LOOKING THROUGH THE MIRRORS Workers Say the Real Story Is Not Yet Told

WESTERN ELECTRIC ATTEMPTS TO STOP DAILY WORKER EXPOSE THRU ARREST OF INVESTIGATOR

Assumed at the starting exposures in the DAILY WORKER of a non-union, low-wage, speed-up system used by the Western Electric management, the Cicero police were called to the aid of the company and arrested Karl Reeve, reporter for the DAILY WORKER, while he was distributing leaflets at the 23rd Street gate of the plant.

Reeve, who worked inside the Western Electric plant gathering the information which proved the Western Electric to be among the worst slave-driving low-wage concerns in the country, was arrested by A. Borg, plainclothes dick, apparently on the charge of distributing leaflets without a permit.

But after being driven to the Cicero police station in the patrol, locked for an hour in a cell with a man charged with being a bad check passer, and held without the privilege of telephoning for bail, Reeve was finally booked under the charge of disorderly conduct. The police evidently found that the Cicero law allows the distribution of leaflets without requiring a permit.

25,000 GIRLS DRIVEN IN HUGE NON-UNION SHOP

Investigator Tells What He Found in Plant

Over 25 thousand girls and women work in the Western Electric Company plant at Hawthorne. Their average wages range from 15 to 18 dollars a week. The girls make this money by the most intense kind of speeding under the piece work system.

On the morning of July 8, several hours before I was given a job in the process inspection department, I walked past the guards and thru many of the departments in the plant. I stopped in many of the departments and talked with the girls. The Western Electric is managed under a highly specialized system for producing standard parts. Whereas Ford has only a few thousand parts to his "silvers", there are over 100,000 standard parts in the apparatus and switchboards manufactured in the Hawthorne plant.

The big Hawthorne plant covers 207 acres, with 30 entrances, scores of departments and many buildings. There are also scores of houses—some of them (Continued on page 5)

SIDE-SHOWS LOSE TO DAILY WORKER AT ELECTRIC SHOP

Western Electric Co. Workers Eat It Up

The regular "side shows" that go on across from the Western Electric Hawthorne plant, lost their sight for the workers' attention yesterday, as soon and at night the DAILY WORKER "newstape" captured the crowds of workers.

Everyone was buying the DAILY WORKER to see what the first big "side show" of the Western Electric was. Grendly they grabbed it up and then turned to laugh at the campaign of the Four F's for vice-president.

DAILY WORKER Sells Dope. The store Indian kept on trying to hand out his yellow ad for "Wino-No. 10, the greatest 'wall'" for sale at Dubb's Drug Store. But the Western Electric workers were reaching for pennies to get their copies of the DAILY WORKER.

The cowboy squatting in a side street trying to promote some other fake device, lost his following when the DAILY WORKER came on the scene.

The radio magazine went begging after the DAILY WORKER arrived. The DAILY WORKER "newstape" outshined the salesman. Who wanted to look at shoe samples or cloth samples and be fooled into paying down the first installment on "if you don't get to hell out of here" the DAILY WORKER was there, and the workers wanted to "read all about the Western Electric for three cents."

A soap-box calling against the two side-shows parties had quite a crowd—until he sprang his book on economics and then all the Western Electric workers around him got practical and bought the DAILY WORKER to break up with one of the taker's book for \$2.

Even the hot-dog man bought the DAILY WORKER.

And this is only the beginning. The Western Electric workers, judging by their eagerness to get the paper, are going to follow up each day the spivak articles which our special investigator is writing on Western Electric.

STAHL ASSAILS JENSEN FOR NOT ORGANIZING CITY

Chicago carpenters tomorrow are holding the most important annual union election they have held in years.

Twenty-five thousand members of the brotherhood will convene at their local halls and choose a president of the Chicago district union for the coming year.

Frank Stahl of Local No. 13, a carpenter working at the trade, is challenging the regime of Harry Jensen, the present incumbent, who has failed to organize the thousands of carpenters working under the so-called "landis award."

Building Trades Divided. Stahl places the responsibility for the chaos in the Chicago Building Trades Council on Harry Jensen. This divided condition has weakened the efforts of building tradesmen, whom the organized employers are fighting.

The carpenters' union is facing a crisis in Chicago. The building boom is coming to an end. Unemployment is looming ahead. If the carpenters don't organize the remaining non-union men they will find their difficulties enormously increased.

Urges Housecleaning Saturday. Jensen, the reactionary, is not pushing the fight against the boss. His opponents charge. Stahl's friends urge a housecleaning at tomorrow's election in the interest of the union.

The DAILY WORKER, in Saturday's issue, will feature the issues of the carpenters' election. It will give the policies to which Stahl commits himself and will deal with Jensen's record.

Rochester Clothing Bosses Back Down TO Amalgamated

By the Federated Press.

Rochester, N. Y., June 12.—Clothing manufacturers employing 15,000 workers in Rochester have withdrawn their demands for wage cuts, according to Max L. Holtz, president of the Rochester Clothiers' exchange. Under the contract with the Amalgamated Clothing Workers' union, which runs until May, 1925, either side has the right to ask for a wage raise at the end of each year.

Unemployment is a problem in Rochester, as in other men's clothing markets, but the busy season in the industry opens in a few weeks.

France Sends More Munitions for Use Against Russians

(Special to the Daily Worker.)

PARIS, June 12.—France is sending munitions in steady to the Polish and Roumanian territories in the rebellious Russian territories occupied by each. Most of the arms are being sent from the Rhoda works.

The Roumanian premier, M. Bratiano, has proclaimed his intention of going to the July meeting of the Little Entente to explain the difficulties now existing between Roumania, on the one hand, and Czechoslovakia and Yugoslavia, on the other, over the Russian situation.

N. Y. Educators Quitting Jobs that Don't Pay Enough

NEW YORK, June 12.—The shortage in substitute public school teachers in New York city is caused by the withdrawal each year of 200 teachers who cannot live on the low wage, according to the Substitute Teachers' association.

The association also protesting against the system of reducing pay of substitutes when they are late, although others they are not notified to report for duty until 15 minutes before school opens.

Boastlegues Invited.

COOLIDGE, WALL STREET'S FAVORITE SON, IS OFFICIALLY NOMINATED AT G. O. P. MEET

(Special to The Daily Worker.)

CONVENTION HALL, CLEVELAND, June 12.—Calvin Coolidge, the strikebreaking governor of Massachusetts and now by the grace of the grim reaper, president of the Real Estate firm of J. P. Morgan & Co., was today nominated for the presidency on an old-fashioned Republican platform which will very likely prove his political funeral pyre next November.

The speech that launched Coolidge on his voyage to political extinction was considered by veteran reporters to be the finest collection of inanities ever hurled at an offending convention. Great as are the crimes of the republican party, and the principal criminals were in the audience, the constitutional provision against cruel and unusual punishment was invoked by Dr. Martin Burton, president of Michigan University, as he fulsomely flattered the most incontinent nonentity that ever accidentally slipped into the position once occupied by the bourgeois giant Abraham Lincoln.

Burton Talked. Lodge Squirmed.

While the speaker exhorted his oratorical vintage from the days of Mark Anthony, Lodge was seen to squirm in his seat. It is not surprising. After all Lodge is somewhat of a scholar. Listen to this: "To describe him in spoken or written words is quite impossible. Personally define the rigid barriers of speech. To know any man you must see him. To know him as you must spend time with him. As he himself said of Lincoln: 'The great men of all times begin and analyze and are described.'"

Reporters crassly affirmed at this moment but their pencils scribbled furiously. Readers of their papers will see that their thoughts in private they find instead. Fatherly references to the fossilized person who uttered the terrific non-sense about a sterile candidate.

He's Whirling Course Mark.

Of course Coolidge baffles description. He is a political note of interrogation, a writing question mark. Personally—he has none. To know him you must not alone see him but hear him and hear his every speech. When he does he says nothing, he says nothing to say. When Dr. Burton quoted the president of Lincoln he was advancing an alibi for the antiseptic of the president's success in dodging analysis. It is a case of taking nothing out of nothing.

By this time Senator Lodge has bitten deeply into his cane. The old man has had a sound tooth. It is practicing to bite Calvin in the rear during the campaign?

The nominator was now describing "Coolidge, the Man." He is saying, "We have found him to be especially American. To be an American is to be a member of the human race. A deluge much the better for booze, applauded vigorously and tried to stick his thumbs into his vest pocket. He was too drunk and put his hands in his top pocket instead. Having proven Calvin was a member of the human race, the speaker went on: "We think that there is nothing in all the world that can be compared to or should be given in exchange for a human being." By this time all the humorists were crying. They had been locked at their own favorite profession. Instead of making funny cracks at the convention, the funmakers selected copies of the nominating speech and rushed to the nearest telegraph office. "It is funnier than anything I ever wrote," said Ring Lardner.

Too Much for Lodge.

"He has unlimited confidence in the people. This was too much for Coolidge." (Continued on page 5.)

FRENCH DARK HORSES RACE TO PRESIDENCY

Many Politicians Seek Millerd's Job

PARIS, June 12.—Party caucuses to select a president of the French republic were held today. Leaders of the left, having driven Alexander Millerand from the Elysee, sought to combine behind a candidate who would be certain of a majority tomorrow.

Paul Painleve's chances still were considered best, but the smooth sailing towards the presidency which appeared to lie before the present president of the chamber was ruffled somewhat by the attitude of president Doumergue of the senate.

The latter, who has ambitions to be thirteenth president of France, even if elected on Friday the 13th, by the thirteenth legislature, is reserving his decision. This suggested the possibility of becoming an independent candidate who might attract some votes and chamber voters.

The French franc continued today to improve, touching 18.25 to the dollar in the expectation of traders of a stable government of the left bourgeois faction.

German Communists Demand Freedom of Jailed Workmen

BERLIN, June 12.—Practically the first act of the Communist delegation of 42 members of the German reichstag was a bill demanding amnesty for all political prisoners.

To best witness to their attitude, the Communists are making arrangements for deputations and delegations from factories, industrial plants, and especially of the wives of imprisoned men, to flock to the jobsles of the reichstag and to voice their demands.

CANONSBURG, Pa., June 12.—Workers of Canonburg saw the motion picture film, "Russia and Germany, a Tale of Two Republics," despite attempted mobbing by Klan members. The owners of the theater donated \$15 to relief of German children in protest against the Klan tactics.

Western Electric Talks of Loyalty

While the Western Electric management talks to new employees about loyalty to the company, it is running on a cold-blooded basis of the cheapest possible labor with the greatest possible production.

Men who have been with the company for years are given no consideration whatever when it comes to promotion. Young high school and college men at a cheap wage and firing the old employees.

The Western Electric plant is full of young men who work about a year until they learn that the bunk peddled by their bosses about the chance for promotion is not getting them a higher wage. Then they quit, and a new crop of suckers is brought in.

The employes consist of from twenty-five to thirty thousand unskilled girls who do the dirty work for from 15 to 18 dollars a week, and eight thousand straw bosses who draw only a slightly higher salary for keeping the girls at their tasks. In the article in this issue the DAILY WORKER reporter, who spent several days going over the plant and working in it as a straw boss, tells about the conditions under which the girls work and what the straw bosses think of their workers.

In the next issue the DAILY WORKER reporter will tell how the men are treated by the employment department when they come job hunting, and how the DAILY WORKER reporter was drafted into the Western Electric army of cheap labor as a boss in the inspection department.

Western Electric Workers Tell Your Story to Us

You workers of the Western Electric! You have been following the stories each day in the DAILY WORKER about the company you work for...

"One Big Family" By EARL R. BROWDER

The Western Electric Company has been forced to take notice of THE DAILY WORKER exposure of their methods of exploitation of the workers.

Like all institutions of the capitalist class, it falls back upon the philosophy of the system...

Fraud—the Western Electric Company is running high-priced advertisements in the capitalist press, in which they describe the slave conditions in its plants as ideal...

"One big family"—thousands of young men and women toil long hours for a miserable wage, to produce the profits that keep a few parasites in idleness.

"One big family"—with a system of industrial espionage, firing and re-firing in order to reduce "production costs," which means reducing wages and living standards.

"One big family"—where all organization of the workers is strictly forbidden, on pain of dismissal and blacklisting from the industry.

Fork and fraud against the workers, is the method of the capitalist class everywhere. So it is also the method of the Western Electric Company.

Organization of the workers, in shop committees and unions where the workers control, where the agents of the bosses are kept outside—this is the only way in which the workers of the Western Electric Company can protect their own interests.

Organization—and education, which makes organization possible to keep THE DAILY WORKER is giving the information and education. It now up to you, the workers in the Western Electric Company, to form your organizations.

THE DAILY WORKER is in the battle to the end. Use it to wake up your fellow workers! Use it to keep yourself up-to-date and well-informed! Use it to lay the foundations for a mighty organization of the Western Electric workers!

(Continued from page 1.) Lodge "Why, he hasn't faith even in his own crowd," he muttered.

He did a splendid job. His task was to explain Coolidge, the unexplainable. He explained something sure enough, and the delegates accepted the explanation.

The puzzle in the White House grew more puzzling as Dr. Burton proceeded to unravel the riddle, but he did it in such a way that it was a pleasant surprise from the mouth-stuff that he trotted out by the other eunuchs.

There was very little excitement as everybody did a little nodding. The vice-president is still missing, the convention goes on favors Kennedy.

Young Communists' Leader of Breslau Thrown in Frotress

(Special to The Daily Worker) BRESLAU, June 18.—Ludwig Kohnen, secretary of the Young Communist League of Breslau, was sentenced by the supreme court for a year and six months in a fortress. He was charged with "rebellion" and "betrayal" of the revolution.

POOR FISH BOOM FOR THE VICE PRESIDENCY GOES INTO COLLAPSE

It just struck me that Coolidge might utilize all the crimes of the Republican party on me during the campaign. He did it to congress. Perhaps that accounts for the reluctance of Republicans to run with him. I would not be surprised if he had to make the race all his life.

White House parrot is willing to make the sacrifice for the good of the party, but as Calvin is his only human companion, and the president is not willing to do his thinking and let the parrot speak for the press. But he would make a splendid secretary to the capitalist in case Coolidge dropped dead. He leaves, etc.

I am beginning to fear that my candidacy has fallen flat. I know I have served for nothing but I been in the company of the great political wizard, Arthur Young, who has made the presidential campaign a side kick when the revolver cracks and Wall Street's boys put on their tops for the race.

For the first time in my fifty political career, I have confessed myself unqualified to do the job, owing to this unwillingness to accept a party nomination.

UNEMPLOYMENT IN SHARP INCREASE, ANOTHER 100,000 ON N. Y. STREETS

ALBANY, N. Y., June 12.—A reduction of more than 7 per cent in the number of workers employed in the state, showing that more than 100,000 workers were dismissed from the factories during the months of April and May, is the startling conclusion revealed in the report of Industrial Commissioner Bernard J. Bisset.

The number of factory workers has now fallen back to where it was two years ago, before the strong upward movement of 1922-23 had begun, it was reported.

Improvement is noticed, or expected in the immediate future, in the clothing and textile industries, in which the present depression first showed itself. In the May report the metal trades are shown to be suffering likewise, being delinquent in production and employment. The depression is general, it is believed.

GRAND CHORUSES WITH MELODIES

Singing Societies Hold 75th Celebration

The tremendous chorus of sound from the 8,000 voices of the mixed chorus of the assembled German singing societies would not have pleased the strains of the finale of "Die Meistersinger," made a magnificent improvement on the first program of the Saengerbund and left the orchestra without a chance to be heard.

The other song which most stirred the great crowd was "Du Hirte Israel" (Borntin), sung and repeated as an encore by the mixed chorus. The quiet, strong melody laid the basis for the entire program.

With 4,000 singing the Tannhauser "Fliegens Chor," the old folk-tune could not be distinguished in the responsive chorus, nor could the "Hallelujah" from the "Messiah," sung by 2,000 voices.

The simple excellence of the Chicago symphony orchestra, led by Frederick Stock, added a great deal to the pleasure of the evening's offerings. With the flag of the German Empire, the flag of the German Empire, the flag of the German Empire.

More Marie Sundenius, Swedish soprano, and Alexander Kupis, basso soloist, were featured in the program. By contrast to the perfectly united volume of the chorus, and because of the great strength of the soloists, were thin. The unaccompanied male chorus was one of the finest details of the program.

WASHING TONIAN... SEES ST. PAUL'S FARMERS' HOPE

Shows Farmers' Misery Under Old Rule

By JOEL SHOMAKER
Farmer-Labor Candidates for Governor in Washington.

The Farmer-Labor national convention at St. Paul, June 11th, is the most important meeting ever called by the farmers and workers of the northwest. It points to a beginning of a nation-wide campaign for a change in the way of doing business that will keep the farmers on the farms.

In fifteen grain-growing states of the west there is poverty and want almost everywhere that has not been alleviated. Entire sections of the bread producing fields are dead but abandonment does not mean tumbling down. Farms are merely empty husks.

Back in Washington where the records are kept, there is a detailed department given over to the work of handling agricultural questions. From this bureau come the statistics that 600,000 farmers, or 20 per cent of the rural population in the fifteen states, have gone bankrupt in the past four years.

Soon the convention preparations actually begin. The delegates must be treated royally. Their homes must be handled with even more care. Success at the convention is not the end of the matter.

YOU DON'T BELIEVE... FRENCH SOLONS WORRY OVER PRESIDENTIAL ELECTION ON THE 13TH

PARIS, June 12.—Despite the popular superstition connected with Friday the 13th, the French Chamber of Deputies met today for the purpose of electing a new president of France.

Moreover, it will be the thirteenth day of the month, and Friday will be the thirteenth day of the present legislature, which incidentally is the thirteenth legislature.

A number of deputies, afraid of the omens, urged that the elections be held tomorrow or Saturday, but there was not sufficient time to prepare for the election before Friday, and the constitution provides a successor to Millerand must be chosen within three days.

NEW JERSEY WORKERS FORM STATE, NATIONAL F-L PARTY

By HARRY M. WINITSKY.
The New York, June 12.—The workers of New Jersey have decided that they will form a state party.

Moreover, it will be the thirteenth day of the month, and Friday will be the thirteenth day of the present legislature, which incidentally is the thirteenth legislature.

The city finds compensation by rounding up the Hotel Baltimore, stripped girls on the street—and in a few cases, the average imbecility of our East Middie hotel corridors in the altogether.

LAFOLLETTE IS REBUKED AT F-L CONVENTION

California for St. Paul Convention

SAN FRANCISCO, Cal., June 13.—Delegates will go to St. Paul from the California Farmer-Labor Party which held a two-day convention here today. Senator LaFollette's assault on the St. Paul convention and particularly on the Communist participating therein, was vigorously attacked by several speakers. It was pointed out that LaFollette was not in favor of a class Farmer-Labor party, that he was a representative of the small bourgeois and middle class elements and the \$25,000 a year labor farmer. The Communists, it was stated were the most vigorous in pushing the movement for a national Farmer-Labor party to a successful issue and without the Communist the organization would be a corpse.

The following were elected delegates to the St. Paul convention: George Kilford, of the bakery wagon drivers; David Gordon, of the electrical workers; Anita Whittney, J. H. Ryckman and D. D. Donahoe. The State platform calls for public supporter, public markets, state compensated insurance, state maternity aid including birth control information, making yellow dog anti-union contracts for employers, abolition of criminal syndicalism law, restrictions on state and federal judges, five year maximum for criminal terms, many other advanced measures. The convention formally expressed its "contempt for constant lies and devious tactics and demanded recognition of Russia." A temporary state executive committee of 33 was elected.

WHEATLAND, W. Va., June 12.—Things in this locality look bleak and are getting worse every day. Seven blast furnaces have closed within the past two weeks in this valley. Much propaganda is now flooding this locality on the private benefit of the American. These stories in the local papers full of the heavy sayings of George Washington and Abraham Lincoln. "Brave words, but they better not permeate. The politicians here complain of non-support by workmen of this district. They claim that "the working man is leaving God out of the equation." The Sky Pilot in Wheatland could not get a 40rd sold here. He tried to pay God back by getting a few titthers into the church. He held what he called a series of revivals, and a few travelers to Zion gathered. He began on them and the politicians and the farmers. Realtors Gambol Gaily in World's Oil (iest) Capital

By E. J. IRVINE.

WASHINGTON, June 13.—The Real Estate Dealers of America are holding their convention in Washington. Five thousand attend in monkey deerskins to make themselves conspicuous and advertise real estate. There is at least one honest man among the delegates from Tulsa, who calls Washington "The oil capital of the world." Washington is the proper hangout for landlairs. In this city they are well organized, and combine to keep real high—the only labor who perform.

UNCLE WIGGLY'S TRICKS

The Fight in Minnesota

(Continued from page 3.)

This law provided that in case of said this banking system, owned and controlled exclusively by very few individuals who themselves, should be paid the no national credit to the extent of two and one-half per cent amount it has invested in the securities of the federal government, at the existing rate of one-half of one per cent, the federal government to be bound to redeem said credits in gold, when demanded.

According to this law, the Federal Reserve Board, consisting of seven members, is appointed by the President of the United States. Under present conditions, this means that those members are appointed by Wall Street because his business furnished the campaign funds for both the Republican and Democratic candidates for the presidency. Yet this marvelous law provides that the regulation of the credit of the nation shall be vested in the hands of the Federal Reserve Board—which means, that the Federal Reserve Board has the power to dictate the rate of interest which any group in America must pay for credit.

The passing of this Federal Reserve Banking law marks the turning point in the economic and financial history of this country. No matter under what pretext it was passed, it has been used in the past to bring the very life-blood out of the producing classes.

papers were shifted to the federal government and the vaults of the Federal Reserve Banking System were filled with the bills of the federal government. The ownership of the ill-fated lands of the banking trust of the United States.

How it is Done. To make this plain clear, it is necessary to point out in brief how the work of farmers has taken place. During the last years, the Federal Reserve Board set out to encourage the farmers of the United States to enlarge the amount of production to the utmost limit. Propaganda for this purpose was used in the press, and the rural districts were flooded with pamphlets to this effect. Every little bank was turned into a propaganda center for the Federal Reserve Board.

Farmers Foot Bill. The Allies and the European merchants were unable to meet their obligations contracted with the exporters of the United States. The American exporters on mass faced economic ruin and instead of letting them pay for their gambling in foreign markets, the Federal Reserve Board set out to make the workers and farmers of the United States foot the bill of this speculation.

Under this law the farmers were compelled, in renewing their notes to five additional mortgages, this time on their cultivated lands, cattle, and implements to the tune of \$100,000.
