

NEWS FROM AROUND THE WORLD

AS WE SEE IT BY T. J. O'FLAHERTY.

RUSSIAN rebellions nowadays should be considered guilty until they are proven innocent. The latest "uprising" was as shameless a pretense as any that have appeared yet.

THE publicity given to the take-rebelling serves the purpose of impressing on the workers the unreliability of the news appearing in the capitalist press.

THE papers featured the alleged burning of the Baku oil wells. Trotsky was reported rushing to Georgia to pep up his troops.

THE Daily Herald of London publishes a very interesting account of the proceedings of the Trade Union Congress which recently took place at Hull.

THE Wheeler forces are supporting the Walsh democracy reactionary, for the senate. This policy is creating a furore among the progressive elements.

Fitzpatrick and Nockels Do Not Deserve Support of Workers in Election

Statement on the Elections in the Chicago Federation of Labor, by the Workers Party and the Trade Union Educational League.

SUNDAY, Sept. 21, elections take place for officers of the Chicago Federation of Labor for the ensuing term. John Fitzpatrick, Ed Nockels and Oscar Nelson have been renominated for the offices of President, Secretary and Vice-President, respectively.

At the crucial point, when Samuel Gompers launched his vicious attack upon the demands for amalgamation raised by labor everywhere and particularly by the delegates to the Chicago Federation of Labor...

Now, finally, Fitzpatrick and Nockels have completed the surrender to Gompers and given up their last pretense of fighting for independent political action by labor.

LEAD FIGHT ON WHEELER

LAFOLETTE IN A.C.W.A. LOCAL Defender of Capitalism

Militants Hit Alliance with Liberalism

One thousand members of the largest local in the Amalgamated Clothing Workers of America, 39 of Chicago, heard the issue of support for LaFollette debated in one of the most spirited and well-attended meetings yet held.

There is an old saying to the effect, that a man may be known by his company. Who are Wheeler's friends in Montana?

There are a number of men in the United Garment Workers, which carried within it the faith and devotion to the ideals of revolutionary socialism, the only power that was made us what we are today.

Then there is Big Bill Thompson, the man that the LaFollettees wanted to have as their senatorial candidate. How can we support this movement which wants Thompson, when this same man has the greatest struggle of the Chicago clothing workers in 1915, ordered them to go back to work and betray their own interests?

These arguments amounted to questions on Levin, but all of them were evaded. The arguments of the supporters of LaFollette in the meeting were that while it is true that LaFollette did not represent the interests of the workers, and in spite of the knowledge that we differ on fundamental economic problems...

Wheeler broke into the national limelight when he was appointed prosecutor for the committee to investigate the doings of the department of justice. The crimes of Harry P. Daugherty smelled to high heaven.

Wheeler for Capitalism. The workers of the United States, hundreds of thousands of them, believe you have their interests at heart. We know better. We know

that you are a supporter of the capitalist system and no matter how you quarrel with the dominant wing of the American capitalist class you will fight for that system against the workers in every important crisis, as you fought for it during the war.

Took Vanderlip's Orders. Burton K. Wheeler did not decide to accept the nomination for vice-president in the LaFollette ticket until he was given orders by Frank Vanderlip, capitalist and financier.

REPORT SHOWS WORKERS PARTY OF CHICAGO WORKING HARD IN IMPORTANT FIELDS OF ACTIVITY

The matter of reorganizing the party in Chicago on the basis of Shop nuclei and the progress of the campaign to obtain signatures to place Workers Party candidates on the ballot in the congressional districts in Chicago, formed the main topics of discussion at the City central committee meeting, Local Chicago, Tuesday, Sept. 16.

The industrial registration taken thus far indicates excellent possibilities for shop nuclei reorganization. Both the district organization and the local have grown on record to proceed with the work.

In order to clarify the Party membership more on the shop nuclei, an attempt will be made to set aside meetings for discussion of shop nuclei in the branches. A special C. C. C. meeting will be held on the same question.

Delegates reported comrades working in a number of places in the same shop where the matter of reorganization on the shop basis can be taken up.

Must Get All Congressional Candidates on the Ballot. In the DAILY WORKER can be read sufficient on the progress of the campaign to obtain signatures.

Reports of the straw vote being taken at the factories also being taken elsewhere in the DAILY WORKER. This straw vote is proving of excellent value in getting the election campaign on the minds of the workers.

Street meeting are still being conducted every week, usually about 35 being held weekly. The next meeting of the city central committee will be held at the new local, 722 Blue Island Ave. (Greek headquarters), Tuesday, October 7.

Following up factory campaigns started. Laying plans for conducting factory campaigns in the main old branches in the city of Chicago.

Branches are urged to order the excellent pamphlets issued by the national office, especially for campaign literature. One of the pamphlets on the campaign in the form of question and answers by Alexander Hittelman and is sold at 10c. It is particularly valuable for street meetings sales as well as generally.

Local Chicago is in the midst of many activities and work is going on well. With the election campaign and with the beginning of work for shop nuclei organization, we can expect to forward even more activity in every field. Every branch should make an effort to give every member something to do in the branch.

But every member on a committee and make him work. Every member an active agitator and worker for Communism!

REVOLUTION IN GEORGIA WAS BIG PIPE DREAM

Group of Bandits That They Were in "Chi."

(Special to The Daily Worker) MOSCOW, Sept. 19.—Surprise is expressed here by the activities of professional bandits in Georgia to the magnitude of an uprising.

The Chicago Tribune should serve as a receptacle for the rubbish of every Czarist panhandler in Europe, was to be expected but the bourgeois press that makes a pretense of publishing news and not fables, hastened to feature the latest from the cellars of the plotting empires.

It is sad news for those who have hoped against hope that something would pop up sometime and overthrow the Soviet, but the truth must be told. The "revolution" in Georgia was crushed in less time than it would take to walk from Chicago to Milwaukee.

Rome Denies Georgia Revolt. ROME, Sept. 19.—M. Jurenev, Soviet ambassador to Italy, denied reports that a revolution in Georgia had broken out.

The Independent Italian Economic Institute for Russia announced that it had telegrams from Batum and the oil region which the papers said was the cause of the uprisings.

The Soviet ambassador stated that he was no danger of a revolution against bolshevism, and credited the present fantastic yarns to Premier Zankov of Bulgaria, who wanted some news to increase the army beyond the limits permitted by the treaty of Neuilly.

Rent and Wages

One of the favorite arguments used by the capitalists in their constant fight to reduce wages to as low a figure as the workers will accept, is the decrease in the cost of living.

The landlords exact heavy toll of the workers in the form of rent. During the war, while the productive machinery of the nation was engaged in turning out death-dealing weapons, building construction was at a standstill.

Also, when the capitalists lend money to the governments of other capitalist countries, it is assumed, it is a sine qua non, that these loans are guaranteed by the governments of the creditor capitalists.

Rudolph Spreckles, the California sugar magnate, does not think LaFollette is a dangerous radical. He believes on the contrary that only men like LaFollette can save the capitalist system from being overthrown.
