(Special to The Daily Worker)

### AS WE SEE IT

By T. J. O'FLAHERTY.

**GRAND DUKE BORIS VLADIMIR** DIVICH OF Russia, (there is no cash in the title in Russia), is here for a good time. The Italian Guardia copped a little publicity by arresting the duke by mistake. The duke is nothing if not gallant. That is about all he can show as an excuse for consuming his vitamins. The duke traveled first class, but the rest of his family came second. It's a tough world for dukes, particularly Russian dukes.

**HIRAH JOHNSON** is back in the news again. He saw his chance when Kellogg signed the agreement with the allied powers providing for participation by the United States in the work of signing Germany into the Dawes plan. Johnson has not been so happy in many months. He introduced a motion requesting Secretary of State Hughes to come across with the documentary evidence connected with it. Fellow like Johnson stand for the capitalist system alright, but the interests they represent put a tack on Wall Street's throne every once in a while.

**MUSSOLINI** manages to keep his athletes yet. But his prognosis is none too good despite Arthur Brisbane's insistence that everything is alright on the Iber. Arthur used to be a radical once, a sort of a fat-progressive, but he is now a millionaire. He receives \$100,000 a year from William Randolph Hearst for turning out his daily columns of rubbish. Mussolini stands for capitalism. So does Brisbane. The latter has brains enough to know that when Hentlo passes in his checks, the Communist will be on his heels with a dictatorship of the proletariat instead of a dictatorship of heavy industry.

The capitalist papers no longer refer to the socialist as "reds". They reserve that title for the Communist. A French socialist in the chamber of deputies had his dander up a few days ago and he began to throw water on his colleagues. The Communist denounced the government for its action in removing a may who supported the strikers in the town of Bourmeas. The socialist defended the government of course. A clash followed which was headlined by the press: "Socialist and Reds Clash in Chamber." We are not complaining.

The Honorable Edward Hill Young, M. P. formerly financial secretary to the British treasury, addressed fifty financiers and men prominent in industry in New York recently. One of his main themes was: (Continued on Page 4)

Page Hell an' Maria!

The temper has developed in Washington over the question whether or not the United States is finally enmeshed in European commitments.

It looks as if Silent Cal might yet have to come vocal. His sidekick Dawes has not been heard of for some time. Curse words and oaths were never needed more than now to drown the sound of George Harvey's blunder.

The Dawes plan is at the bottom of the tempest. How could the American bankers loan their money to Germany so that the latter could pay reparations to the "allied and associated powers" for the trouble they underwent in defeating her unless these cautious bankers were assured that the armed forces of the United States would be ready to shoulder arms whenever Germany took the notion of defaulting on payments?

Of course, but besides the conflicting interests of American capitalists there are political currents inside the U. S. P. which are quick to take advantage of the present involvement of the United States in European alliances.

The "irreconcilables" in the senate will thunder against participation in European affairs. But the big fellows who rule America are for such participation.

When his dead master's ally in the war on Russia, Charles Evans Hughes, was given his walking papers from the state department, but George is still at his editorial desk and is making more noise than a pond full of frogs.

The "irreconcilables" in the senate will thunder against participation in European affairs. But the big fellows who rule America are for such participation.

There is no doubt but the grand ducks of the A. F. of L. are against recognition, but President Green, like a cautious fowler, has reserved his decision until the diplomatic fog clears off.

Zinoviev and Trotsky troops have not annihilated each other in the columns of the capitalist press for the last few days. Whatinell is the matter with the newswriters?

There is an old saying that the way to a man's heart lies through his stomach. Evidently the Hudson Coal company has taken this to heart.

Suggestions for Organization of Shop Unions

Note.—The following is a letter from the organization committee of the Communist International dealing with the question of shop nuclei in the Workers' (Communist) Party.

DEAR COMRADES: It is a matter for congratulation that the question of factory nuclei is now being actively discussed in your press.

For these reasons it seems to us that the industrial registration of shop nuclei is a step which should be taken immediately.

What the executive and the local leadership should do is to see to it that the proper instructions be worked out for the party leaders.

It is absolutely necessary for all the members of the W. P. working in a particular factory, regardless of the language group to which they belong, to elect themselves in one and the same district.

The Uncrowned Prince

While Samuel Gompers lived to mislead the American working class, one of his favorite intrigues was opposing the movement for recognition of Soviet Russia.

Sam's understudy was a weasel-brained satellite by the name of Matthew Wall, one of the vice-presidents of the American Federation of Labor.

Naturally little Mattie did not like it, but what could he do? He has no more chance of being president of the A. F. of L. than Grand Duke Boris, formerly of Russia, has of being crowned king of Ireland.

When his dead master's ally in the war on Russia, Charles Evans Hughes, was given his walking papers from the state department, but George is still at his editorial desk and is making more noise than a pond full of frogs.

Lenin Memorial Meetings

This week is Lenin Memorial Week, not only in the United States but all over the world. One year ago the great revolutionary leader in all history passed away.

The Communist International, and this slogan was "Lenin is dead, but Leninism remains."

Working this week, Lenin memorial meetings will be held all over the United States. They will be held under the auspices of the Workers' Party.
