

NATIONAL LABOR CONGRESS OF CUBA IS CALLED UPON TO JOIN FIGHT ON IMPERIALISM

The communication below has been sent by the Pan-American Antimperialist League to the Cuban National Labor Congress, now in session in the city of Cienfuegos, Cuba.

The congress was called at a preliminary conference, December 14, 1924, for the purpose of establishing a national labor congress in Cuba.

AS WE SEE IT By T. J. O'FLAHERTY

THE conference for progressive political action adjourned since after a short and sweet discussion during which words of praise were showered on the heads of the hard-battled railroad labor leaders by the beaming Morris Hillquit, and the labor leaders had returned the favor by paying tribute to the mental nimbleness of brother Hillquit. No doubt Morris had visions of briefs from the watchful labor leaders, which more than compensated for the excess of socialist would feel in seeing the work of three years of maneuvering and belly-aching going for nothing to the outside world that Cuba, despite its long record of labor struggles and

WOMEN LOSE FIGHT FOR IMMEDIATE RIGHT TO VOTE IN ENGLAND

LONDON, Feb. 22.—Women lost the battle for immediate equal suffrage in England when the house of commons today passed the constitutional amendment to the electoral bill, 220 to 153.

This action has the effect of delaying the electoral reform in favor of women until possibly 1929.

The immediate suffrage amendment was submitted by Whitley, laborite. It provided for the enfranchisement of all women over 21.

Detroit and Toledo Jobs Disappear

DETROIT, Feb. 22.—There are 50,000 fewer jobs in Detroit in February, 1925, than a year ago, according to the employers' association. Members representing about two-thirds of the total employment in the auto city have 207,107 on their payrolls compared with 241,422 a year ago, a reduction of 16 per cent.

TOLEDO, Feb. 22.—Employment in Toledo is more than 18 per cent compared with February, 1924. The 51 employers reporting to the merchants and manufacturers' association show 22,816 employees. A year ago they had 27,919 on the payroll. For the entire city this means 16,000 fewer jobs.

TEXTILE BOSSES KILL CHILD BILL THEN ASK LONGER WORKING DAY

BOSTON, Mass., Feb. 22.—Ratification of the child labor amendment was defeated by a 23 to 1 vote in the state senate. An advisory referendum had already gone against the measure, at the November election. The lower-house defeated ratification by a vote of 206 to 9.

Two bills for the termination of the 48 hour law are being supported by Massachusetts textile interests in hearings before the committee on labor and industries of the state upper and lower houses. One bill would substitute the 54 hour law for the present 48 hour limit. The other would suspend the 48 hour law for a two year period in favor of 54 hours.

The associated industries of Massachusetts and the Arkwright club, an organization of textile men, are furnishing the long hour arguments at the hearings. Organized labor is fighting for the retention of the present law.

GIRL PICKETS GET GARMENT WORKERS OUT

New York Strike Gets Bigger Following

By ETHEL LOWELL,
(Federated Press Correspondent)

NEW YORK, Feb. 22.—The logic of a 20 per cent wage increase and shorter hours of work is appalling to the non-union workers on children's dresses and women's silk and muslin underwear, so such an act that daily increases in numbers came to the ranks of 20,000 labor garment workers striking in these trades.

To many of these unorganized workers called out by the International Ladies' Garment Workers' Union, wage increases of 120 per cent

REPORTS ON SITUATION IN BUILDING, METAL AND PRINTING INDUSTRIES, AT GENERAL T. U. E. L. MEETING, FEB. 25

The next regular monthly meeting of local Chicago of the Trade Union Educational League will be held on Wednesday evening, February 25, in the North West Hall, corner Western and North avenues.

Conrad Jack Johnston, secretary of the national committee of the T. U. E. L., will tell of the present situation in the Carpenter's Union, where Hutchison is leading a campaign of expulsions in Detroit, Philadelphia, Chicago and Los Angeles.

Reports on the activities of the militants in the unions in Chicago will be made at the meeting. Particularly interesting are the reports regarding the situation in the metal, printing and building industries. Following the reports, discussion will take place in which those who are interested are invited to take part.

These meetings of the Chicago T. U. E. L. are gatherings of all trade unionists who are falling for progressive action in the unions. The problems confronting them in their struggle are discussed in every militant, irrespective of the union he belongs, gets a comprehensive view of the situation in every union.

Earl Browder, acting secretary of the Workers Party, will give his report on the international situation. In view of the tense situation in Europe, Browder's summary of world conditions should prove unusually interesting.

Readers of the DAILY WORKER as well as all trade unionists and members of the Workers Party are invited to attend.

THIRD PARTY HOPES BLASTED BY RAIL CHIEFS

Leave Progressives and Socialists in Squabble

The long-heralded convention of the conference of progressive political action was broken up by the railway brotherhood chiefs' refusal to take part in the party.

A national provisional conference for the formation of an independent political party was held following the adjournment of the C. P. party last week. The withdrawal of the railroad union heads and doomed by the lack of any sort of support, brought forward this announcement.

Shepherd Turns on Cold Water. From the beginning, the third party was a failure. The head of the railway conductors and spokesman for the recalcitrant brotherhood chiefs, who was held for cold water when he submitted a resolution that would have the delegates

"It is the sense of this body that a new party should not be formed," the proposal was not received and was followed by amendments and a substitute asking for the formation of a new party. The new party. But the brotherhood chiefs were firm. Their better business judgment, they said, told them the time was not ripe for a new party and that for the present they were determined to continue the party with their own friends and punish your enemies."

Morris Hillquit, representing the executive committee of the socialist party, said that the amendment to provide for the immediate organization of an American labor party, which would be based on the principles of "industrial and political democracy."

When charged that these were socialist principles, it was pointed out that the party was not a socialist party. It was a party of the American Federation of Labor documents.

When it was seen that the brotherhood were definitely not to be considered, a fight started between the progressive and the socialist over the character of the new party. The progressive didn't want another socialist party. The socialist didn't want a party to represent the five million citizens who voted for La Follette.

Let us agree to meet ahead. The wealthy New York lawyer summoned his greatest powers of oratory. Let us agree to meet ahead. We want a new party. Very well, the progressives said, will agree to meet ahead. But we will insist on our own kind of party.

Debs Spokes, Hillquit Disbars. The brotherhood chiefs had invited them to go and organize a new party if they wanted one. Hillquit was warned. To do as they said, time to meet with the brotherhood to get the ball, he urged Debs to step out.

FORD EMPLOYEES WIN STRIKE IN DANISH FACTORY

COPENHAGEN, Denmark, Feb. 22.—The workers at the Ford company motor works won a strike after twenty-four hours, when the Ford company gave in to their demands that a partner who had been discharged be put back to work.

The Ford plant is swamped with quick delivery orders, and faces a serious situation. The reason given for discharging the partner was that he "spilled water on a newly painted car."

GOOD MEETINGS AT DUBUQUE AND CLINTON, IOWA

Militants Heard First Communist Speech

By DAVID COUTTS
CLINTON, Ia., Feb. 22.—Our meeting at the Labor Temple in Clinton was one of the best spirited we have had in the Iowa organization campaign which is now being carried on by J. E. Snyder, district organizer, assisted by David Cotts.

At this meeting the trade union members were in the majority and listened attentively to the speakers. The questions asked regarding the policy, tactics and program of the Workers Party showed those workers to be well above the average in intelligence and militancy.

Clinton has a trade union membership of about two thousand today. They went thru the railroad shopmen's strike with their loyalty almost intact. There was, at one time, a good socialist local here and following that they elected a number of workers to city and county offices on a labor ticket. The experiences follow. (Continued on page 4)

COOLIDGE MAY SOON BE EATING SPAGHETTI WITH FINGER NAILS

WASHINGTON, Feb. 22.—Economy, like the cat, came back on President Coolidge. Irritated by the extreme dullness of a knife craze, Mr. Coolidge had been using for some time, the executive sent to the outer office for a new and sharper one.

"Sorry" was the prompt reply, "but in the effort to meet the additional economy program, there are no more knife cranes in stock."

SCAB CLOTHING MILL BANKRUPT

The federal district court has appointed a receiver for the Daniel Boone Woolen Mills, the concern that tried to get its striking garment workers in Rock Island with injunctions last summer. The receiver is Edward Brundage, who has been out of a public job since he was defeated in his race for re-election as Illinois attorney general in 1924. Brundage is the man who tried to hawk Illinois miners after the Herrin mine war of 1922. The jury acquitted all defendants.

TAKE 49 MINERS' MANGLED BODIES FROM MINE PIT

Local Union Plans to Provide Relief

(Special to The Daily Worker)
SULLIVAN, Ind., Feb. 22.—Forty-nine smashed and mangled bodies have been taken from the Clay City coal mine and two more lie 500 feet in the depths of the wrecked mine.

Union Handles Situation. Some of the 49 have fallen from the roof of the mine since the explosion which killed 51 members of the Sullivan Mine Workers' Union. "There are about ninety three of us in the mine," said C. O. Thomas, checkbookman for the union, who is identifying the bodies.

"And we'll pay the expenses of the funeral."

The mine is about 320 feet deep and has been in operation for two years. Up until the time of the explosion, the mine produced an average of 1,000 tons of coal per day, most of which was shipped to Chicago. The ownership of the mine has not been made public.

Will Resume Operation. Adjutant General Kerstner when asked whether the national guard would be called out said, "The Sullivan county miners have a strong organization, which I believe will be able to handle the situation."

Survivors of the disaster predicted that the mine would be in operation again within two weeks.

Worst Disaster in Years. A. C. Dally, state mine inspector, said that the disaster was the worst mine catastrophe in Indiana in many years. Dally has been in charge of the rescue work. The mine is comparatively small and had been worked intensively, with modern machinery. Huge dynamos generate electricity to run the conveyor in which the coal is moved to the surface. The mine is located on a tract of land 277 acres in extent.

National guard units will be dispatched from Terre Haute to aid in relief work, if Dally requires them. (Continued on page 3)

"THE YOUNG WORKER," SOON TO BE WEEKLY; PROMISES TO BE KEEN WEAPON IN FIGHT ON CAPITALISM

By BARNEY MASS

Efforts are being made to have the "Bible in the schools" bill adopted nationally. This bill provides that ten verses from the bible be read every day in a major degree in the curriculum of the schools. It is now up before the Ohio legislature, New York and other states. It is gradually being spread to embrace the entire country.

In Cleveland the national committee of the local organization to join up this issue. To establish conferences with representatives from working class organizations to carry on the struggle. With the Young Worker to come out every week instead of once in two weeks the fight against child labor, bible bill and the like, will gain a new impetus. It will contribute in a major degree to rally great numbers of young and old workers to our fight. To fight effectively against

HOPKINS WON'T UNIONIZE HOME OF THE '48TERS'

Socialist Lawyers and Labor Bankers Ditto

(Special to The Daily Worker) NEW YORK, Feb. 22—After a lengthy negotiation with the organization affiliated with the office of progressive political action, many socialist lawyers and labor banks, on the question of unionizing their office workers, the Bookkeepers' and Stenographers' Union has met with but little success.

Mr. J. H. Hopkins, the manager of the office of the committee of 48 affiliated with the office of progressive political action flatly refused to unionize the office. In fact before Hopkins was approached the same union asking their support in the campaign.

The president of the union said he had no objection to progressive political action would support the union. Hopkins kept on approaching Mr. Hopkins with the same demand of unionizing his office.

After the election was over Mr. Hopkins did not have to hide his face any longer and he flatly declined to deal with the union.

S. P. Lawyers Anti-Union It took just a little time for the president of the union to get acquainted with the socialist lawyers, leaders of the socialist movement, Hilgert, block and Meyer. Hilgert and Meyer told him that they would not have the courage to state that he does not want to deal with the union, but he found an excuse that he had so many cases on his hands that he has absolutely no time to talk the matter over with his brother who takes care of the office.

The same Meyer London, who, for two periods represented the East Side workers in congress, had been in the ten minutes to talk over the matter with his brother to unionize the office. He tried to bring in another representative Mr. Bohm, by offering him a certain amount of money for the union as does the other lawyer. But brother Bohm was not after the dollars for the union treasury. He was for unionizing the employees.

More Consideration from Private Concerns. The union representative had less trouble in unionizing private offices and banks than he experienced with the labor banks. Within two meetings he succeeded in unionizing a bank downtown and a few offices in the same neighborhood, but he could not unionize the Federal Labor Bank of New York in ten months. He had a hard struggle with the Amalgamated Bank, but finally succeeded. But the Federal Bank is a hard nut to crack. It is the only bank for the president of the union to talk the matter over with the heads of the national banks and labor banks, than the head of the Federal Reserve Bank. The head of the Metropolitan Trust and Savings Bank in consultation with the head of the above mentioned labor bank.

In consultation with the head of the above mentioned labor bank, the Bookkeepers' and Stenographers' Union had less difficulty in dealing with the private capitalist concerns than they had experienced while trying to unionize offices and banks of other organizations.

Bus Drivers Recognized. WASHINGTON, Feb. 22—Passage of the civil service employees' referendum bill by the senate has been preceded by a vote of 75-15 in favor of the bill. The bill will give the Bookkeepers' and Stenographers' Union a hard nut to crack. It is the only bank for the president of the union to talk the matter over with the heads of the national banks and labor banks, than the head of the Federal Reserve Bank.

PAINTERS' UNION 186, MINNEAPOLIS, MINN., TAKES THE LEAD IN DRIVE FOR UNIFIED BUILDING TRADES CAMPAIGN

(Special to The Daily Worker) MINNEAPOLIS, Minn., Feb. 22—Painters' Local No. 186, has taken the lead in its effort to unite all the building trades unions behind a unified organization in Minneapolis.

At their meeting held Tuesday evening an organization program was introduced by Dan W. Stevens and Geo. A. Thornton which explained the attack made by the citizens' alliance during the past three years and proposed an energetic campaign to rebuild the painters' organization and to retain rates their wage scale to \$1 per hour.

It further pointed out that the painters' locals alone could not defeat the combined power of the employers and proposed the Local No. 186 issue a call to all other building trade locals asking them to elect a committee of three members to form a joint building trades organization committee.

Begin Drive March 15. The proposed call was to provide for the launching of this campaign not later than March 15, and to continue through the entire remainder of building activity, the necessary funds to be raised periodically by each local in a manner decided upon by the committee.

It was proposed that Local No. 186 lower its initiation fee from \$40 per member to \$25 for a period of ninety days and that this new fee be made possible in five weekly installments which will be paid proportionately by each local to request all other building trade locals to lower their fees a proportionate amount during the campaign.

Want Blanket Agreement. In order that the unity established between the locals during this campaign should be made permanent, the plan further proposed that only a blanket agreement covering all building trades crafts and providing for equal wages scales and working conditions be approved by the rank and file of all local unions. These agreements to expire simultaneously on March 15.

Mr. Comrade Stevens had read the proposed plan of action many times and during the campaign in support of it. It plainly met with the approval of the rank and file. It was agreed that the local will hold a specially called meeting of the entire membership on next Tuesday evening at which time the plan will again be fully discussed and action taken that will without doubt result in the success of the campaign.

WASHINGTON, Feb. 22—A conference will be held here February 27, between President Lewis of the United Mine Workers, and Warren S. Noonan, to adjust the differences between the mine workers and engine workers' organizations regarding the employment of non-union mine workers in the engineering coal mines in the New River district of West Virginia, as was announced today.

INCREASED LABOR EFFICIENCY AND MECHANICAL PROGRESS AIDS BOSSES BUT HURTS THE WORKERS

(Federated Press Industrial Editor) Federal reserve board report on production and employment shows factory production for 1924 14 per cent over 1919 while the number employed was 7 per cent lower than in 1919. Factory production was half again as large as in 1914 while the number of workers was only one-fifth larger.

This means that the expanding needs of the country due to the increase in population are being met largely without giving employment to the increased number of workers who are growing up. In round numbers it means that the increase in per capita production due to the efficiency management and improved machinery cost \$60,000.

Machine Progress Causes Unemployment. Technical progress is crowding workers out of jobs. The federal reserve figures show production and employment in manufacturing industries in groups in 1924 relative to 1919 by the following percentages based on 1919 as 100 per cent: 1924 per cent of 1919. Product, Emplmt. Iron and steel 107 pct. 83 pct. Automobile 133 89. Paper and printing 117 104. Food products 106 100. Lumber products 110 117. Textiles 109 92. Leather and products 89 81. Cement and brick 119 110. Tobacco products 116 85.

Terrific Increase of Productivity. In iron and steel while production in 1924 was 7 per cent above 1919 the industry provided jobs for 17 per cent fewer workers. In automobiles production was 83 per cent larger but only 40 per cent as many workers. An increase of 106 per cent in the output per worker.

Here we see why capital is drawing good profits even though the demand does not call for steady output. The industry provided jobs for 17 per cent fewer workers. In automobiles production was 83 per cent larger but only 40 per cent as many workers.

Lincoln Memorial Got Reaction's Stench

(Special to The Daily Worker) FARGO, N. D., Feb. 22—In order to carry out their promise of harmony between the progressive businessmen and the reactionary I. V. A., the leaders of the non-partisan house and senate, selected the governor, the selected two persons who were to make orations in honor of the great Abraham Lincoln on the 12th of Feb., 1925.

For this occasion they selected one person by the name of Mrs. Orlan Olson, wife of Senator Olson. This woman, a picture of real health and vigor, delivered an oration that was fitting to that occasion; which put all present in the finest of humor.

Then came the agent of black reaction, A. G. Divert, member of the house of representatives, who can quote from 745 to 1000 a day in law cases, yet is in the legislature at \$5,000 a day, to see that the farmers and stock raisers do not get anything over on big life.

NEW HAVEN CLOCK SHOP RINGS IN NEW WAGE CUT

(Special to The Daily Worker) NEW HAVEN, Feb. 22—The wage cut announced by the New Haven Clock Shop has caused considerable protest among the workers of that company. About 1500 stopped work already out of the 1200 in the plant. This is due to the cut being given to only few departments.

A Capitalist Leech in Action. For ten weeks the rumor of a 10 per cent wage cut went the rounds of the shop. Then notices were posted on Feb. 19 that the cut in two departments. The workers in those departments were assembled by General Manager Winchell and told a hard-luck story about being unable to cost price with the Atlantic City Clock Co. They were told that the price of their watches to 25 cents, 10 cents, 10 cents, a 10 cent per cent was cut by the plant. The workers were told that the cut in price by turning out more work. If a 1000 watch front was produced in 1000 watches, the cut in price would be 10 cents. This is the law of the market. The workers were told that the cut in price would be 10 cents. This is the law of the market.

NEW YORK VOTE RECOUNT SHOWS HOW COMMUNIST VOTES WERE STOLEN NEW YORK, Feb. 22—In the fight between two capitalist candidates for congress in the fourteenth congressional district resulting in a recount which has just ended it was found that Ludwig Lore, Workers' Communist Party candidate, had received 49 votes.

The contest was between Nathan D. Periman, republican, and Dr. William J. Reich, democrat, and Periman was declared elected by 26 votes. The Communist gain of 23 votes in the district was the wholesale sale of votes from the workers' candidates, not only in the district but all over the country.

COMPANY UNION FAILURE SAYS SAGE REPORT Rockefeller Plan Does Not Stop Strikes NEW YORK, Feb. 22—It is foolish to expect a divergence of interest between employers and employees. The Sage report on wages illustrates that.

This significant statement occurs in the report now made public of the three years' investigation the Bureau Sage Foundation has made of the Rockefeller plan for employment of the company union. The report is the result of the investigation in the mines of the Colorado Fuel and Iron company.

The authors of the Sage report are hopeful of finding a way to adjust the claims of capital and labor without exhausting trials of strength, but they declare that the Rockefeller plan has not been very successful. They say that the plan is not working. They say that the plan is not working. They say that the plan is not working.

Worcester Communists Call United Front Meet

By SIDNEY BLOOMFIELD
WORCESTER, Mass., Feb. 22.—The Workers Party of Worcester, Mass., is rallying the local labor organizations in a united movement to help save Sacco and Vanzetti from the capitalist executioners of Massachusetts despite the opposition of the yellow socialists, who are attempting to bring a new trial.

At the Workers' Circle and the union where these elements are also members they endeavor to smash the united front of labor because the Workers Party has sent out the call for a conference of all labor organizations.

That the united drive will not be broken by the surreptitious attacks of these facts is plainly seen by the hearty response to the call of the Workers Party. Up to time of this report, the following organizations have elected two delegates each: Bakers & Confectioners Workers Union, International Ladies' Garment Workers, Amalgamated Clothing Workers, Workers' Organizing Committee, No. 676 and No. 702, Independent Workers' Circle branch, No. 2, W. Mass., Trade Union League, United Cooperative Society, Young Workers League, Italian Workers Society, Hebrew Social Club, Independent Order of Good Templars, Finnish, Swedish, Welsh, Lithuanian and Polish branch of the Workers Party, and several other organizations.

HUGE PROFITS FOR CAPITALISTS DESPITE REDUCED OPERATIONS WHILE UNEMPLOYED GO HUNGRY

By LELAND OLDS (Federation Press Staff Correspondent)
Wealthy owners of industry doubt if the increasing proportion of workers regularly out of a job. With operations in many lines reduced to a point which would once have been severe depression leading companies in 1924 poured more money into the pockets of stockholders and bondholders than they knew well what to do with.

EXHIBITION OF WORKERS SPORTS IN CLEVELAND

To Celebrate Wind-up of Gynnasium Course
By J. A. HAMILTON (Special to The Daily Worker)
CLEVELAND, Ohio, Feb. 22.—The wind-up of the four-weeks' exhibition of workers sports in Carnegie Hall, 1201 West 24th St., will be celebrated in a gymnastic exhibition, including parallel and horizontal bar work, parallel bar bell drills, and calisthenics, by students from Dorset, Huron, Combeaux, and Cleveland and was conducted by the Eastern Gynnasium Club. A number of workers' sports associations affiliated with the Workers' Sports Union will be present.

The course was participated in by students from Dorset, Huron, Combeaux, and Cleveland and was conducted by the Eastern Gynnasium Club. A number of workers' sports associations affiliated with the Workers' Sports Union will be present.

Following the depression in 1923 the unions lost heavily in membership and in the number of workers. The spirit gradually but steadily went down until the morale reached almost zero.

The militants have once more stirred themselves and the Union labor movement is being organized, led by Fred Rank and the I. W. O. M. The rank and file are still unresponsive and the class collar is still in place. The I. W. O. M. will be put into effect in the Northwestern States where there are 100,000 workers employed.

Beef Trust Is More Powerful Than Ever, Says U. S. Commission

WASHINGTON, D. C., Feb. 22.—The packing trust has concentrated its forces under the "big five" of the packers and has recovered itself into the "big two" the federal trade commission has reported in its annual report. Swift and company and Armour and company now control the beef trust, according to the report, which again recommends that Congress do the courts take the stock yards away from this trust. Morris and company has sold out to the group of Wall Street, bankers which also controls the Armour interests and other branches of the trust.

Cleveland Communists Discuss Shop Nuclei and United Front

CLEVELAND, Ohio, Feb. 22.—A general membership meeting of the Cleveland Communist Party was held Sunday afternoon at the party headquarters. The speaker was Comrade Alfred Wasserman, who made a lengthy talk on the general theory of the united front after which the membership engaged in general discussion on this subject.

Comrade Alfred Wasserman made a lengthy talk on the general theory of the united front after which the membership engaged in general discussion on this subject.

Another Meeting
The hour being late and stretching reads for the arduous banquet there was no further discussion on this subject. It is hoped however that another membership meeting will be held in the near future at which this question can be gone into further and at which practical methods can be discussed for the organization of the shop nuclei in this city.

The day was climaxed with the banquet for which plenty of good things were served and a central good time was had by all who remained. The only regret is that not more of the party members were able to stay.

PENNA. RAILROAD CONTINUES FIGHT ON TELEGRAPHERS

Fake Company Union Wars on Workers

PHILADELPHIA, Feb. 22.—In spite of the fact that the railroad telegraphers employed by the Pennsylvania line have voted nine to one in favor of sticking by their regular union and turning down the fake company union, the Pennsylvania "call line a conference" of the "representatives" of the men and the company to meet here today "for the consideration of grievances, wages and working conditions."

The announcement says that there will be 150 of the "representatives" of the employees in the telegraph department present, and it is understood that this marks a beginning of a bitter fight by the company upon the working class union of the Order of Railway Telegraphers, to destroy it by favoring the company union and discrimination against all who refuse to leave the working class union for the fake company outfit.

It must be remembered that the telegraphers themselves cast the vote for their real union under the auspices of the railroad labor board, and the company had protested the representatives of the union appearing before the board, saying that they were not representative of the men. The railroad labor board, thereupon, took a secret ballot among the Pennsylvania telegraphers, with the result, as stated, of a nine to one vote favoring the regular union as against the company fake.

By continuing the war upon the Pennsylvania telegraphers in this openly violating and defying the railroad labor board.

Reports of Minnesota Co-operative Societies

LA SUIBUR CENTER, Minn., Feb. 22.—Reports of the La Suiibur Center farmers co-operative creamery association show that 1931,84.40 was received for butter in 1931. The creamery purchased 1,645,930 pounds of cream and sold 635,995 pounds of butter. An average of \$600 a day was paid out to patrons, the reports show.

WEBSTER, S. D., Feb. 22.—The Webster co-operative creamery during the past year paid \$148,975 for milk and cream, or about \$12,500 per month, to farmers of this section. During the year the creamery produced 1,135,434 pounds of butter fat from the farmers. The records of the creamery show that 47,716 pounds of butter was manufactured during the year, most of which was shipped to Boston, Mass.

THINGS THAT NEVER HAPPEN

SUMMARY OF TREATY RECENTLY SIGNED BETWEEN SOVIET RUSSIA AND JAPAN

(By The Federal Press) WASHINGTON, Feb. 22.—Particulars of the Soviet-Japanese agreement, signed Jan. 20 in Peking, under which Japan recognized the Soviet Union, are furnished in the Russian Review, published in Washington, in substance as follows:

Diplomatic and consular relations on a normal basis are at once established.

Treaties, conventions and agreements, except the Portsmouth treaty concluded before the October revolution of 1917, are to be revised later.

Until the treaty of commerce of 1907 is revised, Soviet regulations of 1924 as to treating out of Japanese to Japanese subjects will remain in force.

Pending conclusion of a trade and navigation treaty, relations between Japan and the Soviet Union will be governed by these principles:

1. Freedom of entry, travel and residence, with full protection of lives and property, for all citizens of each country on the territory of the other, in accordance with the laws of the country entered.
2. The right of holding private property and engaging in trade, navigation, industry and other peaceful occupations is accorded the citizens of each country on the territory of the other.
3. Without infringing on the right of each country to regulate foreign trade according to its own laws, each guarantees the other against discriminatory economic relations.

JOINT BAZAAR IN NEW YORK CITY HAS BIG SUCCESS

Expect Net Receipts to Pass \$5,000

NEW YORK CITY, Feb. 22.—The Joint Bazaar of the International Workers' Aid and the Labor Defense Council was a success even beyond the hope of the organizations that arranged it. The total receipts cannot be computed, since large numbers of tickets are still out. It is very probable, however, that the net receipts will be more than \$5,000.

Many Workers Co-operated. The success of the bazaar is due to the spontaneous and zealous cooperation of the membership of the Workers' (Communist) Party and a large number of organizations. The Joint Bazaar committee wishes to express its thanks to the comrades who co-operated. It wishes especially to thank the Amalgamated Food Workers and all the comrades who helped to make the restaurant and cafeteria a success, both materially and financially.

The bazaar was also a political success. The propaganda value cannot be estimated. The bazaar committee sent out tickets to a large number of organizations, trade unions in Michigan and the question of proletarian political prisoners became the order of the day. The questions that arose in the organizations show it possible for the comrades to raise the question of the class war as well as the class struggle.

The bazaar was also a success as a means of raising the question of the class struggle. The threats of the United States government to deport all aliens without further trial has aroused the indignation of the workers. The bazaar committee carried on by Mr. Smith, prosecuting attorney of Michigan, in New York in order to maintain the question of the deportation of two Workers Party editors, one of whom is on Ellis Island—these threats are being met by the Joint Bazaar. The huge crowds that attended the four days, and especially Saturday afternoon and evening, when many hundreds were turned away, indicate that the class consciousness of the workers in New York is standing by their class war comrades in the trial of the capitalist courts.

One solidarity was Prisoners. The bazaar was a success in that the workers of this country showed their solidarity with the proletarian political prisoners in the American dungeons of Europe and Asia. Amidst the anti-Communist propaganda of the capitalists, the workers of this country showed their solidarity with the proletarian political prisoners in the American dungeons of Europe and Asia. More Strict Labor Immigration Laws Argued by Davis

WASHINGTON, Feb. 22.—The proposal that an immigration quota be set for each country of the western hemisphere was championed by Secretary of Labor Davis today.

"No change is contemplated in the policy toward those persons who live in the United States," Davis said, "crossing and re-crossing the border as a matter of daily routine," Davis said.

BUILDERS AT WORK

Here's Another Way!

ONE good way for a Communist branch when it goes out for subscriptions for the DAILY WORKER and the Workers Monthly is to begin on itself. This is not always done. If you remain to try in your branch, the present time is best.

The lists of local subscriptions are being sent to all DAILY WORKER agents. On this list you will find every subscriber to the DAILY WORKER and the Workers Monthly and it will be no job at all to check them against your branch membership list. And then you "have the goods."

It is no trouble for a branch agent to bring to the attention of each member the fact that he or she is not a subscriber to the official party publications: it is no trouble and it is a sure way for results.

To make your branch function—check up your membership list against that of your subscribers. Check them up and send in your check.

NEGRO WORKERS ASK LABOR'S AID IN MINNEAPOLIS

Criminal Syndicalism Law Is Debated

By CARL SKOGLUND MINNEAPOLIS, Minn., Feb. 22.—Representatives from the colored workers who work as porters for the Pullman company had the "foot at the door" at the Central Labor Union last meeting asking for labor's aid in Minneapolis.

The Central Labor Union workers elected Hertha Ferguson with fifty-four votes and Mike Moran with forty-two votes as trustees of the Central Labor Union of Minneapolis, against the reactionary business agent of the Typographical Union, Sam Phillips, who only received fifty-three votes.

A resolution came in from the Machinists Union No. 91, requesting a fair trial for Dan W. Stevens. This resolution was referred to the Machine Union International. The resolutions committee was instructed to bring in a resolution on this matter for the next regular meeting for the repeal of the Minnesota syndicalism law.

When this question was brought on the floor delegate E. Nelson of Carpenters No. 7, stated "This is the question that the Communists have always been bringing to the attention of this assembly and everytime they have done so some of the reactionaries have shouted 'Communist propaganda.' Now the Communist are out of the Central Labor Union and you are keeping on doing the very thing that you accused the Communists of doing."

Will Reduce Visa Fees on Passports

WASHINGTON, Feb. 22.—Debate in the house on the bill authorizing the president to negotiate with other countries to reduce or waive the past year visa fees, developed the fact that while the American government's demand for these fees has resulted in the receipt of only \$500,000 a year, it has led foreign governments to collect from American citizens \$2,350,000 a year. Moreover, the raising of this barrier against cheap tourist travel has been a hardship to American schoolteachers and students in particular.

BOSSSES APPROVE CHILD SLAVERY IN CONNECTICUT

By WILLIAM BROWN

THE HOUSE OF COMMONS HAS APPROVED THE procedure of the senate in refusing a hearing, limiting discussion, and approving under the child labor amendment by a large vote. The senate had done it by 33 to 1; the house followed suit with 311 to 7.

It took just two hours to do the trick. The republican House Committee of New Haven on Jan. 5 wrote: "No single day will confront the general assembly which calls for more careful study and intelligent action than the attempted ratification of the proposed child labor amendment to the federal constitution. Let the house spend only two hours, and in these two hours not only was the amendment disposed of, but also a motion to refer to a public hearing was argued and voted down.

The motion to refer was rejected by an overwhelming six and a half vote, after the question had taken about 45 minutes.

The Amendment Defeated

Discussion began on ratification of the child labor amendment when William Margolis of New Haven, Conn., as the first speaker, making the extended argument in favor of ratification. Arguing in favor of ratification, he included the argument that children helping parents on farms were not staid in content as having an occupation.

Extra Note in Column. After the defeat of the child labor amendment by 211 to 7, to make sure that the question would not come back at this session, the House Leader announced that he would introduce a motion to reconsider the previous action on the amendment, and hoped that his motion would not prevail. It didn't. At his right hand through the debate was Rohrbach, the republican boss of Connecticut.

Such was the action of the house after an eloquent prayer on the part of the chaplain, "Oh, God, pour your spirit in us, fathers of the state, that things may be done properly for the children, and that we may endeavor to be fathers of the state, and their needs. We ask thy blessing upon us, and upon the children of the state."

League Urged Ratification

The Young Workers League of New Haven sent the house a wire urging ratification, with an economic provision for school children of workers and poor farmers. The conference for the abolition of child labor, initiated by the Workers Party, sent a similar wire.

Child Labor Amendment Not Ratified by State Legislature

Such will interests prevailed. The child labor amendment was not ratified by the state legislature. Nor will it come up again at this session.

Coolidge Senators to Filibuster on Postal Pay Bill

WASHINGTON, Feb. 22.—Officials of the postal workers' union are still hopeful of passage by congress before March 4, of the administration substitute for their wage increase measure which was vetoed by President Coolidge. The substitute is now in conference committee and will be reported out in time for passage in house and senate. A filibuster in the senate is feared, under pretext of the desire of certain administration senators to explain it fully in speeches.

51 Miners' Lives—\$3,900 Each. Fifty-one miners died in Sullivan, Indiana—killed by a gas explosion.

Even the capitalist press, always careful of the interests of the mine owners, is forced to admit that a coal cutting machine broke thru the wall of a gas-filled abandoned shaft and flooded the mine with the death-dealing explosive.

The only conclusion that can be drawn, in view of the scientific accuracy of mining engineering, is that the owners knew the workings were dangerous.

The owners sent the men to their deaths for quick and easy profits.

We hear continuously of the "risks of capital," but it is not the capitalists who take risks; it is the workers who are weighed against dividends.

With a callousness that is characteristic of the capitalist press when the lives of workers are weighed against dividends, it remarks that the families of the murdered miners will get \$20,000 under the Indiana compensation law.

There can be little doubt that the present unemployment in the soft coal fields is an important factor in such disasters as that in Indiana.

The klan-klan is powerful in Indiana. It even has some followers among the miners themselves.

It is easily seen that the disaster is part of the vicious circle of robbery that the workers, monopolist and capitalist control of industry and government.

It must be renewed work within the union for a fighting program that will have as one of its provisions the inspection of all workings by the miners themselves.

It takes a real union, with competition for the job and that kind of a union will be built only by lowering the program of the Workers (Communist) Party and the Trade Union Educational League.

The wages men in the woolen mills is a sign that the loss went in business. Only a united front of all the workers in the textile industry will convince these robber barons that the workers also mean business.

Connecticut Enemies of Children

Indications are that the child labor amendment will be defeated by the Connecticut legislature.

The Connecticut chamber of commerce has been unusually active in its opposition to this measure.

Only the highest kind of conscious discipline and well knit militant organization of workers can oppose a stiff and effective front to a class that fights so stubbornly for the smallest of its privileges.

A Joint Funeral

Joint funeral services for the C. P. A. and the socialist party began Saturday in the Lexington Hotel.

The speaker thought that the above remarks are a reflection upon rank and file worker delegates at the conference, we hasten to say that there were few present.

In none of the speeches, not even in that of Deba, was the word revolution mentioned nor was there any basic difference in outlook between the railway brotherhood officials and the socialist present.

The speaker of the house, and for all called on the floor, was the Communist Party.

"We are all travelling the same road," was a phrase that was used over and over again.

The socialist party delegates came to the conference to collect a following, but they have not succeeded even in differentiating themselves from the 27 varieties of nuts who made up the majority.

One thing is certain, this disclaimer—\$2,000 the front pages of the capitalist press like the death of one lone coal explorer in Sullivan, Indiana.

The Communist Party of America is dead. The gathering had as much mass character as any independent party it exists today merely upon what publicity and support it obtains by virtue of its war on Soviet Russia and the Communist International.

"The Communist Party of America is dead," declared the speaker of the Workers (Communist) Party of America.

Soviet Recognition

The Communists will take the announced intention of the Coolidge administration to open negotiations with the Soviet government very calmly.

American capitalism will try to save what it can of the Far East after the blow dealt it by the Russian revolution.

It takes a real union, with competition for the job and that kind of a union will be built only by lowering the program of the Workers (Communist) Party and the Trade Union Educational League.

Mussolini's New Nemesis

Mussolini mobilizes troops along the Egyptian frontier and another knotty problem presents itself for solution to the imperialist European rulers.

Internal Italian affairs will be stirred also to a new heat by this move.

Danger of war is perhaps the one thing at present that will unite the antifascist middle class elements opposed to Mussolini and rally the masses of the workers to the fighting program of the Italian Communist Party.

Workers in the United States can learn a whole lot from these fighting Canadian coal diggers.

The expansion of the secretary of the Carpenters' Union of the Mexican Federation of Labor because of his Communist speeches shows that the "Monroe doctrine of labor" is being applied.

POSTAL BILL IN HOCK AS SOLONS BOOST OWN PAY

Give Solves Rise of \$2,500 a Year (Special to The Daily Worker)

The senate voted almost unanimously last night to postpone the postal bill until after the increase in salary for senators from \$7,500.00 to \$10,000.00 per year.

The House of Representatives has given to the general congress last December are guarantees that neither General Crowder, nor the big bond interests, nor the traitors without a rank of labor itself can prevent the formation of a militant Congress.

The hall bill, which was passed by the senate, provides for an increase of \$15,000.00 each for the vice-president, the speaker of the house, and for all called on the floor.

It is argued by Borah that the senate should not give more than \$10,000.00 a year to a vice president, a speaker of the house, and for all called on the floor.

"Cuba is a country without vast distances and without those sectional differences which have sometimes marred the Confederation of workers in other lands." As the editor of Justicia points out, the technical problems of organizing in Cuba are not as difficult as those of a country like the United States.

"The Pan American Anti-Imperialist League, consisting of labor unions, peasant organizations, cooperative societies, Communist parties, etc. calls upon the Cuban National Labor Congress to join with the workers of Central and South America in a concerted struggle against American imperialism."

"More important than anything else, however, is that the national convention must not fail to do the work of the Confederation General de Trabajadores de Cuba."

WARDEN GUILTY OF GRAFT GETS 18 MONTHS BIT

Priest Gets Off Easy by Squaling (Special to The Daily Worker)

ATLANTA, Ga. Feb. 22—Albert E. Sertan, formerly warden at the United States penitentiary here, and Lawrence Rich, both of Columbus, Ohio, were found guilty by a jury in United States district court of having conspired to solicit and accept bribes from prisoners at the institution in return for "soft berths."

The Catholic chaplain of the prison turned state's evidence and was not liable for conviction. Sertan was sentenced to a year and six months in the United States prison at Leavenworth, Kan.

Rich was sentenced to a year and six months in the United States prison at Leavenworth, Kan.

The verdict was announced fifteen hours after the jury had retired from deliberation. The maximum penalty is two years in prison and fine of \$10,000.

Attorneys for the convicted men apologized they would immediately appeal for "bait."

Coolidge Plan to Abolish Taxes on Estates Opposed

WASHINGTON, Feb. 22—A clash in the next congress over tax revision, which will split the republican majority into two distinct groups, is predicted here today as a result of President Coolidge's fiscal advocacy of estate and gift taxes.

Infidential republican members of congress expressed disapproval of the administration plan.

Among them was Rep. Wm. R. Green of Iowa, chairman of the powerful Coolidge-Hughes committee, which is to be presented early in the 69th congress.

It will be opposed by the democrats generally and by quite a few republicans.

Soldiers Die in Trane Wreck. MANILA, Feb. 22—Trane American army officers and three soldiers were killed and 14 others seriously injured today when a crowded train car overturned at Corregidor.

Cabans to Join Fight on Imperialism

The struggle will not end with the formation of the Confederation General de Trabajadores de Cuba. Workers must become part of the world revolutionary movement led by the Communist International and the Red International of Labor Unions.

Against Wall Street Imperialism. Cuban workers do not need to be reminded that their struggle is an international one—end above all, a struggle against the imperialism of Wall Street. Three-fourths of all the capital invested in Cuba is Wall Street capital.

Hands to the Task. The untiring activity of the Havana Federation of Labor and the Republic which the Cuban unions have given to the general congress last December are guarantees that neither General Crowder, nor the big bond interests, nor the traitors without a rank of labor itself can prevent the formation of a militant Congress.

GOVERNOR DRAVE HARD BARGAIN IN PARDON SALE

TOPEKA, Kan., Feb. 22—Testimony that Carl J. Peterson, former state banking commissioner, had told him over the telephone on Dec. 15, after negotiations for the parole of Walter Grady, convicted Hutchison banker.

"I got to the governor, and the best we can do is \$4,000," marked the direct testimony of A. Lewis Oswald, Hutchison attorney, in the preliminary hearing of Peterson and former Governor Jonathan M. Davis on charges of conspiracy and soliciting a bribe.

Finally Out Price. Later Oswald testified the alleged price was cut to \$2,500 but he came here Jan. 9, to complete the deal.

JACK GAVEEL, I. W. W., FAVORS UNITED FRONT

Article 'Appears in Tomorrow's Daily'

By HARRISON GEORGE. In tomorrow's Trade Union Educational League Section, the DAILY WORKER will run an article from Jack Gaveel, whom all I. W. W. with knowledge of their organization's history, will remember as one of its best fighters before, during and after the war.

Joined the I. W. W. in 1923, he became prominent in the organization in 1916 and 1917, and was indicted with the Chicago group according to his recollection, but was never apprehended. He did not, as many did, however, run away from the I. W. W. or become a "fired" radical, or lose the fine wobbly spirit which prompted him to make his way to Hawaii, to take a real Marxist position—a Leninist position, toward the imperialism.

Impressed Three Years and Deported. Jack Gaveel was a fighter, and when the situation was in the war crisis stood loyally by it on the strike line. He held many positions in the Chicago group according to his recollection, but was never apprehended. He did not, as many did, however, run away from the I. W. W. or become a "fired" radical, or lose the fine wobbly spirit which prompted him to make his way to Hawaii, to take a real Marxist position—a Leninist position, toward the imperialism.
