Police Chief Gets Fired For Arresting Coca Cola Queen; Should Stick to Nabbing Strikers

ATLANTA, Ga., March 26.—James L. Beavers, police chief of Atlanta, stood suspended today pending hearing on charges growing out of the arrest of Mrs. Ana G. Candler, wife of the millionaire coca-cola manufacturer.

Mrs. Candler was arrested in a raid on an apartment in which she and two prominent business men were found. She was released at a preliminary hearing.

Accusations brought against Beavers before the police commission included that he "arrested a wife under such circumstances as will lead to divorce proceedings."

## LONDON TUBE WORKERS PLAN STRIKE FRIDAY

### Traffic Bill Introduced in Commons

(Special to The Daily Worker)  
LONDON, March 26.—Unless London's tram and bus strike is settled by Friday mid-night, subway workers will walk out as well, it was officially announced today. This would leave the city without transportation, except for taxicabs and a few "pirate buses."

## KLUXERS THINK QUITTING MASK RADICAL MOVE

### Also Plan to Admit Foreign-Born

(Special to The Daily Worker)  
MUNCIE, Ind., March 26.—Admission of foreign-born protestants who have been Americanized and abolition of the mask are radical changes from the old Ku Klux regime embodied in the constitution for the Independent Klan of America, now in session here for the purpose of perfecting a permanent organization.

After an all night session the constitution and by-laws committee reported this morning that it was ready to go before the convention this afternoon to adopt of the constitution.

Only legally appointed delegates will be admitted to this meeting but one amalgamation with the "Knights of the Flaming Sword" headed by Col. William Simmons, banished from the Klan, and is limited there is a possibility of this fraternal blocing the organization plans.

The convention will close with the election of officers this evening unless plans to block adoption of the constitution fail.

Teapot Meeting in N. H.  
CONCORD, N. H., March 26.—The significance of Teapot Dome was explained to the workers of this city when William Simons, of Boston, spoke here in Concord Hall recently. The crowd was not very large but they were interested.

OUT WITH DAUGHTERY!

# Union Trust Fears to Get The Tribune into Trouble

## BIG BANK'S SILENT ABOUT SHADY DEAL

### Attitude Hints Something Wrong In School Lease Transfer

The Union Trust Company does not want to get the Chicago Tribune into trouble by telling the truth about the transfer of the Tribune school lease to the big Dearborn Street bank.

This confession was made to the DAILY WORKER by Vice-President R. F. Chapin. It is a flat admission from one of the highest officials that there is something shady about the Tribune's handling of its school lease.

"The President is Out," says the Tribune. Last December the Tribune transferred its school lease to the Union Trust Company, since it was moving to its own north Dearborn Street building.

The DAILY WORKER reporter asked to see the bank's records in an effort to learn why the Union Trust Company had paid the Tribune the value of the lease. The money consideration involved in the deal has been kept a secret. The bank's president, R. F. Chapin, refused to be interviewed.

"Have you heard of the charges made against the Tribune and the Union Trust Company in keeping secret the transfer of the Tribune school lease?" Mr. Chapin was asked.

"Yes, I heard all about it," said the bank's vice president, very good natured.

"The DAILY WORKER wants to get the facts about this deal," he was told.

Trouble Locs On Horizon.

"Yes, I have heard something about that," he said, indicating that he had read the DAILY WORKER.

The question was then put direct to Vice President Chapin "How much did the Union Trust Company pay the Tribune for this school lease?"

Vice President Chapin immediately countered with "So you want to use me to get the Tribune into trouble?"

"Would your truthful statement about this deal get the Tribune into trouble?" was asked.

It was here Vice President Chapin immediately got interested in other subjects. He did not want to talk school leases any more, and he kept to charge that Miss Margaret Haley, of the Chicago Tribune, was talking about the plugging of school lease fees for a long time, especially about the Tribune's 93-year lease.

Passes Buck To Tribune.

"If the Tribune would reply to these charges it would be doing an effort to clear itself," was again the previous question, and was hurled at Mr. Chapin. "How much did the Union Trust Company pay the Tribune for this lease?"

"I am not in a position to give this information," said Vice President Chapin. "I will defend you this information, it is entirely up to him."

Patterned Still "Thinking."

In the meantime Joseph Medill Patterson, editor of the Tribune, is evidently thinking this matter over, as he told the DAILY WORKER he would do. No statement has as yet appeared in the self-styled "World's Greatest Newspaper."

Silence still shrouds its plugging of school children, as all attending classes in freight cars and portable buildings jammed 50 and 60 into small rooms with a single teacher.

## MASS MEETING OF THE NEGRO TENANTS LEAGUE OF CHICAGO

WEDNESDAY, MARCH 27, 8:30 P. M. ODD FELLOWS HALL, 2335 South State Street.

Speakers: Lovett Fort-Whigham, Bob Murray, Louis Engdahl, Gordon Owens, Otto Huiswood, and Others.

The League has just been organized by prominent South Side Negroes and at the mass meeting will present the Negroes of Chicago with a housing program which is intended to curb both white and colored profiteering real estate sharks who have been grasping on the miserable housing conditions under which they are forcing a large part of the Negro population.

The DAILY WORKER reporter who investigated housing conditions among Chicago Negroes will speak for 15 minutes summarizing the results of his investigation.

## Negro Working Women's Homes Being Destroyed By Congested Conditions; Tenants Must Act

The housing situation is peculiarly a woman's problem. The women of Chicago, in the face of increasing rents this spring, have been forced by the thousands to divide their interests between their family life and their efforts in factories as bread winners.

A woman needs a home more than a man, for life is a dreary prospect to a woman who has no comfortable home. It is especially true of Negro women that their families have all but been destroyed in the past few years by the difficulty of meeting the recent housing crisis.

The presence of the colored woman in industry is a recent phenomena. A woman needs a home more than a man, for life is a dreary prospect to a woman who has no comfortable home.

It is especially true of Negro women that their families have all but been destroyed in the past few years by the difficulty of meeting the recent housing crisis.

## WORKERS PARTY DIGGERS WILL STRIKE APRIL

Under the slogan, "More Power to the Workers," "Down with the Bosses' Candidates," the Workers Party is arranging a series of mass meetings during the campaign to bring its program to the attention of the workers.

In a campaign statement the Workers Party points out that the socialist party of Milwaukee boasts of the increase in value of property during its regime, rents have also gone up, hitting the workers very hard.

Building trades workers in Milwaukee are the lowest paid in the United States and that practically all the workmen in the city are operating on the open shop basis.

The socialist party is trying to appeal to the workers by supporting the socialist party ticket the Workers Party demands that the socialist party join mass meetings during the campaign to bring its program to the attention of the workers.

## NEGROES LIVING IN FIRETRAPS HAD NARROW ESCAPE

Vile Housing Conditions Forced on Race.

If the wind had been blowing from the South a few days ago, Chicago due to its long continued neglect of the colored people, would have witnessed last week, one of the worst tragedies in the history of the city.

At the corner of Newberry Street, a fire broke out in a tenement house, which was completely gutted by a dangerous fire. The sparks spread to a factory building, which was also gutted.

The fire started in a tenement house, which was completely gutted by a dangerous fire. The sparks spread to a factory building, which was also gutted.

## Rock Dusting of Mines Would Prevent Many Explosions

Explosions of coal dust such as have been reported in the past few months can be greatly prevented by proper rock dusting methods, states the Department of Mines in a report.

The report, issued by the Department of Mines, states that the use of rock dusting methods to prevent the propagation of coal dust explosions in European mines.

# RAID SAN PEDRO RADICALS

## Seize and Confiscate 100 Worth Property

San Pedro, Calif., March 26.—A raid on the Workers Party of America headquarters in San Pedro today resulted in the seizure of 100 worth of property, including a large quantity of literature, and the arrest of several persons.

The raid was in progress at 11:30 a. m. when a party of about 20 men, including several police officers, entered the building and searched for several hours.

# WILL YOU HELP?

## Aid is Needed For Family of Jacob Dolla—4 Years In Jail For Fighting Gary

The DAILY WORKER publishes the following letter from Jacob Dolla without his knowledge or consent, but with the hope that the response to the appeal contained therein will be so generous that its action will be justified.

Jacob Dolla was framed up and railroaded to jail by steel trust detectives because of his activities in the great strike of 1919. Promises to pardon or parole him have been made since after time by the authorities of Pennsylvania after all doubt as to his innocence of the charges on which he was convicted has been removed, but Jacob Dolla still remains in prison while criminals and degenerates of the lowest character have been released.

Must Care For Families. The DAILY WORKER believes that the least that can be done for working class fighters like Jacob Dolla is to send him some money to help him and his family to get on their feet.

My faithful wife is struggling to support our children. She has been in prison for 4 years, and never before was she in the streets. She has been in prison for many months in danger she never knew of, and she is now in prison for 4 years, and never before was she in the streets.

# HEGGERS DOOR-LEADERS HIGHER VISITS AMERICA

This Australian Fakes A Rotten Egg. BY SYDNEY WARREN. (Special to The Daily Worker.) VANDUVER, N. O. March 26.—William Morris Hughes, Australian opposition leader, and his wife, Mrs. Hughes, arrived in New York today on a special train for the purpose of visiting the United States in connection with the allied sugar and other financial interests.

Hughes pretends that his profiteering dodge is in the interest of the white race against the yellow "Squad" View On Labor. In announcing Hughes' arrival here, the editors of this paper said that this palvering dog-duck of the bourgeoisie, as a labor leader who holds "honest" views, is the beginning of his career, the announcement is a lie.

Hughes is one of the most outstanding examples of a man's contempt for the labor movement and the labor movement and subsequently was elected to union office. Later he was elected to the office of the South Wales state parliament and the office of the Federal Australian Labor Party.

During the war, Hughes as premier of Australia virtually turned over the country to the war profiteers and for his servitude to them was paid \$125,000.

During the war, Hughes as premier of Australia virtually turned over the country to the war profiteers and for his servitude to them was paid \$125,000.

# Sailor Tells What He Saw In Russia Where Seaman Enjoy The Best Conditions In Europe

When I saw Bill Hayward on one of my visits to Moscow, he told me, "The one thing which stands out as the most glaring fault of the industrial workers of the world of today is that they do not understand the workers' Soviet Republic—it does not understand Russia."

Later, when I decided to come back to the States, thinking that other I. W. W. sailors would be sure to respond to the call and give me two weeks' advance notice, I was surprised to find that I was not given the opportunity.

The Russian conductor on the train from Riga to Leningrad told me that he had seen a "crew committee" to phone Zinoviev's secretary when he was in Leningrad.

# DAUGHTER OF GRAYBARK SEEN IN CALIFORNIA

Quimby Fixed Demagogues Picture Deal There. BY MIRIAM ALLEN DE FORD. (Special Correspondent of The Daily Worker.) SAN FRANCISCO, March 26.—Echoes of the thunder storm breaking around official heads in Washington reverberating in San Francisco, indicated returned by the Los Angeles federal grand jury in connection with the showing of Dempsey-Firpo fight films in California, have revealed that Frank C. Quimby, who has exposed the Dempsey-Carpenter film graft to the committee investigating Secretary Daugherty, also had charge of arranging matters in San Francisco for the Dempsey-Firpo film.

Quimby masqueraded under the name of Walter Jackson, among the local men indicted are W. O. Johnson, J. H. Jones, J. H. Jones, and Maurice Blanche, who produced them. Both state they were arrested by Quimby (alias Jackson) and everything was all right with the officials' firm that it was all fixed with the government." Later Blanche, who had threatened to make trouble by protesting against producing the film, was given the double cross payment by the firm, stopped on his check for \$100.

Perry Opped Only \$100. The firm, and was distributed in the film here, and was fined \$100 by the grand jury. The firm, and was distributed in the film here, and was fined \$100 by the grand jury.

### The Legion Up In Arms

The self-appointed defenders of the country from the American Legion are in a fit of rage over the speech delivered by a young pacifist, Brent Dow Allison, at the Northwestern University. The fumes emanating from the rage that has overpowered the straggled pacifists are poisoning the atmosphere far and wide.

This is not the place for an examination of the fallacy of pacifism, theoretically or otherwise. What is of importance here is that the reactionary capitalist spokesmen and their lackeys have taken up the cudgels for the capitalist masters against the working class issue out of this. The Tribune is shrieking vengeance. The Herald and Examiner is swearing volleys at the Communist. The Young Workers Party and its publications come in for a special lacing at the hands of this most siffon sheet of capitalist newspaperdom. The Legionaires are threatening to call in the notorious strike-breaking attorney, Black Crowe, state's attorney, in on his hind legs sparring for trouble. Why the rage?

The American Legion officialdom is playing the game of the capitalist exploiters who are responsible for having misled this country into the last imperialist war. These scoundrel lickspittles of the bosses, who are attempting to build another wage strike-breaking army to supplement and strengthen the already existing powerful state strike-breaking apparatus, the government, are in panic because the youth of the country, particularly the working-class youth who do the fighting in wars, are becoming aware of the fraud and delusion of patriotism as preached and practiced by the exploiting class of this country. The attempt to let loose a wave of flag-loving hysteria and to flood the district with spread-eagle orators are the first answer of these defenders of the enemies of the workington and farmers.

These same self-chosen saviors of the country are the ones who always try to wrap themselves in, or hide behind, the stars and stripes in order to smash strikes more effectively. In order to break up the organizations of the poor workers and farmers more easily. Just now they are attempting to utilize their attack on Allison and pacifism as a strike-breaking wedge for a far more deadly onslaught—an attack on workingclass opposition to militarism. Consequently, all men and women who have to work for a living and who are not in the factory will not be led astray by this smoke screen which is merely dangerous camouflage for a general attempt to uproot all workingclass resistance to capitalist imperialism.

### The New Year and Now

In view of the continued disclosures revealing to an open-mouthed nation the exceedingly reported record of Attorney-General Daugherty and the prevailing opinion in the reform circles that morally he is somewhat below the level of the white-slavers he has had pardoned for a consideration while class-war prisoners roted in their cells, it is interesting to read again the new year's statement issued by the read-baiting upholder of the ethical standards of the republic. We reproduce this document for the amusement of our readers, but urge those with weak stomachs to have a large-mouthed receiptable handy while perusing this masterpiece of hypocrisy:

"It is my opinion that a good New Year's resolution for every American citizen to make and keep is that he will respect and obey the written law of his country in his letter and spirit, and that he will keep constantly in mind that the law and the constitution are the guaranties of his own peace and happiness as well as the peace and happiness of his neighbors and the nation. With all our people in the realization of these truths there is little room for the pessimist in America.

"What our republic is blessed with high ideals and marked material progress, it is always because that every individual contributes to the furthering of the attainment of a still higher standard of social, political and economical morality. Progress in the attainment of these ideals of nations and men, which even time can not check. But the kind of progress we should aspire to is that progress which will establish still more firmly the foundations of law, liberty and justice."

"So any reason which can narrow the contribution made by the author of the above to a 'higher standard of social, political and economic morality' we will present a drop of genuine Teapot Dome oil.

"The American workers and farmers have been fed for years on this and similar brands of hokum; morality, religion, the sanctity of the American Federation of Labor, the sanctity of the home and mother love have been the catch-phrases of every demagogic politician who has held a price tag of millions of dollars. We predict that from now on the market price of such platitudes will be reduced to zero.

was accustomed hitherto to listen gratefully to the purveyors of superheated atmosphere and in some districts where the going has been unusually tough word comes that a bounty has been placed on the heads of capitalist party politicians.

All of which is encouraging to everyone except the capitalist class and their army of thugs. In the meantime, the bootlickers of camp-followers of capitalism whom the real rulers retain to do the dirty work of fooling and oppressing the masses.

### Welcome Evidence

Two facts just disclosed in the Teapot investigation overshadow nearly all of the revelations brought out by the Walsh committee on this day. When Hays, former chairman of the national committee of the republican party, admitted under pressure that Sinclair had donated \$75,000 to cover the deficit incurred by the 1920 Harding campaign, and when Sinclair himself confessed to giving another sum of \$25,000 to the party which handed him the Teapot lease, we were introduced to a basic fact explaining the wherefore and the why of the whole mess.

This evidence, the less sensational than some of the other facts adduced to date, is far more fundamental and is most welcome. The financial facts thus established should make every workington and poor farmer think. It is evident that such level-headed business men as Sinclair would not invest \$100,000 in a business proposition which wasn't sound. The republican party has proved to be a mighty sound investment for the capitalists. The Harding-Coolidge administration will go down in history as an example of the most brazen form of capitalist control of government in the history of the United States, in all its vilest and most corrupt forms.

Just now it seems as if the democratic party, competing for the favors of the big interests, will soon be chosen as a better field of investment in the capitalist game of control of government against the workingclass. Some of the employers, like Sinclair, had been financing two parties for some time. The late Frank J. Murphy, who was consumed by a politician, once well said: "The donkey and the elephant feed from the same crib."

By this time it is plain to every worker and farmer that the democratic and republican parties, owned and controlled by big business interests, can only serve the exploiters against the working masses. In practice Gompers' politics' reward your friends and punish your enemies. It has been translated into "reward your friends and hang yourselves." The Teapot exposure has thrown the last shovelful of earth over the carcass of this dangerous illusion spread amongst the working people of this country by the enemies of the workingclass masquerading as its saviors.

### Class Justice

Sinclair, the hero of the oil holdup, has defied the United States Senate Committee in refusing to answer questions put to him on the witness stand regarding his oil and republican party. Mr. Sinclair did not even hide behind a plea of incrimination and degradation in accordance with the constitution. He has been translated into "reward your friends and hang yourselves." The Teapot exposure has thrown the last shovelful of earth over the carcass of this dangerous illusion spread amongst the working people of this country by the enemies of the workingclass masquerading as its saviors.

Why is it that a workington or poor farmer is immediately thrown into jail when he utters even the mildest words regarding some bought-and-paid-for aristocrat of the robe? There is no doubt that if the recalcitrant witness before the committee were a workington, he would now be rotting in some filthy federal cell for his challenging the dignity of the United States. Yet, some flannel-mouthed defenders of our present system of government would have the working and farming masses believe that they do not have a capitalist class system of justice in this country.

As matters stand now, Mr. Sinclair can monkey around with and hide behind the intricate technicalities of the legal system for at least a year. The final arbiter will be the Supreme Court, the nest of the blackest of our Senate Committee reactionaries. In the meanwhile the American Committee will have to bite its thumb; the country will be kept in ignorance of how the republican party was financed in its last re-election campaign; government by oil will remain supreme; and Mr. Sinclair will laugh on the whole outfit that is pretending to hunt him head.

We submit, this is the rankest form of justice known to man. The workers and farmers of this country. Yes, we can always count on the courts to run to the rescue of the exploiters when their class interests are in danger.

The Windy City is threatened with another heavy storm this week, weather forecasters predict. Samuel Gompers, president of the American Federation of Labor, is reported on his way here to fight the injunction menace. Sam is the champion windbag of America.

J. Horace Harding has Frank Vandenberg canned from the Continental Congress for his caustic comment on dead-end capitalism.

### Significance of June 17th Farmer-Labor Convention

The June 17th Farmer-Labor Convention at Minneapolis, Minnesota, will be an event of historic importance in the history of the American working class. It is the first time that a class political action against the capitalist class has been organized on a national scale. The five years since the end of the war have been a period of development of the Farmer-Labor movement. Under the spur of economic forces which the farmer and worker's class has met with, the organized exploitation and oppression by the capitalist class has many specific efforts to organize for independent political action have developed. On June 17th the isolated organizations scattered throughout the country will combine for the first time. The June 17th convention will be the culmination of the movement which has been developing during the past five years.

Why June 17th? The June 17th Farmer-Labor Convention promises so much more than other national conventions called for the same purpose. It is the only one that has been organized by the farmer and worker's class. It is the only one that has been organized by the farmer and worker's class. It is the only one that has been organized by the farmer and worker's class.

The fact that the June 17th Convention is being held separate and apart from the Southern States National Conference for Progressive Political Action is a fact of great importance. It is a fact that is being emphasized by the organizers of the June 17th Convention. It is a fact that is being emphasized by the organizers of the June 17th Convention.

There are a number of reasons: First, the Farmer-Labor movement is a new movement. It is a movement that is being organized by the farmer and worker's class. It is a movement that is being organized by the farmer and worker's class.

### "The Story of John Brown"

This is "The Story of John Brown," by Michael Goll. Published by the Southern States National Conference for Progressive Political Action. It is a book that is being read by the farmer and worker's class. It is a book that is being read by the farmer and worker's class.

The growth of an Abolitionist. For the John Brown had always been an abolitionist. He had been an abolitionist since he was a boy. He had been an abolitionist since he was a boy.

John Brown, in 1824, began thinking about education of the Negroes might be an important part of the solution of the problems. He formed plans of starting a school for them. He and his friends just politely told the school board that they would not have anything to do with it.

Slavery Causing War. Events were piling up too rapidly against such a view, however. The South grew more aggressive every day. The slave system seemed to be carrying everything before it. It had broken the agreement of 1820 by extending slavery over the Mason and Dixon line. It had broken the agreement of 1820 by extending slavery over the Mason and Dixon line.

And it was not only in the South that the slave system was causing trouble. It was causing trouble in the North, too. It was causing trouble in the North, too. It was causing trouble in the North, too.

There were not many of these abolitionists, but they were there. They were there. They were there.

### By C. E. HUTCHINSON

are petty bourgeois actions. They are petty bourgeois actions. They are petty bourgeois actions.

This cleaning process makes the opportunity which the June 17th Convention presents greater than it otherwise would have been. With a strong admixture of Third Party types in the convention it would have better results.

The immediate work before the farmer-labor party is a strong offensive against the C. P. P. A. The Cleveland campaign can have all the representatives of the well-to-do farmers, the small business men and the broken-down old party politicians who are looking for new fields to switch to conquest. It can even have the labor aristocrat, the ten thousand a year labor leader, who

### Youth View

By HARRY GANNON

JUST the other day Coolidge was organizing the boys to go to put the boys of the nation back and give them his new group. He was organizing the boys to go to put the boys of the nation back and give them his new group.

The president actually has been meeting the boys quivering while he has been bringing up his own two young boys. But in the meantime the boys of the nation are being organized by the present cabinet members. They are being organized by the present cabinet members.

Now is militarism will think the boys of the nation are being organized by the present cabinet members. They are being organized by the present cabinet members.

At the mere mention of his name, the boys of the nation are being organized by the present cabinet members. They are being organized by the present cabinet members.

The Poor Folk Says—I used to be a poor fellow. I used to be a poor fellow. I used to be a poor fellow.

There were not many of these abolitionists, but they were there. They were there. They were there.
