CAN'T BREAK STRIKE WITH INJUNCTIONS

Chicago Labor Delegates Told It Won't Be Allowed

"The injunction against picketing cannot under any circumstances be permitted to destroy the garment workers' strike, and it will be carried thru to a finish in the face of continued police brutality," Meyer Perlestein, vice president of the International Ladies' Garment Workers' Union, told the Chicago Federation of Labor yesterday.

Who's the Goat? Mayor William E. Dever has informed the Committee of Fifteen that if they can produce eye witnesses to the police brutality he will have any force thus exposed dismissed from the force, but in the injunction is costing the unions thousands of dollars and the Committee of Fifteen reports it will take action if they do not do it.

Workers! Farmers! Boycott the Primary Election of the Capitalist Parties

WAGE earners and farmers of the state of Illinois should refuse to participate in the selection of candidates for the capitalist tickets at the primary elections, Tuesday, April 8. These candidates, be they so-called "good" men or "bad" men, are nothing but the servile tools of the bosses. They are members of the gang which looted the resources of the nation, expelled thru the Teapot Dome scandal, the aircraft scandal and the "retains' bureau" graft scandal. They are the upholders of the present corrupt system of government, running on a program to maintain that system. They have no program for the industrial workers and organized farmers.

Homestead, Pa., Steel Mill Worker, Wages Too Small, Forced to Give His Three Children Away

(Special to The Daily Worker) HOMESTEAD, Pa., April 6.—Andrew Kartes offered to give his three small children away because his meager part time wage as a laborer in a mill was not enough to keep them comfortably. Kartes attempted to place an advertisement in a paper here reading: "Three fine children to be had for the asking by any person who will promise to provide for them."

Since the death of Kartes' wife, the father has been caring for Jennie, 11, Andrew, 7, and Mary, 4.

Votaw, Brother-in-Law of the Late President, May Be Called in Prison Drug Probe

WASHINGTON, April 6.—Heber H. Votaw, superintendent of federal prisons and brother-in-law of the late President Harding, may be subpoenaed by the senate Daugherty investigating committee, in connection with testimony of William J. Burns and S. D. Foye, former warden of Atlanta penitentiary, that he blocked an investigation into the drug traffic at the prison, it was said at chairman Brookhart's office today.

Votaw probably will not be subpoenaed until after the committee cleans up some of the "leads" on which it is now working. Senate committee members said they expect eventually to summon him to explain why he stopped the drug investigation in the face of pleas by both Burns and Dyche that it be permitted to continue.

About 650 convicted violators of the narcotic laws were in Atlanta penitentiary at the time Heber Votaw, superintendent of federal prisons and brother-in-law of the late President Harding, had the warden, J. E. Dyche removed, according to testimony of the senate investigating committee. Mr. Dyche had repeatedly urged Votaw to prevent the drug traffic from passing thru the prison under cover and stop the "dope" traffic in the federal prisons.

William J. Burns finally sent three detectives to work at Atlanta and the warden was removed in the indictment of four guards for selling dope. Two of the matter kept getting into the papers and Mr. Votaw's objection to the publicity. He gave as a further reason that it disorganized things in the institution, but there was nothing to that.

Passing the Buck. William J. Burns also testified that Votaw had blocked the "dope" investigations in the federal prisons because the "higher ups" were about to be exposed. Burns testified that he had conferred with Daugherty at the time, but had not mentioned the investigations in the federal prisons because the "higher ups" were about to be exposed. Burns testified that he had conferred with Daugherty at the time, but had not mentioned the investigations in the federal prisons because the "higher ups" were about to be exposed.

Radio Fans Will Have To Pay More for Sets; Solons Decrie WASHINGTON, April 6.—Radio fans and Math Jones addicts will have to pay something for the privilege of listening to an "effective service" on automobiles and candy, but pay 10 per cent more on radio and math Jones sets. All radio sets costing \$15 or more— which means most of those that are sold—will bear the 10 per cent tax under the provision inserted by the senate finance committee. All math Jones sets costing \$5 or more must pay 10 per cent. It will just be added to the price, because the manufacturer of importers is to pay it.

IMPEACH COOLIDGE! Senator Wheeler—Who stopped you in the investigation? Mr. Burns—Well, my agents stated that Mr. Votaw stopped them. Senator Wheeler—Now, did you take the matter up with the attorney general when he stopped you? (There was a long pause.) Mr. Burns—There was some conference with the attorney general. I think the attorney general sent for me and asked me about the situation. Senator Wheeler—Yes, and did you tell him what a bad situation it was? Mr. Burns—I told him what our agents had accomplished. What's that, "Bully"? Senator Wheeler—And you told your declared he had wanted to say regarding the rumor circulating in Washington that Daugherty and Foye were in a conspiracy to desert the Coolidge standard, Senator Wheeler—That is a charge. I am attorney-general's position is possible in a position to know what certain members of the Senate have been before the Republican convention in Washington. Mr. Daugherty and Foye are allied with Mr. Daugherty in such a manner

him that investigation had been stopped by Heber Votaw, the superintendent of prisons? Mr. Burns—No, I don't know that I said that. It is not known that Mr. Votaw was the attorney general. The deputy warden of Atlanta had sided with Votaw in opposing the "dope" investigations, but the United States attorney, Clint Hager, wanted to continue the investigation. Votaw's orders went and the Burns men left the penitentiary. The federal prison was the capitol by the attorney-general's publicity attending the "dope" inquiry.

Dope Traffic Still On. Dyche said that he got the impression that the "higher ups" wanted to "cover up." He stated that 8 or 10 should have been indicted, but only three were. He had 1,000 addicts, according to Dyche, and nothing had been done to stop the traffic.

MAGNUS MIXES WITH DAILY PARTY MACHINE OUTFIT

Fights F. L. P. Position in Illinois

Magnus Johnson, who is supposed to represent the workers and farmers of Minnesota in the United States senate, has thrown himself into the Illinois political situation in the republican primaries.

The party that Magnus Johnson attacked in Minnesota as the party of the landlords, grain gamblers, bankers and food speculators, becomes in Illinois the standing ground of this same "Magnus", one of whose achievements in Washington, D. C. is being out in a milling contest.

Senator Johnson tried to justify his action in lining up with the Jenkins-Small-Landin political machine. He is said to have a deal on with the Executive Democrats by offering his views to the DAILY WORKER in an exclusive interview.

When asked whether he would stay away from the corrupt politicians, or whether he would support the party and workers who elected him, Johnson told the DAILY WORKER "I am campaigning for the selection of Newton Jenkins, a candidate for senator, on the republican ticket. True, both the republican and democratic parties are smeared with corruption, but I am supporting a farmer-labor party only when there is a good chance for election."

Senator Johnson seemed more anxious to talk about Illinois than about the fact that he has done to justify the support of the farmers and workers in Minnesota. Instead of talking about farm and labor legislation, Johnson was more interested in his milling contest with the Secretary of Agriculture, which seems to be Johnson's only bid for fame. Former supporters of the Minnesota senators are pointing out that he lost even that.

For Small Business Men. Senator Johnson placed more emphasis on the small business men in talking to the DAILY WORKER, than he did on the farmers and workers who elected him. When a direct question was asked him about a party which really represented the workers and farmers, or if the La Follette movement showed that the "class rule" by the capitalists, he sidestepped by talking about "good government" and "philosophy" when ever Johnson approached another ground, he pulled out the "class rule" statement "The public is tired of manipulation and greed, and I am a progressive."

The business men are dependent on the farmers and workers for their trade and their existence," said Johnson, "and in my campaign in Minnesota, I had the support of the small bankers and small business men. Even the big business men are not so strongly opposed to the La Follette movement. They are all for the working on the wall, and they know what is coming. Our enemies often call us radical and some of them have even called me a Communist, but of course that is a lie."

The Cat Slips Out. Senator Johnson in his zeal for the middle-class business men, belittled the idea of an independent labor party in this city which the militant workers are organizing on the grounds that "it didn't amount to much and that all the labor leaders have endorsed the old party candidates anyway." Newton Jenkins, who was with the Senator, agreed with this statement. "Fitzpatrick, all the railroad unions, and practical-

Our Reporter Goes Campaigning With Magnus Johnson In Spite of Walker, Foe of the Labor Party

Senator Magnus Johnson, the man of the people, the rip-roaring, tobacco-chewing Scandinavian "Theodore Roosevelt" has been in our midst. When interviewed by the DAILY WORKER he had just finished talking with the Electric Company's gates, at 48th Street and Cicero Avenue, that he was for a big soldier's bonus—he was no pacifist, you bet you—he was a patriot thru and thru.

It was a motley crew that in the course of his duties, was ride back to town on the "L." There was Newton Jenkins, the intellectual, superior, cultured, English-walk lawyer—sneave and looking bored to death. He no doubt subscribes to Professor McDougall's theory that humans are divided into four distinct grades of intellects—and Jenkins is in the front rank of the highest caste.

Some "People" Dialke U. Then there was an ex-woolly ex-hobnobber with the Illinois Farmer-Labor Party who has labored the republican and democratic outfits as "deceitful to the core" and that the only solution is labor and the farmers to have a party of their own."

LABOR SKATE TRIED TO PROTECT MAGNUS FROM DAILY WORKER

Frank Walker, of the Brotherhood of Locomotive Engineers, made an ineffectual attempt to save Senator Magnus Johnson, of the Farmer-Labor Party, who came here from Washington, to advance the senatorial campaign of a republican, from the contaminating clutches of a DAILY WORKER reporter.

Some "People" Dialke U. Then there was an ex-woolly ex-hobnobber with the Illinois Farmer-Labor Party who has labored the republican and democratic outfits as "deceitful to the core" and that the only solution is labor and the farmers to have a party of their own."

DAUGHTER PROBE TO EXTEND OVER 2 MORE MONTHS

Score of Witnesses Yet To Be Heard

WASHINGTON, April 6.—New state laws which require that a daughter being sued by her former Attorney General, Daugherty, were being unraveled by Senator Wheeler as the state investigating committee, visited from four weeks ago.

In checking up on the witnesses and evidence of who he heard, Wheeler estimated that at least two months more of open hearings were in prospect.

Go to Bottom of Men. "While we have had abundance of evidence ready for presentation to the Senate, it is my belief that we cannot afford to overlook," said Wheeler. "Now we are going to get to the bottom of what appears to be a shabby mess in the department of Justice."

More than a score of witnesses were subpoenaed to attend the hearings, are to be heard. These include the former in connection with alleged liquor deals and the Chicago Tribune's former editor, Joseph P. Kamp.

Wheeler, Weeks, Ryan and Standard Oil. Blaine, Arizona, the innumerable crimes against the workers of the Northwest, can be directly upon the shoulders of John D. Ryan and his associates. Last week, Ryan and Kilroy, editor of the Anconada Journal, who blackmails Ryan for \$200 a week, were indicted for doing these crimes a thousand times over.

Wheeler Knows Ryan. Senator Wheeler is true. He knows that John Ryan is a crook and an enemy of the public. He knows that it is now within his power to show to the American people the connection between Standard Oil, John D. Ryan, secretary of W. P. Weeks, the crimes of the war period, and the American people.

He has the greatest opportunity presented to him that was ever afforded a man in public life. He will be hesitate to take advantage of it. He will be a member of the democratic party, that he belongs, and because John D. Ryan was appointed by President Wilson to the head of the aircraft plant, he has the greatest opportunity presented to him that was ever afforded a man in public life.

Tables Are Turned. In 1917, 1918 and 1919 the Standard Oil and its subsidiaries put a price on Wheeler's head. Today he can deal them a blow that will shake to the foundations their political control and upon the decision he makes arising will become stronger of the workers and farmers of this country.

Fasting Cure Is Fatal to Man But Woman May Recover. DAYTON, Ohio, April 6.—Daniel Johnson, 61, who fasted 47 days in the city of Dayton, is dead. His wife, who fasted 43 days in the city of Dayton, is recovering.

Single Women Getting Cheapest Wages, So Badly Housed That They Take to the "Easiest Way"

There are 300,000 women working in industries in Chicago, most of whom live in the rooming house district, or in clubs and tenement houses. There are only 3,000 available places to house them.

In a speech before the Union League Club recently, Miss Marie Merrill, for eight years in social welfare work, pointed out the seriousness of the shortage of housing for women. "There are 300,000 women who are in industry," she said. "There are only 3,000 available places to house them."

Not Enough Rooms. The rooming house facilities of Chicago are in a deplorable condition. The investigation of the housing of non-family women in Chicago conducted by the Chicago Housing Commission, which was held in Chicago conducted by the Chicago Housing Commission, which was held in Chicago conducted by the Chicago Housing Commission.

DEPARTMENT OF JUSTICE CROOKED SAYS NEARING

Punishes Reds; Rich Crooks Go Free

By SCOTT NEARING (Faded News Staff Writer)

The department of justice is that part of the state which spies on citizens and prosecutes those who are caught breaking the law.

It necessarily follows that the enemies of the modern state are the enemies of the department of justice, and are to be hunted down and punished accordingly.

This is the explanation of the treatment meted out to Debs and to Morse by Attorney General Daugherty, who did his best (to all appearances) to keep Debs in prison and to get Morse out of prison.

Debs was a kindhearted and a peace-loving man, who was merely agitating against that form of society which made possible the war and the department of justice.

Morse, to put the matter mildly, was a professor, who had resorted to methods that gave him illegal access to the funds of the United States government. Apparently Morse had not only robbed the government, but had robbed it.

The Real Raids.

The same contrast exists between the ferocious reds instilled by the department of justice against those who were, in the eyes of the foreigners, and unable to defend themselves with the same facility as Americans, and the humane treatment of the war profiteers and grafters, the violators of the anti-trust laws, and the other measures intended to curb the rapacity of big business.

The department of justice has a necessary connection with "moral right" or "just conduct" as an agency for administering the law.

In League With Crooks.

But that is not all. The department of justice is an agency for administering some of the law, some of the time. The laws against the opponents of the established order are enforced with as savage barbarity. The laws against those who plunder the people and the government may be enforced, or they may not.

There are cases in which the department of justice goes even further, and thru its highest officials suggests ways in which the laws may be broken, and then protects the law-breakers.

If the testimony given before the senate committee means anything, it is that the department of justice is a jobbing house; distributing favors, immunities, privileges and occasionally serving as the salver to bind which powerful men hide when they commit crime.

The department, like any agency of the vested interests, must be seen realistically, as a part of the machinery of the established order. A banker collects interests as a matter of course. A landlord racks rent from even the most poverty stricken. The department of justice, without any reference to morality, equity or rectitude, protects and serves the existing order with zealous solicitude.

The Discussion in the Russian Communist Party

Today we publish the resolution submitted by Comrade Shkolyov to the Russian Communist Party, a resolution in the name of the Party and of the active party workers of the Moscow organization. Comrade Shkolyov speaks on the subject of the "Tasks of the Economic Policy." He was in opposition to the majority of the Russian Communist Party led by Zinoviev, Stalin, Bubarin and the Central Committee. His speech was published in the "Pravda" on the 28th of March. The Conference on the entire discussion of the "Economic Policy" commences today.

OSININ SAYS: IN VIEW of the fact that the resolution of the Political Bureau of the Central Committee are "Immediate Tasks of the Economic Policy" represents mainly an exposition of the resolutions adopted by the Twelfth Congress of the Russian Communist Party with the addition, however, of some new proposals of Comrade Osinin, it is necessary to pose some questions which have become ripe, the meeting considers it necessary to amend the resolution.

THE AMENDMENTS: 1. It is necessary, not only to amend the resolution, but to emphasize the fundamental and decisive significance of knitting together the national and domestic economies, but also to explain the fundamental reasons for this.

2. It is necessary, not only to emphasize the fundamental and decisive significance of knitting together the national and domestic economies, but also to explain the fundamental reasons for this.

3. It is necessary, not only to emphasize the fundamental and decisive significance of knitting together the national and domestic economies, but also to explain the fundamental reasons for this.

4. It is necessary, not only to emphasize the fundamental and decisive significance of knitting together the national and domestic economies, but also to explain the fundamental reasons for this.

5. It is necessary, not only to emphasize the fundamental and decisive significance of knitting together the national and domestic economies, but also to explain the fundamental reasons for this.

6. It is necessary, not only to emphasize the fundamental and decisive significance of knitting together the national and domestic economies, but also to explain the fundamental reasons for this.

7. It is necessary, not only to emphasize the fundamental and decisive significance of knitting together the national and domestic economies, but also to explain the fundamental reasons for this.

8. It is necessary, not only to emphasize the fundamental and decisive significance of knitting together the national and domestic economies, but also to explain the fundamental reasons for this.

9. It is necessary, not only to emphasize the fundamental and decisive significance of knitting together the national and domestic economies, but also to explain the fundamental reasons for this.

10. It is necessary, not only to emphasize the fundamental and decisive significance of knitting together the national and domestic economies, but also to explain the fundamental reasons for this.

also in regard to a real knitting together of the State Industry with the village industry. 4. The resolution of the Political Bureau does not give a correct estimation of the successes of private capital in general, and in particular of private commercial capital which has already come into possession of 14 per cent of the wholesale trade, 18 per cent of the wholesale-retail trade, and has accumulated large sums in goods and stable values. It is necessary to draw the attention to this in its connection with the work of the State Bank and also with financial organizations, elaborating a plan of increased credits to them, both by the State Bank and also with financial organizations.

5. The resolution of the Political Bureau does not give a correct estimation of the successes of private capital in general, and in particular of private commercial capital which has already come into possession of 14 per cent of the wholesale trade, 18 per cent of the wholesale-retail trade, and has accumulated large sums in goods and stable values.

6. The demand for an active trade balance put forward in the resolution is not in itself a correct one, but is completely unjustified position. In its essence, it means: to export, to the extent possible, to the foreign market as much as possible and to import, to the extent possible, from the foreign market as little as possible.

7. The demand for an active trade balance put forward in the resolution is not in itself a correct one, but is completely unjustified position. In its essence, it means: to export, to the extent possible, to the foreign market as much as possible and to import, to the extent possible, from the foreign market as little as possible.

8. The demand for an active trade balance put forward in the resolution is not in itself a correct one, but is completely unjustified position. In its essence, it means: to export, to the extent possible, to the foreign market as much as possible and to import, to the extent possible, from the foreign market as little as possible.

9. The demand for an active trade balance put forward in the resolution is not in itself a correct one, but is completely unjustified position. In its essence, it means: to export, to the extent possible, to the foreign market as much as possible and to import, to the extent possible, from the foreign market as little as possible.

10. The demand for an active trade balance put forward in the resolution is not in itself a correct one, but is completely unjustified position. In its essence, it means: to export, to the extent possible, to the foreign market as much as possible and to import, to the extent possible, from the foreign market as little as possible.

11. The demand for an active trade balance put forward in the resolution is not in itself a correct one, but is completely unjustified position. In its essence, it means: to export, to the extent possible, to the foreign market as much as possible and to import, to the extent possible, from the foreign market as little as possible.

12. The demand for an active trade balance put forward in the resolution is not in itself a correct one, but is completely unjustified position. In its essence, it means: to export, to the extent possible, to the foreign market as much as possible and to import, to the extent possible, from the foreign market as little as possible.

13. The demand for an active trade balance put forward in the resolution is not in itself a correct one, but is completely unjustified position. In its essence, it means: to export, to the extent possible, to the foreign market as much as possible and to import, to the extent possible, from the foreign market as little as possible.

14. The demand for an active trade balance put forward in the resolution is not in itself a correct one, but is completely unjustified position. In its essence, it means: to export, to the extent possible, to the foreign market as much as possible and to import, to the extent possible, from the foreign market as little as possible.

Militants! The Revolutionary Task of the Hour is To Get

Subscriptions

For THE DAILY WORKER

When THE DAILY WORKER makes claim that every new subscriber means a new recruit in the ranks of militant labor, we make no idle boast.

Around THE DAILY WORKER are being rallied the militants in America for the revolutionary struggle which is to result in the downfall of capitalism and the rise of a Workers' Government.

How have YOU made use of THE DAILY WORKER?

Have you used it only for your personal education and inspiration? Or have you accepted THE DAILY WORKER for what it was intended, the organizer and educator of the workingclass? To you, is THE DAILY WORKER a duty as well as a privilege?

If you are reading THE DAILY WORKER because you are a militant, prove it. Add another militant to the ranks by getting a new subscriber.

If you are a militant by reason of your reading THE DAILY WORKER, make "your paper" serve the same purpose for another worker that it served for you.

The welfare of THE DAILY WORKER is built upon the foundation of the militant labor movement.

The organization of the militant labor movement is being built on THE DAILY WORKER circulation.

A new DAILY WORKER subscriber means a new militant!

A new militant should mean ten new subscribers to THE DAILY WORKER!

PUT YOUR NAME ON THE ROLL OF HONOR.

Get That Subscription Today!

10,000 New Subscribers by June 15th

Send All Subscriptions to 1640 N. HALSTED ST. CHICAGO, ILL.

Trial Subscription Coupon

Enclosed please find \$1.00 for two months subscription to THE DAILY WORKER to be sent to:

Please send me more trial sub. coupons. I'll try to secure more trial subs.

THIS OFFER GOOD ONLY UNTIL JUNE 15, 1924. No agents commissions given on trial subscriptions.

Are you a boot? Get your name on the Honor Roll! Tomorrow we will publish the names of those militants who in the last few days (April 3-6) have made their efforts for organizing the working class into the militant movement count by getting new subscribers for THE DAILY WORKER. The Honor Roll is growing larger every week but we must do better still, we must give every militant every week to get onto themselves thru the columns of THE DAILY WORKER. We must tighten up the lines and sweep the masses already rebelling against their masters, into the ranks of the class conscious workers. Has your name been on the Honor Roll? Every reader of THE DAILY WORKER should get on it, at least once by getting at least one new subscriber. Send for the trial subscription cards and the premium subscription cards or use the coupons appearing elsewhere in this issue. Get a new yearly sub and get your choice of The Labor Herald, The Liberator or Soviet Russia, free for half year. That is 10,000 new subscribers would be secured long before June 15 seems to be coming true.

BIG OHIO DEFENSE COUNCIL TO FIGHT STEEL TYRANTS

Labor of Two Countries In Organization

(Special to The Daily Worker)
YOUNGSTOWN, Ohio, April 6.—The Western Ohio Speech and Labor Defense Council, organized at an initial meeting for the purpose of rendering assistance to workers falling into the clutches of the vicious anti-labor steel syndicalist laws used by the steel and coal barons to suppress workers' organizations and to gag militant workers in the labor movement.

Delegates from the Mahoning and Trumbull county county movements, as well as delegates from the various fraternal organizations took part and pledged their support to the Farrell workers now facing trial charged with violating the sedition law of Pennsylvania.

The council pledged its support to organized labor and will back up to the limit the work of organizing the steel workers and Congress vice-president, and will be made by the newly organized council to bring about a United Front of all organizations in the steel industry. It will take up the sedition and criminal syndicalist laws, the steel workers and to increase their vigilance organization.

F. Timlin, of the Modders Union, was elected president; Richard Work, of the Trumbull County Labor Congress vice-president; and John G. Gardner, of the Carpenters' Union, recording secretary; Wm. J. White, of the Grand Lodge, was elected vice-president; and John G. Gardner, of the Civil Liberties League, Ohio, corresponding secretary. An executive committee of seven was elected, including the officers, with Emory Mose, of the Iron and Steel Workers' Union, as its president; Wm. J. Witt, of the Electrical Workers' Union, as its vice-president; and F. Timlin, of the Mahoning county and Trumbull county central labor bodies will back up the council in every way providing moral and financial support to the falling into the clutches of Ohio and Pennsylvania labor law.

The address of the council is P.O. Box 883, Youngstown, Ohio.

Negro Writer Applies Castigating Rod to Living Tribunes' Hide

The Daily Worker—I sent the following letter to the Chicago Tribune—Gordon Owens

Chicago, Tribune, April 5, 1936. I informed an audience that the Chicago Tribune would publish a "feature" article on "Negro" syndicalist articles in a few days. By reading the Tribune, Wednesday, April 2, 1936, I learned that my property has come true. Your dirty, yellow, lick-spittle, yellow trash article about the Negro "Reds" is published in the Tribune on page 12, Wednesday, April 2, 1936, a new article, "Negro" syndicalist articles, "Negro" syndicalist articles, "Negro" syndicalist articles, which in my opinion was concocted in the distorted and rattle snake brain of one of the kept negroes, intellectual prostitutes, or master lickspittles in the employ of the Tribune.

The rosen and facets of the Southern mobsters and lynchners are the real factors in the Negro agitation North. The book written by the Negro writer, "The Negro in the South," is a real trash of the crack-brained South, who is the base of the lying Southern newspapers of the ilk of the Chicago Tribune, from mobs and lynch and the base of the lying Southern agents emptying the South of its Negro population.

Those Negro "Reds" in this exposed article are actively engaged in organizing the Negroes, white trash, Negro and white real estate agents, sharks and robbing landlording, and to force the Negroes to fight for higher wages and shorter hours, and to link up their efforts with the white organized class conscious and radical workers of both Negro and white workers, the capitalist exploiting class.

Respectfully,
GORDON W. OWENS

Anxious for Farm Machinery.
MISSOURI, Apr. 6.—(Route 1)—The Labor and Agricultural Power, a new labor and agricultural organization, is being organized in the State of Missouri. The organization is being organized in the State of Missouri. The organization is being organized in the State of Missouri. The organization is being organized in the State of Missouri.

GRAND PROFITS OUT OF COAL DIGGERS

New Way of Speeding Up Production

By J. A. HAMILTON
 (Special to The Daily Worker)
FALLS CREEK, Pa., April 6.—Under the new three-year agreement, the coal industry is supposed to be "stabilized" as "stabilization" means to the miners is indicated by the fact that the men at the Berrysville mine near here, owned by the Bethlehem Steel Company, and operated under union contract.

Before the expiration of the last agreement, the Company began to "stabilize" the labor force by taking the men as "partners" in the business, selling them 7 per cent preferred stock at \$94 per share. After the expiration of the last agreement, the Company began to "stabilize" the labor force by taking the men as "partners" in the business, selling them 7 per cent preferred stock at \$94 per share. After the expiration of the last agreement, the Company began to "stabilize" the labor force by taking the men as "partners" in the business, selling them 7 per cent preferred stock at \$94 per share.

But the company having obligated itself to pay out this \$70,000,000, now proceeds to "stabilize" its income and to force the unions to accept obligations which will certainly meet, it has just posted notices to the effect that house rent is raised \$1.00 per month, house coal at a higher price, and that having done so, it has reduced in price of the customary mining drilling.

Unless a miner owns two shares or more of the stock, he will therefore receive no dividends. The amount of gets back from the company in interest, and the company has his \$94 being shared with the stockholder to impel his investment, the miner has been asked to "stabilize" his investment in other action detrimental to the miner.

James Addams' Peace League Ousted From Chicago Headquarters

Inspired by the newspapers and American legion campaign leaders, the Fine Arts building has ordered the name of James Addams' Peace League to be removed from the building. The name of James Addams' Peace League to be removed from the building. The name of James Addams' Peace League to be removed from the building.

Your Union Meeting

Bookkeepers' Union Without Trial

NEW YORK, Apr. 6.—Almost two years ago the Bookkeepers' Union, No. 12444, of the American Federation of Labor was in the habit of the progressive elements.

From time to time resolutions and decisions were passed which did not bear the approval of Mr. Gompers, therefore, he decided to smash this organization through his henchman, Mr. Hugh Frayne, organizer in New York, to "reorganize" this union.

The play was performed immediately and the result was that from a membership of four to five hundred, only thirty-five were left in the reorganized union. Neither Mr. Gompers, nor his faithful tool, Mr. Frayne, nor his followers in the union worried very much what happened with these hundreds of office workers. And why should they worry about the hundreds of office workers? They are not interested in the least about the fate of the workers. What they care is the union, a "safe and sane" machine. There is no doubt that they have succeeded perfectly well in their destructive and cowardly mission.

Watchful Toms Busy

At any rate, now the reorganization is over, and the office workers and socialist leaders, Mr. Frayne and Mr. Gompers, are busy with their "safe and sane" machine. There is no doubt that they have succeeded perfectly well in their destructive and cowardly mission.

Argentine Now Leads World in Export of Corn

Russian Corn Becoming Factor on Market

Exports of corn from Argentina have averaged 132,000,000 annually in the three-year period 1933-35, as compared with 116,000,000 bushels from the United States, according to statistics compiled by the United States Department of Agriculture. Argentine exports have averaged 71 per cent of its crop. Since the war, Argentina has been the most important competitor of the United States in world corn markets, the department says.

The world production of corn in 1935 is estimated at 4,202,000,000 bushels by the department, as compared with 3,972,000,000 bushels in 1934, and 3,904,000,000 bushels in 1933. The United States produced 1,112,000,000 bushels in the United States in 1935, more than in any other year, and its production in the rest of the world, the size of the American crop being the most important factor in determining the world market price, the department says.

Plasterers Ban Overtime Work

SYDNEY, N. S. W., April 6.—Plasterers have decided to ban overtime unless the work is necessary. What is necessary work will be determined by the employer. The ban is in force from 1936 onwards. Labor is breaking down the 44-hour week.

NEW YORK, Apr. 6.—The Great Southern Lumber Company, of Bogalusa, will erect a two-million-dollar paper plant on the line of the Arkansas and Mississippi rivers, between Monroe, La., and Crossett, Ark. James and William Buchanan will also erect a paper plant at Milledgeville, Ga., in the neighborhood of the million-dollar. Labor is cheap in these sections.

Gompers Socialist Henchman Expects Communist Member From Bookkeepers' Union Without Trial

NEW YORK, Apr. 6.—Almost two years ago the Bookkeepers' Union, No. 12444, of the American Federation of Labor was in the habit of the progressive elements.

From time to time resolutions and decisions were passed which did not bear the approval of Mr. Gompers, therefore, he decided to smash this organization through his henchman, Mr. Hugh Frayne, organizer in New York, to "reorganize" this union.

The play was performed immediately and the result was that from a membership of four to five hundred, only thirty-five were left in the reorganized union. Neither Mr. Gompers, nor his faithful tool, Mr. Frayne, nor his followers in the union worried very much what happened with these hundreds of office workers. And why should they worry about the hundreds of office workers? They are not interested in the least about the fate of the workers. What they care is the union, a "safe and sane" machine. There is no doubt that they have succeeded perfectly well in their destructive and cowardly mission.

Watchful Toms Busy

At any rate, now the reorganization is over, and the office workers and socialist leaders, Mr. Frayne and Mr. Gompers, are busy with their "safe and sane" machine. There is no doubt that they have succeeded perfectly well in their destructive and cowardly mission.

Inevitable Happens

And the inevitable happened. At the end of last year we reported that the Communist, Conrad Binha, was elected a delegate to the Central Labor Council of Greater New York. The Communist, Conrad Binha, was elected a delegate to the Central Labor Council of Greater New York. The Communist, Conrad Binha, was elected a delegate to the Central Labor Council of Greater New York.

Expelled Refused Floor

The last meeting of the union (March 17) the case came up as a matter of procedure. The Communist, Conrad Binha, was elected a delegate to the Central Labor Council of Greater New York. The Communist, Conrad Binha, was elected a delegate to the Central Labor Council of Greater New York.

COMMUNIST CHILDREN COLUMN

THE ADVENTURES OF JOHNNY SMART, OR A RUSSELLIAN REVOLUTION

Johnny grabbed his hat and ran down the street. Krustad Street lay in the direction of the railway. Johnny was approaching. There were several side streets, over a silent deserted market place. Johnny approached the railway. No Red guards were there, and the Whites had not yet come. There were a few terrified citizens peeping thru their arched windows. Johnny began to feel afraid. "What if I should be caught," he thought. He began to run quickly. Finally he arrived on Krustad Street. Here was 27. Johnny approached the door. It was closed. He pressed against it with all his might, but the door was solid, and did not give way. "What shall I do, what shall I do," he thought. "They'll think I was afraid and ran away." And he felt so ashamed.

The Grenades Are Found

Johnny ran in his shirt, and he wanted to cry. "I can't go back this way, it will soon be dark, and then I can climb up over the wall and get the grenades." Johnny carefully walked round the house and caught thru a crack between the wooden wall and the wall. Everything was dark and damp. The rats were scratching and squeaking under the floor. The cannon were banging everywhere near. Tired and excited, Johnny saw down the door, which was all beaten with dirt and cigarette shells, and waited.

Somewhere in the neighborhood a shell exploded. Johnny was convinced that the end of the world had come, and that he was soon to die. He cast a glance at the sky. It had become quite dark. Carefully, he crept from his hiding place over the wall, and sneaked along in the direction in which he believed

UNCLE WIGGLY'S TRICKS

Bah! One of those long-legged storks! No meat on 'em!

Senator Love For Kidding

OSSING, N. Y., April 6.—Shall capital punishment be abolished? Yes, is the answer of the majority of radio fans who voted in the second radio debate on that subject.

Fake Advertising

NEW ORLEANS, April 6.—Advertisements in New Orleans papers warn carpenters to stay away from Houston, Texas, owing to the lock-out of union carpenters there. It is said that over 300 men are unemployed and the employers are unable to obtain employment for them.

DAILY WORKER newspaper information including subscription rates, address, and editorial board.

penditures; the Ruhr project has been possible only by not counting the cost.

By far the largest part of French income... is derived from the sale of government bonds and other securities and the populace, while revenue, tolerated this condition as long as expenditures were made in other lines which promoted the employment of the workers and peasants to the bondholders becoming too obvious.

Today, the demands of the financiers who temporarily halted the downward plunge of the franc have removed the political wall of the Poincare power. The increase of taxation, the reduction of the government employes, the cutting of the wages of those who remain, the discontinuance of reconstruction work, the scaling down of military appropriations, is bound to enrage all sections of the French middle-class and peasantry; the worklessness is already hostile and the politicians coming in May will be the best informed political observers in Europe give Poincare three months of power at the most.

The franc will continue its toboggan slide despite drastic economies because there is no possible way of making the French budget balance except by demobilizing the army, cutting off all military appropriations, abandoning the occupation of the Ruhr and increasing taxes in a manner that will bring revolt from the thrifty peasants who have been told that Germany and Russia will pay the French war debts.

Everything points to actual bankruptcy of the capitalist economy of France in the near future and it will not be surprising if, before the end of the year, an apocalyptic abandonment of all democratic camouflage in which the imperialists have been indulging and French Mussolini will try the hopeless task of forcing the workers to shoulder the fortunes of the House of Morgan are now intertwined to the tune of hundreds of millions of dollars wrung from the hides of American workers.

Imperialist Thunder

In his first public address since his appointment to the cabinet, Mr. Curtis D. Wilbur, new secretary of war, has shown his teeth as an imperialist par excellence. Addressing the annual banquet of the Young Men's Christian Association at the sumptuous Willard Hotel, in Washington, Mr. Wilbur declared his naval policy to be one devoted to none in strength. He assured his listeners that "the navy would be prepared to call any spirit of hostility that may assert itself" and that "the army and navy have been the greatest agencies we have had."

In this address Mr. Wilbur was not muzzling any empty phrases. He was sounding a challenge and a warning to the American working class in the tones of a prophet. It struck him and said that a man who has been chosen to fill the cabinet post of one who was, in a large measure, driven out by hostility to large government, should, only a few days after his appointment, threaten to use the force of government against a recurrence of such hostility. But beyond this historical irony and said that there is lurking a most serious danger to the toiling masses of the country. In the last decade the American navy has increased in value more than 259 per cent. The increase in wealth towers above the rapid strides made by all other items in the possession of the country or any individual. It is the best evidence of the determined policy of our imperialist capitalist class to dominate the military and naval forces in the last decade and have gone hand in glove with the steady increase of financial and industrial power of our capitalists in the world market.

Mr. Wilbur is an old timer at the game of rendering services to the capitalist masters. Mr. Wilbur hailed from the golden state of California. Mr. Wilbur was a member of the California State Supreme Court which bears a large degree of the responsibility for the innocent Mooney and Billings still languishing behind prison bars today. Consequently when Mr. Wilbur speaks he means business, profitable business for the imperialist class of this country. His boast is a warning to the masses that they had better keep their mitts out of any up against in showing hostility to the strike-breaking government of the United States.

Mr. Wilbur's plan to have a navy second to none is a challenge to the imperialist clique of the other capitalist countries to watch their step and not tread on the toes of the pugnacious capitalist giant.

Mr. Wilbur's threat is a note of arrogant defiance to the oppressed peoples of the Philippines, Hawaii, San Domingo, Haiti, Honduras America to stop nurturing their aspirations for freedom from Wall Street's imperialist domination.

We hope and we know that the imperialist will not fall on our new secretary of the navy will and farming class of the country are concerned. Too long and too often have the workers and farmers paid the price in blood and dollars to exploiters, the capitalist class.

Morris Hillquit has discovered that Senator La Follette was always one in thought and action with the Socialist Party. Victor Berger was the naval string that connected both.

JOIN THE WORKERS PARTY

Poparism-A Fight For the Unemployed

WORKERS NOTE—Here is the first of the kind in the DAILY WORKER. It is a broad appeal for the unemployed. It is a protest against the present hour. It is a call for a new social order. It is a call for a new social order. It is a call for a new social order.

By J. T. MURPHY. When the Poplar Board of Government... There is state insurrection and council demands the revision of the poor law because Poparism is in danger of being destroyed by the weapon of the extraction of money from the rich and the pouring of the same into the hands of the poor in the form of low wages in the labor market.

History of Poor Law. The history of the poor law in England is one of the most interesting and tragic in the annals of the world. It is a story of horrors only paralleled in the annals of the world. It is a story of the slow but steady process of the destruction of the poor law by the forces of modern industry and commerce.

"The Story of John Brown"

This is "The Story of John Brown," by Michael Gold. Published by the Workers Party of America. It is a book that should be read by every worker and every patriot. It tells the story of a man who was a young state school teacher and a hero of the American Revolution.

Jeremiah Goldsmith Anderson, killed at Harper's Ferry in his efforts to raise an American army. A sworn abolitionist, he wrote in a letter to his mother, "I am not a man of words; I am a man of deeds."

Students Not Fanatics. John Henry Kagi was the best educated of the raiders, largely self-taught, a fine debater and speaker, and an able organizer for the New York Tribune and the New York Evening Post.

Brown's Self-Sacrifice Life. Oliver Brown, John Brown's brother, was a man of a very strong and a man of a very able ability and sterling character. He was a man of a very strong and a man of a very able ability and sterling character.

WORKERS NOTE—Here is the first of the kind in the DAILY WORKER. It is a broad appeal for the unemployed. It is a protest against the present hour. It is a call for a new social order. It is a call for a new social order.

It is a call for a new social order. It is a call for a new social order. It is a call for a new social order. It is a call for a new social order. It is a call for a new social order.

The workers are the only ones who can save the country. They are the only ones who can save the country. They are the only ones who can save the country. They are the only ones who can save the country.

The workers are the only ones who can save the country. They are the only ones who can save the country. They are the only ones who can save the country. They are the only ones who can save the country.

John Brown was a man of a very strong and a man of a very able ability and sterling character. He was a man of a very strong and a man of a very able ability and sterling character.

John Brown was a man of a very strong and a man of a very able ability and sterling character. He was a man of a very strong and a man of a very able ability and sterling character.

John Brown was a man of a very strong and a man of a very able ability and sterling character. He was a man of a very strong and a man of a very able ability and sterling character.

John Brown was a man of a very strong and a man of a very able ability and sterling character. He was a man of a very strong and a man of a very able ability and sterling character.

John Brown was a man of a very strong and a man of a very able ability and sterling character. He was a man of a very strong and a man of a very able ability and sterling character.

About His Price

It is an old rule of capitalist politics that every man has his price. One can safely say that, as a rule, the big interests can buy the services of any man in governmental affairs or public life, provided they set a price commensurate with the abilities and standing of the man desired.

John W. Davis, who is now being booted for the democratic presidential nomination, has been asked by some friends to cut loose from his big financial connections in order to be more presentable to the masses in November. Mr. Davis was for years a resident at the Court of St. James, sometimes known as the American embassy to Great Britain and more often as agent plenipotentiary for J. P. Morgan & Co. in Europe.

In view of the dearth of democratic presidential timber of passable quality and in view of the hostility aroused among the masses towards outright control of the ownership of government officials, these friends would like to see Davis come forward as the Democratic white horse and free himself from the disadvantages of being a member of the ruling class. He is a price to be paid in the interests of the big bankers and manufacturers. He is a price to be paid in the interests of the big bankers and manufacturers.

Such a charge at this late hour would be looked upon by everybody as mere political maneuver and would not serve its purpose. If Mr. Davis just now would get away with clean skirts in such a dropping of clients, he would hasten to accept the advice. The price asked of Mr. Davis is, therefore, too high not because of the severance of relations with J. P. Morgan but because of popular sentiment, like the fake progressive McAdoo did after he was uncovered as the attorney of Mr. Dekey, in order to get political office.

The Price Poincare Paid

The stabilization of the franc, its rise to the level of last December, the victory of President Poincare in the Chamber of Deputies, the passage of the emergency measures which he demanded, are not only fleeting triumphs for French imperialism, but they have been secured at a price that is beyond the capacity of even this gang of unscrupulous buccaneers to pay.

The emergency measures conferring on Poincare dictatorial powers in regard to taxation and reduction of expenditures were, as admitted by Poincare in the Chamber of Deputies, introduced at the demand of the House of Morgan and were the part of the conditions under which the recent loan secured by the French gold reserve was granted.

Poincare must now raise taxes 20 per cent, discontinue all reconstruction work—less than two-thirds complete—and cut off the payroll of all government employes, with the exception of government monopolies such as tobacco, quinquina all plans for increases of wages demanded by government workers and carry out the pledge already made that no more loans will be issued and government expenditure kept within the limits of revenue.

The Poincare government has kept power by a system of white slavery of the population; Europe; it has catered to the military caste and allowed the most extravagant use of the public treasury for the purpose of satisfying this parasitic group. It has begotten for Poland, Rumania and Czech-Slovakia has been secured by huge loans for military ex-

wise and seven children still in slavery, and he was trying to raise money to get them home to be sold further south. He was a man of a very strong and a man of a very able ability and sterling character.

Stewart Young Men. Stewart Young Men is a weekly, young men's abolitionist paper, published by the Young Men's Christian Association of the city of New York.

Francis Jackson Meriam was a wealthy, young abolitionist who put all his fortune into the cause, and came from New England to join John Brown in the raid. He was a man of a very strong and a man of a very able ability and sterling character.

Lewis Sheridan Lewis, colored, led a wife and a six-months old baby at Oberlin, Ohio, to go to Harper's Ferry. He was a man of a very strong and a man of a very able ability and sterling character.

William Thompson, a neighbor of the Browns of North Ellia, in the town of Westfield, Vermont, was a man of a very strong and a man of a very able ability and sterling character.

Oliver Brown, John Brown's brother, was a man of a very strong and a man of a very able ability and sterling character. He was a man of a very strong and a man of a very able ability and sterling character.

United Hebrew Trades Leaders Oppose Plan For May Celebration

NEW YORK, N. Y., April 6.—The United Front May Day committee proposing 100,000 organized workers of this city in an effort to oppose the solid capitalist front of the United Forces of the workers has again sent delegates to the May Day conference called by the United Hebrew Trades in conjunction with the Jewish Verband, and trades union action was forbidden by the leaders of the United Hebrew Trades.

A motion to grant the committee of the United Front May Day conference a vote of thanks was defeated. On a motion to hold a parade the coming Friday, a debate followed with the rank and file in favor and the leadership bitterly opposed. Some of the speakers, in position while others like S. P. Green of the United Hebrew Trades, held the American Legion and the truth, however, would interfere. The fact that the United Hebrew Trades had a parade, it was well known that they have not the means to hold such a parade. They may intend that the workers of the United Hebrew Trades, any day of the workers.
