

DAILY WORKER

AS WE SEE IT

REACTIONARY labor leaders must have something to kick against if they are to retain some prestige among workers. While they support the capitalist system, they pick out isolated conditions and show them up as the cause of all the persecution and misery that the workers suffer from. Gompers has his Elbert H. Gary, head of the Steel Trust. Gompers dines with Gurnea at Civic Federation banquets, but they growl at each other if public for the benefit of the dupes. In Illinois the labor leaders have General Dawes to serve as their punching bag.

General is anti-labor. He hates unions with a hatred that is holy. It is even possible that he hates any kind of labor unionism even that which is under the control of the reactionaries. He has his foot on the neck of the labor movement and should have anything to say as to the conditions under which he works. It makes him think of the little Socialist party which he has instead of standing solidly for the principle of capitalist dictatorship, unsmilingly by the participation of even the labor betrayers.

Dawes is worth lots of money to the reactionary labor skates. John L. Walker, president of the Illinois Federation of Labor and Victor Olander, the secretary of that organization, make the welkins ring with their condemnation of Dawes. They always get a good hand when they hit General Dawes. The General Walker cries as he relates the crimes of Hall and Maria. But these two clown gamblers know that the cunning lawyer is not the capitalist system but one of its most candid and brutal frank pillars. Len Small and his wing of the Republican party of Illinois stands for the capitalist system as does Dawes. But the Small gang needs labor half way by purchasing its leaders, while Dawes is more unending.

The Illinois Manufacturers' Association is one of the organizations that is in politics all the year round in behalf of its members. It sees that bills are introduced in the legislature that would enable the manufacturers to make more profits. It appeals in anti-labor bills. It has its agents in the state assembly. There are millions of workers in this state who if properly organized could snap their fingers at anything the Manufacturers Association or their bought assembly could do. But have the labor leaders who now represent the Manufacturers' Association made any attempt to organize them industrially or politically? Of course not. The members of the Manufacturers' Association used the same methods that Len Small used toward the labor leaders who would stand up and defend their rights instead of denouncing them.

The Dawes plan is having hard landing in the Reichstag. According to press reports the Communists are carrying on a vigorous fight against the infamous scheme. Recently the Communists fought Herrrot on his side conference with the labor leaders common action against the capitalists of both countries. The French Communists fought Herrrot on his side agreement report. They lost but they made a splendid fight and even the capitalist press was obliged to publish Marcel Cachin's great (Continued on page 3)

FARMERS UNDER HEAVY BURDENS IN BOB'S STATE

Child Labor Record Is Equally Poor

By JAY LOVSTON.

In Wisconsin, as in every other state where the financial and industrial interests are the rulers, the farmers are groaning under burdensome taxes, are being crushed by ever more onerous mortgages, sinking into hopeless debt, and are being robbed of their land by the investing class.

And despite all the applause given its much-heralded system of social legislation by the political honesty-hunters of the country, LaFollette's "Model Commonwealth" Wisconsin, does not present a bright picture of social conditions.

Last year saw a more rapid rise in industrial accidents in Wisconsin than in any state far less reputed for their reform laws. With all its voluminous note about educating the workers, the LaFollette state government is, comparatively speaking, paying almost no attention to the education of the children of the working class. Nor can Wisconsin have cause to be proud of its mortality rates.

Just as Wisconsin ranks very low in the wages paid its industrial workers, so it does in the wages paid its agricultural laborers.

Our analysis of the December, 1923, issue of Weather, Crops and Markets, published by the department of agriculture, reveals that there were at least 100,000 states paying higher average monthly wages to their farm laborers in 1923 than Wisconsin did. This is the pay for rural laborers without board.

For the average monthly pay to farm laborers with board, our investigation shows that in 1923, in at least 100,000 states paying higher average remuneration than they did in Wisconsin.

Farmers in Hole. And the farmers, whose special friend LaFollette says he has met with continued adversity in Wisconsin.

BUTLER, REPUBLICAN CHAIRMAN, EXPOSED AS EMPLOYER OF STOOL-PIGEONS IN WAR AGAINST UNIONS

(Written Especially for The Daily Worker.)

NEW YORK CITY, Aug. 25.—That William Morgan Butler, Chairman of the Republican National Committee, now boosting Strike-breaker Calvin Coolidge for president, is deeply involved in the sillest sort of stool-pigeon and agent provocateur work against labor unions and the workers generally, is charged by an informant whose name is withheld pending further revelations.

The story, given with exhaustive details as to names, dates and places, is the most damaging evidence against this multi-millionaire "angel" of the republican party yet brought to light, and is a fitting climax to the exposure of the corruption of cabinet officers by oil companies in the famous Teapot Dome cases.

The fact that at the time Calvin Coolidge as Governor of Massachusetts, was using troops to break the Boston police strike, his present campaign manager and financial backer, Mr. Butler was engaged in supervising a regiment of stool-pigeons to break up textile war strikers, and break strikes by agitation of private detectives, to burglarize union offices in midnight raids, destroy and carry off the property of the strikers, in close alliance with the Department of Justice to arrest and deport radicals—this is enough to blast this pair of scoundrels and the party they represent in the elections.

On August 21, the DAILY WORKER printed the story of the exposure of the nefarious "Sherman Service" detective agency, whose director, S. F. Fannon, upon being pressed by Henry Dennison of Boston and Robert Morzes Butler, his present campaign manager, to furnish a list of names of admitted communists, the Sherman industrial stool-pigeon work, until even the audience of banquets in New York, unbridled himself of admissions condemning the Sherman industrial stool-pigeon work, until even the audience of banquets in New York, unbridled himself of admissions condemning the Sherman industrial stool-pigeon work.

But the chairman of the Republican National Committee, Mr. William Morgan Butler, who was attacked and disgusted with such infamy. Butler Relishes Stool Pigeons.

He is setting up his own personally-supervised committees everywhere, utterly disregarding the workers' own organizations, and cutting the vitals out of the whole Farmer-Labor movement. Our warning was not heeded, and as a consequence, the Minnesota movement is in for a bad time.

Butler Relishes Stool Pigeons. He is setting up his own personally-supervised committees everywhere, utterly disregarding the workers' own organizations, and cutting the vitals out of the whole Farmer-Labor movement.

Buffalo, Friday, Aug. 29, 8 p. m.
Rochester, The Labor Lyceum, 880 St. Paul St.—Saturday, Aug. 30, 8 p. m.
Daytown—Sunday, Aug. 31, 8 p. m.
Canonsburg—Monday, Sept. 1, 8 p. m.
St. E. Huthenberg, executive secretary of the Workers Party, will make a series of campaign speeches in the New England States. Two of these speeches already arranged for are:
Boston, Mass.—Monday, Sept. 1, 8 p. m.
Gaine Memorial Hall, 7:30 p. m.
New Haven, Conn.—Saturday, Sept. 4, 8 p. m.
Hermann's Hall, 159 Crown St., 8 p. m.

DANGES SEEN IN NEW JERSEY RACE CLASHES

"Shoot to Kill" Order of Police Chief

(Special to The Daily Worker)

TRENTON, N. J., Aug. 25.—Fear is being expressed that the drastic order of Police Commissioner George B. LaBarre to "Shoot to Kill," in connection with the race situation here may cause a very serious state of affairs in a short time.

The situation arose by the influx of southern Negroes into the city which has doubled the Negro population in Trenton since the world war. This increase necessitated the providing of shelter for the newcomers, who were working in the Roebling Wire Mills, John L. Mott Iron Works, American Steel and Wire Company, National Radiator Company, Cook's Linoleum Company aid in the pottery and rubber industries.

Blacks in Filthy Houses. The Negroes were obliged to live under terrible conditions, in the most miserable shacks, without the slightest pretense to sanitation or comfort. This shanty town was made worse by the fact that the black and white workers were becoming rivals for jobs, the capitalists splitting the profits by dividing the workers according to race.

The first sign of trouble came with the unusual purchase of firearms by the migrants because of the shooting of a Negro minister, Banks, who got into a quarrel with a white, and the police were then given instructions to arrest anyone carrying concealed weapons.

The racial antagonism has been aggravated also by a Ku Klux Klan agitation, and by numerous encounters between whites and blacks. A Negro physical instructor in the public schools, Howard Dargerfeld, soundly thrashed a white man who attempted to prevent him from using a certain diving plant in a public pool which Dargerfeld had used for some time before. Elements are now active in an attempt to have the Negro expelled from the school, while the Negroes are determined upon his retention.

Unemployment Increase Dangerous. The laying off of many workers in the local industry has not helped the situation since the jobless are unemployed and there is a possibility that a sudden incident may be the spark to arouse the fire.

Militant Miners Opposing Lewis, Murray, Green

By KARL REEVE (Staff Writer, Daily Worker.)

ZIEGLER, Ill., Aug. 25.—The Illinois miners are determined to resist the drive of the coal operators to institute the "open shop," by electing to union office men who are pledged to accept no wage reduction, who demand a shortening of the work day and the payment of unemployment benefits, Henry Corbushley, president of Ziegler Local, No. 2376, told the DAILY WORKER today.

"I know that the miners of Southern Illinois will pay no attention to the so-called Lions' Club convention, now being held in Herrin," Corbushley said.

"Conditions are pretty bad for the miners. Ziegler is a town that has the coal mine at one end and the company store at the other.

"When the miner gets up in the morning to go to work, all streets in town lead to the Bell and Zoller mine. When he comes out of the shaft and starts home, all streets lead past the company store.

Feel Open Shop Drive. "The United Mine Workers' Union has felt the shock of the open shop drive in work in all the mines, and its officials have been yellow and as traitorous as any other reactionary union officials. But the miners are not going to allow their union to be wrecked."

They know that they listen to the bank handed out by the coal operators, and the same identical bank handed out by the mine officials. The miners are not going to allow their union to be wrecked."

Plan Hearings Before Master in Chancery. The affairs of the Industrial Workers of the World continue to be the football of the capitalist courts.

Little progress was made when the fight of the Rowan-Bowman faction for an injunction against the Fisher-Doyle element came up yesterday, this time before Judge David, as he was bound to handle the case.

Judge Has Surprise Party. Previous efforts to settle the internal differences of the "Wobblies" outside of court were unable to overcome the Rowan-Bowman determination to obtain a court order, with the result that there was another appearance in court, in which both sides found themselves the butt of the jeers of a capitalist judge.

"Do you mean to tell me that you are the Industrial Workers of the World, and that you have come to court to settle a difficulty arising within your organization," sneered Judge David, as he was made aware of the nature of the case brought before him.

Attorney T. P. O'Connell, for the "injunctionites," prey much on the defense, went into a long and legal explanation of the alleged reasons for starting the injunction proceedings against the officers of the I. W. W.

Rodriguez for Gurnea. These reasons are already familiar to the readers of the DAILY WORKER. The "injunctionites" claimed they had been ousted from office by force by the Fisher-Doyle elements, and that they wanted the injunction to restore them to power.

CONGREGATION HAS HARD TIME TELLING APE FROM SKYPILOT

RUTHER, Mont., August 25.—With a monkey tied to his pulpit, Reverend CULP O'Farrell, pastor of the First Baptist church, raved away above the chatter of the animal in an attempt to grope that whoever maintained that the monkey was descended from a monkey is a descendant in actuality from an ass.

The monkey got so frightened at the maniacal manoeuvres of the general that he shouted at the top of his voice.

The congregation had great difficulty in distinguishing the monkey from the preacher.

PRINCE OF WALES IN STUPOR AFTER NIGHT OF WILD DANCING
ABOARD THE BERBERIA. August 25.—The Prince of Wales, champion horse jumper and better of styles, retired early this morning after a night of dancing on his first evening out of England on his trip to the shores of Columbia.

He is occupying a suite that had been reserved for the prince, but that does not prevent him from having a gloriously good time.

DAWES PLAN HAS HARD SLEDDING IN REICHSTAG

BERLIN, Aug. 25.—The critical stage in the work of putting the Dawes Plan in operation is reached. The German government has agreed to the London agreement, all the efforts of the conference has been in vain.

German industrial and banking circles are worshipping. Fear that the German nationalists, attacked the London reparations agreement when debate was renewed in the Reichstag today upon Chancellor Marx's demand for a new loan.

Herr Hert, chief leader of the German nationalists, attacked the London reparations agreement when debate was renewed in the Reichstag today upon Chancellor Marx's demand for a new loan.

Strike Winning in Baltimore. BALTIMORE, Aug. 25.—Seventeen men and six shops rallied the International Ladies Garment Workers Union and nearly two-thirds of the original strikers are returning to work under union conditions.

WHERE IS THE BOOM PREDICTED BY THE CHICAGO TRIBUNE?

The Chicago Tribune, which has for weeks predicted a tremendous boom in business, prints a story concerning the work of the Chicago Christian Industrial League, a "charitable organization" which is starting a drive for help "in preparing for what is expected to be a winter of extensive unemployment."

Homes where families have new clothing in their cupboards, any new toys, in spite of the employment shortage, are asked to send their cast-off clothing, furniture and toys to the Christian Industrial League, a fraternal league so that men and women who might otherwise starve this "winter" may survive to work another year in the same industry.

The men and women who come to the office of the league are expected to work, repairing the articles so that they will once more be fit for use. The articles are then sold by the Christian League—presumably at a profit.

New York On the Job

THE WORKERS PARTY of New York is arranging a city-wide distribution of the DAILY WORKER with which the Party is launching the First Communist Campaign in the United States.

Every member of the Party is expected to take at least five copies to every distribute. Every one of our readers should help in the launching of this campaign against the LaFollette-Hitquit-Gompers conglomeration, against the splendid fight and the Communist by taking as big a bundle of this Campaign as they can. DAILY WORKER as possible to sell or give to English reading workers.

EUROPE ABOR AT MATTEOTTI BURIAL SCENE

Socialists Agree with Fascisti on Funeral

(Special to The Daily Worker) BADIA POLESINO, Italy, Aug. 24.—Giacomo Matteotti was buried yesterday.

From every corner of Italy came thousands of representatives almost every labor organization in the country, to pay honor to the deputy whom the Fascisti assassinated for his attempts to expose the corruption of the Mussolini government.

With them were representatives of the working masses of France, Austria, Yugoslavia and Switzerland, who were there to express their solidarity with the Italian proletariat in their efforts to throw off the domination of the petty army officials who have oppressed the workers for three years.

Tracks strewn with flowers. The funeral, held in Corzano, where the body of the deputy was discovered a week ago, to Badia Polesino, Matteotti's birthplace, were covered with flowers. In every town which the funeral train passed, workers left the shops and stood at the stations with bare heads.

The decision to hold a funeral in the Italian proletariat in their efforts to throw off the domination of the petty army officials who have oppressed the workers for three years.

The compromise was made after the government, three days before the funeral, decided on the opposition to stop its denunciation of the Fascisti, on the ground that "such denunciation is antagonistic to the reconstruction of the country on a peaceful basis."

Fascist Demonstration. On the day of the funeral, black-shirts marched through the streets of Milan where workers had been for some time holding a demonstration, singing:

"Out of Matteotti's body will grow the new nation."

An incident in the Italian chamber of deputies shows that the fury aroused among the workers by the killing of Matteotti cannot be expressed by the holding of a public funeral.

The recorder of the chamber, calling the roll of deputies, came to the name of Matteotti. He hesitated, stopped, and mumbled the name under his breath. For a few moments there was death-like silence.

Then from the ranks of the opposition a deaf voice called "Here."

Mussolini shaken. Mussolini turned white, and began to sway where he stood. Then the members of the opposition, catching the spirit, answered as with one voice: "Here."

The Communists of Italy have determined that the murdered deputy shall be with them in spirit until the rule of murderers is overthrown.

Official "Yes" Given to Mobilization Day by American Legion

WASHINGTON, August 25.—John R. Quinn, national commander of the American Legion, gave official approval today to the mobilization day proposed Mobilization Day, September 12, in a letter to the chief patriotic salesman of the proposition, Mrs. Anthony Wayne Cook, president general of the Daughters of the American Revolution.

Mr. Quinn became quite humorous in his letter by saying that while he is unqualifiedly in favor of the demonstration, "the American Legion does not want war."

Soldiers will have their little jokes. Greek Mutineers Surrender. ATHENS, August 25.—Greek naval captains under the leadership of Kollaxias yielded to the government troops which had surrounded and disarm the entire fleet was cancelled. Kollaxias surrendered after Captain Hadjirakias, former minister of the marine, had been appointed mediator.

WISCONSIN—A DARK PICTURE

WITH all its well advertised and over-estimated reform laws, Wisconsin does not present a bright picture of social conditions. Last year the increase in industrial accidents was greater in the Badger state than in most of the conservative states surveyed.

Fourteen states pay higher wages to their farm laborers than Wisconsin does.

The dirt farmers in Wisconsin are being rapidly robbed of their land by the investing class.

The proportion of farms free from mortgage in Wisconsin is much smaller than in the United States.

The proportion of mortgaged farms is much greater in Wisconsin than in the United States as a whole.

There are more children engaged in the manufacturing industries of Wisconsin than there are in the same industries in New York, and the latter has about four times the number of gainfully employed employed in manufacturing industries than the Badger state.

Child labor decreasing much more rapidly in the country as a whole than it is in Wisconsin.

FARMERS' BURDENS ARE HEAVY (Continued from page 1) farms free from mortgages declined from 68.3 per cent to 34.3 per cent in 1920.

But here is a matter of serious concern to the farmers of Wisconsin, and that is the decline of 1910 to 1920 the proportion of mortgaged farms in the country as a whole rose from 32.7 per cent to 65.7 per cent.

Further light on the increasing hardships of the Wisconsin farmers is shed by the findings of the 1930 census as to the amount of the national debt to the nation as a whole, the proportion of debt to the value of the farm increased from 27.3 per cent in 1910 to 33.3 per cent in 1920.

Mortgage Debt Rising. The total amount of mortgage debt for Wisconsin farmers rose from about \$150,000,000 in 1910 to more than \$250,000,000 in 1920.

The farming masses of this great state are also paying an exorbitant price for these difficult conditions in the form of oppressive taxes. From a tax study made for the Wisconsin Farmers Union by the department of agriculture, we find that the part of the net cash rent from the farms paid out in taxes by the Wisconsin farmer is higher than that of any other of the twenty-six states investigated.

Since that year taxes have generally increased, while rents have been reduced," says the department of agriculture in its summary of the investigation.

Social Conditions Unsatisfactory. For the last fiscal year industrial accidents showed a startling increase in the United States. The American Association for Labor Legislation recently made an investigation of this tendency. Its findings, after hearing from one-half the compensation received for the 1923 accidents investigated. All in all, only sixteen states replied to the queries of the American Association for Labor Legislation.

Wisconsin has always boasted of its great educational system. But the record of the state in the past few years in the death rates, in the proportion of deaths per one thousand of the population, Wisconsin is one of the lowest states in the country.

Wisconsin has always boasted of its great educational system. But the record of the state in the past few years in the death rates, in the proportion of deaths per one thousand of the population, Wisconsin is one of the lowest states in the country.

From the "Instruction in Wisconsin Employment Bureau of the State of Wisconsin, 1920-1921 report of the State Federation of Labor, we learn that:

For 7,200 university students the state of Wisconsin in 1913-1920 spent \$4,000,000. For more than 20,000 employed children between the ages of 14 and 17 the state spent one-eighth as much on their education.

Sanitary Labor Conditions. Nor are the sanitary conditions of employment in Wisconsin any better for them by the various state laws. So conservative a paper as the Milwaukee Journal in its issue of De-

SILENT CAL HAS NOISY CHARLIE ON THE CARPET

Klan Speech Campaign Fodder for Foes

Rumors of strong differences of opinion in the Republican National Committee are rife since Charles G. Dawes delivered his profane Klan speech in Augusta, Maine, last Saturday.

So serious has the situation become that the General's parlous condition is being changed as a result of a sudden decision on the part of the president who requested Dawes to visit him at once at his home in Plymouth, Vermont.

Republican party editors have attempted to feature the Dawes speech as an attack on the Klan, but the report of the committee is that it is an endorsement, the most outspoken yet made by any American politician of as high standing as the General.

Effects of Dawes Speech. What effect the Dawes speech will have on the campaign for victory at the polls in November is a question that is worrying the heads of old republican chieftains.

It is even suggested that Coolidge will insist on General Dawes submitting his speeches to the campaign committee for their approval, to stop the practice of spouting extemporaneously.

Mr. Miriam Ferguson, the anti-Klan candidate for governor in her opponent, Judge Felix Robertson, was elected by some 50,000 votes. Her election is considered the defeat of the Klan in Texas in its open fight, calculated to have a detrimental effect on its fortunes in the rest of the country. Not alone have they lost the governorship but every other state office.

The LaFollette campaign committee has decided not to interfere in local campaigns, according to John Nelson, campaign manager.

COAL BARONS PROTECT KLUX CHIEF YOUNG

BULLETIN. HERRIN, Ill., Aug. 25.—Glenn Young must appear for trial here this week, Judge Bowen ruled in court here this afternoon, overruling a motion for a continuance of one of Young's cases which came to trial today.

(Special to the Daily Worker) HERRIN, Ill., Aug. 25.—Attorneys Arlie Bowell and C. D. Pithan, representing S. Glenn Young, noted in the Herring court today that the state county judge, submitted affidavits from two physicians, Dr. G. W. Welch, Centralia, Ill., and Dr. William L. Gilbert, Atlanta, Ga., to the effect that Young is in a hospital and unable to travel when another of Young's cases was called for trial before Judge E. N. Bowen in the Herring city court today.

Should the court forfeit Young's bond, and should there be forfeiture of the remainder of Young's bonds, millions of dollars worth of coal lands in southern Illinois, owned by Young for the bonds of Young and his intimate associates, will be involved in forfeitures and legal wrangles.

Decent Pay, Not Tips, is Union Barbers' Demand

Members of Journeymen Barber's Union, Local No. 548, are demanding an increase in their wages. They are now receiving \$25 a week and they want it raised to \$35.

President W. S. Liedig, said the union representatives had presented their demands to the master barbers. "We have been in conference with the master barbers twice, but as yet nothing definite has been decided upon.

Getting back to the strike, he added: "We want a living wage for our people so that they will not be dependent on tips. The tipping system is a curse and disgrace and I, as a union man, want to see it abolished."

Brisbane Predicts Day of Workers' Rule But Sees It Very Far Off

By J. LOUIS ENGDHAL.

TODAY, Mr. Arthur Brisbane, editorial dictator of the Hearst newspapers, salves the fears of the "upper classes," to which the Hearst-Brisbane outfit is trying to cater, by promising that Workers' Rule in the United States is a long way off.

But what a startling confession to come, even from a Brisbane, that Workers' Rule is coming at all.

This is the Brisbane who has become a millionaire, and piled up more millions for William Randolph Hearst, thru the worst prostitution of the yellow press.

In his own words, Brisbane confesses that: "The next step will come eventually and the crowd at the bottom, the WORKERS, will rule. But here in America that is a long way off. Men of different races, languages and religions do not trust each other, and will not consent that any among them shall lead all. And for the present, barring great stupidity on the part of finance, that finance, thru its representatives, will rule."

Brisbane merely restates a policy that the great employing interests in this country have always carefully and thoughtfully followed, and will continue to follow until their day of doom, and that is, "Divide the workers along the lines of race, language and religion, and then it will be easy to conquer them, and keep them in subjection."

Every great unorganized industry, steel, packing, shoe, textile, mention only a few, have used these divisions among the workers to shatter the workers' ranks and keep labor from organizing. The latest effort, growing out of the restriction of immigration from Europe, is the herding of great masses of Negroes into the Northern industrial centers.

But these very tactics of the bosses have taught the workers the lesson needed to overcome this obstacle to their winning of power. The workers know better today, than ever before, that they must get together, in spite of race, language, color, or religion to fight "The Boss."

The great strikes in the past few years, the last in great part, the uprisings of the workers in the shoe and textile industries. The present strike of the silk workers in Paterson, New Jersey. All bear testimony to the fact that workers are developing solidarity, in spite of differences, in the face of the enemy's attack.

Great labor organizations stand as an encouragement to the workers, as a convincing proof that unity can be won. The United Mine Workers of America is made up of workers speaking many languages, professing many religions, or no religion, and of many colors. It is against this fact that the bosses are now hurling their most vicious open shop attack.

The needle trades unions, especially the Amalgamated Clothing Workers of America and the International Ladies Garment Workers' Union, have a widely diversified membership. But these organizations should give Brisbane considerable reason for thought.

The great membership of these organizations decide continuously that "One among them shall lead all." The members of these unions do trust each other in spite of race, religion, color. The leadership of officials of one nationality is accorded to the others, for the bosses are not impaired because of the racial or religious differences that exist between the Polish, Italian, Czech, Jewish, German, Lithuanian or Negro workers.

Capitalism cannot eliminate, thru its oppression, race, nationality, religious and color lines. Those divisions will remain. But thru its oppression capitalism is driving the workers together, into a solid fighting mass, in spite of these differences.

This welding of the forces of American labor has been proceeding for a hundred years in this country. That this unity of labor is growing more rapidly now, than ever before, is shown by the fact that the workers of all nations upon earth have built the closely knit, well disciplined Third (Communist) International, on the ruins of the loose in form and chaotic in action Second (Socialist) International.

Let Brisbane breathe not so easily. The mothers of labor in New York City may yet take over his palaces and use them as nurseries for their "East Side Babies."

The workers may not be long in running up the Red Flag of "Unity" over the buildings that house the Hearst publications, and claim them as their own, and use the plants therein to turn out their own publications.

Brisbane's day of great disappointment may be much nearer than he thinks, or even dreams. He is not insured against a safe or prophetic of the capitalist social order to make conservative predictions in these days of rapid progress.

CITIZENSHIP IS SOCIAL SCRAP, SAYS FOSTER

Workers Must Perform Surgical Operation

(Special to the Daily Worker) ST. PAUL, Minn., (By Mail.)—"I won't be elected president of the United States in this campaign, but the time is coming when the hands of the Workers' Party will be chosen. But he won't be known as president then, he will be the chairman of the Council of Commissioners made up of farmers and workers," said William C. Foster, Communist candidate for president of the United States on the Workers Party ticket, at a meeting here Aug. 23.

Mr. Foster addressed one of the most enthusiastic political gatherings held in St. Paul for some time. Every available seat was taken and the large labor temple. A striking feature of the meeting was the large attendance of trade unionists and other elements not directly affiliated with radical movements.

Confusing the Workers. Speaking of the issues involved in the presidential campaign, he showed where the other parties were attempting to befuddle the minds of the people with fake issues as the tariff, "good government," etc., said that the new wave of the anti-unionist, anti-farmers and workers," said William C. Foster, Communist candidate for president of the United States on the Workers Party ticket, at a meeting here Aug. 23.

As an illustration of the wage system Foster recited that some nine or ten years ago he worked for Swift & Co., the packers of Chicago, for the ridiculous wage of \$9.00 a week, and during that same period \$34,000,000 was paid to the government as a part of which was divided among the immediate Swift family.

Knock Eggs Out. In referring to the old proverb Foster said that some 20,000,000 eggs occupied with the business of laying cold eggs. In spite of the old adage "don't kill the goose that lays the golden egg," the capitalist class has no such consideration for the workers. The 20,000,000 eggs are treated, with the utmost contempt."

He also mentioned the fact that in the Fourth District, St. Paul, on the Farmer-Labor Ticket preceded Foster and it into the local labor platform. He mentioned John F. Johnson, LaFollette's right-hand man in Minnesota, for the peasant political same they were playing in taking advantage of the national progressive sweep to cast themselves into soft offices.

Seize Anti-Klan Paper. NEWARK, Ohio, Aug. 25.—A commitment of 1100 Muncie Democrats, an anti-Klan publication, was seized here by local police on the charge that it was a defamatory and obscene publication. The publication avers that it has been printing truthful stories about the local Klan administration which got under their knickerbockers.

Mobilizers Open Headquarters. WASHINGTON, Aug. 25.—Headquarters for the mobilization drive here for the national committee, which co-operating with the war department in completing plans for "Defense Day."

It was learned from Attorney Redrigan that the organization now has \$15,000 in the bank. It was pointed out that the national money drive would be used to carry on the work of the organization. There are many bills awaiting payment now and salaries that must be paid. It was decided that all checks should be paid by order of the court, until the case is settled. This was agreed upon by the attorneys on both sides.

Don't Believe in Injunctions. When the judge was told that the printing plant was being used by the Fisher-Doyle group to inform the members about the injunction, the judge suddenly exclaimed: "Oh, so they don't believe in injunctions. Well, we see that injunctions are sometimes a good thing even for the I. W. U."

Then declaring that he could not spend any more time on the case, and instructing the attorneys to get together and work out a working agreement for the use of the books and the funds for organizational work, until the case comes up again, he dismissed the case so that the court would not be troubled by the matter at issue he taken before a master in chancery, to hear evidence and make a decision.

JUDGE JEERS; I. W. W. CASES

(Continued from page 1) or violate the rights of private property, the court will protect them."

Then Attorney O'Connell, counsel for the "outs," protested that the developments in the case would delay the rendering of a decision on the demand for an injunction. O'Connell reiterated the charges that force had been used by the "ins" to maintain themselves in power.

"If any force is going to be used," declared Judge David, showing signs of judicial anger, "it will be the government that will keep order in the I. W. U." \$15,000 in Bank. The judge showed great interest in the case, and even inquired. He thought that the organization ought to be incorporated, that it was wrong for it to be engaged in any attempt to overthrow government institutions.

DEFEAT K. K. K. DISRUPTION IN ZIEGLER, ILL.

Miners Reveal Hooded Klan Gammes

By KARL REEVE. (Staff Writer, Daily Worker) ZIEGLER, Ill., Aug. 25.—The long fight that the Ku Klux Klan has been waging here to disrupt the local union, No. 2276, of the United Mine Workers of America, was finally punctured when the Ziegler local met and transacted business for the first time in two months.

In a final, desperate effort to disrupt the miners' organization, and aid their inspirers, the non-union "open shop" business men, the Klansmen called to their aid Mayor A. C. Carr, Ziegler, who is sympathetic to the Klan. The sheriff, Charlie Doris, was called over from Benton, and Mayor Carr, attempting a grandstand play, forced himself into the miners' hall and demanded to see Chairman Corbushy. "It looks like you're going to have war here tonight," he yelled at Corbushy, "and I'm going to search every one of the miners." Corbushy replied: "Come right in, you are welcome to do it."

Klansmen Carry Guns. After searching every one of the three hundred people in the hall, the sheriff found guns on 13 men, but they were all members of the rowdy Klan gang who have been trying for so long to disrupt the Ziegler local. The local union preferred charges against these men. The Klansmen first came out in the open and revealed the true purpose of their organization to disrupt labor organizations, during the last election of officers to the local union. A progressive slate was elected, headed by Corbushy, and the elections were over, having been conducted in an orderly manner. Klansmen Start Riot. The Klan gangsters then started a riot, beating up "Billy" Hoopes of the Miners' Union, and jumping on chairs and trying to throw miners out of the window. To avert serious trouble, Corbushy adjourned the meeting

New York and Detroit Enthusiastic About The Daily Worker 'Specials'

THE proposal to issue special editions of THE DAILY WORKER in connection with the Foster and Gitlow meetings has met with instant and universal approval. In each instance where local organizations of the Workers Party have had opportunity to act decisions have been immediate to accept the obviously advantageous arrangements.

Let the comrades in Detroit and New York speak for themselves regarding the local sentiment in these places: "Your proposition meets with distinct favor here," writes Edgar Owens, District Organizer of the Party in Detroit. "We would like to know if we can from time to time secure special Detroit Editions. If this is possible we will be able to bring the activities for THE DAILY WORKER up to and beyond the high standard we established when THE DAILY WORKER was established."

Comrade L. E. Katterfeld, newly appointed City Agent for THE DAILY WORKER in New York has much bigger plans still. "We will order 10,000 copies for our Gitlow meeting Sep. 9. These will be distributed by the comrades. In addition we will address mail wrappers for 10,000 registered socialist voters here to which you are to send copies of our special edition. That ought to assure a pretty good Gitlow meeting, also some sale."

"The proposition for the Foster meeting is different. The Comrades here would like to know how much 50,000 copies would cost, with THREE PAGES of special New York matter."

That certainly makes Chicago look like a village in the sticks. It's hardly fair to ask THE DAILY WORKER to under its press just to make the New York meetings go over, but under the circumstances we'll have to agree.

Comrade Charles Krumbien, District Organizer in New York, expresses the sentiments of the New York party members when he writes: "Rest assured that we are all enthused about the possibilities behind the special issue of THE DAILY WORKER for New York and I feel certain we will make a big thing out of it."

If there is a Foster or a Gitlow meeting that is allowed to pass by without the accompaniment of a copy of the special edition of THE DAILY WORKER, the Workers Party campaign, the Workers Party itself and THE DAILY WORKER all lose.

Read the advertisement appearing on this page and if you have not already acted WRITE OR WIRE YOUR ORDERS. and the miners went home. The Klansmen then held a second meeting, elected Klansmen to the offices which had already been filled, and stole the books of the miners' local union. Corbushy protested to the sub-district officials, and the bona fide miners have been upheld and vindicated even by the Parrington machine.

Last night's meeting was orderly and successful. George Vorsey, of Local Union No. 1687, was nominated for president of the United Mine Workers. Arny Staples was nominated for vice-president, and Joe Neasr, of Cape Breton, for secretary-treasurer.

Distribute a bundle of the DAILY WORKER's first Special Campaign Edition, dated Saturday, August 30.

PITTSBURGH DRIVE FOR SIGNATURES PROCEEDING FAST

Street Meetings Being Held in Steel Town

(Special to The Daily Worker)

PITTSBURGH, Pa., Aug. 25.—Members of the Workers Party through District Five were busy for the last few weeks getting signatures for the nomination petitions. Over 7,000 signatures are necessary to make sure that the W. P. ticket will be placed on the ballot. We are still short of this number and there is only one week left for this work. In view of the Pittsburgh D. E. C. at its latest meeting a motion instructing the branches to see that a committee goes from house to house to solicit signatures for our petitions. The campaign was started last week with street meetings in different parts of the city. This week there will be street meetings held almost every evening in Pittsburgh and East Pittsburgh with Comrades Mrs. Knight, Maguire, Otis and others as speakers.

Comrade Benjamin Gitlow will speak at Pittsburgh on Tuesday, September 2, at the Labor Union, 1111 Miller St., Pittsburgh, Pa., at 8 p. m. Comrades are requested to call at the District office for tickets and advertising matter for the Gitlow meeting.

On Saturday, August 30, Local Pittsburgh will hold the last picnic of the season at Schutzen Park. Comrade Mrs. Knight will speak at this picnic. A good time is assured to all comrades and the readers of the DAILY WORKER are urged to attend this meeting.

The following street meetings will be held this week:

Thursday, Aug. 25, McClure and Preble, Speaker: Maguire.

Thursday, Aug. 28, James and Ohio, Speaker: Mrs. Knight.

Friday, Aug. 29, Homewood and Hamilton, Speaker: Rasmick and Maguire.

Saturday, Aug. 30, Federal and Duomo, Speaker: Mrs. Knight and Rasmick.

Saturday, Aug. 30, James and Ohio, Speakers: Otis and Maguire.

AS WE SEE IT

(Continued from page 1)

speech. International solidarity is growing. Under the hammer blows of the international proletariat, the parazans and its revolutionary leadership national boundaries are being broken down and a real international army of labor is being built. Speed the day!

A French section tells us that the inhabitants of our planet because their planet is millions of years older than this one, will some day see planets hurtle across our sky with considerable admiration, the same who are not scientists would like to be shown before they believe everything placed on the market as fact. In fact scientists are oftentimes anything but scientific. Whether Marjans exist or not outside the fertile imagination of H. G. Wells is an interesting subject for speculation, but a more interesting form of activity is getting rid of the capitalist system and the capitalist. After that is done we will have plenty of time to spend gaining in the general direction of Mars.

THE Fascist government of Italy which at times in the past has taken a hostile attitude toward the "Church" now, in its existing policy, catering to that organization. The government recently announced a concession of \$7,000,000 to the Sacred House of Loretto for "charity" work. The House of Loretto has large tracts of land and immense wealth in jewels and money. But this wealth has been used for the benefit of the poor since 1860, and the present donation is more important because of the prestige it establishes than because of its intrinsic worth. Fascism is playing for a powerful ally.

THE Prince of Wales is preparing himself for the day on which he will be crowned the British monarch. The pretentious Ramsay MacDonald, social premier, is taking care of his business. The Prince was having a Catholic church in London, Scotland, MacDonald, Phil Snowden, Stephen Walsh and the other Irish and Scotch capitalists who are now running the Empire, decided he should give the United States in order to give the masses a thrill and prepare the way for another diplomatic effort toward the United States.

WHAT a glorious system is capitalism! A week-ended prince can spend one 100,000 francs in a gambling game, yet when he wakes up the following morning he has not to worry about his meals for the rest of the day. Daughters and wives of millionaires are spending fortunes in Europe or somewhere else while millions of workers are facing starvation and will die.

SEATS in the Prince's vicinity were at a premium and the most anxious positions next to the British princeling were American girls. It is safe to say that American working girls were not present in large numbers. The girls who were at Dadyville are daughters of capitalists who exploit other American girls eight or ten hours a day, and out of the profits round out the toll of disease and their idle daughters have a merry time in the gambling dens of Europe hobnobbing with the aristocracy.

Daughters and wives of millionaires are spending fortunes in Europe or somewhere else while millions of workers are facing starvation and will die.

THE Prince will not have as hot a time in America as he had in France despite the undoubted desire of America's society ladies to do everything in their power to please. Let us not misunderstand by some liberal emancipated member of the female sex, who might think we are suggesting that society ladies should not conduct themselves according to the New Testament in the presence of the Prince. Nothing of the kind. What we mean is that to please the Prince could have his drink and admire feminine loveliness without either receiving the attentions of the American magazine editors or the Wall Street, whereas in the United States he must act with more dignity than he finds agreeable.

It is great to be a prince under a socialist administration. The story goes that when Valois went to the gambling den at Deauville he dropped ten thousand francs on one of the green tables and said "shoot!" The gambling boss "what" until the Prince was cleaned up. He had his winning streak until a lady of considerable pluckitude here in the vicinity of Paris came in and placed her bet. Her bet was on the Prince's thinking apparatus, with the result that his luck turned while his eyes were turned in the direction of the lady.

THE DAILY WORKER FOSTER SPEAKS T. FRIDAY MASS MEETING HERE IN SUPPORT OF WORKERS PARTY CAMPAIGN

COMMUNIST PRESIDENTIAL CANDIDATE HAS LONG RECORD OF SERVICE TO LABOR

GREAT CROWD EXPECTED AT OPENING MEETING OF COMMUNIST ELECTION DRIVE

In what is expected to be one of the greatest meetings ever held in this city, the Workers Party will open officially its election campaign here with a mass meeting in Madison Square Gardens, Friday, August 15, at 8 p. m. William Z. Foster, Communist Presidential Candidate, will be the principal speaker. The Workers Party has a record of service to labor which is well known to all workers.

Unemployed Millions Need Workers Party Program. Several unemployed millions are constantly growing in every part of the country. In the average year, more than 10 million people are unemployed. The Workers Party has the only solution for the unemployed problem. Among them is the Workers Party in the coming election. The Workers Party is the only party that has a program for the unemployed. The Workers Party is the only party that has a program for the unemployed.

William Z. Foster, candidate on the Workers Party ticket for president of the United States, needs no introduction to the New York City workers. He has as many American friends as he has back bones to support him. He has a record of service to labor which is well known to all workers.

Severe unemployment is constantly growing in every part of the country. In the average year, more than 10 million people are unemployed. The Workers Party has the only solution for the unemployed problem. Among them is the Workers Party in the coming election. The Workers Party is the only party that has a program for the unemployed.

The Workers Party is the only party that has a program for the unemployed. The Workers Party is the only party that has a program for the unemployed. The Workers Party is the only party that has a program for the unemployed.

While it is true that the Workers Party is the only party that has a program for the unemployed, it is also true that the Workers Party is the only party that has a program for the unemployed.

The Workers Party is the only party that has a program for the unemployed. The Workers Party is the only party that has a program for the unemployed. The Workers Party is the only party that has a program for the unemployed.

While it is true that the Workers Party is the only party that has a program for the unemployed, it is also true that the Workers Party is the only party that has a program for the unemployed.

The Workers Party is the only party that has a program for the unemployed. The Workers Party is the only party that has a program for the unemployed. The Workers Party is the only party that has a program for the unemployed.

While it is true that the Workers Party is the only party that has a program for the unemployed, it is also true that the Workers Party is the only party that has a program for the unemployed.

The Workers Party is the only party that has a program for the unemployed. The Workers Party is the only party that has a program for the unemployed. The Workers Party is the only party that has a program for the unemployed.

While it is true that the Workers Party is the only party that has a program for the unemployed, it is also true that the Workers Party is the only party that has a program for the unemployed.

DISARM TALKS BUNK IN FACE OF WAR-STEEL UNION

Europe Munitions Men Unite Against U.S.

(By Federated Press.)

BERLIN, Aug. 25.—Economic causes of war are steadily deepening while political governments prattle about peace and disarmament. A European steel convention is about to be formed which will include most of the notable steel firms of the steel producing countries of Europe. One object of this convention will be to protect European steel production against American price cutting operations. Europeans are convinced that the United States with its tremendous surplus capacity will dump steel on the European market below cost of production if necessary in order to smash competition and eventually absorb rivals. In other words they expect American capitalists to pursue the same policy which enabled them to build monopolies in America before the war.

Bosses Condescend to Increase Wages After Cutting Them

(By The Federated Press.)

DALLAS, Texas, Aug. 25.—Motor men and conductors employed by the local street railway company, a Stone and Webster concern, have been granted an increase in wages. First year men will receive 46 cents per hour; second year men, 48 cents; and third year men and thereafter, 50 cents. Operators of one-man cars will receive 4 cents per hour additional.

The superintendent of the company announces that the increase is given because of "loyal, courteous and efficient service and the splendid spirit in which the reduction in wages of Aug. 1, 1921, was accepted." He says that he understands that the cost of living has increased since then.

The workers have never had a union to look out for their interests.

Paper Workers in Demand for Wages Increase or Strike

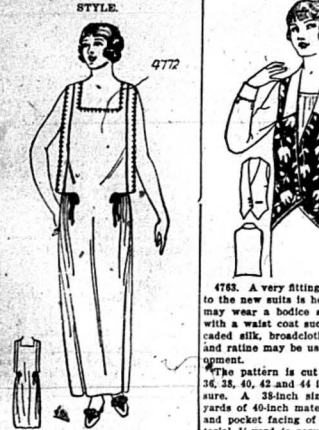

(By The Federated Press.)

NEW YORK, Aug. 25.—The 14-hour week and a 25 percent increase in wages is demanded by the Paper Box Makers Union here as the alternative to a strike September 15. Morris Waldman, union organizer, estimates that 150 open shop plants, employing about 4,000 men, will be shut down unless the bosses yield. Many of the girls receive less than \$15 a week.

OUR DAILY PATTERNS

A NEW AND PRETTY LINGERIE STYLE. A POPULAR STYLE.

4772. This graceful model was developed in battle, and finished with eyelid embroidery. The gathered fullness over the hips may be disposed of in any tucks.

The pattern is cut in 4 sizes: Small, 34-36; medium, 36-40; large, 44-46; extra large, 48-50 inches bust measure. A medium size requires 2 1/2 yards of 35-inch material.

Pattern mailed to any address on receipt of 12c in silver or stamps.

Send 12c in silver or stamps for our UP-TO-DATE FALL & WINTER 1924-1925 BOOK OF FASHIONS.

RUSSIA AROUSED BY MURDER OF WORKER CORRESPONDENT WHO EXPOSED LOCAL GRAFT

By M. A. SKROMNY

A murder which sent a wave of indignation all over the Union of Socialist Soviet Republics was committed recently in a small village of Ukraina. The victim, Gregory Malinovsky, was a village correspondent of the Communist press, a former member of the Red Army, a veteran of many battles against the counter-revolutionary bands and invaders. The murderer, Andrew Malinovsky, is the brother of the victim.

Many of the criminal elements of Russia, the exploiters, the czarists, etc., when they saw that all is lost for them, began to join the Communist Party in the districts where they were not known. They entrenched themselves with the aid of their friends, and often were elected to responsible positions, especially in the small villages, where there was always a lack of "educated" people. Hence, we have been reading in the press of the cleaning of the party, of "Communist" officials being shot by the Cheka, etc.

Communist Terrorized.

When Gregory Malinovsky came back from the Red Army to his small village, Dymovka, he found a gang of criminals entrenched in official positions. They terrorized all opposition, and nobody dared to say anything against them.

Gregory, who faced the fire of the enemies on the battlefield, was not scared. He opened an attack at the village meetings and in the press. Soon all Ukraina knew about the small village of Dymovka and its scoundrels. The first to be attacked was a certain Juravsky. When his name appeared in the press, he was scared and began to waver. The rest of the gang did not like it either, and they started to think of a way to get rid of the enemy. At the same time they were afraid that Juravsky may tell on them in case of trouble. As a result, Juravsky died suddenly.

Malinovsky Remains Firm.

Gregory Malinovsky suspected that murder had been committed and with the aid of a few comrades, mostly former Red Army men, intensified his campaign against the grafters.

Then, one night, Gregory was found shot to death with an insulting note pinned on to his breast. He was buried and for four months nobody

GREGORY MALINOVSKY

Communist Village Correspondent, who was killed by his own brother at the instigation of his enemies.

know anything about this murder. Only one of his comrades did not rest and quietly continued an investigation. As a result, the murderers are under arrest.

Brother Confesses.

The brother, Andrew Malinovsky, confessed to everything. He told how the gang worked on him for months, telling him that his brother was a bandit, an enemy of the people and an enemy of God, and finally they made him drunk with moonshine and gave him a loaded shotgun with which he killed his own brother.

The case brought forth a storm of indignation. In many cities labor correspondents held special meetings and passed resolutions demanding immediate investigation by the G. P. U. of all cases of graft, etc., which are appearing in the press, in order to prevent other similar cases.

Many newspapers are collecting money for the aid of the victim's family.

CZARIST PRINCESS JAILED FOR STORE ROBBERY IN FRANCE

PARIS, August 25.—Princess Eugenie Galtzine, 60 years old, wife of Prince Nicolas Galtzine, of the czarist regime of blood and terror before the Bolshevik revolution, has been sentenced by default to two months' imprisonment and a fine of 200 francs for stealing from a department store here.

Demand Compensation For Unionist Who Is Deprived of His Work

An interesting question arises from the situation that confronts John Sasmann, a union butcher. Following an attack of typhoid fever in January, the department of health pronounced Sasmann a typhoid carrier and forbade him to handle meats.

Three tests at three laboratories, made on the initiative of the union, gave positive results, and the union made no criticism of the bacteriologist, the health commissioner.

The question which the union raises is whether the state, which deprives a man of work for the benefit of the public health, should compensate him. At present Sasmann, his wife, and children are being supported by the union.

Hundreds in Clamor for Work at Opening of Tacoma Sawmills

(By Federated Press.)

TACOMA, Wash., Aug. 25.—Following an announcement a week in advance of the opening of the Dempsey sawmill here, there have been hundreds of men applying for work. Despite the rain and the fact that the regular crew was to be rehired, a mob larger enough to man several hundred saws gathered at the mill. Two other mills opening the same day were similarly besieged, according to workers. The "Lumber Capital of America" is also employing capital. Eastern labor should disregard press dispatches from the Pacific coast claiming unusual industrial activities.

Rochester Bakers Hot on Trail of Ward Scab Bread

(By The Federated Press.)

ROCHESTER, N. Y., Aug. 24.—In an attempt to force union recognition from the notorious anti-union Ward Bakers, General Organizer Walsh of the Bakery and Confectionery Workers' union has come to Rochester to extend his help to Local No. 14.

In the meantime, 117 union bakers, under the jurisdiction of this union give organized labor and its sympathizers opportunity to confine their consumption of bread and bakery goods to union made products.

CAPPELLINI NOW JOINS WITH THE CATHOLIC CHURCH

Had Denounced Them at Time of Election

(Special to Daily Worker.)

PLAINS, Pa., Aug. 25.—The "No Work" whistle was blown here last night, while the men were assembled in their local union meeting. This became a big celebration was on the calendar for today and the poor miners and their money needed to make it a success. With three bands, the church guild, the local branch of the American Legion, the local mounted and foot police and a large number of automobiles carrying the "No Work" pump and splendor that accompanies such occasions, the new Polish Catholic Church at this place, a \$250,000 structure, was dedicated this morning.

Capellini Leads.

Leading the automobile section of the parade was none other than Illegals' ally, the "No Work" "supposed" radical and the miners who were used to hearing him, in the days when he was seeking the presidency of the union in this district, was Mayor Hart. He recall the things he would say about the way the churches and the bishops controlled the lives of the men, women and children thru the grip they which is being run in conjunction with same.

Not content with having closed the mines down last Friday and Saturday on account of a religious holiday, they closed the one here again today and those who have a religious spore, of those who can pull a little of that self-denial stuff, are invited to unload at the new edifice or at the carnival square, which is being run in conjunction with same.

After the parade and a dedicatory mass, at which three Bishops and scores of priests were reported in attendance, a big Italian dinner was served to the invited guests by the women of the parish. This, however, was not to be disturbed by the common members, who for luncheon and invited guests were on the inside for this occasion.

The local papers had announced that speaking was on the program and many of the miners, formerly supporters of Capellini, were on the job to hear what he had to say, but their disappointment was a bitter one indeed when they saw that the speeches were of the after-dinner type and were to be delivered indoors and, like the dinner, only for the guests. Capellini's good friend, Mayor Hart, who has been so far to toastmaster, so it can be safely said that nothing in the form of good things for the workers, would be brot on the carpet for discussion.

In Good Car.

Capellini drove a good type sedan which was draped in the national colors and at one point in the line of parade, the auto section was stopped for some reason or other and the radical left his car, going back to the second one to fraternize with the lords of the church who took second place to him in the parade.

Young Hoodlums in Attacks on Negroes; Worker in Hospital

(By The Federated Press.)

DALLAS, Tex., Aug. 25.—Gangs of young white hoodlums are making a practice in this city of attacking, in offensive Negro men and women as they walk along the streets and their washing away in their auto.

Will Roberts, 39, Negro laborer, reported at the Emergency Hospital for treatment after being assaulted by such a bunch. He said that while he was walking home a motor car was six or seven young white men drew up to the curb and stopped, and he was severely beaten by the young toughs.

This is the fourth time within a short period that white boys have attacked Negroes without cause. The police was given the number of the car and say that they will make arrests.

Mexican Workers in Protest Against Act of Vandalism on Art

(Special to The Daily Worker.)

MEXICO CITY, Aug. 25.—Workers organizations from all parts of Mexico are posting in letters of protest to the educational authorities and expressions of sympathy to the Union of Revolutionary Painters as a result of a recent act of vandalism committed by a group of fanatical and ignorant students on the mural paintings of J. Clemente Orozco (the Mexican Goya) and D. Alfaro Siqueiros.

The murals were completed a short time ago in the patio of the National Preparatory School and their mutilation was the work of a band of students of that school. A group of artists residing in Mexico City, among them the well-known author of "Mexico: An Interpretation," Carlton Beals, has published an open letter in protest.

"Sissy! Has to sweep the sidewalk!" "Let me play the game, Billie?"

PLUTE GREETS "LABOR" BANKS AS BOSS TOOL FOR GETTING WORKERS TO JOIN LOVE FEST

By LELAND OLDS (Federated Press Industrial Editor)

Will labor banks prove merely a supplement to employ stock ownership and customer ownership schemes for identifying the interests of workers and consumers with the corporate interest which exploit them? This is the question raised by a statement in which President Charles E. Mitchell, of the National City Bank of New York, a welcome labor banks to the bosom of the banking community. Mitchell's welcome may well be considered as coming officially from the financial dynasty because the National City Bank is the dominant bank of the Rockefeller Standard Oil group and probably the most powerful bank in America. It raises the further question whether money power will extend a warm welcome if labor banking shows the way for producers to challenge the right of hereditary wealth to control the country.

Good For Bosses.

Labor banks for the time being, in labor from Mitchell's statement, fit in well with the plans of the big New York banks. These powerful financial empires welcome labor banks as a means to breaking down class lines between workers and owners, as a means to spreading the idea that labor banks are parasites, and as a means to mobilizing labor's monthly wage as a basis for further increase of credit capital available for the use of the banks.

"There are certain reasons," according to Mitchell, "why we think the labor banks are a good thing for the people to participate in, and are first, because they demonstrate that banking is not a privileged business but is open to all, that it is not parasitic but perform useful functions in society."

No More Class Struggle.

Carrying out this idea that labor banking fits in with the desire of capital to develop a new identity of interest between the worker and industry he says: "We do not think that the wage earners should be nothing but absentee owners, and we believe it will be for the good of the country to have the railroad and larger industries owned in this manner. We do not want a sharp line drawn between owners and workers, but rather that the two shall be the same or closely intermingled. The result will be better understanding and more effective co-operation."

Ally Unrest.

Apparently the labor power sees in labor banking at present little more than a new means of eliminating social unrest and gaining the control of the country. For the ownership of stocks and bonds does not necessarily mean industrial control. It does not challenge the rulership which absentee owners have built up on huge blocks of stock in the key industries. Probably New York bankers industrialists feel themselves completely secure in their position, and they allow labor attempts to use its banks as a stepping stone to power.

Four I. W. W. MAY BE DEPORTED IN FEDERAL HEARING

Wobblies Call on Labor to Protest Act

By Defense News Service.

Four members of the I. W. W. who have served prison terms for their social opinions have been summoned to appear in the federal court here on September 16, when there will be a hearing on warrants calling for their deportation as "undesirable" residents. The four are: Pietro Niro, Italian born; Herbert Mabler, Canadian born; George Englishman; and William Moran, Australian.

Four Are Leavenworth Men.

All four were convicted in the Chicago I. W. W. war-opinion trials in 1918, and all served five years in Leavenworth penitentiary. Many protests have been called for their deportation as "undesirable" residents. The four are: Pietro Niro, Italian born; Herbert Mabler, Canadian born; George Englishman; and William Moran, Australian.

JAURES' MURDER PLANNED BY WAR DEPT. OF FRANCE

Russ Ambassador Gives Game Away

(Special to The Daily Worker.)

PARIS, Aug. 25.—That the murder of Jean Jaures, greatest of French Socialist leaders, on the eve of the outbreak of the world war in 1914, was probably carefully planned by persons high in power, is given support by a secret letter from the son of Iwolsky, the Russian ambassador in Paris, to the Russian foreign minister dated July 30, 1914. Iwolsky reports a conversation with Polnarev, then president of the French republic, at which were also present the French premier, the minister of war, and the chief of the general staff.

Was Taken Care Of.

Iwolsky reports: "I put the question as to what would be Jaures' attitude in the event of war, since in his paper (L'Humanite) he opposed the program of the government. He pointed out that he has an intuition upon the workers that it is not to be underestimated, and is playing with the idea of a general strike. The minister of war replied quietly but firmly, 'He has been taken care of.' Polnarev offered no further explanation.

It is recalled in this connection that the French nationalists had secretly prepared a list of some 2000 persons who were regarded as dangerous by the government in the event of war. While nobody can say whether the murder of Jaures was sanctioned by the men who conferred with Iwolsky on July 30, yet it is a significant fact that the Jaures' murderer, Yvelin, was not brought to trial until five years after committing the deed, and that the judgment was so framed that acquittal naturally followed.

Pass Act to Drive Radical News Off Streets of Berkeley

BERKELEY, Cal., Aug. 25.—Not content with driving Herman Meyling away from his stand in front of the University of California, where for several years he has tried to sell radical and liberal periodicals to the co-sleeping students, the city of Berkeley has passed a special ordinance which calls for the removal of a crime to sell literature on the city streets. Presumably newspapers are not considered literature, as no attempt is made to stop their sale. Meyling has been arrested twice under this ordinance, and is now under a suspended sentence. He is nearly blind and in very infirm health, not infrequently being hospitalized, and his several beatings by reactionaries among the students.

Dawes On the Pan

That Coolidge has upset Dawes' plans by calling him to Plymouth for a conference, is a sign that some "brass tacks" will be talked behind closed doors to "Hell 'n' Maria" as well as publicly by him. Not that Coolidge thinks differently about the Klan than Dawes—but that his name is "Cautious Cal," and he thinks three times before he speaks and then he says nothing.

It was really unpardonable, from the view of capitalist politics, that Dawes should have endorsed the Klan the way he did. He didn't have to go that far in order to get the vote. And it is a primary rule in politics, that no doubt Cal will impress upon Dawes' mind in this little conference, that one must not pay more than the market price for votes. To do so upsets the whole "political economy" of the republican party.

But Cal and Charlie are quite similar in all but their method of public speaking. They ought to be quite fond of one another, because they do not get so well. They are the perfect Gold Dust Twins, and Wall Street will be ungrateful if it does not furnish them with a big war chest. And with that—well, even Dawes' advisers about the Klan can be overcome, and all will be well.

Why Is the U. S. Rich?

Perhaps you have been wondering why the United States has a considerable share of the world's wealth. The explanation is offered by a certain Mr. George Hinman, writer extraordinary for William Randolph Hearst, who knows all there is to be known, and then a bit more, about economics. For three cents one can learn all about the subject in the Herald-Examiner.

It is all so simple. The reason why this country is rich, says Mr. Hinman, is because American industry pays such high dividends to the capitalists. These worthy gentlemen, in the classic manner made immortal by Mr. Smiles, prudently cautiously, and conservatively, preserve these dividends from waste, and reinvest them in the industries of America, in order to produce bigger dividends, to reinvest, and so on. The bigger the dividends the richer the country, says Mr. Hinman. Whenever attacks dividends are made, the foundation of our prosperity, Karl Marx knew less than any country banker, says this wise man of Hearst.

This is the kind of intellectual junk that millions of workers pay good pennies for each day when they buy the capitalist press. It is also the trash that fills the heads of our respectable "labor leaders," who preach harder work, bigger production, cut down the employers' costs, establish class collaboration, arbitrate, and generally be good to the capitalists. It is the sort of stuff that must be eliminated from the labor movement, unless we wish to see our unions degenerate into sewing circles, or into auxiliaries of the Young Men's Christian Association.

But after all, the common sense of the mass of the workers keeps them from swallowing such a rot as Hinman's. The rank and file know quite well that they never get any consideration from the employers, unless and until they fight for it and win it by battle. The workers instinctively know that they have to fight, and all the poison of the Hearst press combined with the other capitalist dailies over the country, cannot convince them otherwise.

Coolidge and the Negroes

President Coolidge has sent a letter to Dr. Robert B. Moton, president of the National Negro Business League, congratulating the American Negro population upon the economic progress they have made. The chief executive also assures the Negro people that he will stand by them in helping them secure their full political rights.

Little argument is necessary to convince one that this is merely a campaign effort on the part of our hide-bound reactionary president. We are on the eve of a national election. Every vote counts. The vote of the Negro also counts when it is counted in favor of the republican regime. Mr. Coolidge's message is simply a vote-catching ploy. It betrays no sincerity and manifests no genuine interest in the welfare of the millions of exploited Negro workers.

As a matter of fact, recent days have witnessed a serious shattering of the old illusion that the republican party is a friend of the Negroes. On too many occasions has the republican party lined up to strike the killing blows against the Negroes, for this colored people to continue faith in the so-called party of Lincoln.

Ample evidence of the fact that the Negroes are steadily becoming disillusioned with the republican party is to be had in recent election results. It was the colored voters of Wilmington, Delaware, who, out of despair, in 1922, elected Thomas F. Bayard,

a democrat, to the United States Senate. In order to stave off the rapid loss of colored support in the North, the republican inside clique made the empty gesture of increasing the allotment of delegates from the southern states in the 1924 convention.

And Mr. Coolidge, who now has the insolence to label himself a friend of the Negroes, has not had enough sufficient courage to master enough of hypocrisy to denounce the Klan in this campaign. His chief competitors for the presidential office have done so. Besides, his running mate, the open shopper General Dawes, has even gone so far as to afford justification and apology for the existence of the Ku Klux Klan, that organization of boogymen which has been making pogroms against the Negro masses in the North and South.

Mr. Coolidge will not consent in misleading the Negroes. His hypocritical sweet words will not poison the minds of the Negro voters. More and more the Negroes are becoming aware of the fact that their sole hope lies in a union of the workers of all colors and creeds against the class whose interests are championed by Mr. Coolidge and his corrupt clique. No oppressed race, no oppressed class has ever been given liberty. They have always had to fight for it. The Negroes know this truth from many years of bitter experience.

Defending the Bondholders

While in the United States we have the spectacle of Labor, official organ of the railroad unions, pleading the cause of the bondholders, and placing them "in the same class as the employees," in Great Britain the so-called "labor" government proceeds on similar but even more practical lines. Its members in parliament actually boast that "labor" protects the bondholders better than had the Tories in the past.

This amazingly frank statement came from Mr. Morel, "labor" M. P., during the debate in the House of Commons on the treaty with Soviet Russia. As reported in the Daily Herald, official organ of the British Labor party, the following occurred after the Tories had attacked the treaty as insufficiently protecting the interests of British bondholders:

"What did the Conservative Government do for the interests of the bondholders?" he asked. "You did nothing," continued Mr. Morel, "we are doing something. We are doing more than you ever attempted."

The "labor" government in Britain proves too much. So well and so completely does it prove that it stands four square for capitalism, that it proves at the same time to the workers that it is not a "labor" government in anything but name. It is merely a government of the agents of capitalism within the labor movement in alliance with the "liberal" capitalists. It is a government of class collaboration, opposed to every fundamental issue that is in the interest of the British workers and the interests of the working class of the entire world.

No Split in Nova Scotia!

It is well that the Red International of Labor Unions has officially added its warning to that of the Trade Union Educational League and the Communist, against the split in the ranks of the Nova Scotia miners, for which certain dual unionists have been strenuously working for some months.

These splitters have become a menace, not because of the validity of the proposals, but because they voice a response to the provocations of the Jewish bureaucracy, which has been assaulting the Nova Scotia miners in every conceivable fashion for that purpose. Many rank and filers, not understanding that a split fits right into the desires of Lewis, follow their emotions and listen to the siren songs of the dual unionists.

A split among the miners would be a real blow against the progressive forces, and terrible weakening of the miners of the entire continent, and would play right into the hands of the blackest elements of the union. For the revolutionaries it would mean simply a running away from the fight. The miners of Nova Scotia, when they have considered the question seriously, will summarily reject this dangerous propaganda, and refuse to listen to its interested propagators.

The Prince of Wales, fresh from gambling away several thousand dollar bills furnished him by the "labor" government of Britain, will be greeted in New York by a picked bodyguard of state troopers, who will protect the precious body of the Prince from harm. What price could object to such "labor" governments or to such "democracy"??

And just to show that one socialist is as servile as another, the socialist government of Sweden deported the German Communist Deputy, Remmele.

Of course, Dawes would speak kindly of the Ku Klux. As one Fascist to another, of course, you belong to the wrong organization but your "principles" are all right. Join the "Minute Men of the Constitution" and you can Koo Koo all you wish!

The president of the General Electric Company, Mr. Owen D. Young, has taken over the job of general manager of the reparations commission. Who said that governments were important!

Nova Scotia, Canada, Miners Must Fight Lewis Inside the Coa Miners' Union

(Statement of the Trade Union Educational League.)

THE One Big Union of Winnipeg is busy trying to split the miners of Nova Scotia away from the United Mine Workers of America. Since last May it has had Ben Legere stationed in that district for the purpose of bringing about this division. Legere is carrying on propaganda among the miners, asking them to call a convention for the purpose of splitting away from the United Mine Workers and joining as local "units" to the One Big Union.

Inasmuch as this propaganda has gone so far that Legere has a letter printed in the Maritime Labor Herald, organ of the miners, issue of August, it is necessary to face the issue thus raised, fairly and squarely. For the sake of the miners who may be misled by this splitting propaganda, it is necessary to review the situation, and to restate the position of the Communist and other left-wing elements, which is in harmony with and approved by the Red International and the Communist International.

Original Accomplishments of the O. B. U.

The O. B. U. developed out of an abortive left-wing movement in the trade unions of the Canadian west, during 1917-18. Defeated by the reactionaries in its first attempt to swing the Canadian Trades Congress in 1918, the left wing abandoned the idea of a "Canadian" union, and a special Western Canadian Labor Council, held in Calgary in March, 1919, with delegates from local unions in all provinces to the coast, was decided to start a new union independent of all existing unions. A ballot was taken, and the majority was in favor of the proposal. The Winnipeg general strike occurred before the decision was put into effect, but after the defeat of that strike the workers of the West were more than ever in the mood to accept the proposal. It was launched, and the unionists of Western Canada swarmed into it. In short, after one year's effort at re-organizing the miners, they gave up at the first defeat and ran away from the fight.

The backbone of the new organization was composed of the loggers of British Columbia and the miners of District 18. Things went smoothly so long as no problems faced the movement. But at the Port Arthur convention, September, 1920, the intention of the Communist International to create a new union independent of all existing unions was rejected, the miners and loggers quit the organization to pieces. The miners and loggers demanded the application of the principle of industrial unionism. But the leadership in Winnipeg, controlling with the votes of the large number of miscellaneous workers in the district, splitting them off in small "units" where they would have no reactionary opponents to fight, and leaving the labor movement to the hands of the reactionaries, the result of the O. B. U. movement in the West has been to almost completely disorganize the miners of the entire continent. The miners are disgusted with the A. F. of L. and the O. B. U. Those who are organized have lost all heart for the fight for revolutionary principles, and the bureaucracy relies unchallenged.

The net result of the O. B. U. split is a terrible setback for the revolutionaries and for the whole labor movement. Because the militants were drawn out of the unions, and the unions themselves split, the labor movement became helpless and the masses were left with no organized force to struggle against reactionary politics and officials.

Effect Upon the Miners of District 18. What the O. B. U. split of 1918 did to the miners of Alberta is being repeated in the ranks of the miners of Nova Scotia. The vast majority of the miners left the U. M. W. of A. in a body, and joined the One Big Union. Those who were left in the old organization, but there were few, were added to the follies of secession, to do the dirty work of the reactionaries. Led by Dalrymple, the secretary of Lewis in District 28, the agents of Lewis joined with the Canadian government and the coal operators, to force the miners of Alberta to check off in the hands of the reactionaries, the blacklist—in the hands of the operators, the governmental protection at the service of both the coal operators and the reactionaries, the miners of Alberta into submission, while a small increase of pay was granted through the reactionaries to soothe the water-minded miners.

Thus, when in 1920 the miners felt obliged to make another split, this time with the O. B. U. to preserve

the industrial form of organization, they were in a terrible state of disorganization. The reactionaries of the U. M. W. of A. were collecting dues from them through the check-off, but the miners were not attending to Lewis' leader, and he was unable in any way to control their affairs, which thus became the playing of the worst game of the bosses.

Towards the end of 1921, the miners began to understand the mistake they had made. They went back into their local unions and resumed the fight for militant politics and leadership. But the effects of the disastrous split are still apparent in a weak condition that still have in a district where predominant progressive and revolutionary. And the folly of trusting leaders of the O. B. U. is shown by Sherwin's leader, who has succeeded in later elected president of District 18 as a militant, since becoming an agent of John L. Lewis against the U. M. W. of A. The U. M. W. split into a disastrous thing for the miners of Alberta and for the whole Canadian labor movement. The possible splitters of the workers, but the effects of the fighting factions, which Lewis had been in the forefront of the Canadian movement.

The Policy of the Red International

The miners of Nova Scotia believe in the Red International of Labor Unions. They know that it consists of the workers of the world, and that it is forging the real leading center of the international labor movement, in alliance with the Communist International. The miners should therefore be interested in what the Red International has to say on the question of split and secession. In the U. M. W. of A. it is of more than passing interest to note that the O. B. U. is opposed to the Red International, while District 28 is in favor of it. In June, 1922, the miners of District 18 applied for affiliation to the R. I. L. U. and to take their rightful place alongside the revolutionary workers of the world. But the Lewis faction endeavored to expel the District, the miners correctly decided to withdraw the application rather than suffer disruption at the hands of Lewis' reactionaries. The decision was endorsed by the R. I. L. U. John L. Lewis showed himself as the bitter enemy of the Red International, and the Communist International. It has refused to affiliate, it has denounced the Red International, and it has pursued a policy of direct opposition to the hands of the Communist International.

The Red International is firmly opposed to the policy of splitting the labor unions. Communists everywhere are opposed to this tactic, even the Lewis, knowing that Communist sympathizers in a large majority in Nova Scotia, tries to talk nice about them and say that in Lawrence they are not splitting, but are only trying to expel the District, the miners correctly decided to withdraw the application rather than suffer disruption at the hands of Lewis' reactionaries. It has refused to affiliate, it has denounced the Red International, and it has pursued a policy of direct opposition to the hands of the Communist International.

The Red International is firmly opposed to the policy of splitting the labor unions. Communists everywhere are opposed to this tactic, even the Lewis, knowing that Communist sympathizers in a large majority in Nova Scotia, tries to talk nice about them and say that in Lawrence they are not splitting, but are only trying to expel the District, the miners correctly decided to withdraw the application rather than suffer disruption at the hands of Lewis' reactionaries. The decision was endorsed by the R. I. L. U. John L. Lewis showed himself as the bitter enemy of the Red International, and the Communist International. It has refused to affiliate, it has denounced the Red International, and it has pursued a policy of direct opposition to the hands of the Communist International.

the industrial form of organization, they were in a terrible state of disorganization. The reactionaries of the U. M. W. of A. were collecting dues from them through the check-off, but the miners were not attending to Lewis' leader, and he was unable in any way to control their affairs, which thus became the playing of the worst game of the bosses.

Towards the end of 1921, the miners began to understand the mistake they had made. They went back into their local unions and resumed the fight for militant politics and leadership. But the effects of the disastrous split are still apparent in a weak condition that still have in a district where predominant progressive and revolutionary. And the folly of trusting leaders of the O. B. U. is shown by Sherwin's leader, who has succeeded in later elected president of District 18 as a militant, since becoming an agent of John L. Lewis against the U. M. W. of A. The U. M. W. split into a disastrous thing for the miners of Alberta and for the whole Canadian labor movement. The possible splitters of the workers, but the effects of the fighting factions, which Lewis had been in the forefront of the Canadian movement.

The Policy of the Red International

The miners of Nova Scotia believe in the Red International of Labor Unions. They know that it consists of the workers of the world, and that it is forging the real leading center of the international labor movement, in alliance with the Communist International. The miners should therefore be interested in what the Red International has to say on the question of split and secession. In the U. M. W. of A. it is of more than passing interest to note that the O. B. U. is opposed to the Red International, while District 28 is in favor of it. In June, 1922, the miners of District 18 applied for affiliation to the R. I. L. U. and to take their rightful place alongside the revolutionary workers of the world. But the Lewis faction endeavored to expel the District, the miners correctly decided to withdraw the application rather than suffer disruption at the hands of Lewis' reactionaries. The decision was endorsed by the R. I. L. U. John L. Lewis showed himself as the bitter enemy of the Red International, and the Communist International. It has refused to affiliate, it has denounced the Red International, and it has pursued a policy of direct opposition to the hands of the Communist International.

of the reactionary bureaucracy." The Task of the Nova Scotia Miners. The task of the Nova Scotia miners of District 28 cannot be solved by running away from it. Surrender to Lewis is just as disastrous, he opens arrows for taking advantage under the flag of the O. B. U. What must be done is to wrest control of the United Mine Workers of America out of the hands of the friends of the bosses, and put it into the hands of the revolutionary membership.

In carrying on their heroic struggle against the British Empire Steel Corporation and against John R. Lewis, the miners of Nova Scotia have over-ruled themselves with glory. They have taken a place in the forefront of the world's working class, and their place has been recognized. They have brought new life and courage to the ranks of members of the U. M. W. of A. who are suffering under the dictatorship of Lewis, and exhorted them to renew the struggle with renewed energy. Through the North American continent the revolutionary miners are looking to Nova Scotia as an outstanding section in the revolutionary battle-front, in the struggle for the overthrow of the U. M. W. of A. for the membership. The miners of Nova Scotia must think long and seriously before they allow a place in the forefront of the line which they have defended so valiantly, and where they have won so much honor to themselves.

It is the duty of the revolutionary workers in their present difficult situation, to stand by the revolutionary workers of Nova Scotia as an outstanding section in the revolutionary battle-front, in the struggle for the overthrow of the U. M. W. of A. for the membership. The miners of Nova Scotia must think long and seriously before they allow a place in the forefront of the line which they have defended so valiantly, and where they have won so much honor to themselves.
