MORGAN RUSHING TO EUROPE

CONSPIRACY TO SHIELD SLAYER OF COMMUNIST

Only Witness, Justice Crim, 'Didn't See'

WEST FRANKFORT, Ill., July 22.—Further facts regarding the murder of Boris Popovskiy, union miner and Workers' Party member, in the courtroom of Justice of the Peace A. M. Crim came out at the inquest held here before Magistrate J. C. Randolph. These facts came out in spite of the evident desire of Justice Crim and police officers of this Ku Klux town to protect policeman Bozarth as much as possible.

Crim was the only other person in the courtroom on the day of the murder and he tried to say as little as possible. He was the magistrate before whom the policeman and his victim were appearing and presumably knew what was going on in front of him but he tried to persuade the coroner's jury that he was too busy at his desk to know what was happening—when the murder occurred.

He admitted, however, that he heard the officer charge Popovskiy with speeding and that Popovskiy indignantly replied. Then he heard a commotion and the mixer struck the floor. Bozarth was standing in the door.

"The Killed Him." "My God, I've killed him!" the justice quoted the policeman as saying. "Did you see any weapon?" Crim was asked.

"I SAW BOZARTH PUT HIS GUN INTO HIS SCABBARD." Neither the justice nor the policeman attempted to bring first aid to the lad as he picked himself up. Crim brought a bucket to scrub off the blood, but Popovskiy had to wash his bleeding head unaided.

Dr. Albert S. Albert of West Frankfort came in on a call from another policeman and looked the lad over. He made no examination for fracture not thinking him hurt so severely. He heard Popovskiy gasp to himself.

Slayer Did Not Deny. "This is a hell of a note to hit a man like this." Bozarth did not deny the act, but excused himself by saying that the boy had called him a liar.

Not until the young miner got to the United Mine Workers' hospital did he get real attention, and then it was too late. There he went into convulsion after convulsion. The terrible effect of the blow from Bozarth's gun is told as follows by Dr. Black of the hospital:

Smashed Like Eggshell. "We opened the scalp and found a crack from the middle of the head extending downward toward the ear to the margin of the frontal bone on the right side.

About midway of the linear crack was also a circular crack, both ends joining the crack above and below. A piece about the size of a dollar was broken out. The blood was flowing freely."

A big clot of blood between the brain covering and the brain itself moved, also a piece of bone an inch and a half by two inches and a half but it was too late. The boy died.

Still on Police Force. The jury's verdict was that Boris Popovskiy died as the result of a blow from some unknown instrument. Popovskiy was the slayer, a white grand jury action. He asked for a preliminary examination. He is out on \$10,000 bail, believed to have been furnished by Klu Klux Klan members. STILL ON THE POLICE FORCE.

No Famine Threatens Us---Rykov

By WILLIAM RESWICK. (Special to The Daily Worker) MOSCOW, July 22.—Our enemies paint the situation in its darkest colors," said Alexiev Ivanovich Rykov, soviet premier, today in discussing the reports of famine conditions throughout Soviet Russia. "Drawing a parallel with the horrors of 1921 let us look at the facts. In 1921, sixty-nine millions of acres were sown or a third of the entire agricultural area; this year, twenty-seven million acres were sown. The crop shortage in 1921 covered twenty-four million acres. This year it will cover only five and a half million acres, affecting 6,000,000 persons, or only about eight percent of the total agricultural area.

THE UNITED FRONT AGAINST THE WORKERS AND FARMERS

FASCIST RUFFIAN STARTS BATTLE; WORKERS END IT

(Special to The Daily Worker) NAPLES, July 22.—Infuriated by repeated attempts of Fascist officials to tear down and mutilate a picture of Giacomo Matteotti, murdered Socialist deputy, which hung in a union hall, Italian railroad workers in Zari, a town of South Italy, opened fire on the blackshirts. One Fascist official is reported to have been killed as a result.

Revolt against the Mussolini dictatorship is rising among Italian workers. The discontent of the soldiers with the Fascist rule has long been known, and the brand which sets the flames of revolution burning among the workmen and peasants will also send the soldiers to the armed aid of the proletariat.

A moment's delay in saluting a Fascist official nearly cost a Milan soldier his life yesterday. The officer answered the soldier's salute with a blow in the face. When the soldier tried to strike back, five blackshirts appeared who seized him and prepared to kill the man. Only the fury of a crowd of workers and peasants saved the soldier's life.

AUTO CLUB OFFICIALS DENOUNCE SLAYING OF WEST FRANKFORT YOUTH

The Illinois Auto club yesterday denounced the West Frankfort policeman who brutally clubbed to death Boris Popovskiy, 21-year-old lad slain in the courtroom while arrested on a charge of speeding. "Such practices have got to stop," Hugo Mayer, manager of the Illinois Auto club told the DAILY WORKER yesterday.

"If the lad needed help we would supply a lawyer. We want to bat on the Topsy case in Cicero, and we will go to bat on this case if necessary. The small town police have got to realize that a man arrested for speeding is not a crook, a cut-throat or a criminal. This 21-year-old lad was not a holdup man. He was taken to court for speeding, and the law says that all the officer is to do in a speeding case is to take the accused to the courtroom and place him in the custody of the court."

What's Wrong With Players. MADRID, July 21.—The Society of Authors met today to consider the alarming state of the theater industry. Many theaters have closed for lack of patronage.

STRIKING CAR BUILDERS ASK WAGE INCREASE

The striking car builders of the Western Steel Foundry company at Hegerwille, encouraged by the spread of the strike to other departments and the complete stoppage of production, went on the offensive against their bosses yesterday and demanded an increase in wages of 6 cents an hour.

A strike committee was elected at yesterday's enthusiastic strike meeting, which was addressed by Jack McCarthy, circulation manager of the DAILY WORKER, and Joe Kowalski, of the Polish Federation of the Workers Party.

The officials of the Western Steel Car Foundry company were furious at the DAILY WORKER for exposing their blood-sucking speed-up system, and for actively supporting the strike. Other Workers Out. The strikers, rearmen, heaters, buckers and fitters originally went on strike because of a 50 per cent reduction in wages. Yesterday, however, the strikers, at their meeting in Ginal's hall, 13135 Houston Ave., voted to demand a piece work rate of 45 cents as compared to the 40-cent rate. (Continued on page 3.)

ENGLAND'S LABORITES TAKE ANOTHER "FALL," DON'T GET THE COUNTRY

(Special to The Daily Worker) LONDON, July 22.—For the tenth time Ramsay MacDonald's "labor" government was defeated in the house of commons today. The vote was on a minor amendment to the housing bill and involved no necessity for resignation. On various other sections of this bill the government has been defeated as well as on certain parts of the unemployment program. But MacDonald "grins and bears it" and doesn't make any drastic move to help the workers, for he thinks he would then be obliged "on the outside looking in."

Orphan Dies at Placid. BENTON HARBOR, Mich., July 22.—Funeral arrangements were being made today for Henry Lutz, 4, who was instantly killed when he stepped from the "caterpillar" at Silver Beach pavillion, St. Joseph, Mich., late yesterday.

He with sixty other children, were here on a picnic from the Orphan Home at Mishawaka, Ind. Send in that Subscription Today.

WALL STREET'S RULER SPEEDS OVER SEAS TO SAVE PROGRAM OF INTERNATIONAL CAPITALISM

(Special to The Daily Worker) NEW YORK, July 22.—J. P. Morgan is speeding to Europe Saturday on the S. S. Minnewaska. The financier's haste is shown by his taking a transatlantic liner instead of the Morgan yacht, the Corsair.

The international banker asserts that he is going on a pleasure trip and intends to do some shooting in Scotland but he admits that his advice will be sought by European experts on the German loans proposed in the Dawes plan. The German visit has great financial and political significance. His upcoming study, Thomas W. Lamont, has called to promise unequivocally to set out the Ruhr and with the French thoroughly into line on the bankers' program. And it is pointed out that when Morgan goes vacationing he uses his yacht rather than a regular passenger liner.

ALLIES AWAIT MORGAN

(Special to The Daily Worker) LONDON, July 22.—Arrival of J. P. Morgan is eagerly awaited by Ramsay MacDonald, London bankers and other proponents of the Dawes plan which is being impeded by French delegates to the inter-allied conference.

Thomas W. Lamont, Morgan's partner, has come to an impasse in his deal with Premier Herriot and M. Clementel, French financial minister. The Frenchmen agreed to the broad principle that the international bankers' investments should have priority in German payments, but they refused to promise unequivocally to set out of the Ruhr and to forego the right of separate national action against Germany.

Ultimatum on Ruhr. Speaking in behalf of his chief, Lamont has laid down the ultimatum that the Ruhr must be evacuated ere the bankers pay any good money into German loans. His ultimatum was delivered after a long conference with Sir Montague Norman, governor of the Bank of England and with the leading financial experts of other nations attending the inter-allied conference.

Premier Herriot pleaded with Lamont to compromise, but Lamont is reported to have told him that his cold plan stood pat in its demand that France pool its resources with those of the other allies. The bankers' attitude is that safety to their investments requires international control of Germany. Separate national reprisals against Germany will affect her industrial and financial organization and disrupt well considered plans for exploitation.

Herriot fears Polonoise. Herriot is declared to have replied that he could not yield France's Ruhr privileges. To do so would play into the hands of his Polish opponents and probably result in the fall of his cabinet.

As matters stood there was a deadlock. The Dawes plan requires French cooperation. The French refused to give this cooperation on terms which satisfied the international bankers, who are the keynotes of the whole program.

Morgan Will Settle Deadlock. Morgan's arrival will settle the deadlock one way or the other. The ruler of Wall Street is a man of few words. But a threat from his own lips to cut off credits to France, if it is believed, will force the recalcitrants into line. If not, then internationalization of capitalism is put off a little longer. It is probable, however, that the mere announcement that Morgan is coming will speed negotiations.

Politics and Speculation. LONDON, July 22.—American politics was seen today by the British press in the sharp rise in the price of four and bread through England. Merchants have charged that the rise was due to the manipulations of American speculators.

DISCUSS STRIKE TACTICS AT RED LABOR CONGRESS

(Special to The Daily Worker) MOSCOW, July 9 (By Mail).—The Third Congress of the Red International of Labor Unions (Profintern) opened Tuesday, July 8, in the Hall of the Columns, House of the Trade Unions. The Congress will last about ten days.

The following is a preliminary agenda for the Congress as proposed by the Executive Bureau of the Profintern.

- 1. Report of the Executive Committee.
2. The Immediate Tasks of the Revolutionary Trade Union Movement; reporter, Losovsky.
3. The International Working Class Struggle for the Congress of the Eighth-Hour Day; reporter, Hecker.
4. Trade Union and Factory Committees; reporter, Grote.
5. The Revolutionary Trade Union International Program; Committee and International Commission; reporters, Semar and Tustevich.
6. Dunne on Strike Strategy.
7. Strike Strategy; reporters, Dunne and Mousmousses.
8. Organizational Structures; report by Special Commission.
9. The Tasks of the Profintern in the Colonial and Semi-Colonial Countries; reporters, Heller and Seman.
10. Agricultural Workers.
11. The Peasants' International and Unions of Agricultural Workers; reporters, Shmurov and Roy.
12. Trade Union Movement and Co-operatives; reporters, a German Comrade and Comrade Robinson.
13. The Situation in the Russian Trade Unions; reporter, a Russian Comrade.
14. Elections.
15. Americans in Prussia.
16. The Congress elected a presidium of 21, including the following countries: Russia, 4; Germany, 2; France, 2; America, 1; Canada, 1; England, 2; Czechoslovakia, 1; Italy, 1; Poland, 1; the Balkans, 1; Scandinavian countries, 1; Ireland, 1; Near and Far East, 2; Spain and South America, 1.

Industrial War Plans Hammered Out

(Special to The Daily Worker) MOSCOW, July 9 (By Mail).—The Third Congress of the Red International of Labor Unions (Profintern) opened Tuesday, July 8, in the Hall of the Columns, House of the Trade Unions. The Congress will last about ten days.

The following is a preliminary agenda for the Congress as proposed by the Executive Bureau of the Profintern.

- 1. Report of the Executive Committee.
2. The Immediate Tasks of the Revolutionary Trade Union Movement; reporter, Losovsky.
3. The International Working Class Struggle for the Congress of the Eighth-Hour Day; reporter, Hecker.

RUSH IN YOUR ORDER FOR SATURDAY'S "ANTI-WAR SPECIAL"—ORDER BLANK ON PAGE THREE

WORKERS PARTY RUNNING DUNNE FOR GOVERNOR

Engdahl for Senator; Cook Co. F. L. in Line

William F. Dunne, trade union militant and delegate to the Communist International, for Governor of Illinois, and J. Louis Engdahl, editor of the DAILY WORKER, for Senator. These are the state candidates for whom the entire machinery of the Workers Party, and the machinery of every wide-awake proletarian group in Illinois, will be run at top speed to swing the workers in action for the coming campaign.

Entire Membership Busy. The state campaign committee of the Workers Party is calling its party membership, individual party sympathizers and sympathetic organizations for the work. This work includes obtaining the signatures that petitions must carry before names of candidates can be placed on the ballot, which in Illinois is a part of the vote cast in the last general election. It means distributing handbills and literature and furnishing speakers for the open meetings which will be held in the state about the fight the Workers Party is making against Sen. Small and other representatives of his interests.

Candidates for Every Office. Candidates of the Workers Party have been put in the field for every important state and local office, including congressmen in seven out of the ten congressional districts in Chicago, and will carry the slogan, "All power to the workers." The length and breadth of the state of Illinois. The Workers Party is mobilizing its members within the respective congressional districts. The Young Workers League is working on the same basis. The various Junior groups have pledged their unqualified support.

Daily Worker in Fight. The DAILY WORKER will be one of the sharpest weapons in the campaign. It will be introduced, wherever a signature is obtained, wherever a conference of the Workers Party in Milwaukee, on Aug. 2, will nominate local candidates. The campaign in Milwaukee will attempt to show up the backwardness of the stand taken by LaFollette and the socialist regime which supports him. Union and other groups are greeting with enthusiasm the state and local program of the Workers Party published in yesterday's DAILY WORKER. Following is the resolution of the Cook County Branch of the Illinois Labor Party in adopting the program:

COOK COUNTY RESOLUTION

Both of the old parties have nominated as their candidates for the presidency of the United States two outstanding reactionaries, enemies of the workers and farmers. Both of them are under the control and domination of Wall Street. To the workers and farmers only one solution lies

AMERICAN MARINES FAIL TO STOP CHINESE GENERAL STRIKE'S LINE

(Special to The Daily Worker)

SHANGHAI, China, July 22.—The general strike of the Chinese in the shanghai, the foreign quarter of Canton, continues in spite of the landing of American, British, and French sailors and marines. Servants, private and municipal employees are out in Canton, protesting against the law which makes them submit to search before entering the foreign area, and against other race discrimination by the intruding white imperialists.

Dr. Yu Yuen, founder of the Chinese republic and one of the strong influences in the formation of the Chinese trade union movement, is supposed to be encouraging the strike at Canton. Dr. Sun has opposed the foreign domination and interference which has deprived the Chinese work-ers of their opportunities in public service, commerce and professions.

The strike of the Chinese telephone operators here over a wage dispute has succeeded in tying up at least two sections of the international settlement. Foreign operators are scrambling to break the strike.

open—that is, to unite and organize politically into a farmer-labor party. This fact the militant forces in the labor movement have constantly emphasized.

The convention held in St. Paul on July 17 took an important step in this direction. The Cleveland convention of the Congress for Progressive Political Action, composed mainly of reactionary "labor" leaders, refused to recognize this necessity and thereby betrayed the interests of the workers and farmers. We have no confidence in such leadership.

BISCUIT WORKERS DOCKED PAY FOR 'VACATION' DAYS

Young Workers League Offers Program

By BARNEY MASS

The patriotism of the boss of the National Biscuit Company goes as far as his pockets. The employees were given a holiday on the 4th and 5th of July, but when receiving their pay, it was discovered that they were docked for the two days. The company never pays docked wages to its employees, even though it is a celebration dedicated to the 148th anniversary of the declaration of independence. These dealers in youth, who always boast of their 100 per cent attitude to their country, never permit it however to interfere with their profits.

Without giving any attention to the position of the young workers, the company closes down departments when it chooses to do so. The National Biscuit Works department will suspend operation Monday, Department No. 4 ceases work Saturday. In this department the famous animal cakes are baked into the boxes.

Temporary suspension of operation is a disease inherent in capitalist production. What protection do the young girls and boys making the biscuits receive from this chronic sickness? Are they given any consideration by the boss?

Part experience shows that they are the least taken into reckoning and that the only alternative facing them is to take matters in their own hands. Through their association into an organization such as the Young Workers League, a program of action will be their disposal to carry out for their own interests.

Unemployment Down South in Railroad Camp and Steamers

MOBILE, Ala., July 22.—Several hundred men were thrown out of employment when the Mobile & Ohio railroad shops at Whistler were closed until further notice. Large cuts had been made in the shops previously and when the shops were ordered closed within 24 hours it came as a great surprise.

All Mobile industries are either closed or running part-time. There are close to 200 seamen without a berth also. The shipping board lays up ships for lack of cargo, throwing whole crews on the beach.

In northern Alabama the Long-Bell Lumber Co., one of the largest non-union outfits in the state is laying off men and cutting wages to cooie with. The Long-Bell people own most of the timber in Alabama.

PRIZE WINNER IN REPORTING CONTEST TOLD

Mine Story Writer the Winner; Who Is Next?

The prize for the best story contributed last week to the DAILY WORKER by a volunteer reporter goes to the broker writing the story on page five of the July 18 issue of the DAILY WORKER, entitled "Mines Work Only in Rab Mines." The story was titled, "Mines Work Only in Rab Mines." The story is sent from South Brownville, Pennsylvania.

Shows Union's Need

The news story gives definite names of persons and places. The subject is timely, the story dealing with the effect of unemployment in the coal mines on the union miners.

The winner is now being turned over to non-union miners and organization of the unemployed. The miners must be carried on by the United States Mine Workers of America or else the union will be weakened.

Many Contributed

Good stories were sent in by Carl Cowd of St. Paul, and by Wallace Melville of Youngstown, Ohio. There was a good story contributed on the corruption within the bricklayers unions in Chicago. Jack McCarthy contributed several front page stories on the Hepcatite workers' strike. Clarence Miller wrote on Western Electric company. Hymie Siegel reported the opening of West's department store. Barney Mass wrote on the National Biscuit company and the killing of a Communist in West Frankfort, Illinois. Max Salaman contributed political articles. These were not considered, however, for the contest. The contest is open only to news stories.

Choose This Week

The prize for next week's best volunteer news contribution to the "Daily Worker" will be the choice of either "The Iron Heel" by Jack London or "A Week" by Lucy Liberty. The third article on writing news for the DAILY WORKER, "Working-Class News," by Karl Reeve, will appear in next Saturday's magazine section.

Irish Republican Attacks Davis as Britain's Choice

(By Federated Press)

WASHINGTON, July 22.—John Finerty, counsel for the Association for Recognition of the Irish Republic, commenting upon the fact that John W. Davis, democratic presidential nominee, had been chosen for the Irish Free State after having served as ambassador to the court of St. James, declared Davis to be hostile to the Irish cause. He said that Davis was as clearly identified as Secretary Hughes with defending the Morgan imperial interests under the British flag. Recently, Davis tried to secure possession of the Fall funds in America for the Free State.

Finerty declared also that, although Senator Walsh of Montana had been a consistent supporter of the Free State, the Montanan had immediately gone to the White House when it was feared the Dictator might be elected. In contrast was Senator Walsh of Massachusetts, who refused to do anything to save the title of the leader of the republican movement. Finerty predicted that David Walsh would be held accountable in the senatorial election this year.

Toller, Freed, Has Much to Write About

By J. LOUIS ENODAHLL

TODAY, Ernst Toller, Germany's dramatic genius, is free again after five years in a Bavarian prison. Toller's crime was being one of the active leaders in an attempt to establish the Bavarian Soviet Republic, in 1919.

The tables tell us that Toller appeared "pale and emaciated" before a Reichstag committee protesting against the prison treatment he and other workers had received. But the latest picture of Fritz Ebert, the socialist president of Germany, shows him as fat and sleek as ever.

In fact, Ebert has been the socialist president of Germany all the time that Toller has been in prison. And Ebert's social-democratic (socialist) party was, during most of that time, the most powerful political power in the land.

Toller brings back startling contrasts from his prison experiences under the Ebert-socialist rule.

Long prison sentences were given to revolutionary workers the enemies of labor were acquitted "because their political affiliations were more to the liking of the judges."

Imprisoned workers were not allowed to visit their dying mothers in several cases, and another was not allowed to attend the burial of his child. One prisoner was punished because a revolutionary poem was found among his belongings, and another was put in a strait-jacket because he had dared to give up a copy of a Communist paper in his possession.

BUT—

On the other hand, Adolph Hitler, the leader of the Hitler-Ludendorff fascist attempt at a beer hall counter-revolution in Munich, last autumn, and Count Arco, the murderer of Kurt Eisner, the Bavarian workers' premier, received the best of treatment.

Hitler was allowed to receive visitors in prison. Count Arco had almost unlimited freedom to leave the prison for "political reasons" and to "pursue his studies." The Bavarian authorities prevented a Reichstag committee from investigating Bavarian prison conditions, and systematically disobeyed Reichstag prison laws, such as they were.

It sounds like a review of American prison barbarism when Toller adds that "hygienic conditions were bad, and the prisoners were kept in solitary confinement even when they fell ill," adding that a comrade of his had died after being refused medical treatment.

All this under the heel of a "socialist" president's rule. With a (socialist) social-democratic party wielding the balance of power.

There comes another story out of this "socialist" Germany that would indicate where "socialist" sympathies lie. It is the story of a young apprentice painter at work on the Berlin City Hall.

He saw a picture of Wilhelm Hohenzollern, the late Kaiser, surrounded with imperial pomp. It was a sight he did not like and he swished his brush, dipped in black paint, across the picture, so that Wilhelm's visage vanished behind a murky smudge.

Then along came an infuriated city official who, as he beheld the sight, began calling the painters' apprentice rather hard names.

The apprentice is reported to have replied, "What I did was right. That picture of Wilhelm does not belong to these republican days."

It is said that this so enraged the monarchist official that he shot the apprentice a comrade of President Ebert as black as you will. I haven't any objection."

But, of course, that is not necessary. Ebert and his fellow German "socialists" have painted themselves as black as can possibly be done. All of which the young painter was no doubt aware.

Young painters are usually apt to be thinkers. Especially young painters.

This young painter must have known, for instance, that under Karl Severing, the social-democratic (socialist) minister of the interior, the Deutscher Arbeiterklub, the labor-baiting mouth-piece of the reactionaries, openly proclaimed that the Italian fascist dictator, Mussolini, should have revealed in the murder of the socialist, Matteotti. This sheet, taken by the "socialist" democracy, declared:

"Mussolini's attitude was not heroic. He should have stated the stand that Matteotti was an enemy of the Fascist State of Italy. . . . There was no reason to regret the end of this social-democrat (Matteotti)."

A monarchist sheet published that under the "socialist" regime of Fritz Ebert, president of Germany.

And in the same hours the Communist daily, in Berlin, the "Rote Fahne" (Red Flag) was ordered suppressed for two weeks because it urged revolutionary mass action of the workers.

Ernst Toller should surely find much material for his dramatic genius in the transition period through which Germany is now passing—From Capitalism to Communism.

STEEL WORKERS TIE UP COMPANY WITH BIG STRIKE

Over 3000 Out to Fight Big Wage Losses

(Special to The Daily Worker)

PITTSBURGH, July 22.—The steel workers of the McKeesport Sheet and Tin Plate company, one of the largest among the so-called independent firms, have been on strike since July 16. The strike was started by the union's reaction that its far-dodged threats and persuasion failed to break the strike.

Several uncoordinated attempts were made to get the strikers back to work. On two occasions they were called to meet at the factory which they were addressed by the superintendent, who threatened that the mills will be shut down and at the same time pleaded with them to return to their jobs until the directors will come back from their vacation. But the strikers' threats and persuasion failed to break the strike.

There was no sign of union organization among these workers before the strike, but in the last few days of the strike the workers were addressed by the superintendent, who threatened that the mills will be shut down and at the same time pleaded with them to return to their jobs until the directors will come back from their vacation. But the strikers' threats and persuasion failed to break the strike.

Workers United

However, some of the organizers, in an interview with your correspondent, was not very optimistic about the possibility of organizing the steel workers on a permanent basis. He pointed out that this is the fourth general strike since the opening of the McKeesport Sheet and Tin Plate company in a few years, and that on former occasions they always went back to work and deserted the union as soon as the employers offered some concession. By this time these workers have learned the lesson that only thru solidarity and permanent organization can the hope to resist the power of their capitalist employers. The next few days will tell the story.

Cicero League and Party Members Meet Thursday Night

CICERO, July 22.—A membership meeting of the Cicero League and Young Workers League of Cicero will be held on Thursday, July 24, at 8 p. m., at Liberty Hall, 410 C. and W. 14th St. The following points will be taken up: The organization of the Young Workers League, the organization of the Junior Group of the DAILY WORKER campaign.

The DAILY WORKER campaign is of special importance as quite a bit of effort was already spent in the Western Branch of the Young Workers League. The settlement that was produced by this campaign will have to be crystallized in the factory. More detailed plans will be presented at the meeting. The comrades are requested to attend. Admission is by membership cards only.

LAWYERS' APPROVAL OF INDUSTRIAL COURT LAW SHOWS PROFIT-SEEKING

A special committee of the American Bar Association, the powerful One Big Union, of lawyers, has recently affirmed that the greatest need of the contemporary world is "efficient means for preventing industrial warfare" and that impartial investigation points to the conclusion that the Kansas industrial court represents the form of "mediation which has thus far proved most effective." It further demands a body of law designed "to permit firm handling of group conflicts."

When a body of such legal importance as the Bar Association, of which Charles Evans Hughes is president, expresses an opinion like that quoted above, it is safe to assume that it voices the sentiment which will be expressed in the form of legislation against the workers in the very near future. It means that capitalist statesmen are using every effort to extend and increase the present enormous power of the government to interfere in strikes and industrial disputes in behalf of the ruling, employing class.

In order to meet this proposed attack on the part of the capitalist class, the organized workers should join their own political party, the Workers Party, to fight their battle against the onslaughts of the capitalist state.

FIGHT PLOT TO BREAK GERMAN RAIL STRIKES

French "Dilation" Plan Arouses Workers

(Special to the Daily Worker.) BERLIN, July 22.—Gigantic demonstrations against the German government for its assault on the Dawes plan are being prepared by militant trade union forces.

The latest count in the indictment comes with the dispatches from London saying that the French and Belgians will probably have their way regarding their proposed dilution of the German railway personnel with several thousand picked Belgians and Frenchmen.

The purpose of this daily labor dilution is to prevent strikes. The alien workers would be selected for their nationalistic and conservative bias and would be used as a wedge against any strike propaganda that might lie on the roads mortgaged to the international bourgeoisie.

Dilation over industrialized German Communists are leading the opposition to the dilution. They are denouncing it to the workers of every industry as a plot to put German workers on strike for long hours, to the international bankers.

A plan calls for mortgaging of the railroads to the tune of nearly \$2,000,000,000 and the virtual end of public ownership of the German public service industry. The roads in effect, will be turned over to private corporations. The German National Railway company with seven out of fourteen directors chosen from the allied nations.

Thus the Reichsbank money, the German industry are all further controlled. The allies control \$1,250,000,000 of credits that the Reichsbank can dictate what industries shall receive credit—thus giving them the power to put out of business any concern which is friendly to union labor.

Agitation among the workers is getting so intense that an attempt is being made to force the government to pass necessary laws which may overturn the government.

Hughes' Anti-Russ Trip

(Special to the Daily Worker.) PARIS, July 21.—The real task Secretary of State Hughes is to sell himself in Paris, according to information given out from government circles. It is to give the Herriot cabinet away from his proposal to recognize Soviet Russia.

The American trip to Paris, as the trip to London, is labeled "an official" however, in London he held a long conference with the French minister of finance, in favor of the Dawes plan and he is said to have already made arrangements for meetings with leading French statesmen to discuss the Russian situation.

Hughes will have allies in his anti-Russian plan with the larger French bankers in old Russian style. On the other hand he will be opposed by manufacturing interests who crave Russian markets. The American office in Paris is officially on the road recognition of the Soviet Republic.

The American official's strongest argument is a financial one. This is the spokesman for the big American bankers who help France trade. These big bankers are still holding fast to their opposition to recognition. Hughes can swing the credit club over the French, threatening them with a denial of future loans.

MOTHER JONES DEMIES DONKEYS' DAVIS EVER DEFENDED HER CASES

(Special to the Daily Worker.) LOS ANGELES, Calif., July 22.—"Mother" Jones emphatically denies that John W. Davis, the democratic nominee, ever defended her in West Virginia. Mother Jones says in her voice with Davis in branding the donkey's political propaganda as a deliberate lie.

"No man who ever represented the House of Morgan ever defended me," Mother Jones declares. "I have never paid a dollar to a lawyer, but I have always conducted my own defense," she repeated her proud boast.

Mother explained that she was in jail in 1902 at Clarksburg, West Virginia, after she addressed 500 miners. She said that she went along to the jail at Parkersburg, 60 miles away, along with the other miners instead of accepting hotel accommodations.

GOOLIDGE WILL CALL NAMES IF DAVIS AND BOB THREATEN PLACE

(Special to the Daily Worker.)

WASHINGTON, July 22.—Politics in the "good old-fashioned" manner is proceeding for the coming campaign, according to President Coolidge's manager, William Morgan Butler. The chairman of the Republican national committee, who is a New England cotton mill owner and has large interests in various industries, including the telephone, railway companies, storage companies and a law firm, announced that he would like to see the candidates that Goolidge was prepared to make the coming campaign one of "assassinations" if necessary. Coolidge's "loud speaker" said that the little man in the white blouse would conduct his fight for continued reelection in that pleasant dwelling with the weapons of the press, and probably a few of his own bosses' dswling.

EXPECT GOMPERS TO LINE UP WITH PETTY BOURGEOIS

A. F. of L. May Desert Big Boss "Friends"

(Special to the Daily Worker.)

WASHINGTON, July 22.—Officials of the American Federation of Labor most of them the ornamental vice presidents, have been denying reports that they will support the campaign of LaFollette and Wheeler. The labor leaders are waiting for the executive council meeting this coming Saturday in Atlantic City, at which some action will be taken by the body. Gompers is expected to give the view of Gompers' designation of the platform of both democrats and republicans. LaFollette backers believe they have the situation clinched. The A. F. of L. officials, doubtless with the thought of the July election, will not stir this spring, were quite willing to discuss how many votes they thought the A. F. of L. could swing to the independent ticket. The labor leaders were stretching the figures considerably in view of the 1,000,000 more votes if the A. F. of L. endorsed Bob.

The A. F. of L. has been losing members at a great rate. Its official report at the Portland convention showed the paid up membership at 1,000,000. At the same time, it included some of the unions which have already informed the Wisconsin senator. Besides the year of depression membership has gone down further. There is no indication that the mere mention of LaFollette, with the approval of LaFollette that the membership will follow with votes.

Members in this A. F. of L. are the bunch of the old gang, from Goolidge to the present. The labor leaders will influence their following accordingly.

And of course there is a strong body of militants, a growing army of class conscious workers, who will not be the bunch of the old gang, from Goolidge to the present. The labor leaders will influence their following accordingly.

Striking Car Builders Ask Wage Increase

(Continued from page 1.)

before they had their wages cut and sent on strike.

Three hundred workers in the construction department were sent home from work yesterday, the company claiming that it was too hot to work. But the men knew the real cause of the layoff was that the strike has completely tied up the shops. The company sent word to the strikers at yesterday's meeting, asking for a conference with the strike committee, proving that victory is within the grasp of the strikers.

No Seals.

The doorman, who work on the steel and freight car doors, were sent home yesterday morning because the strike has tied up production to such an extent that there was no work for them to do. Those who are working do nothing but look around and make money. So far the strikers have been able, through their effective picketing, to keep cars away from the shops.

Officials are considering shutting down the entire plant until the strike is ended. The workers in the construction department are considering joining the strike. The DAILY WORKER is being heavily bought by the workers through Heawich.

Consider Traffic Accidents.

WASHINGTON, July 22.—Ten states were represented in a conference of highway and engineering experts at the department of commerce. The Factors responsible for the heavy death toll annually in traffic accidents were considered.

FARMER-LABOR PARTY OF OHIO SUPPORTS W.P.

Rejects LaFollette and Middle-class Following

CLEVELAND, July 22.—The Ohio Farmer-Labor Party has joined the list of state organizations which are backing the candidacy of William Z. Foster and Ben Gitlow and the state tickets of the Workers Party.

Support for the clear cut revolutionary tickets of the Workers Party was pledged by the state executive committee in view of the action taken by the National Farmer-Labor Party executive committee in support of the Workers of the Ohio Farmer-Labor Party at a meeting here.

The committee states the impossibility of endorsing the middle class movement fathered by the C. P. P. and the Workers Party of America. In view of the action taken by the National Farmer-Labor Party executive committee in support of the Workers of the Ohio Farmer-Labor Party at a meeting here.

The committee states the impossibility of endorsing the middle class movement fathered by the C. P. P. and the Workers Party of America. In view of the action taken by the National Farmer-Labor Party executive committee in support of the Workers of the Ohio Farmer-Labor Party at a meeting here.

Ohio I.R.L. Statement

The endorsement of Robert M. LaFollette by the Conference for Progressive Political Action and its refusal to organize a national independent political party devoted to the interests of the workers and exploited farmers, forces upon us the realization that the immediate formation of a national Farmer-Labor Party is an impossibility.

We responded to the call sent out for the State Farm Labor Convention at St. Paul on June 17th. In support of this we issued a call for a convention at Columbus on June 28, and organized a State Farmer-Labor party to be linked up with the national movement.

Notwithstanding the unwarranted attacks of the St. Paul Convention by Senator LaFollette, we attended that great gathering with the hope of organizing an independent political party of producers, and high hopes were entertained for the formation of unity between the workers and exploited farmers, getting together on a common front for the coming campaign.

Because of our desire for unity the St. Paul convention featured a section of the workers who do not agree with his antiquated view of rural regulation, which favors a Farmer-Labor party.

No Farmers at C. P. P. A. The convention held at Cleveland was attended by the conference for Progressive Political Action but the door in the face of all sincere workers of its application. Not a single farmer delegate was present and the bulk of the delegates were officials of the international unions, some of whom were formerly denouncing LaFollette as the now denounce a section of the workers who do not agree with his antiquated view of rural regulation.

The C. P. P. A. accepted the dictatorship of LaFollette and betrayed the Farmer-Labor movement into the hands of what Chairman W. J. Johnson, called "Independent bankers, manufacturers and business men." Thus the C. P. P. A. destroyed the possibility of a great united front of the workers and exploited farmers in the coming campaign.

Political Thinking Confused. The action of the C. P. P. A. at Cleveland has started a wave of confusion among the minds of farmers and workers, whose political thinking is confused, and rendered it impossible to reach the middle class hero LaFollette.

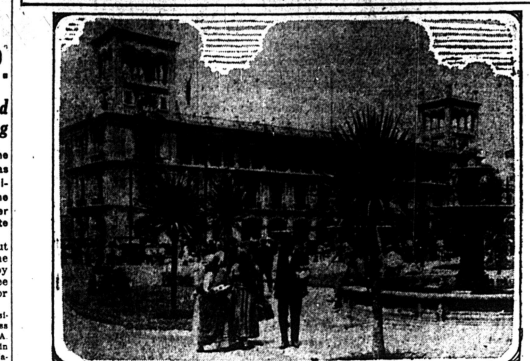

In this political crisis of the American working class we note the action of the Workers Party of America, in nominating its own candidates for president and vice-president in the coming national elections. This action of the Workers Party is the only guarantee that a militant struggle against American capitalism will be waged, and in addition that the idea of a great united front of the workers and exploited farmers will not be destroyed.

The National Executive Committee of the National Farmer-Labor Party, has withdrawn the candidacy of Duncan McDonald and William Buck. Its candidates nominated at St. Paul and has endorsed the candidates of the Workers Party.

Scott Wilkins for Governor.

MEXICAN CAPITOL WHERE CALLES WILL RULE

General Plutarco E. Calles is the official winner of the Mexican presidential election by a majority of 1,309,947 votes. He had the support of the Mexican petty Bourgeoisie and of the majority trade union organizations. Calles made his campaign on a human rights and land to the people platform while his opponent, General Angel Flores took a conservative position.

Workers Z. Foster and Ben Gitlow

Back Workers Party. In view of the above facts the state Executive Committee of the Ohio State Farmer-Labor Party have consented to allow our candidates to withdraw and we endorse the state and national candidates of the Workers Party of America.

The state Executive Committee of the Ohio State Farmer-Labor Party pledges itself to support in every way possible the campaign and candidates of the Workers Party and we call upon the workers of the state to do likewise.

Ohio Farmer-Labor Party. Scott Wilkins, Chairman. Max Lerner, Secretary.

Ohio W. P. Conference

By JOSEPH MANLEY. The State Conference of District 6 Workers Party at Cleveland, O., July 19, nominated candidates and electors to run in the coming elections.

Every section of the district was represented, among them being Toledo, Youngstown, Akron, Canton, Warren, Ashabula, Dillonvale, etc., and the District Executive Committee, Joseph Manley, was present as the reporter for the Central Executive Committee.

The conference opened at 8 p. m. and lasted almost until 2 a. m. Due to the fact that the district representatives were present at the conference of district organizers held at Chicago recently, some misunderstanding had arisen regarding the new party policy relating to the election campaign.

Discussed Election Policy. The reporter for the C. E. C. covered in detail the cause which led the C. E. C. to adopt the present election policy. Questions and answers occupied time, and finally a general discussion took place. The discussion proved interesting, as it indicated the general feeling of the party membership in relation to the new policy.

In Agreement. The reporter for the C. E. C. closed the discussion and the no vote was taken it was plainly apparent that the new policy, in agreement with the new policy, was a distinct spirit of enthusiasm for its application, not alone nationally, but in District 6.

Following the discussion the conference proceeded to nominate 24 Ohio electors and the following committees were entered as the candidates of District 6, Workers Party: For governor, Scott Wilkins; Lieutenant governor, Latta Burke; State secretary, E. W. Sall; Treasurer, Bruce T. Smith; Auditor, Max Lerner; Attorney general, W. J. White; Judges of supreme court, Edwin Blank.

Germana Push Out. WASHINGTON, July 22.—German emigration in 1935 was the heaviest in 30 years, totaling 118,418. The department of commerce was informed today by Vice Consul John A. Scott of Dresden.

The United States got 93,000 of the 1935 emigrants, practically all of the remainder having gone to Brazil, Argentina and other South American countries.

Scott Wilkins for Governor.

DARROW'S RICH MURDER CLIENTS KINDLY TREATED BY PRESS THAT CRIED FOR HANGING OF WORKERS

Nathan Leopold and Richard Loeb, with the millions behind them from their parents' open shop industries are staging the most widely advertised show this morning that Chicago has seen in years. They are staging this show with the aid of State's Attorney Clarence Darrow and Judge Claverly.

Pages of newspaper display are being given over to the millionaire murderers' efforts to evade the noose. The Dawes plan, Cal. Boh and John are backed off the high type on the eve of "Habe" and "Dickie's" trial at 10 a. m. today.

Kind to "Habe" and "Dickie." "Habe" and "Dickie," two sons of the plutocratic class zone a little wrong but to be treated in an intimate, sympathetic way for all that. One and all the big daily newspapers of Chicago and vicinity are according the most generous treatment to the millionaire youths who have pleaded guilty to one of the most brutal murders in the history of criminology.

They are bringing into high light the human side of their characters, making an effort to induce the public to a hanging mood. In fact Arthur Brisbane commended the laid for the defense tactics.

How Different to Boise. It must be a silent ironical smile to the old lawyer, Clarence Darrow, as he reads the Tribune and other papers and sees with their

Southern Illinois Gets Hysterical As Negro Slayers Flee

(Special to the Daily Worker.) CAIRO, Ill., July 22.—Pursued by anti-racist automobiles filled with angry citizens, bent on taking the law into their own hands, Sheriff I. J. Johnson early today started on a speeding run in his automobile to Metropolis, Ill., with two Negroes arrested in connection with the murder of 16-year-old Dalby Wilson, who was shot down at Villa Ridge, near here this morning. More than 400 automobiles were declared to be in the vengeance cars. Sheriff Hudson is accompanied by a handful of picked deputies.

The girl's father, J. C. Wilson, who was located inevitably by the negroes who robbed his store, was unable to identify the two suspects positively. The feeling throughout Peulaski county is intense. Many Negroes of Cairo left town, fearing rough treatment at the hands of the hysterical whites.

Bloodhounds were brought up from Kentucky to help the sheriff track down the Negroes, who killed the girl. Sent in that Subscription Today.

Jacob Dolla, Freed Steel Trust Captive, Goes to Philadelphia

LEBANON, Pa., July 22.—After two weeks' vacation in Lebanon, his old home town, Jacob Dolla will settle in Philadelphia. Dolla was an able union organizer of foreign steel workers in the Fight the War of Capitalism and great steel strike of 1918. His success made him a marked man for the steel trust. He was arrested and taken to the Pennsylvania penitentiary on a framed dramming charge. Persistent agitation by the workers and radical labor organizations resulted in Dolla's release by order of Gov. Pifer July 8.

ANTI-CAPITALIST WAR WEEK PLANS OF PARTY GROW

Organizer Tallentire to Tour for Party

Workers Party branch in the country is getting better. The Communist anti-war demonstrations which are being held the world over under the banner of the Communist International, James Cannon, assistant secretary of the Workers Party, says that entire parties are responding to the call to mobilize all of its energies during the anti-capitalist war week, July 22 to Aug. 1, to explain to the workers the capitalist murderers' war propaganda.

The Young Workers League has instructed speakers to cooperate with the Workers Party in carrying the anti-war campaign to the workers to the masses. Special editions of the DAILY WORKER and the Young League are now being ordered by party branches through the country.

Speaker Touring West. "As part of our party's work in the country campaign of the Communist International against imperialist wars," declared Comrade Cannon, "a national officer in response to Norman H. Tallentire, national organizer, on a tour to the Pacific coast."

"Opening his tour," St. Louis on July 30, Comrade Tallentire will address meetings at all points where the Workers Party is organized in the West, winding up at Seattle on Aug. 13. Through this arrangement all the party organizations in the west will have the opportunity to conduct an anti-war demonstration with a nationally known speaker.

Gitlow Speaks in New York. Every street meeting held through the month of August in the Communist anti-war demonstration week will be devoted to exposing the murderous, capitalist policies of the capitalists during wars. In New York, Benjamin Gitlow, candidate for vice president of the socialist party, will speak every night at huge street meetings.

The Workers Party will call for the Party to redouble its interest and energy during the anti-war week. Comrade Tallentire will explain to the demonstrators are directed not only against the capitalists, but also against the reformist parties of the world, who ten years ago, by supporting the capitalist governments, betrayed the workers they were supposed to represent. In the war crisis in 1914 the reformist parties betrayed the workers and revealed their bourgeois nationalistic leanings.

Socialist War Demonstrated. The social democrats demonstrated by supporting the capitalist world war that it is futile for the workers to put any confidence in them or their leaders," declared Comrade Cannon. "The German social democrats are an example of this treason to the working class, most of them even voting in the reitback for the war budgets."

Speaking of the Tallentire tour, Cannon said: "Comrade Tallentire is a forceful and eloquent speaker and is well qualified to expose to the workers the system as an inherent part of the capitalist working class, and to draw the necessary lessons from the standpoint of the working class. The subject of Comrade Tallentire's speech, on his tour, will be Ten Years After the World War." All party organizations are urged to do their utmost to get the largest possible crowds of workers to hear the Communist message against imperialist war from Comrade Tallentire.

Tallentire's Dates

Comrade Tallentire's list of dates follows: ST. LOUIS—July 29th; ST. CINCINNATI—Aug. 1st; ST. KANSAS CITY—Aug. 2nd; ST. DENVER—Aug. 3rd; ST. SAN FRANCISCO & BAY DISTRICT—Aug. 4th; ST. LOS ANGELES—Aug. 5th; VANCOUVER—Aug. 15th.

DO IT TODAY

FRIDAY will be too late, unless you send in your order by 6 o'clock that night.

Today is the right time for sending in that order for the "Hit-War Special" edition of the DAILY WORKER, to be dated this Saturday, July 26th.

Fight Wars of Capitalism

DAILY WORKER, 1115 W. Washington Blvd., Chicago, Ill.

For the enclosed \$1.00 send me copies of the special "Fight the Wars of Capitalism" edition of the DAILY WORKER, to be dated Saturday, July 26, at the special rate of 3/2 cents per copy, or \$1.50 per hundred. I want to help raise the standards of Communism against the wars of capitalism.

GOOD OLD DAYS WHEN KIDS WENT TO WORK AT NINE

Dept. Store Man Thinks That Was the Life

Years for the old days when children went to work at nine and ten years of age are shed by Clarence Hickman who used to do the hiring and firing for The Fair, a Chicago department store.

"A few years ago," Clarence tells the 47,000 sympathetic members of the Illinois chamber of commerce, "there were no labor laws to curtail the ambitions of youth in its infancy and the product of those days was a group of commerce builders."

"The large department and retail stores were developed and the cash and errand boys and girls who were on the payroll at the age of nine or ten have progressed to presidents, general managers and supervisors and planned a life of golden opportunities for the youth of the generations succeeding them to harvest the youth that has a tendency now to dissipate its hours in the movies and the dance halls."

Clarence leaves the impression that every nine year old cash girl in the golden days of yore is now a superior executive. If any girl failed to rise it was probably because of death from overwork or because they were run down by the midnight express on the way to their job.

"All Wool" Lies the Life of the Clothing Trade

It pays to advertise all right, but don't advertise lies to your prospective customers, says Homer J. Buckley of the Chicago Assn. of Commerce.

Among falsehoods that continue to appear in department store and other retail advertising Buckley mentions "mixed fabric as all wool; an imitation as pure camel's hair; fibre as silk; tubular hose as fashioned or full-fashioned; split as genuine cowhide; genuine filler of toilet clippings and floor sweepings as new cotton; pillows filled with used feathers as new goose feathers; gum furniture, stained brown as walnut; fish bait or genuine walrus; manufactured imitation pearls and diamonds as genuine pearls and genuine diamonds."

MINERS MAINTAIN STRIKE LINES IN DISTRICT 18, ALBERTA, THO INTERNATIONAL NEGLECTS THEM

(Special to The Daily Worker)

EDMONTON, Alta., July 22.—During the past three weeks the situation in the district has not altered to any extent in the struggle of the miners of District 18 and the Western Coal Operators' Association.

At the Craig mine in the Drumheller valley, an agreement was signed by the district officers and the local operator. This agreement has met with disfavor, and the rank and file pulled the men out of the mine whose terms of the agreement became known. The agreement that was signed was on the company rate of \$7.50 per day on.

Blacklist by Washington Federation Expected

(Special to The Daily Worker)

SEATTLE, July 22.—Workers and farmers of Washington are rallying to the support of the striking workers of Hearst's Post-Intelligencer. In the Yakima valley, a fruit farming region, "P.I." solicitors find that for every tree they take there are ten sleepers.

Recent action by the central labor council of Everett and Bremerton in putting the scab Hearst paper on the unfair list is expected to be followed throughout the state. Strikers believe that the big publisher will soon be beaten into the ranks and be backed by his printers, stereotypers and milters under regular union conditions.

A resolution branding Hearst's northwest publication as the foe of organized labor and the foe of the Washington Federation of Labor convention now in session at Olympia. The resolution also calls for the Seattle, Tacoma and Olympia Typographical unions, his direct action in circulating and advertising the Post-Intelligencer. Such opposition as may come from labor leaders who crave friendly publicity in the columns of the "P.I." is not likely to prevent the passage of the resolution.

Police Break Up Workers Party Meet Saturday

(Special to The Daily Worker)

Police broke up a Workers Party street meeting at the corner of Milwaukee and Division Sts. Saturday night. Karl Revere, reporter for the DAILY WORKER, was speaking in English and I. Ladwanaki of the Polish branch of the Workers Party was addressing the crowd in Polish. As the Polish speaker was talking six draft clothes thugs surrounded the platform and ordered the speaker to conclude.

Revere announced to the crowd that in spite of the fact that the meeting was held in the open air, the police had ordered the speaker to conclude.

PUBLIC UTILITY MAGNATES ARE CATCHING SUCKERS WHOLESALE BY "CUSTOMER OWNERSHIP" PLAN

By LELAND OLDS (Federated Press Industrial Editor)

Are you one of the suckers caught by the hundreds of thousands in the customer-ownership game which aims at getting the public to submit to being bled for the benefit of public utility magnates?

The rapid spread of this fake public ownership scheme is a menace to the worker because it disarms opposition to the high valuations, higher rates and low wages which support waterfront capital in the industry.

The perpetuation of high street car fares and electric light and gas rates more than eats up the meager dividends given to worker "owners."

"Ownership of public utilities by the customers," says P. W. Whiting of the Cities Service Co., one of the big Wall Street combines, "is the most desirable thing in public utility operation. It assures goodwill, fair valuations and fair rates." It hardly needs to be pointed out that the public utility men were addressing meaner higher rates for "fairer."

Public Utility Workers For It.

President L. K. Thorne of Bonbright & Co. public utility financiers, says: "Customer ownership is proving the solution to the problem of public ownership. The great majority of the electric power and light companies which promise to do so have instituted rate campaigns to sell their preferred stocks to the people."

EXPOSED LABOR SPY HOLDS JOB IN CENTRAL BODY

Beattie Has Not Left Pittsburgh Workers

(Special to The Daily Worker)

PITTSBURGH, Pa., July 22.—Red tape unwinds slowly from secretaries. If the case of Robert William Beattie, exposed labor spy, is any evidence, the man who has been shown to be on the payroll of a bosses' detective agency and who has been working for the steel trust and other big capitalists for twelve years, is still holding his position as secretary of the Central Labor Union, although charges have been preferred against him.

In the Bank, Too?

He is known to have offered his resignation from the Labor bank, but no definite word of whether he actually has severed his connections is available. Nor is it sure whether he is out of his comfortable berth as vice president of the Steel and Others' union, the Tim Healy wife after his scalp officially when the charges were made known recently.

Beattie's case was to have come up at the last Central Labor Union meeting, but the question asked for an extension of time.

Beattie Boasted Lewis.

Beattie and Bill Lewis of the open-petition union were in the dock at the last Central Labor Union meeting, but the question asked for an extension of time.

COMMUNIST CHILDREN'S COLUMN

THE BOY ARTIST

In Soviet Russia there is a boy artist named Peter Miranov. He is only fourteen years old now. His father was a forester in Siberia; so Peter and his family lived in the woods. Peter's father was killed when the "white guard" came near his home and tried to support his workers and peasants from running their own business. The "whites" wanted to tell the workers what to do so that the "whites" could get rich and the peasants and workers whose low wages precludes the purchase of stock.

Real Public Ownership.

How much better is the real dividend of Mrs. Housewife of London, Ont., home of publicly owned superpower. She uses an average of 7 kilowatt hours, probably cooking, washing, sweeping and ironing by electricity and pays a monthly bill of \$1.34. Prior to public ownership she would have paid \$6.91 for this service. The difference of \$5.57 a month of \$66.84 a year is her dividend. And it goes to all consumers, not to a privileged class. There are no absentee owners of great wealth getting a lion's share.

OUR DAILY PATTERNS

A PRETTY BATHING SUIT A DRESS WITH NEW FEATURES FOR THE GROWING GIRL

4698. Plaid gingham with linen in contrasting color would be attractive for this style. Printed cotton, crepe or rattice are also pleasing. The waist portions are cut with skirt sections, that are joined to plaited side portions. The short sleeve is cut in one with the waist. Mr. Coolidge's pattern is cut in long bias shaped sleeves is added.

This pattern is cut in 4 sizes: 8, 10, 12 and 14 years. A 12-year size requires 3 1/2 yards of 36-inch material. To trim as illustrated with contrasting material requires 1/2 yard 36 inches wide.

Pattern mailed to any address on receipt of 12c in silver or stamps. Send 12c in silver or stamps for our UP-TO-DATE SPRING & SUMMER 1936 BOOK OF FASHIONS.

Address: The Daily Worker, 1113 W. Washington Blvd., Chicago, Ill.

Coolidge's Friends Won't Release Child Slaves from Factory

(Special to The Daily Worker)

BOSTON, July 21.—The "Benches of the Republic," with Louis A. Coolidge as president, are opposed to the support of the striking miners of district 18 in a magnificent manner in spite of the heavy debt that they are still under due to the struggle that took place in 1932. Many of the local unions are sending funds to carry on the fight until victory is won by the members of district 18.

Textile Pickets Appeal Cases from Lower Equity Court

(Special to The Daily Worker)

ROCK ISLAND, Ill., July 22.—Attorney B. A. Stewart, representing Jack Torch, Mike Lasko, May Nichols and Bertha Caldwell, was preparing today to file a motion for an appeal in the appellate court from 60 day sentences against Torch and Lasko and 30-day sentences against the girls, imposed Saturday by Judge W. T. Church on contempt charges. The four were found guilty of taking part in the strike of the Daniel Boone Woolen Mills company, and were charged with attempting to restrain workers at the plant.

Mobilization and Pacifism

Somewhat we cannot get enthusiastic about the fact that some peace societies are issuing protests against the mobilization order of the War Department for September 12. Protest and denunciation of the mobilization are in order, indeed, for it is definitely a move of American imperialism in preparation for another war, into which the workers of this country will soon be thrown. The workers should be mobilized against the mobilization, war should be prepared against the threatening war, and every move in that direction should be encouraged. But the resolutions of the women's pacifist societies, somewhat or other, sound rather fishy.

Perhaps that is because we recall other days, when pacifism was a passing fancy, resolutions, acted in reality as an aid to the war makers. The trouble with these Tolstain dames and damels is, that they are pacifists, in a world of war. All their middle-class souls desire is to be left in peace with their small country, their literary clubs, and their churches. And when war comes again, as it will, they will again proclaim that true pacifism consists in fighting the national enemy while preserving "peace" at home by shooting and jailing the traitors.

Martial Law in Persia

As a result of the death of the American vice-consul, Major Imbrie, martial law has been proclaimed in Persia. The situation is really more grave than surface observation would tend to reveal. The United States consul, who by the way was an experienced agent of American imperialism in Russia and in other countries, may have been killed by a fanatic and religious mob for attempting to take pictures of the tomb of the prophet. But it is difficult to accept this as the sole reason for the unfortunate episode. We have too often been given such anecdotal causes for events of the first order in capitalist international politics and diplomacy.

The possible outcome of the death of Mr. Imbrie is determined to carry the fight against the capitalist system, the cause of wars, to the point where the wars of imperialism are turned into the wars of revolution.

RUSSIAN IN 1924

By WILLIAM Z. FOSTER

(Continued from Last Issue.) Closely related to the stabilization of the ruble, was the problem of balancing the state budget. This, too, has been almost accomplished. For several years after the revolution the budget was practically balanced. The situation was dangerous. Questions of state income and expenditure were largely matters of speculation. This was the natural result of the tremendous revolutionary upheaval, the civil war, and the other factors that shook things up generally. However, within the last few years, the budget has become balanced, and expenditures have been practically balanced with income. This year the state deficit will be only 10 per cent, and next year it is hoped to wipe it out altogether.

The New Economic Policy. Early in 1921 the New Economic Policy was introduced. The situation was a desperate one. The fledgling proletarian revolution was manifestly unable to meet all the industrial burdens placed upon it. So the government monopoly on industry was relaxed and domestic trading by private individuals was permitted. It was admitted as a temporary expedient, thus to introduce a degree of capitalism into Russia. Many said that the remedy was worse than the disease, and that the revolution was doomed. Especially was this dolorous song sung by the pseudo-revolutionists of the "Left Opposition." But there was no alternative. The masses were hungry and had to be fed, on pain of the immediate death of the revolution.

The great problem was to utilize for revolutionary purposes the industry and trade that would develop through the private initiative thus called upon. This has been definitely accomplished, despite the pessimists. He is blind who, visiting Russia, cannot see the lightning effect of private trade upon the general economic crisis. The good effects of the Nep have far outweighed the bad. The prophesied poisoning of the revolution has not taken place. But there was no alternative. A few supposedly sound revolutionaries have collapsed under it, a notable case being that of our erstwhile comrade Tobinsky, who did such good work in the Chicago Workers' Institute a number of years ago. But while exploiting its advantages, the revolution has not been blind to the unnumbered dangers of the Nep. Kameney, in the speech I mentioned while ago, pointed out the menace of the extensive private capital now employed in the distribution of food, clothing,

etc., of which branches of industry where the Nep has a real foothold. He cited the following government "show the kinds and percentages of capital in this line:

Table with 3 columns: Wholesale, Retail, Government Co-Operative, Private. Percentages range from 78% to 14%.

A bad feature of the private control of retail trade, which is so largely in the hands of the Nep, is that very much of it is in the villages, where the business is small and the individual owner operates to better advantage than the more cumbersome government and co-operative machinery. Kameney pointed out the political danger in this and declared it would never do to have the Communists appear to the peasants merely in the role of tax collectors, while the private traders were allowed to bring them the advantages of reviving industry. The peasants, who reason only from very concrete things, might easily conclude that the organizer of the new prosperity was not the proletarian state but the private middleman. Kameney maintained that the conquest of the peasant market is of supreme importance to the revolution, and he indicated the co-operative as the means to accomplish it. Every effort must be put forth to develop the co-operative. He said, "As in the old long-past days, which we hope will never return, when we were crying 'Everything for transport' and 'Everything for fuel', we must now have the slogan in the Party, 'Everything for the economic struggle against the private capital and for the capture of the market through the co-operatives.'"

Private capital was allowed to resume limited operations in Russia as a servant to the revolution, as a sort of a industrial stop-gap, pending the time when the workers could take over every function of industry. It is not allowed to escape from this role. In order that industry may proceed undisturbed, the Communist prefer to defeat private capital, the Communists, in open economic war, but they will not organize and service. But where these means do not suffice, and where the Nepmen assume a threatening attitude, the Communists do not hesitate to use more drastic methods, such as wholesale cutting of rates, open discrimination against the Nep business and in favor of government-owned enterprises, and the like. And, undoubtedly, if the situation required it, still sharper political weapons would be used. Under no circumstances will the Communists allow the capitalists to entrench themselves and to menace the revolution. In Russia, Nepmen are, at best, tolerated, and, especially necessary evils. Politically they are disfranchised and socially they are virtual outcasts, except in their own circles. Despite the difficulties it has unquestionably bred, the Nep is a success for the revolution, and the difficult problem of exploiting it for the Workers' Government while avoiding its poisonous dangers, has been practically solved. (To Be Continued Tomorrow)

When Is a Cut Not a Cut?

In these days of unemployment and "open shop" drives, it is more than ever essential that organized workers shall keep alert and ready to fight against cuts in wages or any other lowering of their working standards. If a union is defeated in struggle it at least prevents a second cut, while if it accepts a cut without a fight it is due for another very soon after. That is the universal experience of labor unions. And if there is militancy and strong organization there is no reason for accepting a cut at all.

These remarks are prompted by the fact that workers in the men's clothing industry have agreed to the fact that the wages have been cut without the general knowledge of the union membership. It should have been a suspicious thing when, several months ago, the manufacturers withdrew their demand for a general reduction in wages which is reported to mean slight changes here and there that do not affect the general level of the market. The workers should have realized that the bosses do not give up so easily. There was a joker in the deck that was being dealt.

What the joker was, is stated by an employer's paper thus: "A wage cut would have affected production and quality of work adversely, while the union's promise may prompt a strike." And further: "A horizontal wage cut would have led the retailers to expect a reduction in prices." And still further: "The Chicago manufacturers have secured what is an equivalent to an insurance policy for the piece workers will be among the advantages to the manufacturers will be a more rigid enforcement of the rules of classification, while firms that wish to keep their costs down will be able to improve quality."

Thus we see that what to the workers was a "readjustment," to the employers was a "wage cut," camouflaged in order to keep down discontent among the workers and to fool the retail dealers so that they would not demand reduced prices.

Berger's Lamentations

In his daily "Findings" Mr. Victor Berger recently found it necessary to lament the fact as a result of her rapprochement with the Union of Socialist Workers' Party.

Mr. Berger who is now in air-tight alliance with Mr. LaFollette of the Republican Party of Wisconsin, condescends to remark on the fact that the imperialism of the capitalist governments and the riotism of the Bolshevik government.

Poor Victor Berger! In the stress of a most strenuous campaign to keep his old socialist friends from finding him in the arms of the King of Russia. But Berger calls himself a progressive and therefore his attempt to arouse interest among Soviet Russia must be in the enemy of humanity and mankind.

Yet, if Mr. Berger has a shred of honesty in his being solicitous for the welfare of poor China, why does he overlook those who have aided and abetted the robbery of the Chinese people? Why does he attack the Soviet Republic when he knows very well that the First Workers' and Farmers' Party government has done everything possible to help China by renouncing all the "zarist concessions and treaties?"

We are not surprised to find that Mr. Berger is silent about LaFollette and his progressive senatorial and congressional allies not uttering a word or raising a finger against the last naval bill providing for the expenditure of one hundred and fifty million dollars for war vessels with which to keep China and other weak countries in their place. Nor are we surprised to notice that Mr. Berger did not find it necessary to call Mr. LaFollette to task for not doing anything to bring in the senate against the United States maintaining a fleet of destroyers on the Yangtze River for hundreds of miles into Chinese territory.

Berger's tears for China are crocodile tears. Berger's lamentations seem to be a smoke screen behind which there is hidden a foul attack on the only government which is fighting capitalist imperialism to a finish—the Union of Socialist Workers' Republic.

More than a thousand copies of the Young Worker, sold at the gates of the National Biscuit Company factories, gives us another reason to believe that the workers are waking up. When the thousands of young workers become class conscious, capitalism may well become uneasy.

The keynote of Tompkins' political platform is "repeat the anti-trust laws"; of LaFollette's program it is "rigidly enforce anti-trust laws." Do you think this will keep them apart? Then you do not understand the "non-partisan" policy.

Training Youth for Slaughter

By Karl Reeve

THE capitalist class permeates America's entire educational system with war propaganda. From the first grades of grammar school through the last year of college, the immature minds of our youth are impressed with the patriotic propaganda of "defense of country above all other considerations."

Millions of grammar school children are taught the slogan, "my country right or wrong," before they learn Christ's admonition, "Love thy neighbor as thyself." They learn the salute to the flag before they become acquainted with the golden rule.

In the grammar and high schools in New York City, and most other cities, the children are practically compelled to recite the rigid motto, "I pledge allegiance to my flag and to the country for which it stands, may God protect our liberties which are inseparable from our minds."

In spite of the fact that it is the fathers and mothers who pay the taxes which keep the schools afloat, their children are forced to buy their education at the price of promising to become patriotic.

I wrote to the president of the University explaining that while I considered war as the greatest of all evils, class inevitable and necessary, I could not conscientiously endorse a course of military training which was conducted merely for the purpose of training

men to defend the capitalist United States government. The president replied that since I was getting my education free, I had no right to complain. If you think that you should not take military drill I suggest you go to some other institution of learning such as Harvard," he wrote sarcastically, "where you do not have to suffer any inconvenience. No one is compelling you to attend a free institution of learning."

During the year the United States entered the latest capitalist slaughter, I attended Boston University. When Lieutenant-governor Cox, who is now governor of Massachusetts, spoke to us in the auditorium, and asked us to vote unanimously to support President Wilson, a dozen voted against supporting a futile and avoidable war before the war.

Persecute Blind Scholar. One of the twelve, Eric Foner, a blind Communist scholar, had won the Buck scholarship. The Buck scholarship was the highest honor given by the university, entitling the student to four years tuition, a trip to Europe and a post-graduate course, with all living expenses paid. Frierberg had won the scholarship entirely on his merits. He was teaching Latin at the Perkins blind institute, was a splendid writer and an advanced student. Because Frierberg was a Communist anti-war convictions, the scholarship was taken away from him by the college committee of Boston University. I met him two years ago selling newspapers on the streets of Boston.

The armies are recruited largely from youths of college age. The students of this country—grammar school and college—have the sales

classes propagating the idea that joining the army "when the country is in danger" is a higher duty than love of home, individual honor, conscience, conviction or any other consideration. It is a well known fact that the history books used in the American schools are 99 per cent glorified biographies of the best slaughterers produced in America.

The domination of the workers by the Wall Street profiteers prevails in the schools as much as in the pulpits and the press and the work shop. It is compulsory to attend the "civic step schools" of the country. The only other alternative the mother may select for her child is the reform school, which is compulsory for the teachers to fill the minds of the boys and girls with the damnable patriotism of the war lords. If they don't do it they are fired.

History courses are converted into "patriotism drilled by corrupt war profiteers cramped down their throat. They are forced to sing "My country tis of thee" so many times in grammar school that they never hear the song without a feeling of intense loathing. The grammar courses which they are required to take in high school and college are contaminated with lectures by army officers who tell the young men that the purpose of the course is to train them to be "good citizens, who can spring to the defense of their country at a moment's notice."

Boys of five years of age all over our "land of the free" are forced to take military drill under the direct supervision of army officers, as is done in such high schools as the English and Latin high schools in Boston.

Views of Our Readers

From the "Herald" Red Bishop. From THE DAILY WORKER.—Your letter of June 1st came duly to hand but at a time I was overwhelmed with correspondence and so it got buried and not to be reached until today. Regretting that I did not get something to say in time for publication.

WALL STREET CHURCH SINGS MILLION OUT OF RENT TROUGH

NEW YORK, July 22.—The well-known business institution in the Wall Street neighborhood, Trinity Church, has just announced that it has a quarterly rent, it announces. From rents alone it raised in \$1,312,268 in last year \$58,555.
