By T. J. O'FLAHERTY.

It is not easy to predict the effect of Leon Trotski's address to the federal congress of the Soviet Republic will have as an adverse effect on the sale of Max Eastman's book: Since Lenin Died, but it was rather inconsiderate of Comrade Trotsky to have taken the time to do so, at such an auspicious moment. Max should present a nice picture of a man left holding the bag when Trotsky's telegraphic resignation of his loyalty to the Communist Party of Russia and pledging its support to its leadership was made public in London.

**Canadian Communists for Mass Pickets**

TORONTO, Ontario, Canada, May 14.—The Communist Party of Canada has issued the following appeal to the striking Nova Scotia coal miners to picket the mines more energetically and make the strike 100 per cent effective. The statement says:—

"It is becoming a tragic thing for the class conscious to watch the way matters are going in Nova Scotia. It makes our hearts bleed to realize how conscious the capitalist elements are of what they are doing to break the strike, how cunningly they are exploiting it for their own ends, and how they have to watch and trail around in the wake of these treacherous elements while they are laughing at him up their sleeves.

They say that has been perpetrated with blood since the beginning of the present military dictatorship.

(Special to The Daily Worker)

LONDON, May 14.—That the increasing commercial between England and the United States, despite certain interests against Japan and France, is bringing the danger between the two great imperialist nations, is seen in the developments of trade and diplomacy. The strength to America's grand fleet maneuvers in the Pacific has originated in the house of commons.

**EMPLOYERS and representatives of labor met together recently in New York under the auspices of the National Civic Federation. The object of the conference was to discuss the question of waste in industry. William Green was there and the notable Union Record disclosed the fact that Green sat "with cabinet of officials and representatives of great employing interests." The conferees agreed that lots of energy is wasted in industry as it is now run. So do we. But we assert that the workers have no interest in solving the problem of industrial efficiency so long as the capitalists get the benefit of any service that is made thereby.**

**WHAT the workers should worry about under capitalism is getting as much of the product of their toil from the capitalists as is possible and preparing the way for the taking over of industry and getting all the fruits of industry, minus that portion necessary to run the government and reproduce machinery, or in other words, minus the overhead that the capitalist now pays out of his share of the dollars that go to the labor. This share according to a United States government report is approximately 22 cents.**

Government Figures Prove Reduction

By LELAND OLDS.  
Railway employees received \$7,000,000 less in wages in February, 1925, than in February, 1924, according to the interstate commerce commission. This resulted from a reduction of 27,923 in number employed and of about 12 in the average monthly wage.

Table with 2 columns: Occupation, 1924-Feb.-1925, 1925-Feb.-1926. Rows include Passenger, Brakeman, Conductors, Engineers, Firemen, Freight, Mail, and other occupations.

More detailed details of the figures show that the whole straight-time compensation of train and engine service employees fell 3 per cent the reduction in overtime and arbitrary pay amounted to 11 per cent. Apparently the railroads are taking advantage of the changes in rules in recently negotiated agreements.

ENGLAND FORCES WORKERS TO PAY FOR PENSIONS FROM LOW WAGE; GENERALS GET IT FREE

LONDON, Eng., May 14.—(By The Associated Press.)—The national budget submitted by the conservative Baldwin government. Workers' pensions are regarded no longer as a socialistic but as necessary provision by state capitalism for the increasing number of dependents it is creating.

The widow's pension problem coupled with the extension of old age pensions will probably increase the number receiving money or maintenance from the state to 4,500,000 in a population of 43,000,000. These include at present 2,100,000 war pensioners, 900,000 old age pensioners, 1,250,000 unemployed and 1,250,000 paupers.

Philip Snowden, finance minister in the former MacDonald Labor government, says the budget "shows of the scheme widows' pensions, would have appeared to everybody what it really is—the worst rich man's budget." Sugarcoated by the pension proposals the government has handed out about \$185,000,000 of the \$175,000,000 tax reduction to income and super tax payers. The burdens of the workers will be increased.

The pension proposals are advanced as compulsory insurance covering practically the entire wage-earning population. A widow will receive \$150 a year for life with an additional \$125 for the youngest child and \$50 for each additional child until the youngest child reaches 14½ years. These pension rates will be added to workers over 70 will receive pensions without question as to other means of support. Workers and employers are to contribute equally to support these pensions, beginning at 8c per man and 4c per woman per week and increasing at 10-year intervals to 14c per man and 7c per woman in 1956 when the scheme will be fully operative. All persons whose incomes do not exceed roughly \$25 a week must contribute.

Ramsay MacDonald and Patrick Lawrence for Labor attack the contributory feature as a direct burden on industry which ought to be placed on wealthy classes. They are headed increased cost of production forcing either a decrease in wages or an increase in prices. Jack Jones, known for spy intrusions when chosen to head the scheme, says he fully expects that those who work must contribute to their pensions while generals, admirals and all in high authority retire without paying for their pensions. The scheme will double the weekly contribution the casual laborer must make out of his scant earnings.

The budget will also increase the workers' cost of living through the new protective duties theoretically imposed to protect struggling industries. This protective scheme is a job when manufacturers of artificial silk are found among the protected. This is practically a monopoly in England. Courtland is the biggest of the combine. The general cost of the combined States is done by speculators and done badly, said Walter Stabler, controller Metropolitan Insurance Co. Houses are difficult to build and have to be rebuilt in 30 or 12 years, he declared.

AMERICAN BUILDINGS BY SPECULATORS ARE SHODDILY CONSTRUCTED

NEW YORK.—(FP)—Shoddy buildings are the rule in America, it was brought out at the sessions of the American Construction Council. Ninety per cent of the buildings in the United States is done by speculators and done badly, said Walter Stabler, controller Metropolitan Insurance Co. Houses are difficult to build and have to be rebuilt in 30 or 12 years, he declared.

"INDUSTRIAL COURT" LAW PASSED BY NOVA SCOTIA GOVERNMENT TO KILL FIGHTING MINERS' UNION

HALIFAX, Nova Scotia, May 14.—The provincial government of Nova Scotia in their corporation assembly at Halifax put one of the second-hand laws of the state of Kansas on the statute of the province May 6, "the Kansas industrial court act of compulsory arbitration."

All industries that the minister of public works and mines decries as public utilities, are included in its scope and such others as both parties to a dispute agree.

When the miners attended the public hearings of the act in swarms and fought for positions at its first hearing, at its premature birth.

John R. Stewart an insurance agent holding a card in a Nova Scotia summons is for all workers to "re-affirm their determination to use every means within their power to establish the most complete working class unity."

He declares that all signs point toward new wars, more ghastly than the last. Hours of labor are being lengthened by the masters of European industry in defiance of the Washington (eight-hours) convention.

"We have passed from savagery to serfdom, from serfdom to wage-slavery. We must be determined to go forward and not flinch in the struggle to secure full economic and industrial emancipation. Long live the international working class movement!"

President L. E. Sheppard has held office since the 1919 convention at St. Louis.

Though very active in the LaFollette presidential campaign of 1924 Sheppard agrees with the legislative committee of the order in its recommendation that the commitment to form a national labor party be abandoned as "impracticable so far as its effectiveness in the cause of labor is concerned."

MINNEAPOLIS, Minn., May 14.—A comparison of the vote counted in the city of Minneapolis (Communist Party) in last year's election campaign, and that credited to the Communist candidates in the recent municipal election, shows a gain in votes, even though many votes were undoubtedly stolen from the Workers Party.

The total vote counted for the Workers Party in Minneapolis was 1,658, and the vote given for Foster and Giltow, according to the politician's count, was 238.

By wards the vote given for Foster in the presidential election, was as follows: Ward 1, 16; ward 2, 6; ward 3, 44; ward 4, 60; ward 5, 84; ward 6, 10; ward 7, 15; ward 8, 9; ward 9, 10; ward 10, 11; ward 12, 27; ward 13, 26.

# NEGRO WORKERS HEAR WHITEMAN ON IMPERIALISM

## Labor Congress Subject of Cleveland Meeting

(Special to The Daily Worker) CLEVELAND, May 14.—Preparations are being made for a committee on the American Negro Labor Congress, for a packed house on Thursday, May 21, when Lovett Fort-Whiteman, of Chicago, organizer of the congress, speaks in the Buehah Baptist church, 31st and Cedar Ave., at 8 p. m.

Fort-Whiteman has recently returned from Soviet Russia, where he devoted considerable time to the study of the problem of the colored races, which make up a large percentage of the world's population, but are subject to the domination of the white imperialist nations of Europe and America.

Negroes Must Fight as Workers. Fort-Whiteman's belief is that the American Negroes must and will furnish a large extent the leadership for the Negroes of the world in their part of the struggle of the colored races from imperialistic exploitation and oppression. He believes that this struggle must be carried on, however, only as part of the general struggle of the working class for freedom from the domination of the capitalist class.

Inasmuch as these views are somewhat different from any program offered to the Negroes of Cleveland at the present time, it is expected that the Garvey movement is to be said to have a large following in Cleveland, but has been in a position to do so that Garvey's program is not just what the race demands.

## Negro Union Members Take Part

The committee arranging the meeting includes the following prominent Clevelanders: J. D. Whitlow, member Cleveland Building Trades Council; Rev. B. G. Glover, of the Buehah Baptist church; Frank Simmons, Gabriel Walters, of Building Laborers' Local No. 10; Brothers Sam, Thompson, and Cruse; Rev. Mack T. Williams of Antioch Community House; and Henry Lee Moon, of the Cleveland Herald.

The organization work of the American Negro Labor Congress was initiated in Cleveland by H. V. Phillips, who held a well-attended meeting on April 23.

## Cleveland Workers Defy Police

(Continued from page 1) the police, acting under orders of Public Safety Director Barry, will also speak.

Police Interfere. Barry made the arbitrary ruling that no collection would be permitted for political prisoners in Europe, when an attempt was made at the April 18 meeting to take the collection anyway, the police dispersed the meeting.

The affair received considerable publicity in the local press, and the harsh sentences given to Crouch and Trumbull, Communist soldiers in the U. S. Army on Hawaii; the deportation campaign of the government against Communist radicals; the various oppressive laws on the books and proposed, including the criminal syndicalism laws and laws against the use of picketing; the various manifestations of a worldwide offensive against the working class, which is exhibited in a governmental policy of suppression of the militants among the workers, both Communist and non-Communist.

The Bureau of national importance, which is exhibited in a governmental policy of suppression of the militants among the workers, both Communist and non-Communist.

Attempt to Annul Citizenship. The cause of the government rests on their contention that Severino's statement that he was "attached to the principle of the constitution of the United States" made when he applied for naturalization, was "untrue, false, and fraudulent."

Charley Schwab's Dicks Fail to Stop May Day Demonstration

By A. BURLAK. (Special to The Daily Worker) BETHLEHEM, Pa., May 13.—The International May Day meeting, the first ever held in Bethlehem, was a big success. Three speakers addressed the meeting—Comrade Wicks in English, Comrade Duranovich in Ukrainian, and Comrade Barabosh in Hungarian.

Some workers of Bethlehem worked the International May Day because they did not know what it was, others worked because of the iron ruling of this city. If they dared to take one day off for a holiday Charley Schwab would make it hot for them.

Charley Schwab was among the first to make the child labor amendment. By enslaving the children he makes the parents slave longer hours and for lower wages. Charley Schwab employ agents and stood against it up upon and break up Communist meetings.

Despite the threats from Charley Schwab's policemen to break up our meeting it went off successfully. In order to lead them off our first speaker called the meeting at a different hour than the one advertised and everything went off fine and happy. The workers all appreciated the meeting.

In the evening we held a May Day dance which was attended by all who came to the meeting.

Canadian Communists for Mass Pickets

(Continued from page 1) might just as well never have been withdrawn for all the real effect their withdrawal has had.

A corporation has all these months been able, to its own complete satisfaction, to keep its mills on the job. Scabs have been doing the work and the whole world, Mr. Loag included, knew it.

And only now, after these heart-breaking weeks, has the method of breaking work, has been decided on the job. Scabs have been doing the work and the whole world, Mr. Loag included, knew it.

In a communication to the local unions, the good-natured and local nature of these international "Brothers: From information received in the district office, it appears that the company have been introducing outside labor in some of the departments.

Each local union should therefore appoint pickets and make their investigations, and promptly send to this office written reports as to outside labor doing any scabbing. Each local union will see that pickets do not interfere with company officials to the best order that has prevailed and no destruction of public property.

In this very communication permitting the locals to picket, the same conditions are set forth with all the usual sorts of limitations. The company officials are not to be interested in the constitutionally alleged picketing interfering with company officials, but the union constitution also is against withdrawing the union maintenance men. Where the argument is in only some of the "scabbing" to a "public opinion" that is killing the strike—to a government that is forging more iron shackles and chains for the workers, shackles and chains for the workers, shackles and chains for the workers.

"We say to the miners—for the sake of your women and children! For the sake of your organization! For your own sake—Give no quarter. No quarrel will be given to you!"

"Do the miners know that Father Nicholson of New Waterford informed their executive that Nicholson, vice-president of Besco, had made the statement to him that the corporation was thru with the United Mine Workers as an organization and that the Besco was going to deal with the men in the pits as local committees. "What does this mean but open pay unionism—but the miners should make collars, cuffs, belt and pocket of contrasting material as illustrated will require 1 1/2 yard 35 inches wide.

"Miners of District 26: Picket the mines! The company officials include all! Fight the dirty act of your enemy Armstrong! Put no trust in class enemies! Make the executive quit its policy of class collaboration! Make it a real one hundred per cent strike."

STRIKE OF NEGRO NURSES AT NEW ORLEANS BACKED BY DOCTORS, WHO FILE CHARGE AGAINST WHITE BOSS

NEW ORLEANS, La., May 14.—The Negro student nurses have struck at the Flint-Cordridge Hospital operated here by the Negro division of the Methodist Episcopal church, and the Negro doctors of the institution have filed charges against Dr. T. Restin Heath, white head of the hospital, it has been disclosed.

Altho the hospital officials are suppressing publicity, it is learned that the student nurses struck against the intolerable conditions imposed on them. They complain particularly of the poor food they are forced to eat.

The doctors filed the charges with the board of trustees of the church at Cincinnati, Ohio. Heath has been plying canvassing the local board of the trustees of the hospital here, composed of Negro ministers, and is endeavoring to line them up with him against the Negro doctors. He has had poor success so far.

One of the charges filed with the trustees by the doctors is that Heath called the doctors "nigger doctors" in a staff meeting, and issued orders that they must not stop in the halls or be seen in front of the hospital. Another charge is that the superintendent refused to allow them to inspect the charts of patients who have been treated by white doctors without first obtaining permission of the white doctors.

The doctors declare they will resign unless conditions are bettered.

Houston Victims Still Imprisoned

(Special to The Daily Worker) NEW YORK, May 14.—In response to a letter from the National Association for the Advancement of Colored People, regarding about the treatment of the former 24th Infantrymen, transferred from Leavenworth penitentiary to the disciplinary barracks at Ft. Leavenworth, Col. G. O. Cross, the commanding officer, states that their records continue good.

Col. Cross states that none of the men have been released on parole since their transfer from Leavenworth penitentiary. He continues: "On the whole, the conduct of these men has been very satisfactory since their arrival here, and their records have been in keeping with the reports received from the federal penitentiary."

The N. A. A. C. P. is continuing its efforts for the release of the remaining prisoners and is leaving no stone unturned to procure fair treatment for them while their imprisonment endures.

Board Backs Building Taxes Bill. The board of education endorsed the school revenue bill before the legislature which would permit the board to obtain by referendum vote an increase of 75 cents in the tax rate for school purposes and would add \$12,000,000 to the present \$18,000,000 construction budget of the Chicago school system.

JAPANESE REDS SPEAK AT M. E. CHURCH IN N. Y.

Tells of Communist International

(Special to The Daily Worker) NEW YORK, May 14.—The Oriental branch of the Workers (Communist) Party, New York section, discussed Communism for an entire evening before the Japanese Methodist Episcopal church here. Comrade Kawashima spoke on the subject of the Workmen's Party of America, its Principles and Tactics. Comrade Sasaki then spoke on the development of the world and the Communist International.

There were ministers, secretaries of Y. M. C. A.'s, students of the Union Theological Seminary, and of Columbia University present. The religious atmosphere thus created by such an audience was ridiculed by the chairman, and was completely destroyed by Kawashima's introductory speech.

Discussion followed the speeches of the Communist. Russian conditions were fully explained by the two speakers. The ideology of Second International and the reformists was exposed by the speakers.

The meeting lasted until midnight. The Japanese newspaper in New York reported that a movement of criticism of the Oriental branch of the Japanese M. E. church, which conducted the discussion.

MUSSOLINI RANTS AT COMMUNISM BUT BOWS TO POWER OF SOVIETS

(Special to The Daily Worker) MOSCOW, May 14.—As reported from Rome, the Il Pogram d'Italia. Mussolini's organ, has published an editorial under the title of "The Soviet Republic and Europe." Dwelling on the question of the relations between the Union of Soviet Socialist Republics and Poland, the author of the article remarks that "it was the Bolshevik revolution of 1917 that gave the possibility of restoring greater Poland."

"However, the Poles themselves seem to fail to understand that if casarian had been overthrown and had remained among the victors of consolidation of the Soviet regime with all the ensuing consequences makes it expedient for Italy to consider and explore, from the viewpoint of her own interests, all the possibilities of consolidating the good mutual relations with the great country united under the rule of the Soviet order."

Affects Italy Too. Commenting upon the above article, the Mondo, the organ of Mr. Nitti's democratic group, astonishment. "We have been accustomed to the fascist press warning us against the danger of Communist propaganda and other 'terrors' but now it appears that, far from being a menace, the Union of Soviet Socialist Republics is an ideal for all Europe, including our own country."

"All this Mr. Mussolini's organ publishes under the guise of advice offered to Poland," but—rightly concludes the opposition organ—"all the views of the fascist press have a definite significance for Italy, too."

BUILDERS AT WORK

CHICAGO LEADS THE PARADE TODAY!

DETROIT, PHILADELPHIA AND GRAND RAPIDS RIGHT BEHIND

Grand Rapids Michigan has tossed its hat in the ring right with the big locals with seven subs set in today after a week's free distribution. Here they are with the rest of the comrades who have sent in new subs to build "Our Daily" on May 13.

- DETROIT, MICH.—A. E. Goetz (11) CHICAGO, ILL.—David Miller (?); Sam Hammermark (3); GRAND RAPIDS, MICH.—Eugene Bechtold (7). PHILADELPHIA, PA.—Lena Rosenberg (?). PROVIDENCE, R. NEW YORK BUILDERS, ATTENTION!

COMRADES GRECHT AND BEN LEVY—YOU ARE CALLED TO ACTION

This system of getting a sub and then calling another comrade to action is check-full of possibilities. Many have been challenged and have responded nobly like the good Red Soldiers they are and went out to get new subs and GOT THEM.

Comrade Malkin of New York, a veteran builder in getting subs, got another and with it challenges Comrade Rebecca Grecht to "go out and do likewise."

Comrade L. Cooper of the Williamsburg English branch is even more ambitious. He got two subs and issues a double challenge to Comrade Ben Levy of New York to get two also.

Answer the challenge comrades and keep the ball rolling to bring more bricks to build a greater party to help us build the Communist movement!

Since the idea was first proposed by Comrade Shklar of Milwaukee, who got the habit from our comrades in Russia, challenges to get subs have been coming in a steady stream. Many have brought splendid results and the rest we are sure will respond before June 15.

If you have been successful in getting a sub (and for a Communist this job is a cinch!) send it in at once and call another Communist to action.

C'mon Over!

If you have a day, an hour, or a minute to spare—why, c'mon over. There is so much work piled up on the small force in our office that we need your help so very badly, to insert letters, address, seal and stamp envelopes and ever so many other little jobs that have us swamped. If you volunteer your services that's a fine way to help the DAILY WORKER. We'll be glad to see you—so just for fun, c'mon over!

Now You Can Have Both—

The Workers Monthly

AND The Daily Worker

But You Must Act Before June 15!

With every subscription to the DAILY WORKER for one year (or \$6.00 worth of subs—\$8.00 worth in Chicago) you can now have the pleasure of getting not only the fighting DAILY WORKER but also the additional satisfaction of a six month sub to the WORKERS MONTHLY—a Communist magazine—WITHOUT CHARGE.

These are two fiats of a fighting Communist organization—and these are two means by which we gather not only a complete picture of every step in the march of militant labor the world over—but also the understanding that makes you a better fighter in its ranks.

The Second Annual Sub Campaign for the DAILY WORKER ends on June 15—and the offer of a six month sub to the WORKERS MONTHLY with a year sub to the DAILY WORKER is good only until then.

PATRIOTIC WOMEN HIT AT AGAIN BY WOMEN'S COUNCIL

WASHINGTON, D. C., May 14.—The American patriotic women were given a jolt when the international women's council in convention here voted to endorse the league of nations, the world court, disarmament and kindred projects. More ill feeling cropped up when they issued a statement charging the council will bring merely the "propaganda agent of the league."

"Members of the Daughters of the American Revolution," said Mrs. Harris, "have been trying since the league was formed to promote ill feeling in the council itself over these resolutions."

Mrs. Harris also charged the daughters with "betraying" in repudiate their contract to permit that auditorium to be used by the council for its meeting.

"Three years ago Mrs. Anthony Wayne Cook, president of the D. A. R. agreed to permit us to meet in their memorial auditorium.

"Last October we were suddenly notified we could not use it. It said our use of the hall would be 'inconvenient,' and gave no other explanation."

"The council, she said, had lost to cause of the withdrawal of the hall approximately \$2,000.

Mrs. Harris said officials of the council, to assure the D. A. R. of no patriotic propaganda would occur during the meetings, had more than one year in advance obtained copies of speeches to be made at the present meeting, all of which was found to be proper.

By a vote of 113 to 215 a motion for affiliation with other international organizations of women was defeated, two-third majority was necessary under the council's constitution if adoption. "The names of about thirty international bodies that might affiliate were given.

The fight against affiliation was by the American delegation. Prof. Marian F. Whelan of Vassar college, N. Y. chairman of the council's education committee declared affiliation with other international would make the council a lawfully organization.
