# MONTANA LOYAL TO THE 17

## North Dakota Also Throws LaFollette Overboard

Latest news comes from North Dakota, in a telegram from R. R. "Dad" Walker, chairman of the North Dakota Farmer-Labor party, and Joseph Mandy, secretary of the Federated Farmer-Labor party, that this state has been added to the list of commonwealths that have thrown LaFollette overboard in the unanimous drive for the June 17 convention at St. Paul. The telegram declares that the June 17 convention, at St. Paul, and the organization of a national Farmer-Labor party, regardless of LaFollette's attitude.

North Dakota was the original Nonpartisan league state. It has two Nonpartisan league senators in Washington, Lynn J. Frazier and E. F. Ladd. Both Frazier and Ladd have steadily drifted away from the workers and farmers of North Dakota, and into the hesitating and compromising camp of LaFollette. Ladd is the more reactionary of the two, even flitting, on many occasions, with the Coolidge administration at Washington.

The telegram from "Dad" Walker, spokesman of the militants of North Dakota, would indicate that the workers and farmers of that state are planning for a new deal.

## Another Key State Joins Growing Demand for the Class Farm-Labor Meet

Montana stands with the strength of granite for the June 17 Farmer-Labor convention at St. Paul. It has joined with Minnesota, Massachusetts, California, Washington, Michigan, Illinois, New York and other states, in refusing to budge by the breadth of a hair in the face of the attack of Senator LaFollette and his allies, seeking to disrupt the class farmer-labor forces of the nation.

The stand of Montana, an important state in the development of the national farmer-labor movement, was shown in a telegram received by Joseph Mandy, secretary of the Federated Farmer-Labor Party, from Charles E. Taylor, member of the executive committee of the Montana Farmer-Labor Party.

Taylor is a member of the Montana state senate. He was a dirt farmer up to the time of assuming the editorship of the "Producers' News" of Plenty-wood, Mont., one of the big papers of the state. He wired Mandy as follows:

"Montana stands for June 17 and our delegation will be at St. Paul ready to do business regardless of LaFollette. Since LaFollette will not accept our nomination, we must nominate another man and proceed with the formation of the mass class Farmer-Labor party."

On Saturday's Speaking Tour, Taylor is now on a speaking tour of his home state, his wife having been in Portland, Me., the first one to be under the direction of the Montana Farmer-Labor party, and is most successful.

Taylor attended two of the Farmer-Labor conferences at St. Paul, the first one that decided the date for the national Farmer-Labor convention and set the date for May 20, and the second conference that decided to postpone the date to June 17.

Taylor was born and raised in Minnesota, his father having been a Minnesota farmer. Taylor's election to the executive committee in that state comes from Montana, the state that elected Senator Burton K. Wheeler, the investor of the state as a Democrat.

**Slap at LaFollette's Associate.**

Wheeler is associated with the LaFollette group in Washington. The action of Montana's workers and farmers in throwing their support to the June 17 St. Paul convention is an indication that they are ready to break with all old parties, no matter how "progressive" they may claim to be.

## SCAB BOSSES GRAB RADIO INTO TRUST

Western Electric Owners Control Licenses

The American Telephone and Telegraph Co., which owns 88 per cent of the common stock of the Western Electric Co., has just announced that 40 more radio broadcasting stations have accepted their licenses. This tremendous telephone and telegraph trust, part of the electrical trust of the world, is now attempting to control as much of the radio activities of the globe as possible.

**Lawsuits or Licenses.**

The American Telephone & Telegraph Co. had threatened lawsuits to all radio broadcasting stations which were infringing on their patents and the financial power behind their throat has forced the radio stations to accept the A. T. & T. licenses at the corporations own toll.

Thus its interlocking directorate connection with the General Electric Company, which owns the Radio Corporation of America, the American Telephone & Telegraph Co., has even greater chance to crush up the radio business of the world in its own financial family. The Radio Corporation of America attempts to control all radio operators on land and sea. Most times secure operators thru this corporation.

A Western Electric manufacturer most of the radio equipment of the world (as well as practically all the telephone apparatus, Western Electric a financial father, American Telephone & Telegraph Co. controls by stock and through the majority of the telephone of the world and is now seeking to make its control of radio stations equally extensive.

Telephone, Radio, Telegraph, Trust Being second cousin in the financial family to Western Union, thru (continued on page 2).

## FOOD WORKERS WALL UP GREEK BOSSES IN COURT

Organizer Tells of Aid from New York.

The pickets of the Amalgamated Food Workers Union won a victory over the Greek restaurant boss when their cases were dismissed yesterday morning by Judge Joseph Schulman in municipal court.

The food workers striking against the 48 hour day and the seven day week were arrested on May 21 in front of the Elite and Carvel's restaurants on Wilson avenue. They were charged with "obstructing the traffic" when they peacefully attempted to picket the Greek restaurants.

**Patrons Listen to Pickets.**

The bosses were not a bit pleased, however, to see their former patrons turning away when they learned what rotten conditions exist in the kitchens of the Greek restaurants and what kind of work is being done there. They were compelled to do so for long hours.

The pickets whose cases were dismissed are Harry Kontas, James Monis, Prieta Gorbajias, Prieta Karas, George Chinos.

In spite of the injunctions secured by 170 Greek restaurant keepers against the Amalgamated Food Workers the union is continuing its fight for decent conditions and living wages. The union is holding meetings in the main parts of the city to interest the food workers, particularly in the Greek restaurants, in organization.

The fight against the bosses may be made most effective.

**Gurley Flynn Speaks Thursday.**

Elizabeth Gurley Flynn, well known labor leader, will speak at a mass meeting of food workers in the main hall at 214 State st. on Thursday evening, 8 p. m.

District organizer, Charles Keller, of the Amalgamated Food Workers, has returned from New York where he reported the Chicago situation to the central executive board of the union. Tonight he will tell a general membership meeting of the union what open aid response he had in New York for the organization.

**Financial Aid from N. Y.**

Kellar has returned with \$200 advanced him by the Hotel and Restaurant Workers branch of the union in New York and \$200 from the treasury of the Central Executive Board. A committee of three was elected to canvass all hotels and branches in New York and vicinity to lay the matter before the members and urge them to make donations for the support of the Chicago fellow workers. The \$200 will be returned to the Central Executive Board from the donations.

**Greek Workers Want to Fight.**

Kellar gave a lengthy history of the local situation to the Central Board in New York, going over the whole movement for the 8 hour day and six day week in the Greek restaurants. He said the enthusiasm and solidarity of the Greek food workers was splendid.

He reported that the Greek bosses are having to grant decent wages and conditions. Keller said the workers were still most miserable, the workers slaving for 14 to 16 hours a day and for seven days a week.

"A clean walk away for the union except for seven days a week," he said. "The Greek bosses' injunctions," Keller reported to New York. He said: "There is an excellent chance to win although practically no support is coming to the branch from other labor organizations in the city."

"The Young Workers League, the Greek Federation, and the Workers Party are about the only but splendid exceptions supporting the movement with all their power," Keller stated.

## MUCH SMOKE AND SOME FIRE FROM BALKAN NATIONS

Athens Rumor Factory on Full Time.

ATHENS, June 3.—Unconfirmed dispatches from Albania declare that Tirana, its capital, is about to fall into the hands of revolutionaries.

Athens, rumor factory of the Balkans, has received varied reports of progress of an uprising in Albania during the past 48 hours. The reports seem to emanate from varied sources. Apparently some of the reports have been attributed to former agents of Tirana and Bucharest.

Examples of the reports in the following: "Right handed" fugitives, arrested at Barje. The reason for this being fugitives and when they were not, they were not.

There were persistent reports of fighting outside of Tirana, and it was said 22 government supporters and 18 insurgents were killed.

Another example of the rumors that reach Athens and are attributed from here is one received here this morning from Bucharest, today's announcement which says that general Averoff, Romanian military leader, has arrested King Ferdinand to insure the cabinet's stability. He will be brought to Bucharest to-day.

## KLAN KLATTERS INTO INDIANA'S DEMOCRAT MEET

Nightshirt Issue Hides Nomination Race.

INDIANAPOLIS, Ind., June 3.—Democratic leaders gathering here to day for the state convention Thursday were avoiding about for a compromise plank on the issue of the Ku Klux Klan.

The Klan question overshadowed all other problems of party policy and lessened interest in the race of state candidates for the nomination for governor.

From the anti-Klan wing of the party came an insistent demand for the inclusion of a plank in the platform denouncing the Klan in vigorous terms.

In the Democratic state convention however, will be a blow of from 200 to 300 Klan delegates and party leaders are unwilling to take any step that will arouse the hostility of the voting power they represent.

The best way out of the dilemma, leaders agree, will be a plank advocating religious liberty without specifically naming the Klan.

**Shriners Like Their Boze.**

KANSAS CITY, Mo., June 3.—At planks hovered over the outskirts of Kansas City today on the lookout for "boozing" planks reported bringing stores of "wet" goods to the Shrine convention. An upsurge of 150 prohibition agents began the dry crusade which would be against the national unit of the Klan.

## MASSACHUSETTS TO SEND FIVE DELEGATES TO ST. PAUL MEET

(Special to The Daily Worker)

BOSTON, Mass., June 3.—Thomas F. Conroy, leader of the striking abominable of Worcester and secretary of Machinists' local union 69, and four others were elected delegates to the St. Paul convention by the newly formed state Farmer-Labor Party. Fifty-eight delegates attended the state convention, representing 13 unions and various other workers' and farmers' organizations.

The convention adopted a militant program on resolutions to the fighting spirit shown through the meeting by the delegates. The two old parties were severely condemned for their oppression of the workers and for their use of the government as a strike-breaking agency.

The use of the courts for legislative and government troops against striking railroads and mine workers was sharply condemned. Public ownership and public control of natural resources were demanded.

The repeal of the criminal anarchy law, the abolition of the state constabulary, the cessation of military training camps, and of military training in schools were all demanded with all their program.

## FIGHT PROMOTER IS INDICTED AS AFTERMATH TO DAUGHTERY EXPOSE

NEWARK, N. J., June 3.—"Tex" Rickard, one of those named in the investigation of Harry M. Daugherty's misconduct of the Department of Justice as being an accomplice of the ex-attorney general in transporting the Dempsey-Carpenter fight, finds in violation of the interstate commerce laws, was released on bail of \$2,500 after pleading not guilty to an indictment charging conspiracy to ship the films out of New York.

When States Line Up for Amendment, Children May Get Aid

WASHINGTON, June 3.—When nine-fourths of the states have ratified the constitutional amendment, it is expected to get legal protection in the child labor in the United States. There will be a chance for the child labor to get legal protection in the face of the supreme court, which has declared unconstitutional all previous child labor legislation.

## EMPLOYER WINS DAMAGE SUIT AGAINST UNION

Decision Establishes Bad Precedent.

SEATTLE, June 3.—Verdict for \$500 damages rendered by a jury in a civil suit against the Typographical Union 202 (Seattle) exposes American unions to overwhelming judicial attacks by the employers, unless the precedent is overturned.

Altha Pacific Typewriting Company, which sued for \$200,000, was awarded only \$500, the verdict remains as establishing the principle that an employer can sue and win damages from a union, that such a strike, if it results in financial loss to him.

The printer's strike for the 41-hour week called May 2, 1924, had over the plaintiff \$100,000. The direct cause of the walkout in his union shop was the refusal of work from non-union shops that had been previously struck by the union.

"Establishing the principle that employers are responsible financially as the result of work from non-union shops, above even stated at organized labor anywhere in America," declared Attorney Homer T. Bone, counsel for the union. "If this verdict stands not only will the typographical union be the loser but every union in the state will be endangered."

Union treasurers can be employed in such suits on the part of employers, union officials point out and the way to avoid it is to insist on the 41-hour week, 15 cents an hour raise in wages, and the closed shop. The shop crafts adopted the report, and will begin negotiations with the company.

## "IL LAVORATORE" BRINGS NEWS TO ITALIAN WORKERS

New Communist Daily Born a Husky Baby.

"Lavoratore," the daily paper of the Italian Communist workers of America, has been born a husky infant and is growing sturdier day by day.

The drawing of the mill and the work in the heading will catch the eye of many Italian workers, especially those who will think the six stacks mean the steel mill in which they have so many hours each day. Then they will see the caption over the paper's name: "Operaio del Tevere, Mondo, Italia; Workers of the World, Unite!"

**Plenty of News.**

The first issue of the new paper has many greetings of congratulation from all parts of the world. Zimo Spalato, editor of the "United States Bulletin" from Moscow to "Lavoratore."

"There is an abundance of telegraphic news to keep the Italian workers in touch with their fellow workers in the 'old country' and all around the earth. There is even a sport section with a report of the latest fight between Gibbons and Carpenter."

"Manifestations of workers' solidarity," Special articles also are offered to the Italian workers in the new paper's pages.

**Here's to You!**

Antonio Press is editor of "Lavoratore" and Alvaro Balthis is business manager.

High to the new born "Lavoratore." May it carry the message of Communism far and wide among the Italian workers not only of America, but of the land of fascism itself.

### GOOD RIDDANCE, SAYS MINNESOTA FARMER-LABOR COUNTY CHAIRMAN OF THE LAFOLLETTE DESERTION

#### (Special to the Daily Worker)

ROCHESTER, Minn., June 3.—James I. Brewer, chairman of the Farmer-Labor Party of Monroe county, Minnesota, in a public statement lands telling blows on the disruptors who would sabotage the St. Paul convention. Brewer says:

"My idea is that the cause of the workers will be given a tremendous impetus by the spectacular repudiation of the St. Paul Farmer-Labor convention June 17, by Senator Robert M. LaFollette as tainted with communism, if it shall serve to make a clean cut differentiation of the sheep from the goats of fundamental reform."

In a state of our civilization calling for the most heroic treatment of LaFollette reflects any communion with the robust elements of labor leadership that alone have shown they rest comprehension of the real welfare and needs of the worker."

With Glicker's Gang

He forgets with Boss Compton, a sort of Dick Cocker of the political labor machine, in blind persistence in party political tinkering that has no efficacy for relief of a very sick society. The present situation is not so gradually but violently organized, as Mr. Puseell offers, this would be the first of a series of acts with Mr. Gary surely has the pattern for the experience of his friend, Munson.

With Pompidou, Bob in a theatrical pose as a grandiose apostle of the Fourth, at Cleveland, he is in mere belabored of voters. We may still make history by a real fight of course, but this fall will be a pretty foregone contest as far as politics. Mellon calls for the Grand Old Party. The New Unionists and many blind their offering, butting Bob, his own platform, and Brown, the old Senator, Bishop of the Churches."

With four solid years of far ranging the fingers of the people may be completely able."

### LAFOLETTE NOT NEEDED, DUNCAN McDONALD SAYS

#### St. Paul Doesn't Depend On Individuals' Views

(Special to the Daily Worker)

SPRINGFIELD, Ill., June 3.—The St. Paul convention depends upon the whim of one individual, then it had better never have been called," declared Duncan McDonald, secretary of the Illinois Labor Party and its candidate for governor, in a statement calling for support of the June 17 gathering and denouncing the disruptions. McDonald said:

"There has been an effort on the part of the old-line politicians and their allies in the newspaper field to prevent this gathering of farmers and wage workers and apparently LaFollette is to be the pinch hitter in the contest. His repudiation of the present corrupt situation in his own party was in a measure responsible for the calling of this meeting and now apparently he does not want it held."

"If the convention depends on the whim of one individual as a possible candidate for the presidency, then it had better never been called, if it is going to be governed by individuals, then it is a mistake. The inconsistency of LaFollette's position lies in the fact that he himself has been the victim of the same hysteria that he now seeks to prevent the getting-together meeting in St. Paul. It is not so long since he was charged with leading a "red" expedition to fight, tried for his seat in the Senate, visited Russia, and performed all the other feats for which others are now denounced."

Said G. O. P. Put Stays In It.

"The strange thing about LaFollette's repudiation is that he has his colleagues in the Republican Party and yet he is to desert them. He tells us of the need of a new party and yet remains in the organization for which others are now denounced."

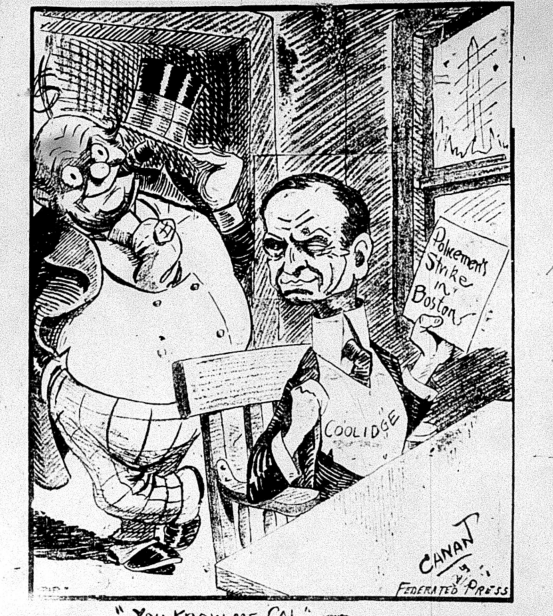

"Apparently he wants to see that the party does not go to the old party conventions when it is well known that both will be disrupted by special procedure. There has been for many years. Then of course, it will be time to denounce them again."

Well, We Know Now

It is well known that LaFollette's repudiation of the St. Paul meeting is held. His position will possibly leave a good impression on the way away, but the convention will be held and a definite program laid down embodying the interests of the producers on the farm and in the factory. There can be nothing in common between the old parties and those who will dominate the old parties and who finance their campaigns."

### COUNTY OFFICERS ILLEGALLY SPEND WORKERS' MONEY

#### Cleveland Workers Want Men Ousted

(Special to the Daily Worker)

CLEVELAND, O., June 3.—Workers and other citizens of this city are demanding the resignation of the Cleveland County Commissioners and of the President Board for participation in the amazing extra local case in which county officials secured a private account of \$250,000 from the State Insurance Office.

The Municipal Public Works and Loan Company to which the county officials have their accounts opened, and which is now in the hands of a receiver and now including A. H. Detrick, chairman of the county commissioners and Edward Thoburn, assistant county president, have been accused of this supposed "reciprocal" loan.

The names of Cleveland's workers was paid in an empty letter to be used for public purposes and an infraction of the law this money was given to a private loan company on account of supposedly reciprocal loans which in reality stand only partially repaid, some of them more than ten months out.

Little Change to Get Insurance

Less than half the county money given the loan company was insured by authorized companies. The remainder is "insured" by firms not permitted to do business under Ohio laws and the same firms for the amount were not registered with the state superintendent of insurance. Loans of London to use of outside firms included.

The penalties for the offenses which these county officials have committed are fines of not more than \$1000 for the use of the county or imprisonment for not less than one year nor more than two, or both fine and imprisonment.

### YOUNG WORKER TREATS MILITARISM PROBLEMS

#### SPECIAL ISSUE OF THE YOUNG WORKER TREATS MILITARISM PROBLEMS

The Young Worker, official organ of the Young Workers' League of America, has just come out with a special issue devoted to the militarism problem. The leading story by Charles Winter describes the nature of the naval and army appropriation bills in congress and points out the strings of American capitalists toward preparations for a new war in the near future. Jay Lovestone describes the growth of America's armed forces. Julia Schuler tells the real story of how the next war will be fought. The Young Worker plans to devote three more issues to the Communist position on war by Harry James and Martin Abern, Wm. F. Dunne on War and the Trade Unions, and Sidney Burgess on the subject of how the next war will be fought. Cartoons by Art Young and Maurice Becker bring a sparkle and satire to the issue.

(Special to the Daily Worker)

SPRINGFIELD, Mass., June 3.—The famous Methodist ban on amusements was suspended by a 2 to 1 vote in the convention here. The church's members at last have decided to trust their faith to individual conscience in the matter of choosing their pleasures.

The spiritual principle by which the "methodists" are supposed to act to avoid "the taking of such pleasures as cannot be used in the name of the Lord Jesus."

However, special advice will be appended to assist the individual consciences in their free choice. God Christians will be urged to avoid "sinful amusements and excessive indulgence in innocent amusements."

The "methodists" shook their heads over the spread of interest in "charitable" movies and dances and lifted up their voices of warning, concluding with an admonition that all "our people" make their amusements a brook of frequent return.

SOISSORILL BEATS N. Y. FLAG-DRAWER; BUT HE GOES FREE

NEW YORK, June 3.—Disrespect for the American flag on Decoration Day brought Carl S. Chase a blood eye, a bloody nose, a bruised jaw, and a sentence. Disrespect for the rights of Chase as an ordinary human being brought Charles W. Waller, a marine, who administered the beating, only an approving nod from the court.

An American flag flying from one of the windows of the Palmer apartment house, which he owns, and who was acting as janitor in the apartment house. Since Chase is a member of a Boston firm and a wealthy real estate dealer, it was hard for any one to believe that the red, white and blue dollar projector didn't rouse his heartfelt admiration. So he told it to the marine, Waller. Waller took Chase up with proverbial artlessness, and beat Chase up. Chase was found guilty in night court and his fingerprints were taken.

WEEKS RENEWS ATTEMPT TO GET PAXTON HIBBE

Pro-Soviet Major Calls for Hidden Evidence

(By The Federated Press.) NEW YORK, June 3.—After partially dropping its attempt to serve Captain Paxton Hibben as a military intelligence division officer, the War Department has ordered a new board of officers be constituted to try Hibben as a spy. A spy who is certain important papers relating to questionable activities in the military intelligence division of the War Department cannot be excluded by Hibben. The department rates that reputation of such reports by Hibben's counsel or the board would grow "prejudicial to the interest and safety of the public interest."

### Not a Workers' Platform

LaFollette's idea of a platform for the presidential elections is a pitiful exhibition of helplessness before the problems of modern society. Tinkering with the tariff, building waterways, amendments to the constitution, etc., jostle proposals for tax reductions and "house cleaning" in the departments. All of it is proposed from the point of view of the small manufacturers, merchants, lawyers, rich farmers, and the middle class generally. Not one item betrays the slightest desire for a fundamental change in the interests of the workers and bankrupt farmers.

But for the stupidity of the old Republican machine, there is little reason why the LaFollette program should not be adopted by the big business interests in control of the G. O. P. True, it is not their program, but there is nothing in it that really threatens them. There is no relief proposed to the mortgage-ridden farmers, the small contractors made to the demands of labor could easily be blocked by the machinery of the wonderful constitution of the United States. The Coolidge backers would only have to give a little harder squall to the LaFollette program.

Dividing it fundamentally from any working class character at all, however, is the naive idea that this milk-and-water program is sufficient unto itself, that it is not necessary for the workers and farmers to organize their own forces to put anything across, that all they must do is to get politicians in the old parties, "good men," to stand for these things. The exploited toilers of America are beginning to realize that even a partial program of action—while LaFollette's is small—would mean nothing unless backed up by a separate and distinct party, organized on a working class basis, and fighting all down the line against all parties of capitalism.

### Coolidge Agrees

Probably the best proof that the newly enacted tax law is not conducive to the welfare of the great masses of the industrial and agricultural areas is to be found in the fact that Coolidge signed it.

The new law is a hybrid product of the manipulations of the Democrats and the apologies of the weak-kneed progressives. It aims to satisfy every class in society except the working and poorer farmers and the middle stratum, the small contractors, the middle class generally. Its only claim to difference from the original Mellon scheme is that it reduces the surtaxes of the multi-millionaires from 50 to 40 per cent instead of 25 per cent as Coolidge desired, and that it caters to the interests of the middle stratum, the small capitalist class a little more than the administration Republicans planned. The shadow of the progressivism seen only in the scratch on the tax paying skin of the lower middle class.

The new tax bill fails in every respect. The progressives parading as the defenders of the interests of the masses against the exploiters deserve the roughest denunciation for the shameful way in which they surrendered to the biggest and blackest of our financial and industrial overlords. In essence the new tax bill is a victory for the upper crust of our capitalist class. The administration has gotten the multimillionaires much more than they expected at the time the Mellon campaign was launched. None of the unemployed class leaders believed that they could realize the entire Mellon program in this session.

Months ago when the kept press was predicting that Coolidge would veto the Democratic insurgent measure we predicted that he would do nothing of the kind. We saw thru all the fraudulent propaganda of the reaction fighting to get as much as it could for its own class. "Silent Cal's" denunciation of the very bill which he signed is merely a scamming to the working masses that the employing class has not given up the fight to win an even better taxation scheme for itself and is a promise to the exploiters that their interests will be vigorously defended by the Coolidge regime.

### They Abandon the Fight

In the judicial elections just held in Illinois, the workers had no opportunity to vote against the capitalist candidates in any fashion. The old Farmer-Labor party, Futurokist, Red, and Brown, has quit. The action some months ago by the leaders of this group, endorsing capitalist candidates on the plea of fighting against the injunction, foreshadowed their present complete capitulation. The Socialist party still in the ballot box at all but has forsaken the battle and had no candidates. All the old leadership against the capitalist parties has deserted to the enemy.

None too early, therefore, has the Illinois Labor party entered into the gubernatorial campaign. Its only admission that it is all right is that the ticket in the fall elections, it gives the workers of Illinois their only guarantee that when they go to vote next time they will not be presented with the alternative of choosing between two sets of capitalists.

# When Progressives "Fight"

On the eve of the adjournment of the first session of congress a feature to review the outstanding events of its life. This is a rather difficult task under the circumstances. Practically nothing has been done by the much-heralded congress that was to be dominated by insurgents. Consequently, of the events of an uneventful session the most impressive one is the utter failure of the so-called progressives to make even the slightest dent in the armor of the reactionary old guard.

The fight over the liberalization of the rules in the House of Representatives turned out to be a disaster for the insurgents under the LaFollette banner. The slick Nicholas Longworth, spokesman for the biggest capitalist owners, handed the Wisconsin delegation a lemon in lieu of a victory, in the Teapot Dome affair. LaFollette emitted a few faint remarks. His colleagues in the house were dumb on this occasion that was so fruitful of real danger to the reaction. On the matter of taxation, Mr. Freer, who is the acknowledged fiscal expert of the LaFollette camp, was put in the hands of the shrewd democratic floor manipulator. The showing made by the LaFollette followers in the house tax debates was visibly disgraceful, if the interests of the workers and poor farmers are to be accepted as the criterion of worthwhile legislation.

Now it is a recognized fact that the Howells-Bainbridge railroads, which did not even pretend to weaken the iron grip of the financial interests on the railways of the country, is one of the pet measures of the so-called progressive bloc. Yet, even this empty, hollow piece of legislation has not been touched. The railroads, which have many important promises to the railway workers is betrayed at the last moment by its very sponsor. Hiding behind a verbose diatribe against the administration, Mr. Barkley has just withdrawn his support from the bill, and the fight is being fought on the battle over its insignificant spot to the workers is that there is no chance of passing it in view of the imminent adjournment of congress.

But the mere spirit of doing nothing and flight from the front was also shown by the LaFollette house floor leader, Mr. Nelson of Wisconsin, on the question of adjournment. This supposed champion of progressivism did not gather sufficient courage to oppose the extension of the session, but contented to adjourn congress without having acted on the most pressing needs of the rural and city working masses.

Yet, Mr. LaFollette, his ilk dare to ask the oppressed and exploited to follow them.

### Cleansing Bulgaria

Much lice is evidenced in the dispatches circulated by the capitalist class over the reported losses of the Communists in the recent elections held in Bulgaria. For the moment let us not debate the veracity of these reports. We have seen the Communists defeated too often in the columns of our employing class papers. Assuming that the statements relative to the Communist defeat are true, we propose a series of questions meriting the most serious and urgent consideration by the farming and laboring masses of the country over.

What is the meaning of this much vaunted freedom of bourgeois democracy in these Bulgarian elections? Were the workers and peasants of this Balkan vassal state of allied imperialism permitted to vote even with the limited choice permitted to participants in the elections? Were the Communists allowed to have their own press? Were their leaders released from jail? Was the military ban against the Communists lifted at the time of the elections?

The answer to all these questions is a decisive "No." The election laws in Bulgaria were more of a farce than capitalist elections customarily are. No pretense was made to have the balloting take the even faintest resemblance of a free parliamentary campaign, to the very limited extent that such is ever possible while the capitalists own the press, the schools, the government, the industries and the armed forces. The bayonet in the hands of the hanged of the Bulgarian masses was the victor in the last elections.

The Communists and the workers and peasants were robbed of the right to express their most limited voices. The Communists of Bulgaria were not defeated in an open election. The exploiters and oppressors of the Bulgarian masses, with the help of the foreign capitalists, simply made it impossible for the Communists to participate effectively in the campaign.

# "A" Classes Are Satisfied!

By J. T. MURPHY.  
(Member, British Communist Party.)  
Written especially for the Daily Worker.

It is still essential to make clear that the Labor party has become the custodian of Liberalism than the general chorus of approval from "all classes." The budget of the present government adds to the proof already given. Mr. Snowden simply repeated what Labor cheerleaders, the Liberals, and the Tories have already proclaimed. We had better examine the situation.

**What Have the Workers Got Out of It?**  
The following reductions in taxation on foodstuffs will for a short time add to the spending power of the workers:  
Sweetened mineral water tax 1d per pound  
Reduction in sugar. 1/4d per pound  
Reduction in tea. 4 d per pound  
Reduction in cocoa. 1/4d per pound

In addition extra dried fruit tax has been abolished.  
Sweetened mineral water tax is abolished.  
Entertainment tax on admission prices up to 2d is abolished as required.

By the reductions every worker will appreciate. But the trouble arises when another part of the policy of the government is seen in its actual operation. A reduction of 5 points in the index figure of the cost of living means a reduction of about one penny a month end. So the railway workers, transport workers, building workers, small operators, etc., who actually locally come due for reductions in wages with the right hand will be taken away with the left, and in the end they will be no better off. Mr. Snowden has boasted so much as a trade revival will be very much curtailed, and highly creditable on the lines of the old Liberal scheme—cheap labor as a stimulant to trade.

Then the government will get the activity of the price manufacturers, who have a keen eye for the best of both situations. What the public has shown that it can pay the price of its necessities, and the work to bring about an artificial shortage of the goods on which taxes have been placed, will enable it to take the tax reduction for themselves as the most deserving of the class.

The people who will actually gain are the middle class generally, who do not fluctuate so violently as the workers' wages, and so the shillings and pence they get for their money are conserved. Then the big bonhomies will be cheaper for the very reason that their cost of living is being so being so in the hands of the industrialists who are particularly anxious for low wages. Cheaper labor will help them to compete more effectively on the world market. But they have received other gifts from the budget.

**Gifts to Great Britain's Workers.**  
The corporation profits tax, against which the Federation of British Industries fought so long, has been abolished.  
The inhibited house duty, which has been mainly an obstacle to the poor, has been abolished.  
Motor license charges have been reduced. Motor license charges have been reduced. Motor license charges have been reduced.

Then comes a reduction in telephone charges.  
There are all gifts to the middle classes and the capitalists. And it will be observed that these are additional gifts for the other reductions apply to them also with an added advantage over the workers. Where there is a reduction in the tax on operation of the capitalist and constitutional labor party, the gains which the workers secure from the budget, the workers cannot participate in the concessions granted to the capitalists. Nor can they retain their own freedom of action, but they must not break their agreements to support every inch of the way. No wonder there is a chorus of approval from all sides.

**The National Debt.**  
When Mr. Snowden began to speak of the burden of debt he followed entirely in the footsteps of Mr. Balfour. He said the same thing in the same attitude, refrained from telling the truth about the situation by giving a partial information. The National debt is the highest point in December, 1919, was about £2,600,000,000, having increased £2,600,000,000, involving a total charge of £2,600,000,000 for the nominal addition by lowering the rate of interest on the external and internal. Since 1919 has been over £2,600,000,000 practically 100% interest on the national debt. The committee will agree that this is a colossal and highly creditable national achievement.

Part altogether from the borrowing in the continuation of the interest of blood money and 2 per cent patriotism. This statement as it stands gives the impression that the government is getting on its feet, and British capitalism especially forgoing abroad. It is the business class who are taking the burden of the national debt, and it is they who do not Mr. Snowden tell the workers, especially that it is the business class who are taking the burden of the national debt, and it is they who do not Mr. Snowden tell the workers, especially that it is the business class who are taking the burden of the national debt.

Mrs. Rockefeller McCormick, we heard recently, had a pink slip from a man she has not seen in the 2,500 years. Before she received the message, the gentleman was kind enough to advise her telegraphically that she would have to run him down. Mrs. Rockefeller McCormick was a few days ago in the city. She was a few days ago in the city. She was a few days ago in the city.

**What Money is For.**  
In order to prove this contention it is only necessary to examine the expenditure side of the budget.

**Roaring the Communists** By JAY LOVESTONE  
Two years ago it was the national opinion, might still have some faith in them. The Communists, who have been the steepest in the whole laborer movement the country over, who fought for the organization of the great mass of farmers and workers who are bent on organizing a class farmer-labor party in order to give real battle to the exploiters. The step that LaFollette has taken is to give real battle to the exploiters, to give real battle to the exploiters, to give real battle to the exploiters.
