CIGERO WORKER CONTRIBUTES TO MINERS' RELIEF

Opens Fund for Jobless Illinois Coal Diggers

By KARL REEVE. Readers of the DAILY WORKER who have been following the stories of the sufferings of the miners of Southern Illinois because of the widespread unemployment and the reduction drive of the coal operators, have sent letters asking the DAILY WORKER how then can best relief be thus suffering miners.

BUTLER, PHILA. VICE SCAVENGER HAS HEAD COLD

Mayor's Letter May Give Him Cold in Feet

PHILADELPHIA, Sept. 24.—A letter, drafted carefully by Mayor Freedom and Kendrick and then withheld by him, holds the key to the future of General Smedley D. Butler. The letter was addressed to the General himself and its contents were expected to end immediately all speculation as to the length of the fighting marine's stay here as director of public safety.

Willy (Oily) MacAdoo to Do His Stuff for Morgan's Man Davis

NEW YORK, Sept. 24.—William G. MacAdoo, defeated democratic national convention candidate for the presidency, has given the victor, John W. Davis, his promise this afternoon of his loyal support.

SIXTY DAYS' GRACE ALLOWED TO FOUR I. W. W. IN DEPORTATION; CASE IS CONSTITUTION BREACH

(By Defense News Service.) Sixty days' grace have been allowed to the four I. W. W. ex-political prisoners who were to have been deported on Sept. 18 because they had served prison terms for opinions. Federal Judge Adam C. Cliffe granted the delay of two months so that the defendants might arrange their affairs. The four who are to be exiled on Nov. 18 are: Joseph Oates, Englishman; Herbert Mahler, Canadian; William Moran, Australian, and Pietro Nigra, native of Italy.

Proves Possibilities of Trade with Russia

(By Rosta News Agency) MOSCOW, (by mail)—The annual report of the Kusbas (Autonomous Industrial Corporation), which has been largely reprinted in the Moscow press, would speedily convince foreign business men, whether they hold bonds of the former Tsarist government or not, of the growing economic strength and ability of the Soviet Union to set its house in order. This report is also a good illustration of the possibility of working and trading on business terms with the Soviet regime, providing those who undertake such work or business are honestly prepared, while working for their own benefit, to accept the conditions of, or at least not to the detriment of, the Soviet Union.

Regun by Americans. This concern, organized from beginning to end by a number of American working men in sympathy with the Soviet Russia, was granted a number of important mines, metal works, electrical factories, etc., at Kemerovo in the Suzzhetz east of Western Siberia at the beginning of 1923. The colony, which numbers 1200 workers, is entirely autonomous, governed like a region, by its elected council, and by the Board of Engineers responsible directly to the Council of Labor and Defense. They have just succeeded in dispatching their first million tons of coke to the West metallurgical plant. The monthly output of coke in 1922-23 was 1,200,000 tons. The output per man has increased from 2,053 pounds to 3,325 pounds. They anticipate that next year they will be able to produce 1,800,000 tons of coke per year.

Exile Means Death. If the federal government carries out its plan to deport four workers it may be the means of sending one of them to death. Pietro Nigra, an Italian, has been arrested in Italy and inasmuch as that country is dominated by the Fascist regime and as all the ships now plying between the United States and Europe are manned by Fascist crews, Nigra's return to the land of Mussolini would be fraught with great danger. A report from Italy says that many outspoken critics of social conditions there have been put to death, or imprisoned and tortured. Jacob Tori, another Italian ex-political who was deported a few months ago, has never been heard of since his exile. Nigra is seeking permission to sail to some other country where his life would be safe. Commenting on this phase of the situation, the General Defense Committee of Chicago points out that: "In his sentence by the trial court, there was no provision that Nigra should be sent to death as well as to serve five years in prison."

Communism in Heaven. "TO THE DAILY WORKER—So this is heaven? The great Father and a country home! At any rate, that is what the late Lord Northcliffe is quoted as having said in an interview with his secretary, so the Tribune states—in a front page article—taken from a London paper.

Eight Others Endangered. Eight other I. W. W. members who served five years in prison for expressing independent war-opinions are also facing deportation. Their names are to be argued before the appeals court in October.

CHANCES FOR GARY JOBS—106 to 2

(Continued from Page 4.) around a small gravelled yard. They were not getting acquainted with the chances of a job, and discussing the unemployment crisis.

An Army of Jobless. "The army of the unemployed was represented here. Some of these told us they had not eaten yet that day. One fellow about 15-years-old asked me for two bits. After he had eaten he asked me for a small one in the blistering heat of the steel mills, or work around the plant as laborers in the open weather."

Plan Readjustment. Jones and Laska, the large Pittsburgh independent steel concern, is already planning a readjustment, forced by the manufacture falling in the new Gary mill of the steel trust, and the abandonment of "Pittsburgh plus."

Nothing Doing Today. "I don't care much whether I get a job or not," one Italian laborer told me. "I'm working for a small one about all the time because I can't support a family of five on the wages they pay. When I am out of a job it's better than not having a job at all."
