

UNEMPLOYMENT RAVAGES THE MINERS' RANKS Organization Shackled by Jacksonville Pact

The dark predictions of Frank Farrington, president of the Illinois district of the United Mine Workers of America, have been more than fulfilled. The fear of unemployment, with its accompanying terrors of hunger and evictions, has been set up in the hearts of the Illinois miners.

Thousands of miners have been laid off since May 1. Salesmen covering the southern Illinois territory have transferred to other states. Credit, extended by the southern Illinois miners for several months past, has been denied the starving miners. The mining towns of southern Illinois are shunned because of the contagious pestilence of unemployment.

Miner Not Migratory. A miner always migrates. It is a well-known fact that the miner, raised from childhood to follow the underground trade of his father, is unable to find any other industry which makes the unemployment among the Illinois miners more serious.

Miner Not Migratory. A miner always migrates. It is a well-known fact that the miner, raised from childhood to follow the underground trade of his father, is unable to find any other industry which makes the unemployment among the Illinois miners more serious.

These figures were prepared in 1923. Before the unemployment crisis appeared, the average of the Illinois miners union for the year was 11.71. When the miners work, which is a little over 50 percent of the time under normal conditions, they earn an average of only \$5 cents an hour.

The officials of the United Mine Workers of America have continually admitted their failure to stem the tide of unemployment and to rebuild the strength of the union. They call for Unemployment Councils.

Now the Workers Party and the Progressive Miners committee calls for the immediate establishment of a mine union for the unemployed miners. The Workers Party calls for the passing of resolutions by the miners' union local demanding that candidates for election as officers of district 12 in December, pledge themselves to fight for payment of unemployment benefits by the coal operators.

LaFollette has ignored the unemployment problem completely. In writing the labor plank in his platform, LaFollette has used the word labor with exactly 61 words, and failed to mention the unemployed in crisis.

Support Communist Candidates. The Workers Party calls upon all Illinois miners to join with the rest of militant labor in support of Postage and Giltroy and the other Workers Party candidates who support the immediate formation of unemployment councils. The Workers Party demands that the coal operators be made to pay wages to the unemployed coal miners, who by their arduous and dangerous labor have accumulated the profits of the coal operators.

Hurry Indictment at Huge Negro Congress in N. Y.

(Continued from Page 1)
In response, several thousand packed the big hall to listen to a symposium of speeches intended to reveal the reason for the government's attack on the Negro leadership.

An imposing, oratory opened the proceedings, amidst music of exceptional fine quality. Garvey, attired in the green and red robes which form the subject of so much biting satire from rival Negro leaders, marched into the hall, escorted by a guard of honor of fifty militant members of the Universal Negro Improvement Association with drawn sabres, carrying the red, black and green flag regarded as the emblem of Negro nationalism.

Applaud Speeches. The speeches were some of the most fervent that I have ever heard, and were greeted with applause which have sounded many blocks away. The speeches were all in defense of Garvey and in explanation of the reason for the government's effort to stop his public activities.

U. N. I. A. Organized Negroes. Dr. J. J. Peters discussed the Negro's problem as one of survival in a world where the Negro is the subject of the fittest. As an animal life is born in profusion, with many dying and few surviving, so he said it had been with Negro organization. All efforts to organize the Negro masses had been failures, and the Universal Negro Improvement Association had survived only because of the fittest.

William A. Wallace of Chicago said his sarcastic protests to those critics who take a lofty attitude toward the masses of Negroes, blaming the masses for not knowing what to do. He said that the Negro education is getting one-fourth of the support that it should receive. People who criticize this movement of the plain Negro people "which is actually putting over," said Mr. Wallace, are completely ignorant of the Negro situation.

There are thousands of Negroes in Chicago, in New York, in the islands of the ocean, and elsewhere all over the world who do know and do understand what this movement is.

William Sherrill, assistant president of the Universal Negro Improvement Association, undertook in a very clear and well constructed speech to show the historic background of the movement. He said: "The Universal Negro Improvement Association that for the past six years has been starting the world and awakening the Negroes, is not an organization that 'just happened.' This organization is by no means an accident." The speaker continued:

"It is not a thing that anybody has done just because somebody had an idea that they wanted to organize something. Not something that came to existence just because they wanted to put themselves forward and aggrandize themselves, but an organization that was born out of the suffering of a great people that is held in bondage."

Organized to Better Race. Claiming that the U. N. I. A. "has a program that takes into consideration every objection that anybody could make to be called on to cross," Mr. Sherrill said it is not a group that wants one thing today and another thing tomorrow. He maintained this organization was the one which has been able to sense the deep underlying aspirations of the Negro Race and to voice them.

Something. Not something that came to existence just because they wanted to put themselves forward and aggrandize themselves, but an organization that was born out of the suffering of a great people that is held in bondage."

ENTERTAINMENT GIVEN BY FINN FOR W. P. DRIVE

Chicago Branch Gives \$100 to Campaign

The Finnish Federation of Workers Party points with pride the plays they are giving throughout the country to collect funds for the Postage and Giltroy election campaign. The Finnish Federation announces that the only section of the party which has used this artistic and at the same time educational method of promoting the Communist election program.

At the same time the members drive, the raising of funds thru Finnish branches and the regular street and mass meetings are being neglected. The Finnish Branch Chicago donated \$100 to the Postage and Giltroy presidential campaign and also responded liberally.

of government officials." For the latter innovation the capitalists were grateful to LaFollette, as did government is more immune to criticism than in the past. During the Wilson and Harding administrations aid all proceeds administrations if the truth were told the capitalist are interested in a "strong government" and in the "strong" because the capitalists are the losers. Whether the officials in control of the capitalist government are the same or not, the interests of the workers goes on just the same. As for restoring our constitutional rights, necessity knows no law and the workers will not be deterred by the workers such rights as they must. The only guarantee the workers can have that their constitutional rights will not be taken away is their own might, industrially and politically. And only when the workers are in a preme control and the capitalist system is destroyed by the workers will they have a real guarantee that their constitutional rights will be safe, because they will then have written their own constitution.

THE Republican Party chief said that long speeches over the radio will interfere with the bedtime stories of the children. He said that perhaps a heavy blow on the back of the head, more conducive to slumber than a speech by Calvin Coolidge. He said that the Republican given the pineapple next November, he could profitably turn his back on the witness stand Mr. Lawrence Lowell. He said that the Republican talk over the radio every evening would either drive the incoherence in sane or send them flying to the relief into the arms of Morphine.

ALL those who have dollars prepared to shed them now. The Sage of Wisconsin may have uttered some justification of his plural planks but his emotions are working over time. In testimony thereof we place on the witness stand Mr. Lawrence Lowell. He said that the Republican the Federated Press. We cannot say whether Mr. Todd's lachrymal countenance suffered from the strain of carrying the weight of the good news. He said that the Republican may have had in harmony with the waterspout of Senator LaFollette but when you hear the tale, you may shed them, too, so get your eyes ready.

VERY story starts somewhere, and this story introduction here is a proof that the Sage of Wisconsin is so interesting that the tale should suffer in consequence, we will introduce the yarn. The words are by Lawrence Todd. LaFollette is at the megaphone. A name of the photographer is unknown. The actress are members of the "women's national campaign committee." The scene is in the Washington Convention of the Republican Party was born in Wisconsin in the year 1854 in a schoolhouse, sponsored by a group no larger than was standard for the time. She was Mrs. Glenn Plumb brought on the scene, and the eyelids began to quiver.

A POORLY-DRESSED WOMAN of sixty years came into the office of the Chicago LaFollette campaign committee one day recently, said Mrs. Plumb, offering a campaign contribution of one hundred dollars. She was evident need that an attempt was made to induce her to keep the money, but she stood like a rock of Gibraltar and refused to budge. She was in a struggle between opposing capitalist groups, and all indications point to another war more dreadful than the last. She was in a hurry to get out of the office unless she was paid short time unless the worklamps do away with the capitalist system in the meantime. Only the organization of a Communist Party will prevent war.

THE same logic applies to the "restoration" of our constitutional rights and "corruption" and stealing

PAPER WORKERS OUT ON STRIKE FOR THE UNION

Injunction Immediately Granted of Course

Special to the DAILY WORKER
Manistique, Mich., Aug. 17.—Paper mill workers on strike at Manistique are enjoined by court order from picketing and other peaceful means of furthering their cause. Company guards are using unusual violence without judicial restraint. The dispute arose because the workers formed the Local 148 International Brotherhood of Pulp, Sulphite & Papermill Workers late in June. Two women and 11 men were arrested for picketing activity. The strike began July 16. The anti-union firm is the Piler Fiber Co. The injunction is being ignored by the strikers.

This "Farmer" Was "Radical" Like Bob Until Cal Got Him

WASHINGTON, August 17.—Herbert F. Baker, of Michigan, chairman of the National National Council, a candidate of the railroad labor organization for the republican nomination for governor of that state, is being attacked for "Coididge" (sic) throwing the progressive forces in Michigan into great confusion. The Farmers National Council and Baker personally have fought every act and policy of the Coididge administration. They stand for public ownership of railroads, steamship lines and the grain and livestock marketing system. Baker has been a participant in numerous conferences here in recent years, whose object was the formation of a radical farmer movement. His announcement for Coididge is considered by his friends to be merely strategic, but a majority of the railroad labor men seem inclined to repudiate him if he stands pat.

WOULD STOP FOREIGN PRESS
LONDON, August 17.—Congressman Albert Johnson, of this district, author of the Immigration Bill passed by the last Congress, attacked the speaker in a speech here. He says that his attacks on his Immigration Bill are so violent as to be almost a plea for war on this country. He wishes that unless these attacks cease it will be necessary for the government to suppress the foreign language press.

The Truth is Out!
BERKELEY, Calif., August 17.—Now it's the war that caused the victory of the Labor Party in England. Professor Arthur Percival Newton, of the University of London, told the Berkeley Public Club so, anyway. As a piece of great news, Professor Newton also confessed that labor is the principal place in British government.

OUR DAILY PATTERNS

A PRETTY APRON.
466. Figured crevions with bindings of black cotton are here portrayed. One could also use unbleached muslin with embroidery, or chambray in a contrasting color for trimming. Lawn, cambric and percale are also desirable and serviceable materials for this apron.

The pattern is cut in 4 sizes: Small, medium, large and extra large. Medium size requires 3 1/2 yards of 53-inch material.

Pattern mailed to any address on receipt of 10c in silver or stamps for UP-TO-DATE FALL & WINTER 1924-1925 BOOK OF FASHIONS.

Write to THE DAILY WORKER, 1113 W. Washington Blvd., Chicago, Ill.

A NEW DRESS FOR A LITTLE MISS.
4826. Dimity, voile, printed cotton, madras and wash will be attractive for this pretty little frock. It may be finished with tiny sleeve caps, or with the wrist length "blab" size which is more attractive.

The pattern is cut in 4 sizes: 2, 4, 6 and 8 years. A 4-year size requires 3 1/2 yards of material. If made with sleeve caps, it made with long sleeves, 3 yards will be required.

Pattern mailed to any address on receipt of 10c in silver or stamps for UP-TO-DATE FALL & WINTER 1924-1925 BOOK OF FASHIONS.

Send to THE DAILY WORKER, 1113 W. Washington Blvd., Chicago, Ill.

COMMUNIST REALISM NOT DREAM OF AFRICAN REPUBLIC WILL BE NEGRO WORKERS EMANCIPATION

AN OPEN LETTER TO MARCUS GARVEY, By GORDON W. OWENS.

The Universal Negro Improvement Association of which you are the founder and president general, is the largest Negro mass organization in the world. Much credit is due you for your genius and ability to organize so many millions of Negroes in one organization.

The goal of the U. N. I. A. to establish a Negro republic in Africa, where dispossessed Negroes residing in the U. S. A. and other countries, may emigrate to, in my opinion, appears to be unpractical, unscientific and improbable of fulfillment.

Garvey's Gold Utopia.

In advising the Negro citizens of the United States not to fight for social, civil and political equality, but to concentrate their energies on Africa, where the Negroes will eventually go, you are advising your race to desert the real for the shadow.

The twelve million Negroes in the United States are native born, English speaking and entitled to every right and privilege enjoyed by the white citizen.

The Negroes should fight for, demand and take same, regardless of the Ku Klux Klan, southern crackers and other white Negro baiters in this country.

Capital Cause of Race Hatred.

The prejudice against Negroes is fanned and kept alive at the behest of the white capitalist and capitalist class, who regard both the Negro and white workers as so much cattle, to be exploited to produce profits for them. The white employing class are a small minority of the white population. By creating animosities between the great mass of Negro and white workers they can more effectively rob, and exploit both groups of workers.

These white capitalists have their white guards, their white policemen and soldiers to intimidate white workers striking for higher wages, shorter hours and better living conditions.

Klan Used to Break Strikes.

The murderous Ku Klux Klan vents its hatred on white labor organizers by tarring and feathering and murdering them. The capitalist courts issue injunctions against white strikers, prohibiting them from peaceful picketing.

In view of these facts, the lot of the white workers is not much better than that of the Negroes, over whom the capitalist exercise a terrorism to keep them servile and ready to be used as strike breakers against the white workers.

Negro Emigration to Africa Childish.

These capitalists, who use the Negro to their great advantage, would prevent and stop an emigration of Negroes from the United States, the same as the capitalists and planters of the United States tried to prevent and stop, in some cases succeeded in doing so, the migration of Negroes from the south to the north.

Garvey's "Expect the Impossible. To expect the white capitalists to

APPEARANCE OF TOM MYERSCOUGH PALES OFFICIALS

Enlist the Bosses' Press to Spread Lies

By BLACK DIAMOND. (Special to The Daily Worker)

WILKES BARRE, Pa., August 17.—Shades of fear have cast their shadows over the heads of the officials of District 1, United Mine Workers of America and Thomas Myerscough is held responsible. This because the appearance of Myerscough was made on the same day and at the same meeting that a severe beating was administered to the officials by a local union of about 1,000 men of whom about 1,000 attended.

Kept Press for John L. Lewis.

The following day the papers in the Wyoming Valley, the name by which this district is known, came out with their article, which in length, announcing that an "enemy" was in the region to organize a dual movement.

It further announced that Myerscough was expelled from the organization in District 5 for dual union activities, and goes on to prove he would exercise his rights as a member because he is not side by side with John L. Lewis in the battle scarred fields of West Virginia.

Disparaging Myerscough.

The circular, signed by John L. Gallagher, a travelling agent for the union, warns the locals against allowing Myerscough to appear before them. Admitting that there are differences of opinion existing, Gallagher says he believes these can be adjusted without the presence of the Pittsburgh radical.

He also quotes at length from the tirade launched against Myerscough at the Indianapolis convention by Lewis, but he does not state that Myerscough was denied the right to answer the lies contained therein.

Myerscough in an interview later said that he was in the anthracite field to work and that at present he is employed as a laborer in one of the mines in District 1, and that he would exercise his rights as a member of the union, unless he was again expelled.

These Countries at Foot of Class in Labor Legislation

WASHINGTON, Aug. 17.—A survey of labor laws shows that Spain, Portugal, Chile and Colombia are the latest to begin a general revision and modernization of their labor laws.

In Spain a ministerial order set up a special committee instructed to report within four months a complete classification of all measures relating to industrial accidents, conditions of labor, labor legislation, disputes and official organizations and services. Employers and workers are represented by one member each. Redrafting of existing laws will be part of the work. A similar commission has been created in Portugal.

A labor draft code, introduced in the Chilean congress in 1921, has been brought to the front by a change of administration, and heads the program of the new president.

In Colombia an inter-parliamentary commission has been authorized to draw up a code of modern laws, with a measure for development of agriculture and creation of a farm land bank.

Co-operative Auditing.

A non-profit, non-capital stock co-operative is being organized under the name of the Illinois Agricultural Co-operative Association for the purpose of furnishing an auditing and accounting service for farmers' co-operatives. Membership in the association is to be restricted to co-operative associations, farm bureaus, and other agricultural organizations. Reports and comparable data will be compiled covering the operations of co-operatives of similar nature, and provision will be made for the exchange of experience and information.

Russian Coal.

MOSCOW, August 17.—The People's Commissariat of Foreign Trade, after carefully examining the question of developing the export to the near eastern countries of Donetz coal, has drawn up the necessary measures to encourage this trade. It has been found that the Russian coal will have to compete with the Turkish not so much in quality as in price, for the latter product is cheaper than the former.

Russia-Turkey Agreement.

MOSCOW, Aug. 17.—A consular convention has been signed between the Union of Soviet Socialist Republics and Turkey. The Russian monarchies at Galata are to be returned to the Turkish government, as they are part of the Russian state property. According to the latest information, there are still about 8,000 Russian emigrants in Constantinople.

UNMASK HYPOCRITICAL KRESGE

(Continued from page 1)

making him to contribute \$1,000 toward a \$50,000 Salvation Army rescue home and hospital for girls and boys at 119 West Grand Blvd. here. After the exchange of one letter each, in which the senator asked Kresge for figures on the wages he paid his employees, Senator Couzens wrote a letter containing the following paragraph:

"I would much prefer talking this over with you by writing a letter, and if you wish I will come to your office, or you can come to mine. For I think you can do much more for girls and women by paying them better wages than you can by subscribing \$1,000 to rescue them after they have gotten into trouble."

Averaged \$7.52 Per Week.

The other letters bring out the fact that the average earnings of Kresge in his chain of stores—not the minimum, but the average wage—was \$7.52 a week at the time he wrote. They tell us also the fact he gave employment wherever possible to girls and women living at their parents' homes or with a husband, so that they could earn their own money.

It further announced that Myerscough was expelled from the organization in District 5 for dual union activities, and goes on to prove he would exercise his rights as a member because he is not side by side with John L. Lewis in the battle scarred fields of West Virginia.

Disparaging Myerscough.

The circular, signed by John L. Gallagher, a travelling agent for the union, warns the locals against allowing Myerscough to appear before them. Admitting that there are differences of opinion existing, Gallagher says he believes these can be adjusted without the presence of the Pittsburgh radical.

He also quotes at length from the tirade launched against Myerscough at the Indianapolis convention by Lewis, but he does not state that Myerscough was denied the right to answer the lies contained therein.

Myerscough in an interview later said that he was in the anthracite field to work and that at present he is employed as a laborer in one of the mines in District 1, and that he would exercise his rights as a member of the union, unless he was again expelled.

THE VIEWS OF OUR READERS ON LIFE, LABOR, INDUSTRY, POLITICS

Coididge Can't Fool Negroes.

To the DAILY WORKER.—According to The Chicago Tribune, of August 12, M. Charles R. Gardner of Fort Hamilton, N. Y., has sent an letter to Kautious Kalvin Kooldige, asking him to use his influence to prevent the possibility of a colored man being nominated for congress. Gardner sent this letter to the president because a Negro, Hubert Harrison, is running for congress in District 11, and he does not want Harrison to be elected.

The president in his reply to Gardner, which is given wide publicity in the capitalist press, states that our constitution guarantees equal rights to all our citizens, without discrimination because of race or color. The president also states that he has taken an oath to support that constitution.

Negro citizens are denied the ballot in most southern states, are segregated and jimcrowed in residential sections and on public conveyances; are jimcrowed in the government departments at Washington where some are employed; are denied the right to marry whom they please in many states.

These and many other violations of our constitution which Kautious Kalvin Kooldige has taken an oath to support, so merit only, and he is as much a traitor to his race as the president.

This piffle of the president about our constitution, and the Negro's right to run for office, is merely bait for the Negroes' vote in the November election.

Of course, if Coididge is re-elected, he will do as all his predecessors have done—forget all about Negroes until election time, when another spigot will be thrown to them.

The Negroes, 35 per cent of whom are wage workers, should vote for the candidates who really represent the workers. These candidates are: (a) "Power" help the DAILY WORKER and send all receipts totaling \$124.00.

The Right Idea.

To the DAILY WORKER.—I herewith enclose the receipts from a campers' dance, held in this city, August 9.

"The Freed Beach" camp colony is situated on Lake Erie, about six miles from here, populated by the Finnish members of the party, coming from Detroit camps.

Altho we have our bellies full of lamb stew at present, while enjoying the beauties of nature, we fully realize the cruel fact that unless we organize our class organs properly financed to fight and resist the open shop plans of "Hell-Mr. Dawes & Co." there soon will be a time when campaigns on this beautiful shore of Lake Erie will be rather monotonous and irritating on our empty stomachs.

Now they threaten to nationalize the open market or else institute proceedings against responsible officials of the communities that have gone into the open market.

4,065 Miner Orphans in Pennsylvania.

HARRISBURG, Pa.—Fatal accidents in the coal mines of Pennsylvania between 1918 and 1925 have taken 4,065 children fatherless, according to a report of the state inspection board. The majority of these accidents have been shown by the United States bureau of mines to be preventable, but operators have found it easy to replace miners, so that the necessary precautions have been neglected.

ALABAMA JAILS BEAT INMATES DESPITE LAW

Claim Investigation Report is False

By JACK METZ (Federated Press Staff Correspondent)

MOBILE, Ala., Aug. 17.—New investigations are demanded following the report of cruelties inflicted on prisoners in the Alabama prison at River Falls and on the chain gangs of the state. The prisoners claim they are beaten and knocked around by guards notwithstanding a law in this state against using the lash.

Letters Destroyed

By JACK METZ (Federated Press Staff Correspondent)

The men are cowed into silence by fear of terrible beatings and worse. Communications to the outside blighting at all treatment are destroyed and the writer severely punished.

The prisoners claim that the report of Dr. F. Blair, appointed by the governor to investigate their complaints, was false. They demand that the governor appoint more than one man. They have evidence to convict guards at all treatment are destroyed and the writer severely punished.

New York Cities Revolting Against Prison Made Goods

(By The Federated Press)

NEW YORK, Aug. 17.—A fight has broken out between various New York communities and the Sing Sing prison officials because the flog refusals to buy prison made goods. A list of 19 cities and 442 towns and villages which have bought nothing from the prison for over three years has been made public by Superintendent of Industries at Sing Sing, John K. Joyce.

Under the state law all communities in need of such goods must purchase prison products or get a written release from that objection. Sing Sing officials have had to close down temporarily their knitwear factory because of the boycott on prison goods. Now they threaten to nationalize public officials in the various communities. Prison officials take the position that the state must either invalidate bills passed in 1918, or buy from the open market or else institute proceedings against responsible officials of the communities that have gone into the open market.

4,065 Miner Orphans in Pennsylvania.

HARRISBURG, Pa.—Fatal accidents in the coal mines of Pennsylvania between 1918 and 1925 have taken 4,065 children fatherless, according to a report of the state inspection board. The majority of these accidents have been shown by the United States bureau of mines to be preventable, but operators have found it easy to replace miners, so that the necessary precautions have been neglected.
