

RAIL CHIEFS HAD KILLING BEE FOR 3RD PARTY, NOV. 8

Meeting Was Called by Warren Stone

CLEVELAND, Jan. 9.—The third party, so far as the railroad brotherhoods and associated unions are concerned, was killed over a week before the opening of the American Federation of Labor convention in 21 days Nov. 17. The killing took place in Cleveland, Nov. 8, at a meeting called by Warren S. Stone of the locomotive engineers for the first time.

Towards the conclusion of this meeting, Mr. Stone reports, "the question of the establishment of a new political party was taken up and considered and a motion was carried that this body is not in favor of the establishment of a third political party."

U. S. COMMERCE REPORTS SHOW HOW BAN ON RUSS TRADE KEEPS WORKERS HERE JOBLESS

WASHINGTON, Jan. 9.—How the failure of the American government to recognize Russia is hurting American trade is once more indicated in Commerce Reports, official publication of the department of commerce, in which the chief of the hide and leather divisions of the bureau of foreign and domestic commerce purchases.

These purchases were: Germany, 29,000 feet of chrome and 150,000 feet of colored kid; France, 400,000 feet of kid; the United States, 450,000 feet of kid. Part of those orders had already been received and the remainder is on route. Terms of four to five months without interest were obtained from the firms making the sales. A contract has also been made for delivery of 2,000,000 pounds of sole leather from a leather factory in Lithuania in a year's time.

Huge Contracts in Sweden. In the same issue, A. E. Franklin, clerk to the American consular attaché at Copenhagen, reports: "Eight machine-building plants in Sweden are engaged in executing Russian contracts for machinery, four of which will employ about 1,500 workers on these Russian orders and four other 200 hands until the end of the year. Three plants in addition to the eight mentioned recommended operations during the second quarter of 1924."

Germany, France, Sweden and Lithuania all have full diplomatic relations with Russia. Unemployment increased. Meanwhile the Federal Reserve Bulletin for July, 1924, has declared that production of basic commodities in the United States was lower in May, 1924, than for May, 1923; that factory employment fell 4 per cent in May, and that "the largest reduction of working forces occurred in the textile, metal, automobile and leather industries."

Without diplomatic relations, American exporters of machinery, leather and other goods needed by Russia are compelled to face special difficulties as to credits, insurance, ship papers, inspection of goods, etc. or to cut prices to cover the cost of this extra work if it is done by the Russian government trading corporation.

Coolidge and Bankers Control "Co-operative"

WASHINGTON, D. C., Jan. 9.—The preliminaries to a libel suit against Henry Ford and his associates, led by Aaron Sapro, who is asking the bankers to control the co-operative marketing organizations are being prepared with libelous statements in the Dearborn Independent. Ford charged Sapro with being in a "Communist conspiracy," along with Bernard Harush, Julius Rosenberg, Otto Kahn, Albert D. Lasker, and other bankers to ruin control of agriculture.

According to the formal document which Sapro has sent Ford, announcing his intention of suing for libel, Ford said: "This whole Kahn-Rosenberg-Lasker-Sapro program is carefully planned to turn over to an organization controlled by the entire agricultural industry of the republic. Among the lines one reads the story of the Jewish Communist movement in America, which seeks to make the United States what it has already made of Russia."

The national council of farmers' cooperatives is controlled by these bankers, who have in close touch with President Coolidge. It was formed in an attempt to eradicate radical ideas from the ranks of the farmers. In line with its program of sabotaging all attempts of the farmers to secure better prices for their products, the "co-operative council" is "meeting in Washington to discuss the proposed government aid for cooperatives, declaring it 'unwise to attempt to bring about a government subsidy by any sort of governmental aid, special favoritism or subsidy.'"

LABOR DEFENSE COUNCIL ISSUES FINANCIAL STATEMENT AND CALLS FOR FUNDS FOR NEW LEGAL BATTLE

The great, aggressive defense fight for the Michigan Communists started in September, 1923. Hundreds of thousands of pieces of printed matter, publicity, leaflets, pamphlets, folders, etc. were spread far and wide.

An enormous legal battle was waged. The Foster jury disagreed in the spring of 1923, but the prosecution held in the Michigan cases has been revived and reopened. The law is ignored, the courts show their capitalist colors once again. A whole organization—the Workers (Communist) Party is in danger since 22 of its leaders are named.

The Labor Defense Council appeals to all workers to give generously, without stint, NOW, in the new emergency, due to the changes in 1923-24. The need is very great. The money is carefully and economically raised and about 25 per cent covers the entire cost of printing, publicity, leaflets, folders, pamphlets, advertising, etc. as well as rent, postage, circulating, wages, etc. and is low considering the results achieved.
