

Revolt of Housing Victims Imperialist Plot Near Completion

May Day Rent Strike Threat Among Hundreds of Chicago Tenants Against Landlords

A "rent strike" is the May Day threat of thousands of Chicago's tenants to their grasping landlords if these robbers attempt to raise the rent again.

Over forty organizations have associated in a Tenants' League to protest the crushing rise in rentals since 1918.

They vow they will not move and that they will not sign leases for rents advanced more than 100 per cent during the last six years.

Plan Centralized Organization.
Trade unions, Workers' and Social branches, Workers Party and Circle Party branches, the Jewish Workers' League, and other organizations are combining in this threat to the apartment monopolists.

The groups are planning a central organization and expect to procure local aid in their fight. The warring landlords will be battled right thru the courts.

Mass Meeting Wednesday.
A mass meeting will be held Wednesday evening, April 26, at a Venetian Hall on Douglas Park Boulevard at the corner of Ogden and Kedzie. Plans for the Tenants' League will be completed there and May Day strike tactics discussed.

Check Up on Evictions.
Cases of eviction are being checked and will be advertised for propaganda purposes. Reports of landlords' negligences will also be recorded and used against rent raisers.

About 150,000 families are moving this May in Chicago because of rising leases. The Northwest side groups want to ward off the excessive expense and inconvenience of moving.

According to the Chicago Tribune, in an address before the Women's City Club, he is no higher, labor no higher, and taxes no higher, so landlords have no reason for being rent raisers and raising rents.

DAUGHTERY'S CRY OF 'COMMUNIST PLOT' FALLS FLAT

Grafting Harry Still Must Explain Loot
By LAURENCE TODD.
(Staff Correspondent of the Fed. Press)

WASHINGTON, April 27.—This time the accusation by Harry Daugherty that he has full proof of a "hellish conspiracy" of soviet agents to overthrow the government of the United States, has failed to evoke more than a weary smile in Washington.

The first three or four times that this hellish imputation was discovered by the former attorney-general on the approach of the railroad shop strike and the anthracite coal strike—he was applauded by a large section of the reactionary press. But now that he is out of office, and uses this assertion as a defense of his refusal to permit the senate to inquire into the plea of the department of justice, he fails to gain any approval.

Senator Thompson of Iowa, one of the "soviet sympathizers" usually by Daugherty in his Columbus speech, replied: "All his talk of a hellish Communist plot does not answer the question."

DETROIT MACHINISTS VOTE TO SEND DELEGATE TO ST. PAUL, JUNE 17TH

(Special to The Daily Worker)
DETROIT, Mich., April 27.—A regular meeting of Lodge 82, International Association of Bridge and Structural Ironworkers, was held at the second meeting in St. Paul. A committee was appointed to raise funds to defray expenses of delegate.

"The workers' flag is decepted red; It shrouded off our honored dead; And ere their limbs grew stiff and cold Their life blood dyed its every fold."

MORE SUPPORT FOR CAR BUILDERS

HOLLAND WILL YIELD SOVIET RECOGNITION TO GET RUSS TRADE

AMSTERDAM, April 27.—Holland will grant a formal recognition to Russia within a short time, it was forecast authoritatively here Thursday. Russia, according to this information, has made recognition by the Dutch government a condition for resumption of commercial relations between the two nations, and Holland has agreed.

SCOTTISH LABOR M.P.'S THREATEN DIRECT ACTION

LONDON.—David Kirkwood, one of the Clyde left wing members of the Independent Labor Party, who is as much of a thorn in the side of them as MacDonald is in the anatomy of the British ruling class, has another bombshell into the dove cone of labor imperialists and class collaborationists, when he denounced the government for the provision of its Rent Bill which would place the burden of granting relief to prevent the eviction of tenants on the shoulders of the local authorities.

NEW STRIKES CRIPPLE THE PULLMAN CO.

3 More Departments Join Walkout
The steel cabinet workers in the Pullman Car shops, one of the largest and most important departments in the Pullman plant, will strike with the buckers, fitters, reamers, riveters, and heaters unless their wage demands are accepted by the Pullman officials.

MINERS SEE PRESIDENT FARRINGTON RIDING IN A SCAB TAXICAB

AUBURN, Ill., April 27.—Altho a bitter battle is raging in Springfield, Ill. between the union Taxi cab drivers and those of the Yellow Cab Co. Frank Farrington, President of the Illinois Miners union patronizes the scab concern.

DAILY WORKER NOW TO BE HAD THROUGH THE STEEL DISTRICT

Here is good news for the workers throughout the steel district of the south of Chicago and over the line into Indiana. With this issue THE DAILY WORKER goes on sale on the newsstands in South Chicago, Pullman, Kensington, Calumet and Hegewisch, on the Illinois side, and in Hammond on the Indiana side of the state line.

In addition to the workers in the steel mills, there are tens of thousands of workers in other industries, in this far-flung industrial district practically all unorganized, especially the workers in the giant plants of the Portland Cement Co., and the various oil companies.

Morgan Uses \$100,000,000 Loan Club to Force Western Europe to Accept His Plan

(Special to The Daily Worker)
NEW YORK CITY, April 27.—Wall Street is satisfied with the progress being made by J. Pierpont Morgan, in Paris, in forcing the Morgan-Dawes plan upon the nations of the Versailles peace.

The familiar Wall Street-Morgan club, of a loan, in this case \$100,000,000 to Germany to help her fulfill her obligations under the Versailles peace, is being used with good effect.

If the big nations of Western Europe refuse to accept the plan then there will be no loan.

But the British, Italians and Belgians have already accepted the plan, while France is still holding out for revision.

Morgan's offer is that American bankers will subscribe half of the proposed \$100,000,000 gold marks (\$200,000,000) loan to Germany, if the Dawes scheme is adopted in its entirety, without alterations or political modifications.

Mr. Morgan, in a two hour conference with Louis Barbois, president of the reparations commission, and Sir John Bradbury, British member, assured the reparations officials that American banking syndicate would subscribe \$100,000,000 to the loan.

The sharp contrast in the tenor of the French and British, Belgian and Italian replies indicates the chasm splitting Premier Poincare from the reparations commission. The French premier's communication is almost as long as the other three combined, and whereas Poincare's demands and Massol's agreement on the experts' conclusions practically without comment, and while Mr. Williams Tredwell points out that there are only three points for the allied governments to decide on and transmit to the reparations commission, Premier Poincare insists that the entire reports of the Dawes and McKenna committees, totaling 45,000 words, require rewriting.

The governments must find what measures the German government has taken for the execution of the decision of the reparations commission. This decision can be taken only after the reparations commission approves of the projects and laws demanded from Germany.

The French premier then insists that the allied governments must not be considered on the same footing as Germany.

Demands Better Guarantees.
Regarding releasing the French military grip on the Ruhr industry, M. Poincare renews his demand for a more sure guarantee than he can now have with the "pollux" bayonets in the Rhineland in exchange for Germany.

Arguing for a further delay, Premier Poincare continues:
"The governments must find what measures the German government has taken for the execution of the decision of the reparations commission. This decision can be taken only after the reparations commission approves of the projects and laws demanded from Germany."

Arguing for a further delay, Premier Poincare continues:

MEAN'S DIARY GONE; BURNS FACES GRILL

Loss Aids Crippling of Daugherty Probe
WASHINGTON, April 27.—The Senate investigating committee's searchlight was turned on the mysterious disappearance of Gaston B. Means' diary, which may be the key to a collection of "little black books."

Without the "minute-by-minute" diary and the documents of the former department of justice agent, upon which much of the case against the former attorney general Daugherty has been built, the committee will be seriously hampered and its means will be spared, chairman Brookhart said, to recover the missing papers.

Means himself was to be the first witness of the day, Senator Wheeler, committee prosecutor, said. After he testified on the issue of the alleged theft of his documents by a clerical assistant, two other witnesses, claiming to be officials of the Senate committee, plan to call a Department of Justice agent.

William J. Burns, director of the bureau of investigation, may be called.

"CAUTIOUS CAL" IS FACING CRISIS SILENT AS USUAL

Immigration, Bonus Bill, Taxes, Big Action
WASHINGTON, April 27.—Decisions which will have a bearing on his own political fortunes and on the nation's economic and political future, are being confronted by President Coolidge. Congress is preparing to put before him three pieces of legislation, all of which involve tests for Mr. Coolidge. These are the immigration, tax reduction and bonus bills.

The President is faced with possible loss of support in California and other Pacific coast states should he veto the Japanese exclusion immigration bill. On the other hand, if Mr. Coolidge signs the bill and no other attempt is made by the government to ally Japan's consequent displeasure, ill-feeling is fanned with possible loss of support in California and other Pacific coast states should he veto the Japanese exclusion immigration bill.

On the other hand, if Mr. Coolidge signs the bill and no other attempt is made by the government to ally Japan's consequent displeasure, ill-feeling is fanned with possible loss of support in California and other Pacific coast states should he veto the Japanese exclusion immigration bill.

STREET CAR MEN IN PITTSBURGH, PA., TAKE STRIKE VOTE TODAY

(Special to The Daily Worker)
PITTSBURGH, Pa., April 27.—A strike vote of the 1,200 motormen and conductors of the Pittsburgh Rapid Transit Co. is expected to be held today. The strike vote is favorable the men will go out on May 1st. The traction trust has informed the city council it will not grant the wage increase demanded.

PULLMAN CO. GRIPPED BY 3 NEW STRIKES IN SHOPS

(Continued from Page 1)

Still other departments, including the switchmen, Seclunski, because they know that the Pullman Company will try to extend its present wage cut to all the departments.

Police Keep Out of Homes. Alderman Shelton W. Govier assured the strikers that they would be protected against the lawlesses practiced last week by the hired thugs of the Pullman corporation. Alderman Govier assured John Holmgren, head of the strike, that he will see that no strikers in his ward are molested.

"No police officer has the right to enter the home of any citizen without a warrant," said Alderman Govier to John Holmgren. "If any police officer tries to break into a strikers' home, the strikers have the right to resist the entrance of such officer."

Next Move Up to Pullman Co. John Holmgren told the strikers Saturday that it is up to the Pullman Co. to make the next move in dealing with the strikers. He declared that he will see that the Pullman officials start negotiations with the strikers soon.

"They must be getting thousands of dollars every day just for their robbery and pay," said Holmgren, who is general vice president of the Brotherhood of Railway Carmen. "Production in the Pullman shops is practically nil. The strikers are actively picketing every day and the ads put in the papers for the Pullman Co. will do no good. From now on we will see that if that new men hired there is a strike, it will be a strike. This strike is controlled by the Pullman officials and thousands of dollars."

The strike is spreading, and before long we will have the entire plant. Holmgren told the strikers they were within their rights in telling the thugs and gunmen of the Pullman company to get out of the Pullman plant. "The DAILY WORKER is the only newspaper in Chicago that is printing news of the strikers and the Pullman workers to thwart the Pullman company's attempt to write immense profits out of the backs of their employees. The strikers decided to picket the employment office hereafter."

Even the police know that the strikers are unable to exist on their low wages. One striker informed the DAILY WORKER that the Pullman Co. had asked him for a "lift" into South Chicago. "These cops told us to stick together," said the striker, "and we would win out. They told us it was a dirty shame the way the Pullman Company gives the very life out of the workers."

More and more police are in evidence in and around the Pullman plant. Police officers are being paid extra pay for trying to scare the strikers, are overrunning the streets. Strikers are trying to find out why the city pays out money from the taxpayers' pockets to have a police force employes walk around on empty tums.

Like the DAILY WORKER. The DAILY WORKER counted all most 100 policemen and plain clothes men patrolling on foot and riding around in autos, between the 11th and 15th streets, near the Pullman plant. The strikers sold 1,000 copies of the DAILY WORKER to the men in other departments as they came out of the shops Saturday noon. The paper has made a big hit in Pullman. One worker said: "We all like that paper in here. It prints news you can't get in the regular newspapers."

Nick Spynow was telling the DAILY WORKER "dirty literature." After an argument with several of the strikers, the cop saw he was getting the worst of it, and walked off, grumbling. Hold May Day Meeting. Max Salzman will speak to the workers of the Pullman Company on May First, at 8 p. m., at St. Stanislaus's Hall, 205 East 115th street, the hall now used by the strikers for their strike meetings. Karl Heera will act as chairman of the meeting.

BIG SALMON CANNING RUMOR HOOPER \$60,000,000 Sal m on Gift to Trust Exposed

(Continued from Page 1)

WASHINGTON, April 27.—Herbert Hoover, secretary of the Department of Commerce, may be driven to resign as a result of the sensational Alaskan salmon fishery expose that is circulating in the campaign in Shastis, Szechuan and Honan. Early in 1914 he was appointed commander of the 11th Brigade of the Third Division, Chinese Army. When General Tao Kun (the present president at Peking) was made military governor of China, he took his place as commander of the Third Division, taking part in the fight against General Chang Hsun's monarchal movement in the summer of 1917.

Corrupt Peking Politicians. A year has elapsed since he held the Southern Constitutionalists. He was successful in capturing the Southern Constitutionalists. The conflict resulted in the downfall of the political party. For the better understanding of this three-cornered situation it is necessary to describe the position of each. There was a coterie of corrupt Peking politicians who illegally retained their seats in Peking. They were headed by the present politician at Peking. The public became incensed at the corruption of the politicians and the Chihli party (who at present control Peking) saw an opportunity to take the control of the government. Both parties are equally corrupt and equally unconstituted. Nothing has been done by the overthrow of the Anfu party, most of whom retained their seats in the legislature. It is significant that every corrupt politician in Peking who has been expelled has returned to the Foreign Legation quarter. On his return Wu Pei Fu was appointed military governor of the three provinces of Chihli, Shantung and Honan. Since then Wu Pei Fu has steadily strengthened his hold over the northern capital, largely, so it is asserted, with the backing of foreign financiers.

China Resents Foreign Exploitation. In this very powerful banking lobby, the Chinese people, who resent foreign exploitation is deeply resented by the Chinese people, who realize that any action taken by the foreigner will demand his quit pro. The general opinion being held in this article is illustrated by one incident I refer to the recent sale of \$5,000,000 worth of government bonds in Italy. These were loaded onto trains in the Italian consulates. These bonds were sold to President Harding, retained by C. H. Swift, and the fact that Wu dictates the policy of the present corrupt Peking government is a fact that is well known to the Chinese gentleman of the same ilk. Wu's ambitions are quite evident. He has already extended his sphere of military control, and at present he retains a firm grip on the provinces of Chihli, Shantung and Chihli, with some support from Hupoh and part of Hunan.

Disputed the Servant. Militarily he is supposed to be about the holding of Peking, but there is abundant evidence to prove that he is far from being an obedient servant. By far the most powerful of the Tuchun (military governors), he does not hesitate to impose his will upon the central (Peking) government, even in matters which apparently are outside his domain, and many bitter complaints are heard regarding his arrogance of action and demeanor. Yet, in spite of the fact that he is the head of the largest and best organized striking force in China, he is unable to suppress the brigands which infest the provinces of his own domain.

He has a long established personal friendship with the Bentley family, his representation of the Alaska Packers' Association by R. Bentley, vice-president, and C. H. Bentley, director. His intimacy with this family, which is unlawfully benefiting by his executive acts as secretary of the Department of Commerce, is akin to the friendship of Sal and Dobey.

Interested directors had the constituent companies of the Alaska Packers' Association, 127 Wall Street, New York, and the Alaska Packers' Association, 115th Street, near the Pullman plant, which operates a fleet of salmon ships. The directors are E. F. Swift and among its directors are C. H. and C. F. Swift.

The canneries dot the Pacific Coast from Puget Sound north to Alaska. They are especially numerous in the thousands of miles of indented coast in southeast Alaska and again in Bristol Bay, just north of the Aleutian Peninsula. Fishermen and cannery workers go there in scores of ships every year to harvest the salmon. They are in the water from May to September, returning again in the late fall. The canneries work on these ships and in the cannery grounds. Working in shifts fourteen hours a day and sleeping in wooden bunks, the men with bags; eating promine provided for them in their food. They are loaded with bootleggers, and gambling shacks abound with company permits.

Especially vicious is the treatment of the army of Chinamen and Filipinos. Packed like sardines in slow sailships northward, meager quarters, and subjected to attacks by times only a pint a day—are doled out to them. On the salmon grounds they are housed in shacks, and are backed up by the patrol navy of the Governor of Alaska.

The patrol navy of the Governor of Alaska visits salmon grounds to get a better idea of the situation. Reports of "I. W. W." and "agitators" are made to make arrests. Labor Agents are sent to Alaska to look over the governor of Alaska, was formerly connected with the Lum Post-Intelligence of Seattle, a Lum

THE ASATATO GOAT ATTACKS

By JACK ARMISTE. (Exclusively to the Daily Worker.) (Concluded from Saturday)

Wu Pei Fu, the would-be Chinese Mussolini, is in the second outlandish figure in present day China. Born in 1871 in the province of Shantung, Wu Pei Fu took his B. A. degree at the age of 21. From his earliest days he was a follower of Sun Yat Sen, who graduated with honors from the Kai Ping Military Academy. After a brief service in the army, he was graduated with honors, entering a military school of which Marshal Yuan Chai Jui was general. From here he was promoted to battalion commander and participated in the campaign in Shantung, Szechuan and Honan. Early in 1914 he was appointed commander of the 11th Brigade of the Third Division, Chinese Army.

When General Tao Kun (the present president at Peking) was made military governor of China, he took his place as commander of the Third Division, taking part in the fight against General Chang Hsun's monarchal movement in the summer of 1917. A year has elapsed since he held the Southern Constitutionalists. He was successful in capturing the Southern Constitutionalists. The conflict resulted in the downfall of the political party. MINERS ENDORSE MILITANT PROGRAM

(Continued from page 1)

The 14,000 miners of Kansas would live, fight and die for him. McDermott was given the honor of the remainder of the militant program and the committee report. On receiving the report in the afternoon the committee report of Secretary-Treasurer Watt's report was specifically adopted and the convention began considering the report of Secretary-Treasurer Watt. This report, compact in form, was discussed at once. It contained no mention of the destruction of record in a fire that destroyed the building where the office had been located. Watt pointed out that the chief beneficiaries of the existing compensation law in Illinois were the insurance companies of the United States and several European companies.

Delegate Knutson of Virden, Ill., described some of the intricacies of the law from personal experience. Knutson fell down a shaft at the OH West from personal experience. He described the struggle to break his fall using the rope 250 feet, hitting the cable 100 feet from the bottom, and then falling the last distance without a parachute. He described the incident and visible signs of his accident yet, in spite of this he did not get justice from the settlement of his compensation claim. The mystery is that he is here himself to describe it. Under report of the resolutions committee a demand for increased pay for mine examiners was discussed. It was pointed out that in the past three years the convention could do nothing to improve the spirit of the resolution, and after defeating a motion to table, this was done. Another resolution denouncing the vicious "gang work" system, and the efforts of the operators to discriminate against "underground" men and in favor of "haskies," was passed by unanimous vote.

McDonald Calls for June 17. Duncan McDonald, editor of the Illinois Industrial Review, addressed the convention at the close of Friday's session. He was greeted and warmly interrupted with applause. He said that he would be in St. Paul at the St. Paul convention on June 17, and in the Illinois state convention.

DAUGHERTY JUST DODGE WAR ON GROWING TRUSTS

"D. of J." Shuts Its Eyes To Price Fixing

WASHINGTON, April 27.—Further steps to curb the activities of the Department of Justice to prosecute trust cases were laid before the senate investigating committee by Hupoh Thompson, chairman of the committee. Thompson told the stand when the committee reviewed its prepared plan to start with Gaston B. Means, Alvin S. Miller, and Company. Thompson said the stand when the committee reviewed its prepared plan to start with Gaston B. Means, Alvin S. Miller, and Company. Thompson said the stand when the committee reviewed its prepared plan to start with Gaston B. Means, Alvin S. Miller, and Company.

tion as to where he got the \$25,000 in cash the investigation 2000 shares of Wright-Martin Aircraft stock and the other wealth he had laid away. He was the most incompetent actor yet general unfitness.

Senator Wheeler answered the Daugherty reply by saying that the most of the specific statements were false, as to the way in which the senate committee had conducted its investigation, and that the evidence against Daugherty thus far brought the committee was only a drop in the bucket. He finally charged the Daugherty brothers to permit the senate to read the records of Mail transfer bank, now absconded by an injunction.

which means the right to walk the streets without the presence of a present judge. He was endorsed as an anti-injunction judge. In spite of the fact that he is a present traitor he has ordered pickets to obey the injunction. Reports that workers still have to their rights to walk the streets annoyed him. Foell faces his real test Wednesday when the cases come up before Judge "Denial" Sullivan. The following Wednesday, May 6, among the talkers is that of Meyer Barkan, cloakmaker and not on strike, who was kicked up on a John Doe attachment Thursday as he was leaving his place of employment on South Market at

MORGAN WIELDS CLUB

tion as to where he got the \$25,000 in cash the investigation 2000 shares of Wright-Martin Aircraft stock and the other wealth he had laid away. He was the most incompetent actor yet general unfitness.

Senator Wheeler answered the Daugherty reply by saying that the most of the specific statements were false, as to the way in which the senate committee had conducted its investigation, and that the evidence against Daugherty thus far brought the committee was only a drop in the bucket. He finally charged the Daugherty brothers to permit the senate to read the records of Mail transfer bank, now absconded by an injunction.

"Older" Guard Branded It Out. An investigation news was published by pleased at the outcome of the Daugherty trial. They see in it a slight check on the "red" influence of the shoulders of the Coolidge candidacy, and will deepen the impression made by the fact that the "red" guard committee—that the "old guard" committee, having no ground for its own defense in the case, are going to brazen it out during the presidential campaign.

American Dollar Diplomacy in Action

ARTICLE V.
The World Bank and Manufacturers.
The World War has given tremendous impetus to the expansion of American industry. America has become the leading industrial, trading and banking nation in the world. Abstractly one might still contend that the United States is a self-sufficient nation. But we are already dependent, if not for our livelihood, at least for our prosperity, on the world market. Our wheat growers look toward Liverpool for the prices they are to receive for their product. The cotton growers of the South, as well as the steel workers of Pittsburgh are closely interwoven with the markets of Europe. The World War has increased the dependence of the United States on the world for the disposal of its surplus.

The tremendous increase of American industrial production since the war can best be seen from the following figures. From 1914 to 1919 the number of establishments in our industries rose from 27,571 to 32,105. At the same time the number of wage earners in these establishments increased from 7,028,241 to 9,996,272. The capital invested in these industries rose from \$22,700,000,000 to \$41,589,593,771 during this period. The value of the products now being manufactured is \$26,437,471, to \$62,418,975,772. For instance our iron and steel and other products increased from \$128,952,348 to \$1,211,812,201. The value of our exports leaped from \$6,112,000,000 to \$13,123,000,000, animal products \$3,782,000,000 to \$4,511,600,000, manufactured goods \$9,875,246,000 to \$17,957,000,000.

The national income of the United States has increased from \$12,200,000,000 to \$24,470,000,000 in this period. From 1912 to 1932 the total national wealth of the country increased from \$116,293,664,000 to \$220,502,000,000 or a gain of more than 72 per cent.

Our merchant marine has grown from 5,427,836 tons in 1914 to 17,062,469 in 1932. Ships of American registry carried 46.5 per cent of our foreign trade during the fiscal year ending June 30, 1932. In 1932 ships of American registry carried only 11 per cent of our imports and 9 per cent of our exports.

America has become the banker of the world. The Department of Commerce in its annual report has stated that the world required no less than \$4,500,000,000 to pay its current commercial obligation to the United States. Since the armistice November 11, 1918, European loans to the extent of \$11,416,150,000 have been issued in the United States. In war debts alone the allies owe America over \$11,000,000,000. America has more than half the world's gold. In the last calendar year alone the world has imported \$322,715,812 in gold. The value of the gold now being mined and drifting into the United States can be seen from the latest figures. In 1932 the world's production of gold for the 11 months ending November 1932, we imported \$1,608,250,662 worth of gold. For the same period in 1923 we imported \$3,500,500,001. Since the war only four Scandinavian loans have been placed in London. The total value of the estimated world of resources now lie outside of the United States. This account shows the growing attention which the United States is paying to Mexico, the Caribbean republics, and the South American republics which fall in the second greatest oil area in the world.

Of the supply of corn estimated as having been raised in the world in 1923, the United States produced a quarter, the Caribbean three times as much as that of all the other producing countries combined.

Nearly three-fourths of the world's known coal reserves are in North America. More than half of the world's supply is in the United States. Out of the estimated supply of coal produced in the world in 1923, 1,350,000,000 tons were produced in the United States. A recent French economist summed up the European view of the American imperialist power in this fashion, "The fact that the United States is the largest producer of oil in the world has given the United States a world hegemony. Lord Robert Cecil has said that the position of the United States after the great war with Great Britain after the Napoleonic wars, because the British hegemony was even essentially European while that of the United States today is universal, controlling an immense reservoir of raw materials of manufacture, of products and of capital. The United States has become an economic super power. The world's available oil supply. But nearly 50 per cent of our own petroleum resources

in the United States have been exhausted. The position of the estimated world of resources now lie outside of the United States. Money Oligarchy's Record in Ancient Judaea Is Exhumed

By the Associated Press
WASHINGTON, April 27.—Biting parallels to modern economic cycles are shown in the development of capitalism and despotism in ancient Judaea, as found in the book Bible and Judaea, by Father Joseph Hushehn, S. J., editor of America, and published by Macmillan.

The long arm of the bareless eagle, the poor reached to every corner of the land," he says, dealing out bread and despotism in the primitive land laws. "Exorbitant profits remained in the hands of a few money lenders. Great fortunes were accumulated by princes and merchants, while the people sank into the poverty that degrades. Corruption was common between the men in public positions and the oppressors of the poor. Not merely were judges bribed, but the laws themselves were written to accommodate rich clients.

The poor and the oppressed brought the power of religion to the support of the moneyed oligarchy. . . . The last stage had been reached when the great nations have drifted in their turn, a stage of national decadence and national corruption, with excessive riches in the hands of a few and excessive poverty the lot of the masses. The English four-day week, the Hebrew farmer, the Hebrew empire builder, had now at length become the Hebrew proletarian."

ANTI-CHILD LABOR FIGHT AGAIN BEFORE CONGRESS FOR ACTION

WASHINGTON, April 27.—Twice thwarted by decisions of the Supreme Court, federal regulations of child labor will be taken up by the House in the form of a constitutional amendment.

Congress previously passed law regulating interstate commerce in child labor products and taxing commodities produced by child labor, but in 1923 the Supreme Court ruled the legislation unconstitutional. A large majority in the House had declared itself in favor of the resolution when it was brought up, but considerable doubt existed as to whether the majority was sufficient to secure the necessary two-thirds vote.

Under the special rule granted for consideration six hours debate will be allowed before the vote.

Sluggish of Young Unions.
BERLIN.—Three slogans will mark the celebration of May 1, the International workers' day, in Germany this year, according to the May day proclamation issued by the General Federation of Trade Unions. These slogans are: "Maintenance and Restoration of Eight-Hour Day," "Establishment of Social Legislation," and "Defense of the Democratic Republic Constitution."

Poor Man To Pay Rich Man's Family For His Accident

(By The Associated Press)
OAKLAND, Calif., April 26.—What happens when a rich man runs down and kills a poor man? You know the answer. The insurance company pays the matter out of court and the rich man gets off with a fine of \$5. Torres, a poor man with a family to support, accidentally caused the death of a rich man, Judge Wood ordered him to pay \$265 court costs and his boat while in jail awaiting trial, never to drive an automobile in his life again and to pay 20 months to Davila family for \$15 a month. The slain man's attorney objected that the relative did not wish to accept this money, but the judge waved him aside and said to Torres: "I know you are a poor man and Davila's family is rich, want you to make this payment of \$15 a month? He renounced each word of your responsibility for the accident."

Jap Labor Seeks Suffrage.
TOKIO.—The worldwide agitation among labor organizations for action on the political field is reflected in the resolution of the Japanese General Federation of Labor to work for universal suffrage. A reactionary military cabinet is blocking the 13th annual convention of the federation.

LUMBER TRUST CONSPIRACY AIDED BY DAUGHERTY, FEDERAL TRADE COMMISSION SHOWS

By LAURENCE TODD
(Federated Press Staff Correspondent)

WASHINGTON, April 27.—Every man, woman and child in the United States has been compelled to pay the price of the lumber trust, shielded by the department of justice while taking at least \$25 per 1,000 board feet in excess profit during the last four or five years, Chairman Huston Thompson, of the federal trade commission, told the senate committee probing the lawlessness of forest and lumber trusts.

Whether the Weyerhaeusers, the Kirby's and the other lumber barons secured the collusion of Daugherty and his predecessor, Palmer, in the war they have waged upon organized labor, and upon the I. W. W., especially, as they secured the help of these officials in their general public, was not brought out in testimony.

Hanged Frank Little. It is significant, however, that the conspicuous leaders of this trust, which involves literally hundreds of millions of dollars a year from the pockets of the home-builder, tenants and the consumers who pay all the costs of business, were the dark forces behind the lynching of Frank Little, in Butte, Idaho, justice and killings throughout the northwest and California and Utah, and are the forces that stand behind Palmer and Daugherty in their lies concerning the evidence upon which the I. W. W. political prisoners were sent behind the iron bars.

Conspired to Restrict Production. Thompson explained that the Southern Pine Association of which John Kirby of Texas, has been one of the chiefs, was investigated by the commission in 1929, and in the summer of that year a formal report was made to the department of justice, and the commission urged Palmer to begin criminal prosecution of Kirby and his associates under the Sherman Law. The commission gathered, analyzed and turned over to the department of justice some 22,000 letters and documents, proving a conspiracy in the price of lumber to the retail consumer to restrict production.

Thompson handed to Senator Wheeler and Senator Moses a series of big charts, sent out weekly to all members of the Southern Pine Association, showing three red-dotted lines in a "trade barometer." The three columns represented orders, shipments and production. There was a "key" which explained to the manufacturer that when shipments or orders increased, a lower production and higher prices were indicated. By the use of this price-fixing scheme, which was being agreed upon in meetings of the association, the average price of southern pine was moved up from \$15.29 a thousand in 1915 to \$50 a thousand at the period of the inquiry. The profits of the manufacturers were 225 a thousand higher than they had been the time the price-fixing was begun.

Daugherty Wouldn't Prosecute. Daugherty came into office in Mar. 1921, to find that one Mitchell, a lawyer under Palmer, had filed a bill in equity in court at St. Louis to enjoin this illegal setting of prices. Mitchell had stated several other cases, on new evidence, and won the title of "United States supreme court," but Daugherty failed to take any further action. The price-fixing still goes on. Similar schemes were worked, and are still being worked, by the West Coast Lumbermen's Association, the Western Pine Association, the Hemlock and Hard Wood Association, the Pine Flooring Association, and other

5,000 Tenants Plan To Strike Against Landlords May Day

Ferri Jewish trade unions with a membership of 5,000 were represented at a meeting in the organization for a rent strike against the May 1st increase in rents. The meeting was organized at the meeting, held at 2242 Le Moyne street, and the union representatives were invited to advise their members not to pay the increase in rents and not to move.

"Until we see the legislature curbing the rent-bugs, we will refuse to pay the advance in rents," said one of the speakers.

J. Mitchell, a tenant declared in an address before the Women's Club that coal is no longer, junior workers, and that labor is no higher, and taxes are no higher. There is no reason for the increase in the rents this year.

DO NOT LET THIS HAPPEN TO YOU--

Come to my office and get my personal attention. My work and advice is absolutely the best—My experience is worth a lot of money. I am the same corner. Prices reasonable. 75 to 90 per cent to all readers of the Daily Worker.
