THE DAILY WORKER

Today's Daily Worker Comes From Our Own Press in Our Own Building

Today's issue of the DAILY WORKER marks a great forward step. This issue of our paper was printed on our own press in our own building. Within a few days the DAILY WORKER plant will be able to print, everything from a calling card to a book, magazine or newspaper, on the latest type job press, cylinder and rotary press, which are now part of our equipment.

The DAILY WORKER belongs to the thousands of workers who, nickels, dimes and dollars made this possible.

The DAILY WORKER editorial staff, by working day and night, kept up the standard which makes the DAILY WORKER the best working-class newspaper in America.

Today's issue marks a new phase in the growth of the DAILY WORKER because it demonstrates to every man the most practical that we are now a permanent institution.

The DAILY WORKER is permanently established. It is founded on the support of the faithful workers and farmers of the country who are to keep their daily growing by sending in a flood of subscriptions.

COMMUNISM, I.W.W. CLASH TO BIG CROWD

Cannon-Edward Debate Before Big Throng

Sixteen hundred men and women packed North Side Hall last night after a long day of their respective representatives, Forrest Edwards, of the I. W. W., and James Cannon, of the Workers Party, in their debate on the subject, "Resolved, That the Workers Party Must Fail to Achieve Anything of Importance for the Workers."

Before the debate began Bob Chaplin, the chairman, spoke of the coming revolutionary epoch on the first of May and pointed out that both of the groups before him were socialist capitalists. Partisans of both sides cheered at this and the spirit to the main was friendly until the end.

Must Serve the State.
But the debating was a real clash of ideas. Cannon, while he paid a tribute to the I. W. W. members for their courage in the class war, pointed out that working class power could not be seized without taking over the forces of the state.

Edwards led off by supporting the necessity of industrial action as opposed to political action, claiming that the class struggle is in the industrial field and that the cause of the struggle arise in the workshops, where they must be dealt with in his opinion. The Workers Party leaders use too many theses, he argued.

Relies on Unions Solely.
The capitalists own all the resources and means of wealth production and don't use them," asserted Edwards, "while the workers use the materials and do not own them. The robbery of wage labor takes place in industry, therefore, we must unite on the basis of industry, the field of the struggle."

Edwards argued that when the crisis came that the state power crumbled, the only saved institution would be the unions of workers in industry and the task of reconstructing industry would then devolve on them. Later in his remarks, Edwards mentioned that this crisis would not come until the "dim and distant future."

Hoover Must Answer

The revelations of the Teapot Dome and the Daugherty investigations have overshadowed many political events of the first order. Now, that these investigations are slowing down under pressure from the biggest business interests of the country, is the time for Congress to act on the crimes committed by other cabinet members who have to date been saved from exposure by the pressure of the new investigations.

We have especially in mind the conduct of Herbert Hoover in entering a conspiracy to overthrow the Russian Soviet Government by furnishing food and military supplies known and unknown of the Russian, American, English, and other workmen who fell in the battles of the Russian revolution are eloquent witnesses of the policies of our capitalist government as pursued by Hoover.

The Wheeler committee has deliberately shirked the investigation of the charges made against Hoover by Captain Martin. The evidence in the possession of Captain Martin, which commanded the Shipping Board vessel "Lake Fray" bringing airplanes and tanks to Yudenitch indicts Hoover of a crime that dwarfs in rottenness and bestiality everything that Fall, Denby and Daugherty have done. The graves, known and unknown, of the Russian, American, English, and other workmen who fell in the battles of the Russian revolution are eloquent witnesses of the policies of our capitalist government as pursued by Hoover.

These "progressives" dare not expose the Hoover "relief" policy for fear of the disclosures adding more damage to the irreparable evidence about the class character of the American government and its policies.

Precisely for this reason, the working and farming masses must force the Wheeler committee to rip the mask of humanitarianism off Hoover by subjecting his European relief campaigns to a merciless investigation. It is high time that Hoover answers.

Martin Gets Yudenitch Medal

Photostatic picture of medal given Captain Martin by General Yudenitch in recognition of the American captain's services to the White Guard forces during the onslaught on Leningrad.

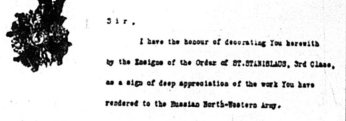

Photo. 4 September 1923.
I have the honor of decorating you herewith by the badge of the Order of St. Stanislas, 3rd class, as a sign of deep appreciation of the work you have rendered to the Russian North-Western Army.

RUSSIA IN BLUNT TALK TO FRANCE

Resent Interference of Paris in Spy Trials

MOSCOW, April 13.—Russia today sent a sharp note to France, "rejecting indignantly" the latter's interference in the trial of anti-Soviet spies at Kiev.

The Russian note was in reply to one from Premier Raymond Poincare in which the French premier urged clemency for the alleged spies on humanitarian grounds.

Chester Talks Business.
Minister did not mince words in his reply. He declared France had committed a hostile act.

The Soviet Government rejects indignantly the attempt of the French Government to interfere in the trial. "This is contrary to the most elementary respect for the sovereignty of other countries."

"The French" government, moreover, its well known record of criminal work of the Kiev episode, were in contact with the French intelligence service, now France attempts to protect her own spies under a mask of humanity.

"This is a hostile act. It comes in addition to other hostile acts, for example, the sanctioning by France of the annexation of Resarabaria by Roumania and prevention of Chinese-Russian understanding."

Hostile Policy Continued.
The French government is surprised that the French Government disregards the feeling its deeds are creating among the Russian masses who have not forgotten their sufferings and the damage caused by French interventions.

"Now they see that the French Government, contrary to other western powers, continues its hostile policy against the Soviet Union."

"The Soviet Government disregards attempts to interfere in the competition of Russian courts, but watches French acts closely."

"The Soviet Government repeatedly has declared its willingness to negotiate a Franco-Russian agreement and notes that France not only does not meet this wish, but has recently increased her hostile policy."

He Thinks Capitalist Courts Good Thing

A Bitter Attack on the Injunction Against Picketing an Unconstitutional and Illegal by the International Ladies' Garment Workers' Lawyer, Peter Sza-

A bitter attack on the injunction against picketing an unconstitutional and illegal by the International Ladies' Garment Workers' lawyer, Peter Szafran, had Judge "Denise" Sullivan on the run at the last session of his court before he fled from the courageous picketers for parts unknown. His place is being taken by Judge Charles M. Foell.

Judge Sullivan tried to excuse his unjust sentences and fines by putting up a weak defense consisting of moralizing and philosophical generalities.

Protects Property.
"We must have some sort of a tribunal," said Sullivan, "to protect" — Sullivan almost said property, but checked himself and finished up "the poor" — "In Russia they have committees to interpret the law, but judges are best, and that's why I am sitting here."

Sullivan's court room gives the starting a good education. They are packed into the court room, and are treated, not as a part of the "people" who are supposed to benefit by the law, but as so many wooden spurs which are moved around at the pleasure of the property owners. As Sullivan talked about protecting the people he mechanically took the thousand-dollar bonds which each "criminal" striker had to put up to keep his liberty.

Hillman to Speak.
Sidney Hillman told the DAILY WORKER that the ten thousand dollars put up by the Amalgamated Clothing Workers is only a beginning.

"There will be more when it is needed," said Hillman, "the strike is important to every union man. We must all help fight the illegal injunction, especially those the neediest, the Amalgamated will go down the line with the Ladies' Garment Workers."

The DAILY WORKER arranged that Hillman should speak at today's session of the court. He was followed by a mass meeting. Members of the "Committee of 15" declare they have heard nothing from the Mayor relative to a permit. John Fitzpatrick was instructed to obtain the permit, but he would not arrive.

Altho it has long been advertised that Samuel Gompers is to take part in the trial of the garment workers, Gompers has done nothing about the strike since being in town. Gompers has been secreted in the Hotel Morrison for the greater part of the last week, engaged in mysterious conferences with some of his old pals, and studying certain phases of work in industry.

If Gompers is doing anything to help the garment strikers fight the injunction, he is keeping mighty quiet about it. At the Federation headquarters it was stated his plans are not known regarding the strike. It is not known by any of the union officials when Gompers will speak at the long heralded mass meeting, or whether he will speak at all.

The Daily Worker Unmasks U. S. Spokesman As Ally of Worst Russian Reaction

He Thinks Capitalist Courts Good Thing

The DAILY WORKER herewith reproduces photostatic documents and gives the facts showing how Herbert Hoover, as a spokesman of the American government, aided and abetted the counter-revolutionary forces in Europe.

Hoover's unsuccessfulness at overthrow the Workers' and Farmers' Republic of Russia is due to the fact that today there are living in him in helping to put Admiral Florin, hangerman of the Hungarian working class, in power.

The DAILY WORKER is now in the midst of prosecuting a vigorous, thorough investigation which will completely expose the true role of the American government as the ally of the worst Russian reaction in the struggle of the European working men for freedom from employing class oppression.

In view of Secretary of State Hughes' fraudulent allegations about the Soviet Republic of Russia, these genuine documents, for the first time made public by the DAILY WORKER, are of inestimable value in showing how the United States government itself has been doing everything in its power to overthrow the Soviet government.

(Special to The Daily Worker.)
WASHINGTON, April 13.—"When the time comes that the truth about America's share in the war against Soviet Russia is really wanted, then I shall be able to bring witnesses who will prove that America is responsible for great material damage and loss of human lives on the Russian side. Today there are living six men, with whom I can communicate, who know all the plans made for the Yudenitch invasion. I have documents that will support their testimony."

This was the statement made to THE DAILY WORKER correspondent here by Captain James V. Martin, who commanded the Shipping Board vessel "Lake Fray" on her voyage from Itzehoe, Belgium, to Bordeaux, France, in August, 1919, to Reval, Estonia, with a cargo consigned from "American Iron and Steel" to "Representative General Supply Committee" of the Russian Armies.

A photostatic copy of a bill of lading of part of this cargo is presented herewith. It shows that 60 motor trucks, of the 2-ton Liberty type supplied to the quartermasters' corps in the American army, and some 50,000 gallons of gasoline, 150 gallons of grease, and spare truck parts, were included in this shipment.

"Shattering Hoover's Denial."
Hoover denies that Martin's cargo of "food and medicines" was delivered to Yudenitch's forces. His points out that Martin sailed up the Baltic in August, and that Yudenitch did not enter Russia until October. That is just the point made by Martin—that he was recruited by Yudenitch for the work you have rendered to the Russian North-Western Army, on September 4, and that the work involved was the early delivery of provisions and this motor transport. He says Martin's name was "Charles" Hill, the British war minister, failed to deliver the airplanes and tanks he had promised, that Yudenitch failed to capture Leningrad and to gain the aid of the Finnish army then waiting at the border to march toward Moscow.

Yudenitch waited until October in the vain hope that Churchill's British fleet would arrive. He was disappointed. Von Goetz and Brentnall, his Baltic German allies, threatened his rear and caused a blockade of the coast, forcing him to start on his campaign, which he was unprepared for. This was the result of the aid of the British Army, who was acting in the Baltic region for the American government, according to all accounts. It was stated that I ought to do so, I considered that it was necessary to get airplanes and machine guns from Germany, to carry out the policy of the American government toward Russia.

"It is true that I entered into negotiations to furnish supplies to Yudenitch's army," said Martin. "I did not do so because the British link in the plan for the military campaign had fallen, and because Gen. Goff had been killed, who was acting in the Baltic region for the American government, according to all accounts. It was stated that I ought to do so, I considered that it was necessary to get airplanes and machine guns from Germany, to carry out the policy of the American government toward Russia."

(Continued on Page Two.)

Refuge to Hail Probe.
WASHINGTON, April 13.—The senate is ready to adopt the democratic resolution referring to the investigation of secretary of the treasury, Mellon, the President Coolidge and Secretary Mellon demand it be halted.

If Mellon wants to resign he will have an opportunity to do so, senate democrats said today, as they claimed to have enough progressive-republican votes pledged to maintain their position.

More is involved than the Mellon inquiry, senators hold. Sen. Walsh Montana, regards the Coolidge-Mellon effort to halt the investigation of the internal revenue bureau, which involves indirectly an investigation of Secretary Mellon, as an effort to halt all the senatorial inquiries now under way.

Would Hire Henry.
For that the democrats and progressives are virtually unanimous in support of the resolution to give the Mellon investigators broader powers and permitting them to hire Francis J. Heney.

Senators Walsh, Robinson and other democratic leaders are determined to have the senate settle decisively whether the executive branch of the government or the legislative shall decide when and how congressional investigations are to be carried on.

Henry Ford to Quit.
DETROIT, Mich., April 12.—Henry Ford's withdrawal as the presidential nominee of the Michigan delegation to the Democratic convention will be in the hands of William A. Constock, Democratic state committee, within 48 hours.

Trachtenberg Tour

(Special to The Daily Worker.)
WASHINGTON, D. C., April 13.—Herbert Hoover may be compelled to testify as to his alignment with the right wing of the territories controlled by Russian counter-revolutionaries, in 1919-1920, as a result of the raising of this issue by the Senate Committee in connection with the neglect of investigation of these charges by Daugherty.

Scaife brought up charges made by Captain Martin of the Shipping Board vessel "Lake Fray," which carried, he says, \$1,000,000 worth of food and arms to Reval in August, 1919, in time to hand them over to Yudenitch for his drive against Leningrad.

The Hoover organization charged Captain Martin with having tried to sell German war material to Yudenitch, and he was removed from command of his ship when he returned to the States. In 1920 the Shipping Board formally exonerated him. Martin has a decoration which is deposited in the vaults of the U. S. Navy, and he has a letter of commendation from the U. S. Navy in recognition of his having delivered the supplies and trucks on time.

JOHNSON ANTI-FOREIGNER BILL PASSES HOUSE; CHICAGO LABOR WILL CARRY FIGHT TO SENATE

(Special to the Daily Worker) WASHINGTON, D. C., April 13.—The Johnson immigration bill, which would restrict foreign labor, passed the House of Representatives by a vote of 323 to 71.

Support given by Samuel Gompers and the executive committee of the American Federation of Labor was one of the factors that assisted the bill to go through. The labor movement which is fighting the bill will mass their forces to prevent its going thru the senate.

It was learned that a delegation is coming from the organized workers of Chicago and other cities to protest the passage of the bill which requires the registration of foreign born workers and provides for the deportation of "undesirables"—that is, active unionists.

The Johnson bill limits new arrivals from each foreign country annually to two percent of the total population in America in 1930. The existing immigration bill allows three percent of these rates at the time of the 1910 census.

K. K. Supported Bill. The out-of-date 1890 basis was chosen for the reason that it was against the workers from eastern and southeastern Europe who have formed the majority of the influx in later decades.

Russians Honor Lenin By Sending Food To Germans

MOSCOW, April 13.—The workers of the Soviet Union are honoring the memory of their proletarian solidarity with the workers of Germany in the manner in which they are sending food to the workers of their beloved Lenin.

Instead of buying weapons for his grave, the workers of Soviet and Samokovskaya suburbs gave 365,332 roubles towards the purchase of food and fuel for the starving Germans.

In Gabelot the workers labored extra on Sunday and used their pay, which amounted to 255,322 roubles for the same purpose.

Numerous other workers in various parts made collections in memory of Lenin and then contributed the grand totals toward the purchase of food for the German workers.

Ku Klux Klan On Down Grade, Texas Elections Reveal

(By the Federated Press) DALLAS, Texas, April 13.—Election returns from different Texas points indicate that in many places the Ku Klux Klan received severe defeats in its attempt to elect school trustees and municipal officials.

In San Antonio anti-Klan candidates won by a decisive majority, and in San Angelo the anti-Klan ticket celebrated a victory. Beaumont also elected a Klan ticket. In Houston the majority of successful candidates for the school board were anti-Klan, while in El Paso all the Klan candidates were beaten decisively.

In Dallas, as reported previously, all the Klan candidates for school board were defeated.

Harry Sinclair Demurs. WASHINGTON, April 12.—Harry P. Sinclair fled today in District 80 of the United States to avoid indictment charging him with contempt of the senate for refusing to answer questions before the oil investigating committee.

PLOY OF HUNGARIAN MINERS' SECRETARY IN WEST VIRGINIA HALTED BUT COAL KINGS BOAST CONVICTIONS OF FOUR

CHARLESTON, W. Va., April 13.—The non-union coal operators, who have supplanted the union miners for the armed uprising against the gunmen of West Virginia in the summer of 1921 are not calling Fred Rooney, secretary District 17, United Mine Workers of America, a conspirator in the 1921 strike.

The trouble occurred in August, 1921, when thousands of miners and sympathizers, armed themselves and marched on McNewell, Logan and Mingo counties. This march was broken up by the state militia...

Attorney General E. T. England in 1922 a prosecution almost peculiar to West Virginia was begun. The state attorney general has never been indicted.

On the other hand several hundred miners were arrested in the state. The state attorney general has never been indicted.

PARSON JANITORS "RAILROADED" BY BOSSES' JUDGES

Big Labor Delegation Visits Governor. (Special to the Daily Worker) SHERIDAN, W. Va., April 12.—Governor Len Small today granted full pardons to William Quisenberry and other members of the Chicago Flat Janitors' Union, and nine other labor leaders, convicted of conspiracy in Cook county, Ill.

"I am convinced, after giving both sides a full hearing, that to permit these convictions to stand would be a denial of the right to a fair trial before an impartial tribunal," the state executive said in announcing his decision.

The action followed a hearing yesterday when arguments for and against pardons were heard by the governor sitting with the Board of Pardons.

The conviction grew out of the alleged conspiracy of the union officers to extort money from owners of buildings where janitors were employed. It has been considered a frame-up engineered by the employers' association.

The pardons followed the appearance at the state-house of the largest delegation of labor union officers to extort money from owners of buildings where janitors were employed. It has been considered a frame-up engineered by the employers' association.
