MINERS ASK FOR SPECIAL CONVENTION

Demand Square Deal For Alexander Howat

The immediate calling of a Special International Convention to give Alexander Howat and the other expelled Kansas miners a fair trial which so far has been refused to them by President John L. Following is the resolution with its signatories:

Resolution No. 3.
To the Officers and Delegates assembled at the Thirtieth Consecutive and Fifth Biennial Convention of District No. 12, U. M. W. of A.:
Whereas, Alex. Howat, has been refused the floor at last International Convention and by such refusal the demands of the many local unions that the Kansas issue be brought out on the floor on the International Convention and settled once and for all time have also been refused, and
Whereas, Repeated demands have been made upon the International Executive Board the last two years past, that the Kansas issue be settled and this has not been granted, the rank and file, therefore we believe that the only way this issue can be rightly settled is by the calling of a Special International Convention to give Alex. Howat and all other Kansas Mine Workers who have been expelled from our union a fair and impartial trial and a decision rendered that shall be final and binding by the delegates present; therefore, be it
Resolved, That we, the members of Local Union No. 52, located at Centralia, Illinois, do hereby demand that the District Convention of District No. 12, instruct its officers to immediately demand a Special International Convention for the above specific purpose.

After seeing the smiling faces of more than 50 garment strikers who were in court to answer to charges of contempt, Judge "Dennie" Sullivan set their cases to be heard next Wednesday. He indicated ready willingness to postpone the apparently endless ordeal of trying to stop the strikers from walking the streets when defense counsel requested a delay.

The "Committee of 15" of the Chicago Federation of Labor, is requesting that the court appeal to the unions of the Labor Party for assistance for the strikers.

Millionaire Bootlegger Tells Of Big Bribes

(WASHINGTON, May 16.—George G. Remus, millionaire bootlegger, has declined, now serving in Atlanta penitentiary, told the senate investigating committee today that he paid Jess Smith \$250,000 for liquor permits and "protection" from prosecution.

In addition to the \$250,000 paid to Smith, Remus said he had an agreement whereby each was to get "about \$150 to \$250 a case" on all liquor released. The amount of the "commission," he said, depended upon the number of cases released.

The first payment to Smith, Remus said, was \$50,000 in \$1,000 bills which he handed him in the Commodore Hotel in New York City on August, 1921.

The convention also unanimously passed resolutions that the coal companies be compelled to have shot miners employed in all mines in the state of Illinois.

On the eve of the state Farmer-Labor convention which opens in Peoria tomorrow the district office of the Workers Party issues a statement on the industrial crisis facing the miners and other workers.

The statement which follows, is of especial interest in view of Frank Farrington's attempt to sidetrack the short-hour work legislation of unemployment in favor of an operators' program of cheapening production.

(Special to The Daily Worker.)
The "Committee of 15" of the International Laborers' Garment Workers' Union, in its report and the report of the Appeals Committee on the cases of the expelled members has not yet been given. The Sigman administration is making an attempt to relegate the matter to the back ground.

The committee on officers reported, giving unflattering praise to the officials for their "able and unselfish leadership."

The committee's report emphasizes the deplorable, evil conditions in the cloak industry, fully supports the changes in the new agreement with the manufacturers. "The changes were proposed by the General Executive Board. These changes propose making the jobbers assume the responsibility of the production of merchandise thru the system of contractors in the same way as if the jobbers were the manufacturers."

Workers Party Statement

"Support the mine owners to reduce the price of coal and create a 'cheap market'."
This is the message of Frank Farrington to the Illinois miners, many of whom have looked unemployment and starvation in the face for a number of months. Of course, the mine owners would never think of foregoing part of their profit to reduce prices and therefore they send their lackeys to the workers, asking them to reduce wages.

Other spokesmen of the class collaboration millenium are out attempting to trick the workers into illusions of cooperation with the bosses as a solution to all the present ills of the masses. Johnston, the international president of the Machinists Association, has advised his school leaders in the building trades have time and again urged workers to cooperate with the bosses. The bosses never cooperate except on the basis of workers' whole sacrifice, and the schemes advanced by those worthy leaders are nothing more than attempts to serve the interests of the laborer's health and reduce wages.

SEND FIRE-TRAP SCHOOLS AFTER FIRE HAZARDS

School Board Removes Little Risks Only

Fire hazards but not fire-traps are to be removed from Chicago city schools, according to the latest report from Business Manager Byrne of the school board. The hazards were not even noticed until after the Dunning-Isaacs hospital disaster, when Assistant Fire Marshal McDonald of the city fire prevention bureau made a casual inspection of schools. The DAILY WORKER pointed out months ago the fire hazards and fire traps among city schools.

Begin On 37 Schools

Thirty-seven schools will be visited at once and a fund of \$7,000 is available for the removing of refuse under wooden stairways, tearing out woodwork on partitions, putting in assembly hall "exit" signs, buildings, fire escapes, etc.

In domestic science rooms the tables under the gas pipes have not been covered with metal. Refuses have not been allowed to accumulate under stairways and in basement storerooms. Lumber has been stored under school buildings. Inflammable seeps have been stored in attic school room seats are not always fastened to the floor and shades or covering hangings have been placed over "exit" signs.

Not Even Enough Alarm Bells. In some cases obstruction such as statutory bars are not always fastened to the floor and shades or covering hangings have been placed over "exit" signs. Even after the cleanups and repair campaign, the firetrap buildings will remain just as menacing as ever. Removing fire hazards is one thing, removing fire traps is another. Fire prevention authorities. The real need is for new sanitary, fireproof buildings.
