

# "BLACKJACK" PERSHING COMES FROM EUROPE'S BATTLEFIELDS TO MOBILIZE FOR NEXT WAR

"Blackjack" Pershing is back in Washington after dining around Europe with the Belgian king and other notables in France and England.

General John J. Pershing, who commanded United States forces in the last great war, has just returned from inspecting the cemeteries where the thousands of young men whom he sent to slaughter for the imperial capitalists are rotting.

And this same Pershing has the audacity to come "home" in time to assume charge of the preparations for the next big "filling" of the best young men of the nation (thousands more of the young workers who were under age or escaped death in the last world war.

"Blackjack" Pershing is taking part of the plans for National Mobilization day, Sept. 13 and he has some fresh from the burial mounds of the battlefields of Europe where American boys he sacrificed in the great imperial capitalist.

Governors Line Up

One by one the state governors are getting behind President Coolidge in the great military mobilization.

The governors are demonstrating their courage a little and pretend that Coolidge is "going too far," but they want to see the military mobilization was forced upon them by the international financiers and capitalists.

John W. Davis, democratic presidential nominee, has just returned from his "mission" to the military mobilization and "inculcating the militarist spirit" in the people. But Morgan with a crook of his finger made both John W. Davis and Pershing to do his bidding and order the boys out from all the factories, mines, mills, and workshops (except munitions) in the country to be ready for real war on workers of other lands.

Utah Ready.

Governor Charles R. Mabey of Utah has announced that he is "acquiescing" in the military mobilization for the observance of National Day, "Dawes Day." He even uses California names for the military holiday at the war lands.

Governor Fields of Kentucky has announced "the day" and is taking an active part in arranging the details of his military party.

Bob's Man Approves.

Governor "Jake" Press of Minnesota has vowed he will do all he can to make Mobilization Day a "Dawes Day" in the country, although the farmers are not interested in fighting for a government which has given them no compensation whatsoever.

Governor Blaine of Wisconsin has issued a proclamation demanding the observance of the mobilization day on Sept. 13. The Socialist will probably go along here, too, with Bob and his tough old governor.

Governor A. V. Donahay of Ohio will assist in the mobilization of all possible military forces in his state in spite of a storm of protest from church organizations which appeals to Secretary of War Weeks may be found in his waste basket.

Texas Waiting.

Governor Pat Neff of Texas is "contemplating" what his attitude on Mobilization Day will be. He has received the official propaganda of the Coolidge Republic imperial-capitalist-militarist gang on the mobilization and will undoubtedly fall in behind the patriotic band.

And this is just the beginning of the lining up of forces. Illinois mayers meet next week to decide their part in the military show. All over the country from now until Sept. 13 the state and local politicians as well as the national ones will be scheming how to get the most votes out of their participation in the Mobilization Day.

To Secure World.

"By the way" the forty-eight states will be in line, whether they like it or not, and the workers will be forced to lay off a day and strut around in goose-stepping uniforms like Japan and France and all other nations that may entertain any idea of hindering American imperialism's tri-

# 5,000 WORKERS PLEDGE SELVES AGAINST WARS

**Boston Common Packed in Anti-War Meet**

BY JAMES J. LACEY.  
(Special to The Daily Worker)

BOSTON, Aug. 3—Five thousand workers on Boston Common pledged themselves to oppose military service and to fight and oppose the next imperialist war that this country engages in. At a mass demonstration held under the auspices of the Workers Party as part of the International Anti-War week campaign, John J. Ballin, District Organizer of the Workers Party, Lewis Barnes of the Young Workers League and Charles G. Roberts of the Friends of Soviet Russia spoke to the assembled thousands and urged the workers to be militant and enthusiastic attention. At the close of the meeting fully 90 per cent of those present held up their right hand and pledged themselves to unflinching opposition to all imperialist adventures of the ruling financial oligarchy of this country.

The meeting was addressed by Comrade Harry J. Carter who told of the International Demonstration bearranged simultaneously in every country of the world to show his abolition of the Communist International in these countries. Comrade Roberts spoke of the feeling in Britain at the signing of the last peace agreement and his comrades' experiences with the Defense of the Realm Act (their equivalent to our Espionage Act) which they predict will be used by Britain's claims to the title of Protector of Small Nations in the face of their treatment of the peoples of Iraq and the East Indies.

U. S. Sailors Interacted.

The chairman introduced Comrade Ballin by holding up a copy of the Transcript of last September which contains a report of the medical photograph and Bertillon measurement taken from the records of the Plymouth County Jail (where Comhall served a year under the charge of obstructing recruiting). The significance of this and of the fact of Ballin's unchanged opposition to all capitalist wars was pointed out by the speaker who sternly applauded his appearance and applauded again his speech every point he made against the military and their assistance in the present war. Many sailors of the U. S. Navy were in the audience and they followed with interest his remarks against the present military intervention under the Wilson administration.

Forward with Foster.

Placards and posters bearing lettered slogans were loudly applauded as they were hung on the railing of the stand. Among others were these slogans: "Back to 76 with LaPollette or Foster to Soviet America with Weeks." "Universal Peace through the Communist International or Imperialist War thru the League of Nations." "Military Service for the Cause of War to Abolish War Abolish Capitalism."

During the rest of the city at all street corners, thus the chief demonstrations on a small scale will be held.

# ANOTHER IRISH CRISIS FACES J. BULL CABINET

**MacDonald Caters to Ulster Tories**

(Special to The Daily Worker)

LONDON, Aug. 3—Another Irish crisis confronts the British government. The British Labor Party of London is dealing with the situation in much the same fashion as previous governments handled it. That is, by trucking to the Ulster reactionaries.

The present crisis for the Workers Party is to accept a third man appointed by the British government in the commission. The law creating the Free State called for this but the Belfast pluses care very little for any law that does not suit them. In 1914 the Oragemen took up arms against the threatened enforcement of the Home Rule Bill. The leader of the rebels, Sir Edward Carson, was rewarded by a cabinet position. The same government that placed the woolscap on Carson, soon afterwards murdered James Connolly opposing conscription with arms.

The MacDonald government is following the policy of Asquith, Lloyd George and Baldwin in dealing with the boundary crisis. To show his absence of party spirit he invited leaders of all the other big parties into conference and the signatories to the "Free State" treaty.

The privy council has ruled that the government cannot create a new commission to settle the boundary question unless new legislation is enacted. With the opposition of the Tories this will be difficult. To complicate matters, Ulster members of parliament are on their way to London to oppose such legislation.

# AS WE SEE IT

By T. J. O'FLAHERTY.

(Continued from page 1)

wanted to write some sweet nothings about Mr. Davis' family. Nothing doing says the female scion of the House of Davis—not David. The reporter persisted. He got the "look." It is in the family.

Of course every capitalist candidate must be hoarse with virtue once Wall Street decides to put him on the tracks for the great political marathon. Nothing more can be said about Coolidge and he keeps perfectly silent. He does not make news. Davis is a good subject for the reporters to work on. Those who read the capitalist press should not take capitalist reporters too seriously. They write what they must write. A New York World reporter at the Indianapolis convention of the United Mine Workers of America, got a sick stomach listening to James J. Davis, the Secretary of Labor making a speech. "That put me sick," he said. "I'm crazy anyhow. Why he jumped on a train one night while on his way to a convention," etc. And so on. But that reporter wrote a glowing account of Mr. Davis' speech, telling how eloquently he fayed, the radicals.

Bennett is doing the same thing for Davis. This "look" which the Davis family inherited is a cross between a digit of dignified command and one of withering reproach. How does Mr. Davis look when he comes into the presence of J. P. Morgan, his lord and master? The donkey jockey will see much more than the ancestral look to prove to the American workers that he means anything to them except a willing taskmaster. It is significant that the capitalists' press are as fulsome in their praise of Davis as they are of Calvin Coolidge. It means that whatever difference hitherto existed between the two parties are not practically eliminated.

Praggy Joyce has dropped the Count. Not so very long ago she took the Count. It happened very hastily as is usual with Peggy when doing such things. Peggy in haste and repent at leisure," is an admonition having no terrors for the conjugal veritable actress. Four times, if her memory serves her right, Peggy had been over the road, when Count Costa will not.

# GERMAN LABOR FEELS DANGER IN DAWES PLAN

**Minister of Finance Gives No Comfort**

By LOUIS F. LOCHNER.  
(Federated Press Staff Correspondent)

BERLIN.—(By Mail). The leaders of the German trade unions, not only of the General Federation, but also of the Christian unions and of the Hirsch-Duncker Independent trade unions, have appeared before the government to express their fear that when the Dawes reparations report is put in effect, the obligations will in the main have to be borne by the workers. The unions insist that there must be an adequate distribution of the burden.

Little encouragement did they get from the government. Minister of Finance Luetjens blandly declared that the workers must abandon the dream of the "other side of the street." In other words, income taxes, inheritance taxes, taxes on profits, etc., are not to be increased. The minister of finance holds that the bourgeoisie class is carrying all that the trade will bear.

Other holds that the only way to ease the additional obligations is by indirect taxation on consumption. This means that the workers will be the hardest hit.

More than ever the Dawes report will be erected on the backs of the workers.

14 Cent Hourly Wage.

The average wage per hour of a male skilled worker in a German factory today is 55 pennings (16c for an unskilled worker, 45 pennings for a female worker, 40 pennings for a girl).

The skilled worker, if employed full 50 weeks per annum, gets on an average, \$125, an unskilled male worker \$125, and a female worker \$100 for the year.

# N. Y. PAYROLLS DROP \$1,500,000 IN SINGLE WEEK

**Hard Facts Refuting Prosperity Boosters**

(Special to The Daily Worker)

ALBANY, N. Y., Aug. 3—Another million and a half dollars was clipped from the weekly payrolls of factories in New York state between May and June, according to commissioner of labor, B. L. Rhinienat. The reduction shows a decrease of \$1,500,000, a decrease of the factory population amount to \$20,000,000.

Wage rate decreases, says the report, were significant for the first time in 2 years. Wage cuts during the month outnumbered the increases.

In June 1923 factory payrolls in New York state totalled \$22,000,000, a decrease of \$1,000,000.

The heaviest drop in payrolls for any group of industries is in textiles. Payrolls have been cut in half in the iron and steel mills and cut one-third in the automobile factories. Paper mills and shoe factories have been severely affected. Average earnings in Rochester shoe factories were down to \$11.49 compared with \$22.72 in June, 1923.

# Shown the "Gold Fish"

After a running gun battle today with two boys who discovered what they saw, robbing a South Side store, police captured Albert Green and Robert Karkovitch, each 15 years old, who confessed to 215 robberies in the past few weeks. The boys, who said their activities last night included eight burglaries, took police to a cash register worth thousands of dollars in loot that was discovered.

Praggy Joyce has dropped the Count. Not so very long ago she took the Count. It happened very hastily as is usual with Peggy when doing such things. Peggy in haste and repent at leisure," is an admonition having no terrors for the conjugal veritable actress. Four times, if her memory serves her right, Peggy had been over the road, when Count Costa will not.

MENTO has recognized the Soviet Republic. The president of the country will visit Europe and may take a trip to Moscow. This news will not add to the equality of agriculture in this country. The battle is now in Europe trying to clear the road for the Dawes' plan. Rakovsky, the Soviet delegation leader in London, is reported to have suggested Moscow that unless the British government get down to business it is to use waiting any more time in London. France is standing closest to Moscow. Germany has just submitted to the Soviet Republic. Stresemann did not exactly rob his forehead in the mud but he did want to get to knees. Ramsey MacDonald's so-called labor government refuses to recognize Mexico because the latter was not exactly nice to Lord Cowdray's oil company. Lots of news in one paragraph. One other item. British airplanes were wrecked while bombing Indian villages. This happened a few days. Not for the first time, Will Debe and Oswald Garrison Villard protest to MacDonald? They will not.

**Bill Lloyd With Red Bandanna Bundle**

MILWAUKEE, Aug. 3.—A surprised crowd greeted a good deal of commotion among the crowd of teenagers by the pacifist women of Milwaukee. The uninvited guest was badly in need of a shave and took very kindly to the cake and ice cream which he grabbed without ceremony. He failed to remove his evil looking felt hat which apparently had negotiated the Biblical food and grocery store since then—His unshined heavy shoes did not improve the ruga. His red bandanna bundle, slung over his shoulder, came dangerously near the painting on the walls.

It looked like one of the lamentable situations where pacifism breaks down and violence comes to the rescue until he made himself comfortable in a Chippendale chair and reclined:

I think the youth on land and sea. Who met the first emergency Will wish before he end is gained That oldstyle war had been retained. And quoting Shakespeare awfully well.

Say, "War by any name is hell! That was some pretty well said" said women. With one accord they applauded and gave rousing cheer for Bill Lloyd, author of the Dinner Pail Epic, the Federated Press jingles.

Award, Switchman \$15,000.

ST. LOUIS, Aug. 3.—The Missouri supreme court has sustained a verdict for \$15,000 in favor of Lucien Deche, switchman, against the Missouri Pacific Railroad Co. The award is for injuries sustained in 1920 when he was switching cars for the defendant company.

PARTY RULES FOR LEAVING COUNTRY TOLD

Must Get Permission of National Office

The National Office of the Workers Party is receiving from time to time requests from members of the Party for credentials authorizing them to transfer to the Communist Parties of other countries.

It is the rule of the National Organization, established by the National Convention of 1925, that no Party member may leave the United States without first securing permission from the Central Executive Committee of the Party.

Party members who desire to leave the United States in an organized manner or individually, should write to the Nat. Organ. or to the Dist. Office for an application. The application should be filled out in complete form and must be endorsed by the branch of which the applicant is a member.

In regard to emigration to Soviet Russia, the Union of Socialist Soviet Republics has made a very strict rule regarding those desiring to come to that country must come as part of an organized commune.

What If Bankers Flee? MINNEAPOLIS, Minn. (August 3)—Farmers of the northwest should not sell wheat for less than \$1.75 per bushel this year.

HARRY THAW PAID ALIENISTS \$15,000; HOW MUCH WILL GO FOR LOEB-LEOPOLD DEFENSE?

The battery of alienists employed by the defense for Nathan Leopold, Jr. and Richard Loeb for the past few weeks is well known. The specialists' bills are an indication.

Harry Thaw, rabbit-biter, did not have such a brilliant gallery of psychiatrists and mental disease specialists as the two demented young millionaires. The Loeb-Leopold defense has gathered from all over the country the most respected (and most expensive) minds in that profession.

Dr. Hill, chief medical expert called by the defense, was paid more than \$25,000 and other alienists employed will get between \$1,500 and \$2,000 each.

In the Loeb-Leopold defense there are at least six internationally known American alienists who will testify, when Clarence Darrow, the leading defense attorney before the court first sits on between State's Attorney Robert E. Crowe, Judge Caverly and Darrow. The millions for defense will be paid in installments.

500,000 WORKERS OF WASHINGTON GAGGED BY LAW

Civil Service Employees Can't Talk Politics

WASHINGTON, Aug. 3.—When old Washington Gardner, head of the Pension Bureau, some two years ago discovered that one of the clerks in his bureau had confessed to being a Socialist, the man was brought before him, lectured on his "lack of patriotism," and dismissed, on charges of political activity.

ANTI-WAR NEWS SPREAD BY N. Y. PARTY MEMBERS

NEW YORK, Aug. 3.—The distribution of the anti-war leaflet, "Ten Years After," by the party membership in New York City has been a splendid demonstration of the enthusiasm with which the comrades are how getting into the anti-war work.

Over three hundred comrades reported at the headquarters of the Harlem section on Sunday, July 27, where the anti-war work was being organized on the territory to be covered. A committee of 50 represented the Finnish branch.

Other sections, the Bronx, Lower East Side, Brooklyn, and Manhattan, reported success. Credit for organizing the distribution must be given to Comrades Nemser, Nessim, Levy, and others.

Philadelphia to Hold Huge Anti-Capitalist War Meet Wednesday PHILADELPHIA, Pa., August 3.—The Workers Party of Philadelphia is calling a huge mass meeting on Wednesday, August 6, 1926, the tenth anniversary of the great world war.

FARMERS SWINDLED FOR LOEB

(Continued from page 1)

After early training in mercantile unscrupulousness, the first big soap box salesman he hit upon was a new scheme to do the buyer thru the mails. Country folks sometimes get the picture when they see him face to face: Sears that they might fall for writing.

Working the Expressmen. His first mail order ventures included the sending of fake gift catalogs to false addresses. The watches would cost Sears about thirty-eight cents each but the express declarations would be made on a basis of fifty cents a watch.

The mail order business grew apace. It drew board of directors to adopt more and more the methods of regular merchandising, depending for its profits on low costs rather than the cruder firm flanking of earlier days.

When their bureau chief was asked whether these inspectors would be disciplined or whether the policy was of the entire staff of the Interstate Commerce Commission, he was not a single whisper of protest is heard.

When their bureau chief was asked whether these inspectors would be disciplined or whether the policy was of the entire staff of the Interstate Commerce Commission, he was not a single whisper of protest is heard.

CANADIAN FRUIT FARMERS ON GRIP OF TWIN COMBINE

Government Stalling in Secret Probe

BY SYDNEY WARREN (Federated Press Staff Correspondent) VANCOUVER, B. C., Aug. 3.—The Canadian government has a special committee to investigate the machinations of the fruit combine in British Columbia but it is holding all its cards in secret.

Getting the Factories. A small manufacturer who wanted customers would be approached by the big mail order house. They would agree to take his entire output, on a cost plus basis that kept his profits down to bare wages.

Somebody's machinery were out Sears-Roebuck would give their contract elsewhere. He was scrapped like a worn out worker.

CONDUCTED BY THE YOUNG WORKERS LEAGUE

Definite results and great experience gained from participating in the Chicago workers marked the reports given at the city convention of the Young Workers League of Chicago, held here Sunday at the Workers' Lyceum.

The report of the organizer, Comrade Peter Herd, showed that the league here had taken part in every important strike in the city and vicinity.

even more strongly. "We are two essential wings of one movement—the Communist movement of this country."

An interesting debate was aroused by the industrial organizer's report, in which many delegates participated.

The following city executive committee was elected: Al Schaap, organizer and publicity manager; Valeria Matz, secretary; Charles Brickson, financial secretary; R. Garver, industrial organizer; John Hayzen, educational and research director; H. L. Harvey, secretary of the Young Workers League in October.

Philadelphia to Hold Huge Anti-Capitalist War Meet Wednesday

PHILADELPHIA, Pa., August 3.—The Workers Party of Philadelphia is calling a huge mass meeting on Wednesday, August 6, 1926, the tenth anniversary of the great world war.

The meeting will be held in the Machinist Temple at 13th and Spring streets, Wednesday, August 6, 8 p. m.

These who have heard Lore at the famous Lenin memorial meeting will not fail to hear him again.

Comrades and fellow workers, while your attention is being absorbed by the daily struggles to earn a livelihood, the capitalists of the world are plotting a new and deadlier war than the world has yet seen.

Protest against the imperialist war that is coming. Demonstrate your solidarity with the workers of the world, and the peoples of all nations.

Make Good Damages for Embassy Raid

BERLIN, August 3.—The German government made a complete and unqualified surrender to the demands of the Soviet government.

The pretext for the raid was the alleged escape of a prisoner escorted by German police into the Soviet territory.

These demands have been met by the Soviet government to the satisfaction of both governments.

The German surrender coming shortly after the recognition of the Soviet Republic in China, is further proof of the growing international influence of the workers' government.
