WORKERS' FARMERS' DEMAND

Donkey keeps Its Klan Knightie MILLIONAIRE DEMOCRATS KEEP ATTACKS ON FRIEND COOLIDGE FROM THEIR PARTY PLATFORM

By JAY LOVESTONE.
(Special to the Daily Worker)

MADISON SQUARE GARDEN, New York, June 29.—Millionaire democrats won their fight to prevent any attack on President Coolidge by name from getting into the democratic platform. The document limits itself to getting denunciation of the republicans in general without mentioning Coolidge.

These millionaire democrats have been much in evidence. Owen D. Young of the house of Morgan having a hand in the plan praising the League of Nations and Bernard M. Baruch including the agricultural plank. John W. Davis, attorney for the House of Morgan and Standard Oil interests is in the running for the presidency. William G. McAdoo, another millionaire candidate, has the backing of Senators Wheeler and Walsh of Montana.

Davis' friends are not too optimistic of too good a ride for their dark horse this week. If it were not for the about of a third party haunting this convention Davis would be made the winner of the donkey Derby. His corporation connections are so sagacious and repulsive that the political bosses here simply can't see how they can make the presently unobscured "progressive" plank stick to this pale steed.

Cox Gallops On.

Agreed on by the prayer to the Holy Trinity, Cox, who was snatched under in the 1920 elections by seven million votes, was brought out of the shell as the first dark horse of the

Which Is Your Platform

THE three principal platforms of the presidential election are now before the workers. On the issues which are paramount to the industrial workers and exploited farmers, these platforms make instructive comparison. Read, and decide which is your platform:

Industry	Republican—Private ownership.	Democratic—Private ownership.
Farmer-Labor —Public ownership. The nationalization of all monopolized industries, such as railroads, mineral resources, plants, and means of communication and transportation.	The Republican party stands committed to fight for the preservation of the present system of ownership of all industry.	Same as Republican.
Farmer-Labor —Abolish injunctions; encourage and protect labor unions; use armed forces of government to protect workers against employers, instead of using them against workers to break strikes.	Republican—Silent on injunctions; silent on labor unions; silent on use of armed forces. Republican record is for injunctions against labor unions, and using of armed forces against labor.	Democratic—Same as the Republican.
Farmer-Labor —Maximum eight hour day, and adjusted to give work for all; constitutional amendment making child labor a criminal offense on part of employer; minimum wage for all workers; social insurance; maternity insurance; revenue for these things by tax on unearned incomes.	Republican—Deplores 15-hour day, but promises no legislation; constitutional amendment allowing states to regulate child labor; silent on minimum wage, silent on social insurance, and silent on revenue for labor legislation, because Republicans wouldn't need such income.	Democratic—No proposals for regulating work day; silent on employment; evasive on child labor; silent on minimum wage, social insurance, etc. Willing to allow states to regulate products of convict labor.
Farmer-Labor —Recognize Soviet Russia; abolish imperialism by giving immediate independence to Philippines, self-determination to colonies and possessions, removal of troops from occupied countries of South America, and absolute non-interference in other countries for purpose of safeguarding investments.	Republican—No recognition of Soviet Russia; no independence to Philippines; silent about imperialism, which has been the settled policy of the Republican party.	Democratic—No recognition of Soviet Russia; favors independence of Philippines; silent about imperialism, which Democrats fought against long ago, but accepted and carried out during 1913-1918 in Wilson administration.

JACKASS PLATFORM'S SILENT ON RIGHT TO ORGANIZE; NOT PLEGGED AGAINST CHILD LABOR

(Special to The Daily Worker)

MADISON SQUARE GARDEN, New York, June 29.—Samuel Gompers' democratic party has adopted its platform for the 1924 campaign. This is also the platform endorsed by Major George L. Berry who will be in the race this week for the vice-presidential nomination. It is also the platform to which James A. Hottel, president of the New York State Federation of Labor, Gompers' lieutenant in Tammany Hall politics, is enthusiastically committed.

This democratic platform does not say a word about trade unions; Injunctions against labor are not mentioned; The open shop drive is not condemned; Abolition of child labor is not pledged; The Railway Labor Board, which fought the shopmen's unions in 1922, is not referred to in the vague railroad plank; Labor, which is offered nothing, is told that it is not a commodity—chill comfort for the workers, whose labor is bought and sold at the lowest price; The anti-labor Ku Klux Klan is not attacked by name; Expropriation of the farmers by the banking trust is ignored entirely in the agricultural plank; Jailing of the thieves who looted the nation's resources in the famous Teapot steals is not urged nor even spoken of; Haiti and other Caribbean nations, that have been overrun by American bankers usurping the government in behalf of New York bankers, are offered not a word of hope of coming freedom.

The democratic platform is the most reactionary the party has put into a presidential campaign in thirty years. It is a challenge to labor which will swell the tide of revolt expressed thru the class Farmer-Labor party organized at St. Paul behind Duncan McDonald and William Bouck.

K. K. K. ENMITY TO UNION LABOR SOFT-PEDALLED

Reactionaries on Both Sides of Klux Fight

MADISON SQUARE GARDEN, New York, June 29.—The utter indifference to labor issues at the Jackass convention was again shown in the fight over the Ku Klux Klan which shooed order weathered by one vote. Not a single one of the spokesmen against the fascist society cited its tarring, lashing and murdering of union workers. Little fuss was made either about the Klan's crimes against the Negro race which has suffered more from Klan brutalities than any other group in American life.

The opposition to the K. K. came from Catholic elements. It was led by such politicians as Brennan of Illinois, Walsh, of Massachusetts, and Moore of Ohio, who are working over the church vote in their communities.

Fight on Bryan Plank.

The fight started over the plank calling for freedom of speech, the press and religion. It was a very vague plank that had been hammered out by William J. Bryan and his fellow majority members of the platform committee and did not mention the Klan by name. Neither did it list the suppression of speech and religion as carried thru against radical labor and political organizations by the United States government.

Catholic Liberty Only.

Brennan, Walsh and the other Catholic politicians, did not give a rap for civil liberty—freedom of speech and the press so far as it affected labor. The platform committee's omission in these respects aroused no objection. The minority report dealt only with the specific case of the Ku Klux Klan and the fight against the Klan

Imperialism and Foreign Affairs

Negro Problem

Farm Problems

was a fight against its anti-Catholic bias and not against its authoritarianism. In this the Irish democrats followed the lead of the notorious Daniel O'Connell, Ireland's great Catholic "emancipator," who fought union labor on the one hand but headed the Irish bourgeoisie on the other in their fight for civil recognition by the British government.

In the Name of God.

William Jennings Bryan made his first national outbreak during the convention in a speech against the proposed anti-Klan plank. He pleaded with the delegates in the name of Christianity not to assail the K. K. by name because to do so might affect the chances of the Democratic party, which Bryan insists is an agency of the Lord.

The final decision of the convention, by a bare 413 2-20 to 141 3-20 votes took an attack on the white hood out of the platform showed that the party defeat was a convincing argument.

Klan Trusts Score Donkey.

Passed around among delegates before the voting was a copy of the Klan Courier, official organ of the Illinois K. K., praising the "sanctity" shown at the republican convention (where the Klan was not assailed), in comparison with the whitened Catholic controlled New York convention, the bandmaster at Cleveland played "Onward Christian Soldiers" with such fervor, said the Courier, that many people thought he must be a Klan member.

Delegates felt the force of the Klan threat to vote the republican ticket.

LITTLE ROCK, Ark., June 29.—Arkansas is the first state to ratify the proposed amendment to the United States constitution, which would prohibit child labor.

The lower house of the state legislature by a vote of 46 to 40 and the state senate by a vote of 15 to 13, voted to ratify the amendment.

NEGROES HIT AT SEGREGATION IN ALL FORMS

Denounce Race Attitude of 3 Administrations

PHILADELPHIA, Pa., June 29.—

Segregation of Negroes in special residential areas, in schools and in government departments in Washington were denounced by the National Association for the Advancement of Colored People in convention here.

Shelby Dawson of Washington, president against the segregation of Negro workers in the government departments in Washington. He said the policy had been started by the administration of administration followed by the Harding and Coolidge administrations. Residential restriction he called infamous. He called on the delegates to "fight this segregation to the last ditch until we can live where ever we want to."

W. S. Henry of Indiana said: "My children begin in segregated schools the finger of humiliation will follow them the rest of their lives."

Irving T. Nutt of Camden N. J. told of the fight the Negroes of Camden had put up against segregation in that city.

ELECTRIC UNION NEEDS TO BRING ALL WORKERS IN

Western Electric Must Be Organized.

PHILADELPHIA, Pa., June 29.—

The reactionary officials of the Electrical International Brotherhood of Electrical Workers, under the regime of Mike Boyle, have allowed the open shop conditions to steadily depress the union membership.

Without protest, the union officers seeming to take directions from Samuel Insull and the Electric Trust rather than the rank and file militant trade unionists, have opposed amalgamation. They have neglected to carry on organization drives, have championed the worn out and ineffective method of craft organization, have raised initiation fees and have allowed their organization to dwindle in size and effectiveness.

It is against this corrupt Mike Boyle machine that the militant members of the Electrical workers' union, the International Committee for Amalgamation in the metal industries, and the Trade Union Educational League protest.

"There is pressing need for immediate action and the task is a big one," says the Amalgamation Bulletin. "The decline in membership in the electrical industry since 1918 is dangerous, especially so when during this time"

WHICH TELLS HUGHES TO KEEP HIS HANDS OFF EASTERN ROAD; SOVIET RUSSIA IS HER PARTNER

By LAURENCE TODD (Federated Press Staff Correspondent) WASHINGTON, June 29.—Examination of the available documents in the dispute between Secretary Hughes and the Chinese foreign office, over Hughes' attempt to hold up the treaty between Moscow and China by means of his claim for \$5,000,000 for the cost of operating the Chinese Eastern Railway in 1918-22, shows that Hughes has been caught bluffing, and that Russia and China have made him ridiculous.

WORKERS WORST SUFFERS FROM TORNADO IN OHIO

(Special to The Daily Worker) SANDUSKY, Ohio, June 29.—The workers were the worst hit by the great tornado which swept northern Ohio. The Indiana, Ohio and Erie Canal, the ducky and Lorain, a steel manufacturing town near here, were nearly wiped out. The east end of Sandusky, in which is located the home of many of the factory workers, was the worst hit by the storm. The Jerry built frame houses came down like a pack of cards in the 60-mile gale. Scores of workers and their families were buried alive under the wreckage. The number of dead as the work searching the ruins was not yet carried that far east.

State Department Says

The official statement issued by the State Department is that the American minister at Peking reports that he has received a note dated June 18th from the Chinese minister for foreign affairs, Dr. V. K. Wellington Koo, and that a Japanese note has been sent to the American minister's note of May 31, referring to the 13th resolution adopted by the League of Nations conference, concerning the Chinese Eastern Railway, and requesting that China take note of his claim for \$5,000,000 for the cost of operating the railway during the fact and calling attention to the fact that the rights of all creditors should be adequately protected.

Dr. Koo did, on May 3, notify Dr. Koo that China would be held responsible for payment of the \$5,000,000 which the American minister had spent while running the railway.

Without Water, Light, Gas. Both Lorain and this city are without water, light or gas. No attempt has been made to estimate the number of injured. The factories and shops are closed. The hospitals are crowded with the injured. The Chinese government considers that it is not responsible for the damage done by the storm.

Refer Hughes to Russia. Translated into plain English, this means—Hughes is a lackey of the Russian government. He is a lackey of the Russian government. He is a lackey of the Russian government.

WORKERS SORE, RUSSIA DIDN'T STEAL DOLLARS

Because it isn't good business to speculate on the dollar, says you are celebrating the second anniversary of a labor bank, there is a little joke among the staff of workers. If a worker wanted to sell his dollar, he would get 100 cents for it. The joke has to do with the attitude of the officials of many American banks scattered all over the country who have been for several years publicly announcing that Russia was not good business to do with.

E. L. ISSUES ON CLOTHING STRIKE

J. W. Johnstone States Attitude of Militants

J. W. Johnstone, assistant secretary of the Trade Union Educational League, has issued the following statement on the struggle now going on in the men's clothing industry in New York City:

The members of the Trade Union Educational League in the Amalgamated Clothing Workers, from Communist to progressive, have notes with alarm, and have been vigorously protesting against the encroachment of the manufacturers upon the power of the Amalgamated in the New York market.

One of the methods of the manufacturers which has been the sending of work to non-union establishments in and out of New York City. This is allowed to continue can only bring about one result, the destruction of the organization.

The so-called socialists only a brazen attempt to bring back the old shop system. The Amalgamated attempt to take advantage of the present trade depression was the last straw, and there was nothing to do but to call a general strike.

The left wing of the Amalgamated has been satisfied for some time that the strike was inevitable. In fact, many of the factional disputes that have taken place in the Amalgamated are the methods of the manufacturers trying to weaken the power of the organization.

Left Wing Demands. The left wing of the Amalgamated organized in the U. S. C. I. presents as the necessary immediate demand upon which there should be no compromise.

1. A minimum wage. 2. Unemployment insurance. 3. 40-hour work week. 4. The right to elect a representative to be represented on all strike committees.

These four demands upon the employers are very modest. The Amalgamated is upon the union undoubtedly to put into effect these demands. One thing will be forcibly brought home to the strikers, if the strike shows any length of time, is the need of an independent working class political party.

Representatives of the Amalgamated attended the St. Paul convention, but they were silent spectators, and took no part in the deliberations. They will also attend the July 4th conference for progressive political union. Will they be silent? No!

CHICAGO POSTAL CLERKS' STRIKE FIGHTING FOR WAGE RAISE WHICH CAL'S VETO SNATCHED FROM THEM

Chicago postal employees smiled when informed yesterday of the announcement of Nicholas Longworth's congressional leadership, that their long wanted and long delayed wage increase would probably be granted by congress when it reconvenes in December. Longworth's half promise to the postal employees

was made on the condition that the postal employees would consent to an increase or adjust rate of the transportation of the mails.

David W. Johnson, of the Chicago Postoffice Union, pointed out that postal receipts for the fiscal year ending June 30, were nearly 10 per cent higher—\$85 per cent this year. During the last ten years, he said, postal receipts have increased 100 per cent or more.

Veto Snatched. Postal clerks now receive salaries ranging from \$1400 to \$1800 a year. The bill vetoed by President Coolidge has increased \$300 a year. They have received no salary increase since 1920.

Many postal employees are already bitter and disappointed because of the veto of Coolidge. They are especially bitter and disappointed because of the veto of Longworth's bill, which was a raise in pay received from every body.

Hits Militant People. There are about 350,000 mail clerks in the United States. The bill vetoed by Coolidge to sign the raise of \$300 a year. Johnson estimated that the increase would affect 100,000 families and dependants of the postal employees, who were affected by the veto.

Many postal employees are already bitter and disappointed because of the veto of Coolidge. They are especially bitter and disappointed because of the veto of Longworth's bill, which was a raise in pay received from every body.

Raises Come Slowly. In order to get a classification of the postal employees it was necessary to fight was necessary. Every wage increase was gotten in the form of compromise.

These schools have been organized in the last year. A Federation of Russian Schools is being organized for the purpose of coordinating the work of these schools.

LABOR BANKS DO NOT STRIKE AT CAPITALISM, SAYS CO-OP OFFICIAL AT SUMMER CLASS

(By The Federated Press) KATONAH, N. Y., June 29.—Labor banks are not real co-operative banks. If the railroad brotherhoods got hold of all the railroads' stocks and bonds, the roads would not by that act become co-operatives.

These are two of the statements which startled the hearers of Cedric Long at the labor institute being conducted at Katonah by Brookwood Workers' college. Long, who is an official of the Co-operative League, was trying to show how the distributive and cooperative movements are misconceptions of the co-operative movement before recounting the achievements of genuine co-operatives in the country.

Long. The strongest of these are the California trust growers and Wisconsin 900 farmers' co-operative insurance companies covering property value at \$7,000,000,000 with premiums at half the commercial rate.

Finns Militant Co-operators. Long has known and pure type of co-operatives are the distributive and service co-operatives: stores, restaurants, bakeries, dairies, and other companies, of which there are about 2,000 in the United States.

TELEPHONE TRUST FIGHTS INDIANA RATE REGULATORS

May Continue Fight in U. S. Supreme Court

(Special to the Daily Worker). INDIANAPOLIS, Ind., June 29.—The American Telephone and Telegraph Company is fighting its battle in the Indiana Telephone Company rate regulation, in its fight against the Public Service Commission which is attempting to prevent the telephone company from putting higher rates into effect on July 1. The telephone company plans to go right ahead with its rate increases so that the additional 11,000,000 revenue it wants will come in.

The telephone trust is prepared to fight right in the Supreme Court of the United States, if the Public Service Commission gives over to the sweeping injunction granted the Indiana Telephone Company by federal court.

The injunction allows the telephone company to charge whatever rates it likes practically. The Commission rates that are not "controversial," which practically means the government body that protects the public business also it is supposed to be a business which is in the public interest. The telephone trust is prepared to fight right in the Supreme Court of the United States, if the Public Service Commission gives over to the sweeping injunction granted the Indiana Telephone Company by federal court.

UNION'S VALUE TO AUSTRALIAN SEAMEN SHOWN

IRISH ISLANDERS PROTEST AGAINST PROMOTING ENEMY

Naval Rule Supporter Would Be Judge

NEW YORK, June 29.—President Coolidge has been asked to intervene to prevent the civic scandal and judicial disgrace of having Governor Philip Williams of the Virgin Islands support George Washington Williams, the present U. S. government attorney on the islands, to be of district judge. The request was made by the Associated Virgin Islands Societies at a meeting of over 1,800 persons held under the auspices of the Associated Virgin Islands Societies at E. Marks Hall, West 133rd Street, New York City. A protest against the proposed appointment was also carried by Governor Philip Williams. The letter to President Coolidge, signed by Casper Holstein, chairman, states that Washington Williams has achieved an unusual success as an official propagandist for that very regime which inhabitants of the islands are now doing their best to change. "Williams, according to the letter, has practiced and defended 'gross abuses' involved in administration of judicial and administrative functions in the same person. He has promoted the appointment of a man sent by the American Civil Liberties Union to Cuba, and has been on the ground that Washington Williams has 'misrepresented the United States in the islands and has spoken progress there.' The feeling against Williams and the inhabitants of the Virgin Islands has been so thoroughly bitter, that the U.S. protest declares that they fear he would use his new post to settle old scores."

Labor Government Promised to Carry Out Land Program

PERTH, West Australia, June 29.—The newly elected Labor premier of Western Australia (Mr. P. Collier) announces that the Labor government will apply itself to the work of carrying out the policy on which it went to the country, and which received the electors' endorsement. The main points are: Immigration, limited only by the state's absorptive capacity. Land reform, stimulated by effective land values taxation. The release of unused alienated land along railways. State-aided cooperative marketing. A basic wage commission to determine fair wage for workers. Repeal of the Mines Department's rent court and legislation controlling rents.

TRADE UNIONS IN SOVIET RUSSIA CONDUCT BRILLIANT EDUCATIONAL CAMPAIGN AMONG ADULT WORKERS

By ANISE. (Federated Press Staff Correspondent)

MOSCOW, June 29.—A large proportion of all adult education in Russia is organized under the Russian trade unions. Every person who employs a worker, if it be only a domestic servant or a secretary, must put an amount equal to a percentage of the wages into the trade union funds for education and social insurance.

On such funds the Moscow Central labor council alone, thru its Cultural or cultural bureau, maintains 166 workers' clubs, each with its own building, theatre and social hall. Of the 800,000 members of trade unions in Moscow province, 300,000 are members of these clubs. Besides these clubs are 300 special culture points, consisting of a reading room in some factory or neighborhood building where the number of workers does not justify a separate club.

Every workers' club has its dramatic section, its Marxist section, its sport section. The old Imperial yacht club, on the Moscow river, has been rented from the municipality to the Cultural Labor Council of Moscow for its members. In the club building there are on all walls 3,048 letters were sent out in the months from October to April by the Cultural Labor Council of Moscow. Perhaps an equal number were secured directly thru the educational authorities of the city of Moscow.

Social and Technical Studies. The subjects of these courses indicate what the workers are interested in. Social and industrial hygiene commands the most attention. Natural sciences came next, then the trade union movement, then technical subjects. Many more lectures are arranged under the separate unions. Excursions also were made in which 40,000 people visited factories, electric stations and art galleries.

Workers Watching Cotton Mills Close While Bosses Play

By H. SIDNEY BLOOMFIELD. PAWTHICKET, R. I., June 29.—Two cotton mills here, employing nearly 3,000 persons, today announced temporary suspensions because of lack of orders. J. P. Coates, Inc., cotton thread manufacturers, employing 3,100, closed their mills from June 28 to July 7.

The Lonsdale company of Lonsdale, Mass., will lay off its 1,300 employees during next week. This mill has been operating on a three-day week schedule for several months. The labor situation in this textile district looks very gloomy for the future, while the republican state senators, who sent the militia into the last strike, are trying to force them to shoot down the workers and to force them to take wages conditions at the point of the gun. Now the organizing rally concerns, card games, golf games, and in the Boston, Mass., a well known vacation place. These "heroic" senator-republicans are the cause of the Rhode Island legislature, but they get their heads cracked and faces smashed, as a result the filibuster carried on between them and the Democratic party, and the workers are the losers under a different party in the legislature.

'MID MEN WANTED' SIGNS ABOUND IN COOLIDGE STATE

G. O. P. Will Keep Mum on Massachusetts

By LELAND OLDS (Federated Press Industrial Editor)

It's a pretty safe bet that Coolidge, Butler, Stearns & Co., sales agents for Republican brand prosperity, won't have much to say about their goods in their home state. According to the Massachusetts state labor department, over one-third of the factory workers in the state have been laid off as a result of the industrial depression which marks the closing year of Coolidge's reign.

The decrease in workers employed during May was 4.3 per cent bringing industrial employment in the state to a level 20.1 per cent below the peak month, March, 1923. This means that 138,000 out of work who were employed last year. The unemployment rate has fallen to 22.1 as of April 1926 and in March, 1925 it was 20.9 per cent.

This means the depression is continuing. Unemployment has increased more than \$3,000,000 a week in lost wages. The decline in employment during May was greatest in the textile and 16 industries covered by the report. Compared with the high point of 1923 the textile industry has lost 20 per cent, shoes 20, rubber products 18, electrical machinery 18, paper and printing 18, woolen and worsted goods 20, and electrical machinery 18. In the boot and shoe industry, including leather manufacture, only 21 out of 146 establishments are reported to be operating up to normal while in the combined textile industry 26 out of 116 plants reported fully operating. In the clothing establishments operating normally are 25 out of 54 and in the electrical trades including electrical and machinery manufacture, 59 out of 169 plants are reported to be operating up to normal. Workers during May was \$3,002, with maximum earnings of \$37.85 in newspaper printing and collating, and minimum earnings of \$18.46 in the cotton industry which normally employs 60,000 and 60,000 male workers in this state.

Open Shop Bosses on Coast Pluck Shake Down, Then Order Keep Mum

SAN FRANCISCO, June 29.—Following reports of action taken at an open shop building trades employers' conference in Portland, the Bay Counties District Council of Carpenters circulated all firms contributing to the industrial association, to ascertain their actual stand on the open shop question. It being understood that many of these firms were contributing under duress.

Just two answers, both favorable to the unions, had been received, when the replies suddenly stopped. The carpenters investigated and found that the industrial association had sent a letter to all members instructing them not to answer the union questionnaires, but to consult the association, which would dictate a "uniform reply." "What are they afraid of?" retort the council officials. "When men and organizations are afraid of the light, it is natural to assume that their deeds are evil."

MILITANT PROGRAM BACKED BY CANADA FARMERS' UNION STRIKES BLOOD-SUCKING BANKERS HARD

By H. M. BARTHOLOMEW.

The farmers of the Canadian northwest are aroused and desperate. Huge meetings are being held in the small towns and hamlets—the meetings of indignant farmers demanding aggressive action. The whole west is ablaze with the fires of revolt and the coming months will witness many a struggle on the part of "the dirt farmers."

More and more desperate grows the economic position of the tillers of the soil. The gulf between city and country prices becomes wider and wider. Whilst prices of farm products have declined the prices of the products purchased by the farmers have increased to an enormous extent. The net result, of course, is an intensification of the destitution and misery of the farmers to an unheard-of extent. Precipitous are the order of the day. In one small municipality boasts of less than six hundred farmers on the assessment roll, seventy-five abandoned farms, farms set for arrears in taxes alone.

In three small municipalities in Saskatchewan, 10,000 acres of land were set aside last fall for the same reason. Thousands of farmers are having their homes sold over their heads, and are compelled to leave the country. In Saskatchewan, 10,000 acres of land were set aside last fall for the same reason.

Forward to a Class Basis. The farmers of the western farm have been aroused to such white-hot as at the present time. In every county there are huge and enthusiastic meetings are being held, and the keynote of all these meetings is the demand for immediate and drastic action. The writer has attended several conventions of farmers, and at each of these the delegates were unanimous in urging militant action on a concerted basis.

The need for an alliance of the farmers with the industrial proletariat is becoming increasingly apparent. Particularly in the province of Alberta are the prospects bright for the establishment of a real, live mass party of all farmers are workers. In the other provinces the agitation proceeds apace for the establishment of a class Farmer-Labor Party constituted on a federated basis to state that the Nor-West is face to face with class struggles which will exceed any previous struggles, and which will bring together the toilers of the "gold-en west" for joint struggle as never before. In this struggle the Communist Party of Canada will take no small part.

Russia Won't Admit Immigrants Who Do Not Have Passports

MOSCOW, June 29.—It is announced that each time ago several families of Russian emigrants came to Constantinople from America with permits to enter the Union of Soviet Republics and applied for visas at the Russian consulate. The special commission of the Council of Labor and Defense, which was charged to deal with this matter, allowed these re-emigrants to enter the U. S. S. R. by way of exception and provided they belonged to the toiling class, but at the same time it has been decided to announce that the official agency of the U. S. S. R. in Canada that in future no immigrants or emigrants, going to the union, will be allowed to do so, and they will thus be obliged to go back.

Wages 60% Higher Than in England

SYDNEY N. S. W., June 29.—Compared with the seamen of other countries, seamen in Australia receive a high wage. This is due to the activities of the Seamen's Union in Australia, which for many years past has been exerting all its energies to getting better wages and working conditions for their members.

The following comparison shows wages paid to Australian and British seamen: Rates per Month Rank Australian British Chief Officer 217.75 93.00 Second Officer 121.75 75.50 Third Officer 113.75 57.50 Fourth Officer 105.00 50.00 Second Engineer 140.50 50.00 Third Engineer 120.50 52.00 Fourth Engineer 87.00 45.00 A. B. Seaman 92.00 45.00 Cook 85.00 42.50 Trimmer 82.00 41.50 Steward 79.00 40.00 Fireman 32.00 47.50 Chief Cook 88.00 72.50 Chief Steward 82.00 50.50 In addition to higher wages paid to the seamen, Australian vessels have a better maintenance scale for their men than in other countries. Men on Australian ships get 2 days' holiday every month, and overtime pay for extra work, while seamen on British vessels are paid only 20 cents per hour for overtime.

Anti-Industrialist Writer Indicted on Treason Count

HEIDELBERG, Germany, June 29.—E. J. Gumbel, who for years has been known in the West of the ocean as the author of his fearless exposure of monarchist plots, has been indicted in Germany for treason on the basis of his most recent book, "Conspirators," which contains comprehensive details regarding illegal military organizations. The "Treason" is supposed to be the most interesting of his books. It brings to the attention of the enemies of Germany. The fact that his stings have so far merely brought illegal organizations which under the treaty of Versailles and under German law are forbidden, seems to have escaped the attention of the department of justice. The trial promises to become most interesting, provided it ever comes off.

Free Speech Fight Protest

NEW YORK, June 29.—The World War Veterans, New York State post, today urged a protest to the Buffalo City Council against the proposed ordinance to "restrict freedom of speech." The protest is part of the free speech campaign in Buffalo started by liberal and labor organizations following the forcible breaking up of a Proletarian Party meeting in Lafayette Square, June 14, and the subsequent announcement that the city council would pass an ordinance restricting street meetings.

Many Russians Lose Homes When Villages Are Flooded by Lake

(Special to The Daily Worker) LENINGRAD, June 29.—Sixty-one villages have been submerged by the terrific floods around Lake Ladoga, the largest lake in Europe, which is on the border of Finland and Russia. Thousands are homeless and it is reported that many persons are dying of natural causes. The water rose 14 feet causing tremendous damage.

Italy Joins Premiers Confab.

LONDON, June 29.—Italy has accepted an invitation to attend the inter-allied reparations conference. It was announced today that the conference is to be held not later than July 16.

Another Boss' Platform
As a means to camouflage the complete absence of any real issues in the democratic convention, the Klan and anti-Klan battle was a life-saver for the convention managers.

When the National Farmer-Labor party, with its working-class program and working-class candidates begins to threaten the supremacy of either of the "oil parties," watch them get together. See them then suddenly find out that nothing separates them but insubstantial traditions.

The democratic platform adopted in New York is but another version of the one adopted in Cleveland.
The platform of LaFollette differs in form, but in its respectful bowing down before the monopoly of private property in the hands of Wall Street it is also the same.

Only the Farmer-Labor party has a platform that directly challenges the ownership of the United States by the robbers and exploiters, and proposes to take that ownership away and restore it to the masses.

Wobblies, Beware of Yellow Friends
It should be illuminating to those members of the Industrial Workers of the World, who have been tricked into attacking the Soviet government of Russia, on the false charges of political persecutions, that the socialist-anarchist combination in Los Angeles, in staging a demonstration against Russia, caused the arrest of the secretary of the Workers Party because he favored a resolution condemning the imprisonment of the I. W. W. members under the California criminal syndicalism law.

Where is Gompers' Platform?
Sam Gompers made a set of resolutions in London last year, and promised, in return for their being written into the platform, to support the Jackass party.

The Fascist murdered the socialist deputy, Matteotti. Only a few months ago the General Council of Rome, openly collaborating with Mussolini, disciplined the central board of the party for protesting against that policy. After the murder the labor fakery themselves had to protest against the Fascist so they could not be branded as traitors.

Cleveland C. P. P. A. leaders have sent out on S. O. S. for all the old "populist party" men to come to July 7th. The old timers would feel out of place; they were much more revolutionary than the Johnstones.

More Harmony for Cleveland

A group of political job hunters who dominated the Cleveland Conference for Progressive Political Action like to boast about their "harmony" which would be disturbed by allowing the presence of rank and file delegates or Communist.

Representatives of railroad brotherhoods have agreed to support the democratic convention, calling upon that body to name McAdoo, or lose the support of the unions. They imply a promise that for McAdoo they will go to Cleveland to break up the Conference there.

Meanwhile from Cleveland comes a voice from the tomb of LaFollette independent candidates, warning that neither of the other statements is official, that the old guard of LaFollette is still running the show, and that "no group of railroad unions can control the convention."

Paradoxes That Ain't!

The editor of the Miami Herald in a capitalist sheet that came to the attention of the Workers Party, has one of our readers in Florida, who has gone thru some terrible contortions in order to exorcise the demon of the Farmer-Labor party movement.

What the capitalist perversion to make the capitalist political parties stand opposed to individualism, and to suppose by implication that the Republican and Democrats are the real "Communists." We suppose the Soviet government of Russia is what those gentlemen would call radical.

The Executive Committee of the Communist International decided at its sitting of March 20 to give the Norwegian Labor Party, which in November, 1923, placed itself outside of the ranks of the Communist International by refusing to submit to the decisions of the IV. Congress and of the Executive Committee of the Communist International.

Harmony and Non-Harmony

By LOUIS BRUNER
Two names are linked up with the name of the Cleveland Conference for Progressive Political Action, 1924, to build the National Farmer-Labor Party.

With "June 17th," this year, there moved to Cleveland the late Senator LaFollette, widow, editor of the Minnesota Union Advocate, official organ of labor in St. Paul and through the National Farmer-Labor Party.

LaFollette last year quit the Farmer-Labor Party, and in the meantime this year went thru the St. Paul convention, he gave it the whole-hearted endorsement of his paper, after the convention was over.

LaFollette will be nursing his grudge against the bulkheads in the labor movement, in his office in Chicago, while Mahoney will be in Cleveland, demanding recognition for the Farmer-Labor organization brought into being in St. Paul.

What about Mahoney?
Mahoney is not a professed by the debate of Fitzpatrick, Mahoney still believes in the LaFollette line, but he is still wavering.

AS WE SEE IT

By T. J. O'FLAHERTY

St. John Pershing was received by the Prince of Wales and had tea with that gentleman in Buckingham Palace. Also present were the king and his wife Mary, and Mr. and Mrs. King, Christian of Denmark. It was the prince's thirtieth birthday. Why was St. John Pershing's name mentioned in the news? He has made frequent trips to Europe recently. Before the great war Admiral Sims was the chief negotiator between the American plenipotentiaries and the British plenipotentiaries. He has the job. He is preparing plans for co-operation between the two nations in the case of a world war.

General Simms, premier of South Africa, resigned from that office five days ago. General Horning, a well known English politician, has been elected to the British House of Commons. He is preparing plans for co-operation between the two nations in the case of a world war.

One of those prominent individuals who have been mentioned in the news recently is General Horning, a well known English politician, has been elected to the British House of Commons. He is preparing plans for co-operation between the two nations in the case of a world war.

Harry Thaw, who has not done a stroke of useful work since he was born, and who has recently been released from an insane asylum, has been elected to the British House of Commons. He is preparing plans for co-operation between the two nations in the case of a world war.

The Norwegian Labor Party and the Communist International

please let us have your answer by telegraph.
The Norwegian Labor Party.
Oskar Torm, Einar Gerhardsen.
November 1923, placed itself outside of the ranks of the Communist International by refusing to submit to the decisions of the IV. Congress and of the Executive Committee of the Communist International.

What can there be here which is not clear to you? The ECCI is subordinate to the World Congress and acted rightly, then you have the right to appeal to the World Congress. That is the formal reason for our invitation.

You are against entry into the Comintern, as is to be seen from your letter. You state that your delegation will endeavor to create the conditions for constant and friendly cooperation with the Communist International.

Princess Natuska
SAN FRANCISCO.—Princess Catherine, daughter of the Russian Emperor, who has been prominent as an enemy of the Russian government, is now leaving before women's clubs here for all revolutionary workers of Russia and the Russian people. Her speeches, the not so violent as her books have been, are still full of the same old propaganda for the present Russian government.
