Publisher Wires Attack On Typo Strikers

(Special to The Daily Worker)
SEATTLE, June 24.—William Randolph Hearst is personally backing the war against the printing trades in his composing rooms at the Seattle Post-Intelligencer where the printers are on strike and the stereotypes and matters are locked out because they refused to work with scabs.

In a telegram to Secretary Charles W. Doyle of the Central Labor Council the publisher assails the union men for going on strike and backs up his local managers in their fight.
Hearst's friendship to a myth. For a long time many Seattle printers hoped that Hearst would admit their grievances when he learned the facts that they had been getting under the Seattle newspaper scale for months before the strike and that the new agreement the management tried to force would not only cut them still further, but would lengthen their working hours and remove employment safeguards.

The myth that Hearst is a friend of union labor was well-bested with reality. It is now effectively shattered. In a reply to Hearst the strikers and locked-out men sign themselves, "Your Former Friend," and list the grievances which list some of the outstanding grievances, follows:

The Strikers' Party.

'TEAPOT' FALL AIDED U. S. OIL IN COLOMBIA, U. S.

Ex-Secretary of Interior "Bought" Minister

(Special to The Daily Worker)
BOGOTA, Colombia, June 24.—Another "Teapot" affair is seen by the Liberal Party and radicals here in the influence of United States oil interests in the Colombian treaty negotiations. Senator Carlos Trueta, minister to the United States in 1922 when the treaty was made, is particularly blamed and accused of selling out to the American oil bounds.

The now disgraced ex-secretary of the United States interior department, Albert Fall, and Senator Lodge demanded that their friends, the oil capitalists, give guarantees against the 1919 Colombian decree which declared ownership of all subsurface matters to the state. The American interests succeeded in getting the decree branded as unconstitutional by having the suit of certain Colombians that the supreme court of this country.

Upon this settlement the American senate opposed to the Colombian treaty because "The Colombian Liberal Party claim that Senator Trueta was influenced by American oil money and in turn influenced the court." A tribunal of honor appointed by the contending parties will review the diplomatic correspondence.

LYNCH AND KLAN ISSUES BEFORE NEGRO GATHERING

National Association in Session Today

(Special to The Daily Worker)
PHILADELPHIA, June 24.—The lynching will be the principal issue before the annual conference of the National Association for the Advancement of the Colored People which begins its sessions tomorrow. James Weldon Johnson, secretary of the Association will present the latest facts on lynch-murders and give a report on the progress towards a federal anti-lynching law.
Johnson will hit hard at the Ku Klux Klan activities in Indiana and other northern industrial states. The association's secretary will show that assaults on the Negroes are no longer confined to the South. Since the great Negro migration northward intolerance, discrimination and violence are increasing in the states north of the Mason-Dixon line.
G. O. P. is Anti-Negro.

The matter of a federal anti-lynching law will be earnestly discussed at the conference. Failure has so far met the attempts to put thru the Dyer bill. The Republican party has proved to be anti-Negro as well as the Democratic party which traditionally stands for Negro enslavement. The late President Harding's declaration that he would stand against social equality of the Negro has settled all doubts on that matter.

Disputed with old parties.
The National Association is both a fact-presenting and a legislative-lobbying organization. Until now it has held to the same policy as Samuel Gompers, of trying to get something done for its cause thru the capitalist parties. A change is impending. Many of the persons active in the organization are so disgusted with the anti-Negro attitude of both the old parties that they are considering the idea of supporting a new political movement free from capitalist constraints in effecting justice.

But Davis Will Speak.
The association is not a working class affair, however, and conservative tactics still dominate. This is illustrated in the choice of Theodore E. Burton of Ohio, Secretary of Labor James A. Davis and Senator David I. Walsh of Massachusetts as speakers. Mildly setting off these labor leaders John Haynes Johnson, pastor of the Communist Church of New York and James Weldon Johnson.

Class Organization is Need.
But the fact that respectable and conservative methods are not getting forcing attention of such issues as class organization of black and white workers together—this pressure is coming from the outside but it is felt even within the N. A. C. P.

OFFICIAL REPORT OF 13TH CONGRESS OF THE RUSSIAN COMMUNIST PARTY

The congress of the Russian Communist Party, the greatest section of the Communist International, concluded its sessions shortly before the opening of the Fifth Communist World Congress now meeting. These accounts, the first authentic report of its proceedings, will be of the greatest interest to all comrades in America, and will therefore be best kind of an introduction to the reports of the World Congress which will soon be available and will be published in full in THE DAILY WORKER.

Opening Session
THE 13th Congress of the Communist Party of Russia was opened on the 24th May by Comrade Kameney. In outlining on the merits of Comrade Lenin and in emphasizing the importance of the 13th Congress of the RCP, the speaker declared:
"Comrade Lenin is the creator of the CP of Russia and of the Communist International. He was the best party comrade aid guide of the workers of the whole world along the road of struggle to a better future.
Among others there were unannouncedly elected to the Presidium: Comrades Kameney, Stalin, Zinoviev, Rykov, Bukharin, Trotsky, Tomsky and Molotov.
After tribute was paid to our late comrade and illustrious the Congress addressed a telegram of condolence to the CP of Bulgaria. The Congress further decided to send a telegram conveying greetings to the V. World Congress of the Communist International: "The death of Comrade Lenin has induced the Communist Parties of the whole world to draw their ranks still closer together. It is the greatest pride of the Russian CP to be in a position to aid the Comintern, aid to be one of the most faithful sections of the Comintern. A new wave of revolution is gradually rising. The recent elections in several countries show a rapid growth of the forces of the Comintern which also give rise to new complicated problems for the Comintern. The Party Congress is happy to be able to inform the Comintern that its Russian section is emerging from its crisis more firmly united than ever. The proletarian dictatorship within the Soviet Union has consolidated itself, the economic situation has improved, the RCP remains ever true to the World Revolution."
The Congress further decided to send telegrams to the Communist revolutionary metal workers.

A. F. OF L. CHIEFS ASK JACKASS POLITICIANS FOR TRIPLE FAVOR-WINE, BEER AND MAJOR BERRY

(Special to The Daily Worker)
NEW YORK, June 24.—Samuel Gompers, the last of the executive council of the American Federation of Labor and a host of lesser A. F. of L. functionaries are busy at the democratic convention lobbying for favors.

As one of the democratic National Committee expressed it the chief Gompers' demands are for "Beer and Berry"—the modification of the Volstead Act in favor of light wines and the naming of the pressmen's czar for the vice-presidency.

Would Kill Labor Board.
The A. F. of L. hopes to have the Democratic come out for the repeal of the Beck-Commins law, which makes the Railroad Labor Board possible; the repeal of the Sherman Anti-Trust law which made the basis for injunctions against labor restraints of trade during strikes, and a constitutional amendment against child labor. Besides the Sherman repeal the labor officials are urging additional legislation against injunctions.

Forget Wilson Record.
The fact that the last democratic administration was controlled by super-business and was fiercely anti-labor in its later years especially—as is witnessed by the breaking of the steel strike and the injunction against the U. M. W. of A. in 1919—is conveniently ignored. They also blind their eyes to the fact that the same forces control the party today. Looking the old parties' record in the fact would force them to come out for a workers' and farmers' movement or admitting they did not sincerely want to gain anything thru political efforts.

Met in Astor Hotel.
The Party boosters laid out their campaign in a palatial room at the Astor Hotel. Samuel Gompers professed to his lieutenants the popularity that Berry has gained in business circles since his handling of the pressmen's strike. It was pointed out by others that the publishers would not so generously want to gain anything thru political efforts.

JACKASS PARTY FOR BUSINESS SAYS KEYNOTER

Harrison Frankly Tells Who Are Masters

MADISON SQUARE GARDEN, New York, June 24.—"The Democratic Party is a friend of business, big and small." Thus did Senator Pat Harrison sound his keynote for the democratic convention opening here this morning. "We are for honest business," he said, "and honesty in operation."
It was a dull and uninspiring speech. All about corruption of the republicans and the honesty of the democrats. The first ten sentences contained the word "corruption." It sounded like an string of scandals in the closing sessions of the senate.

Democratic taxation plans, the tariff, and the graft of the republican administration will be the leading democratic issues. Not a hint even about the problems of the working people; not a suggestion of concrete relief for the bankrupt farmers; not a mention of the growing army of unemployed industrial workers. "We are for business" was indeed the keynote of the democratic convention. Just as it was of the republican convention.

Real Story of Brady War
Told by Girl

By MARY WATKINS.
LONDON, June 24.—At 10:15 yesterday night heavy shots were heard around Brady, which awakened the people for miles around. Dynamite shots, also machine guns and high power rifles were heard until 2:30 o'clock in the morning.

The shots fired shots on to the union hall and set it on fire so that it burned down. There were children, women and men sleeping in the union hall, who were thrown out of the union hall's houses by Sam Brady's guards. Three other men were in the union hall. They were taken to the state road.

Two union men were hurt. One of them was shot in the back and the bullet came out through his chest. The other one was shot through his hip. Several seats were badly hurt and were sent to the hospital Thursday.

Thursday, one o'clock, there was a mass meeting in Louisville. There were two speakers. When the meeting was near to end the bell came out through his chest. The other one was shot through his hip. Several seats were badly hurt and were sent to the hospital Thursday.

"Whiskers" Hughes
May Represent U. S.
At Allied Confab

(Special to the Daily Worker.)
WASHINGTON, June 24.—The American government has not rejected the allied conference to participate in an allied conference in London July 15, to discuss putting the Dawes reparations' plan into execution. It was said at the state department today.

Officials would give no indication pending receipt of the invitation, of any probable action. If the United States participates, it would probably do so in the name of the American people's representatives in the "experts" committee.

Secretary of State Hughes is setting for London July 12 to attend the convention of the American Bar Association. It is believed likely in some quarters that Hughes himself may confer with Premier Macdonald's newly appointed Premier Herriot while in London.

BETRAY THEIR HUMANITY AND RACE

By GORDON OWENS.
Colonel Roosevelt Conklin Simmons, reprobate, and ranking officer of the "Ancient Order of Negro Unity" (A. O. N. U.), is still having fits over the activities of the Negro "Reds." In his Defender article of June 21, he imitates the professional white red baiters, by wrapping himself in the American flag. He prates about this country, this government, and, these people who under God, gave Negroes a chance.

In Jacksonville, Fla., a Negro was lashed by a band of hooded Kluxers and unmercifully flogged. In Chicago, Ill., a law abiding Negro has arrested and taken to jail for walking down the street.

For Party work. The inner Party life has become essentially more active and the mass recruitment after the death of Comrade Khrushchev, according to its spirit, has become an organ elected by the working class.

Most important task of the Party at the present time consists in attracting the non-party workers into the Party. The Soviet organs, in the political education of the broad masses, the publication of special popular journals for the new masses gained over by the Lenin revolution, in raising the party work in the villages, in adequately supplying the industrial district with functionaries, in the careful and increased selection of functionaries and in the increased attraction to Party work of the masses won for the Party by the Lenin revolution.

NATIONAL UNION
OF WORKING CLASS
WOMEN PLANNED

St. Paul F. L. Convention
Showered Great News

By KATE GITLOW,
Secretary, United Council of Working Class Women.
At the great national labor convention in St. Paul, June 17 to 20, I met women delegates representing various working class women's organizations. We came together and talked matters over. One thing is sure, and that is that the working class women must be organized, and the different working class women's organizations must come together in a national conference to establish a national working class women's organization, with one program, for the protection of the workers' interests.

All work of organizing the labor must recognize the great value of having the women folk engage in the everyday struggle of the workers, together with organized workers' unions. It is a duty of all working class organizations to encourage and help to further this work.

The United Council of Working Class Women is determined to go on with this work of organizing the labor. We will continue to work through our own organizations. The federations working class women's organizations in Detroit, Mich., and elsewhere. Mrs. Croakshaw, I met, and the women from Minneapolis before whom I spoke, are enthusiastic for a national and shipping union organization and have promised help and cooperation in this line.

Rebel Orator Will
Speak on "Prison
Shadow on Labor"

James P. Thompson, ex-political prisoner, will speak at a national conference of working class women in Detroit, Mich., on Thursday, June 28, at 8 o'clock. Thompson's lecture, "Prison Shadow on Labor," will be held at the Detroit Y. W. C. A. building, 1001 W. Madison St., Chicago.

Thompson will retell the story of his life in prison, and the history of the union men for 40 years in Walla Walla. He will also recount for the first time the story of his own unbelievable subversion of law and order to the class rule of the lumber interests and shipping companies.

As an orator, Thompson is in a class by himself. When he was released from prison, he spent three years serving six years of a twenty-year sentence. Tickets are 25 cents. His home only to find his wife on her deathbed. It is this sorrow and indignation that has made Thompson an orator who speaks with conviction.

Rebel workers are invited to attend the picnic and listen to a real rebel speech on "The Prison Shadow on Labor." Tickets are 25 cents, obtainable at 1001 W. Madison St., Chicago.

59 Grand in Tickets
Lead Astray as Dems
Yelp Graft at G. O. P.

NEW YORK, June 24.—With tickets to the convention here selling at \$100 a piece, a little ticket scandal has broken out in the midst of democracy gathered here. The McAuliffe forces are accused of having spent 3,000 tickets and special police permits.

The delegates from California are all wrung up about a matter of thirty grand is enough to get excited about. The McAuliffe force is accused of having taken into himself 2,500 other tickets, or twenty-five grand.

The McAuliffe forces in private make no bones about having zapped the tickets. "What the Hell," one of them said. "What do you think, that we're going to have a party here and warm manna in this lousy town working for him; we gotta get something outa this show."

The democrats will undoubtedly put a plank in their platform denouncing republican graft. It is to laugh.

"All the Dope" on
St. Paul Convention
Comes Out Thursday

Here's a chance to hear the "inside dope," the "low down" on the June 17 St. Paul convention of the Farmer-Labor Party. The program is so packed with news that you will want to know what went on in the Twin Cities and what the real story of the convention is. Tickets are 25 cents.

No Wage Cuts!
No Increase of Hours!

THE Trade Union Educational League must everywhere take up the challenge of the employers. Everywhere the slogan must be sounded: "No wage cuts. No increase in hours."

With industry slowing down, with unemployment clutching the workers in ever larger numbers, the employers of the United States are preparing to make another great drive against the labor unions, hoping to break them completely and throw the working class helpless into their machinery of exploitation.

In each industry unemployment is creeping. The bosses are using it to pit the workers one against the other, to shift production from center to center, to discharge and re-hire at lower wages, to lengthen hours, to reduce wages scales generally, and to throw labor conditions into a chaos. "Squeeze greater profits out of Labor" is the capitalist slogan.

Not content with their partial successes against the textile workers, the miners, the clothing workers, the rail workers, and in many other fields, the capitalist class is preparing to deliver a smashing blow, organized and directed centrally by the agents of big capital, to smash the labor movement in another great "open shop" drive.

"Resistance," is the slogan for the workers everywhere; "Resistance" to the last ounce of our energies. No wage cuts! Let every great union, every central body and district council, every local, and every industrial union, resolve that wages shall be maintained at all costs, in preparation for a great attempt to raise all wages to a standard approaching decent living costs. No wage cuts!

No increase in hours! The 8-hour day must be established and maintained as the maximum, with the 6 and 7-hour day for unhealthful industries. Hours of labor must be shortened instead of being lengthened. No increase of hours!

Whatever may be the handicaps to successful struggle, whatever conditions may seem favorable to the employers, the workers must sound a militant challenge to the capitalist offensive. Better to go down fighting than to surrender without a struggle. Any worsening of conditions that is accepted without a fight will be the prelude to further intensification of the crushing policy of the capitalists. The bosses will force the fight; we can resist them better now than later on.

There is no excuse of any kind for the workers not to have increased wages and shorter hours. The capitalists are rolling in wealth, created by the workers. Their greed fact that nothing but struggle, organization, determination, and more struggle, will protect their interests against the blood-sucking crew.

Rally the unions! Rally the workers, organized and unorganized, into one mighty body of working-class will and determination! No wage cuts! No increase in working hours! NATIONAL COMMITTEE, Trade Union Educational League.

PROBE SHOULD HIT ELECTRIC TRUST

(Continued from page 1.)
and Australia. The Western Electric company has supply houses in the principal cities, with a force of thousands of men in the local units. The boards for the Bell Telephone of the country.

He also supposed disclosure by the Interstate Commerce Commission under President Taft's administration. The automatic machines used by the Western Electric and the Western Union are interlocked as such as to prevent the machines from being used by the Western Electric.

The telephone service of the Bell Telephone company which covers 95 per cent of the total stock of the Western Electric company is going back to work. The change to the automatic dial system involves hundreds of millions of dollars and covers a vast territory of the country.

Why is not the project carried through? In view of the fact that the Bell system and the Western Electric had the best year in their history last year, the enormous profits which have not been reinvested in expansion.

As Western Electric. Any investigation conducted by the city council with regard to telegraph and telephone rates, as far as the council does not call in the Western Electric company and the Bell system and demand to know why this change to the dial system, which supposedly would improve service to the public, is not being carried through.

High public utilities projects have been proposed within the last year. In their "hot air" literature, distributed to the employees, the Western Electric boasts that employment is never slack because the demand for public utilities is constant. Yet the Western Electric has laid off nine thousand men and the change to the automatic dial system has been suspended.

If the dial system project were allowed to proceed full blast, service would be greatly increased, and the Western Electric would be forced to employ more men instead of laying off their force. The Western Electric would hire thousands of men to make the automatic dials and install them.

Organized Workers Should Lead. Muscle Shoals is another electric project which in the future will open up large new fields in the electrical industry. But, as an old-time electrical worker pointed out under Ford or any other private capitalist, it will be a scab project, bringing only more men to the plant.

"Organized labor must see to it that these projects go ahead. But that they do not mean that the workers in Chicago should be directed under the guidance of the council, and the Chicago Federation of Labor should see to it that the project is carried on under strict party discipline."

In the same way the Muscle Shoals project should be developed by the workers in the future, but not by the electrical workers' union dictating the conditions under which their members should work. The DAILY WORKER should see to it that the project is carried on under strict party discipline.

Accuses Labor Banker of Being "Red"

Ben W. Hooper, agent of the railroad corporations on the Railroad Board and hated by all railroad workers as the means of many wage reductions issued a statement yesterday in which he denounced Warren S. Stone of the Engineers' union, and D. R. Roberts of the Firemen, for their radical political agitation...

You are among the leaders of a political movement in which you are attempting to divide railroad employees into an alliance with socialism, says Hooper's statement, which is in the form of a letter addressed to the two union heads.

Two Dead Mark the Latest Effort to Conquer Everest

LONDON, June 24.—Mount Everest, the world's highest and only unrequered mountain peak, has claimed the lives of two gallant climbers, George Litch Malloy and A. Irvine.

Their bodies lie in the grip of the eternal, fearful snows of Everest, only a mile and a half from the summit, a height never before attained by man. The rest of the party returned to a base camp safely, and Colonel Norton, accompanied by explorers, telegraphed meagre details of the tragedy.

That they had faced the perils of Everest's steep slopes knowing full well the danger was attested to by Malloy's last message: "The third time we walk up East Rongbuk glacier will be the last, for better or worse. We expect no mercy from Everest."

EXPECT LABOR PARTY SWEEP IN AUSTRALIA

Four State Governments Already Carried
By W. FRANCIS AHERN.
(Federated Press Staff Correspondent)
SYDNEY, N. S. W., June 24.—The political outlook in Australia suggests that labor will sweep the continent in the national elections next year. During the last 12 months labor victories in the state elections have been a steady stream of pleasant, and this is expected to be reflected in the national elections.

"FIGHT STRIKERS" U. S. IMPERIALISTS ORDER MEXICAN CO.

(Special to The Daily Worker)
MEXICO CITY.—The iron heel of United States imperialism is stepping hard and ruthlessly upon the striking oil workers of the "El Aguila" company of Tampico. United States oil has not permitted the El Aguila directors to enter into conference with the strikers, also such a conference was arranged weeks ago. Each day the strikers promise to come, and each day the committee of workers is treated by hours of useless waiting. The situation in Tampico has been critical for the workers. It would not have become unbearable were it not for the splendid cooperation of the workers of the other grades. They are giving all they can do only in Tampico, but in every state of Mexico, and order has been issued by the Mexican Federation of Labor executing a fixed, weekly contribution from each worker to the El Aguila strikers. A general strike is threatening and may break out any day in Tampico if United States oil continues its high-and-mighty disregard of the Mexican workers.

CHURCHES CRY CHALLENGE TO WAR SYSTEM

Federal Council Can't See Class Struggle
By LAURENCE TODD.
WASHINGTON, June 24.—Pres. Coolidge, Davies, Perkins, George of the chemical warfare service and the rest of the super-quanglers of preparedness are today directly challenged by the executive committee of the Federal Council of Churches. Nothing that Jane Addams and the Women's International League said or did, in their recent visit of congress here, was so crucial in its implications to the military ring as the respectable spokesmen of the war office estimate this year: by 300 million as compared with last year, the Russian government is going to ask Parliament for extraordinary supplementary credits.

On an average there are about five men to every job, and only fighting will keep wages over \$2 a day. Twelve months ago there was not only one labor government in Australia—that was in the state of Queensland, where there was a majority of one. Today, there is a labor government in Queensland with a majority of 4; one in South Australia with a majority of 8; and in Tasmania labor is in power through with the support of other parties.

Costly labor to smash. In the national parliament, as an anti-labor coalition government is in power but its prestige is shattered and already there are prospects of the coalition ending at any moment and causing a general election. The coalition consists of the Conservative party and the Country party—the latter representing, not the dirt farmers, but the wealthy ranch owners, stockjobbers, and primary market manipulators.

Success to Harvest Drive

The annual harvest drive of the Agricultural Workers' Industrial union of the Industrial Workers of the World has commenced in Oklahoma and Kansas and will sweep north into the Dakotas as the wheat ripens. This organization, since 1915, has done excellent work in raising wages, shortening hours and developing class consciousness in the grain belt.

The winter "stake" of many thousands of workers must be made during the harvest season. On this sum will depend their livelihood thru the dark winter of unemployment that seems to be looming ahead. And the "stake" depends on their aggressiveness in banding together in spite of constables, sheriffs and the small town American Legion gangs that infest the wheat country.

This summer many unemployed city workers will tackle the harvest. The complaint has been made in the past that union men have frequently forgotten their union principles, worked for the "going" wage and failed to join the only union in the harvest field—giving the excuse that it was an "outlaw" union. This is a wretched excuse for scabbing. The American Federation of Labor has refused to organize the migratory harvest workers and they should join the union of their fellow workers or organize it doing so, in the particular field where it functions.

In like manner when wobblers go into an industry which is organized by the American Federation of Labor they should join the union of their fellow workers in order that there may be no division in the ranks of labor.

"Turn the Other Rascals Out"

Senator Pat Harrison's keynote speech to the democratic convention yesterday was even more empty than expected. There was hardly a variation from the old line, "Turn the republican party out of office, turn the republican party out of office." "Are you dissatisfied?" It asks the masses: "if so, you want a change. We offer you a change from the republican label to the democratic."

But those who may have expected a note of middle class revolt of course there were none foolish enough to look for the slightest working class tendency, were disappointed. Apparently the jackass politicians are not going to compete with the elephant keeping their class in the group that is the slightest antagonism to Wall Street, but rather to utter their support of the big check books. Money will bring more votes than platforms and speeches; that seems to be the motto of the politicians.

Never before has it been plainer to the working class that the Republican and Democratic parties are identical, that they are the deadly enemies of the working class and the exploited farmers, that their rivalry extends only to seeing which can serve the big bankers most efficiently. The speech of Pat Harrison, more sonorous than that of Butler in Cleveland, was equally devoid of all meaning except this—that the old parties stand ready to fight against the working masses and for the maintenance of the rule of capital. The workers can see the whip of their masters in the New York convention.

Amsterdam Rejects United Front

The Amsterdam International (the International Federation of Trade Unions) meeting in Vienna a few days ago, is reported to have again rejected the working masses' fight against war and fascism by means of a united front with the Russian unions and with the Red International of Labor Unions. This is no surprise to those familiar with the record of the yellow Amsterdam leaders. Since 1914, when they joined their respective governments and sent their followers to slaughter one another, thru the days of the 1918-19 upheavals when they helped shoot down the revolting "red" class, they have of course every European capital, down to the present day, the Amsterdam bureaucrats have taken every opportunity to further divide and weaken the working class.

One development in the Vienna congress, however, shows that the policy of betrayal is no longer so profitable as it was. This is seen in the movement to the left of some of the industrial secretaries, notably the metal workers, the food workers, and the transport workers. These three secretariats have admitted the Russian unions formed agreements for fighting together upon certain issues, and also they have sabotaged these agreements, they have thereby shown that the rank and file of their organizations are strongly in favor of steps towards real international unity in action of the working class.

The leaders of the Amsterdam International are traitors and will never be anything else. But their followers are members of the working class, and the policy of the Red International of Labor Unions, carried out in the international field as it is in the United States by the Trade Union Educational League, has drawn this rank and file into the revolution and internationalism and will ultimately bring them completely over to Communism.

Elaborate staging of the old party conventions has reached the condition that stage directions are written out in advance for the exclamation from the audience. What would happen if some one should ever fail to follow directions? And how long will it be necessary to hold the convention at all, when it would amount to the same thing to send out the accounts prepared beforehand?

"Government by blockhead" is a universal condition of humanity outside of Russia.

Friendly Visitor at St. Paul

By MIKE GOLD. (Written for the Daily Worker) As I look back at the St. Paul convention, where I was with Daisy Johnson, I find it a "friendly visitor" and a "good guest" because it was an occasion that the convention was organized in the American language.

Marxian politics formed the spiritual column of the convention and it seemed to me that the "stake" depends on their aggressiveness in banding together in spite of constables, sheriffs and the small town American Legion gangs that infest the wheat country.

That is the genesis of the labor reporters. They are a new class in the labor movement, a new class in the international labor movement. They are a new class in the labor movement, a new class in the international labor movement.

It is a dirty democratic trick to hold over the Daugherty investigation until the cool fall days preceding the election. Comments the day after the hot spell the American voter will be told that the hot spell is just a routine case.

THE VIEWS OF OUR READERS ON LIFE, LABOR INDUSTRY, POLITICS

Slaves Until United for Power. To the DAILY WORKER—I have not been a subscriber of your paper long, but I have read it with interest. I have read a paper that the workers have a real megal at last. I have read a paper that is clear to me, and that is, are we really dangerous or are we industrial slaves? I have seen both sides of the coin, and I am sure you are slaves; some differ in opinion.

It is my humble opinion that when a law does not work both ways it makes slaves of us. If not, why not? I do not believe there is any more crime in South Bend this year than last, also they said men not working were dangerous.

Yours truly, AMOS EARL KIRK, South Bend, Ind.

Farmer's Food Rotting. To the DAILY WORKER—How do you like to hear from the outside? You like to hear from the outside? You like to hear from the outside?

The Poor Fish says: The Wisconsin Sea Scouts are certainly getting into deep water when they refuse to stop at LaFollette's leadership. Why don't they go it alone against the Farmer-Labor party organized at St. Paul?

didn't give a damn what capitalist newspaper or labor leader disagreed with. Not even the clearest labor reporter in the world could invent a theory to fit Alex. Howat, the great, rugged, Kansas miner. In his speeches, short and powerful as the blows of a sledge hammer, there was no hint of show-boating; there was only the need of the worker to express his feelings. Howat, who looked and talked as if he had dropped his plow in the field to attend the convention, was also a speaker to the reporters. He was a working man, and not even the skillful American liar could make a sinister foreplay out of him.

Then there are the delegates themselves, the unshaven farmers in rough, bazy clothes, with hands calloused by the plow, and industrial workers who have felt the pain of their non-Communist, yet undisciplined, but they are a class in the labor movement, a new class in the international labor movement.

The Chicago Journal of Commerce informs us that Dawes will open his campaign for the presidency in Lincoln, Neb. He will be accompanied by the home of Senators Norris and Howell, who are considered radical. Dawes has a few days selected for his campaign. The qualification is that he is the darling of the farmers, says the Journal of Commerce. He will be accompanied by "General" to line up the farmers while Calvin can reach the industrial workers.
