

RED CONGRESS ARGUES UNITED FRONT ISSUES

England and America Under Discussion

(Continued from page 1) Social-democracy and Fascism are the... The speaker is opposed to a bloc of political workers parties, but believes that a United Front policy in the trade unions and in the political arena is applicable.

First Installment of Complete Report by Zinoviev

Editor's Note.—The DAILY WORKER begins today the publication of the complete report by Gregory Zinoviev, chairman of the Communist International, which was read at the World Congress held in Moscow. Readers of the DAILY WORKER must go to this report carefully in order to better understand the problems raised in the discussions of the World Congress that are being reported daily in these columns.

COMRADES: At this Congress we have to outline our future path, but first of all we will like to examine the path which we have hitherto pursued. We must do this, first of all, because, for the first time we have to pursue our work in the International Congress without the leadership and influence of Comrade Stalin, secondly, because in many respects the international situation has now almost completely changed, and thirdly, because in a way, holding a Public Congress, we are celebrating the fifth anniversary of the Communist International. Four world-congresses have been held, and they mark four

blatantly mean a repetition of the events in Bazon. The Central Committee of the Communist International, in its agreement with the social-democrats. Krukowicz's mistakes are not mistakes in principle, but mistakes in the application of the political inactivity to the Central Committee.

the German and the Russian questions the Central committee played a game of hide-and-seek, shifting its position to another, concealed the documents from the masses of the Party. It is not true that the agrarians and in the national question the opposition rejected the decision of the Communist International.

Pepper (America) proceeds to say that the biggest task of the Communist Party is the creation of a mass movement. He also criticized the German and the MacDonald government. He admitted the defeat of the Party in the analysis of the Labor Party as it is at the present time.

Organize to Stop Dies. SAN FRANCISCO, Calif., July 17.—Altho the situation was materially different in other ways, contained in the Pacific coast today is a fairly well separated sector. Sierra, Los Angeles, and Santa Barbara are four distinct units. A plan for organizing the citizens of the state in the labor party is being discussed. The committee formed to meet the emergency now existing in California. Conscripted of men had practically ceased in the five days, but the various industries are on the line for days are being relieved.

After the First Congress, during the January ratification of the Spartacist...

After the First Congress, during the January ratification of the Spartacist, we believed that our German party was a mass party. The masses were very great. Their hostility to the bourgeoisie, and their desire to see the bourgeoisie destroyed, was intense. We communists thought we were the vanguard of this great movement. We were not looking upon ourselves as a party, but as a great movement.

Report of Cook County (Chicago) Workers Party. The Central Committee meeting held on Tuesday, July 15. Nine new members for the Party were elected. Three comrades were transferred into Chicago. Of the nine new members, four are from the Chicago Workers Party. The Chicago Workers Party is a very active party.

Party Activities in Chicago. Report of Cook County (Chicago) Workers Party. The Central Committee meeting held on Tuesday, July 15. Nine new members for the Party were elected. Three comrades were transferred into Chicago.

Street Meetings Successful. Street meetings held by the Workers Party in all parts of the city were very successful in attendance. Literature sales and general effort. Language branches are no longer active. Meetings are being held in the Polish language.

Agents for Daily Worker. Every branch of the Party, if it is not already done so, will be expected to elect an active comrade as the DAILY WORKER agent of the branch. It is also to be a member of the campaign committee of the branch in accordance with the Program of Action outlined by the Central Executive Committee.

Cartridge Workers Killed. ALTON, Ill., July 17.—An investigation was started today into the explosion which yesterday killed Donald Fairchild and seriously injured Miss Myrtle Kelley. The blast occurred at the Western Cartridge Company near here and is the third in powder plants near here in two weeks.

MINERS' GROW TO UNION PLANS

West Virginia Curious to Meet "Ex" Scoundrel

(Special to the DAILY WORKER) ERIEVIEW, W. Va., July 17.—The United Mine Workers of America has charged the International organization has charge of District No. 17. Does not intend to say anything about the State Police. West Virginia. Van A. Bittner, the International official representative in charge of northern West Virginia, said to one of the largest families of miners and their families ever held in this territory.

New York Membership Meeting. NEW YORK, July 17.—There will be a general membership meeting of all Workers Party members on Wednesday evening, July 23rd, at 23rd Street, 142 Second Avenue near 9th St. The meeting will be held at 7:30 p.m. Important meetings held in New York. Comrade W. F. Foster and James Oates returned from the Workers Party in the coming presidential campaign and on the political question.

Boston Party Activities. Dear Comrade: This open air campaign is laying the ground for the election work and is also the campaign to double the Party membership. The election of the State Executive Committee is the field clear and the issue clean cut. For every Comrade who has left the field clear and precedence over everything except union and circumstances unless he notifies the Party.

Reading. (By the Federated Press) Mrs. Anna George's mother, who had been buried and the nation was poor this week, was buried in Reading. Mrs. Anna George's mother had been buried in Reading. Mrs. Anna George's mother had been buried in Reading.

Land at \$3 to \$15 per Acre. DALLAS, Tex., July 17.—The land body of public lands will be sold by the state of Texas Sept. 2. This 47,000 acres which was recovered from the Fairchild and seriously injured Miss Myrtle Kelley. The blast occurred at the Western Cartridge Company near here and is the third in powder plants near here in two weeks.

Actual Disagreement. SACRAMENTO, Calif., July 17.—The Sacramento County Board of Supervisors for criminal jurisdiction ended in a disagreement, the men here, near here and is the third in powder plants near here in two weeks. This is considered a victory for freedom. Send in this Subscription Today.

Huron St. BOSTON—Saturday, July 19, Engineers' Office, 115 Dudley St. NEW HAVEN—Sunday, July 22, S. P. M., Labor Lyceum, 38 Howe St. NEW YORK—Wednesday, July 23, Buvarney Hall, 142 Second Ave. PITTSBURGH—Friday, July 25, Labor Lyceum, 35 Miller Street. PHILADELPHIA—Thursday, July 24, Beth Shalom Hall, 500 Pine St. CLEVELAND—Saturday, July 26.

# The Daily Worker Industry & Agriculture

## WORKS' COUNCILS UNDER DEBATE BY BELGIAN UNIONS

### Don't Go Far Enough, Says Large Faction

(Special to THE DAILY WORKER) BRUSSELS, Belgium, July 17.—The convention of Belgian metal workers, in which 100 delegates representing 115,000 organized metal workers took part, showed considerable confusion as to what constitutes effective workers' control of industry under capitalism.

One faction of the convention held that works' councils are a form of workers' control. Another faction was of the opinion that all that the works' councils can do is to give the workers' delegates a voice to determine certain questions directly affecting the welfare of the workers on the job, such as hiring and firing, safety devices, etc. But as far as having even a measure of control of the industry, this faction held, the works' councils mean nothing.

Another question was whether demand for a vote to determine certain questions directly affecting the welfare of the workers on the job, such as hiring and firing, safety devices, etc. But as far as having even a measure of control of the industry, this faction held, the works' councils mean nothing.

Another question was whether demand for a vote to determine certain questions directly affecting the welfare of the workers on the job, such as hiring and firing, safety devices, etc. But as far as having even a measure of control of the industry, this faction held, the works' councils mean nothing.

## Dicks Attend Meet of Ukrainians Who Protest Polish Rule

YOUNGSTOWN, Ohio, July 17.—A mass meeting held under the auspices of the Ukrainian branch of the Workers Party was visited by city detectives and after confabulating a few pieces of literature and questioning the speaker as to his citizenship the police departed without making any arrests.

The meeting was a protest meeting against Polish imperialism in occupied Ukrainian territory and a crowd of Polish and Ukrainian imperialist supporters gathered around the hall attempting to break up the meeting by creating disturbances outside the hall. Unable to disrupt the meeting by acting as hoodlums the imperialists called upon the police.

Local supporters of the imperialists in Poland and the various other European buffer nations set up by the League of Nations to stem the tide of the economic march of the victors, are proletarian as very busy critics as police informers being inspired by representatives of the "corporate sandal" in the United States.

## AMERICAN UNEMPLOYMENT WILL FOLLOW SCIENTIFIC EXPLOITATION OF GERMANY THRU DAWES PLAN

By LELAND OLDS (Federational Editor)

Operation of Germany by international capitalists as a giant workshop geared for scientific mass exploitation of labor is the objective of the Dawes plan. The discussion of the plan in London now occupies the center of the world stage. The competition of this great workshop operated on lowered standards of living among the German workers is seen by nearly all experts as bound to react upon the workers in the United States and every other industrial country.

Adoption of the Dawes plan will surrender the economic sovereignty of Germany for an indefinite period into the hands of a mixed board of directors including 7 Germans and 7 foreigners.

**American Capital Dominates**

U. S. capital is in a dominant position. This board will have power to distribute to American and other investors 14,000,000,000 gold marks (1 mark, 20c) of mortgage bonds on railroad and industrial properties in Germany. It will have a potential veto over the policies of the new German state bank, including issuance of currency and credit. Essential participation of American capital on a large scale in the ownership of German industry is seen as one of the ultimate results of this is considered a bridge to the future exploitation of Russian resources.

**Blow to Labor Involved in the Plan**

It is in England that the blow to labor involved in the plan lies in the fact that payment of reparations and of interest on the billions of marks of the state treasury must involve an ultimate disposal of large stocks of German produced goods in outside markets. The amount that will in the long run be either collected or transferred to the allies, says H. H. Monahan of the Institute of Economics in The Magazine of Wall Street, will depend upon the amount of reparations that will be developed.

**Development of this export surplus will be difficult, according to H. M. Anderson, Chase National Bank economist, because the low buying power of the German people consequent upon the reparations tribute will mean that the prices of goods in Germany will go below the world level of prices, leaving foreign buying of German goods.**

**Herbert Feis, of the League of Nations International labor office, says: "The strengthening of our tariff will have the effect of increasing the demand of the American capitalists who dominate the government economic policy in this tendency of interest in accumulating imports from Germany despite their depressing effect on the American market. It is in terms of such transactions that they will receive interest and dividends."**

## UNION MINERS SEE WORK ONLY IN SCAB MINES

### Organized Mines Shut; Scab Wages Down

(Special to THE DAILY WORKER) SOUTH BROWNSVILLE, Pa., July 17.—Pike mine of Hillman Coal Co. has closed for 200 days because of the same. Some non-union mines of the same corporation are extending their operations, that is, opening up new working sections and employing men. If a man is known as a union miner, they will not employ him.

The non-union mines are operated on a 1917 scale, which is 25 to 35 per cent lower than in union mines. Some other miners of Hillman Coal Co. in another industry are working yet.

**Close economic interest of American workers in Germany.** The other workers of the world is expected to result from the inability of the allies to accept full reparations payments to Germany. The United States will take German securities partly in cancellation of the war debt and partly for cash to restore French stability. This opportunity for investment of capital in Germany is being welcomed by American investors because the productive equipment of the country is already overdeveloped in many lines.

**Enslaves Big Nation.** In the Dawes plan the workers should provide our finances with an entire industrial nation for the use of the American capitalist. The entire industry to be used in furtherance of their exploitation of workers the Dawes plan is to be used to select Coolidge and Dawes in November. Dawes would preside over the committee of the Dawes plan, which arm of the American financial power.

## Immigration Heads Shown by Detroit Paper as Czars

By BERNARD BOWMAN (Federational Staff Correspondent)

The Detroit News of Sunday, July 13, was devoted to an exposure of the drastic methods of the federal immigration bureau, the department of labor and the department of justice.

"The Detroit News is one of the most influential and wealthy newspapers of the middle west. Its Sunday circulation is near 300,000. The editorial appears to have been written after receipt by the News of a letter from Dr. L. Prentiss, head of the important Detroit immigration district. After Prentiss' advice and secret agents of the local bureau of the department of justice, immigration inspectors and agents in Washington had succeeded in deporting Nicolai Mashevich, a Russian alien, in the face of widespread protest. Prentiss wanted to retract previous editorial criticism of the deportation. It was at least equally a department of justice frame-up.

## Biabee Deportation Leader Was Donkey Delegate in New York

WASHINGTON, July 17.—Edward Weitz, legislative agent of the A. F. of L., returned from the democratic convention, reports that General Greenway, an Arizona delegate, who tried for the vice presidential nomination, proved to be the leader of the copper company mob that kidnapped and deported thousands of union men and sympathizers during the Biabee strike. Mrs. McKay, a delegate whose husband is a union man, denounced Greenway as an enemy of the labor movement.

## Monkey-Chasers in California Fight Against Evolution

(By The Federational Staff) SACRAMENTO, Cal., July 17.—The drive against teaching evolution in public schools has reached California. It was started by a letter to the department of education from Rev. George J. Thayer of Corona, and the fundamentalists have taken advantage of the opportunity to precipitate a struggle to eliminate from the schools over 100 textbooks dealing with biology.

## Gomper's Broken in Health, to Function in Advisory Capacity

WASHINGTON, July 17.—Reports to American Federation of Labor headquarters here from the staff who are with President Gomper's in New York tend to show that his physical strength is broken to a degree that will make his further service to the federation chiefly advisory. He is declared to be constantly in touch with the regular work of his office.

## UNCLE WIGGLY'S TRICKS

"I wonder what Janie has bought this time!"

"It's big enough for a piano."

"No, it can't be a piano."

"Well, it didn't get broken, anyhow."

## PROFIT SYSTEM SAPS WORKING MOTHERS' GLANDULAR ENERGY—FEEBLE-MINDED BABIES RESULT

(Special to THE DAILY WORKER)

NEW YORK, July 17.—Economic conditions are to blame to a large extent," said Public Welfare Commissioner Bird S. Coler, in speaking of the increase of mentally defective children in the modern profit system which forces many mothers to "leave children in the care of nurseries and go off to work while they are bringing other children into being, thus sapping their energies and giving the oncoming generation a very poor heritage.

**Neurologists and psychiatrists, doctors who make special studies of nervous and mental disturbances, have found that the newly arrived immigrant mother and the mother who has to live in industry to help out the family income both are subject to defective gland, endocrine, ductless glands which cause their children to be mentally deficient.**

**Glend Lack Makes "Mongol"**

Glend Lack, a 25-year-old mother, confronted with the jangle and bustle and trouble of life in a great industrial city, was the mother of a "mongol" boy for her first child in the new country. Later she may be more accustomed to the life and bear more normal children.

**Overworked Mothers Bear Most.**

Doctors have not yet fully found out just how it affects the mother of a "gray matter" and what specific effect each mother's activity has on the brain, but they have found that overworked mothers of those suffering from some shock with resulting glandular disturbances are responsible for the majority of the feeble-minded babies born.

**Mentally defective children are born to mothers of leisure who have overworked themselves, but doctors believe that eventually every case will be traced to either physical disease, poison, accident, or glandular defect in the mother at the time of pregnancy. Of course working class mothers stand the greatest risk of having their own bodies so wrecked by their children are affected.**

**Must Spread Birth Control.**

And, of course, working class women cannot readily find out about safe birth control, but they have found that save them the trouble of bringing many children into a world that will control them, and if they are defective, will not have adequate accommodation for them in institutions.

## STEEL WORKERS BOOST FOSTER FOR PRESIDENT

### Picnic Coming Aug. 17; Wants Him to Speak

(Special to THE DAILY WORKER) YOUNGSTOWN, Ohio, July 17.—Steel workers in Mahoning valley who have been bearing such a LaFollette during the past several weeks from reactionary trade union leaders have expressed a great desire to hear William Z. Foster, the presidential candidate of the Workers Party.

**The unorganized steel workers are the backbone of the labor movement in the valley and they accept with a grain of salt presentations of alleged progressiveness coming from reactionary labor leaders who so far have made no efforts to bring about their organization.**

Picnic in Youngstown.

The sub-committee of the Workers Party made up of delegates from 15 locals in the valley with a backing of thousands of unorganized steel workers will hold a gigantic mass meeting and picnic near Youngstown, on Sunday, August 17, and will endeavor to bring the workers' candidate for president, William Z. Foster, here to address them.

## OUR DAILY PATTERNS

4805. Here is a splendid style for evening, rattle, alpaca or crepe. The gumpie may be of contrasting material together with the revers. Plain alpaca for the dress, and linen for the blouse would be attractive.

The Pattern is cut in 3 Sizes: 16, 18 and 20 years. A 16-year size requires 3 yards of one material 54 inches wide. To make as illustrated requires 3 1/2 yards of 36-inch material.

4816. White linen was chosen for this model. It is also good for pongee, poplin, jersey and boucle cloth, and for lettuce and chambray. The sleeve may be in wrist length, or in the comfortable short length now so popular.

The Pattern is cut in 4 Sizes: 8, 10, 12 and 14 years. A 12-year size requires 3 1/2 yards of 36-inch material.

Patterns mailed to any address on receipt of 10c in silver or stamps.

Send 12c in silver or stamps for our UP-TO-DATE SPINNING SUMMER 1924 BOOK OF FASHIONS.

Address: The Daily Worker, 1113 W. Washington Blvd., New York, N. Y.

NOTICE TO PATTERN BUYERS.—The pattern department are furnished by a New York City dressmaker. The DAILY WORKER every day as received by them. They are not to be returned to the customer. THE DAILY WORKER is not to be returned to the customer. THE DAILY WORKER is not to be returned to the customer. THE DAILY WORKER is not to be returned to the customer.

The Plight of the Socialists

"Our gubernatorial situation is a mess and needs clarifying" is the confession in bankruptcy just uttered by Victor Berger, the recent convert to LaFolletteism.

The poor socialist! What can he hope for in the local and state situations after he has signed their own political death certificates on a national scale at Cleveland?

The Honorable Berger, now member of LaFollette's board of strategy to prevent the workers and farmers from organizing along class lines politically and from voting for the only working class ticket in the field, laments the contest of figure-sleight now raging between Hirst and Blaine in the gubernatorial primary contest.

Indeed, the situation is a mess. We welcome the rare and refreshing honesty shown by Berger on this occasion. But how does the lone congressman propose to get out of the treacherous foras into which he has driven his party?

Welcoming the Yankees

Seven years ago the country was flooded with appeals to the masses to shoulder their rifles and go "over there" to do our duty to Europe.

"Labor's Political Demands"

Heading the list in "Labor's Political Demands" that were formulated by the political Gompers and presented to the republican and democratic conventions, was the demand for repeal of anti-trust legislation.

Leninism and the C. I.

The Fifth Congress of the Communist International is over. Its outstanding achievement was the definite establishment of Leninism, the theory and practice developed by Vladimir Ilyich Lenin.

RUSSIA IN 1924

(Continued from Last Issue.) The Crisis Past.

Those were the terrible days of 1921. But how different is the situation in 1924. A great improvement has taken place in the condition of the people which means that the country is patently succeeding. But before going into details as to how and in what degree this improvement has taken place, let me deal briefly with a few general impressions and indications.

Every place we turn we see visible signs of the economic recovery. The people are manifestly stronger and healthier—it is safe to say that the men in the cities have gained at least 20 pounds in weight since three years ago.

The revolution seemed practically a lost cause to all except the devoted minority of Communists. They, who were the only ones left standing, were being pelted and then shot after they were licked. But now the situation is profoundly changed.

Equality for the Division of Spoils

The inter-Allied conference now being held in London is endeavoring to clear up some of the debris of the giant conflict of yesterday. The brains of international capitalism are in a desperate effort to save their system of industry.

One more of the "Yankees are being welcomed by the ruling class in Europe." It is true that the figureheads of the capitalist regime have changed somewhat in personnel.

Our big banking interests, now taking America in the European imbroglio, now talking the United States officially to the front pews of the imperialist arena thru the backdoor of unofficial observers at the London Conference, are interested in convincing the masses of the highly ethical purposes of their investments in order to be able to throw more easily these same masses into a war for guaranteeing dividends in these investments, once they are endangered.

The Labor Premier McDonald struck the keynote of the conference when he said that its business would be to supply adequate security to the investors in the Ruhr zone for Germany. One of the reconstruction of capitalist Germany hinges the reconstruction of capitalist Europe.

American capitalists alone are today in a position to finance such reconstruction. Hence McDonald's speech was an address of welcome to American dollars.

Looking beyond the whirlpools of the surface to the deep currents flowing beneath the sea of words in the London Conference, one sees continents and the germ of a new world conflagration. In 1917 the American flag went to Europe. Tomorrow the American soldiers will again be rushed to Europe to save the world from Communism. What kind of a welcome will these Yankee troops get then? Yes, American imperialism is clearing the decks for aggressive action.

By WILLIAM Z. FOSTER

ditions of former years. Likewise there is still much discontent among the masses of workers. Hard lot, but this discontent is no longer counter-revolutionary, or available for counter-revolutionary purposes, as it was, say, at the time of the Kronstadt revolt in 1921.

In the factories the workers' revolutionary spirit burns high. They are political and best educated workers in the world. They are great internationalists, following eagerly the events in all countries. They are especially interested in America, home of the highest technical industrial development and the great stronghold of capitalism.

Their attitude toward the world revolution is one of eagerness to bring it about. In spite of their own impoverished condition, they rally with funds and offer aid to every mass movement of workers in Europe making a real fight, and when the opportune time comes they will give more substantial aid.

Equality for the Division of Spoils

These ladies of the N. W. P. contend that protective legislation is an insult to modern womanhood. They do not understand that the insult is not to womanhood, but to the human virtues feeding on the life-blood of women workers.

The proposed "blanket equality bill" would prove detrimental to the broad masses of women who do not concern these ultra-feminists. They conceal the odium of their position by trumpeting forth their lullaby cry of freedom.

A Class Problem. These ladies of the N. W. P. contend that protective legislation is an insult to modern womanhood. They do not understand that the insult is not to womanhood, but to the human virtues feeding on the life-blood of women workers.
