# Italy Threatened With Revolution

## FASCISTI RULE OF TERROR IS COLLAPSING

### Call Issued to Form Stop-Gap Cabinet

ROME, Italy, June 17.—The bloody Fascist rule of terror led by Dictator Benito Mussolini is starting and revealing its throat. King Victor Emmanuel has called in his "cousins," the nine members of the Order of Annuniation, all of them his relatives or former prime ministers of Italy, to urge them to form a new government to save the country from the two-years deferred revolution by supplanting the black-shirted hands which has lashed and lacerated the kingdom since 1922.

Mussolini, the gore-smirched Fascist dictator of Italy, will not be excluded from the new cabinet, judging from the meagre news which trickles by the censor, but his political enemies in the Order of Annuniation will undoubtedly curtail the premier's control of the government.

Black shirt Grip Weakening.  
The smothering career of the Fascists in destroying ruthlessly labor and radical organizations and suppressing all opposition speech and assemblies and censoring the press has been less and less successful and much more subject to hostile criticism by all except the black shirt "run amuck" terrorists. The dark, bloody deeds of the Fascists have been a warning to other nations' reactionary forces, such as the Ku Klux Klan and the American Legion in the United States and the "white terror" in Poland and Roumania.

The present grave crisis is the result of the accumulated discontent at failure of the Fascists to settle Italy by any but bloodstained, frontal methods.

Kidnaping Was Last Straw.  
The disappearance of the Socialist deputy, Sig. Mattioli, and the laziness of the Fascist officials in investigating the kidnaping and probable murder of the news editor, directly precipitated the tense situation and impending fall of Fascism.

Strip Bar.  
Sig. Giolitti, Salandra, Orlando, Schasara and their associates are the "cousins of the king," who may be (Continued on page 2.)

## NAVAL HEROES NOW BLAME BIG DISASTER ON DEAD SAILOR'S HAND

SAN PEDRO, Calif., June 17.—Many surrounding the second explosion aboard the U. S. S. Mississippi, in which seven sailors were injured, four fatally, was cleared up in testimony at yesterday's hearing of the naval probe.

Definite assertion that the awing, strangled arm of a dead sailor killed in the first blast in turret No. 2 struck the firing switch of gun No. 5 when the body was being removed from the wrecked turret room was given by George C. Ogilvie, assan first class. The switch was thrown into contact and the gun was fired.

## WITNESSES TELL ALDERMEN OF "THIRD DEGREE" TERROR USED TO EXTORT FAKE CONFESSIONS

The City Council committee on Police will continue their investigation of the charges made by Lieutenant Grady and his detective bureau squad at a meeting Thursday afternoon. This was decided on Monday when Wilson failed to appear at the committee hearings sending word thru his attorney, Charles Wharton, that he was afraid of police revenge to press his charges against Grady and his men.

Radicals Will Attend.  
The coming hearing will be attended by representatives of class con-

## HISTORIC MUNICIPAL ST. PAUL AUDITORIUM HOUSES CONVENTION

(Special to The Daily Worker)  
ST. PAUL, Minn., June 17.—The historic June 17th National Farmer-Labor gathering assembled at St. Paul's Municipal Auditorium on Fourth Street, between Franklin and Washington Sts., in the tremendous amphitheater where Senator LaFollette, of Wisconsin, made his speech, in the early days of the war, that resulted in a fight being made to oust him from the U. S. senate. Many large workers' gatherings have been held here. The main floor space is reserved for the delegates. The balconies are open to the public. An admission charge, however, is made of 50 cents of any one day's session, or \$1 for the session of the whole convention.

## "GOLDFISHED" VICTIMS FEAR POLICE REVENGE

### Terror Seals Mouths of Tortured Persons

(By Ex-Police Reporter)  
When Charles Wharton, attorney for William Wilson, teacher at the exclusive Harvard Boys' School, appeared before the Police Committee of the city council Monday and told why Wilson refused to appear there to tell the story of the beatings he had received at the hands of Michael Grady and his detective squad, he showed in a few words why the "goldfished" terror system of the Chicago police department has not been exposed before today.

The writer believes that exposure of the "goldfish" terror system of the Chicago police department is of vital interest to the workers of the DAILY WORKER for any class conscious union man is in danger of torture if he is arrested.

Wharton said that he had urged Wilson to come and testify before the committee but that Wilson was afraid to. Wharton said that he was afraid that if he pushed the case against Grady any further he would go out some night and never return. I told him his fears were groundless. Wilson said that if anyone had told him that 2 months ago that a man would be treated as he had been treated while in the custody of the Chicago police.

Russia Cuts Book Prices.  
MOSCOW, June 17.—Russia has reformed all taxes and duties of book manufacture and book sales within the Soviet Union. This applies to publishing houses of the state, cooperative and educational organizations, while the taxes on private publishers are reduced to one-fourth. The high cost of books "putting them beyond the reach of those who most need them," is given as a reason.

## ELECTRIC TRUST FIRES MEN TO EVADE PENSION

### Daily Worker's Biggest Expose Tomorrow

By KARL REEVE.  
(Sixth Article.)  
The Western Electric Company, while printing numerous pamphlets and advertising in the daily papers, the great benefits granted to its employees, robs the worker at every chance.

The Western Electric pays sick and death benefits only when the prospective employee is given an application to fill out. Along with the application blanks is a pile of pamphlets, ten by eight inches, entitled "A good place to work, the Hawthorne works, Western Electric company."

From the time the employee enters the Hawthorne plant he is inducted into a long job, and daily, continuously, as long as he is in the Hawthorne employ, the Western Electric company fills him with propaganda intended to make him anxious to get and hold his job.

Along with the club, pamphlets, (Continued on page 2.)

## BOSSSES INSPIRE RAID ON FRISCO TRANSPORT MEN

### Seized Under Anti-Labor Syndicalism Law

Special to The Daily Worker.  
SAN FRANCISCO, Cal. June 17.—The offices of the Building Workers' Union, the Transport Workers Union and the Defense Committee of the I. W. W. were raided yesterday and more than ten men were arrested along with criminal syndicalism.

This raid follows the raid on the San Pedro headquarters of the transport workers and the recent reversal by the higher courts of several important criminal syndicalism cases. The most important of these cases was that of McLentzen et al.

In that case 27 workers were sentenced to from 1 to 14-years in prison for membership in the I. W. W. When they were convicted the transport workers in the harbor of San Pedro went on a five day protest strike. This strike spread to other ports and led to shipping all along the coast up as tight as a drum. Now the higher court, in ordering a new trial for the men says that they did not get a fair trial.

Postpone W. Va. Mine Trial.  
CHARLESTON, W. Va., June 17.—Seven months delay will occur before J. Edgar Hoover's grand jury on the coal miners' side in the west against the company gunmen in West Virginia in 1921, goes to trial for the third time on a murder charge. The long postponement after two convictions that have been operated for several months that the operators, who control the courts, may be getting tired of their delay in shipping all along the coast up as tight as a drum. Now the higher court, in ordering a new trial for the men says that they did not get a fair trial.

## Capitalist Press In Lying Plot Against St. Paul

By J. LOUIS ENGDAAHL.  
(Special to The Daily Worker)

ST. PAUL, June 17.—Arnold says the wild reports sent out by the yellow press about the National Farmer-Labor Convention here, perhaps the vilest canard is the one announcing that the Communist delegates had been barred from the gathering. This malicious falsehood was carried, in one form or another, in practically all the capitalist dailies and reports can be expected during the sessions of the convention's opening.

Of course there was no basis anywhere for this lie. "There was never at any time any move to unseat the Communist delegates," declared C. A. Hathaway, chairman of the credentials committee. "The matter was never brought up by any one, it was never discussed. This is only some hair-brained factional lie frantically circulated in an effort to discredit our convention. Many more such silly reports can be expected during the sessions of the convention and after. There is only one thing for the workers to do and that is to quit buying and reading these kept publications. Let them support and strengthen instead their own press. All that the capitalist dailies will publish about this convention will be lies, lies, lies."

## EXPOSE EXCITES STOOLPIGEONS TO MORE ANTICS

### Western Electric Finks Look for Investigators

The Western Electric company is completely upset by the DAILY WORKER exposure of the speed-up conditions inside the plant and has put its undercover secret service chief, C. H. Gerding on the job to pacify the mob. The new undercover activity of the Western Electric service were revealed to the DAILY WORKER by a research high up in one of the administrative branches of the company.

"The Western Electric keeps a down town office for its secret service," this man told the DAILY WORKER.

"In the office, room 704, Tacoma Building, the Western Electric secret service chief plans and carries out the espionage work of the plant," the chief stool pigeon of the plant has his name on the door. The office is a blind office, and few people know that Gerding is head of the Western Electric secret service with offices.

"The activities of Gerding and his men have greatly increased since the DAILY WORKER reporter worked at the plant," the office man of the Western Electric told the DAILY WORKER. "The employment office has been reprimanded for allowing the DAILY WORKER reporter to slip thru. Since a few men have been hired and for every one hired a Western Electric stool pigeon has also been hired to keep his eye on the new employee."

Stow Boss on Carpet.  
"B. Stock has been called up on the carpet, and was within an ace of losing his job. Stock was told by the officials that he deserved to be fired for revealing so much to a new employee. Stock's answer was that he tried to give Reeve the psychology of the Western Electric company so as to make him a better employee. The officials warned him that if he was again talkative to a new employee, or revealed any more of the company's methods, he would be fired."

## Police Disruption of Philadelphia Picnic To Be Told Thursday

PHILADELPHIA, Pa., June 17.—The Workers Party of Philadelphia is to be told Thursday, 8 p. m., June 19, at the party headquarters, 1700 Arch Ave. H. M. Wicks will be at this meeting to tell about his trial, and the making of the police disturbance at our picnic. Two vital important points that are seriously menacing the party will be discussed and decided upon.

All Workers Party members and Young Workers League members are requested to be at this meeting. Admission by membership cards only.

## STEEL TRUST'S POLICE ARREST FILM BACKERS

### Monessen Sees Soviet Picture Anyway

(Special to the DAILY WORKER.)  
MONESSEN, Pa., June 17.—Charles Roberts, Morris Schindler, and Comrade Okonen, arrested here for showing the International Workers' Relief film, "Russia and Germany," Friday night, also they arrested Charles Roberts, Morris Schindler and Comrade Okonen, after the showing of the picture.

The Monessen authorities have conducted a stubborn campaign to keep the truth about the Russian and German revolutionary workers' movement from the slave steel mill workers of Monessen. A week ago the local authorities, by means of a so-called "bureau of inspection, department of labor in industry," tried to stop the film.

Comrade Roberts, representing the International Relief, was forced to secure a new hall, but as the steel trust authorities trumped up an anti-trust law, Roberts protested on the grounds that the Russia and Germany film is the new non-inflammatory material that conforms to all fire laws throughout the country.

The international Workers' Relief office in Chicago announces that also the showing of the "Fifth Year" has been stopped by local authorities in thirteen different places. This is the first time anyone has been arrested for showing actual moving pictures of the effects of French imperialism on the German workers in contrast to the workers' government of Soviet Russia.

## STATE DROPS CHARGES AGAINST OFFICIALS OF W. VA. MINERS UNION

CHARLESTON, W. Va., June 17. Bill charges against C. Frank Kennedy, former president, Fred Mooney, former secretary, and William Blizard, former sub-secretary president, district 17, United Mine Workers, growing out of disorders during the armed march of 1921, were nullified by the state supreme court at Fayetteville this afternoon.

## THEIR ANSWER TO BAITERS HOWLING 'FIGHT COMMUNISTS!'

By J. LOUIS ENGDAAHL.  
Editor of The Daily Worker.

MUNICIPAL AUDITORIUM, ST. PAUL, Minn., June 17.—"Fight Capitalism! All eyes on the enemy! All eyes on the big bankers, the big landlords and the big food gamblers!"

These were the stirring slogans with which the many hundreds of delegates, from the industrial centers and the farms of the nation, representing nearly every state in the union, went into session here today in what has popularly become known as the "June 17th Convention" of the National Farmer-Labor force of the country.

These slogans have grown out of the long, hard road this conference has been compelled to travel in order to become a reality. It is the answer of the convention to the slogan of the reactionaries, "Fight the Communists!"

REACTION IS IN DISFAVOR.  
The apologist for the attacks of LaFollette, Gompers, Johnson and other agents of the reactionary elements in the American Federation of Labor and the Conference for Progressive Political Action, find themselves very much out of place at this gathering. There may be a few

## WORKERS PARTY MEMBER WINS IN MINNESOTA

### St. Paul Voters Name Emme for Congress

By J. LOUIS ENGDAAHL.  
ST. PAUL, June 17.—Julius F. Emme, Workers Party member, became the candidate for congress in the fourth district (St. Paul) of the Farmer-Labor Party at Monday's primary elections. The election fight will therefore be between the Communist and Representative Oscar E. Kelley and Daniel W. Lawler, former mayor of St. Paul.

Sufficient returns have not yet been received to indicate the outcome of the congressional race in the Farmer-Labor Party race in the Duluth district where Jacob O. Hentall, Workers Party member was a candidate. The Farmer-Labor senator, Magnus Johnson, ran away from the field of candidates in the senatorial race. Floyd B. Olson was running ahead as the Farmer Labor candidate for governor, with William A. Schaper who repudiated the Workers party interference and attacked the Farmer-Labor convention opening here to day, running far in the rear.

Two Important Committees.  
It is felt that the two big committees of the convention are those on organization and candidates, with 11 members each. While all the delegates seem to be unanimous for the class party of workers and farmers, there seems to be some difference as to just what the organizational nature of the party shall be. This matter was thoroughly discussed by the committee on arrangements, with prominent delegates sitting with it, but no definite decision was reached. It was decided to refer the whole matter without recommendation, to the convention committee. One of the bones of contention is the admission of national political parties. While this would hit the Workers Party, it would also hit other organizations like the Socialist party. The delegates advocate this point of view fall entirely to understand the nature of a Farmer-Labor party, with its all-inclusive nature, for instance, J. Ramsey MacDonald, the premier of the British La-

(Continued on page 3.)

## WASHINGTON DELEGATION IS SOLID FOR CLASS PARTY OF WORKERS AND FARMERS WITH NO COMPROMISES

By J. LOUIS ENGDAAHL.  
Editor of The Daily Worker.

ST. PAUL, Minn., June 17.—One of the steel rods in the backbone of this National Farmer-Labor Convention is the delegation from the Pacific Coast state of Washington. It is headed by William Buck, president of the Western Progressive Farmer-Labor Party, and John C. Kennedy, secretary of the Washington Farmer-Labor Party.

"We're here and more are on the way," announced Kennedy and many were the stories he told of how funds had been raised (Continued on page 4.)

## AQUITTER'S FATE

By ALFRED FRANKENSTEIN.  
(Special to The Daily Worker.)

ST. PAUL, June 17.—Prof. William A. Schaper, defeated Farmer-Labor candidate for governor of Minnesota, was snubbed in the past because of his repudiation of the national Farmer-Labor Party, and in session here today, Dr. Schaper, former professor of economics at the University of Minnesota, was ousted from his chair there.

(Continued on page 3.)

# Good Outlook For Farmer-Labor Party in Washington, Says Bock

## GOOD OUTLOOK FOR FARMER-LABOR PARTY IN WASHINGTON, SAYS BOCK

By ALFRED W. FRANKENSTEIN

ST. PAUL, June 17.—The outlook for the Farmer-Labor party in the state of Washington is better now than it has been in the last four years. This, according to the president of the Western Progressive Farmer Association, was the DAILY WORKER. Four years ago the party polled a vote of 158,000 for governor, losing to the democrats and running second only to the opposition.

In the last election, in 1928, the American Federation of Labor fought the Farmer-Labor party tooth and nail, and supported Dill, the democratic candidate for United States senator. At that time disaffiliation with Folger, the Republican candidate, ran high, with the result that Dill was elected. This setback by the A. F. of L. split the Farmer-Labor party so that it was able to cast only 60,000 votes.

Since then the bankruptcy of the farmers and the return of conditions of labor have caused a decided swing to the Farmer-Labor cause, with the result that the party is at present able to muster about 180,000 votes.

Green Likes Daily Worker. Green liked a high tribute of praise to the DAILY WORKER, while some workers and farmers, dominated by the KKK, who had elected a president to pick up a DAILY WORKER than a ratfinkster, it is read and enthused. It has captured the hearts of a great number. And the fact that the KKK are so afraid of the paper as of a rattlesnake is also a compliment.

Loses Shirt, Curses, Runs Flop Houses. No matter who will be President it is plain that the Senate wants Charles G. Dawes for its presiding officer. It can furnish as much fun as a three ring 'circus' show. As the boy who sits on the hot chair and keeps the salons from throwing ink bottles at each other would be a wow.

HARRY AVOIDING DEFENSE BEFORE INVESTIGATORS. Substitutes Sent by New Atty. General

(Special to the Daily Worker). WASHINGTON, June 17.—The Daugherty investigating committee has heard the defense without either former Attorney General Harry Daugherty or his lawyers participating. Officers from the department of justice had been sent over by Attorney General Bixie to testify about their former head.

When Charley loses a couple of dollars he writes music. He is and will be a banker and banker. With a few girls from the Hill and Lodge as low comedians Dawes could give his people a good time.

CHARYLE DAWES IS HOT SKETCH; FUNNY AS CHEESE. Charles Dawes is a hot sketch, funny as cheese. He is also a banker (financial) of the Chicago Opera. He took care at trying to help the people who run the Chicago Opera make it go but they said it did not help, because he did. But as an impression in the Senate he would be running the show.

ALBERT W. DAUGHTERY. If the Daugherty committee had three brothers whose brilliance had not been noticed, only because of Charley. From them he could get plenty of advice.

CATALDO'S SPAGHETTI HOUSE. 1542 B STREET S. Phone Maymarket 4808. We serve Italian and Polish. Special Attention Given to Parties.

## ELECTRIC TRUST FIRES TRAP TO EVADE PENSION

### Daily Worker's Biggest Expose Tomorrow

(Continued from page one) sports, entertainments, magazines and artists, all of which try to fall the worker away from that of his slim pay envelope and its cash conditions of work, the Western Electric inserts quarter page advertisements in all the capitalist papers baring forth the so-called virtues of the company.

The typical Western Electric coloring is in the rally mail displayed in the Western Electric pamphlet, "A Good Place to Work." In the paragraphs of good things that the company boasts that "practically all employees receive their pay weekly. From Monday to Saturday the company checks pay out more than \$1,000,000."

This statement on analysis proves to be a boomerang against the company when it is considered that 40,000 employees are paid at Hawthorne. The average worker at Hawthorne is forced to work for 48 hours per week. This is an extremely low average after the high wages paid to the other workers of the company.

The Western Electric boasts of the fact that they do not grant shop employees vacations until they have been with the company five years. The general practice of the company is to give a week's vacation after a year of six months of service.

Not Even Company Union. It is in this introductory section of the Western Electric "pamphlet," that the worker is led down a path leading to a trap. The company has no union. There is not even a company union in Western Electric.

Biggest Western Electric Expose Tomorrow. This organization is the Hawthorne club, of which more will be said later. The Hawthorne club is an organization formed to promote a spirit of good fellowship through the works.

The Western Electric always substitutes some form of bank for actual payment of the worth of the employee in hard cash. When the employee works in the Western Electric plant for 15 years, he is given a nice, round little button. This button is said by the company to be gold, but inspection proves even the button to be a cheap imitation of gold.

The DAILY WORKER has scored another sensational scoop. Appearing in tomorrow's paper will be the most startling exposure of conditions in the Western Electric plant so far printed in the DAILY WORKER. The story is backed by photographic copies of the important documents which will be printed in tomorrow's paper.

## "DAD" WALKER, HIT BY BLOOD POISONING, FORGED INTO HOSPITAL

(Special to the Daily Worker). ST. PAUL, Minn., June 17.—H. H. Walker, a dirt farmer and came to the convention "straight from the plow." The blood poisoning developed from a silver from an axe which he got into his hand. He stopped off at Hammarck on his way to the East to have it attended to, getting better. But then there came a turn for the worse.

WASHINGTON FARMERS DEMAND F.-L. CANDIDATE’S ACCEPTANCE DURING CONVENTION’S SESSION

By JOEL SHONAKER, Farmer-Labor Candidate for Governor of Washington. SEATTLE, Wash., June 17.—The Western Progressive Farmers, in a convention at Prosser, Washington, passed a resolution demanding that the Communist candidate named by the St. Paul convention be asked to accept the nomination before adjournment of the national convention.

That step marks a new sign in progressive national politics. It does away with the old style of sending a special committee to notify the nominee and take from him a signed letter of acceptance. It goes further in the line of progress and insures the people in convention assembled that the candidate is really with them.

MEXICO REPLIES TO MAC DONALD’S APPEAL FOR U. S. PRESSURE

(Special to the Daily Worker) LONDON, England, June 17.—Mexico has replied to Premier Ramsay MacDonald’s statement that Mexico’s action in the case of the British “archivist” Herbert A. Cummins was a “grave breach of international courtesy” by stating that the Mexican government considered itself entirely within its rights in demanding the departure of the British agent, who has so abominably vilified the Mexican government.

MacDonald appealed to the American ambassador, Kellogg, to request the United States state department to attempt to bring about a “change of front” on the part of the Mexican government. The “Labor” premier appears in behalf of the British business interests, chiefly Shell Oil, for the help of the American business interest, chiefly Standard Oil, which recently made a friendly agreement with Shell.

Send in that Subscription Today. FELIX PHILIPPI, who assisted the fascist dictator of Corfu, Italy, Giuseppe Filippelli, to evade the police for four days, has been arrested. Amorigio Filippelli, brother of the fascist dictator in Florence, is suspected of directing the crime, with Mussolini’s private contractor, and has been arrested. Filippelli had given his friend Dumini a letter which enabled the police to get the car in which Matteotti was kidnaped.

Facist Bull Outted. The chief of the national police (Gen. Biondi) and Commander Herold of the Rome police, both badly resigned because of the failure of the fascist police to investigate the socialist’s disappearance has been severe and it is expected that the police officials themselves had knowledge of the affair of look part in it.

The opposition parties in parliament have refused to go to session until the fate of their fellow member Matteotti is determined. Mussolini and other fascist leaders addressed the fascist deputies who attended. The dictator pulled a long face and offered to apprehend at once and severely punish all persons connected with the crime, but the fascist deputies cried “No!” and Mussolini then added that they were right and that the “shameful and idiotic episode must not be connected with the general policy of my government.”

Benito Knows. The general opinion throughout Italy is strongly in criticism of the fascist dictator. His sorrowful acceptance of the forced resignations of his cabinet particularly evoke the attacks of the opposition, already increased over the long reign of blackshirt terror and public confidence is seriously shaken in the ability of the present government to govern satisfactorily any longer.

But Benito is not retiring yet. He has refused to give up the office of dictator but he will outlast the bottle locks centered upon him and maintain his position as fascist dictator for some time longer. A number of the rowdy raiders were in uniform of army government of workers and peasants.

British Consider Adoption. LONDON, June 17.—At present there is no such thing as legalizing fascist Great Britain. Three bills dealing with child adoption are now before Parliament.

BUFFALO KLUX-LESION BUSTS UP STREET MEET IN FASCIST FASHION

BUFFALO, N. Y., June 17.—The Ku Kluxers and the American Legion fought again their tactics and reacted in a bitter battle when a hoodlum crowd from the two organizations attacked a peaceful “buff” of the Kluxers at a street meeting in Buffalo.

Public confidence is seriously shaken in the ability of the present government to govern satisfactorily any longer. But Benito is not retiring yet. He has refused to give up the office of dictator but he will outlast the bottle locks centered upon him and maintain his position as fascist dictator for some time longer.

A number of the rowdy raiders were in uniform of army government of workers and peasants. The speaker had an official permit for the evening; but Ku Klux warning notes had been sent to the Proletarian Party prior to the raid. The American Civil Liberties Union has also been notified.

# ASSISTANT SMASHING MINERS UNIONS OF SOUTH

**Blackshirt Methods in West Virginia**  
(Special to The Daily Worker)  
(By STANLEY J. BROWN)  
FAIRMONT, W. Va., June 17.—The Klan Klan has gotten in its work without the Fairmont coal regions, and open shop mines are opening daily in Marion and Harrison counties with prospects that all will be non-union by September 1.

The night shifters started their campaign of union smashing last July, but progress was slow until three months later when poison began to infect the miners. The hatred against the foreigners, which the Klan propaganda infected, kept American miners away from the locals until they lost interest, and in time they none or less believed the Klan had landed them by the red reformers. In the excitement of red fear, American bands and punk bands, labor organizations were forgotten by brass bands, while foreigners stood firm for their rights in Harrison county, where the Klan bosses used workers to destroy their own unions they are now taking them in politics. In the state primary the Klan candidates went out for almost every office. They have their names marked at the division of county houses, who get their instructions from Atlanta, Ga. A state of ill-will, ill-will and hook worm. In Southern West Virginia, where the Klan boss a slave pen for miners and now the Northern part of the state is falling into the same hands, the year ago section was solidly organized, and try as they would, the coal barons could not break it from the outside. A plan was invented to destroy it within, and they have succeeded with the blackshirts waded to the tussle of tussle of late.

**Seattle Bakers Green St. Paul F.L. Convention**  
(Special to The Daily Worker)  
ST. PAUL, Minn., June 17.—Green St. Paul, Minn., where the Bakers Union No. 9 of Minn. Wash. were received by the National Farmer-Labor convention which opened here today for the purpose of organizing a national party. Bakers of the northwest district agreed that they could not send a delegate but reiterated their belief "with a real revolutionary party in the field, labor will have some little purpose to struggle for." The vote was given by R. H. Mohr, secretary of the Bakery and Confection Workers Union, No. 9.

## "GOLDFISH" VICTIMS FEAR POLICE

(Continued from page 1)  
today of the police he would have believed it. He said he could believe anything of the police now. Wharton told the committee.  
Fear Police Revenge. A group of police officers has kept scores and probably hundreds of people from telling how they were treated by the police.  
"You who read this probably think you would tell the judge in court how you were handled by the police if you had been arrested, beaten and then taken into court. The chances are you like other people would like Wilton you would think the police would get clear of the charges brought against you (however groundless) that you would quit. Like Wilton you would think the police would seek revenge if you were freed, and people who were arrested and then brought into court kept quiet about it."  
A man had from court with a fractured skull about 2:30 in the morning. He died on the way to the County Hospital.  
It was apparent that he had been "jacked rolled," which means in the line of the police and the underworld that he had been robbed while drunk. He had probably got up a strap and had been struck on the head.  
Out Late. Lovers Suspicious. The lieutenant on the deck ordered the two silver squads and the patrol squad to go out and bring in everyone who "looked suspicious." One diver was gone about half an hour when they returned with two boys. The boys, about 17 or 18 years old, were found walking on the street. The lieutenant of the hour made them look suspicious to the cops.  
The boys had been arrested. Then they were taken into a room.

Eight Hours in Europe.  
NEW YORK, June 17.—Surviving the eight-hour day in Europe, a writer in The Nation declares that in six of the nine countries where the eight-hour day had been established by law, it has either been completely destroyed or seriously encroached upon. In use it is menaced; in two it has been maintained.

**SCAB LABOR WORKS ON JACKASS CONVENTION HALL WHILE LABOR FAKERS ENDORSE JACKASS LEADER**  
By LUDWELL DENNY.  
(Federated Press Staff Correspondent)  
NEW YORK, June 17.—Why does labor turn a deaf ear to promises of old-line politicians in industrial fights, and at the same time put its faith in the same politicians when it comes to voting? This old riddle has forced itself again on New York today.

While the executive council of the New York State Federation of Labor was issuing an official endorsement of the official nomination candidacy of a Democrat (Gov. Alfred E. Smith), members of the federation struck and tied up work at the Democratic national convention held at Madison Square Gardens because the Democrats were endorsing scabs.  
When the carpenters, painters and other union men walked out, the Democratic politicians appealed to them in the name of the party, the city, the nation and democracy to go back to work. The men stayed out. Finally at the end of five hours the politicians agreed that all work on the building would be done by union men. The men returned when they had won the strike but not before.

**MINK, Russia, June 17**—In all the towns of White Russia, day nurseries will be opened to look after the children of the peasants while their fathers are busy in the harvest. This is probably the first country in the world to take such a step.

## GREEN OF THE GETS OF THE SCIENTIST SHOWS

**German Proves Long Hours Lowers Production**  
By LOUIS B. LOCHNER  
(Special to The Daily Worker)  
BERLIN, Germany, June 17.—Longer working hours mean increased production, the scientific research of Professor Otto Lippman, director of the Institute of Applied Psychology at Berlin, say so.  
Lippman's investigations regarding the effect of long working hours upon the health of the workers. He treats the subject exclusively from the view of production.  
One wrong assumption of employers, the professor believes, is that better use is made of machinery when it is constantly in action. While a machine can run 24 hours, it does not produce more than one running 8, there are items that make the increase illusory. These include heat, light, power, depreciation, waste. When these items are balanced against an hour's additional work, it shows that the cancel the supposed advantage, especially if the figure are for a period of 24 hours.

A further factor is intensity of work. The greater the hours during which a worker is kept at his task, the less he can work toward the closing hours. To get the greatest production out of all surplus plants, Lippman suggests:  
1. Pay wages that the worker does not have to look for extra work during the day.  
2. Pay job he can handle best and likes best.  
3. Build the machines and tools so that the worker is not tired of the workers. If plants are organized on this basis, there is no need of the eight or seven hours of work.

**Editors of Fake "LABOR" SHEET SNARL DULL LIES**  
Shout at "Radicals" to Barbers' Union  
Carl Castleman and Peter Clinef, editors of the yellow ad sheet, the Chicago Union Labor News appeared before the last meeting of the barber's union of Chicago for the announced purpose of explaining why they printed the fake resolution in their May 17 paper, alleging that the barber's union was in league with the radicals. John Fitzpatrick came out everthing except the question of the fake resolution. In the course of his indelicately abrupt speech he also accused Robert Buck, the editor of the Chicago Union Labor News, of being in league with the radicals. John Fitzpatrick came out everthing except the question of the fake resolution.

Castleman followed, attacking the reds; but wait—ah, wasn't there Tom Chas. Irving, labor member of Calgary, urged strongly the folly of Canada trying to claim the right of being consulted on all questions of imperial diplomacy.  
The run treaty loo binds Canada only, the recently an agreement in regard to smuggling on the ocean was negotiated by Britain and approved by Canada.

Canada's rights as a treaty-making power were deeply involved in the British League treaty with Turkey. The League was approved in the Canadian parliament to approve it. In a debate on the subject in the house of commons, there was general agreement that the ratification of this treaty ended the war with Turkey and to that extent bound Canada.  
Lippman also argued that the Canadian parliament is free to refuse troops in case of a war to uphold the treaty. During the debate William Irvine, labor member of Calgary, urged strongly the folly of Canada trying to claim the right of being consulted on all questions of imperial diplomacy.

**UNEMPLOYMENT "SERIOUS PROBLEM" IN ILLINOIS AS "CAL'S PROSPERITY" TAKES WINGS AND DEPARTS HENCE**  
Unemployment has become a serious problem in Illinois, according to the May report of the state department of labor. The state's unemployment declined more sharply in May than at any time since 1921. Industry in the state is still recovering from the depression of 1921. The number of unemployed is larger than at any time since early fall of 1922.

The depression is general in the mining industry. Many mines are closed, others are reported about to close and in those where they are continuing to operate part-time has greatly diminished average earnings. The seasonal increase in building construction is only one-third as great as in May of the year before.

During May employment in Illinois manufacturing industries, as shown by reports from establishments employing more than 40 per cent of the workers in the state, fell 2.5 per cent. This carried the employment index to a point 8.8 per cent below May 1923. It means that more than 40,000 factory workers who were employed a year ago are out of work today. Adding approximately 40,000 miners brings the total unemployment to about 100,000 without counting additions to the total unemployment by growth of population and migration.

The growth of unemployment is accelerated by the increase in workless applicants for each 100 jobs in April to 184 in May. Last May there were 100 applicants for each 100 jobs. This year the free employment office placed 11,241 workers as compared with 10,600 a year ago and 17,189 in May 1923. Cities near the southern Illinois coal fields report a loss of 2 to 3 job seekers for each available opportunity to work.

**MOSCOW, June 17**—A delegation of 200 students from the University of Toronto is preparing to visit Russia to study the laboratories of the universities and observe the working conditions in the laboratory of Pavlov in Leningrad.

## FRENCH EXHILE WAGES ON BARE EXISTENCE LEVEL

**Associated Bosses Have Scientific System**  
By LELAND OLDS.  
(Federated Press Industrial Editor)  
Industrial aviation has been developed mathematically in the cotton mill regions of France. Wage earners receive a bare subsistence for a single individual which is adjusted to changes in the cost of living.  
Children are scientifically allowed for by frugally figured supplementary allowances. Each fraction wage costs are kept down to enable the French cotton industry to underbid the producers of cotton cloth in Great Britain, the United States and other industrial countries.

Mighty Low Wages. Hourly wages in the Roubaix-Tourcoing region are calculated a department of commerce report, amount to 3,975 francs for spinners, 1,976 for cardroom operatives, 1,946 for speed tenders, 259 for weavers and 205 francs for ordinary labor. With the franc worth about 4 cents this means hourly wages ranging from a maximum of 18 cents to a minimum of about 2 1/2 cents. And this is for the better districts in France.

The associated textile employers of the region supplement these wages in the case of workers with families by a "family" allowance. This is for one child, 2 francs; two children, 5 francs; three children, 8 francs; four children, 10 francs. In dollars and cents the daily subsidy runs from about 12 cents to families with four children to something less than 90 cents in the case of families with one child.

As Much in Eight Hours. French employers are still protesting the slight advance in the rate of the results of the war. But, according to the commerce report, they have speeded the workers to where production per employe per day equals the pre-war rate. Each worker tends more machines. The French cotton textile industry employs about 200,000.

**National Plute Body Demands Military Training for Slaves**  
WASHINGTON, June 17.—Slaves, speaking officially thru the Natl. Industrial Conference board, announced it is back of the military training camp movement in the United States. It has had certain "high" officials of the war department make a survey of big business sentiment. A widely-favorable sentiment among business concerns is to give to their employees who enlist in three camps full-time pay for the camp period, while those not being consulted on all questions of imperial diplomacy.

**CANADIAN MINERS WANT MORE ACTION IN LONG STRIKE**  
EDMONTON, Alberta, Canada, June 17.—The militants of District No. 18 of the United Mine Workers of America are demanding that a special convention be called to demand a more aggressive attitude from the district officials toward the strike of thousands of coal miners which has been on here since Feb. 1 against a wage cut of \$1.17 a day. The strikers have not been receiving support from the international union, which is another of the rank and file's grievances.

The special convention of the district, if it is held, will undoubtedly go on record as being in favor of calling a special convention of the U. M. W. A. to consider the question of reinstating Alex Howat or reinstating Alex Howat or reinstating Alex Howat or reinstating Alex Howat.

THE DAILY WORKER

PUBLISHED BY THE DAILY WORKER PUBLISHING CO., 1111 W. Washington Blvd., Chicago, Ill.

SUBSCRIPTION RATES: \$2.00 per year, \$1.00 for 6 months, \$0.50 for 3 months.

Editor: J. LOUIS DONOHUE, Business Manager: MORRIS J. LOEB

Entered as second-class mail Sept. 21, 1923 at the Post Office at Chicago, Ill., under the act of March 3, 1879.

Advertising rates on application.

The Lying Press

The capitalist press never lived up to its reputation as a purveyor of facts and purveyor of falsehood better than in its treatment of the St. Paul convention.

For months before the date of the historic gathering were in the hands of the capitalist propaganda agency, including labor fakers, fake liberals and the bankrupt socialist party poured out the vials of their wrath on the great class farmer-labor movement that had its focal point in St. Paul.

Various discredited political hacks were trotted out to denounce it. Combers did his stuff. The socialist party kept up a constant stream of villification. Finally, Robert Marion LaFollette was induced to raise his voice against it.

Then from the twin cities came the news that the Communists were in the convention. This was the biggest whopper of the lot.

MacDonald's Foreign Policy
Mexico is now a school room in which the British Labor Party government is giving an excellent lesson in the art of serving capitalism.

The foreign policy of Britain however, remains the same under the so-called labor government as under the Tories and Liberals. Hence the Mexican crisis.

Force and Violence
The capitalists and the different brands of labor, liberal and labor, who are the allies of the capitalists against the radicals seek to poison the minds of the workers against the communists.

The British Labor Party government is here shown playing the role of defender of the interests of the British capitalists in Mexico as it does in England and all over the world.

Moscow is credited by some of its enemies with having distorted notions of the condition of the revolutionary movement here and the weakness of the government. Let us hope that the reports of hold-ups, hangings, train robberies, etc., will not create the impression on the other side that the Tsarist Dome government has quit.

A New York society girl in announcing the date of her wedding also announced that among the witnesses to the ceremony would be her three pet dogs. The girl is described as "beautiful but dumb." She has something on the dogs at least. They are dumb if not beautiful.

Mussolini's Dilemma

The kidnaping and possible murder of Giuseppe Matteotti, socialist deputy in the Italian parliament, by a Fascist gang, dramatically brings to the attention of the world the bloody magnitude and its cut-throat organization find themselves in after three years of dictatorship. Unable to turn back the hands of progress on the dial of time, the Fascist regime is now faced with the growing wrath of the working class which he has ruthlessly suppressed and the disappointment of those who succeeded temporarily in seducing with his diabolical promises and specious promises.

But the Italian workers seem to be recovering from the demoralization caused by the Fascist murderers and the treason of their social democratic leaders. They are again assuming the offensive in spots. Their morale is improving.

Lawless America
One of Wall Street's battlehalls, while practicing for the next war off the coast of California had a collision with the law which resulted in the death of 48 sailors. According to the evidence so far produced, the accident was due to the inefficiency and negligence of the ship officers.

Force and Violence
The capitalists and the different brands of labor, liberal and labor, who are the allies of the capitalists against the radicals seek to poison the minds of the workers against the communists by making it appear that the latter advocate the use of force as a method of advancing the interests of labor.

Philip Woazis
Mr. Woazis was a classmate of Coolidge in the Murray Crane School of Capitalist Politics. He is the president of the United Textile Workers of America.

Stearns is Very Dry Goods
Just as McKelvey had his Mark Hanna and Harding had his Frank Kellogg, so Stearns is very dry goods.

Wall Street's New "Old Guard"

There is an unspoken saying in Wall Street that the "Old Guard" does not do but surrenders.

President Coolidge is a graduate of the Murray Crane school of politics. He was a classmate of the "Old Guard" in the Murray Crane School of Capitalist Politics.
