UNEMPLOYMENT DANGER TO LABOR CATHOLICS STATE

Unionize Unorganized is Appeal

(By the Federated Press.)

WASHINGTON, Aug. 27.—The outstanding danger to the labor movement is the threat of widespread and grave unemployment...

Organize Unorganized

"One of the greatest needs of the labor movement is the organizing of the unskilled and the office workers, especially women, immigrants, and Negroes..."

"The number of immigrants coming in has declined and most of the immigrants have been long enough in the country to know the language and customs..."

Negroes have moved north in great numbers. They are entering industry in competition with whites. They are a part of the labor market."

Oriental Merchants Prepare to Enter in Nijni-Novgorod Fair

(Rosta News Service.)

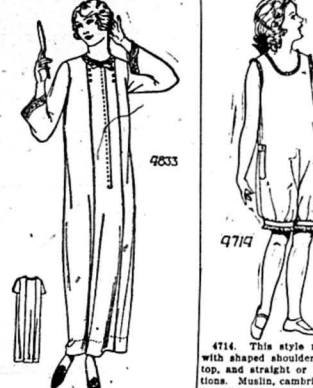

MOSCOW, July 1 (By Mail).—In view of the approaching date of opening of the Nijni-Novgorod Fair, a number of conferences have been organized by the Russo-Oriental Chamber of Commerce with the participation of Western Chinese, Afghan and Mongolian merchants...

MINER'S HEADS DON'T DARE URGE CUT

(Continued from page 1) which in turn, is in the hands of Wall Street.

A Huge Mine. The Burlington Road mine is one of the biggest soft coal mines in the state and therefore in the world. It produces around 6,000 tons of coal every day and employs more men than any other mine in the world, about 1,500.

After a long period of unemployment the mine started work this spring, keeping open at a average of three days a week. But with the passing of the unemployment spectre other problems cropped up. The experience of the miners at Waller are the everyday experiences, with some variation, of every miner in every coal mine in the world. They are the daily skirmishes of the class struggle, which have hardened the coal miner, and made him as used to fighting for his rights as he is to eating his meals.

Many Men Employed. The Burlington mine hires about twice as many men as they need, in the spring, keeping open at a average of three days a week. But with the passing of the unemployment spectre other problems cropped up. The experience of the miners at Waller are the everyday experiences, with some variation, of every miner in every coal mine in the world. They are the daily skirmishes of the class struggle, which have hardened the coal miner, and made him as used to fighting for his rights as he is to eating his meals.

When I was in O'Fallon I asked Andrew Young, an old resident of Waller, what he thought of the unemployment situation...

When I was in O'Fallon I asked Andrew Young, an old resident of Waller, what he thought of the unemployment situation. He told me that most of the miners depend almost solely on their back yard gardens. In Waller there are no gardens. Nothing but rape vines which bear no grapes. There is no use planting gardens here. William Potekak, a Waller miner told me "Nothing will grow in this climate but a few early tomatoes and some radishes and lettuce. Even these generally dry up in Christopher and West Frankfort it is possible to have gardens but you have a hose and are continually watering your plants, but there is no rolling hills in Waller."

Negro and White Kids Can't Play Together, Hylan

(By The Federated Press.)

NEW YORK, August 27.—Mayor Hylan won't let Negro and white children play together at the Green-Wich Village Theatre in the first scene of O'Neill's "All God's Children Got Wines," the black and white children play together in the streets of Harlem.

Russia Negotiates For Direct Service To U. S. via London

(Rosta)

LENINGRAD, July 7 (By Mail).—The State Baltic Shipping Board joint with the State Commercial Fleet, is engaged in negotiations with a number of shipping companies in London for the establishment of a direct service between the USSR and America, via London.

Dallas Skyscrapers Cost One Worker's Life Per Building

(By Federated Press.)

DALLAS, Texas, August 27.—The erection of each skyscraper in this city in the past two years has cost the life of one worker. The latest victim lost his life when the escape collapsed in wrecking the old Oriental Hotel. A week previous two men were killed when an electric cable broke, while carrying a truck load of material to the upper floors of the Santa Fe terminal building.

BENEFIT CONCERT FOR COMPOSER BY SINGING SOCIETY

(Special to The Daily Worker)

NEW YORK, N. Y., August 27.—Peter Dreyter, composer of the music for "The International," like many others who have contributed their best to the music, art, or literature of the working class, is in need of assistance.

Wrote "International," Now in Poverty

(Special to The Daily Worker)

NEW YORK, N. Y., August 27.—Peter Dreyter, composer of the music for "The International," like many others who have contributed their best to the music, art, or literature of the working class, is in need of assistance. Almost forgotten by many who formerly knew him and unknown to the bulk of the modern Labor Movement, author of Labor's most inspiring hymn has suffered in silence.

Attention was drawn to the plight of Comrade Dreyter, thru his request to be allowed to sell some small article at the last Convention of the Communist Party of France, which was held in Paris, France, in 1923.

The G. Adolph Uthmann Singing Society, in recognition of the debt that the International Labor Movement owes to Comrade Dreyter, has decided to arrange a Concert and Ball, the entire proceeds of which will be devoted to the relief of our Comrade Dreyter.

This affair will take place Saturday, September 27th, beginning at 8 p. m. at the Waldorf Astor Hotel, 201 St. N. Y. City. The Federated Hungarian Workers Singing Society will assist.

All organizations that are in sympathy with the principles of International Workers Solidarity, and are willing to cooperate with us in making this affair great from both moral and financial standpoint, are requested to get in touch with the G. Adolph Uthmann Singing Society, Room 202 East 31st St., telephone BOND 6478.

All who have heard the opening words of the "International" "Arise ye workers of the world, unite you wretched of the earth," should realize that the composer of that tune is now in dire straits and needs our help to make his remaining days free from the wretchedness that is the lot of most of those who contribute their talent and ability to the cause rather than sell it to the enemies of labor.

Strengthening the Co-operatives IS CALL OF THE ALL-RUSSIAN CONGRESS OF THE COMMUNISTS

(By ANISE.) (By The Federated Press.)

MOSCOW.—(By Mail).—The All-Russian congress of the Communist party, which was chiefly featured in the American press as the occasion of differences between Trotsky and Zinoviev, has as its chief result a program for capturing the retail trade of the nation. Strengthening the co-operatives is the slogan for the coming year. And another slogan which goes with it is Get Next to the Peasant.

Deny Rusas Building Trades Unions Entry into International

(By The Federated Press.)

STOCKHOLM, Sweden, August 27.—The Building Trades International, affiliated with the International Federation of Trade Unions of Amsterdam, its seventh international congress in Stockholm decided not to admit the Russian building trades unions affiliated with the Red Trade Union International. The delegates from Sweden, England and Czechoslovakia favored the admission of the Russians but were outvoted.

Farmers Lose Money

WASHINGTON, Aug. 27.—American farmers have not realized a commercial interest return on their investment since 1920, according to an economic survey made public today by the Department of Agriculture.

The survey showed that the farmers' return was 6.2 per cent in 1903-05; 1.6 per cent in 1920-21; 1.4 per cent in 1922; 2.3 per cent in 1923-25 and 9.23-24.

MINERS OF WORLD HOLD CONCLAVE IN CHECKO-SLOVAKIA

(Special to The Daily Worker)

PRAGUE, Czechoslovakia.—Representing 13 coal producing countries and a union membership of 1,271,200 miners, 122 delegates assembled here for the 27th Miners' International Congress. The International Miners' Federation has held these meetings since 1890, interrupted only by the war.

British Want the Russian Unions Included

(Special to The Daily Worker)

The United Mine Workers of America were represented by International Vice-pres. Philip Murray; Thomas Kennedy, president of Dist. 7; and Walter Nesbit, secretary of Dist. 12. The president of the International Federation is Herbert Smith, president of the British Miners' Federation. The absence of Russian delegates caused a storm in committee. The British delegates denounced their action and demanded that the Russians be invited to all international trade union meetings.

The American delegates contributed nothing to the discussion of international problems except in technical questions of accident prevention. Philip Murray told of America's high accident rate.

Walter Daves Plan. Thomas Kennedy told of the American miners' conception of a "living wage," and described the success in restoring the reduction of wages since the war. He did not, however, reveal how the latest victory of the three-year agreement is being used to crush the heart of the miners' union, the 100 per cent organized Illinois field of 100,000 miners. Delegates from all countries were awake to the danger to their standards from the application of the Daves plan and the lengthening of the American miners' time to 10 hours a day. Delegates from England, France and Belgium agreed to use their influence to prevent the payment to their countries by Germany of coal as reparations in kind.

Will Their Leaders Strike? On the question of war, the French suggestion of a 24-hour strike in case of a declaration of hostilities was opposed, especially by British and American delegates, as impractical. The matter was settled by a resolution agreeing to join an anti-war propaganda, to join in "No More War" demonstrations, and to ask that the executive committee meet in case any country threatened war for the purpose of then taking such action as seemed best.

be remembered that the work-day (in 1913) was then twelve hours long and is now eight. In spite of the reduction of hours of labor by one-third, Russian industry is being so well organized and re-established under the Soviets that production approaches four-fifths of pre-war figures.

More About Farm Prosperity

Present indications point to a substantial collapse of the recent wheat boom. Canadian reports show very much less of a reduction of the wheat crop than was expected a few weeks ago.

As we have seen, the maximum net advance in wheat and corn prices totaled two hundred million dollars. Most of this sum has gone to bankers, mortgage holders, bond sharks and machinery owners.

And now we have the survey of the United States Department of Agriculture, showing that the American farmer is receiving a totally inadequate return for his personal labor as well as his investments.

From 1920 to 1922 the interest paid on the total farm indebtedness consumed all the capital earnings of the crops.

The gross income of the American farmer has been declining definitely within the last five years. For instance, from 1920 to the present day good plow lands in Iowa, the banner farming state, shrank from two hundred and fifty-seven dollars to one hundred and sixty-nine dollars per acre.

We wonder whether the railway magnates, spending February in Palm Beach and July in Europe, could vacation these months in those whereabouts on such dividends. Of course, we do not ask how long they could live on the money.

Send in that new "sub" today!

Those Shop Nuclei

There are still some members of the Workers Party who think of the shop nucleus problem as an academic subject, interesting to specialists on organization but rather dull matter for the ordinary rank and file.

There is a resolution endorsing Foster and Gillois' article, the secretary of a shop nucleus, "adopted by the unanimous vote of the workers of our shop. It is an organized shop, and all the men employed are members of the Machinists' Union, and has always been considered 'radical.'"

It is reliably reported that a "deal" is on between leaders of the Nebraska Conference for Progressive Political Action (alias for railroad brotherhoods) and A. C. Townley, discredited head of the old Nonpartisan League.

This scheme, if it goes through, will mean an enlargement of the LaFollette-Bryan swindle to read: "LaFollette-Bryan swindle plus a new straddle from Republican Party to Democratic Party to LaFollette."

These comrades have just begun to taste of the shop nucleus and we find them more enthusiastic about its results than even the most ardent nuclei organizer in the party.

Every day get a "sub" for the DAILY WORKER and a member for the Workers Party.

Many willing hands make the big jobs easy. Get new members for the Workers Party.

Sweeney Versus Sweeney

By JOHN DORSEY.

THE election in the Journeymen Tailors Union for General Secretary-Treasurer, is now on. Most of the local will vote in the early part of September, hence the militants who are in the election are in a hurry.

Sweeney, the present G. S. T., is continuing to use and misuse every force at his command to save the day. He seems inevitable as a great as the surge of rebellion against the further continuance in office of the Tailors Union.

Sweeney has been touring his self-appointed organizers at the expense of the Union, in order to build up his political force. He almost monopolizes the columns of "The Tailor" with his "thank you" file.

Butler's Finks Swarm in Textile Unions

"radicals." Back in New Bedford, Massachusetts, Butler was plotting to take over the New Bedford Textile Council of the Sherman agency who are the highest officers of the unions.

Conditions prevalent in Europe, due to the soviet form of government and the activities of the Bolsheviks, have been emphatically brought to their (the workers') attention by the soviet form of government.

The "Open Shop" Gang. The chairman of the Republican Party Conference for Progressive Political Action (alias for railroad brotherhoods) and A. C. Townley, discredited head of the old Nonpartisan League, whereby a deal was struck between the LaFollette-Bryan swindle and the Republican Party to LaFollette.

LaFollette in Autocrat Rule Over Nebraska

Yet, if the LaFollette-Bryan swindle succeeds, and "Brother Charley" ends the soviet form of government of the United States, that will the workers and exploited farmers of this country gain?

For Charley Bryan is the ideal person to give a treaty to the American people. Typically middle-class in his ignorance and mode of living, typically arrogant in his narrow condemnation of the soviet form of government, Charley Bryan is nevertheless a politician of the type (the result no doubt of his brother's training), who will be able to give a treaty to the workers and exploited farmers and ratify to be a party to any of the "deals" such as any middle class politician so ably manipulate.

AS WE SEE

(Continued from Page 1) of the British will walk in. As soon as the soviet troops are in London and Morocco King Alfonso will be hying a one way ticket to London.

MAJOR GENERAL J. G. HARDOR, former Deputy Chief of Staff of the Army, and head of the Radio Corporation of America, believes in peace so much that he is willing to fight for it. In his opinion the best guarantee of peace is a military machine so stupendous that all other nations would be afraid to attack it.

It is quite easy for outsiders to be surprised over the wholehearted support given the treaty to the workers. A comment makes the following comment: "It is quite easy for outsiders to be surprised over the wholehearted support given the treaty to the workers."

It is not surprising that the Moscow delegation is in far better mood than that of the British delegation. It is not surprising that the Moscow delegation is in far better mood than that of the British delegation.

It is not surprising that the Moscow delegation is in far better mood than that of the British delegation. It is not surprising that the Moscow delegation is in far better mood than that of the British delegation.

long editorial, rambling replies to letters from members, articles by his friends which read like a spy's card reader, boosting his candidacy.

The members of the J. T. U. of A. would better themselves. This election is not merely a personal contest. Vital principles are involved. Sweeney has come out unequivocally for a soviet program, for extension of the organization, for a militant fight for improved conditions, for Amalgamation, a Labor Party, Recognition of Soviets, and the right to organize.

Unemployment Widenspread. Millions are out of work, and the permanent unemployed is a certainty. No work, short time, unemployment, irregularity, confront the workers. Is Sweeney doing anything to strengthen the power of the work-

ers, so that they can force the employers and the government to pay unemployment benefits? To bring about a general reduction in hours?

increase output or cut costs, save money—for the boss. This is the attitude of the soviet form of government. The soviet form of government is the attitude of the soviet form of government.

One would think that the Sherman Service would feel satisfied with this delegation on the New Bedford Textile Council. But Mr. Butler, who was in training for controlling the Cleveland convention and putting over a strikebreaker for president, thought that more finks were needed.

For Charley Bryan is the ideal person to give a treaty to the American people.
