Scab Bosses Using Anti-Labor Prosecutor

The sales of the DAILY WORKER around the gates of the Western Electric plant greatly increased yesterday, despite the investigation which assistant state's attorney Frank Moutaock yesterday admitted is being conducted by state's attorney George Crowe's office.

COMPANY PARADES CAN'T STOP SALE OF WORKER'S NEWSPAPER

While members of the Hawthorne Club, organized by the officials of the Western Electric to create good feeling and make the employees forget their low wages, were parading the streets of the city in front of the plant yesterday the DAILY WORKER "newspaper" was selling over 1000 DAILY WORKERS.

Workers and Farmers! Fight for Your Class!

This day, at St. Paul, marks the beginning of new struggles and new victories for the jobless workers and the bankrupt farmers of the nation.

"June 17th" has gone down on the calendar of the most oppressed, as the date of the organization of the class party of the workers and farmers in America.

But this gathering of workers and farmers cannot mark the completion or victory of any great effort. It is but a milestone on labor's rugged and difficult road to power. And on this highroad there is but one guiding beacon, Workers and Farmers! And that guiding beacon is contained in the aggressive slogan, "Fight for Your Class!"

DELEGATES OF WORKERS AND FARMERS HEAR OF GOMPERS CONSPIRACY AGAINST JUNE 17

By J. LOUIS ENDGAHL.
(Special to The Daily Worker)

ST. PAUL, Minn., June 16.—Worker and farmer delegates, gathered here tonight, stand before an historic decision at the National Executive Labor Convention that opens in the St. Paul Municipal Auditorium on the morrow.

"Unity" is the watchword that passes from lip to lip. "Unity!" in the face of the most determined efforts to break the solidarity of the most oppressed sections of the city and land workers. And the one thing that can save the "Unity" of the great gathering is its rank and file character, at all costs the make-up of the July 3rd Convention in Chicago, last year.

LA FOLLETTE WILL NOT RUN SAYS TAGOMA ED; JUST SENSE ENOUGH

TACOMA, Wash., June 16. LaFollette knows better than to run for president, in the opinion of Editor John Strickley, Tacoma Labor Advocate, the official organ of the Central Labor council. He writes:

LA FOLLETTE WILL NOT RUN SAYS TAGOMA ED; JUST SENSE ENOUGH

Contrary to the general notion, Labor Advocate does not believe that Senator LaFollette will be a candidate for the presidency on any such thing as an independent ticket. LaFollette is one of those liberal politicians who first of all are politicians. His idealism is a strange mixture of political pragmatism and quietistic conservatism, but he manages to realize where he is at with a very accurate gauge in the form of public sentiment in Wisconsin.

WHEELING, W. Va., June 16.—The latest victim of the autocratic hand of the United Mine Workers of America is the bloody blue ruled state of West Virginia, when that district's autonomy was suspended by the international executive board at Indianapolis. The long smoldering feud between the leaders of District 17 and the unwelcome kingpin of the international executive board, Percy Tattow, a notorious Lewis lackey, is appointed head of District 17.

STRIKE LOOMS LARGER IN MEN'S CLOTHING TRADES

Amalgamated Warning New York Bosses

By REBECCA GRECH.

NEW YORK, June 16.—A general strike in the men's clothing trades in New York City, which was unanimously decided upon at a meeting of executive and joint boards of the Amalgamated Clothing Workers of America, looms larger on the horizon each day. Talk about the pending strike is creating quite a stir in the ranks both of workers and manufacturers in the industry.

Bosses Beared.

The decision of the Amalgamated seems to have taken the employers by surprise. The no definite plans have yet been made public, and the bosses have received no official notice of a strike. Its possibility causes much disturbance among them. It is evident from statements made by the manufacturers that they are alarmed at the prospect that they do not fear any strike, at the same time threatening to have their goods manufactured in out-of-town shops if a strike is called.

Workers Know How.

Their attempt to frighten the workers with the prospect of a lost battle, however, is an expression of their own uneasiness. Experience has shown that the Amalgamated knows how to conduct a strike, and that the clothing workers know how to carry through a successful struggle against the bosses. The manufacturers are aware that when the strike will be declared, the workers in the industry have sufficient strength to force them to cease cutting wares and sending their work to non-union shops.

Police Patrol Kills Child.

Little three-year-old Francis Phelan was gaily riding his kiddie car when the North River street police patrol backed out in answer to a call, and smothered his baby life in a moment. Of course the police did not hold the police for the child's death.

When the Washington solons began to kick up a lot of dust over the hundreds of millions squandered during the war, Dawes was called on to testify before the senate. He testified that the war was worth every nickel spent on it and more. Minnesota Farmer-Labor Party Loses No Friend in "Star"

MINNEAPOLIS, June 16.—"Outside the money loan," declares the Minnesota Union Advocate, official organ of the Minnesota State Federation of Labor, on the sale by receiver of the Minnesota Star, "the Farmer-Labor movement of Minnesota will suffer no loss and will be saved a great deal of anxiety. The paper long ago lost much of its vitality as an organ of the progressive and more often than not helped the cause for which it was established. It will continue as it has in the past in the policy which is now well known."

TAFT GETS COLD FEET AS RADICAL BREEZES BLOW

Yields to Striker in Case—Before Election

(By LAURENCE TODD, Federated Press Staff Correspondent)

WASHINGTON, June 16.—Are the election returns already in, from Iowa and Nebraska and South Dakota, conclusive? Do some political storm-clouds cast a long shadow into the court? Somens has said the supreme court merely follows the election returns.

Picketing Not Violation.

In the case brought by a St. Louis firm, the Herkert & Meisel Truck Co., which is picketing a strike by the local union of the Leather Workers of that city, Chief Justice Taft announced a decision that this sort of picketing is not in violation of the federal law against restraint of interstate commerce. The strikers may have illegally picketed the factory, and may have illegally injured the property, but the fact that they reduced production in the factory was not to be involved in the case. The law is not intended to protect the strikers for the loss of business which it would otherwise have decided that the strikers would.

Ordinary horse-sense would seemingly have established the rule when the law is construed in a common sense. The lower federal court, but so carefully picked have been the federal judges in St. Louis that the decision was given against the strikers. Perhaps the same district judge would have decided that the strikers would damage to all the merchants with whom the profits of the struck shop would ordinarily have been spent. However, no such extension of strike-ability has yet been asserted. Now Taft bars the district judge that he has law too far.

Law to Stop Production.

Quoting his decision in the Colorado Coal case of two years ago, the chief justice recalled that he then held that even a conspiracy by the coal miners to prevent shipment of 75 per cent of the output of the mine, which output would have been shipped in interstate commerce, was not a violation of the Sherman law. The strike was aimed at preventing production, and that aim was lawful.

PITTSBURGH POLICE PLANNED GAS ATTACK AGAINST GAR STRIKERS
