STORY OF LONDON UNOFFICIAL RAIL STRIKE AND THE STRUGGLE AGAINST YELLOW LABOR FAKERS

By CHARLES ASLEIGH.
(Special to The Daily Worker.)
LONDON. (By Mail).—The unofficial strike of railway shopmen commenced. The effects in London were immediately noted thru the closing down of about forty of the stations on the city's complicated and immense underground railroad system. In various other centers, such as Cardiff and Birmingham, the shopmen also struck. These withdrawals of labor, however, affected only the Great Western Railway, and the amalgamated London electrical lines.
The strike was a result of the long period of waiting which the railway shopmen, most of whom are organized in the National Union of Railwaymen, had been thru, in the hope that the executive of their union would initiate a national move, in order to remedy the lot of the shopmen. For two years, the leaders of the unofficial movement state, this question has been talked about; but nothing has been done. It is because of this dilatory attitude, on the part of the union leaders, that the unofficial strike was started.
The movement began really at a rank and file conference of railway shopmen in Bristol, where the demands were drawn up. These demands included a ten shilling advance in wages, with a minimum of three pounds bonus; consolidation of the existing special weekly war bonus of sixteen shillings and sixpence; one week's holiday annually with pay; the guaranteed day and week. After the Bristol conference, which took place in May, these demands were presented to the railway companies who refused to negotiate with the workers, on the claim that the matter did not come within the national agreements between the employers and the union.
The unofficial strike committee, composed of representatives of various grades of the shopmen, and of various localities, secured quarters in the London Labor College and proceeded to lay plans for the strike.
In the meantime the executive committee of the National Union of Railwaymen was bestirring itself at last—not to secure the men's demands, however, which it had delayed doing for a couple of years, but to wreck the unofficial strike which the men had launched after long and fruitless waiting for their officials to act.

WAR ON COLOR BARRIER ISSUE AT NEGRO MEET

Communist Lead Fight, with G. O. P. Blocking
(Special to The Daily Worker.)
PHILADELPHIA, July 1.—If the official actions of the annual conference of the National Association for the Advancement of Colored People, now nearing its close here, are an accord with the practically unanimous sentiment expressed by speakers and delegates, the proposals for universal, full social, political, civic and economic rights for Negroes, will go thru with a bang.
Practically the same proposals which were made to the Negro Sanhedrin conference last February in Chicago by the Workers Party delegation and sympathizing elements and which went down to defeat before the onslaught of the combine of federal office holders, real estate speculators who profit by segregation of their own race, and proprietors of a multiplicity of agencies, have been brought before this conference by Robert Minor, of the Workers Party, who is seated as a delegate.
To Let To First Corner.
These measures include a deeply radical proposal for taking the matter of segregation entirely out of the hands of private real estate speculators, resulting in the total expropriation of all residential real estate, and establishing by law the right of "the first come" be Negro or white, to rent any residence in any part of the city, independently of the will of any landlord, besides to say, there is hardly any doubt that strong, if silent, opposition to so drastic a proposal will be found among the conservative republican element representing property interests.
The resolution proposed by the communist delegate would cut the question knot of school segregation by federal law, taking the entire school system under national jurisdiction and prohibiting any segregation or distinction of color in schools.
Color Line in Schools.
The principle of abolition of segregation in schools has been endorsed 100 per cent by every speaker who touched the subject. The objection of some timid elements of Negro teachers, some of whom desire segregated schools thru fear that no Negroes can obtain teaching jobs except in Jim Crow schools, has been routed by a fiery speech of the Negro preacher, Dr. William Lloyd Irons of Philadelphia, who insists that the conference take a stand for the right of any Negro teacher to teach in any school, regardless of color of pupils or of teacher. There is little doubt that

ISLANDER TELLS LEAGUE HOW U. S. BOMBED WOMEN

Fear of U. S. Prevents Sympathy Resolution
(Special to the DAILY WORKER.)
LYONS, France, July 1.—United States marines killed more than 3,000 peaceful Haitians, often by bombs dropped from airplanes upon villages where women and children perished, Dantes Bellegarde, former minister of public instruction charged in writing a letter fight to bring before the International Federation of League of Nations Societies the question of American military occupation of Haiti.
A preliminary fight on whether the subject should be introduced took place before the federation's political commission, with delegates from 30 nations present.
Delegates Fear Discussion.
Many delegates feared discussion of Haiti's affairs upon the subject of certain quarters towards the league, and they endeavored to wash the resolution off in a bitter fight, expressing the Federation's sympathy for Haiti.
Bellegarde won to the extent that the commission was held competent to discuss his resolution, but the proposal itself was defeated.
Demy Education Funds.
A minister of public instruction, he said, he had been unable to obtain an order from the American financial agent in Haiti for educational funds. He said the gravest commercial crisis had been precipitated. United States marines were even conscientious peaceful citizens, forcing them under pretext of a road law to close street traffic roads to all parts of the island, killing over 3,000 of those who revolted against forced labor.

MACDONALD AS BRAVE IN DEFEAT AS IN MOMENT OF VICTORY

LONDON, July 1.—Defeats mean nothing in the young life of the British Labor Party government. It went down for the seventh time last night in the hopes of common but walked out smiling, determined to hold on to the King's government as long as possible.
The defeat was administered on the government's entertainment tax proposal, and a majority of 55 went into the opposition lobby. The opposition government defeats were taken rather seriously, but since MacDonal came into office, they no longer create any excitement.

AMALGAMATED BEATS CLOTHING BOSSES' UNION

Strike Now Centers Against Independents
By BEN GITLOW.
(Special to the DAILY WORKER.)
NEW YORK, July 1.—Thirty-five percent of the 40,000 Amalgamated clothing strikers will return to work tomorrow morning in settled shops, following the surrender of the New York Clothing Manufacturers' Exchange. Full union recognition was won on terms which will be used as a basis for future settlements.
The settlement followed a day of inspiring mass picketing. Thousands of workers turned out at five in the morning to picket the struck shops. Numerous strikers failed to discourage the strikers one whit. All the discouragement was in the ranks of the bosses. Most of the arrested strikers were promptly discharged.
Will Beat Rent in Line.
The struggle of the Amalgamated will now continue with increased energy against the bosses outside of the Exchange and the union is confident that one hundred percent union control will be won.
Settlement of the Exchange shop was authorized by strikers at numerous meetings where the basis for the agreement was read. Strikers accepted the basis for the new agreement, details of which will be worked out later. The terms include:
1. Full recognition of the union by members of the Exchange and their contractors.
2. Maintenance of present wage scale, a minimum wage scale to be worked out by joint agreement of union and employers 30 days after signing agreement.
3. Minimum scale to be worked out to be commensurate with and dependent upon production. The understanding that production costs shall not be increased.
4. An unemployment fund for unemployment insurance is to be established after December 1st, to be made up of three per cent weekly payment on wages paid workers, half to be paid by employer and half by workers.
5. Steps are to be taken to implement set up arbitration machinery.
6. Agreement is to last one year.
Will Finance Fight
Financial support from the 12 to 15 thousand strikers who will return to the workshop will be of great aid in financing the battle against the bosses who are still holding out.
Union members see more complete unionization of the city than the Amalgamated has ever had. Non-union plants which have been lurking in the city are expected to be forced into line.

BIG BUSINESS CRACKS WHIP ON JACKASS MEET

Smith Brays to Wilds of Wall Street
(Special to the DAILY WORKER.)
NEW YORK, July 1.—Wall Street, which has been conspicuously in the background since the democratic convention opened its hysterical sessions in the great resort of Virginia, Madison Square Garden, today decided to call a halt on the horseplay indulged in by one of its legal artists and get Tammany business, or at least show an indication of approaching normalcy.
McAdoo, not able to crawl out of the oil puddle, is sinking rapidly. Rats are known to desert a sinking ship. The delegates from Missouri turned thumbs down on Wilson's heir and scouted over to John W. Davis and the House of Morgan, former ambassador to the Court of St. James, and United States senator from West Virginia.
Doherty Man Loses Gun.
With this defection, McAdoo began to lose the benign grin that had been his trademark and the fiery look of the invisible empire gleamed thru his piercing eyes.
Wall Street gave McAdoo his try-out, as a man of his prominence deserved, but oil and holy water could not mix and the Kyr Khan oil can, clobbered by the dollars of the Catholic Bohemy, could not satiate the political appetites of the Tammany tiger, who in the person of Al Smith is willing to serve Wall Street, in more agreeable company.
The rise of senator Davis to prominence as a potential presidential contender was the most significant event of the today's balloting. Davis is a Wall Street man up to his eyes, and the credited bourgeoisie of the west are a little scared of the financial ogre. But Wall Street has the money and the Kyr Khan oil can, clobbered by the dollars of the Catholic Bohemy, could not satiate the political appetites of the Tammany tiger, who in the person of Al Smith is willing to serve Wall Street, in more agreeable company.

HOW SAMMY GOMPERS WOULD YELL AGAINST THESE BEER STRIKERS

BERLIN, July 1.—Berlin has been in deep distress over the strike of 8,000 brewery workers who don't see why the brewers should be doing land office business while the men who produce the beer are paid low wages. The brewery workers went on strike shortly before the holidays, during which time Berlin is filled with thirty strangers and people generally are inclined to sip more beer.
The result was a beer shortage while the larger saloons, unable to go to the expense of ordering beer, closed. From other beer towns, such as Nuremberg, Munich and Dornum.
The beer develops that four carloads of beer are consumed in Berlin per hour during the summer season.
Sixteen breweries are involved. The brewery workers demand a weekly wage of 48 marks (\$13.75).

OFFICIAL REPORT OF 13TH CONGRESS OF THE RUSSIAN COMMUNIST PARTY

We publish today the deliberations of the concluding sessions of the Russian Communist Party, continued from our issue of June 25. THE DAILY WORKER readers have an opportunity to read an authentic and first hand report of the party unity and the workers are not obliged to depend on the fanciful and garbled versions concocted and perverted by the paid traitors of capitalism and the yellow scoundrels, who are clean mad because the Russian revolution succeeded, thus spoiling their profit predictions. Russia is making new and making history.
Fourth Day of Congress (Continued).
Speech of Comrade Kuybyshev.
The Central Committee has supported the Central Committee in the struggle for party unity and the maintenance of a strict Bolshevik line of policy. The Leninist resolution offered us the possibility of a large scale work for the improvement of the state economic apparatus. The Provincial Central Committees con-
stat up to 75 per cent of workers. The task of the congress is to enlarge the commission by nominating workers to it.
Speech of Comrade Bukharin.
The world economic position reveals three fundamental new phenomena: first the end of the boom period in America; secondly an improvement, a certain stabilization of the Provincial Central Committees con-

HUGE NEGRO GATHERING FLAYS REPUBLICAN PARTY AS ENSLAVERS OF THEIR RACE

By ROBERT MINOR. (Staff Writer, Daily Worker.)

PHILADELPHIA, July 1.—The Coolidge administration suffered one of the most humiliating defeats of its life today when the great Metropolitan Opera House, packed to the roof with supposedly republican Negroes, was turned into an uproarious demonstration against the republican party.

Five thousand Negroes of Philadelphia and neighboring towns, in addition to the delegates from all parts of the country, had filled the sweltering hall for the biggest day of the annual conference of the National Association for the Advancement of Colored People.

Republican party leaders, worst of smouldering discontent, had sent their most brilliant orator, Sen. Theodore E. Burton, temporary chairman of their last convention, while the democratic leaders, apparently

anxious to capitalize the incident, were able to spin their convention's permanent chairman, Senator David I. Walsh, who ran down from New York for the occasion.

Wash Keeps To Cover. News came to the press tables that Senator Walsh had arrived in the city from the New York conference. But he had not reached the hall. The audience waited. There was some shouting, and some shouting to find Senator Walsh. But he had not reached the hall. The audience waited.

WAGE WAR ON COLOR BARRIERS. (Continued from page 1.) This will be the position of the conference—in principle. But whether the conference will accept the Workers Party proposal to make the principle a living reality through the only possible means of organizing the entire black population of South and North and prohibiting segregation of people or teaching by state law, is another question.

AMALGAMATED WINS UNEMPLOYMENT FUND POINT FROM BOSSES. (Special to the DAILY WORKER.) CALL ISSUED FOR ORGANIZATION OF COOK COUNTY BRANCH OF FARM-LABOR PARTY OF ILLINOIS

The Labor Party of Illinois, thru its secretary, Duncan McDonald, has issued a call for a convention to be held on July 30, at 180 West Washington Street, for the purpose of organizing the Cook County Branch of the Farm-Labor Party of Illinois and nominating candidates for the November elections.

The call is sent out to all working class organizations in Cook County, and stresses the need for independent working class political action, and more acute unemployment is growing. Housing conditions are becoming more acute. Unemployment is growing. The workers must organize some effective remedy for this situation.

For this purpose, the Labor Party of Illinois considers it advisable to call a conference of all labor organizations in Cook County, to be held July 20th, at 10 a. m., at 180 W. Washington St., Hall 802. This conference to be based on the following principles:

1. Social and unemployment insurance for men and women in industry, 4. abolition of child labor, with compulsory education; 5. effective action against the proposed junior high and platoon system of education; 6. abolition of the use of injunction in labor disputes.

LABOR PARTY OF ILLINOIS. Duncan McDonald, Secretary. Send credentials and any financial statements to the Labor Party of Illinois, c/o Chicago headquarters, 165 W. Washington St., Room 303.

WOLFE WAR ON KLANIS BEING CAPITALIST RIVALRY BETWEEN THE EAST AND THE NEW SOUTH

By JAY LOVETONE
(Special to The Daily Worker)
MADISON SQUARE GARDEN, New York, July 1.—The orgy of words that the quadrilateral democratic circus has been subjected to in the last four days appears to be over. Sixteen candidates, inclusive of dark horses and dead timber, are now on the auction block. Between the raps of chairman Walsh's gavel the winning steed is to be chosen.

The delegates gathered bright and early to listen to Rev. John Roach Straton led Jesus that "the powers that be are ordained of God." It is the prayer for their "physical strength to bear their burdens."

Klan Confront Crucial
Chairman Homer Cummings of the Resolutions Committee soon after came up to make a confession. He told, with some frankness, of the great differences of opinion among the "religious issues" and the "Klan issue." He told of "the heated, acrimonious discussion" and said with a timely pathos in his tone, "If a committee of 64 could show such feeling, then we began to wonder what would happen if a question was put on the floor."

Must Be in Air
"We began to think what would happen to the party and began to draw closer so that we might have the benefit of the services of our party."

"To all my years of political experience I have never witnessed such a scene as I saw in the committee room at 8 p. m. of the 31st."

Why the Difference
The why and wherefore of the difference in the attitude between the two groups of ruling class interests is a very complicated one. It is to be explained by the difference in the social, political, religious and economic conditions existing in the hands in the various sections of the country.

In the South and in the West big game is not as well developed. McAdoo states, in the whole, less concentrated and centralized. Consequently, the tendency towards the centralization of state power is less marked in this group of states. Consequently the politico-economic conditions in the Southern and Western states afford more suitable breeding ground for the development of an ultra-local, extra-state machinery of the employing class for keeping the working masses in subjection.

Then, of course, there are the religious and social differences making for the greater spread of the tenets of the Klan in the South and West. In this section of the country the non-Catholic and native population predominate. The ratio of Catholics and foreigners is far smaller here than in the Eastern and Northern industrial states.

Furthermore, organized labor which is opposed to the dark order hiding itself in white suits and which has been a source of worry to the

(Special to the Daily Worker)
MILAN, Italy, July 1.—A street or man, Attilio Oldani, member of the Communist Party, was killed in a riot which was staged at night six times and died in the hospital before saying anything for his death. The bodies of the militia heard the worker say something about the murder of Mattotti, commanding the fascist militia, who was responsible. None of the worker's assistants have yet been arrested.

BRITISH TROOPS MASSACRE SIKH NON-RESISTANTS

NEW YORK, July 1.—News trickling thru the British censorship bureau—numerically speaking—about a second Amritsar massacre perpetrated against the natives in India by the British imperialist machine. The 1919 shooting down of 1500 unarmed, non-resistance Sikhs in Amritsar, India, did not become an Amritsar. The new tragedy is of less proportion—numerically speaking—but indicative of the same spirit. The latest massacre of a number of Sikh peasants in Amritsar, India, is being reported here, late February as an uprising of Amritsar, put down by the government. Since then there has been silence.

Defense of the natives, however, cannot be an unspoken source. The American newspaper correspondent, David Zimand, who traveled with the 500 men who upheld the claim of absolute non-resistance. His word is substantiated by two of India's leading men.

Workers Throng To Boston Meet Against Fascists

(Special to the Daily Worker)
BOSTON, Mass., July 1.—A tremendous gathering of workers from all over New England met in Boston Common to denounce the brutal murder of Giacomo Mattotti, Socialist deputy in the Italian parliament, by the highest Fascist official. It is estimated that 70,000 people were present. The great crowd then marched thru the streets of Boston with a band leading the way. The band used to belong to the Sons of Italy organization, but withdrew when its leaders showed their sympathy with the Fascists.

CA'S POLITICAL INTI-TRUST SUIT AGAINST STANDARD GANG FULL OF LOOPHOLES FOR OIL

(Federal Editor)
Recent distribution of \$40,899,892 in cash dividends to the owners of Standard Oil stocks as their share of the profits for the quarter year ended June 30 shows the futility of government attempts to unshare a giant key industry when the trend of the world is toward concentration of economic power.

This quarter's cash handout has been exceeded only twice in the history of the industry. It amounts to the total cash receipts of the owners since the so-called dissolution of the trust in 1911 to over \$1,600,000,000.

But continuation of the pretense that the government can restore a competitive order which is out of date will go on, as evidenced by the political gesture of Attorney General Stone's made apparently on behalf of the Coolidge candidacy. Such political anti-trust suits serve to blind the eyes of the people as to the economic order in which the coordinated key industries serve as the basis of a hereditary dictatorship.

Legal Subterfuges.
Stone's suit reveals one of the legal subterfuges by which the government's oil dissolution order was easily evaded. The numerous companies which compose the combine attempt to avoid the order by means of agreements which limited outside and the territory competition. This while the people slumbered under the impression that they were being protected, profits were kept up and prices as if the combination had been intact.

"GOLDEN RULE" NASH IS GIVING NOTHING AWAY

(Special to the Daily Worker)
CINCINNATI, July 1.—\$60,000 in "Golden Rule" Nash, the nonunion clothing manufacturer of Cincinnati, to avoid becoming a millionaire that he is employing methods deemed akin to the gold brick variety, in the opinion of many of his employees.

Nash recently got much capitalist press publicity by his published announcement that he was giving away \$60,000 in stock to his employees because he hated to become a millionaire. The \$60,000 was a stock dividend declared by his own company.

Organizer Joseph C. Heering of the Amalgamated Clothing Workers finds that to employ gets anything from the golden rule boss unless he was previously the owner of two shares of stock in the concern, which entitles him to the regular stock dividend. All other workers before receiving the free stock must buy two shares for each share of "golden rule" Nash. Workers having one share of stock in the concern, who may before the two free shares are forthcoming. Low wages prevent many from buying the necessary stock.

After getting the free stock the employee finds that its voting power is retained for five years by Nash. If an employee dies before the five years or if the free stock reverts to the philanthropic Nash. In the meantime the employer-owner cannot sell the free stock to which he becomes entitled by purchase of two shares for each share of Nash's consent.

Heering who ran down these and other facts about the golden rule in nonunion clothing shops, reports that he is proposing a "finding ready list" of the Nash factory.

MYSTIC, IOWA MINERS BEGIN TO SEE RED WHEN BEGGING THE BOSS FAILS TO FEED HUNGRY FAMILIES

By THOMAS MYERS-COUGH.
"Altho it took a long time to get me to see your way of reasoning, I find myself coming closer every day." So writes a miner of Mystic, Iowa. It appears that the change has been brought about by the action of the Local Union of that place in letting a committee of four men to visit the operators' association to beg for at least one more day of work each week.

The mine, to which the local union in question is attached, has been working only one day a week and naturally the miners and their families suffered accordingly. So at a regular meeting a discussion was had on the question of poor work and the resultant misery.

'Gold Stick' Farmers In Lobby Club Visit Michigan Av. College

EAST LANSING, Mich., July 1.—The 'Gold Stick' farmers in the lobby club visited Michigan Agricultural College recently to enjoy the "family style" basket lunch provided for them by 25 professors who were looking after their own material interests in so doing.

The business men "farmers" in respect to the Michigan Agricultural College, expressed their pompos satisfaction at the farm plot.

OPPOSITION TELLS MUSSOLINI TO BE 'CONSTITUTIONAL'

Mattotti's Murderer Can't Get Lawyer

(Special to The Daily Worker) ROME, Italy, July 1.—Benito Mussolini's dictating days are decidedly over. The blackshirt premier's attempts at intimidation and later joining have failed to secure support for his government after the last hour, his crime, the murder of the Socialist deputy, Mattotti, and the exposure of Fascist grafting.

The parliamentary opposition related to Mussolini's intention of continuing out of session until a constitutional government is reestablished in Italy. The opposition members reaffirmed the previous stand that the Fascist militia must be disbanded.

Not a "New" Cabinet. Mussolini's move to reorganize the cabinet "with all parties represented" is a feeble and futile gesture. The "liberal," "democratic" and "Catholic Nationalists" which he will include with Fascist in the new government are themselves in sympathy with Fascism and Mussolini because they were elected in the National bloc. The real opposition parties are not to be participants in the new cabinet.

The Social-Democratic opposition parties may get compromise again with Mussolini and allow him to continue to rule. The opposition parties are not to be participants in the new cabinet.

Ben to Blame. The Social-Democratic opposition parties may get compromise again with Mussolini and allow him to continue to rule. The opposition parties are not to be participants in the new cabinet.

The opposition group, however, with the exception of the Socialists, who are remaining out of the present dithering and demanding Mussolini's resignation, do not have the earlier cry for ousting the Fascist premier entirely.

The political situation remains unsettled and uncertain, with Mussolini on the wane.

Dumini's Self Workers. The magistrates are nearly through examining the dozen or so men held for the kidnapping and murder of the Socialist deputy, Mattotti. The witnesses among them are the committee members not yet involved, will be called. The prisoners, most of them former Fascist cabinet members and other high officials, will be taken to Lake Vico over the ground on which the murder is supposed to have taken place, in an effort to get them to break down and tell what has actually been done with the slain man's body.

Ameglio Dumini, chief suspect, has so far been unable to get any attorney willing to defend him. He has many other black charges against him, also he seems to be near 29 heartbeats.

Dumini was born in St. Louis, 29 years ago, of a Tuscan father. He fought in the Lombard corps during the war and afterward could not admit himself again. He is said to have been guilty of more than a dozen murders, committed when the work was over under the Italian factories.

Official Report of 3rd Congress of Russian Communist Party

(Continued from page 2) economic position in Central and Western Europe, and thereby an agrarian crisis on a world-wide scale.

The agrarian crisis promotes the revolutionizing of the peasant masses and the abolition of the landlord system. The agrarian crisis has been achieved by means of expropriating the middle classes and by "abolishing" the landlord system by means of increased pressure upon the working class whose wages were reduced and whose working hours have been increased. It is a new phenomenon which the economic revival practices with the greatest political difficulties.

This in England once witnesses the centrifugal efforts of the colonies, social unrest and labor struggles. In France there is an increase in the state debt, in the taxes and in the cost of living. The bourgeoisie needs a breathing space, therefore on its part it employs the tactics of the united front in order to win over the petty bourgeoisie. Where the class antagonisms are aggravated, the tactics of the united front are used and even comrades Zinoviev had been obliged to resort to them.

Against the "Restoration" offensive of the bourgeoisie, the proletariat is united in the tactics of the united front. The tactics of the united front are used and even comrades Zinoviev had been obliged to resort to them.

the proletariat is once more, in the face of the actual defeat.

The past year brought a rising revolution. The Communist Party of Bulgaria committed errors in the execution of the united front tactic, a fact which however, is to be understood.

On October 26th of the German proletariat it was a main fault of the Executive Council of the Communist Party that it perceived the revolutionary situation too late.

The present leadership of the Communist Party of Germany has committed the gravest faults in the trade union question as well in the question of the united front tactics and even comrades Zinoviev had been obliged to resort to them.

The chief task of the Soviet government in the sphere of home trade is the stabilization of the currency by all possible means, as well as the supply of the peasants with cheap goods. It is only by these measures that the state and co-operative capitalism can be developed.

MAX J. SILLINSKY, CHOICE OF TAILORS' PROGRESSIVES, WINS PLACE ON TICKET IN "PRIMARY"

Ballots just counted in the "primary" election for general secretary-treasurer of the Journeymen Tailors' Union indicate that the final election in September will see Max Sillinsky, the militant left winger of Cleveland, the victor over Thomas Sweeney, the incompetent reactionary who now holds the office.

Progressives Elated to G. E. B. The present election was another victory for the left wing. The progressive, J. Teser of St. Louis, replacing on the General Executive Committee the reactionary Zavorack who has upheld Sweeney's machine in and out of season.

N.Y. FARM-LABOR PLEDGES AID TO NATIONAL PARTY

Workers Will Unite to Boost McDonald

By HARRY M. WINITSKY
(Special to THE DAILY WORKER)

NEW YORK, July 1.—The executive committee of the United Farmer-Labor party of the state of New York sends its greetings to the newly formed National Farmer-Labor party committee and pledges its support in the campaign to elect Duncan McDonald and Busch as president and vice-president of the United States.

The United Farmer-Labor party of New York is indeed gratified that the convention which assembled at St. Paul nominated a worker and farmer to head the ticket in the coming presidential election and hopes that the national committee will carry on an aggressive campaign through the country.

The workers of New York are anxious to show their solidarity with the workers and farmers of the rest of the country and will do all in their power to build up a powerful state party.

The executive committee of the United Farmer-Labor party will very shortly set a date for another state convention for the purpose of nominating candidates for the state and local tickets, and also map out an aggressive campaign for the state.

PRODIGAL BOSS WHO FLED NEW YORK IS BACK TO UNION FOLD

NEW YORK, July 1.—Moving out of New York City to escape union organization in his children's clothing factory is an expensive operation in the annals of the Doremus Club. After abandoning the clothing factory and setting up anew in Dover, N. J., the firm, which was taken over by Joseph Doremus, is returning to the home grounds, preferring domination of the Amalgamated Clothing Workers to the uncertainties of small town operation.

Denunciations of the strikers were hurled at them by the "Lydiate" officials, and the men were urged to return to work.

The striking shommen, however, stood firm. Then came the storm of abuse from the capitalist press. The main thread, running thru the news items and the editorial articles of the entire British press—with the exception of the labor organs—was that this strike was a Communist strike.

Liberal Organs Spew Venom. Even that incarnation of liberal "impartiality," the Manchester Guardian, exhibited the same hysteria as the rest of the capitalist press. It was not only it had a long article proving, by means of excerpts from an editorial, following the leadership of the terrible Bolsheviks. The proof of the strike was planned and conducted by Communists concealed in the fact that the Communist official organ had published articles against the officials of the union, and in favor of the railroad men's minority movement!

The Communist Party of Great Britain, and the British Bureau of the Red International of Labor Unions, of which they had not started the strike—nor because they were averse to leading the workers in any movement of the workers' battle, but just because they hadn't started it. They found it to be an excellent thing to do, but not planned it.

The strike was the outcome, not of Communist, but of miserable conditions which the shommen were compelled to endure, and the heroic of the reactionary leadership of the union. In blaming the entire affair upon the Reds, the capitalist press did the Left-Wingers the compliment of attributing to them a far greater influence in the British labor union movement than, unfortunately, they have, as yet, acquired.

An amusing instance of this "Red scare" was a statement in the "Evening News" that the workers in the power stations had struck because special instructions had been sent from Moscow that they must continue to operate on the power stations! This conjures up a romantic picture of Comrade Zinovief, sitting in Moscow, with long-distance telephone continually in the hand, sending down instructions to the little group of British workers sitting in comfortable conditions in the London Colliery Union hall.

that the higher officials of the National Union had made against the officials, these allegations. They listed their condemnations of those workers, who were so much struggling for the right to enable them to secure a bare living, to the capitalist press. There the color of the organ is sufficient to enable them to secure a bare living, to the capitalist press.

The result of this was a split weakness. And so, when the union leaders threatened further their condemnation, and on June 11, Lord Ashfield, chairman of the railway company, stated that any man not returning to work would be legally proceeded against for not having given proper notice, and would also be considered as having definitely left his employer—why, then the drift which took place, and the unofficial committee hastily declared the strike at an end.

Loosemen-Men May Come Out. But this does not finish our survey of the railway situation. There are still the locomotive engineers to be considered. The men were engaged in negotiating with the railway company with regard to national demands. These demands relate to the system of classification, not only with respect to the rates of payment for Sunday work.

And a ballot is now being conducted among the 80,000 members of the Associated Society of Locomotive Engineers and Firemen on the question of a national railway strike. This strike, we may note, is not a wide strike of drivers and firemen on the railway.

Weak Socialist Doesn't Add Class Angle (Special to The Daily Worker) PHILADELPHIA, Pa., July 1.—Opposition to the so-called "back to Africa" movement for American Negroes was voiced tonight by Dr. E. H. Dubois, editor of the Crisis, in an address delivered before the National Council of the Advancement of Colored People now in Pittsburgh Annual Conference here.

"Sierra Leone on the West Coast of Africa, like Liberia, was settled by emancipated slaves, some civilized, some uncivilized, some educated and some uneducated. They were left to their own devices on the West Coast of Africa and were joined by Maroons, revolted slaves unjustly expelled from the island of Jamaica. They developed the land, fostered agriculture, established import and export trade, and schools, and sent their children to England for a liberal education. These colored people established and administered a colonial government of their own with the exception of a white English governor.

Capital Made Slaves Again. It is unfortunate, since Africa was known as a vast source of raw material the English felt they must rule the colonies for the benefit of the industrialists interested in the benefit of the natives. The reduction of this colony on the West African coast a source of raw material is one of the tragedies of recent African history.

trial unionism. This is the National Union of Railwaymen which accepts its rank workers of all grades. The union includes all the so-called "uniform" staffs, the station personnel, with the exception of the clerks. It also has all the brakemen and switchmen. It includes a fairly large minority of the locomotive engineers, and also has members belonging to the various craft employed in the repair shop and power houses.

Those of the engineers who do not belong to the N. U. R. belong to the A. S. L. E. P. There were also two other unions, one craft and one industrial, among the engineers. But it is in the shops where sectionalism is at its worst. There you have workers belonging to the four craft unions mentioned above, and also to the N. U. R. The result of this is that the N. U. R. is by no means considered as a particularly militant union.

There is a present situation, at the date of writing, is that the unofficial strikers have returned. The trains are running at their normal rate. But the craft union men are still engaged in parleys with the employers, which might result in strikes in the power houses and repair shops by the electricians, engineers, blacksmiths and vehicle builders. It is really rather a pity that the position of craft organization; one union goes out and the others come out—and

Postal Strike Strong in Two Canadian Cities

Toronto Workingclass Public Backs Fight

By JOHN ROUBI
(Federated Press Staff Correspondent)

OTTAWA, Can. June 28.—As a result of some misunderstanding on the blunder, the nationwide Canadian postal strike, started as a demand for a decent standard of living, has narrowed down to two cities, Toronto and Windsor. Where a game battle is being put up against heavy odds.

On the day set for the beginning of the strike, there was hope of an agreement with the government and a message was sent out postponing the walkout for 24 hours. In light saving, this message did not reach all points in time to prevent the postal workers, and the strike therefore went into force in quite a number of cities. It was the only difference in time, the message prevented a strike.

Labor Forces Divided. At the outset, Toronto and half a dozen points in Ontario, Montreal, and Montreal in the maritime provinces were out on the walkout. The great body of postal workers, however, decided to accept the government's last offer that there should be no out in pay. Gradually afterwards a great many have gone back to work. The postal strike in Toronto and Windsor in Montreal, however, number strike still, but a good many have gone back.

Ottawa Strikes On Toronto. At Ottawa, probably the best organized city in Canada on a union point, the strike last night met with sympathy from the public. In Windsor the mayor and the chamber of commerce have both declared for the men's cause. The delivery of mail is at a standstill there, while most of the Toronto mail is being handled from Ottawa.

Purity of the Drama

The appellate court in New York has upheld the verdict prohibiting the production of the drama, 'God of Vengeance,' by Boleum Asch, which was stopped after being deemed a remarkable popular run. It was charged that the play was 'obscene' because it dealt with a brothel. It is a peculiarity of conceptions of 'purity' in a capitalist society, that public morals can be protected by railing the stage, out of literature and from the newspapers, any work dealing seriously with such problems as prostitution, while the actual evils themselves grow and multiply upon every community unchecked. Whatever the merits of the prohibited play, the same moral code rules it off the stage as 'indecent' that, at the same time, lifts to the highest places in the nation the men and women who profit from the degradation produced by a rotten and collapsing industrial system.

Much to Learn From Back Alley Scrap

By J. LOUIS ENGELHART

Political spectacles of division and disruption precede the program for the United States organized workers, fighting for a place on the back doorstep of the national democratic convention at New York City. Many well-chosen elements that are or have been more or less active in seeking the political support of the bourgeoisie and farmers. Sam Gompers and his Tammany gang members in the New York labor movement have not tried to hide their democratic party affiliations. And the railroad chiefs, who keep nearly company with Gompers and the barbeque and ash canals at the rear entrance to the donkey's quadrangle, are well known to the supporters of McAdoo from the start. In spite of his affiliations.

Peace in the Electrical Industry

There has not been a strike or lockout of consequence in the electrical industry during the past year," declared Chas. T. Ford, secretary of the electrical workers' union.

Ford seems to think this is something to brag about. But what has been the price of this 'peace' of which he is so proud. The employers in the electrical industry have been very glad indeed to make all sorts of concessions, all in a small way, thru their Council for Industrial Relations. They have done so because thereby they have purchased immunity from organization of the vast body of workers in the electrical industry. The number of electrical workers organized in unions is small. The industry is wealthy and growing by leaps and bounds. If those who are organized in unions can be made to believe that some of the rest of the workers in the industry, and leave them helpless and without means of demanding justice, why should not the employers be very glad to use such means. They have been glad, and they have been successful. They have made concessions to the relatively small group organized in the F. B. E. W., and that union has left the bulk of the industry unorganized as the price for their own small advancement.

AS WE SEE IT

By T. J. O'FLAHERTY

The New York Labor, official organ of what is left of the Socialist party, has declared for a strike in its advertising columns. Of course, the editor presumably has no control over the editorial staff, but it is interesting in order to make the deficit which is being made up by the 'editorial staff' to see what the editorial staff has done. The editorial staff has sold cheap suits and justified in complete and utter disregard of the fact that the suits were not of the quality of the suits they were supposed to be. The editorial staff has sold a quantity of suits, but the suits were not of the quality of the suits they were supposed to be. The Republican Trinity

Newspapers report that the plans for the republican campaign are being laid in a conference to date between Coolidge, Dawes and C. Bascom Sliemp. A wonderful combination, this trinity would arouse the enthusiasm of the masses of farmer-labor party. The republican trinity should arouse the anger and resentment of the workers and farmers if anything can do it. Coolidge—who broke the policemen's strike in Boston, who vetoed the soldiers' bonus, who blocked the farm-relief bills, who cancelled the postal workers' wage increase, who has been 100 per cent for Wall Street every issue before the country.

Greet the Workers' Candidate

Duncan McDonald, candidate of the Farmer Labor Party for president of the United States, will open the campaign with a meeting tonight at Wicker Park Hall, 2040 North Ave., Chicago. Workers in Chicago should turn out by thousands to greet this candidate. McDonald carries the banner of the workers' and farmers' government, against the combined forces of the Teapot parties, the oil-slicked democratic and republican gangs that serve the Wall Street parasites. He has been chosen as the representative of the working class to lead the battle against the capitalist class in this election.

Stop the Splitters

The little 'one big union' of Canada is trying to split the miners of Nova Scotia away from the United Mine Workers of America. Lewis has been trying to do the same thing for more than a year without success. The miners of Nova Scotia know that their battle against the coal kings and against the traitors at the head of the U. M. W. A. cannot be won except in solidarity with the miners through the continent. They have refused, and we hope that they will continue to refuse, to be led off into the blind alley of secessionism.

Morgan is Master

It is not a coincidence that one of Morgan's appointees to the Experts Commission on Reparations is a big gun at the republican convention, while another plays a decisive part in the democratic love-feast. Charles G. Dawes, of the republican department of the House of Morgan, becomes the running mate for Coolidge, while Owen B. Young, of the democratic section of the same bank combination, dictates the democratic plank on foreign relations. It is the living proof that Morgan is master in both camps.

Rea Kick in the July Liberator

WHAT was it that Michael said in the census taker? Michael is the living incarnation of the spirit of rebellion that has kept the race more or less free, ever since the world began. It is the ultimate goal of Communism, the yellow dog that yaps at privilege, the friend of all the leaders of the great masses of the organized work force, the revolution of Jeremiah and Jesus, of John Hays who defied the salaried, of 'Gone With the Wind' and reactionary America.

Peace in the Electrical Industry

There is no "easy way" to the emancipation of the working class. There is no escape from the struggle. But unionism, the policy of secession, is retreat. It is cowardice. It is surrender. That is what the O. B. U. is advising. The miners should repudiate such advice. On with the fight to regenerate the U. M. W. A.
